THE Publishers of the POST-OFFICE GLASGOW DIRECTORY cannot allow the present volume to pass into the hands of the Public, without acknowledging the extensive patronage enjoyed for a long series of years.

The only new feature this year is a thoroughly revised Map. In no year has it appeared so complete and perfect as in this. A very cursory examination of it will convince every one that its revision must have been a work of great labour and expense; and the Publishers venture to say that it is incomparably the best Map of the City extant. The Publishers, however, have it in contemplation, at no distant period, should the Public continue their generous support to the Directory, to have a fresh plate engraved, which, perhaps, may be extended so as to include a larger area than is included in the present Map. When such a course has been determined on, full particulars will be given in due time.

Complaints having reached the Publishers that the binding was insufficient, and in many instances the volume soon got loose and infirm, the binder was instructed to rectify this. Each volume is now better sewed, and greater adhesion and firmness will no doubt be the result. The usual care has been bestowed in arriving at accuracy in the various lists, and the Publishers have much pleasure in submitting the Thirty-first Volume of the Directory for public approval; and they will be happy to receive suggestions for improvements of a practicable nature, which shall at all times receive their earnest attention.

ALMANAC AND TIDE TABLE.

FROM JUNE 1858, TILL JUNE, 1859.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean, as in the following figure:

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide, A, is produced by the waters receding from the earth, and the tide, D, by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Céleste* the mean force of the sun in raising the tides is to the mean force of the moon as 1 to $1\frac{1}{2}$; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when she is in conjunction with the sun, and at full moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring Tides take place about two days after full moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanac* for 1857 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's phases are calculated to civil time. The civil day begins at midnight.

TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained by addition, as here annexed.

ECLIPSES OF THE SUN AND MOON.

In the year 1859 there will be four Eclipses of the Sun and two of the Moon.

I.—A partial Eclipse of the Sun, February 2, 1859, at Greenwich. Begins on the earth generally, February 3, 4 minutes past 1 a.m., meantime at Greenwich, in longitude $58^{\circ} 53'$ west, and latitude $66^{\circ} 38'$ south. Greatest Eclipse, February 3, 22 minutes past 1 a.m., longitude $71^{\circ} 51'$ west, and latitude $62^{\circ} 36'$ south. Ends at 40 minutes past 1 a.m. on February 3. This Eclipse is only visible in a small portion of the Southern Ocean, parallels of latitude 55° .

II.—A Total Eclipse of the Moon, February 16-17, 1859, invisible at Greenwich.

III.—A partial Eclipse of the Sun, March 4, 1859, invisible at Greenwich. Begins on the earth generally, March 4, 38 minutes past 5, and ends on the earth, March 4, 11 minutes past 8 p.m., longitude $146^{\circ} 30'$ west, latitude $82^{\circ} 54'$ north.

IV.—A partial Eclipse of the Sun, July 29, 1859, invisible at Greenwich. Begins on the earth, July 29, 26 minutes past 8 p.m., longitude $94^{\circ} 13'$ east, latitude $66^{\circ} 26'$ north. Ends July 29, 25 minutes past 11 p.m., longitude $66^{\circ} 43'$ west, latitude $33^{\circ} 39'$ north.

V.—A total Eclipse of the Moon, August 13, 1859, invisible at Greenwich.

VI.—A partial Eclipse of the Sun, August 27, 1859, invisible at Greenwich. Begins on the earth generally, 28th, 30 minutes past 3 a.m., meantime at Greenwich, in longitude $42^{\circ} 57'$ east, and latitude $28^{\circ} 3'$ south. Ends on the earth generally, August 28, 31 minutes past 6 a.m., in longitude $120^{\circ} 34'$ east, and latitude $77^{\circ} 23'$ south.

EXEMPLIFICATION AND CONSTRUCTION OF THE FOLLOWING TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

RULE.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction, and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place; from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

On the 1st April, 1859, the sun's longitude was $11^{\circ} 14'$, and the obliquity of the ecliptic $23^{\circ} 28'$, required the sun's declination at noon.

Required the time of the rising and setting of the sun at Glasgow, in latitude $55^{\circ} 52'$ north, and longitude $4^{\circ} 16'$ west, January 10, 1859.

By a table of semidiurnal arcs, the approximate time of the sun's rising and setting is—

The sun's declination reduced to these times is $22^{\circ} 1'$ and $22^{\circ} 1\frac{1}{2}'$, and the polar distances are $112^{\circ} 1'$ and $112^{\circ} 2'$. The horizontal refraction is $33'$, less the sun's parallax is $32' 51''$ $\div 90 = 90^{\circ} 32' 51''$; and hence the following computation:—

NOTE.—The latitude of Glasgow is $55^{\circ} 52'$ north, the longitude $4^{\circ} 16'$ west of Greenwich; consequently there are 17 minutes of difference of time between the clocks of Greenwich and the clocks of Glasgow, the Greenwich time being earlier. The clocks of the United Kingdom are now generally adjusted to Greenwich mean time.

Exemptions from the Duties on Drafts or Orders.—

All drafts or orders for the payment of money to the bearer on demand, drawn upon any banker or bankers, exempt from stamp duty at the date of the Act 17 & 18 Vict. c. 59. These are drafts on bankers who shall reside or transact the business of a banker within the distance of fifteen miles of the places where such drafts or orders shall be issued. They must specify the place where issued, and bear date on or before the day on which they are issued, and not direct the payment to be made

N.B.—The duties on Foreign Bills, drawn out of the United Kingdom, are to be denoted by adhesive stamps. The amount of duty on the adhesive stamps is impressed on two parts. The Board of Inland Revenue recommend that the cancellation should be on one of the parts, and the other left legible.

If a Foreign Bill payable abroad, and as to which the provision "drawn in sets of three or more" apply, shall be drawn in a single bill, the duty will be the same as on an Inland Bill, and if in a set of two, the duty on each will be the same as on an Inland Bill. This is in accordance with the opinion of the Board of Inland Revenue (see North British Daily Mail, 3d November, 1854). But the Board have given an opinion that a Foreign Bill drawn abroad and payable in this country in duplicate or triplicate only represents one transaction, and is liable to the duty on one Inland Bill of the same amount,—that is, if one of the parts have the full duty, the others may be unstamped (see Times, 6th November, 1854). The schedule of the act does not provide for such a Bill being drawn in sets. Bills bearing to be drawn out of the United Kingdom are to be deemed Foreign Bills so drawn, although they may in reality be drawn in the United Kingdom, 17 and 18 Vict. c. 83, § 4. A person in the United Kingdom drawing and issuing a bill payable out of the United Kingdom in a set, must draw the whole set, and a person transferring or negotiating such bill must transfer and deliver, stamped, the whole number of the set. Penalty, £100. A person taking such bill must get the whole set, stamped, otherwise he cannot recover on it or make it available, *ib.* § 6. This applies only to bills drawn within and payable out of the United Kingdom.

INLAND BILL, DRAFT, or ORDER for the payment of any sum of money, though not made payable to the bearer, or to order, if the same shall be delivered to the payee, or some person on his or her behalf, the same duty as on a bill of exchange for the like sum, payable to bearer or order.

INLAND BILL, DRAFT, or ORDER for the payment of any sum of money, weekly, monthly, or at any other stated periods, if made payable to the bearer, or to order, or if delivered to the payee, or some person on his or her behalf, where the total amount of the money thereby made payable shall be specified therein, or can be ascertained therefrom, or shall be indefinite, the same duty as on a bill payable to bearer or order on demand.

PROMISSORY NOTE for the payment of any sum of money by instalments, or for the payment of several sums of money at different days or times, so that the whole of the money to be paid shall be definite and certain, the same duty as on a promissory note, payable otherwise than to the bearer on demand, for a sum equal to the whole amount of the money to be paid.

RECEIPTS for money amounting to £2 or upwards, 1d.

The following provisions as to what shall be deemed a receipt, and the exemptions from receipt duty by 55 Geo. III. c. 184, are still in force:—

Any note, memorandum, or writing whatever, given upon the payment of money, whether signed or not, shall be a receipt if it shall import or signify that any sum of money, debt, or demand, or any part thereof amounting to £2 or upwards has been paid or settled; and like documents given upon payment by bills, drafts, promissory notes, or other securities for money, are also receipts.

According to decisions, a simple acknowledgment of a sum of money in loan, or of the correctness of a debt, or of a deposit of money, is not liable to stamp duty, either as a receipt or promissory note. The judges held it essential to render a receipt liable to duty that something formerly due had been discharged. On this principle a receipt for a sum of money as a donation to a religious or charitable purpose, not being anything formerly due, would not be liable. The Board of Inland Revenue have intimated that they are to regard such receipts as exempted.

Among the exemptions from receipt duty are—

Receipts written on promissory notes, bills, drafts, or orders for the payment of money, duly stamped.

Letters by the general post acknowledging the safe arrival of any bills of exchange, promissory notes, or other securities for money. This exemption is repealed by 17 and 18 Vict. c. 83, § 13. The effect of the repeal is, that letters by the general post are put on the same footing as letters delivered or sent otherwise. If they amount to acknowledgments of the statutory description (that is, whereby any sum of money, debt, or demand, or any part thereof, amounting to £2 or upwards, shall be expressed to have been paid, settled, balanced, or otherwise discharged or satisfied, or which shall import or signify such),—given for or upon payments made by or with bills of exchange, drafts, promissory notes, or other securities for money,—they will be liable to the receipt duty.

All such deeds which contain any settlement of lands or other property, or any other thing besides the settlement of such money or stock, shall be chargeable with such further duty as any separate deed containing such settlement of lands or other property, or other thing, would have been chargeable with, exclusive of the progressive duty.

And where there is more than one such deed chargeable with any such duty exceeding £1, 15s., one of them only shall be chargeable with the *ad valorem* duty; and also where any settlement shall be made in pursuance of any previous articles charge-

able with, and which shall have paid any such duty exceeding £1, 15s., it is not chargeable with the *ad valorem* duty; and the deeds not chargeable with the *ad valorem* duty shall be charged with the duty to which they are liable under any more general description in the stamp schedules; and on the whole being produced, duly executed and stamped, the latter shall also be stamped with a particular stamp for denoting the payment of the said *ad valorem* duty.

The inventory duty is paid on the whole personal property situated in Scotland, and probate or administration duty on the whole personal property situated in England and Ireland without deduction of debts; but the Act 5 and 6 Vict., c. 79, § 23,

provides for a return being given on proof of the constitution and payment of the debts. This repayment must be claimed within three years; but the time will be prolonged on application to the Board of Inland Revenue. If there be any omission in the inventory inferring payment of further duty, an additional inventory of such is required to be exhibited, by 48 Geo. III., c. 149, § 38; and § 40 provides that the same shall also specify the amount or value of the estate and effects of the same person comprised in the former inventory. By 16 and 17 Vict., c. 59, § 8, such additional inventory shall be chargeable only with such amount of stamp duty as, together with the stamp duty charged upon the former duly stamped inventory of the estate and effects of the same deceased person, shall make up the full amount of stamp duty, in respect of the total amount of all the estate and effects of the deceased specified in the said additional and any such former inventory. If the estate shall be over-estimated, or something improperly included in the inventory, an inventory on a stamp corresponding to the value must be exhibited, and the original inventory will be allowed on affidavit as a spoiled stamp, within six months of the recording of the second inventory.

The husband or wife of the deceased is not chargeable with duty. If the legatee's husband or wife is of nearer consanguinity than the legatee, duty is payable according to such nearer relationship. —16 and 17 Vict., c. 51, § 11.

This duty is payable for every legacy out of the personal or moveable estate, or out of or charged upon the real or heritable estate of the deceased, or out of any moneys to arise by the sale, mortgage, or other disposition of the deceased's real or heritable estate, or any part thereof: Also for the clear residue (after deducting debts, funeral expenses, legacies, and other charges first payable thereout) of the personal or moveable estate, whether the title to such residue shall accrue by virtue of any testamentary disposition, or upon a partial or total intestacy: And also for the clear residue of the moneys to arise from the sale, mortgage, or other disposition of any real or heritable estate, directed to be sold, mortgaged, or otherwise disposed of by any will or testamentary instrument.

Annuities are valued for legacy duty according to tables annexed to the Succession Duty Act.

Duty is not exigible on legacies or residues under £20; but if a legatee take two or more legacies under any testament, which shall together be of the amount of £20, each shall be charged with duty, though each or either may be separately under that amount.

N.B.—Printed forms and regulations for payment of the legacy duties will be obtained gratis, on application at the Legacy Duty Office, Inland Revenue, Edinburgh; and at the offices of the distributors of stamps in the country.

SUCCESSION DUTY, 16 and 17 Vict. c. 51.—The duty commences on the death of persons dying after the 19th May, 1853, and seems to be imposed on all property, both heritable and movable, passing by death, not liable to the duty on legacies and successions to personal estate upon intestacy—the duty imposed by the Legacy Duty Acts. The duty on *heritable property* is charged on the annual value, after allowance of the necessary outgoings (§ 22), as an annuity for the life of the successor (§ 21), which is to be valued by tables annexed to the act.

PERSONAL PROPERTY is liable to duty according to the value of the succession; and money charged on heritage—heritable securities—is chargeable as personality (§ 1).

Any other person, £10 per cent.

The husband or wife of the predecessor is not chargeable with duty (§ 18), and if the successor's husband or wife shall be of nearer consanguinity than the successor, duty is paid according to such nearer relationship (§ 11). The following are also *exemptions* from the succession duty:

1. Successions from the same predecessor, passing on any death, not amounting in principal value to £100 (§ 18). 2. Any succession of less value than £20 in the whole (ib.). 3. Legacies and personal property charged with legacy duty, in respect of the same acquisition (ib.).

Note.—The collection of the succession duty will form a branch of the business of the legacy department of the Inland Revenue. Forms of the accounts may be obtained at the Legacy Duty Office, Edinburgh, and at the offices of the distributors of stamps in the country.

POSTAGE STAMPS, &c.

Prepayment of Inland Letters, &c., must be by Stamps.

