PREFACE.

THE Publishers, in issuing the Thirty-third Edition of the DIRECTORY, beg to return their grateful thanks for the uninterrupted patronage and support so long enjoyed. The Publishers having thought it desirable to have a List of the *names* and *addresses* of the Commissioned Officers attached to the various corps of the Lanarkshire Rifle, Artillery, and Military Engineer Volunteers, obtained the necessary information from official sources; and they have now the pleasure of referring to the very extensive list published, it being as complete and correct as the returns called for permitted. The Publishers have also added, in connection with the Commission Table, published last year for the first time, a concise but comprehensive Interest Table, which will be found useful in the Counting House. The Directory for the current year, exclusive of Advertisements, has increased in matter over last issue by 40 pages, arising from the insertion of names and addresses of the Volunteer Corps' List, additional information in the Appendix, and a large increase of names in the General, Street, and Commercial Directories, thus rendering the volume more valuable to the public. The Work has been prepared with the usual care and attention, and, as opportunity offers, every means will be employed to increase and extend its usefulness.

The Publishers owe their thanks to the Gentlemen connected with the Local Institutions of the City, for their promptitude and kindness in correcting the lists, thus giving to the public a very valuable appendage to the Directory.

For List of Volunteer Corps see beginning of volume.

ALMANAC AND TIDE TABLE.

FROM JUNE 1858, TILL JUNE, 1859.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean, as in the following figure:

M is the moon. A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide, A, is produced by the waters receding from the earth, and the tide, D, by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Céleste* the mean force of the sun in raising the tides is to the mean force of the moon as 1 to $1\frac{1}{2}$; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when she is in conjunction with the sun, and at full moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring Tides take place about two days after full moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 h. 25 m., that is, half the lunar day of 24 h. 50 m., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 h. 50 m.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanac* for 1857 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's phases are calculated to civil time. The civil day begins at midnight.

TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND,
AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained by addition, as here annexed.

ECLIPSES OF THE SUN AND MOON.

In the year 1861 there will be three Eclipses of the Sun, one of the Moon, and a Transit of Mercury over the Sun's disc.

I.—An annular Eclipse of the Sun, January 11, 1861, invisible at Greenwich. Begins on the earth generally, January 11, at 35 minutes past 12 A.M. (or 11 d. 0 h. 25 m. A.M.) Ends on the 11 d. 6 h. 23 m. A.M. Begins 72° 12' east, and latitude 19° 32' south. Ends 173° 13' east, and latitude 7° 35' north.

II.—An annular Eclipse of the Sun, July 7, invisible at Greenwich. Begins on the earth generally, July 7, 11 h. 18 m. P.M., and ends on 8 d. 5 h. 1 m. A.M. mean time at Greenwich. Begins 100° 6' east, latitude 3° 54' north. Ends 172° 26' west, and latitude 19° 11' south.

III.—A partial Eclipse of the Moon, December 17, partly visible at Greenwich.

IV.—A total Eclipse of the Sun, December 31, visible (as a partial one) at Greenwich. Begins on the earth generally, December 31, 11 h. 15 m. A.M., mean time at Greenwich, in longitude 74° 1' west of Greenwich, and latitude 9° 1' north, and ends on the earth generally 31 d. 4 h. 23 m. P.M., in longitude 12° 38' east of Greenwich, and latitude 27° 13' north.

NOTICE.

The Rising and Setting of the Sun are calculated for mean time at Glasgow. For Greenwich time add 17 minutes.

EXEMPLIFICATION AND CONSTRUCTION OF THE FOLLOWING TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

RULE.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction, and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place; from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

On May 2, 1861, the sun's longitude was $45^{\circ} 54'$, and the obliquity of the ecliptic $23^{\circ} 28'$; required the sun's declination.

The sun's declination reduced to these times is $19^{\circ} 58'$ and $20^{\circ} 6'$, and the polar distances are $70^{\circ} 2'$ and $69^{\circ} 54'$. The horizontal refraction, less the sun's parallax, is $33' - 9'' = 32' 51''$. Hence the following computation:—

N.B.—The duties on Foreign Bills, drawn out of the United Kingdom, are to be denoted by adhesive stamps. The amount of duty on the adhesive stamps is impressed on two parts. The Board of Inland Revenue recommend that the cancellation should be on one of the parts, and the other left legible.

If a Foreign Bill payable abroad, and as to which the provision "drawn in sets of three or more" apply, shall be drawn in a single bill, the duty will be the same as on an Inland Bill, and if in a set of two, the duty on each will be the same as on an Inland Bill. This is in accordance with the opinion of the Board of Inland Revenue (see North British Daily Mail, 3d November, 1854). But the Board have given an opinion that a Foreign Bill drawn abroad and payable in this country in duplicate or triplicate only represents one transaction, and is liable to the duty on one Inland Bill of the same amount,—that is, if one of the parts have the full duty, the others may be unstamped (see Times, 6th November, 1854). The schedule of the act does not provide for such a Bill being drawn in sets. Bills bearing to be drawn out of the United Kingdom are to be deemed Foreign Bills so drawn, although they may in reality be drawn in the United Kingdom, 17 and 18 Vict. c. 83, § 4. A person in the United Kingdom drawing and issuing a bill payable out of the United Kingdom in a set, must draw the whole set, and a person transferring or negotiating such bill must transfer and deliver, stamped, the whole number of the set. Penalty, £100. A person taking such bill must get the whole set, stamped, otherwise he cannot recover on it or make it available, ib. § 6. This applies only to bills drawn within and payable out of the United Kingdom.

INLAND BILL, DRAFT, or ORDER for the payment of any sum of money, though not made payable to the bearer, or to order, if the same shall be delivered to the payee, or some person on his or her behalf, the same duty as on a bill of exchange for the like sum, payable to bearer or order.

INLAND BILL, DRAFT, or ORDER for the payment of any sum of money, weekly, monthly, or at any other stated periods, if made payable to the bearer, or to order, or if delivered to the payee, or some person on his or her behalf, where the total amount of the money thereby made payable shall be specified therein, or can be ascertained therefrom, or shall be indefinite, the same duty as on a bill payable to bearer or order on demand.

PROMISSORY NOTE for the payment of any sum of money by instalments, or for the payment of several sums of money at different days or times, so that the whole of the money to be paid shall be definite and certain, the same duty as on a promissory note, payable otherwise than to the bearer on demand, for a sum equal to the whole amount of the money to be paid.

RECEIPTS for money amounting to £2 or upwards, 1d.

The following provisions as to what shall be deemed a receipt, and the exemptions from receipt duty by 55 Geo. III. c. 184, are still in force:—

Any note, memorandum, or writing whatever, given upon the payment of money, whether signed or not, shall be a receipt if it shall import or signify that any sum of money, debt, or demand, or any part thereof amounting to £2 or upwards has been paid or settled; and like documents given upon payment by bills, drafts, promissory notes, or other securities for money, are also receipts.

According to decisions, a simple acknowledgment of a sum of money in loan, or of the correctness of a debt, or of a deposit of money, is not liable to stamp duty, either as a receipt or promissory note. The judges held it essential to render a receipt liable to duty that something formerly due had been discharged. On this principle a receipt for a sum of money as a donation to a religious or charitable purpose, not being anything formerly due, would not be liable. The Board of Inland Revenue have intimated that they are to regard such receipts as exempted.

Among the exemptions from receipt duty are—

Receipts written on promissory notes, bills, drafts, or orders for the payment of money, duly stamped.

Letters by the general post acknowledging the safe arrival of any bills of exchange, promissory notes, or other securities for money. This exemption is repealed by 17 and 18 Vict. c. 83, § 13. The effect of the repeal is, that letters by the general post are put on the same footing as letters delivered or sent otherwise. If they amount to acknowledgments of the statutory description (that is, whereby any sum of money, debt, or demand, or any part thereof, amounting to £2 or upwards, shall be expressed to have been paid, settled, balanced, or otherwise discharged or satisfied, or which shall import or signify such),—given for or upon payments made by or with bills of exchange, drafts, promissory notes, or other securities for money,—they will be liable to the receipt duty.

Receipts written on any bond, mortgage, or other security, or any conveyance, deed, or instrument whatever, duly stamped, acknowledging the receipt of the consideration money therein expressed, or the receipt of any principal money, interest, or annuity thereby secured.

Note.—Stamps may be impressed or affixed. Where adhesive stamps are affixed, the grantor is required to cancel the stamps by writing his name or initials on them. Penalty for omission, £10. Penalty for removing adhesive stamps, or using them a second time, or doing any fraudulent act to defraud of duty, £20.—16 and 17 Vict., c. 59, § 3, 4, and 5.

RESIGNATION.—Principal or original instrument of resignation, or service, or cognition of heirs, or charter, or sashine of any houses, lands, or other heritable subjects holding burghage; also instrument of resignation of lands, &c., not held burghage, 5s. Progressive duty, 5s.

SASINE.—Instrument of sasine given on any charter, precept of *clare constat*, or precept from Chancery, or on any wadset, heritable bond, disposition, apprising, adjudication of any heritable subjects not of burghage tenure, 5s. Progressive duty, 5s.

SCHEDULE OR INVENTORY of heritage, or moveables, or containing the terms of any proposed sale, lease, &c., or regulations for the cultivation and management of any farm, &c., separate from and referred to in the lease, bond, deed, agreement, &c., chargeable with any stamp duty not exceeding 10s.—The same duty as shall be chargeable on such lease, bond, agreement, &c., and where referred to in such, chargeable with a duty exceeding 10s.; 10s. Progressive duty, 10s.

SCRIP CERTIFICATE, after 4th Aug., 1853, that is to say, any document denoting or intended to denote the right or title of the holder thereof, or any person to any share or shares in any joint-stock or other company, or proposed or intended company, or any certificate declaring or entitling the holder thereof, or any person to be or become the proprietor of any share or shares of or in any such company, where such certificate, or the right or title to such share or shares shall be, or intended to be, transferable by the delivery of such certificate, or otherwise than by deed or instrument in writing, 1d.—16 and 17 Vict., c. 63.

SETTLEMENT.—Any deed or instrument, whether voluntary or gratuitous, or upon any consideration other than a *bona fide* pecuniary consideration, whereby any definite and certain principal sum or sums of money, or any definite and certain shares in any stocks or funds, shall be settled or agreed to be settled upon or for the benefit of any person or persons, either in possession or reversion, either absolutely, or for life or other partial interest, or in any other manner whatsoever,—if such sum or sums, or the value of such share or shares, together, shall not exceed in the whole £100; 5s.

And if the same shall exceed £100, then for every £100, and fractional part of £100; 5s.

All such deeds which contain any settlement of lands or other property, or any other thing besides the settlement of such money or stock, shall be chargeable with such further duty as any separate deed containing such settlement of lands or other property, or other thing, would have been chargeable with, exclusive of the progressive duty.

