These Vessels with Goods and Passengers sail from Glasgow to Dumbarton, Lochlomond, Helensburgh, Port-Glasgow, Greenock, Gourock, Largs, Millport, Ardrossan, Ayr, Stranraer, Campbelton, Dunoon, Rothesay, Lochgoilhead, Inverary, Lochgilphead, and places round the coast—Easdale, Oban, Tobermorry, Fort-William, Inverness, Skye, Staffa, Isle of Man, Liverpool, Belfast, Londonderry, Dublin, &c.

The names of the Vessels and time of sailing, which is regulated by the tides, may be known at the Cross, Exchange, Post-office, Foot of Glassford-Street, South West Corner of George's Square, Corner of St. Enoch Square, Foot of Jamaica Street, and foot of Stockwell and Clyde street, &c. where advertising boards are put up.

PAISLEY CANAL.

A Boat for Passengers leaves Glasgow for Paisley and Johnston, at 10 o'clock, forenoon, and at 4 and 6 afternoon in summer; at 10 forenoon, and 4 afternoon in winter; and an extra Boat on Wednesday, at 6 afternoon in summer, and at 5 in winter; fare to Paisley 9d. and 6d.—to Johnston, 9d. and 1s.

Tract Boats for Goods, depart from Glasgow for Paisley and Johnston at 6 morning—from Johnston for Paisley at 9 morning—and from Paisley for Glasgow, at 10 and 12 forenoon; agents, John M'Gee, Port Eglinton, and James Stewart, Moodie's court, where list of freights may be seen.

MONKLAND CANAL.

A Passage Boat starts from Faskin, (11 miles distant from Glasgow) at half past 7, morning, and from the Bason, Townhead, at 4 o'clock, afternoon; fare 8d. and 1/3—other Craft for coals and heavy articles daily.

BILLETING SOLDIERS.

Soldiers on the recruiting service and not lodged in the Barracks are billeted on the Inhabitants in regular rotation, with the following exceptions, viz. Parish Ministers and Schoolmasters, Faculty of Physicians and Surgeons, Faculty of Procurators, Widows, and unmarried Ladies not in business, and who do not keep lodgers and paupers; and no Inhabitant to have Soldiers billeted on them a second time, till the whole are gone over.

Occupiers of houses at £3 and under £5 yearly rent, two men for any number of days under a week—at £5 and upwards, two men for two weeks, or the remainder of the month, which may happen to be seventeen days.

When it is inconvenient to furnish Soldiers with a bed, it has been usual in lieu thereof to pay 3s. a week for two men, and 2s. to sergeants, payable weekly at the option of the Inhabitant. Government allows a return of 9d. per week and one penny for each odd night for each Soldier. The Billet master attends from 11 to 3 o'clock on the 28th of each month (when it does not fall on Sunday) and the two following days, to pay the Government allowance.

N. B. The case of a sergeant who charged 8/ for a billet of two weeks, upon an inhabitant, was brought before the sitting Magistrate, who, after hearing both parties, and examining witnesses, ordered the soldier to refund the overcharge, and communicate this circumstance to his comrades; and decreed that 1/6 per week is a sufficient sum in lieu of a bed; but as the soldier is put to some trouble to provide a bed for himself, he should be allowed 6d. additional, making a sum of 2/ per week; and if at any future time a higher charge is made, it should not be allowed to pass unnoticed.

Glasgow Herald, 23d Dec. 1822.

A case similar to the above was tried in the Justice of Peace court, when a sergeant made a charge of 3s. per week, for one man, for a bed, which the inhabitant resisted as being too much; the Justices adhering to a decision of the Magistrates in December, 1822, decided, that 2s. per week was the proper sum to be paid to one man in lieu of a bed.

This Table is carefully computed, from the latest formula of La Place, for *mean time* at Glasgow.—At spring tides the ordinary depth of water, at the time of high water, at the Broomielaw, is about 10 feet; at low water, about 3 feet. During neap tides, the depth at high water is about 8 feet, and at low water about 4 feet. However, when there is a continued fall of rain, the depth of water will be greater. From the local situation of Glasgow, the height and time of the tide are influenced in a considerable degree by strong winds. And, as the Table is calculated on the supposition that the winds have no influence, it will be necessary to keep in mind the subjoined remarks. When the wind blows strongly from the North-West, North, or North-East, it will be high water about half an hour sooner than the time specified in the Table, and the tide will not rise so high as usual, by a foot, or a foot and a half. With the wind from the South-East, South, or South-West, the time of high water will be from 20 to 30 minutes later, and the tide from 12 to 15 inches higher. The tide usually flows for 5 hours, and ebbs for 7 hours. This, likewise, is modified by the winds. A strong gale from the East, although it scarcely alters the time or height of the tide, causes it to take off very quickly; so much, sometimes, as $2\frac{1}{2}$ to 3 feet in the course of an hour. If, to the time of high water, we apply the time opposite to the places in the following columns, either by adding or subtracting it as directed, we will then have the time of high water at those places.