RATES OF POSTAGE.*Inland Letters.**

1. The rate of postage on all inland letters is regulated by weight, irrespective of distance, and (with the exceptions afterwards mentioned) is as follows:

If paid in advance—

Letter weighing not more than $\frac{1}{2}$ oz. 1d.
 Letter weighing more than $\frac{1}{2}$ oz. but not exceeding 1 oz., 2d.
 Letter weighing more than 1 oz., but not more than 2 oz., 4d.
 Letter weighing more than 2 oz., but not 3 oz., 6d. and so on; twopence being charged for every additional ounce.

2. As a general rule, the postage, if not paid in advance, is double the foregoing; and if the payment in advance be insufficient, double the deficiency is charged. An inland letter, for example, weighing more than half an ounce, and not exceeding one ounce, if bearing a penny stamp only, is, on delivery, charged twopence. The unpaid *additional* postage on re-directed letters, however, is not doubled, being the same as if such postage were pre-paid. Unless three quarters, at least, of the postage of a letter weighing more than 4 oz. be prepaid, the letter is not forwarded, but is returned to the writer.

Colonial and Foreign Letters.

3. The rates of postage on letters to foreign countries and the colonies are entered in the Table of Colonial and Foreign Postage at page 16.

Addresses to the Queen and Petitions to Parliament.

4. Petitions and addresses to her Majesty, forwarded direct, are exempt from postage; and such petitions and addresses, as also petitions to either House of Parliament, if sent to a member of either House, are likewise exempt, provided they do not weigh more than two pounds, and are without covers, or are in covers open at the sides. No letter or other enclosure, however, must be inserted, and if one be found, such enclosure, unless it bear the proper number of postage stamps, will be charged as an unpaid letter.

Newspapers and other periodical Publications bearing the Newspaper Stamp.

5. Although provision is made for forwarding newspapers, books, and money through the post, it is not compulsory on any one to employ this mode of transmission; everything except letters may be sent in any other way.

6. All periodical publications, including newspapers published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear an impressed stamp or stamps denoting the stamp duty (of the kind formerly confined chiefly to newspapers), may be transmitted and re-transmitted through the post within the United Kingdom free of postage under the following regulations, viz:—

1st. They are subject to the same restrictions with regard to the number of sheets and superficial extent as were lately applicable only to newspapers properly so called. These restrictions are shown in the following table:—

Amount of Stamps Impressed on the Publication.	Maximum Number of Sheets.	Maximum Superficial Extent of Letterpress on One Side.
One Penny - -	Two - - -	2,295 inches.
Three Halfpence -	Three - - -	3,443 "
Two Pence - -	Four - - -	4,591 "

2d. No publication, or portion thereof, can pass through the post unless the impressed stamp which it bears be a stamp of the value at least of one penny.

3d. The title and date of the publication must be printed at the top of every page.

4th. The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside, except that where there are more than two publications in the same cover it will be considered sufficient if the stamps be so arranged that they can readily be examined.

5th. It must not be printed on pasteboard or card-board, or on two or more thicknesses of paper pasted together, nor must any pasteboard, cardboard, or such pasted paper be sent with it as a back or cover thereto, or otherwise.

6th. It must be posted within fifteen days from the printed date of issue.

7th. It must have either no cover or a cover open at the ends.

8th. It must contain no enclosure.

9th. It must have no writing or other mark thereon, but the name and address of the person to whom it is sent, nor anything on the cover but such name and address, the printed title of the publication, and the printed name and address of the publisher or vender who sends it.

10th. If the publication be addressed to any person within the free delivery of the place where it is posted, it will become liable to a postage of one penny, which must be prepaid by affixing a postage stamp.

11th. When a newspaper, &c., is so folded as not to expose the stamp or stamps, a postage of one penny is charged in addition to any other postage to which the publication, if properly folded, would be liable; and if the newspaper, &c., be addressed to any person within the free delivery of the place where it is posted, and do not bear a penny postage label, it will be charged 2d. In case of any other irregularity the publication is dealt with as an unpaid letter.

12th. It is suggested that every publication should have a notice to purchasers conspicuously printed, pointing out the necessity of exposing the stamp or stamps to view whenever the publication is sent through the post.

13th. Unstamped publications, or stamped publications which have been issued more than fifteen days, can be forwarded within the United Kingdom and to most of the colonies under the regulations of the book post.

7. Newspapers sent abroad are liable to the same

* Inland letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

regulations as newspapers passing (under the newspaper privilege) between different parts of the United Kingdom, except as regards size, and that, before going abroad, the name of the newspaper must have been registered at the General Post Office, and that, instead of requiring to have an impressed stamp (by which is meant the stamp specially used for newspapers), each newspaper, if sent to a British Colony, is liable to a postage of 1d. (which must be prepaid by a postage label or in money*), together with an additional postage (as shown in the Table of Colonial and Foreign Postage) when the newspaper has to pass through a foreign country. In the same table will be found the postage of newspapers sent to foreign countries. In all cases of newspapers going abroad the impressed stamp stands for nothing. Publications registered for transmission abroad, although not strictly newspapers, are in all respects treated as such, as far as their transmission by the British office is concerned.

Parliamentary Proceedings.

8. Printed proceedings of the Imperial Parliament, sent without covers, or in covers open at the ends, may circulate within the United Kingdom at the following rates of postage:—

Weighing not more than 4 oz.,.....	1d.
Weighing more than 4 oz., but not exceeding 8 oz.,.....	2d.
Weighing more than 8 oz., but not exceeding 12 oz.,.....	3d.
Weighing more than 12 oz., but not exceeding 16 oz.,.....	4d.
and so on; one penny being charged for every additional 4 oz.	

The words "Parliamentary Proceedings" must be written or printed on the cover of the packet, otherwise it will be liable to the letter-rate of postage.

Prepayment, when the circulation is within the United Kingdom, is optional; and if it be made in part, the simple difference only is charged.

Printed proceedings may be sent under the Book Post privilege to all the Colonies, and to those foreign states between which and this country there is a Book Post. See pages 5, 11, 12.

9. The following are the Regulations of the Inland Book Post Rates of Postage:—

Weighing not more than 4 oz.,.....	1d.
Weighing more than 4 oz., and not exceeding 8 oz.,.....	2d.
Weighing more than 8 oz., and not exceeding 16 oz.,.....	4d.
Weighing more than 1 lb., and not exceeding 1½ lb.,.....	6d.
and so on, 2d. being charged for every additional half pound or fraction of a half pound.	

1st. The postage must be prepaid in full, by means of postage stamps affixed outside the packet or its cover.

2nd. Every packet must be sent either without a cover, or in a cover open at the ends or sides; so as to admit of the enclosures being removed for examination. For the greater security of its contents, the packet may be tied at the ends with string, but in such case the Postmaster is authorized to cut the string, although he is required to refasten the packet.

3rd. A Book packet may contain any number of separate books or other publications, (including printed letters and printed matter of any kind), prints, or maps, and any quantity of paper, parchment, or vellum; and the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. Further, all legitimate binding, mounting, or covering of a book, publication, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached; as also rollers, in the case of prints or maps; markers (whether of paper or otherwise), in the case of books; and, in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto; but no patterns, or books of patterns (unless these consist merely of paper) can be allowed.

4th. No book packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter written in any such packet or in or upon its cover. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter. Indeed, as respects the name and address of the sender, not only is the writing permitted but recommended; so that if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned.

5th. No book packet must exceed two feet in length, width, or depth.

6th. Any packet which shall not be open at the end or sides, or shall have any written letter or any communication of the nature of a letter written in it, or upon its cover, will be charged with the "unpaid" letter postage.

7th. If a packet be found to contain any written letter, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the letter or enclosure will be taken out and forwarded to the address on the packet, charged with the full postage, as an unpaid letter, together with an additional rate, 1d.; and the remainder of the packet, if duly prepaid with stamps, will then be forwarded to its address.

8th. If a packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of 1d., it is forwarded, charged with the deficient book-postage, together with an additional rate; but any packet which bears no postage stamp is charged with the "unpaid" or double-letter postage.

9th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

10. At the following charges, and on the same conditions as the foregoing (except that no packet weighing more than three pounds can be sent to the East Indies or to New South Wales), book-packets can be forwarded to every British Colony:—

To India, Ceylon, New South Wales, Victoria, Tasmania (Van Diemen's Land), South Australia, Western Australia, New Zealand, Mauritius, and Hong Kong, the charge is as follows:—

Weighing not more than 4 oz.,.....	0s. 4d.
Weighing more than 4 oz., but not exceeding 8 oz.,.....	0s. 8d.
Weighing more than 8 oz., but not exceeding 1 lb.,.....	1s. 4d.

* Newspapers posted unpaid are retained at the Returned Letter Office for one week, and then, if the postage still remain unpaid, are destroyed.

Weighing more than 1 lb., but not exceeding

1½ lb.,.....2s. 0d.

and so on; 8d. being charged for every additional half pound or fraction of a half pound.

Charges to every other British Colony:—

Weighing not more than 4 oz.,0s. 3d.

Weighing more than 4 oz., but not exceeding

8 oz.,.....0s. 6d.

Weighing more than 8 oz., but not exceeding

1 lb.,.....1s. 0d.

Weighing more than 1 lb., but not exceeding

1½ lb.,.....1s. 6d.

and so on; 6d. being charged for every additional half-pound or fraction of a half pound.

11. The Head Postmaster who first receives a book-packet is required, whenever he has ground for suspecting an infringement of any of the above conditions, and occasionally, even when there is no ground for suspicion, to open and examine the packet; and every book-packet which is not open at the ends or sides, or which exceeds two feet in length, width, or depth, or which has any letter, or any communication of the nature of a letter, written (or, in the case of a Colonial book-packet, printed) in it or upon its cover, or which does not bear postage stamps equal to a single book-rate, is ordered to be sent up, with as little delay as possible, to the Returned Letter Branch of the Circulation Office in London, Dublin, or Edinburgh, as the case may be; but in the case of any other infringement of the regulations, the packet is dealt with by the Postmaster himself, in accordance with the above regulations.

12. To prevent obstacles to the regular transmission of letters, any Head Postmaster may, when necessary, delay forwarding a book-packet for a period not exceeding twenty-four hours beyond the ordinary time; and at Packet Offices* the delay may, at the option of the Postmaster, be either for that period, or until the despatch of the mail next after that by which the book-packet ought otherwise to be forwarded.

REGISTRATION.

13. By the prepayment of a fee of sixpence† any letter, book, or other packet on which the postage has been prepaid in stamps may be registered. This will make its transmission more secure by rendering it practicable to trace it, when inland, from its receipt to its delivery; and when colonial, if not to its delivery, at least to the port of despatch. The Post Office does not guarantee the safe delivery of the letter, &c., though the officers are of course responsible to the Postmaster-General, who will call to strict account any one neglecting his duty on this point, and, if his Grace think proper, will require him to make good any loss that may be sustained thereby.

14. The postage of registered letters must be prepaid; and if the letter be inland, it must be prepaid in stamps.

* Packet Offices are those at which mails are made up for despatch by packets (as distinguished from private ships) to places abroad; such are the offices of London, Liverpool, and Plymouth.

† This fee, in the case of a letter addressed to a place abroad, or posted in London, may be paid either in money or stamps; but in all other cases it must be paid in stamps.

15. Every letter to be registered should be presented at the window, and a receipt obtained for it, and must on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered" be dropped into the letter-box, it will be liable to a registration fee of one shilling, instead of the ordinary fee of sixpence. No Letter Carrier or Rural Messenger is required to take letters from the Public for the purpose of registering them.

16. The latest time for posting registered letters is entered in the Notice exhibited in every Post Office, such time, unless otherwise directed by the Surveyor, being half an hour before the closing of the box for the mail by which it is to be despatched.

17. Parliamentary notices may be forwarded through the post under the following regulations:—

1st. The words "Parliamentary Notice" must be legibly printed on the face of the letter; and in order to secure the speedy return of any notices which may be undelivered, the name and address of the solicitor issuing such parliamentary notice should also be legibly printed or written on the face of the letter; though this is not imperative.

2nd. These notices must be posted either at the General Post Office, St. Martin's-le-Grand, in London; the General Post Office in Dublin; the General Post Office in Edinburgh; or at the chief office at one or other of the following towns:—

Aberdeen,	Inverness,
Athlone,	Leeds,
Belfast,	Lincoln,
Birmingham,	Liverpool,
Bristol,	Manchester,
Cork,	Newcastle-upon-Tyne,
Exeter,	Norwich,
Glasgow,	Shrewsbury.

3rd. All notices, which by the standing orders of either House of Parliament are required to be served on or before the 15th December, must be posted on or before the 12th December, unless the 12th fall on a Sunday, when they must be posted not later than the 11th; but those notices, which by the same orders may be served later than the 15th, may be posted after the 12th of that month.

4th. The postage chargeable on these notices must be prepaid by stamps; the registration fee of sixpence on each notice being paid in the usual manner.

5th. The notices must be posted at the Post-Office window, accompanied with duplicate lists of the addresses; the notices being arranged, for the convenience of comparison, in the order of the list. These lists are examined by the officer in attendance at the window; and if each list correspond with the addresses, he will sign and stamp every sheet of each list. One of the duplicate lists will then be returned to the person who brought the letters, and the other forwarded to the Secretary, General Post Office, London.

18. The hours for receiving both parliamentary notices and the under-mentioned voting notices are the same as those for the registry of ordinary letters, unless the parliamentary notices be presented at such a time as to interfere with the ordinary duties of the office; in which case the Postmaster may appoint any other time within the next twenty-four hours for receiving the same; provided that, when the notices are to be served on or before the 15th Dec., such arrangement do not delay the posting beyond the 12th.

19. Whoever sends parliamentary notices, should, if possible, arrange on the day before with the Postmaster as to the most convenient time for posting them, and state the probable number.

20. On prepayment of the postage and of a registration fee of twopence, a notice belonging to any one of the classes enumerated in the Act 6 Vict. c. 18 (relating to votes for members of Parliament) can be sent through the post with the securities for their safe delivery enjoined by law, provided it be brought duly directed, open and in duplicate, to a Postmaster of an office where money-orders are issued or paid.* On receiving the notice, the Postmaster has to compare it with the duplicate, and if the two agree the latter will be stamped and returned to the bearer.