And where there is more than one such deed chargeable with any such duty exceeding £1, 15s., one of them only shall be chargeable with the *ad valorem* duty; and also where any settlement shall be made in pursuance of any previous articles charge-

able with, and which shall have paid any such duty exceeding £1, 15s., it is not chargeable with the *ad valorem* duty; and the deeds not chargeable with the *ad valorem* duty shall be charged with the duty to which they are liable under any more general description in the stamp schedules; and on the whole being produced, duly executed and stamped, the latter shall also be stamped with a particular stamp for denoting the payment of the said *ad valorem* duty.

Exemption from this ad valorem duty.—Wills, testaments, and testamentary instruments, and dispositions *mortis causa*.

This repayment must be claimed within three years; but the time will be prolonged on application to the Board of Inland Revenue. If there be any omission in the inventory inferring payment of further duty, an additional inventory of such is required to be exhibited, by 48 Geo. III., c. 149, § 38; and § 40 provides that the same shall also specify the amount or value of the estate and effects of the same person comprised in the former inventory. By 16 and 17 Vict., c. 59, § 8, such additional inventory shall be *chargeable only with such amount of stamp duty* as, together with the stamp duty charged upon the former duly stamped inventory of the estate and effects of the same deceased person, shall make up the full amount of stamp duty, in respect of the total amount of all the estate and effects of the deceased specified in the said additional and any such former inventory. If the estate shall be over-estimated, or something improperly included in the inventory, an inventory on a stamp corresponding to the value must be exhibited, and the original inventory will be allowed on affidavit as a spoiled stamp, within six months of the recording of the second inventory.

The husband or wife of the deceased is not chargeable with duty. If the legatee's husband or wife is of nearer consanguinity than the legatee, duty is payable according to such nearer relationship.—16 and 17 Vict., c. 51, § 11.

This duty is payable for every legacy out of the personal or moveable estate, or out of or charged upon the real or heritable estate of the deceased, or out of any moneys to arise by the sale, mortgage, or other disposition of the deceased's real or heritable estate, or any part thereof: Also for the clear residue (after deducting debts, funeral expenses, legacies, and other charges first payable thereout) of the personal or moveable estate, whether the title to such residue shall accrue by virtue of any testamentary disposition, or upon a partial or total intestacy: And also for the clear residue of the moneys to arise from the sale, mortgage, or other disposition of any real or heritable estate, directed to be sold, mortgaged, or otherwise disposed of by any will or testamentary instrument.

Duty is not exigible on legacies or residues under £20; but if a legatee take two or more legacies under any testament, which shall together be of the amount of £20, each shall be charged with duty, though each or either may be separately under that amount.

N.B.—Printed forms and regulations for payment of the legacy duties will be obtained gratis, on application at the Legacy Duty Office, Inland Revenue, Edinburgh; and at the offices of the distributors of stamps in the country.

The inventory duty is paid on the whole personal property situated in Scotland, and probate or administration duty on the whole personal property situated in England and Ireland without deduction of debts; but the Act 5 and 6 Vict., c. 79, § 23,

The duty on *heritable property* is charged on the annual value, after allowance of the necessary outgoing (§ 22), as an annuity for the life of the successor (§ 21), which is to be valued by tables annexed to the act.

The husband or wife of the predecessor is not chargeable with duty (§ 18), and if the successor's husband or wife shall be of nearer consanguinity than the successor, duty is paid according to such nearer relationship (§ 11). The following are also *exemptions* from the succession duty:

POSTAGE STAMPS, &c.

Prepayment of Inland Letters, &c., must be by Stamps.

RATES OF POSTAGE.

*Inland Letters.**

1. The rate of postage on all inland letters is regulated by weight, irrespective of distance, and (with the exception afterwards mentioned) is as follows :—

If paid in advance.

- Letter weighing not more than $\frac{1}{2}$ oz.,..... 1d.
- Letter weighing more than $\frac{1}{2}$ oz., but not exceeding 1 oz.,..... 2d.
- Letter weighing more than 1 oz., but not more than 2 oz.,..... 4d.
- Letter weighing more than 2 oz., but not 3 oz. 6d.
- and so on; twopence being charged for every additional ounce.

2. As a general rule, the postage, if not paid in advance, is double the foregoing; and if the payment in advance be insufficient, double the deficiency is charged. An inland letter, for example, weighing more than half an ounce, and not exceeding one ounce, if bearing a penny stamp only, is, on delivery, charged twopence. The unpaid *additional* postage on re-directed letters, however, is not doubled, being the same as if such postage were prepaid. Unless three quarters, at least, of the postage of a letter weighing more than 4 oz. be prepaid, the letter is not forwarded, but is returned to the writer.

Colonial and Foreign Letters.

3. The rates of postage on letters to foreign countries and the colonies are entered in the Table of Colonial and Foreign Postage at pages 4-16.

Addresses to the Queen and Petitions to Parliament.

4. Petitions and addresses to her Majesty, forwarded direct, are exempt from postage; and such petitions and addresses as also petitions to either House of Parliament, if sent to a member of either House are likewise exempt, provided they do not weigh more than two pounds, and are without covers, or in covers open at the sides. No letter or other inclosure, however, must be inserted, and if one be found, such inclosure, unless it bear the proper number of postage stamps, will be charged as an unpaid letter.

Newspapers and other periodical Publications bearing the Newspaper Stamp.

5. Although provision is made for forwarding newspapers, books, and money through the post, it is not compulsory on any one to employ this mode of transmission; everything except letters may be sent in any other way.

6. All periodical publications, including newspapers published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear an impressed stamp or stamps denoting the stamp duty (of the kind formerly confined chiefly to newspapers), may be transmitted and re-transmitted through the post within the United Kingdom free of postage under the following regulations, viz. :—

1st. They are subject to the same restrictions with regard to the number of sheets and superficial ex-

tent as were formerly applicable only to newspapers properly so called. These restrictions are shown in the following table :—

Amount of Stamps Impressed on the Publication.	Maximum Number of Sheets.	Maximum Superficial extent of Letterpress on one side.
One Penny - -	Two - - - -	2,295 inches.
Three Halfpence	Three - - - -	3,443 „
Two Pence - - -	Four - - - -	4,591 „

2d. No publication, or portion thereof, can pass through the post unless the impressed stamp which it bears be a stamp of the value at least of one penny.

3d. The title and date of the publication must be printed at the top of every page.

4th. The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside, except that where there are more than two publications in the same cover it will be considered sufficient if the stamps be so arranged that they can readily be examined.

5th. It must not be printed on pasteboard or cardboard, or on two or more thicknesses of paper pasted together, nor must any pasteboard, cardboard, or such pasted paper be sent with it as a back or cover thereto, or otherwise.

6th. It must be posted within fifteen days from the printed date of issue.

7th. It must have either no cover or a cover open at the ends.

8th. It must contain no inclosure.

9th. It must have no writing or other mark thereon, but the name and address of the person to whom it is sent, nor anything on the cover but such name and address, the printed title of the publication, and the printed name and address of the publisher or vender who sends it. Thus, if a newspaper, franked by a newspaper stamp, after having had the address of one person written upon the paper itself, be sent to another person, the first address must be cut off (obliteration not being sufficient), otherwise the paper will be charged as an unpaid letter.

10th. If the publication be addressed to any person within the free delivery of the place where it is posted, it will become liable to a postage of one penny, which must be prepaid by affixing a postage stamp.

11th. When a newspaper, &c., is so folded as not to expose the stamp or stamps, a postage of one penny is charged in addition to any other postage to which the publication, if properly folded, would be liable; and if the newspaper, &c., be addressed to any person within the free delivery of the place where it is posted, and do not bear a penny postage label, it will be charged 2d.

12th. In case of any other irregularity the publication is dealt with as an unpaid letter.

13th. It is suggested that every publication should have a notice to purchasers conspicuously printed, pointing out the necessity of exposing the stamp or stamps to view whenever the publication is sent through the post.

14th. Stamped publications can also be forwarded under the regulations of the book post; but when

* Inland letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

so sent the impressed stamp does not count as any part of the postage.

7. Newspapers sent abroad are liable to the same regulations as newspapers passing (under the newspaper privilege) between different parts of the United Kingdom, except as regards size, and that, before going abroad, the name of the newspaper must have been registered at the General Post Office, and that, instead of requiring to have an impressed stamp (by which is meant the stamp specially used for newspapers), each newspaper, if sent to a foreign country, is liable to the postage entered in the Table of Colonial and Foreign Postage, and if sent to a British colony, to a postage of 1d., with an addition (as shown in the Table of Colonial and Foreign Postage), when the newspaper has to pass through a foreign country; this additional postage being also payable in stamps *only*.* In all cases of newspapers going abroad the impressed stamp stands for nothing. Publications registered for transmission abroad, although not strictly newspapers, are in all respects treated as such, as far as transmission by the British office is concerned.

8. According to information which has been officially communicated, it is forbidden to introduce into Russia through the post, political newspapers, in covers open at the ends or sides; and the only means, therefore, by which persons residing in Russia can obtain newspapers from the United Kingdom is by subscribing for them at one of the Russian Post Offices. The admission also into Russia of newspapers not of a political character is permitted only in those cases where they are addressed to the house of some established bookseller. Printed prices current, however, as well as printed circulars, in covers open at the ends or sides, are allowed to be addressed to any persons residing in Russia. In all cases where the above-mentioned printed papers are allowed to circulate by the post, they are chargeable in Russia with a Foreign rate of postage, in addition to the rate chargeable on their being posted in this country.

Parliamentary Proceedings.

9. Printed proceedings of the Imperial Parliament, sent without covers, or in covers open at the ends, may circulate within the United Kingdom at the following rates of postage:—

Weighing not more than 4 oz.....	1d.
Weighing more than 4 oz., but not exceeding 8 oz.....	2d.
Weighing more than 8 oz., but not exceeding 12 oz.....	3d.
Weighing more than 12 oz., but not exceeding 16 oz.....	4d.
and so on; one penny being charged for every additional $\frac{1}{4}$ lb. or fraction of a $\frac{1}{4}$ lb.	

The words "Parliamentary Proceedings" must be written or printed on the cover of the packet, otherwise it will be liable to the letter-rate of postage.

Prepayment, when the circulation is within the United Kingdom, is optional; and if it be made in part, the simple difference only is charged.

Parliamentary proceedings may be sent under the Book Post privilege to all the Colonies, and to those foreign states between which and this country there is a Book Post.

* Newspapers posted unpaid are retained at the Returned Letter Office for one week, and then, if the postage still remain unpaid, are destroyed.

10. The following are the Regulations of the Inland Book Post:—

1st. Rates of Postage—

Weighing not more than 4 oz.....	1d.
Weighing more than 4 oz., and not exceeding 8 oz.....	2d.
Weighing more than 8 oz., and not exceeding 16 oz.....	4d.
Weighing more than 1 lb, and not exceeding $1\frac{1}{2}$ lb. 6d. and so on, 2d. being charged for every additional half pound or fraction of a half pound.	

2nd. The postage must be prepaid in full, by means of postage stamps affixed outside the packet or its cover.

3rd. Every packet must be sent either without a cover, or in a cover open at the ends or sides, so as to admit of the inclosures being removed for examination. For the greater security of its contents, the packet may be tied at the ends with string, but in such case the Postmaster is authorized to cut the string, although he is required to refasten the packet.

4th. A book packet may contain any number of separate books or other publications (including printed letters and printed matter of every kind), prints, or maps, and any quantity of paper, parchment, or vellum; and the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. Further, all legitimate binding, mounting, or covering of a book, publication, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached; as also rollers, in the case of prints or maps; markers (whether of paper or otherwise), in the case of books; and, in short, whatever is necessary for the safe transmission of literary matter, or usually appertains thereto; but no patterns, or books of patterns (unless these consist merely of paper) can be allowed.

5th. No book packet may contain anything which is sealed or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter, whether separate or otherwise, unless the whole of such letter or communication be printed. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter. Indeed, as respects the name and address of the sender, not only is the writing permitted but recommended; so that if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned.

6th. No book packet must exceed two feet in length, width, or depth, and if any such packet be presented at a Post Office it will not be received.

7th. Any packet which shall not be open at the end or sides, or shall have any written letter or any communication of the nature of a letter written in it, or upon its cover, will be charged with the "unpaid" letter postage.

8th. If a packet be found to contain any written letter, whether closed or open, or any inclosure sealed or otherwise closed against inspection, or any other unauthorized inclosure, the letter or inclosure will be taken out and forwarded to the address on the packet, charged with the full postage as an unpaid letter, together with an additional rate, and the remainder of the packet, if duly prepaid with stamps, will then be forwarded to its address.

9th. If a packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value

of 1d., it is forwarded, charged with the deficient book postage, together with an additional rate; but any packet which bears no postage stamp is charged with the "unpaid" or double-letter postage.

10th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

At the following rates, and on the same conditions as the foregoing (except that no packet weighing more than three pounds can be sent to the East Indies or to New South Wales, and that no book packet can be sent to any other part of the Cape Colony than Cape Town, Port Elizabeth, and Mossel Bay), book packets can be forwarded to every British Colony, as well as to the undermentioned foreign countries:—

To India, Ceylon, New South Wales, Victoria, Tasmania (Van Diemen's Land), South Australia, Western Australia, New Zealand, Mauritius, and Hong Kong, the rate is as follows—

	Via Southamp.	Via Mars.
Weighing not more than 4 oz.,	0s. 4d. ...	0s. 6d.
Weighing more than 4 oz., but not exceeding 8 oz.,	0s. 8d. ...	1s. 0d.
Weighing more than 8 oz., but not exceeding 1 lb.,	0s. ...	1s. 4d. ...
Weighing more than 1 lb., but not exceeding 1½ lb.,	2s. 0d. ...	3s. 0d.

and so on; two rates being charged for every additional half pound or fraction of a half pound.

To every other British Colony, to Buenos Ayres and the other portions of the Argentine Confederation, to Monte Video and the rest of the Republic of Uruguay, to Hayti, to Liberia and other parts of the west coast of Africa, and via Southampton to Alexandria, Cairo, and Suez. For a packet weighing

Weighing not more than 4 oz.,	0s. 3d.
More than 4 oz., but not exceeding 8 oz.,	0s. 6d.
More than 8 oz., but not exceeding 1 lb.,	1s. 0d.
More than 1 lb., but not exceeding 1½ lb.,	1s. 6d.

and so on; 6d. being charged for every additional half pound or fraction of a half pound. Book-packets from Hayti or the Argentine republic are chargeable with the same postage upon delivery in this country.

11. The Head Postmaster who first receives a book-packet is required, whenever he has ground for suspecting an infringement of any of the above conditions, and occasionally, even when there is no ground for suspicion, to open and examine the packet; and every book-packet which is not open at the ends or sides, or which has any written letter, or any communication of the nature of a letter, written in it or upon its cover, or which does not bear postage stamps equal to a single book-rate, is ordered to be sent up, with as little delay as possible, to the Returned Letter Branch of the Circulation Office in Edinburgh; but in the case of any other infringement of the regulations, the packet is dealt with by the Postmaster himself, in accordance with the above regulations.

12. To prevent obstacles to the regular transmission of letters, any Head Postmaster may, when necessary, delay forwarding a book-packet for a period not exceeding twenty-four hours beyond the ordinary time; and at Packet Offices* the delay may,

at the option of the Postmaster, be either for that period, or until the despatch of the mail next after that by which the book-packet ought otherwise to be forwarded.

13. It must be borne in mind that the main business of the Post Office is the transmission of letters, and that the forwarding of books and newspapers (which no one is compelled to send through the Post Office), though an important, is only a secondary object, for which no arrangement can be made which would interfere with the quick and regular conveyance and delivery of letters. Books, therefore, which would be injured by being thrust into a bag, and hurriedly pressed down like a bundle of letters, should not be sent through the post.

REGISTRATION.

14. By the prepayment of a fee of sixpence* any letter, book, or other packet on which the postage has been prepaid in stamps may be registered to any place within the United Kingdom. Book packets and newspapers can also be registered to the colonies under the conditions mentioned at page 27. To foreign countries letters only can be registered. The registration of a packet makes its transmission more secure by rendering it practicable to trace it, when inland, from its receipt to its delivery; and when colonial or foreign, if not to its delivery, at least to the port of despatch. The Post Office does not guarantee the safe delivery of the letter, &c., though the officers are of course responsible to the Postmaster-General, who will call to strict account any one neglecting his duty on this point, and, if his Lordship thinks proper, will require him to make good any loss that may be sustained thereby.

15. The postage and registration fee of registered letters must be prepaid; and if the letter be inland such prepayment must be by stamps.

16. Every letter to be registered should be presented at the window, and a receipt obtained for it, and must on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered" be dropped into the letter-box, it will, if directed to any place in the United Kingdom, be liable to a registration fee of one shilling, instead of the ordinary fee of sixpence. No Letter Carrier or Rural Messenger is required to take letters from the public for the purpose of registering them.

17. The latest time for posting registered letters at Glasgow is half an hour before the closing of the box for the mail by which they are to be despatched.

18. Parliamentary notices may be forwarded through the post under the following regulations:—

1st. The words "Parliamentary Notice" must be legibly printed on the face of the letter; and in order to secure the speedy return of any notices which may be undelivered, the name and address of the solicitor issuing such parliamentary notice should also be legibly printed or written on the face of the letter; though this is not imperative.

2nd. These notices must be posted either at the General Post Office, St. Martin's-le-Grand, in London; the General Post Office in Dublin; the General Post Office in Edinburgh; or at the chief office at one or other of the following towns:—

* Packet Offices are those at which mails are made up for despatch by packet (as distinguished from private ships) to places abroad; such are the offices of London, Liverpool, and Plymouth.

* This fee, in the case of a letter addressed to a place abroad, or posted in London, may be paid either in money or stamps; but in all other cases it must be paid in stamps.

Aberdeen,	Inverness,
Athlone,	Leeds,
Belfast,	Lincoln,
Birmingham,	Liverpool,
Bristol,	Manchester,
Cork,	Newcastle-upon-Tyne,
Exeter,	Norwich,
Glasgow,	Shrewsbury.

3d. All notices which by the standing orders of either House of Parliament are required to be served on or before the 15th of December, must be posted on or before the 12th December, unless the 12th fall on a Sunday, when they must be posted not later than the 11th; but those notices, which by the same orders may be served later than the 15th, may be posted after the 12th of that month.

4th. The Postage chargeable on these notices and the registration fee of sixpence on each must be prepaid either in money or stamps.

5th. The notices must be posted at the Post Office window, accompanied with duplicate lists of the addresses; the notices being arranged, for the convenience of comparison, in the order of the list. These lists are examined by the officer in attendance at the window; and if each list correspond with the addresses, he will sign and stamp every sheet of each list. One of the duplicate lists will then be returned to the person who brought the letters, and the other forwarded to the Secretary, General Post Office, London.

19. The hours for receiving both parliamentary notices and the under-mentioned voting notices are the same as those for the registry of ordinary letters, unless the parliamentary notices be presented at such a time as to interfere with the ordinary duties of the office; in which case the Postmaster may appoint any other time within the next twenty-four hours for receiving the same: Provided that, when the notices are to be served on or before the 15th Dec., such arrangement do not delay the posting beyond the 12th.

20. Whoever sends parliamentary notices, should, if possible, arrange on the day before with the Postmaster as to the most convenient time for posting them, and state the probable number.

21. On prepayment of the postage and of a registration fee of twopence, either in money or stamps, a notice belonging to any one of the classes enumerated in the Act 6 Vict. c. 18 (relating to votes for members of Parliament) can be sent through the post with the securities for their safe delivery enjoined by law, provided it be brought duly directed, open and in duplicate, to a Postmaster of an office where money-orders are issued or paid.* On receiving the notice, the Postmaster has to compare it with the duplicate, and if the two agree the latter will be stamped and returned to the bearer.

22. When a poll book is presented by any returning officer to be forwarded by post, the Postmaster is required to give to such officer an acknowledgment thereof in writing, stating therein the time when he received it.

23. No registration fee is demanded for poll-books, and the prepayment of the postage is optional, without regard to weight or size.

POSTAGE STAMPS.

24. Every Postmaster and Letter Receiver is required to have on hand a sufficient stock of postage labels and penny stamped envelopes, and to sell them to the public at the following prices:—

Stamped Labels.

Penny Labels.....	1d. each.
Twopenny do.....	2d. each.
Fourpenny do.....	4d. each.
Sixpenny do.....	6d. each.
Shilling do.....	1s. each.

Stamped Penny Envelopes.

* 12 to be sold for.....	1s. 1½d.
8 " 	0s. 9d.
6 " 	0s. 6¾d.
4 " 	0s. 4¾d.
2 " 	0s. 2¾d.
1 " 	0s. 1½d.

Two kinds of stamp envelopes are now issued; one with a thread passing through the stamp, and the other without any thread, but made with thicker and better paper. Every person can have the kind he prefers.

25. Every Rural Messenger is authorized to sell postage labels and stamped envelopes at the same prices at which Postmasters are empowered to sell them, and when any person applies to him for such labels the Messenger must either supply them, or (if he have none in his possession) he must, without extra charge, receive the postage in money, and, on his arrival at the Post Office, obtain stamps for it, and affix them carefully to the letters.

26. Prepayment of inland letters, &c., must be by stamps,† except at the Chief Post Office, London, where prepayment of such letters from 10 A.M. to 5 P.M. is permitted in money, provided the amount be not less than £1. Letters also to the colonies and foreign countries may be prepaid in money. Except in the case of letters posted in Malta, Gibraltar, Constantinople, the British Colonies in the West Indies, under the control of the Postmaster-General, and by sailors in Her Majesty's service, British postage stamps are not available for the payment of letters, &c., coming into the country.