21. When a poll-book is presented by any returning officer to be forwarded by post, the Postmaster is required to give to such officer an acknowledgment thereof in writing, stating therein the time when he received it.

22. No registration fee is demanded for poll-books, and the prepayment of the postage is optional, without regard to weight.

POSTAGE STAMPS.

27. Every Postmaster and Letter Receiver is required to have on hand a sufficient stock of postage labels and penny stamped envelopes, and to sell them to the public at the following prices:—

Stamped Labels.

Penny Labels,.....	1d. each.
Twopenny do.....	2d. each.
Fourpenny do.....	4d. each.
Sixpenny do.....	6d. each.
Shilling do.....	1s. each.

Stamped Penny Envelopes.

† 12 to be sold for	1s. 1½d.
8 " 	0s. 9d.
6 " 	0s. 6¾d.
4 " 	0s. 4¾d.
2 " 	0s. 2¾d.
1 " 	0s. 1¾d.

28. Every Rural Messenger is authorized and required to sell postage stamps at the same prices at which Postmasters are empowered to sell them.

29. Prepayment of inland letters, &c. must be by stamps,‡ except at the Chief Post Office, London, where prepayment of such letters from 10 a.m. to 5 p.m. is permitted in money, provided the amount be not less than £1. Letters also to the colonies and foreign countries may be prepaid in money. Except in the case of letters posted in Malta, Gibraltar, and Constantinople, and by sailors in Her Majesty's service, British postage stamps, however, are not available for the payment of letters, &c., coming into the country.

30. When adhesive stamps are used, they should be examined to see that they firmly adhere, since if they fall off, the letters, &c., will be charged with

postage, which in the case of inland letters and of some foreign letters, is double the prepaid rate. The stamps should be placed on the front of the letter, and upon the right-hand corner of the upper side.

31. Arrangements have been made by which paper and envelopes taken by the public to Somerset House can be impressed with postage stamps.

MONEY ORDERS.

32. The public are recommended, when applying for Money Orders, to use printed "Requisition Forms," which save time, and afford greater security, than verbal messages, against mistakes. These Forms are sold by Postmasters at the rate of ten for one penny, or five or any smaller number for a half-penny.

33. The commission on a Money Order not exceeding £2 is threepence, and on one above £2 it is sixpence; no order being granted for more than £5.

34. No order is allowed to contain a fractional part of a penny.

35. With the subjoined exceptions, no Money Order can be issued unless the applicant furnish, in full, the surname and one Christian name, both of the remitter (the person who sends the order) and the payee (the person to whom the money is to be paid), together with the remitter's address; and if the name of either party be tendered at greater length, it must be received and advised accordingly:—

1st. If the particulars be furnished in writing (whether by filling up the blanks in the printed form or wholly in manuscript), it will not be necessary to give the Christian name in full; it will be sufficient if the first letter be given.

2nd. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient; and if a firm, the usual designation of such firm will suffice,* except a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company," to which kind of company the above privilege does not extend.

3rd. When the remitter notifies in writing that the order is to be paid through a bank, it is left to his option to give or withhold the name of the payee.

36. When application is made for a Money Order payable in London or any other town where there is a plurality of Money Order Offices, the remitter should say at which of such offices he wishes it to be paid, otherwise the order can be cashed at the chief office alone. It is not incumbent on a Postmaster to supply such information relative to local or provincial offices, but the nearest Money Order Office to any street in London may be ascertained by referring to the Street List.

37. An order once issued cannot be cancelled; and should repayment or transfer to a different office or alteration of name be required, the remitter must apply to the Metropolitan Office, as directed in the 44th rule.

38. When an order is presented for payment (otherwise than through a Bank) the Postmaster has first to see that the signature of the payee be as full as the name given in the advice, and be not in any way inconsistent therewith. He has then to call on the applicant to give the name of the remitter, and if the reply be correct, the order will be paid,

* The posting of these notices is confined strictly to Post Offices where money-order business can be transacted; consequently, whenever such power is suspended at any office, none of these notices can there be received.

† Every complete dozen, or any larger number, must be charged at the same rate.

‡ Payment in stamps must always be made by affixing outside the letter, &c., before it is posted, a number of stamps equal in value to the amount of postage.

* The mere term Messrs., however, is not sufficient.

unless the Postmaster have good reason for believing that the applicant for payment is neither the rightful claimant, nor deputed by him. When an order is paid through a bank, it is sufficient that it be receipted (without regard to any discrepancy between the signature and the name in the advice, or to whether the receipt is given by the payee himself or by another person), and that it be presented (crossed with the name of the receiving bank) by some person known to be in the employment of the bank.

39. The holder of a Money Order is always at liberty to direct, by crossing it, that the Order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus crossed, the question put on the presentation of an Ordinary Money Order is dispensed with.

40. Money Orders do not require a receipt stamp.

41. Payment of an order must be obtained before the end of the second calendar month after that in which it was issued (for instance, if issued in January it must be paid before the end of March), otherwise the order becomes lapsed, and a new order will be necessary, for which a second commission will be charged. Any person presenting a lapsed order will be furnished with a copy of a printed notice headed "Lapsed Money Orders," containing directions how to proceed. If the order be not paid before the end of the twelfth calendar month after that in which it was issued (for instance, if issued in January, and not paid before the end of next January), all claim to the money will be lost.

42. No application can be entertained for compensation for alleged injury from the nonpayment of a Money Order at the expected time; and after once paying a Money Order, by whomsoever presented, the Office is not liable to any further claim. The public are therefore strictly cautioned—

1st. To guard against the loss of the Money Order:

2nd. Never to send the Money Order in the same letter with the information required on payment thereof:

3rd. To be careful on applying for a Money Order to state correctly the Christian, as well as the surname, of the person in whose favour it is to be drawn:

4th. To see that the name of the person taking out the order is correctly known to the person in whose favour it is drawn.

43. Under no circumstances can payment of an order be demanded on the day of issue; and, as respects orders granted at minor offices, time must be allowed for the advice to pass through the Metropolitan Office.

44. In case of the miscarriage or loss of a Money Order, a duplicate is granted on a written application (with the necessary particulars) to the Controller of the Money Order Office of the kingdom where the original order was issued; and by a similar application to the same officer, who (except as regards a temporary power to stop payment) can alone act in such cases, authority can be obtained to transfer the payment of an order from one office to another, or to stop payment, or to correct any error in the name of the remitter or payee, or to repay the money to the remitter. Every such application, however, must contain, in postage stamps, a second commission (namely, threepence for an order not exceeding £2, and sixpence for an order above

that sum), though one commission will suffice even when, in the same application, more things than one, relating to the same order, are asked for; as both an alteration in the name of the payee and payment at another office. Unless a sufficient reason be given for an exception, the application must be either from the remitter or payee. Whenever, on complaint being made, it is found that the necessity for an application entailing the payment of a fresh commission is attributable to the Post Office, the stamps transmitted in payment of the commission will be returned; and when it can be ascertained where the blame lies, the officer in default will be required to pay the additional commission.

45. A Postmaster is required to give information how to apply for a duplicate order, &c., and must furnish the applicant with the prescribed form of application. Moreover, if payment of an order be refused in consequence of the replies to the questions respecting the remitter not corresponding with the entries in the advice, or of a difference in the name in the receipt, the Postmaster should advise the applicant for payment to communicate with the remitter, and request him to apply to the Controller of the Metropolitan Money Order Office of the kingdom in which the order was issued, enclosing in his application the additional commission (in postage stamps) chargeable for the alterations required.

46. No Letter Carrier or other servant of the Post Office is bound to procure a Money Order for any person, or to obtain payment for one, but such services are not forbidden.

47. No Money Order business is transacted on the Sunday; neither, in England, Scotland, or Ireland, is any transacted on Christmas Day or Good Friday; nor, in Scotland, on the Sacramental Fast Days; but for the convenience of the labouring classes the provincial offices are kept open on the Saturday night till 8 o'clock (or as near that hour as the despatch of the mail will allow), except where the Surveyor of the district considers such an arrangement unnecessary.

48. Money Orders are issued and paid at the Chief Offices in London, Dublin, and Edinburgh daily, between the hours of 10 a.m. and 4 p.m., except on Saturdays, when the hours of business are from 10 a.m. till 1 p.m. Orders are issued and paid at most provincial offices from 9 in the morning till 6 in the evening, and the time is never less than from 10 till 4. A Postmaster, however, is in some cases allowed to suspend the business during the time he is making up his letter bags, &c., provided a notice of the intervals be placarded at his office.

49. The agents of the Post Office in Malta and Gibraltar authorized to issue Money Orders on the several Money Order Offices in the United Kingdom, which orders the Postmasters in this country are required to pay; but no orders can be drawn upon the above-mentioned places.

MISCELLANEOUS RULES.

50. With the following exceptions, no letter, &c. can be forwarded by the post which is more than two feet in length, breadth, or depth, nor any unpaid packet which weighs more than four ounces, unless three quarters of the postage have been paid. The exceptions are:—

1st. Packets to or from places abroad.

2nd. Packets to or from any of the Government Offices or departments, or Public Officers.

3rd. Petitions or addresses to the Queen, whether directed to Her Majesty, or forwarded to any member of either House of Parliament.

4th. Petitions to either House of Parliament, forwarded to any member of either House.

5th. Printed Parliamentary proceedings.

51. No information can be given respecting letters which pass through a Post-Office* except to the persons to whom they are addressed; and in no other way is official information of a private character allowed to be made public.

52. Postmasters are not allowed to return any letter, &c., to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon: as every letter, &c., must be delivered to the person to whom it is directed, and to him alone.

53. Late letters, &c.,† are received till within five minutes of the despatch of the mails, except in those large towns where the Surveyor may deem an interval of ten minutes necessary, and excepting that no office is to be kept open merely for this purpose after ten o'clock at night.

54. No late letters, &c., are forwarded by the mail preparing for despatch unless prepaid, and that in stamps, so as to include both the ordinary postage and the late-letter fee.

55. With the subjoined exceptions, every re-directed letter or other postal packet will be liable to an additional postage (at the prepaid rate) unless the re-direction be not only made by an Officer of the Post-Office, but be to a place within the district belonging to the same Head Office. Thus, on a paid or un-paid letter re-directed by an Officer of the Post Office to any other postal district in the United Kingdom, and weighing not more than half an ounce, an additional postage is levied of one penny; or, if the weight be more than half an ounce but does not exceed an ounce, of twopence; and so on. Upon a book thus re-directed to any other postal district in the United Kingdom, and weighing above half a pound, but not more than a pound, an additional postage of fourpence is levied; or, if the book weigh more than one pound, but not exceeding two pounds, an additional postage of eightpence, and so on. A registered letter when re-directed, is not subject to a greater additional charge than an ordinary letter. Letters which have once been posted addressed to commissioned officers in the army, navy, or ordnance, employed on actual service in any of Her Majesty's colonies, or on any foreign station, or who, before receiving the letters may have started on their return home, or to another station, may be re-directed to such officers when removed *upon service*, and will be delivered to them for the same postage that would have been charge-

able had the letters been delivered at their original address. The same privilege extends to the letters of soldiers and seamen (see pages 10, 11), except as regards foreign postage, which must be paid. No such privilege, however, is allowed with regard to letters for a commissioned officer when such officer is in the United Kingdom, and was so when the letters were posted.

56. Every Postmaster is required to have a notice conspicuously placarded, giving information respecting the hours of attendance, the despatch and delivery of Letters, &c.

57. During the time the office is open on Sunday (viz. from 8 to 9) the public are allowed to prepay foreign or colonial letters, to purchase postage stamps, and to have letters registered; and all other duties are performed as usual, except the issue and payment of Money Orders, which, on that day, are wholly suspended.

58. At no office is there more than one delivery on the Sunday, Christmas Day, or Good Friday, nor, in Scotland, on the Sacramental Fast Days.

59. No Postmaster is bound to give change, or is authorized to demand change; and when money is paid at the Post-Office, whether as change or otherwise, no question as to its right amount, goodness, or weight can be entertained after it has been removed from the counter.

60. Except as regards foreign and colonial letters about to be prepaid in money, a Postmaster is not bound to weigh any letters or other packets for the public, though he may do so if his duty be not thereby impeded.

61. Postmasters are instructed not to receive any letter, &c., which there is good reason to believe contains anything likely to injure the contents of the mail bag, or the person of any officer of the Post Office. If such a letter, &c., be posted without the Postmaster's knowledge, or if at any time before its despatch he should discover any letter, &c., of the above description, he is directed not to forward it, but to report the case, with the address of the letter, &c., to the Secretary. The following are examples of the articles referred to:—

A glass bottle, or glass in any form; razors, scissors, needles, knives, forks, or other sharp instruments; leeches, game, fish, meat, fruit, or vegetables, bladders or other vessels containing liquids; gunpowder, lucifer matches, or anything which is explosive or combustible.

65. By the Act 1st Victoria, cap. 36, sec. 2, any person conveying otherwise than by the Post a letter not exempted from the exclusive privilege of the Postmaster General incurs a Penalty of £5 for every letter, and £100 for every week the practice is continued. The Sender also incurs a Penalty of £5 for every letter, with full costs of Suit.

66. The following are the Exceptions granted by the Act 1st Victoria, cap. 34, from the exclusive Privilege of the Post Office, in the Conveyance of Letters:—

1st. Letters sent by a private friend, so as such letters be delivered by such friend to the party to whom they shall be directed:

2nd. Letters sent by a messenger on purpose, concerning the private affairs of the sender or receiver thereof; commissions or returns thereof, and affidavits and writs, process or proceedings, or returns thereof, issuing out of a Court of Justice:

* The term "Post Office" applies to all Post Offices, whether Head Office, Sub-Office, or Receiving Office. A "Head Office" is an office subordinate only to a Metropolitan Office. Both Sub-Offices and Receiving Offices are under Head Offices; but at Receiving Offices letters are received only, not delivered.