27. When adhesive stamps are used, they should be examined to see that they firmly adhere, since if they fall off, the letters, &c., will be charged with postage, which in the case of inland letters, is double the prepaid rate. To some places abroad also, double the prepaid rate is chargeable in such cases; and in other instances the letters, &c., are liable to be detained for the deficient postage. The stamps should be placed on the front of the letter, and upon the right hand corner of the upper side.

28. Arrangements have been made by which paper and envelopes taken by the public to the Office of Inland Revenue, &c., Somerset House, can be impressed with postage stamps under the following regulations:—

1st. When the stamps required do not amount to £10; 1s. is charged, in addition to the postage stamps, for each distinct size of paper.

2d. When the stamps amount to £10, no fee is charged, provided one size of paper only be sent.

* Every complete dozen, or any larger number, must be charged at the same rate.

† Payment in stamps must always be made by affixing outside the letter, &c., before it is posted, a number of stamps equal in value to the amount of postage.

* The posting of these notices is confined strictly to Post Offices where money-order business can be transacted; consequently, whenever such power is suspended at any office, none of these notices can there be received.

3d. When the stamps amount to £20, no fee is charged, provided not more than two sizes of paper be sent.

4th. When the stamps amount to £30, no fee is charged, provided not more than three sizes of paper be sent.

5th. When the stamps amount to £40, no fee is charged, provided four sizes of paper only be sent, and no more than four sizes can be received on a single warrant.

6th. No folded envelopes can be stamped, and therefore paper, whether intended for envelopes or letters, must be sent unfolded and without being creased.

7th. Every distinct size and form of envelope or paper must be marked so as to indicate the place on which the stamp is to be impressed, in order that it may appear in the proper position, according to the rules of the Post Office, when the envelope or letter is folded up.

8th. No coloured paper can be received for stamping, nor any paper which is too thin to bear the impression of the dies.

9th. Envelopes provided by the Office of Inland Revenue, with proper stamps thereon, will be substituted for any of those sent which may be spoiled in the operation of stamping.

A license to sell postage stamps can be obtained free of expense, by any respectable person, on application to the officer of Inland Revenue.

MONEY ORDERS.

29. The public are recommended, when applying for Money Orders, to use printed "Requisition Forms," which save time, and afford greater security, than verbal messages, against mistakes. These Forms are sold by Postmasters at the rate of ten for one penny, or five or any smaller number for a halfpenny.

30. The commission on an Inland Money Order not exceeding £2 is threepence, and on one above £2 it is sixpence; no order being granted for more than £5. The commission on a Money Order to Canada is fourfold these sums.

31. No order is allowed to contain a fractional part of a penny.

32. With the subjoined exceptions, no Money Order can be issued unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter (the person who sends the order) and the payee (the person to whom the money is to be paid), together with the remitter's address.

1st. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient; and if a firm, the usual designation of such firm will suffice,* except a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company," to which kind of company the above privilege does not extend.

2d. When the remitter notifies in writing that the order is to be paid through a bank, it is left to his option to give or withhold the name of the payee.

33. When application is made for a Money Order payable in London or any other town where there is a plurality of Money Order Offices, the remitter should say at which of such offices he wishes it to

be paid, otherwise the order can be cashed at the chief office alone. It is not incumbent on a Postmaster to supply such information relative to local or provincial offices, but the nearest Money Order Office to any street in London may be ascertained by referring to the Street List.

34. An order once issued cannot be cancelled; and should repayment or transfer to a different office or alteration of name be required, the remitter must apply to the Metropolitan Office, as directed in the 49th rule.

35. When an order is presented for payment (otherwise than through a Bank) the Postmaster has first to see that the signature of the payee be as full as the name given in the advice, and be not in any way inconsistent therewith. He has then to call on the applicant to give the name of the remitter, and if the reply be correct, the order will be paid, unless the Postmaster have good reason for believing that the applicant for payment is neither the rightful claimant, nor deputed by him. When an order is paid through a bank, it is sufficient that it be receipted (without regard to any discrepancy between the signature and the name in the advice, or to whether the receipt is given by the payee himself or by another person), and that it be presented (crossed with the name of the receiving bank) by some person known to be in the employment of the bank.

36. The holder of a Money Order is always at liberty to direct, by crossing it, that the order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus crossed, the question put on the presentation of an Ordinary Money Order is dispensed with.

37. Money Orders do not require a receipt stamp.

38. Payment of an order must be obtained before the end of the second calendar month after that in which it was issued (for instance, if issued in January it must be paid before the end of March), otherwise the order becomes lapsed, and a new order will be necessary, for which a second commission will be charged. Any person presenting a lapsed order will be furnished with a copy of a printed notice headed "Lapsed Money Orders," containing directions how to proceed. If the order be not paid before the end of the twelfth calendar month after that in which it was issued (for instance, if issued in January, and not paid before the end of next January), all claim to the money will be lost.

39. No application can be entertained for compensation for alleged injury from the nonpayment of a Money Order at the expected time; and after once paying a Money Order, by whomsoever presented, the Office is not liable to any further claim. The public are therefore strictly cautioned—

1st. To guard against the loss of the Money Order.

2nd. Never to send the Money Order in the same letter with the information required on payment thereof.

3rd. To be careful on applying for a Money Order to state correctly the surname, and at least the initial of the Christian name, of the person in whose favour it is to be drawn.

4th. To see that the name of the person taking out the order is correctly known to the person in whose favour it is drawn.

40. Under no circumstances can payment of an order be demanded on the day of issue.

* The mere term Messrs., however, is not sufficient.

41. In case of the miscarriage or loss of a Money Order, a duplicate is granted on a written application (with the necessary particulars) to the Controller of the Money Order Office of the kingdom where the original order was issued; and by a similar application to the same officer authority can be obtained to transfer the payment of an order from one office to another, or to stop payment, or to correct any error in the name of the remitter or payee, or to repay the money to the remitter. The issuing Postmaster, however, have power to effect alterations in the names of payees and remitters of orders granted and payable in the United Kingdom, on the personal application only of the remitter. Every application, whether written or personal, must be accompanied by a second commission (in postage stamps), namely, threepence for an order not exceeding £2, and sixpence for an order above that sum, though one commission will suffice even when, in the same application, more things than one, relating to the same order, are asked for; as both an alteration in the name of the payee and payment at another office. Unless a sufficient reason be given for an exception, the application must be either from the remitter or payee. Whenever, on complaint being made, it is found that the necessity for an application entailing the payment of a fresh commission is attributable to the Post Office, the stamps transmitted in payment of the commission will be returned; and when it can be ascertained where the blame lies, the officer in fault will be required to pay the additional commission.

42. A postmaster is required to give information how to apply for a duplicate order, &c., and must furnish the applicant with the prescribed form of application. Moreover, if payment of an order be refused in consequence of the replies to the questions respecting the remitter not corresponding with the entries in the advice, or of a difference in the name in the receipt, the Postmaster is instructed to advise the applicant for payment to communicate with the remitter, and request him to apply personally to the issuing Postmaster.

43. No Letter Carrier or other servant of the Post Office is bound to procure a Money Order for any person, or to obtain payment for one, but such services are not forbidden.

44. No Money Order business is transacted on the Sunday; neither in England or Ireland is any transacted on Christmas-day or Good Friday; nor in Scotland on the Sacramental Fast-days; but for the convenience of the labouring classes the provincial offices are kept open on the Saturday night till 8 o'clock (or as near that hour as the despatch of the mail will allow), except where the surveyor of the district considers such an arrangement unnecessary.

45. Money Orders are issued and paid at the Chief Offices in London, Dublin, and Edinburgh daily, between the hours of 10 a.m. and 4 p.m., except on Saturdays, when the hours of business are from 10 a.m. till 1 p.m. Orders are issued and paid at most provincial offices from 9 in the morning till 6 in the evening, and the time is never less than from 10 till 4. A Postmaster, however, is in some cases allowed to suspend the business during the time he is making up his letter bags, &c., provided a notice of the intervals be placarded at his office.

46. The agents of the Post Office in Malta and

Gibraltar are authorized to issue Money Orders on the several Money Order Offices in the United Kingdom and Canada; but no orders can be drawn upon Malta or Gibraltar.

47. Money Orders are issued at all Money Order Offices in the United Kingdom of Great Britain and Ireland, and at Malta and Gibraltar, on Money Order Offices in Canada, and by the Canadian Offices on any Money Order Office in the United Kingdom, at the charge of 1s. for any sum not exceeding £2; and 2s. for any sum above £2, and not exceeding £5, beyond which amount no Order can be granted.

48. The issue of Money Orders under the above arrangement is in all other respects on the same conditions as regulate their issue by one office on another in the United Kingdom, except that in consequence of the distance between the United Kingdom and Canada, an interval of four instead of two months is allowed after the issue of an Order in one country payable in the other, before such Order becomes lapsed.

49. The renewal of a lapsed Order, the issue of a duplicate Order, the transfer of an Order to a different place, and also the stoppage of payment of an Order, will be made on the application of the proper party to the Controller of the Metropolitan Office of the country in which such Order is payable, provided an additional Inland Rate of Commission be inclosed with the application; except in the case of lapsed Orders, when the additional commission will be deducted from the amount of the new Order issued by the Department; but the lapsed Order must be transmitted with the application for its renewal.

50. For repayment of the amount of a Money Order, or for the correction of any error respecting the name of the Payee or Remitter of an Order, the application on the subject, inclosing an additional Inland rate of Commission, must be addressed to the Controller of the Metropolitan Office of the country in which the Order was issued.

MISCELLANEOUS RULES.

52. With the following exceptions, no letter, &c. can be forwarded by the post which is more than two feet in length, breadth, or depth, nor any unpaid packet which weighs more than four ounces,

unless three quarters of the postage have been paid.

The exceptions are:—

1st. Packets to or from places abroad.

2nd. Packets to or from any of the Government Offices or Departments, or Public Officers.

3rd. Petitions or addresses to the Queen, whether directed to Her Majesty, or forwarded to any member of either House of Parliament.

4th. Petitions to either House of Parliament, forwarded to any member of either House.

5th. Printed Parliamentary proceedings.

53. No information can be given respecting letters which pass through a Post Office* except to the persons to whom they are addressed; and in no other way is official information of a private character allowed to be made public.

54. Postmasters are not allowed to return any letter, &c. to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon; as every letter, &c. must be delivered to the person to whom it is directed, and to him alone.

55. Late letters, &c.,† are received till within five minutes of the despatch of the mails, except in those large towns where the surveyor may deem an interval of ten minutes necessary, and excepting that no office is to be kept open merely for this purpose after ten o'clock at night.

56. No late letters, &c., are forwarded by the mail preparing for despatch unless prepaid, and that in stamps, so as to include both the ordinary postage and the late-letter fee.

57. With the subjoined exceptions, every re-directed letter or other postal packet will be liable to an additional postage (at the prepaid rate) unless the re-direction be not only made by an Officer of the Post Office, but be to a place within the district belonging to the same Head Office. Thus, on a paid or unpaid letter re-directed either by an Officer of the Post Office, or by any one else, to a different postal district in the United Kingdom, and weighing not more than half an ounce, an additional postage is levied of one penny; or, if the weight be more than half an ounce, but does not exceed an ounce, of twopence; and so on. Upon a book thus re-directed to any other postal district in the United Kingdom, and weighing not more than four ounces, an additional postage of one penny is levied; or, if the book weigh more than four ounces, but not more than eight ounces, an additional postage of twopence; and so on. Newspapers and books, &c. received from abroad, and reposit to any other place abroad, with which there is no book post, are chargeable with letter postage. A registered letter when re-directed, is not subject to a greater additional charge than an ordinary letter. Letters which have once been posted addressed to commissioned officers in

* The term "Post Office" applies to all Post Offices, whether Head Office, Sub-Office, or Receiving Office. A "Head Office" is an office subordinate only to a Metropolitan Office. Both Sub-Offices and Receiving Offices are under Head Offices; but at Receiving Offices letters are received only, not delivered.

† The term "Letters," &c. is meant to include everything sent by the post; whether letters, newspapers, parliamentary proceedings, books, or aught else. "Late letters" are such as are posted after the ordinary time, and which cannot therefore be sent forward by the mail then in preparation, unless extra payment be made.

the army, navy, or ordinance, employed on actual service in any of Her Majesty's colonies, or on any foreign station, and who, before receiving the letters may have started on their return home, or to another station, may be re-directed to such officers when removed *upon service*, and will be delivered to them for the same postage that would have been chargeable had the letters been delivered at their original address. The same privilege extends to the letters of soldiers and seamen (see pages 26, 27), except as regards foreign postage, which must be paid. No such privilege, however, is allowed with regard to letters for a commissioned officer when such officer is in the United Kingdom, and was so when the letters were posted. Postmasters are not bound to re-direct letters for inhabitants of the same postal district, unless their places of abode should be left uninhabited, or they have a private bag or box; and unless, in addition, a written application be received by the Postmaster from the person to whom the letters are addressed, requesting that they may be re-directed.

58. Every Postmaster is required to have a notice conspicuously placarded, giving information respecting the hours of attendance, the despatch and delivery of Letters, &c.

59. During the time the office is open on Sunday (viz. from 8 to 9 A.M.) the public are allowed to pre-pay foreign or colonial letters, to purchase postage stamps, and to have letters registered; and all other duties are performed as usual, except the issue and payment of Money Orders, which on that day are wholly suspended.

60. At no office in England or Ireland is there more than one delivery on the Sunday, Christmas-day, or Good Friday; nor in Scotland on Sunday or the Sacramental Fast-days.

61. No Postmaster is bound to give change, or is authorized to demand change; and when money is paid at the Post Office, whether as change or otherwise, no question as to its right amount, goodness, or weight can be entertained after it has been removed from the counter.

62. Except as regards foreign and colonial letters about to be prepaid in money, a Postmaster is not bound to weigh any letters or other packets for the public, though he may do so if his duty be not thereby impeded.

63. Postmasters are instructed not to receive any letter, &c., which there is good reason to believe contains anything likely to injure the contents of the mail bag, or the person of any officer of the Post Office. If such a letter, &c., be posted without the Postmaster's knowledge, or if at any time before its despatch he should discover any letter, &c., of the above description, he is directed not to forward it, but to report the case, with the address of the letter, &c., to the Secretary. The following are examples of the articles referred to:—

A glass bottle, or glass in any form; razors, scissors, needles, knives, forks, or other sharp instruments; leeches, game, fish, meat, fruit, or vegetables, bladders or other vessels containing liquids; gunpowder, lucifer matches, or anything which is explosive or combustible.

When any letters, &c., remain undelivered, owing to the residences of the persons to whom they are addressed not being known, a list of the addresses is affixed in the window of the Post Office to which

they may have been sent, during the time—one week—they are allowed to remain there.

64. When the reason for the nondelivery of a letter, &c., in the country is "Deceased," the packet is sent, as soon as practicable, to the Returned Letter Office, as are all letters intended for ships which have sailed before their arrival. When the reason is "Refused," "Not known," or "Gone away," the letter is retained by the provincial postmaster for one week before being sent to the Returned Letter Office; and when the reason is "Not called for" (the letter being addressed to a Post Office), the packet is retained by the Postmaster one month; except in the case of letters at seaports addressed to persons on board ships expected to arrive at such ports, which letters are kept three months. London district letters, and letters from the country, addressed to London and its neighbourhood, whether the reason is "Deceased," "Refused," or "Gone away," are sent to the Returned Letter Office on the day after the attempt to deliver them. All town and provincial letters which contain the name and address of the senders, are returned to them the same day they reach the Returned Letter Office. Colonial and Foreign letters are, with a few exceptions, returned in periods varying from one to two months.

Every letter, &c., which is opened at the Returned Letter Office, and found to contain the address of the sender, is sent back to him; but such as do not contain the sender's address are destroyed, except those which contain money or other articles of value.

65. By the Act 1st Victoria, cap. 36, sec. 2, any person conveying otherwise than by the Post a letter not exempted from the exclusive privilege of the Postmaster-General, incurs a penalty of £5 for every letter, and £100 for every week the practice is continued. The sender also incurs a penalty of £5 for every letter, with full costs of suit.

66. The following are the exceptions granted by the Act 1st Victoria, cap. 34, from the exclusive privilege of the Post Office, in the conveyance of letters:—

1st. Letters sent by a private friend, so as such letters be delivered by such friend to the party to whom they shall be directed:

2nd. Letters sent by a messenger on purpose, concerning the private affairs of the sender or receiver thereof; commissions or returns thereof, and affidavits and writs, process or proceedings, or returns thereof, issuing out of a Court of Justice:

3rd. Letters sent out of the United Kingdom by a private vessel (not being a packet boat):

4th. Letters of merchants, owners of vessels of merchandize, or the cargo or loading therein, sent by such vessels of merchandize, or by any person employed by such owners for the carriage of such letters, according to their respective directions, and delivered to the respective persons to whom they shall be directed, without paying or receiving reward or profit for the same in anywise:

5th. Letters concerning goods or merchandize sent by common carriers, to be delivered with the goods which such letters concern, without hire or other advantage for receiving or delivering such letters:

6th. No person is authorized to make a *collection* of such excepted letters for the purpose of sending them in the manner above described.

67. The following persons are expressly forbidden to carry a letter, or to receive or collect or deliver a letter, even though they shall not receive hire or reward for the same :

1st. Common known carriers, their servants or agents, except a letter concerning goods in their carts or waggons, or on their packhorses; and owners, drivers, or guards of stage coaches:

2nd. Owners, masters, or commanders of ships, vessels, steam-boats, or boats called or being passage or packet-boats, sailing or passing coastwise, or otherwise between places within Great Britain or Ireland, or between, to, or from ports within Her Majesty's dominions or territories out of the United Kingdom, or their servants or agents, except in respect of letters of merchants, owners of ships, or goods on board:

3rd. Passengers or other persons on board any such ships, vessels, steam-boat, passage or packet boat:

4th. The owners of or sailors or others on board a ship or boat passing on a river or navigable canal within the United Kingdom or other Her Majesty's dominions.

Time of Posting.—When the time for making up a mail is marked "Afternoon," the latest time (in Glasgow) for posting Letters by it for Abroad, is 5.15 p.m., at the Chief Office. When marked "Evening," 7.20 p.m.

Optional or Compulsory Prepayment.

69. The letter V prefixed to a division (as that of Letters) indicates that in such case prepayment is voluntary. In other cases prepayment is compulsory. When a Letter or Newspaper, addressed to go by a route that requires prepayment, is posted unpaid, and there is some other route where prepayment is not required, it is sent by that route; but if there be none, it is sent to the Dead Letter Office, to be returned to the writer.

Distance to which the Postage carries the Letter, &c.

70. The letter A prefixed to any division shows that the postage there entered does not carry the Letter, &c., from the place where it is posted in the United Kingdom entirely free to its place of destination, but that it is liable to an additional charge upon delivery.

Letters for Non-commissioned Officers, Soldiers, and Seamen in Her Majesty's Service.

71. S. Subject to the subjoined regulations, non-commissioned officers, private soldiers or seamen,

whether serving on board her Majesty's ships on sea or land (in Foreign Parts), as also enrolled pensioners in Canada, can send and receive letters by direct Packet or Vessel of War, for a postage of 1d.; but if any such letters have to pass through a foreign country, they are subject, in addition to the foreign rate, whatever that may be; thus the postage to the under-mentioned countries (including the British charge of one penny) is as follows:—

To or from—	Under ½ oz.		Above ½ oz. and not exceeding 1 oz.

1st. The person claiming the privilege must at the time be actually employed in the service of Her Majesty, and must not be either a commissioned officer, midshipman, master's mate, or warrant officer (viz., assistant-engineer, gunner, boatswain, or carpenter), the privilege not extending to these officers.

2nd. If the Letter be posted within the United Kingdom, the penny must be prepaid, as must any foreign postage that may be chargeable; and if sent by a private ship the gratuity of one penny to the captain must also be prepaid. If posted abroad, prepayment is not compulsory; but if the letter be sent unpaid, it is on delivery charged twopence, together with any foreign postage or gratuity to a sea captain that may be due.

3rd. The Letter must not weigh more than half an ounce.

4th. It must relate entirely to the private concerns of the soldier or seaman.

5th. The name of the soldier or seaman, with his class or description, must appear in the direction, and the officer having the command must sign his name, and specify the ship, or regiment, corps, or detachment to which the soldier or seaman belongs; the name of the ship or regiment being entered in full. The foregoing particulars must be given in one of the following forms:—

C. D., Captain (or other Commanding Officer),

72. If either of the foregoing regulations be violated, the letter is charged with the full Letter Rate. *Officers' Letters.*

73. Letters (not exceeding $\frac{1}{2}$ oz.) addressed to military officers, or naval officers on board Her Majesty's ships on Colonial or Foreign Stations, are subject to a uniform British rate of 6d. $\frac{1}{2}$ oz., which must be paid in advance; but if any such letters have to pass through a Foreign Country, they are subject, in addition, to the Foreign rate, whatever that may be: thus, the postage to the undermentioned countries (including the British charge of 6d.) is as follows:—

To or from	Under $\frac{1}{2}$ oz.		Above $\frac{1}{2}$ oz. and not exceeding $\frac{1}{2}$ oz.

Letters weighing more than 2 oz.

74. The postage of a Letter weighing any number of ounces, with any fraction of an ounce, may be reckoned by first seeing what it would be if the Letter weighed only one ounce, with the same fraction; and then adding the charge for the additional ounces. Thus, to find the postage on a Letter to France weighing between 3 oz. and $3\frac{1}{2}$ oz., take 1s. 8d. (the charge for a Letter between 1 oz. and $1\frac{1}{2}$ oz.), and add thereto 2s. 8d., the charge for the additional two ounces; giving a total of 4s. 4d. For a Letter between $3\frac{1}{2}$ oz., and $3\frac{3}{4}$ oz., take 2s. 4d.