† The term "Letters," &c., is meant to include everything sent by the post; whether letters, newspapers, parliamentary proceedings, books, or aught else. "Late letters" are such as are posted after the ordinary time, and which cannot therefore be sent forward by the mail then in preparation, unless extra payment be made.

3rd. Letters sent out of the United Kingdom by a private vessel (not being a packet boat):

4th. Letters of merchants, owners of vessels of merchandize, or the cargo or loading therein, sent by such vessels of merchandize, or by any person employed by such owners for the carriage of such letters, according to their respective directions, and delivered to the respective persons to whom they shall be directed, without paying or receiving reward or profit for the same in anywise:

5th. Letters concerning goods or merchandize sent by common carriers, to be delivered with the goods which such letters concern, without hire or other advantage for receiving or delivering such letters:

6th. No person is authorized to make a *collection* of such excepted letters for the purpose of sending them in the manner above described.

67. The following persons are expressly forbidden to carry a letter, or to receive or collect or deliver a letter, even though they shall not receive hire or reward for the same:

1st. Common known carriers, their servants or agents, except a letter concerning goods in their carts or waggons, or on their pack horses; and owners, drivers, or guards of stage coaches:

2nd. Owners, masters, or commanders of ships, vessels, steam boats, or boats called or being passage or packet boats, sailing or passing coastwise, or otherwise between places within Great Britain or Ireland, or between, to, or from ports within Her Majesty's dominions or territories out of the United Kingdom, or their servants or agents, except in respect of letters of merchants, owners of ships, or goods on board:

3rd. Passengers or other persons on board any such ships, vessels, steam boat, passage or packet boat:

4th. The owners of or sailors or others on board ship or boat passing on a river or navigable canal within the United Kingdom or other Her Majesty's dominions.

68. Local Postal Guides, price one penny, containing information special to the locality, are issued in England at the Post Offices at Birmingham, Bristol, Leeds, Liverpool, Manchester, and Sheffield; in Ireland, at Dublin, Cork, and Belfast; and, in Scotland, at Edinburgh and Glasgow.

TIME OF POSTING.—When the time for making

up a Mail is marked "Afternoon," the latest time (in Glasgow) for posting Letters by it for Abroad, is 3.15 P.M., at the Chief Office. When marked "Evening," 7.20 P.M.

Optional or Compulsory Prepayment.

70. The asterisk * prefixed to a division (as that of Letters or Newspapers) indicates that in such case prepayment is compulsory. In other cases prepayment is not compulsory unless the Letter be registered. When a Letter or Newspaper, addressed to go by a route that requires prepayment, is posted unpaid, and there is some other route where prepayment is not required, it is sent by that route; but if there be none, it is sent to the Dead Letter Office, to be returned to the writer.

Distance to which the Postage carries the Letter, &c.

71. D. The letter D prefixed to any division (as that of Letters or Newspapers) shows that the postage there entered carries the Letter, &c., from the place where it is posted in the United Kingdom to its place of destination. In all other cases the postage carries it only part of the way. The word "Free," as applied in certain cases to Newspapers, &c., simply means that no charge is made upon them in this Country.

Letters for Non-commissioned Officers, Soldiers, and Seamen in Her Majesty's Service.

72. S. Subject to the subjoined regulations, non-commissioned officers, private soldiers or seamen, whether serving on board Her Majesty's Ships or Transports, on sea or land (in Foreign Parts), as also enrolled pensioners in Canada, can send and receive letters by direct Packet, Vessel of War, or Transport for a postage of 1d.

1st. The person claiming the privilege must at the time be actually employed in the service of Her Majesty, or of the East India Company, and must not be either a commissioned or warrant officer, midshipman, or master's mate, the privilege not extending to these officers.

2nd. If the Letter be posted within the United Kingdom, the penny must be prepaid, as must any foreign postage that may be chargeable; and if sent by a private ship the gratuity of one penny or twopence, as the case may be, to the captain must also be prepaid. If posted abroad, prepayment is not compulsory, but if the letter be sent unpaid, it is on delivery charged twopence, together with any foreign postage or gratuity to a sea captain that may be due.

3rd. The Letter must not weigh more than half an ounce.

4th. It must relate entirely to the private concerns of the soldier or seaman.

5th. The name of the soldier or seaman, with his class or description, must appear in the direction, and the officer having the command must sign his name, and specify the ship or regiment, corps, or detachment to which the soldier or seaman belongs; the name of the ship or regiment being entered in full. The foregoing particulars must be given in one of the following forms:—

SEAMEN.

From A. B., Seaman, H.M.S.———

(Here the direction of the Letter to be inserted.)

C. D., Captain (or other Commanding Officer),

H.M.S.———

To A.B.

Seaman H.M.S. ———

(Here the direction of the Letter to be finished.)

SOLDIERS.

From A.B., Sergeant, &c. ——— Regt. ———

(Here the direction of the Letter to be inserted.)

C.D., Colonel (or other Commanding Officer),

Regt. ———

To A.B.

Private (or Sergeant, Corporal, &c.) ——— Regt. ———

(Here the direction to be finished.)

73. If either of the foregoing regulations be violated, the Letter is charged with the full Letter Rate.

Letters weighing more than 2 oz.

74. The Postage of a Letter weighing any number of ounces, with any fraction of an ounce, may be reckoned by first seeing what it would be if the Letter weighed only one ounce, with the same fraction; and then adding the charge for the additional ounces. Thus, to find the postage on a Letter to France weighing between 3 oz. and 3½ oz., take 1s. 8d. (the charge for a Letter between 1 oz. and 1½ oz.), and add thereto 2s. 8d., the charge for the additional two ounces; giving a total of 4s. 4d. For a Letter between 3½ oz. and 3¾ oz., take 2s. 4d. (the charge for a Letter between 1½ oz. and 1¾ oz.), and add thereto 2s. 8d., the charge for the two additional ounces, giving a total of 5s. Whenever it appears by the Table that the postage to a British Colony of a Letter not exceeding ½ oz. in weight is 6d., the postage of a Letter of any greater weight may be found by multiplying the prepaid Inland rate by six. Thus, the postage of a Letter between 4 oz. and 5 oz. in weight to Jamaica is 5s., being six times 10d., the prepaid Inland rate of a Letter of that weight.

Routes.

75. When the route by which a Letter, &c., is to go is not marked on it, it will, under ordinary circumstances, be sent by the route immediately following the name of the place. Thus, a Letter or Newspaper directed to India, with no route marked on it, will be sent via Marseilles, and charged the higher postage attendant thereon.

76. For information respecting Foreign rate of postage, as distinguished from the combined British and Foreign rate (which will be found in the above Table), application should be made to the Secretary of the Post Office. No Foreign postage is chargeable on letters to or from India via Southampton.

Exceptional Rates of Postage, &c.

The term "printed papers" includes Parliamentary Proceedings, Books of every kind, whether printed, engraved, or lithographed, Sheets of Music, Prints, and printed or engraved Maps, with any binding, mounting or covering (whether loose or attached), belonging to any Book, &c., and any cases or rollers of prints, or of printed or engraved Maps, together with Bookmarkers, Pencils, Pens, or other articles usually appertaining to any such Book, &c., or necessary for its safe transmission. But no such Book, &c., must contain any writing or manuscript mark of any sort, and no packet must exceed 18 inches in length, width, or depth.

78. To all parts of France, and to some countries to which letters, &c., are sent through France, the above rates carry the packet to destination, no charge being there made on delivery. At the same rates packets of Registered Newspapers and other printed papers may be sent to those countries not mentioned in paragraph 77, the correspondence for which is forwarded as a rule by way of France, as well as to other countries via France, *when so addressed*. The packets so forwarded, which do not consist of Registered Newspapers, may contain Gazettes, Periodical Works, stitched or bound books, Pamphlets, Sheets of Music, Catalogues, Prospectuses, announcements and notices of various kinds, and in fact any kind of printed paper, whether the same be lithographed, engraved, or in type.

79. Periodicals not of daily publication, issued in the shape of pamphlets, may be sent to Bremen, Hamburg, Prussia, and the United States, as well as to Belgium and Holland (to which latter countries Parliamentary Proceedings may also be sent), at the following rates: not exceeding 2 oz., 1d.; 2 oz. and not exceeding 3 oz., 6d.; 3 oz. and not exceeding 4 oz., 8d.; with an addition of 2d. for every additional ounce up to 16 ounces, above which weight the privilege does not extend; and at the same rate of postage, any pamphlet not weighing more than 8 oz. (even though it be not a periodical publication) may be sent to the United States. The periodicals or pamphlets must always be sent in a cover open at the ends (not more than one being sent in a single cover), and the postage must be prepaid.

80. Newspapers from Belgium are charged ½d. each; and Newspapers from Canada (when they pass through the United States) 1d. each.

81. The Foreign rates of postage on Newspapers to parts of Turkey, &c., via Belgium, specified in the Table, as *exceptional rates*, is as follows:—Not exceeding ½ oz., 1½d.; ½ oz. and not exceeding 1 oz., 3d.; 1 oz. and not exceeding 1½ oz., 4½d.; 1½ oz. and not exceeding 2 oz., 6d.; 2 oz. and not exceeding 2½ oz., 7½d.; and so on, 1½d. being charged for every succeeding ½ oz. or fraction of ½ oz. Besides

this Foreign postage there is a British post of 1d. for each Newspaper. Both rates must be prepaid.

82. B. The privilege of the Book Post to and from India and New South Wales is limited to Packages not exceeding 3 pounds in weight. Any package weighing more than 3 pounds is liable to the Letter Rate of Postage.

83. G.U. According to the regulations of the German Customs Union, no Letter exceeding 50 grammes (a little more than $1\frac{1}{2}$ oz.) in weight, and containing any other enclosure than paper, can be allowed to circulate by the post. Any Letters, therefore, forwarded in the Mail to Prussia above that weight, and containing any other enclosure than paper, will be liable, on their arrival at the Prussian frontier, to be stopped, and sent to the Custom House for delivery as *freight*.

Foreign Newspapers.

84. With the following exceptions, Foreign Newspapers must be printed in the language of the country from which they are sent:—*Argentine News*, published at Rio de Janeiro; the *Bruxelles Herald*, published at Brussels; and all Newspapers and other printed papers coming from France or through France.

Registration of Letters.

85. By the prepayment of the usual British registration fee of 6d., Letters, Newspapers, and Book Packets, can be registered, irrespective of weight, between this country and the British West Indies, British North America, Sierra Leone, Gold Coast, St. Helena, Cape of Good Hope, Natal, Mauritius, South Australia, Western Australia, Malta, Gibraltar, and Ceylon; and Letters may, on the same terms, be registered to Belgium, Luxemburg (via Belgium), Holland (and countries through Holland), Sardinia, the United States, India, and Siberia. By the prepayment of a fee of 9d., irrespective of weight and of the usual postage, Letters may be registered to Prussia, and to those countries, the correspondence of which is, as a rule, sent through Belgium, or addressed via Belgium, except Holland and Luxemburg; and by the prepayment of a fee of 11d., irrespective of weight and of the usual postage letters, may be registered to Tuscany, Parma, and Madeira; as also Venetian-Lombardy, and to other parts of the Austrian dominions, when addressed via Sardinia. By the prepayment of the postage and of a registration fee, equal to the postage, Letters may be registered to France and (except Sardinia, Tuscany, Parma, Madeira, and Venetian-Lombardy, for which see above) to countries, the correspondence for which is, as a rule, sent through France, and can be paid to destination. The countries to which Letters sent via France cannot be paid to destination are Spain, Portugal, the Ionian Islands, and those parts of Syria and Egypt where France does not maintain Post Offices. Letters for Russia, not otherwise addressed, are sent via Belgium and Prussia, and can be registered by that route by the prepayment of the postage, together with a registration fee, consisting of a fixed sum of 9d., and also of $3\frac{1}{2}$ d., for every $\frac{1}{2}$ oz. or fraction of a $\frac{1}{2}$ oz.; thus the prepayment to be made for a letter, not exceeding $\frac{3}{4}$ oz. to Russia is—Postage 11 $\frac{1}{2}$ d., and Registration Fee 1s. $\frac{3}{4}$ d., together equal to 2s. Again, by the prepayment of the British registration fee, a Letter addressed to any other place can be registered to the port of despatch, and entered

separately in the Letter Bill; it being in these cases left to the postal authorities of the Colony or Foreign Country to carry on the registration or not, as they may choose.

Letters by Private Ships.

87. To most of the places entered in this Table, Letters may, if so marked, be sent by British Private Ship, even when there is no entry to that effect in the Table. Letters may be sent by Private Ship, also, to many other places; the Table of Colonial and Foreign Postage being chiefly limited to those with which there is postal communication by regular Packets. To insure any letter, &c., being sent by Private Ship, the words "By Private Ship," or "By Ship," should be distinctly written above the address. Except where otherwise specified in the Table, the postage on a Letter by a Private Ship is six times the Inland prepaid rate; consequently, on a Letter not a $\frac{1}{2}$ oz. it is 6d., which postage must generally be prepaid, though to the following places Ship Letters may be sent unpaid via Bermuda, Canada, Cape of Good Hope, Gold Coast, New Brunswick, Nova Scotia, Newfoundland, Prince Edward Island, St. Helena, Barbadoes, Trinidad, Turks Island, Sierra Leone, East Indies, Ceylon, and Mauritius—Newspapers by Private Ships are charged 1d. each. In those cases where there is no Packet conveyance, and where, at the same time, Book-packets are allowed to be sent by Private Ship, an entry to that effect will be found in the Table.

Warm Climates.

88. The practice of Sealing Letters passing to and from the East and West Indies, and other warm Climates, with Wax (except such as is specially prepared) is attended with much inconvenience, and frequently with serious injury to the Letters, in consequence of the Melting of the Wax and Adhesion of the Letters to each other.

89. In the case of Mails received from India, considerable delay is occasioned; and notwithstanding the greatest care is taken in separating the Letters, which, owing to the cause already mentioned, adhere closely together, many are much damaged and torn; the public are therefore recommended in all cases to use Wafers in preference to Wax in securing their Letters sent to India or other warm Climates, and also to advise their Correspondents in those Countries to pursue the same course.