(the charge for a Letter between $1\frac{1}{2}$ oz. and $1\frac{3}{4}$ oz.), and add thereto 2s. 8d., the charge for the two additional ounces, giving a total of 5s. Whenever it appears by the Table that the postage to a British Colony of a Letter not exceeding $\frac{1}{2}$ oz. in weight is 6d., the postage of a Letter of any greater weight may be found by multiplying the prepaid Inland rate by six. Thus, the postage of a Letter between 4 oz. and 5 oz. in weight to Jamaica is 5s., being six times 10d., the prepaid Inland rate of a Letter of that weight.

Routes.

75. When the route by which a Letter, &c., is to go is not marked on it, it will, under ordinary circumstances, be sent by the route immediately following the name of the place. Thus, a Letter or Newspaper directed to India, with no route marked on it, will be sent via Marseilles, and charged the higher postage attendant thereon.

76. For information respecting Foreign rate of postage, as distinguished from the combined British and Foreign rate (which will be found in the above Table), application should be made to the Secretary of the Post Office. No Foreign postage is chargeable on Letters to or from Australia or India via Southampton.

and so on, two rates being charged for every additional 8 oz. or part of 8 oz.					

No packet of books or newspapers, however, can be sent to the Austrian dominions via Sardinia if it weighs more than 1 lb.

The term "printed papers" (as applied to foreign countries) includes printed papers of every kind, Parliamentary proceedings and Books of every kind, whether printed, engraved, or lithographed, Sheets of Music, Prints, and printed or engraved Maps, with any binding, mounting or covering (whether loose or attached), belonging to any Book, &c., and any cases or rollers of prints, or of printed or engraved Maps, together with Bookmarkers, Pencils, Pens, or other articles usually appertaining to any such Book, &c., or necessary for its safe transmission. But no such Book, &c. (unless it be for Sardinia, in which case writing, not of the nature of a letter, is allowed), must contain any writing or manuscript mark of any sort, and no packet must exceed 18 inches in length, width, or depth (except those addressed to Sardinia, Spain, the Balearic or Canary Islands, Tuscany, Parma, Modena, and the Austrian dominions, which must not exceed 24 inches), otherwise it will be detained and sent to the Returned Letter Office charged with Letter Postage. *To Spain, the Balearic or Canary Islands, however, bound Books cannot be sent; neither can Prints, Music, Maps, or Drawings, unless they form part of a publication included in a packet of printed papers.* In Spain, also, as a rule, the circulation is prohibited of all articles which are not either Letters or printed papers; but patterns and samples may be sent under the following regulations:—

- 1st. The patterns or samples themselves must be of no intrinsic value whatever.
- 2nd. They must be inclosed in covers open at the ends or sides, or in such other manner as to admit of a thorough inspection.
- 3rd. The covers must contain no writing except the usual trade marks and numbers.
- 4th. Packets of patterns and samples thus forwarded will be liable in this country to the same rates of postage as ordinary letters for Spain, viz., 6d. for a packet not exceeding a quarter of an ounce in weight, increasing for heavier weights at the rate of sixpence for each quarter of an ounce; and such postage must in all cases be paid in advance.
79. To all parts of Belgium, to Sardinia, Spain, the Balearic or Canary Islands, Tuscany, Parma, Modena, and the Austrian dominions, France, Algeria, and to those places in Turkey, Syria, and Egypt where France maintains post offices, the above rates carry the packet to its destination; no charge being made on delivery. At the same rates (although subject to a further charge on delivery) newspapers and other printed papers may be sent to those countries not mentioned in the foregoing Section (78), the correspondence for which is forwarded as a rule by way of France (as shown in the Table of Colonial and Foreign Postage), and (when so

addressed) to other countries via France. As regards packets sent through France (except to the countries enumerated in Sections 77 and 78) the term "printed papers" does not include cases or rollers, or Maps, Bookmakers, Pencils, Pens, &c., but does include Parliamentary Proceedings, Books of every kind, sheets of Music, and Prints. In these latter cases the rates paid in the United Kingdom free the newspapers or other printed papers through France, but not beyond.

Printed Papers to Portugal, &c.

80. Periodical works, pamphlets (but not books of other kinds), prices current, sheets of music, catalogues, prospectuses, announcements, and notices of various kinds, whether printed, engraved, or lithographed, may be sent to Portugal, Madeira, Azores, Cape de Verde Islands, and all other Portuguese possessions on the coast of Africa by packet or private ship at the rate of 1d. per ounce, or, if sent via France and Spain, 2d. per ounce.

81. The Foreign rates of postage on Newspapers to parts of Turkey, &c., via Belgium, specified in the Table, as *exceptional rates*, are as follows:—Not exceeding $\frac{1}{2}$ oz., 1½d.; $\frac{1}{2}$ oz. and not exceeding 1 oz., 3d.; 1 oz. and not exceeding $1\frac{1}{2}$ oz., 4½d.; $1\frac{1}{2}$ oz. and not exceeding 2 oz., 6d.; 2 oz. and not exceeding $2\frac{1}{2}$ oz., 7½d., and so on, 1½d. being charged for every succeeding $\frac{1}{2}$ oz. or fraction of $\frac{1}{2}$ oz. Besides this Foreign postage there is a British postage of 1d. for each Newspaper. Both rates must be prepaid.

A Newspaper for Hayti, the Argentine Republic, Uruguay, or for India via Marseilles, weighing above 4 oz. and not exceeding 8 oz. is chargeable with two single rates; above 8 oz. and not exceeding 12 oz. with three single rates, and so on. A Newspaper for India via Southampton, is charged as follows:—Not exceeding 4 oz., 2d.; above 4 oz. and not exceeding 8 oz., 3d.; above 8 oz. and not exceeding 12 oz., 4d., and so on.

The privilege of the Book Post to and from India and New South Wales is limited to packets not exceeding 3 lbs. in weight; any packet weighing more than 3 lbs. is liable to letter rate of postage.

82. Periodical works not of daily publication, issued in the shape of pamphlets, may be sent to Bremen and Hamburg by private ship, to Prussia via Belgium and by private ship, to the United States, California, and Oregon by Packet, and to Holland via Belgium, and by private ship (to which latter country Parliamentary Proceedings may also be sent), at the following rates: not exceeding 2 oz., 1d.; 2 oz. and not exceeding 3 oz., 6d.; 3 oz. and not exceeding 4 oz., 8d.; with an addition of 2d. for every additional ounce up to 16 ounces, above which weight the privilege does not extend, *except in the case of parliamentary proceedings to Holland, the weight of which is unlimited.* At the same rate of postage, any pamphlet not weighing more than 8 oz. (even though it be not a periodical publication) may be sent to the United States. The periodical works or pamphlets must always be sent in a cover open at the ends (not more than one being sent in a single cover), and the postage must be prepaid. Other printed papers or books (except those specified above) addressed to the places above-named are liable to letter rate of postage.

83. According to the regulations of the German Postal Union, no letter exceeding 50 grammes (a little more than $1\frac{1}{2}$ oz.) in weight, and containing any other inclosure than paper, can be allowed to circulate by the post. Any letters, therefore, forwarded in the Mail to Prussia above that weight, and containing any other inclosure than paper, will be liable, on their arrival at the Prussian frontier, to be stopped, and sent to the Custom House for delivery as *freight*.

Registration of Letters, &c.

84. The fee chargeable for registering a letter, in addition to the ordinary postage, both of which must be prepaid or the letter cannot be registered, will be found against each country or place in the Table of Colonial and Foreign postage.

85. "¶" Where this sign is made use of in the column of fees in the Table of Colonial and Foreign postage, it signifies that the letter can only be registered with certainty to the port of despatch; it being left in those cases to the postal authorities of the colony or foreign country to continue the registration if they think proper. The principal places to which this restriction applies are as follows:—Africa, West Coast (except Gold Coast and Sierra Leone), Argentine Confederation, Ascension, Borneo, Brazil, Carthage, Cayenne, Central America, China (except Hong Kong), Cuba, Curaçoa, Egypt (except Alexandria, Cairo, and Suez), Falkland Islands, New Granada, Paraguay, Philippine Islands, Reunion, St. Croix, St. Eustatius, St. Martin's, St. Thomas, Sandwich Islands, States on the Pacific side of South America, Surinam, Syria, Tahiti, Tasmania, Uruguay, Vancouver's Island and Venezuela, Guadaloupe, Hayti, Honduras (except Belize), Japan, Java, Madagascar, Mexico.

86. *France and Countries through France.*—The registration fee upon letters addressed to France, or countries through France (exclusive of those sent in the British Mails to India, Malta, or Australia), is not a fixed sum, but is chargeable by weight, and is in all cases a sum exactly equal to the postage, whatever that may be.

87. *Russia and Poland via Belgium.*—The registration fee chargeable upon letters addressed to Russia and Poland is stated at length in the Table of Colonial and Foreign Postage. It is composed as follows:—A fixed sum of 9d. for a letter of any weight, in addition to $3\frac{1}{2}$ d. for every $\frac{1}{2}$ oz. or fraction of a half ounce.

88. Letters and Book packets, &c. addressed to the following British Colonies can be registered only as far as the port of despatch; but to all other British Colonies they can be registered to destination:—Tasmania, Ascension, Gambia, Vancouver's Island, British Columbia, Labuan, and Falkland Islands. Whether the registration be to destination or to the port of despatch only, the fee is 6d., irrespective of weight; and this fee, together with the usual letter rate, &c. must be paid in advance.

Letters by Private Ships.

89. To most of the places entered in this Table, letters may, if so marked, be sent by British private ship, even where there is no entry to that effect in the Table. Letters may be sent by private ship, also, to many other places; the Table of Colonial and

Foreign Postage being chiefly limited to those with which there is postal communication by regular packets. To insure any letter, &c., being sent by private ship, the words "By Private Ship," or "By Ship," should be distinctly written above the address. Except where otherwise specified in the Table, the postage on a letter by a private ship is six times the inland prepaid rate; consequently, on a letter not $\frac{1}{2}$ an oz. it is 6d., which postage must generally be prepaid, though to the following places ship letters may be sent unpaid, viz., Bermuda, Canada, Cape of Good Hope, Gold Coast, New Brunswick, Nova Scotia, Newfoundland, Prince Edward Island, Turks Island, Sierra Leone, Ceylon, and Mauritius—Newspapers by private ships are charged 1d. each. In those cases where there is no packet conveyance, and where, at the same time, book packets are allowed to be sent by private ship, an entry to that effect will be found in the Table.

Warm Climates.

90. The practice of sealing letters passing to and from the East and West Indies, and other warm climates, with wax (except such as is specially prepared) is attended with much inconvenience, and frequently with serious injury to the letters, in consequence of the melting of the wax and adhesion of the letters to each other.

91. The public are therefore recommended in all such cases to use either wafers or gum, and also to advise their correspondents in the countries referred to, to pursue the same course.

Prepayment.

92. Letters addressed to places abroad may be prepaid in this country either in money or stamps, but such payment must be wholly in stamps or wholly in money. Newspapers and Bookpackets must always be prepaid, and this in stamps. With certain exceptions the only admitted evidence of the prepayment of a letter, &c., inwards, is the mark agreed upon with the particular foreign country or colony. Naval officers and seamen also serving abroad are allowed to prepay such of their letters as are conveyed in their ship's bag, with English postage stamps. When prepayment is optional, any outward letter (that is, a letter posted within the United Kingdom, and addressed to some place out of it) posted with an insufficient number of stamps is charged with the deficient postage in addition; unless the letter have to go to a country through France, Holland, or the United States, in which case it is treated as wholly unpaid, the postal conventions with the latter countries not allowing the recognition of partial prepayment. When prepayment, however, is compulsory, a letter or ought else posted with an insufficient number of stamps is sent (by the first post) to the Returned Letter Office. Unpaid letters addressed to or received from France, are charged with a postage of 8d. per $\frac{1}{2}$ oz.; and those to or from places in Turkey, Egypt, and Syria, at which France maintains Post Offices, are, on delivery, charged a rate of 9d. per $\frac{1}{2}$ oz., instead of 6d. the prepaid rate. Unpaid letters addressed to or posted in Sardinia are, on delivery, charged with 6d. beyond the ordinary postage, as a fine. Unpaid letters sent to or received from Belgium are, on delivery, charged 8d. per $\frac{1}{2}$ oz. when conveyed by

direct packet; and 10d. per $\frac{1}{2}$ oz. when conveyed by way of France. Unpaid letters sent to or received from Spain, the Balearic or Canary Islands, are charged on delivery with double the prepaid rates. Letters to or from Canada, Nova Scotia, New Brunswick, and Newfoundland, posted wholly or partially unpaid are charged upon delivery with the deficient postage, and 6d. additional as a fine.

93. Letters to or from Ceylon, India, Australia, Tasmania, New Zealand, British West Indies (except Turk's Island), Honduras, Malta, Gibraltar, Hong Kong, and St. Helena, posted wholly unpaid or paid less than one rate, are detained and returned to the writers for postage; but those on which one rate, although not the whole postage has been paid by stamps are forwarded charged with the deficient postage, and 6d. as a fine.

94. Letters for Russia and Poland posted insufficiently prepaid are forwarded as wholly unpaid, arrangements with those countries not admitting of partial prepayment.

95. Unpaid Letters sent to or received from the following places, via Belgium, are charged with a rate of 8d. per $\frac{1}{2}$ oz., viz., Prussia, Austria, Hamburg, Bremen, Lubeck, Bavaria, Saxony, Wurtemberg, Mecklenburg Strelitz, Oldenburg, Luxemburg, and Brunswick.

SUGGESTIONS TO THE PUBLIC, &c.

96. Facility would be given to the Post Office in the discharge of its daily duties, and consequently benefit to the public, by a more careful and general attention to the following points:—

1st. To post all letters and newspapers as early as practicable.

2nd. When several letters are sent by the same person for registration, they should be accompanied with a list in duplicate of the addresses; one list to be retained at the Post Office, and the other, when signed, to be returned by the bearer. This practice (which is adopted by many bankers) saves time both to the public and to the department.

3rd. To make the address legible* and complete, giving the name of the post town, and if there be more than one town in the kingdom of that name (but not otherwise) adding that of the county. Letters posted in one part of the United Kingdom, and intended for another part (as, for example, letters posted in England and intended for Scotland) should have the name of the country to which they are sent added to the other part of the address. The number of the house too, if in a street, is a great assistance. It must not be supposed that because a letter will eventually reach its destination without a number, the omission is not a cause of hesitation and delay in the process of sorting for delivery; and when such small delays occur again and again they tend greatly to retard the general distribution. In the case of letters for places abroad, the name of the country as well as the town or city should be given. Attention to this latter precaution will often assist in deciphering the name of the town or city, and will prevent the letter from being mis-sent when

there are towns of the same name in different countries: For example—a letter intended for London in Western Canada, North America, but simply addressed "London, W. C.," would be forwarded to the West Central District of the Metropolis of England, and thus be delayed.

4th. Every letter, newspaper, or other packet sent by post should be securely folded and sealed.* It should be remembered that every such packet has to be several times handled, and that even when in the mail bag it is exposed to pressure and friction. Unless, therefore, the article be light and pliant, it should be inclosed in strong paper, linen, parchment, or some other material which will not readily tear or break. Owing to neglect of these precautions, many postal packets burst open, causing much trouble to the department and risk to the owners, it being sometimes impossible to determine to what packet a particular article belongs.

5th. To prevent newspapers from slipping out of their covers, care should be taken to fasten the covers firmly. When, for additional security, the address is written on the newspaper itself, such address must, in case of re-transmission, be cut off; otherwise the newspaper will become subject to letter postage. It is not sufficient that the old address be obliterated, as the rules forbid writing or marks of any kind in addition to the true address. This applies to newspapers bearing the impressed stamp, newspapers prepaid by postage stamps, and treated as any other printed matter.

6th. When money or any other article of value is to be transmitted through the post, it should be sent either by means of a money order or in a registered letter. Any person who sends money or jewellery in an unregistered letter, not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to moral ruin. Every letter which contains money or other valuable article, even when registered, ought to be securely sealed.

7th. To provide a letter-box, except where the outer door is kept open.

8th. In case of removal, to leave at the residence vacated the particulars of the new address.

9th. When complaint is made of letters or newspapers lost, miscarried, or delayed, to furnish information as precise as possible in regard to all the facts of the case, and to inclose whatever documents may throw light upon it. The day and hour at which the letter or newspaper was posted, as well as the office at which and the person by whom this was done, should always be stated; and when possible, the cover or wrapper in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps. Cases frequently occur in which complaint is made against the Post Office, and redress expected, although little or no means of tracing the error, and of guarding against a repetition of it, is supplied by those who alone are able to do so.

10th. Every letter to contain the full address of the writer, in order to insure the return of the letter if the person to whom it is directed cannot be found.

* As an instance of miscarriage owing to the want of legibility, it may be mentioned that badly directed letters intended for *Belgravia*, have not unfrequently been sent to *Belgrade*.

* The most secure mode of sealing, in the opinion of the practical officers of the department, is first to wafer the letter, and then to seal it with wax.

97. Whilst trouble and loss are too often caused by the carelessness or dishonesty of some of the twenty-one thousand servants of the Post Office, yet the instances are not few in which it has been shown, to the satisfaction even of the complainant, that the fault attributed at first sight to the Post Office, rested really in other quarters.

98. The publisher of one of the London papers complained of the repeated loss in the Post Office of copies of his journal, addressed to persons abroad. An investigation showed that the abstraction was made by the publisher's clerk; his object apparently being to appropriate the stamps required to defray the foreign postage. In another case a general complaint having arisen as to the loss of newspapers sent to the Chief Office in St. Martin's-le-Grand, the investigation led to the discovery of a regular mart held near the office, and supplied with newspapers by the private messengers employed to convey them to the post. Again, a man was detected in robbing a news-vender's cart by volunteering on its arrival at the entrance of this Office to assist the driver in posting the newspapers; instead of doing so, he walked through the hall with those intrusted to him, and upon his being stopped, three quires of a weekly paper were found in his possession.

99. Depredations so impudent and systematic is not likely, whoever the perpetrator may be, to remain long undiscovered; but isolated cases of theft by private hands are often brought to light, although necessarily very difficult of proof on the part of the Post Office, upon which no doubt the blame for a time rests; and it is greatly to be desired that those who have suffered loss should, in the first instance, and whilst the circumstances are fresh, endeavour to ascertain with the utmost precision all particulars respecting the despatch or receipt of the letters or papers in question, and communicate that information to this department. Indeed, generally speaking, it is only by careful inquiry into minute details that the offender can be detected, whether he be a servant of the Post Office or not.

100. The Post Office is a department which admits of constant improvement and expansion; and the public by sending to the Post Office clear and correct information respecting faulty arrangements may greatly aid in the accomplishment of these objects. It is not, however, always borne in mind that changes in machinery so extensive and intricate as that of the Post Office must be made cautiously, and with much previous consideration.

101. The arrangements of the service, even in districts widely separated, are so much dependent upon each other, and economy of time (one of the first objects in all postal organization) requires that they should be so nicely adjusted, that no alteration can safely be made without a close examination of all its consequences, and the utmost completeness of preparation; for as on the one hand experience proves that almost every improvement made shows the way to further amendment, so, on the other, it will be found that an ill-considered change, though it may give a partial advantage in one quarter, will almost invariably lead to dislocation and confusion in others.

102. This, of course, involves a reference to every district or community which may be affected, often distant from the metropolis; and entails the necessity of reports from various quarters, which must be

considered, compared, and in many instances tested by experiment before a safe decision can be arrived at. Even then negotiations with railway companies or coach proprietors may have to be entered into, tenders invited, new contracts made, and old contracts, requiring notice of termination, got rid of, before the decision can take effect.

103. The proper execution of a great portion of these duties not only requires high ability, diligence, and precision on the part of the officers intrusted with them, but is also (and it is this which more immediately concerns the public) a work of time. Hence it has frequently happened that the necessity for a change has been recognized in this Office, that investigation has been set on foot, and measures of improvement have been taken before any public demand has arisen: such demand even having been suggested by these very proceedings.

104. It is often assumed that a Mail conveyance, passing by or through a place, however small, ought, as of a matter of course, to deposit the letters directed thereto; the practice being that until the mail arrives at the head post office of the district the letters in question are not separated from the other letters of the district. A slight consideration of the nature and objects of the Postal Service will show that such separation cannot be effected in any other way, unless, indeed, the Mail conveyance, even supposing it to be but a mail cart, were converted into a travelling post office, and furnished with clerks of unlimited local knowledge (which is plainly impossible), or unless every town and village in the kingdom having any correspondence with the place in question were to make up a bag for that place; in which case its mail would contain nearly as many bags as letters.

105. It happens from time to time that, owing to the stream of postal communication having been diverted from the old mail road to a line of railway, or from other causes of like nature, it becomes desirable to reduce the post office of a town from the condition of a principal office to that of a sub-office. This step not unfrequently gives rise to complaints; the inhabitants being under the impression that they will not in future be so well served. This is a misconception. The change is not made when it will subject the correspondence to delay; nor does it cause any withdrawal of accommodation in respect to Money Orders. It is, in fact, simply a departmental arrangement, which consists in carrying on the sorting of the letters for the new sub-office at some intermediate office, instead of sending them in direct bags.