Prepayment.

90. Letters addressed to places abroad may be prepaid in this country either in money or stamps at the option of the sender, but such payment must either be wholly in stamps or wholly in money. Book-packets must always be prepaid, and *with stamps*. Newspapers for places abroad when subject to postage must always be prepaid, by means, however, of stamps or money at the option of the sender. The only admitted evidence of the prepayment of a letter, &c., *inwards*, is the mark agreed upon with the particular foreign country or colony; except in the case of Letters posted at Malta, Gibraltar, and Constantinople. Naval officers and seamen serving abroad are allowed to prepay such of their letters as are conveyed in their ship's bag, with English postage stamps. When prepayment is *optional*, any outward Letter (that is, a letter posted within the United Kingdom, and addressed to some place out

of it) posted with an insufficient number of stamps is charged with the deficient postage in addition; unless the letter have to go to a country through France, Holland, or the United States, in which case it is treated as wholly unpaid, the postal conventions with the latter countries not allowing the recognition of partial prepayment. When prepayment, however, is *compulsory*, a letter or ought else posted with an insufficient number of stamps is sent (by the first post) to the Returned Letter Branch of the Circulation Office. Unpaid letters addressed to or received from places in Turkey, Egypt, and Syria, at which France maintains Post Offices, will be charged a rate of 9d. per $\frac{1}{2}$ oz. upon delivery, instead of 6d., the prepaid rate.

Unpaid Letters addressed to or posted in Sardinia will, on delivery, be charged with a sum of 6d. over and above the ordinary postage as a fine.

SUGGESTIONS TO THE PUBLIC, &c.

92. Facility would be given to the Post Office in the discharge of its daily duties, and consequently benefit to the public, by a more careful and general attention to the following points:—

1st. To post all letters and newspapers as early as practicable.

2nd. When several letters are sent by the same person for registration they should be accompanied with a list in duplicate of the addresses; one list to be retained at the Post Office, and the other, when signed, to be returned by the bearer. This practice (which is adopted by many bankers) saves time both to the public and to the department.

3rd. To make the address legible* and complete, giving the name of the post town, and if there be more than one town in the kingdom of that name (but not otherwise) adding that of the county. Letters posted in one part of the United Kingdom and intended for another part (as, for example, letters posted in England and intended for Scotland) should have the name of the country to which they are sent added to the other part of the address. The number of the house too, if in a street, is a great assistance. It must not be supposed that because a letter will eventually reach its destination without a number, the omission is not a cause of hesitation and delay in the process of sorting for delivery; and when such small delays occur again and again they tend greatly to retard the general distribution. In the case of letters for places abroad the name of the *country* as well as the town or city should be given. Attention to this latter precaution will often assist in deciphering the name of the town or city, and will prevent the letter from being mis-sent when there are towns of the same name in different countries: For example—a letter intended for London in Western Canada, North America, but simply addressed "London, W. C.," would be forwarded to the West Central District of the Metropolis in England, and thus be delayed.

4th. Every letter, newspaper, or other packet sent by post should be securely folded and sealed.† It

should be remembered that every such packet has to be several times handled, and that even when in the mail bag it is exposed to pressure and friction. Unless, therefore, the article be light and pliant it should be enclosed in strong paper, linen, parchment, or some other material which will not readily tear or break. Owing to neglect of these precautions many postal packets burst open, causing much trouble to the department and risk to the owners, it being sometimes impossible to determine to what packet a particular article belongs.

5th. To prevent Newspapers from slipping out of their covers care should be taken to fasten the covers firmly. When, for additional security, the address is written on the newspaper itself, such address must, in case of re-transmission, be cut off; otherwise the newspaper will become subject to letter postage. It is not sufficient that the old address be obliterated, as the rules forbid writing or marks of any kind in addition to the true address.

6th. When money or any other article of value is to be transmitted through the post, it should be sent either by means of a money order or in a registered letter. Any person who sends money or jewellery in an unregistered letter, not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to moral ruin. Every letter which contains money or other valuable article, even when registered, ought to be securely sealed.

7th. To provide a letter-box, except where the outer door is kept open.

8th. In case of removal, to leave at the residence vacated the particulars of the new address.

9th. When complaint is made of letters or newspapers lost, miscarried, or delayed, to furnish information as precise as possible in regard to all the facts of the case, and to enclose whatever documents may throw light upon it. The day and hour at which the letter or newspaper was posted, as well as the office at which and the person by whom this was done, should always be stated; and when possible, the cover or wrapper in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps. Cases frequently occur in which complaint is made against the Post Office, and redress expected, although little or no means of tracing the error, and of guarding against a repetition of it, is supplied by those who alone are able to do so.

10th. Every letter to contain the full address of the writer, in order to insure the return of the letter if the person to whom it is directed cannot be found.

93. Whilst trouble and loss are too often caused by the carelessness or dishonesty of some of the twenty-one thousand servants of the Post Office, yet the instances are not few in which it has been shown to the satisfaction even of the complainant that the fault attributed at first sight to the Post Office rested really in other quarters.

94. The publisher of one of the London papers complained of the repeated loss in the Post Office of copies of his journal, addressed to persons abroad. An investigation showed that the abstraction was made by the publisher's clerk; his object apparently being to appropriate the stamps required to defray the foreign postage. In another case a general complaint having arisen as to the loss of newspapers

* As an instance of miscarriage owing to the want of legibility, it may be mentioned that badly directed letters intended for *Belgravia* have not unfrequently been sent to *Belgrave*.

† The most secure mode of sealing, in the opinion of the practical officers of the Department, is first to wafer the letter and then to seal it with wax.

sent to the Chief Office in St. Martin's-le-Grand, the investigation led to the discovery of a regular mart held near the office, and supplied with newspapers by the private messengers employed to convey them to the post. Again, very recently a man was detected in robbing a newsvender's cart by volunteering on its arrival at the entrance of this Office to assist the driver in posting the newspapers; instead of doing so, he walked through the hall with those intrusted to him, and upon his being stopped, three quires of a weekly paper were found in his possession.

95. Depredation so impudent and systematic is not likely, whoever the perpetrator may be, to remain long undiscovered; but isolated cases of theft by private hands are often brought to light, although necessarily very difficult of proof on the part of the Post Office, upon which no doubt the blame for a time rests; and it is greatly to be desired that those who have suffered loss should, in the first instance, and whilst the circumstances are fresh, endeavour to ascertain with the utmost precision all particulars respecting the despatch or receipt of the letters or papers in question, and communicate that information to this Department. Indeed, generally speaking, it is only by careful inquiry into minute details that the offender can be detected, whether he be a servant of the Post Office or not.

96. The Post Office is a department which admits of constant improvement and expansion; and the public by sending to the Post Office clear and correct information respecting faulty arrangements may greatly aid in the accomplishment of these objects. It is not, however, always borne in mind that changes in machinery so extensive and intricate as that of the Post Office must be made cautiously, and with much previous consideration.

97. The arrangements of the service, even in districts widely separated, are so directly dependent upon each other, and economy of time (one of the first objects in all postal organization) requires that they should be so nicely adjusted, that no alteration can safely be made without a close examination of all its consequences, and the utmost completeness of preparation; for as on the one hand experience proves that almost every improvement made shows the way to further amendment, so, on the other, it will be found that an ill-considered chance, though it may give a partial advantage in one quarter, will almost invariably lead to dislocation and confusion in others.

98. This, of course, involves a reference to every district or community which may be affected, often distant from the metropolis; and entails the necessity of reports from various quarters, which must be considered, compared, and in many instances tested by experiment before a safe decision can be arrived at. Even then negotiations with railway companies or coach proprietors may have to be entered into, tenders invited, new contracts made, and old contracts, requiring notice of termination, got rid of, before the decision can take effect.

99. The proper execution of a great portion of these duties not only requires high ability, diligence, and precision on the part of the officers intrusted with them, but is also (and it is this which more immediately concerns the public) a work of time. Hence it has frequently happened that the necessity for a change has been recognised in this Office, that

investigation has been set on foot, and measures of improvement have been taken before any public demand has arisen: such demand even having been suggested by these very proceedings.

100. Is it often assumed that a Mail conveyance, passing by or through a place, however small, ought as of a matter of course to deposit the letters directed thereto; the practice being that until the mail arrives at the head post office of the district the letters in question are not separated from the other letters of the district. A slight consideration of the nature and objects of the Postal Service will show that such separation cannot be effected in any other way, unless, indeed, the Mail conveyance, even supposing it to be but a mail cart, were converted into a travelling post office, and furnished with clerks of unlimited local knowledge (which is plainly impossible), or unless every town and village in the kingdom having any correspondence with the place in question were to make up a bag for that place; in which case its mail would contain nearly as many bags as letters.

101. It happens from time to time that, owing to the stream of postal communication having been diverted from the old mail road to a line of railway, or from other causes of like nature, it becomes desirable to reduce the post office of a town from the condition of a principal office to that of a sub-office. This step not unfrequently gives rise to complaints; the inhabitants being under the impression that they will not in future be so well served. This is a misconception. The change is not made when it will subject the correspondence to delay; nor does it cause any withdrawal of accommodation in respect to Money Orders. It is, in fact, simply a departmental arrangement, which consists in carrying on the sorting of the letters for the new sub-office at some intermediate office, instead of sending them in direct bags.

102. A frequent error is to assume that the Postmaster General has some control over the delivery, charge, and other postal arrangements in all the Colonies, and even in foreign countries; whereas in most of the former, and in all the latter, the British Post Office is as powerless as the Foreign or Colonial Post Offices are here.*

103. Another misconception, which occasionally causes trouble and disappointment, consists in assuming that a discretionary power can be intrusted to subordinate officers to remit penalties or overcharges in special circumstances. Cases will undoubtedly occur in which strict observance of a general rule may inflict more or less injustice upon individuals, and where a dispensing power immediately at hand might furnish a remedy; but in an establishment as large and as widely spread as the Post Office there will always be many subordinate officers, some of them carrying on their duties beyond the easy reach of any supervising authority, who are not fit depositories of such a power, affecting, as it would to a great degree, the public revenue. It therefore becomes necessary to lay down definite and precise rules from which no departure can be allowed, except under sanction of the Postmaster General; and in the few instances in which these rules press hardly, appeal must be made to the General Office. It must be added, that in many instances even such appeal is necessarily fruitless, the Postmaster General being bound to a particular course by positive law.

104. In regard to the expense of railway conveyance, the public naturally supposes as such conveyance is the cheapest for ordinary purposes, and as the charges made for the carriage of the mails are subject to arbitration, that it must be the cheapest for postal purposes also, and, indeed, so cheap as to warrant the free use of the railways either as substitutes for other conveyance or for the multiplication of Mails. The fact, however, is very different. Except in certain instances where companies have entered into arrangements securing to the Post Office the use of their trains on moderate, though still highly remunerative terms, railway conveyance, with all its acknowledged advantages, has proved much more expensive than that which it has superseded.

105. In truth, under any modification of the law that could be made without injustice to the railway companies, the especial establishment of trains at hours unsuited to ordinary traffic, a measure often pressed upon the Postmaster General, must remain a source of very heavy expense, such as can be justified only by commensurate advantage to the public.

The Defendants are cited before this Court on an *inducia* of six days: warrants to arrest on the dependence are issued: the decree may be extracted, and arrestments used upon it instantly; and it may be enforced, in all cases, by poinding, sale, and imprisonment, when above £8. 6s. 8d. of the debtor's effects, ten free days after its date. In case of the debtor removing to a different county, the decree may be enforced against him there, on being endorsed by the Sheriff-Clerk of the county to which he removes. Judges—Sheriff and Sheriff-Substitutes of the County.

Note.—The Act authorising Imprisonment for Small Debts expired in 1840 for sums under £8. 6s. 8d., excepting claims of aliment.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and before the Sheriff Courts, to the extent of £12.

The first step is set forth in a complaint or libel, agreeably to a prescribed form (the Clerks of Court will provide the necessary forms), the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorize; but in no case by persons practising the profession of the law, or by Officers of Court, without special leave of the Court or cause shown.

If the defender fail to appear after being cited, he will be held as confessed, and judgment will be given against him.

But when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decreed for in cases before Justices, and in cases before Sheriff by consigning 10s. of expenses, on applying within three months from date of charge.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing on consigning 2s. 6d., if the case be before the Justices; and the expenses decreed for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender, diligence may proceed against him by arrestment instantly; and by poinding, sale, and imprisonment, if above £8. 6s. 8d., at the end of ten days before the Sheriff; and by poinding and sale instantly, before the Justices.

If decree be given against the defender in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decreed for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolver or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrestments; but in such actions both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or, if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable, by a reduction before the Court of Session, on the ground of malice and oppression on the part of the Justices, and such reduction will only be competent for one year, and finding caution for costs.

No person is exempt from the jurisdiction of Justices or Sheriffs in such cases, by reason of privilege as a member of the College of Justice.

On the first institution of this Library, life subscribers only were admitted to the privilege of taking out any of the books; but in the year 1848, the Directors, with a view of making the Library more generally useful, agreed to admit also annual subscribers, who enjoy the same advantages as the life subscribers.

The library of Mr. Stirling, which formed the nucleus of this collection, consisted of from 600 to 700 volumes, and, besides the books purchased by

the directors, the Library has received many valuable additions from various donors, among whom may be particularly mentioned, William Ewing, the late William Jamieson, jun., and James Bogle.

The library also contains the specifications of patent inventions published by the commissioners appointed by government for that purpose.

The library is open daily from 10 to 4, and 7 to 9, excepting Saturdays, when it is closed at 12.

BRITANNIA

LIFE ASSURANCE, REVERSIONARY INTEREST, AND ENDOWMENT COMPANY,

No. 1 PRINCES STREET, BANK, LONDON;

Nos. 20 Buchanan Street and 126 Renfrew Street, Glasgow.

ESTABLISHED AUGUST 1, 1837.

EMPOWERED UNDER A SPECIAL ACT OF PARLIAMENT.

CAPITAL, ONE MILLION STERLING.

GREAT ADVANTAGES OF THIS INSTITUTION.

THE Rates of Premiums are on the *lowest Scale consistent with stability, and so varied as to accommodate the views of every class of insurers.*

This Institution is empowered under special Act of Parliament, and so constituted as to afford the benefits of Life Assurance in their fullest extent to Policy Holders, and to present greater facilities and accommodation than can be obtained in any similar Establishment. Increasing and decreasing Rates of Premium on a new and remarkable plan have been constructed, peculiarly advantageous for securing loans or debts. By the former mode, a less immediate payment is required on a Policy than in any other Office, and the amount of future payment optional with the Assurer.

The following important improvements on the ordinary system of Life Assurance have been adopted by the Britannia Company, and are recommended to the particular attention of the public:—

Age of the Assured in every case admitted in the Policy.

All claims payable in Three Months after proof of death, while other Offices take six Months to consider this momentous question.

Medical Attendants remunerated by the Company in all cases for their reports, by which an important saving is effected to parties insuring.

No charge made for Policies or Admission Fees.

Policies revived without fine within Twelve Months after expiration, on evidence of unimpaired health, without payment of the FINE demanded by other Offices.

Premiums may be paid Half-Yearly or Quarterly, and payments may be made to terminate after five, ten, or any other number of years required.

A Board of Directors in attendance Daily at two o'clock.

Thirty Days allowed for Renewal of Policies.

Ladies and others, to whom it may be inconvenient to attend at the Office, visited by one of the Medical Officers.

Assurances perfected on the same Day they are proposed.

EXTRACT FROM No. 1.

Table of Equal Rates of Premium, which may be paid to this Company in any way most suited to the convenience of parties insuring:—

Age of the Assured.	Annual Premium required by old Offices sharing profits for Policy of £100.	The ordinary rate of the old Offices not sharing profits.	Reduced Premium of the Britannia Company.	Saving per Cent. by insuring in the Britannia Company, equal to an immediate Bonus of 25 to 30 per Cent.
	£ s. d.	£ s. d.	£ s. d.	£ s. d.
20	2 3 7	1 18 6	1 12 5	0 11 2

35	2 19 10	2 16 1	2 6 9	0 13 1
40	3 7 11	3 6 0	2 15 1	0 14 0

This table exhibits at a glance a very important saving to the Insurer, fully adequate to insure AT ONCE one-third more principal sum than can be secured for the same Premium in Offices sharing Profits to be

realised, and in which it should be borne in mind, that should the life drop prematurely, no Bonus would have accrued; consequently the whole extra Premiums charged above the Britannia Company's rate would have been sacrificed, without yielding any commensurate advantage to the Insurer.

The BRITANNIA COMPANY prefer giving a direct and immediate advantage to the public by a fair reduction of rates, rather than inviting those to become partners who can have neither leisure nor inclination to understand or investigate their own rights. These advantages may be observed in the following Scale, where the absolute saving to insurers in the Britannia Company is made to appear, supposing the sum to be insured One Thousand Pounds at any of the following ages:—

Age of the Assured.	The Annual Premium on £1000 in Offices dividing profits.	Sum Assured in the Britannia Office for the same Premium.	Certain and immediate Bonus secured in the Britannia Company on a Policy of £1000.

* * This table, as will be obvious from the following illustrations, presents New and Important features in Life Assurance. (Vide the Company's Prospectus, which may be had gratis on application, either personally or by letter, to the Company's Agent as under.)

By this plan of Insurance the public are vastly inconvenienced, increased facilities afforded, and every possible contingency or disappointment anticipated for the protection of the Assurer, with less immediate payment for the first five years than in any other Office, and the amount of subsequent payments left optional with the Insurer, an important advantage not given to the Policy Holders of any other Company.

If the Life assured drops within the first period of five years, the sum he receives is almost equal to a gratuity. If in the second, he derives still a considerable benefit; and if he should live even to the last period, he has, notwithstanding, made his Assurance on advantageous terms. Again, if the Assurer should become unable to advance his Premium, or that it is inconvenient for him to do so, he drops into the alternate scale—namely, a proportionate reduction of the sum assured, whilst it is only fair to remind him, that in other Companies adopting the increasing Rates of Premium, no such alternative exists. The insurers with Offices adopting that principle, are called upon without any excuse or consideration of circumstances, to advance their Premiums AFTER THE FIRST FIVE YEARS (when all accommodation has ceased), whether they are able to do so or not, otherwise their policies are forfeited, and all their previous payments lost to them for ever. The rate of reduction in the sum assured after the first five years, should the premium be not advanced, will appear by the following abstract, taking the sum assured at £1,000, the whole amount insured being payable by this Company, should death previously occur, without any deduction whatever:—

If the Insurer dies after the first period of five years, without increasing his premium, it will be reduced one-eighth to.....£875, principal sum.
 If he shall die after the second period of five years, without increasing his premium, it will be reduced one-fourth to.....£750, ditto.
 If he shall die after the third period of five years, without increasing his premium, it will be reduced three-eighths to.....£625, ditto.
 And if he shall die after the fourth period of five years, without increasing his premium, it will be reduced to.....£500, ditto.
 After this period, no further reduction can be made on the amount assured.

* * This Company assures the Lives of Officers and others travelling to, or residing in, any part of the world.

Emigrants to Australia and the Colonies may effect Insurances on their Lives at the lowest current rates, and every contingency affecting human life negotiated on equitable principles.

The progressively increasing patronage enjoyed by the Britannia Company during the past years (no doubt induced by the many important advantages it affords), renders it an imperative duty on the undersigned thus publicly to express his sincere acknowledgments to the public; and in soliciting a continuance of the same favours, he most respectfully begs to direct attention to the fact that, during the past year, the number of Policies issued have not been exceeded by any Life Office in the Kingdom.

*** Medical Officers (who are in constant communication with the Agent as under) have been appointed in the principal Towns throughout the Kingdom, with the view of affording the utmost expedition to Parties effecting Insurances, and to obviate the inconvenience of personal appearance at the Office.*

The uniform promptitude and liberality observed in the adjustment of all claims on this Company, the extreme attention and expedition in effecting Insurances, guided by equitable and honourable principles, with the lowest and most accommodating rates of premium that stability can admit of, have deservedly obtained for this Institution such a decided preference over its numerous competitors.

Proposal Forms for effecting Insurances, Prospectuses detailing the many advantages of the Company, with every information respecting the Rates of Premium for Home and Foreign Insurances, Survivorships, Joint Lives, and every other contingency affecting human life, may be had on application to

LIFE DEPARTMENT.

THE system of the NORTH BRITISH INSURANCE COMPANY, is that of MUTUAL ASSURANCE, combined with a large PROTECTING CAPITAL, thus affording all the advantages which can prudently be offered by any Life Assurance Company.

Parties may either Assure a precise sum at a low rate of Premium, or, as in Mutual Assurance Societies, (while entirely free from the risk of partnership, to which the Assured in such Societies are liable), pay a higher rate, and receive periodical returns in the shape of Bonus Additions to the Sum insured.

The share of profit allowed on Participating Policies, is *nine-tenths*, or, in other words, *the whole Profits, after reserving one-tenth for the guarantee, are divided amongst the Assured*. Each Policy draws a profit in proportion to the Sum insured, and the number of Annual Premiums paid during the Septennial period.

Previous Bonuses are reckoned additions to the Sum insured, and, as such, entitled to participate. Thus, for example, a Policy of £1000, having £285. 16s. of previously-vested Additions, was at 31st December, 1851, ranked as

A Policy for	£1285 16 0
And had a further addition made to it of.....	112 10 3
And will, according to the principle of division above mentioned, be ranked at } next investigation, on 31st Dec., 1858, as a Policy for	1398 6 3

The Profits are divided Septennially, but a PROSPECTIVE ANNUAL BONUS is guaranteed to such Participating Policies as happen to become claims *between the periods of Division*. Thus, any Policy, becoming a claim prior to the next *period of Division* in 1858, is entitled to a Bonus of £1 per cent. on the sum insured for each Premium paid since last Division of Profits. And Participating Policies are held entitled to the Prospective Bonus as soon as the insurance is effected, just as they are entitled to the sum insured, although becoming a claim next day. In this way the Assured draws exactly the sum due to the Premium he has paid, at whatever age he enters, and gets the full benefit of his longevity to whatever age he may attain, and that, too, without the risk of Mutual Assurance—the Sums assured, and also the Bonuses declared, being guaranteed by the Protecting Capital of the Company.

The share of Profits attaching to a Policy, may at any time be received in cash, or applied in reduction of future Annual Premiums.

GENERAL FACILITIES.

1. Premiums moderately rated at all ages. Payments may be made Yearly, Half-Yearly, or Quarterly.
2. No Stamp-Duty nor Entry-Money charged. Fees for Medical Reports paid by the Company.
3. One-half of the Premiums may remain on credit for the first Five Years; or one-third, during the convenience of the Assured (interest being paid on the portion on credit), to be deducted eventually from the Policy on becoming a claim, or paid off at convenience, whilst the Company have no claim for the Arrears in the event of an Assurer wishing to discontinue his Policy; thus affording to parties desirous of effecting SHORT TERM POLICIES, the advantage of having a whole Life Insurance at a slightly increased outlay.
4. No extra charge for residence in British North America, the Cape, Australia, New Zealand, and parts of the United States; and no license required except for the voyage.

5. Advances are made on Policies to the extent of the security they afford when the value amounts to £50 and upwards, and larger Loans are granted on approved Securities, heritable or personal.
6. Liberal allowance made for the surrender of Policies upon which three Annual Premiums have been paid, when parties wish to discontinue them.
7. On proof of age, and by special application, Policies are declared indisputable, and parties, on receiving a license, may go to any part of the world without incurring forfeiture of their Policy,—thus making the Policies of the Company good marketable securities.
8. Twenty-one days of grace allowed for Payment of Premiums after they become due, and in the event of the Party dying during the days of grace, and before payment of the Premium, Payment within the Twenty-one days by the Representatives held sufficient for preserving the Policy.
9. To save expense and trouble to parties resident in England or Ireland, the Company is authorised by its Act of Parliament to pay on English Probate or Letters of Administration.

The Life Department of the Company is entirely separate from that of the Fire, the Funds of the one not being in any way affected by the losses or profits of the other, except that the Accumulated Funds of the Fire office are liable to pay the obligations of the Life Department.

DIVISION OF PROFITS.

Excerpt—Remarks made by PETER HARDY, Esq., Actuary, at Annual Meeting, held 18th May, 1857.

He (Mr. Hardy) assured the Meeting that, during his experience of twenty-eight years, he had met with nothing in the history of Life Offices comparable to the success of that Institution. When he saw that the working expenses were only $7\frac{1}{2}$ per cent., while some other Institutions were very much higher, he would venture to predict that the UNITED KINGDOM PROVIDENT INSTITUTION would become one of the most flourishing Offices in the kingdom.

TABLE showing the SUMS ADDED to POLICIES as at 31st December, 1855.

The uniform promptitude observed by this Institution in the settlement of claims, it being the desire of the Directors to relieve parties from unnecessary trouble or delay, together with the moderate and safe rate of premiums, and the steadily increasing business of the Society, offer to intending Assurers every advantage that Life Assurance is capable of affording.

During the last two years nearly Five Thousand New Members have joined the Society.

ADVANTAGES OF THIS OFFICE.

1. Entire profits belong to the Assured.
2. No lawsuits—disputes, if any, settled by arbitration.
3. Any sum may be assured, from £25 to £5000, payable to the Member himself on attaining any fixed age, or at once to his representatives, in case of earlier death.
4. Arrears may be paid up at any time within twelve months, upon production of certificate of health.
5. Policies indisputable, except for palpable fraud.
6. Purchase of Policies, or issue in lieu thereof, of a Policy without Premium. The Society will always be prepared to purchase the Policies of this Office at their equitable value, or will grant a New Policy in lieu thereof, without any further payment of Premium, for a sum to be agreed on.
7. Loans are granted to the amount of the surrender value, without any other security than a deposit of the Policy. By this rule the risk of Members losing the benefits of previous payments from temporary pressure of circumstances is almost entirely removed.
8. Thirty Days allowed for payment of Renewal Premiums; all Policies considered in full force until the days of grace have expired.
9. Liberty to travel or reside in any part of Europe, in Canada, and in the northern part of the United States, without extra charges.
10. No entry-money or other charge. Policy stamp paid by the office.
11. Parties Insuring with this Society can deduct the annual premium on their own or their wives' lives from the assessment made upon them for income tax.

N.B.—The Temperance and Public Sections are kept in separate classes, and will each receive their own profits.

Prospectuses, also copies of the Seventeenth Annual Report, and every information, may be had at the CHIEF OFFICES, or of the numerous Agencies throughout the kingdom.

THE PEOPLE'S PROVIDENT ASSURANCE SOCIETY transacts Guarantee business upon very favourable terms; and if combined with a Life Assurance, still greater advantages are given to the Assured; whilst the Life Policy affords an additional inducement to honesty, because all interest therein is lost by any breach of fidelity.

The Premiums of this Society are applicable to all ordinary classes of risks, and range from 10s. per cent. and upwards. The rate in each particular case is dependent upon the nature of the duties and the extent of responsibility or trust reposed.

For Clerks engaged in Banking Establishments in Great Britain, the terms are peculiarly advantageous,—viz., commencing at 10s. per cent. and diminishing One Shilling per cent. annually, until the rate is reduced to Seven Shillings per cent., or equal to a reduction of 30 per cent. after three annual payments.

The Guarantee Policies of this Society are accepted by the Leading London and Provincial Joint-Stock and Private Banks, the principal Railway Companies, Life and Fire Offices, Public Companies, Institutions, and Commercial Firms throughout the kingdom.

LIFE DEPARTMENT.

THE arrangements of this Office are based on principles that have been verified by experience.

The rates for assurance of fixed sums are very moderate.

Extra Premiums for foreign residence have been dispensed with to such extent, that a large proportion of the assured, who may go abroad, will be free from any charge on that account, excepting for sea risk; and a very important rule has been adopted to protect the interests of parties holding Policies on the lives of others, who may incur extra risks without the knowledge of the holders.

For surrender of Policies of the ordinary class, after three years endurance, a liberal return of Premiums, according to a fixed rule, is guaranteed, besides the value of vested Bonuses where such have been declared.

According to the constitution of the Company, Investigations must be made at intervals not exceeding five years. The last Investigation took place at 31st January, 1857, when Bonuses were added to all Assurances of the Participation Class; and the following results of this and previous declarations may be stated.

1. A Policy for £1000 on which seven years' premiums have been paid is now increased to £1095 9 4
2. A Policy for £1000 on which twelve years' premiums have been paid is now increased to £1163 18 8
3. A Policy for £1000 on which seventeen years' premiums have been paid is now increased to £1234 18 2

Prospectuses, with every information, and forms of proposal may be obtained at any of the Offices or Agencies of the Company.

FIRE INSURANCES

Effectuated at reduced rates.—Claims promptly and liberally settled.

LIFE ASSURANCES

Granted in a variety of ways, so as to afford to the Assured the greatest possible benefit from their contributions.

THE PARTICIPATION SCHEME

Medical Officer—DR. ANDREW ANDERSON.

THE Premiums, at early and middle ages, are about a fourth lower than in the other Mutual or Participating Offices. They are as low as the *Non-Participating* rates of the Proprietary Companies, which they admit of being, not only with safety, but with ample reversion of Profits to the Policy-holders—being free from the burden of Dividends to Shareholders.

EXAMPLES OF ANNUAL PREMIUM TO ASSURE £100 AT DEATH.

Age—25	30	35	40	45	50
£ s. d. 1 18 0	£ s. d. 2 1 6	£ s. d. 2 6 10	£ s. d. 2 14 9	£ s. d. 3 5 9	£ s. d. 4 1 7

Thus, a person of 30 may secure £1000 at death for a yearly payment of £20. 15s., which, if paid to any of the other Mutual Offices, would secure a Policy for £800 only, instead of £1000.

The arrangement by which the Premiums are reduced to a rate commensurate with the risk, is obviously more suited for securing a competent family provision, in case of early death, than that which, by the same yearly outlay, secures a much smaller present sum, with the hope only of prospective and contingent additions

PROFITS.

The principle on which the profits are divided is at once safe, equitable, and favourable to good lives—the Surplus being reserved for those members who alone can have made surplus payments; in other words, for those whose Premiums, with accumulated Interest, amount to the sums in their Policies.

The practical working of the system has been that, at the First Division of Surplus, Bonus Additions were made to the policies which had come within the Participating Class,

VARYING FROM 20 TO 54 PER CENT. ON THEIR AMOUNT.

In all points of practice—as in provision for the indefeasibility of Policies, facility of license for travelling or residence abroad, and of obtaining advances on the value of the Policies—the regulations of the Society, as well as the administration, are as liberal as is consistent with right principle.

Reports explanatory of the principles, with every information, may be had on application at the Head Office; or at the

SPECIAL CONDITIONS.

CLASS A. RESIDENCE.

Persons Assured in this class have permission to reside—

In any part of Europe.

In BRITISH NORTH AMERICA.

In any part of the UNITED STATES OF NORTH AMERICA, to the northward of the southern boundaries of the STATES OF VIRGINIA and KENTUCKY, eastward of 100° of west longitude; and from 30th November to 1st June, persons may travel or reside in any part of the United States and Territories as organized in 1847. Residence to the southward and westward of the above limits charged at an increased rate, according to circumstances.

In the MAURITIUS.

In AFRICA (Cape Colony), to the southward of 30° of south latitude.

In AUSTRALIA (including NEW ZEALAND), to the southward of 30° of south latitude. The northward of that limit charged at an increased rate, according to circumstances.

VOYAGES.

Persons Assured in this Class have permission to pass—

From any part of EUROPE to another, without extra charge.

From any part of NORTH AMERICA to another, within the limits before specified, without extra charge.

From any EUROPEAN Port to any NORTH AMERICAN Port within the above limits, without extra charge.

From any EUROPEAN Port to the CAPE OF GOOD HOPE or MAURITIUS, without extra charge.

From any EUROPEAN or NORTH AMERICAN Port within the above limits, to AUSTRALIA or NEW ZEALAND, at £1 per cent. each voyage.

PERSONS Assured in this Class may proceed to those parts of the world embraced by any other Class, paying the corresponding Premium, in terms of General Regulations and Conditions, for which, see large pamphlet.

The Directors of the COLONIAL LIFE ASSURANCE COMPANY request attention to the following particulars:—

Home Insurances effected on most liberal terms.

From the name of the Company it might be inferred that the COLONIAL do not grant Assurances on the lives of persons resident in the United Kingdom, but the Directors wish it to be known, that they do transact such business, and they are satisfied they can hold out advantages to assurers which purely Home Offices cannot confer.

Home Rates of Premium charged for British North America, the Cape, Mauritius, Australia, and part of the United States.

Foreign Insurances at all times negotiated,—also

Persons who have no present intention of proceeding abroad, but whose business or pleasure may at some future period induce them to travel, have, by assuring with the COLONIAL, the advantage of knowing exactly beforehand the additional rate, if any, that would be charged for such increased risk, the Company's rates for Foreign residence being published and referred to in their Policies. Assurers are thus protected against an arbitrary charge, to which they are exposed under the ordinary Policies issued by other Life Assurance Offices.

Military, Naval, Mercantile, Marine, and Whole-World Assurances effected.

Bonus hitherto declared, £2 per cent. per annum.

Next Investigation and Division of Profits will be made in 1859, and quinquennially thereafter.

From the extensive field of business which the Company is cultivating, and from the great success which has attended its operations, the Directors look forward to large future Profits available to their Policy-holders; and they do not think they over-estimate the advantages of the Company, in stating that no Office affords so many facilities, and at the same time holds out the prospect of so much advantage to Assurers.

Reduced and Moderate Rates.

Thirty days of Grace allowed for Payment of Premiums.

In case any person Assured shall die within the said space of thirty days, and the party holding Policy from the Company, or his representatives, or any other person on his or their behalf, shall pay the Premium due thereon before the expiration of such thirty days, the Policy will be as valid and effectual as if the Premium had been paid when due, and in the lifetime of the person Assured.

No Entry Money or charge for Policy Stamps.

Medical Fees paid by the Company.

Agencies and Local Boards in every British Colony.

Claims Paid in Great Britain or in the Colonies.

NEW ADAPTATION OF THE BONUS SYSTEM.

"SEVEN YEARS' HALF CREDIT ASSURANCE."

BY the following new and peculiarly advantageous plan of Assurance, based upon the system of an ANNUAL DIVISION OF PROFITS, first adopted by the CITY OF GLASGOW LIFE ASSURANCE COMPANY, the assured are allowed Credit for Seven Years, for one-half of the Premium exigible at entry, and at the end of the Seven Years are enabled to keep up the Policy at a *very moderate and annually decreasing* rate of Premium, whilst *the sum in the Policy on the expiry of the term of credit is payable at death, free of all debt or claim upon it by the Company.*

EXTINCTION AND REDUCTION OF PREMIUMS.

A Policy was opened with the Company in 1826 for £2000 on a Life then aged 45. The party paid an Annual Premium of £74. 15s., which has now been extinguished; while, in addition, a Bonus of £1518. 1s. 10d. attaches to his Policy, and it will continue to receive further Additions at each Investigation the Party may survive.

A person who, at age 30, Assured in 1835 for £500 (Annual Premium, £12. 12s. 11d.) has obtained an Annual Reduction of £8. 17s., so that his future Annual Payment will be £3. 15s. 11d., instead of £12. 12s. 11d. as formerly; and, if he survive, this Annual Payment will be extinguished by the application of future Profits—after which the Policy will continue to receive Periodical Bonus Additions.

The next Division of Profits will be made in 1860.

THE DIRECTORS INVITE PARTICULAR ATTENTION TO THE LIBERAL TERMS AND CONDITIONS OF ASSURANCE INTRODUCED BY THIS COMPANY INTO THE PRACTICE OF LIFE ASSURANCE.

SELECT ASSURANCES.

The privileges of this class are—Permission to travel and reside in any part of the world, *free of extra premium*; and the cancellation of all conditions under the Company's Policies, which thus become unchallengeable on any ground whatever except non-payment of the ordinary premium.

Assurances of five years' standing are admissible to this class.

RENEWAL PREMIUMS AND DAYS OF GRACE.

Under these regulations, Policies of Five Years' standing, with certain exceptions mentioned in the Company's Prospectus, cannot be forfeited unless the ordinary Renewal Premium remains unpaid for 13 months. Thirty days is the regular period allowed for payment, but should the 30 days have been exceeded, the arrears can be paid at any time within 13 months from the date when the Premium fell due, on payment of a fine, without a medical certificate. Should death have taken place within the 30 days, or 13 months before renewal of the risk, the Company hold themselves liable, the arrears, and fines, if any, being deducted at settlement. After the expiry of the 13 months the Policy is forfeited, but the surrender value is held at the disposal of the parties interested for five years from the regular date of renewal. The privileges of renewal under Policies of shorter duration than five years are very liberal.

SURRENDER VALUES.

Liberal allowances made for surrender of Assurances under the Profit Scheme, at any time after payment of one annual premium.

LEADING FEATURES OF THE COMPANY:—

LIFE DEPARTMENT.

MODERATE RATES OF PREMIUM.—These are below the average of other respectable offices.

BONUSES.—Four-fifths of the profits are appropriated to the policy-holders every three years. At the division in October, 1857, a reversionary Bonus equal to *Two Pounds Two Shillings and Sixpence per cent. per Annum*, was added to the sums assured, which, it is believed, has seldom been equalled by any other office. The second bonus division will be made in 1860, and all proposals lodged on or before the 20th July next, will have a year's advantage over subsequent proposals.

DAYS OF GRACE.—Thirty days of grace are allowed for the renewal of policies, and claims are admitted for deaths occurring during those days, provided the premium be paid before their termination.

MEDICAL FEES AND STAMPS paid by the Company.

FIRE DEPARTMENT.

The Lancashire insures property of nearly every description on liberal terms, and the insured are entitled to bonuses equal to 50 per cent. of the profits.

BUSINESS IN SCOTLAND.

1. Centralized in Glasgow under a Board of Proprietors.
2. Similar arrangements as in First-Class Scotch Offices.
3. Policies issued *and made payable* at the Company's Office in Glasgow.
4. No Probate or Letters of Administration required on lapsing of Policies.
5. Assignments received and Registered at the Company's Office in Glasgow.
6. A large amount of the Capital Stock is held in Scotland.

LOANS.

Loans granted on Reversionary and other Securities, repayable by instalments.

THE Company, established in 1823, has existed upwards of thirty-four years, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company:—

MUTUAL ASSURANCE, without liability.

The guarantee of a responsible body of Proprietors, either personally or otherwise, assured with the Office, affords the most undoubted security to all classes of Assurers, in addition to the accumulated and invested fund of the Company, now upwards of Three-fourths of a Million.

NINE-TENTHS of the WHOLE PROFITS Septennially divisible among the Assured, a larger proportion than can ever be divided by any simple Mutual Assurance Society.

AN INTERMEDIATE BONUS paid on Policies becoming Claims between one Investigation and another.

All the advantages of an Annual division are thus given, without its attendant evils.

THE MOST EQUITABLE PRINCIPLE OF DIVISION.

The greatest benefits are thereby bestowed upon all *first-class lives*, by no undue Bonus being paid away to those *who may die early*.

RATES OF PREMIUM EXTREMELY MODERATE.—The non-participation scale very favourable for security on Loans, or for *partnership* Insurances.

The results of Four Bonus Declarations of the Company, are exhibited in the following examples:—

Total Bonus Additions at 31st August, 1856, on Policies effected in the First Year of the Company's Business.

Age at Assuring.	Sum Insured.	1st Bonus, 31st Aug. 1835.	2d Bonus 3d Aug. 1842.	3d Bonus, 31st Aug. 1849.	4th Bonus, 31st Aug. 1856.	Total Bonuses.	Total Amount Payable under Policy 31st Aug. 1856.	Rate per Cent. of Total Bonuses on Sums Insured.
	£	£ s.	£ s.	£ s.	£ s.	£ s.	£ s.	£ s. d.
60	300	50 2	72 10	168 16	437 11	728 19	1028 19	242 19 8

30	1000	101 8	89 3	122 13	199 17	513 1	1513 1	51 6 0
19	500	46 15	43 4	57 0	74 5	221 4	721 4	44 4 10

Thus, at all ages from 19 to 60, on the earliest Policies the Accumulated Bonuses now range from upwards of £44 per cent. to upwards of £140 per cent. of the sums originally insured; and in one instance to upwards of £242 per cent., or nearly two and one-half times more than the sum assured.

To later entrants the results are, in proportion, equally satisfactory. No Entry-Money or other charge in effecting a Policy beyond the payment of the premium.

Bonuses may be surrendered for cash, or applied in reduction of the annual premiums. By this latter course, several of the oldest Policy holders have redeemed their premiums, with a bonus still attaching to the Policy, and *increasing*.

THE Rates of Premium are those adopted by the principal Life Offices; the Rate without bonus is lower than that of most other Offices.

The Bonuses are added to the Policies, or applied to the reduction of Premiums.

Policies issued by this Office are purchased at their full value; or Loans may be obtained upon them after they have been in existence for five years.

If a party neglect to pay for the renewal of his Policy, he may repair the omission any time within twelve months, upon proof of good health.

The Profits (subject to a trifling reduction) are divided among the Insured. The plan upon which they are divided gives to each party insured a share proportionate to the amount of the Premiums he has contributed.

The following extract from the LIST of CLAIMS paid by the "PROVIDENT," is published with the sanction of the parties interested in the Policies, some of whom have accompanied their acknowledgment of the unexpected advantages with an earnest desire that the widest circulation may be given to the publication:—

CAPITAL—TWO MILLIONS, IN 100,000 SHARES OF £20 EACH.

THE City Article of the "London Times" of the 24th July, 1856, states that the transactions of the Royal Insurance Company "appear to have been of a very satisfactory character." It includes the following statements confirmatory of that opinion:—

In like manner, the entire Funds in hand of Thirteen offices is quoted, in the "Times," at £1,238,688, including the Royal, which alone is £372,394, and which is, therefore, equal to 43 per cent. of the accumulated funds of the remaining twelve offices, viz., for the year 1855. THE FOLLOWING FIGURES EXHIBIT THE INCREASING RESOURCES OF THE COMPANY.

Fire Premiums—1848	£31,346	Fire Premiums—1856	£151,733

PROGRESS.—During the first year of the Society's operations, upwards of Three Thousand Shares have been subscribed for, upwards of Three Thousand Pounds has been allotted to the Members, and a profit of Thirty per cent. added to the Stock.

ADVANTAGES.—This Society being established on the permanent principle, new entrants can be admitted at any time, there being no arrears to pay beyond the commencement of the current quarter.

SUBSCRIBED CAPITAL, £147,075.

THE Society has now completed its Fifth Year, and its success is shown by the following extract from last Report:—"The Directors find that during the past year 152 Members have joined, representing 1660 Shares; while the withdrawals have only been 98, representing 964 Shares. On the 31st December last, there remained on the Books 476 Members, representing 5883 Shares, or a subscribed Capital of £147,075—and also showing an increase on the previous year of 54 Members, and 696 Shares. These results, after such a season of monetary depression, the Directors are confident the Members will join them in declaring as highly satisfactory. It will be observed that the clear profits for the past year amount to £1170. 3s. 8d., being an increase on the former year of £130. 7s. 11d., and bringing up the total profit since the commencement of the Society to the sum of £4311. 7s. 7d., giving a large allocation to the paid-up capital.

These advantages can be secured at any time; but the present, when the Society is commencing the Sixth year of its operations, the Directors deem it proper to apprise the public of such, and call on them to join the Membership and participate in its privileges.

Copies of the Rules, and every information, may be had at the Society's Chambers, or from its Agents.

I. M. SINGER & CO.'S AMERICAN SEWING MACHINES

Have received Twelve Medals from Twelve different States,
in Expositions in the United States, and the
Medal of Honour at the "Paris Exposition Universelle."

WE take the pleasure of informing the Public that we have Opened a BRANCH OFFICE for the Sale of our Machines, at

NO. 11 BUCHANAN STREET,

where all are requested to call and examine for themselves, and have ocular demonstration of their superiority. The advantages of this Machine over all others now in the market are:—

1st. Its durability:—It will not get out of repair except by gross carelessness.

2nd. Its adaptability:—It will Sew the finest Linen, or Boots or Shoes, as well as Harness, by a simple change of the needles and thread.

3rd. Its speed:—A girl will perform twice the quantity of work in the same time that they would by any other Machine now in use, and for quality it cannot be surpassed; it makes a beautiful Back Stitch on both sides of the work, which will not ravel or rip, and is more durable than hand-sewing.

There are several thousands of these Machines in profitable operation in the United States and England, and never until the present have we been able to keep up with the demand so as to establish an office for their Sale in Scotland. Having increased our Manufactory four-fold, we are now able to offer to the Inhabitants of Scotland this invaluable labour-saving Machine, and respectfully solicit patronage.

We would also beg to call particular attention to our new

FAMILY SEWING MACHINE,

expressly intended for family use. It is got up in a highly neat and ornamental style, and may be had with or without Cabinet Case.

 Plain Printed Instructions for using are sent with each Machine, from which any one can readily acquire the Art of Managing them.—The Machines are packed securely to go to any part of the world.

THE FRANKLIN COMPANY'S PATENT GAS REGULATOR.

"LUX et præterea nihil."

"LIGHT, and nought else."
—(Free Translation.)

THE FRANKLIN GAS REGULATOR, for economizing the consumption of GAS, and producing a Steadier, Safer, and Purer light, has been rising steadily in public estimation ever since its first introduction, now some two or three years since.

SMALL, SELF-ACTING, and INDESTRUCTIBLE, without hinges or close-fitting movements to become foul and stiff, or any material the elasticity of which may be destroyed by the action of GAS, all who examine it are struck with its simplicity, and NONE WHO ADOPT IT NEED EVER PURCHASE ANOTHER.

It has been brought into successful competition with others, both in London and Edinburgh, and has always given the highest satisfaction, the saving in some cases amounting to FIFTY per cent., and rarely being less than TWENTY-FIVE.

It has succeeded where other Regulators have failed; and to encourage its immediate and universal adoption, THE PROPRIETORS ARE WILLING TO FIT IT UP ON TRIAL FREE OF EXPENSE.

MANAGERS OF INSTITUTIONS, WHERE AN IMMEDIATE OUTLAY IS NOT CONVENIENT, LIBERALLY TREATED WITH.

THE FOLLOWING FACTS AND CERTIFICATES MAY BE RELIED UPON.

THE LANCEFIELD SPINNING COMPANY, *Glasgow, March 23rd, 1857.*

We have much pleasure in being able to state that the FRANKLIN PATENT GAS REGULATORS, which have been in use here for six months, have given us entire satisfaction, and have effected a saving of 15 to 20 per cent. in our consumption of Gas.

THE LANCEFIELD SPINNING COMPANY,
Per JAS. G. SMITH.

An experiment at the end of four months, gave the following result. —

Consumption, with Regulator Stopped, $12\frac{1}{2}$ feet per Minute.

Do. do. Working, 9 do. do.

From THE POOR'S HOUSE, *Parliamentary Road, Glasgow.*

One Regulator was tested at the end of 12 months, and found to be saving at the rate of 20 per cent.

Two others, fitted up subsequently, appear to have saved about 35s. during the month of October, as compared with the consumption during the same month in 1856.

From MR. GLOVER, *Theatre-Royal, Glasgow.*

DEAR SIR,—I have much pleasure in stating, that the Franklin Gas Regulators (now ten in number) have been working here for the last twelve months, and that they are effecting a very considerable saving on my yearly consumption of Gas.—Yours faithfully,

EDMUND GLOVER.

KIRKLEY'S PATENT SLATE HOLING MACHINES

For the purpose of Perforating Roofing Slates, or Slabs, without producing any fracture in the surrounding parts, are capable of producing one, two, or more holes by the same operation, each perfectly round, clean cut, and countersunk to receive the head of a nail or screw, and affording great facility in fixing. The perforations may be arranged in Geometric or other figures of varied character, for the purposes of Ventilation, Drainage, or Ornament.

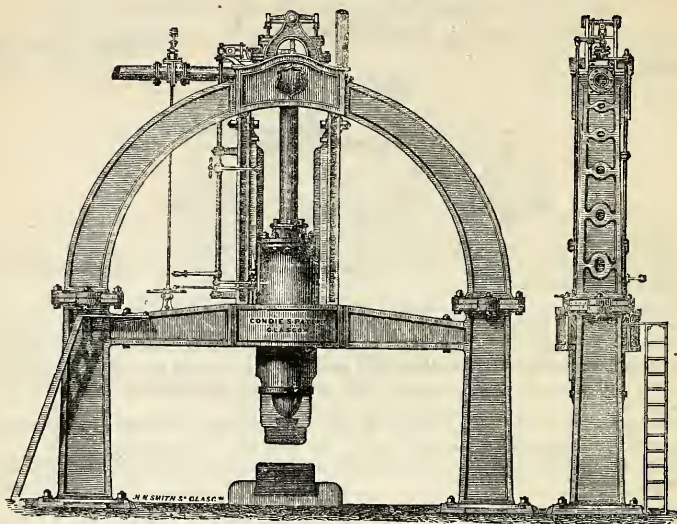

The injury at present unavoidable from the use of the common Pick to Slates is entirely obviated, and as a saving of 75 per cent. in the cost of labour is effected, they are commended to the notice of Architects, Builders, Slaters, Masons, &c.

They are portable, simple in construction, not liable to get out of order, and can be worked by a boy.

RESIDENT DIRECTOR FOR SCOTLAND,

MR. WILLIAM LINCOLNE, AT THE FRANKLIN COMPANY'S DEPOT, 187 BUCHANAN STREET.

CONDIE'S PATENT STEAM HAMMER.

THE novelty and superior utility of this Invention consist in introducing the Steam into the Hammer-block, which is a massive moveable Steam Cylinder, composed of a quality of metal closely approaching in strength to malleable Iron. By this simple and compact arrangement, the liability to breakage of the Piston and Piston Rod, and abrasion of the Cylinder, are obviated—these being the evils so much complained of in Watt's Patent Steam Hammer of 1784, and others on the same principle under different names.

These Hammers are all made at Govan Bar Iron Works under the Subscriber's immediate inspection, of first-class materials and workmanship, with "Improved Equilibrium Balanced Valves" only, or with "Self-Acting Valve-Gearing," of various weights, from 10 cwt. to 7 tons, suitable for Jobbing Forges, Puddling Forges, and the Smith's Shops of Engineers, Ship Builders, Waggon Builders, Agricultural Implement Makers, Railway and Steam Navigation Companies, &c. The Subscriber directs special attention to the many improvements which long experience has enabled him to introduce into his Hammers by New Designs of Framing, &c., combining freer access round the anvil with increased facilities to the workmen. He also refers to the following Testimonials, and numerous similar ones received, as a guarantee that for economy in working they are superior to all others at present in use.

JOHN CONDIE,

INVENTOR AND PATENTEE,

GOVAN BAR IRON WORKS, GLASGOW.

From "THE PRACTICAL MECHANICS' JOURNAL," August, 1857.

"The failure or success of the 'Leviathan' Steam Ship will, to a certain extent, affect the continuance and increase in the size of wrought-iron forge work to be made for some time to come. All the unprecedentedly heavy shafts in this enormous ship, were forged under Mr. CONDIE'S Hammers, at a time, and under circumstances, when such heavy masses could not have been shaped elsewhere."

CONDIE'S PATENT STEAM HAMMER.

TESTIMONIALS.

From MESSRS. HEEL & HOLTZMAN, Cyclops Forge, Amsterdam.

JOHN CONDIE, Esq., Glasgow.

DEAR SIR,—We feel great pleasure in adding our testimony to the many others you have received as to the superiority of your Patent Steam Hammer. The 50 cwt. Hammer you supplied us with about two years ago has been at work every day since its erection, without causing us the slightest delay. Your 5 ton Hammer will be erected this summer.—We remain, dear Sir, yours truly,

VAN HEEL & HOLTZMAN.

From MESSRS. CAIRD & Co., Marine Engineers, Greenock.

JOHN CONDIE, Esq., Glasgow.

DEAR SIR,—In reply to your inquiry of 1st inst., we are happy to say, that the 10 cwt. Steam Hammer you furnished us with in 1854, as well as the one we had from you last year, are constantly at work, and to our entire satisfaction.—We are, yours truly,

CAIRD & CO.

Greenock, 16th February, 1858.

From GEORGE BLAXLAND, Esq., H.M. Dockyard, Sheerness.

JOHN CONDIE, Esq., Govan Iron Works, Glasgow.

DEAR SIR,—In reply to your inquiry, the 50 cwt. Steam Hammer, supplied and erected by you twelve months ago, has given most entire satisfaction, without any derangement of the parts. The Foreman of the Engine Smithery Department having had many years' experience with Steam Hammers, affirms that yours is the most efficient he has ever used.—I am, dear Sir, yours truly,

GEORGE BLAXLAND, Chief Engineer.

JOHN CONDIE, Esq., Govan Iron Works.

DEAR SIR,—With reference to the 20 cwt. Steam Hammer supplied by you for our smith's shop in December, 1856, we have much pleasure in informing you, that it has proved a very useful tool, and given us great satisfaction. We are enabled to turn out much heavier work than formerly, and with a very considerable saving in labour.—We are, dear Sir, yours truly,

STOMACH COMPLAINTS.

ALTHOUGH we cannot conscientiously offer them as a specific in all complaints, well knowing the absurdity of such pretensions in any one compound, still they will be found superior to every other Medicine, in respect to their gentle mode of action.

They are a safe and valuable remedy for Bilious Complaints, and Pains in the Stomach and Bowels; are completely calculated for those whose bowels are habitually slow, and consequently require the use of laxatives; and are well adapted for general Family Use, being purely of vegetable composition.

They form a most excellent remedy for Indigestion, Crudities in the Stomach, Loss of Appetite, Costiveness, Headache, arising from Flatulence in the Stomach and Bowels, which generally attend those who lead sedentary lives. -

It is the only Botanic Medicine that completely eradicates mercury from the system, and is unequalled for restoring the health and strength of those who have escaped an untimely grave, from using the wonder-working Pills sold by those Quacks who purge their patients to death, taking advantage of the popular error that "Purgatives are Purifiers." It also beautifies the countenance, and imparts a bright lustre to the features, which cosmetics could never accomplish of themselves.

JOHN FINLAY,
FURNISHING IRONMONCER,
 46 BUCHANAN STREET,
 GLASGOW,

BEGS to intimate that he has largely increased his premises, and that now, for extent, variety, and elegance of Stock, he is unequalled in the Trade.

His many improvements in House Furnishing Ironmongery, have received the stamp of public approbation, as witness their success at

THE GREAT PARIS EXHIBITION OF 1855.

Finlay's Patent Grates with the latest improvements, are now acknowledged by all who have tried them to be, without exception, the best grates yet made, effecting a great saving of fuel, while giving a regular and powerful radiation of heat, completely under control by the simplest means, so that what has formerly taken two grates, is now better done with one.

He also begs to call attention to the fact, that the consumption of smoke by these grates is so well accomplished, that the necessity for vent sweeping is greatly diminished. These advantages are great in a sanitary point of view; but more particularly where there are difficult venting fire-places, when they will be found to exercise a powerful control. They are now made for all fire places, from the Bed-room to the richest Drawing-room; from the Workshop to the Sale-room.

Kitchen Ranges with Oven and Boiler on the newest construction, carrying hot water to any part of the house. Boiling Tables, Hot Presses, Charcoal Tables, Smoke and Water Jacks, with double, triple, and vertical movements.