106. A frequent error is to assume that the Postmaster-General has some control over the delivery, charge, and other postal arrangements in all the Colonies, and even in foreign countries; whereas in most of the former, and in all the latter, the British Post Office is as powerless as the Foreign or Colonial Post Offices are here:—

Colonies in which the posts are under the control of the British Postmaster-General:—

Antigua.	Grenada.	Nevis.
Bahamas.	Honduras.	St. Vincent.
Berbice.	Hong Kong.	St. Lucia.
Bermuda.	Jamaica.	St. Kitts.
Demerara.	Montserrat.	Tortola.
Dominica.	Malta.	Tobago.
Gibraltar.		

Colonies the posts of which are under the control of the local governments:—

Barbadoes.
Canada.
Cape of Good Hope.
Ceylon.
East Indies.
Falkland Islands.
Gambia.
Gold Coast.
Helligoland.
Labuan.
Mauritius.
Natal.
Newfoundland.
New Brunswick.

New South Wales.
New Zealand.
Nova Scotia.
Prince Edward Island.
St. Helena.
Sierra Leone.
South Australia.
Trinidad.
Turks' or Caicos Islands.
Van Diemen's Land.
Vancouver's Island.
Victoria.
Western Australia.

107. Another misconception, which occasionally causes trouble and disappointment, consists in assuming that a discretionary power can be intrusted to subordinate officers to remit penalties or overcharges in special circumstances. Cases will undoubtedly

occur in which strict observance of a general rule may inflict more or less injustice upon individuals, and where a dispensing power immediately at hand might furnish a remedy; but in an establishment as large and as widely spread as the Post Office there will always be many subordinate officers, some of them carrying on their duties beyond the easy reach of any supervising authority, who are not fit depositories of such a power, affecting, as it would to as great degree, the public revenue. It therefore becomes necessary to lay down definite and precise rules from which no departure can be allowed, except under sanction of the Postmaster-General; and in the few instances in which these rules press hardly, appeal must be made to the General Office. It must be added, that in many instances even such appeal is necessarily fruitless, the Postmaster-General being bound to a particular course by positive law.

The Defenders are cited before this court on an induciæ of six days: warrants to arrest on the dependence are issued: the decree may be extracted, and arrestments used upon it instantly; and it may be enforced, in all cases, by pointing, sale, and imprisonment, when above £8. 6s. 8d., of the debtor's effects, ten free days after its date. In case of the debtor removing to a different county, the decree may be enforced against him there, on being endorsed by the Sheriff-Clerk

of the county to which he removes. Judges—Sheriff and Sheriff-Substitutes of the county.

Note.—The Act authorizin; imprisonment for Small Debts expired in 1840 for sums under £8. 6s. 8d., excepting claims of alimient.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and before the Sheriff Courts, to the extent of £12.

The first step is set forth in a complaint or libel, agreeably to a prescribed form (the Clerks of Court will provide the necessary forms), the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorize; but in no case by persons practising the profession of the law, or by Officers of Court, without special leave of the Court, or cause shown.

If the defender fail to appear after being cited, he will be held as confessed, and judgment will be given against him.

But when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decreed for in cases before Justices, and in cases before Sheriff by consigning 10s. of expenses, on applying within three months from date of charge.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing on consigning 2s. 6d., if the case be before the Justices; and the expenses decreed for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender, offering a suitable excuse, or if any witness be absent.

If decree be given against the defender, diligence may proceed against him by arrestment instantly; and by pointing, sale, and imprisonment, if above £8. 6s. 8d., at the end of ten days before the Sheriff; and by pointing and sale instantly, before the Justices.

If decree be given against the defender, in his absence, pointing and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decreed for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolutor or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrestments; but in such actions both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the

Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable, by a reduction before the Court of Session, on the ground of malice and oppression on the part of the Justices, and such reduction will only be competent for one year, and finding caution for costs.

No person is exempt from the jurisdiction of Justices or Sheriffs in such cases, by reason of privilege as a member of the College of Justice.

BURGH COURTS.

GLASGOW MODEL SCHOOLS & TRAINING COLLEGE,

234 GEORGE STREET.

The first object of this Institution is to give a first-class education on moderate terms, and at the same time to be self-supporting; accordingly the best masters are employed, and the fees are strictly within the means of the middle classes, while all eleemosynary or governmental aid is repudiated, so that no government or other irresponsible official is allowed to exercise any control, but the teachers are responsible to the parents who may and are expected to visit the school as often as they see fit.

The second object is to afford to well-educated young men and women, who have a desire to become teachers, an opportunity, at a moderate expense of time and money, of becoming acquainted with, and mastering the practical difficulties of the teacher's calling. Young men who are attending either university, and having views to the teaching profession, will find here, at a moderate fee, every facility of acquiring a knowledge of the details of school management. This department of the Institution is placed under the control of a committee.

Mr. PETER HARDY, F.R.S., reported as follows:—"I can give the Directors and Members assurance that the amount of profit about to be divided has been fairly realized in the past transactions of the Society, and in no way includes future or anticipated profits. I therefore venture to predict, that if the Society, during the next succeeding five years, makes the same extraordinary progress which it has done during the last five, and is conducted with the same steady prudence and sagacity, that the Bonus which will be declared on the occasion of the next division will, if possible, give even greater satisfaction than the present one should do."

THE Rates of Premium are those adopted by the Principal Life Offices; the Rate without bonus is lower than that of most other Offices.

The Bonuses are added to the Policies, or applied to the reduction of Premiums.

Policies issued by this Office are purchased at their full value; or Loans may be obtained upon them after they have been in existence for five years.

If a party neglect to pay for the renewal of his Policy, he may repair the omission any time within twelve months, upon proof of good health.

The Profits (subject to a trifling reduction) are divided among the Insured. The plan upon which they are divided gives to each party insured a share proportionate to the amount of the Premiums he has contributed.

The following extract from the LIST OF CLAIMS paid by the "PROVIDENT," is published with the sanction of the parties interested in the policies, some of whom have accompanied their acknowledgment of the unexpected advantages with an earnest desire that the widest circulation may be given to the publication.

THE NEXT DIVISION OF PROFITS WILL BE MADE AT 15TH NOVEMBER, 1860.

THE DIRECTORS INVITE PARTICULAR ATTENTION TO THE LIBERAL TERMS AND CONDITIONS OF ASSURANCE INTRODUCED BY THIS COMPANY INTO THE PRACTICE OF LIFE ASSURANCE.

SELECT ASSURANCES.

The privileges of this class are—Permission to travel and reside in any part of the world, *free of extra premium*; and the cancellation of all conditions under the Company's Policies, which thus become unchallengeable on any ground whatever except non-payment of the ordinary premium.

Assurances of five years' standing are admissible to this class.

RENEWAL PREMIUMS AND DAYS OF GRACE.

Under these regulations, Policies of Five Years' standing, with certain exceptions mentioned in the Company's Prospectus, cannot be forfeited unless the annual Renewal Premium remains unpaid for 13 months. Thirty days is the regular period allowed for payment, but should the 30 days have been exceeded, the arrears can be paid at any time within 13 months from the date when the Premium fell due, on payment of a fine, without a medical certificate. Should death have taken place within the 30 days, or 13 months, before renewal of the risk, the Company hold themselves liable, the arrears and fines (if any) being deducted at settlement. After the expiry of the 13 months the Policy is forfeited, but the surrender value is held at the disposal of the parties interested for five years from the regular date of renewal. The privileges of renewal under Policies which have not been in force five years are very liberal.

SURRENDER VALUES.

The Directors allow value for the surrender of Assurances under the Profit Scheme, at any time after payment of one annual premium.

LOANS.

Advances made on the security of the Company's Policies to the extent of their value, at a moderate rate of interest, and without any expense beyond the stamp duty.

LIFE DEPARTMENT.

THE NORTH BRITISH INSURANCE COMPANY, as a Life Office, was established in 1823. The principles on which it was founded, and on which it continues to act, combine the system of **MUTUAL INSURANCE** with the safety of a large **PROTECTING CAPITAL**, and thus afford all the facilities and advantages which can prudently be offered by any Life Assurance Office.

In virtue of the Guarantee afforded by its Capital, the Company can adopt rates lower than what are practicable by a purely Mutual office; while, in virtue of the principle of giving the insured, *in their option*, a right to a share in the Profits, they derive the same, or even a greater benefit, than if they actually belonged to a Mutual office.

The Premiums are regulated on these two principles—either a party may pay a higher rate, and secure the benefit of a share in the Profits, or he may adopt a lower rate, while he has absolute security for the payment of the amount in his Policy.

ADVANTAGES OFFERED BY THIS COMPANY.

1. Nine-tenths (90 per cent.) of the Profits, or, in other words, the whole of the Profits arising from the Life Business, after setting aside one-tenth for the guarantee, are divided among the Assured entitled to participate.

2. Bonuses may be added to the sum assured, or surrendered for a cash payment, or applied to the reduction of the future Premiums.

3. A prospective Bonus of one per cent. per annum is allowed on Policies which have subsisted for five years, which may become claims previous to the next Investigation in 1865.

4. The sum insured may be made payable at any given age, or at death, if it occur previously.

5. An ascending scale of Premiums, whereby Policies may be effected at the lowest possible rates.

6. On Insurances for a Whole Period of Life, half the Premium may remain on credit for the first Five Years, or one-third during the convenience of the party assured.

7. No Extra Charge for residence in British North America, the Cape, Australia (excluding the Diggings), New Zealand, Port Natal, and parts of the United States; and no license required except for the voyage.

8. On proof of age, and by special application, Policies are declared unchallengeable from and after the expiry of Five Years from their date; and parties, on receiving a license, may go to any part of the world without incurring the forfeiture of their Policies—thus making the Policies of the Company good marketable securities.

9. Advances made on Policies, to the extent of the security they afford, when the value amounts to £50 and upwards.

10. No Entry-Money or other Charge.

Policy Stamp paid by the Office.

NEW AND IMPORTANT ADVANTAGES.

To meet the exigencies of parties, and to render the benefits of Life Assurance more generally available, the Directors have adopted the following new and important principles:—

1. APPLICATION OF PROFITS TO THE PURCHASE OF AN ANNUITY.

By this system a party not only secures the payment of the sum in the event of his death before age 65, but at his option he may convert the Policy with its Bonuses into an equivalent Annuity commencing at 65.

2. HALF-PREMIUM SYSTEM.

By which a party may secure all the benefits of the Half-Credit System without any debt being incurred.

3. DOUBLE INSURANCE SYSTEM.

By which, for a moderate uniform Premium, a Policy may be secured, which will increase each year until, in 20 years, the sum in the Policy is doubled. This system is particularly advantageous to young lives.

For further explanation of these new principles, and for the Rates applicable thereto, see the Company's Prospectus.

ANNUITIES.

1. IMMEDIATE ANNUITIES are granted on favourable terms.
2. DEFERRED ANNUITIES, to commence at any specified age, may be secured, either with or without return of Premium.
3. SURVIVORSHIP ANNUITIES may be secured, with or without return of Premium.

REVERSIONARY INTERESTS.

The Company are ready either to purchase reversionary interests and Life Rents, or to make advances on them to the extent of the security they afford.

The Life Department of the Company is entirely separate from that of the Fire, the Funds of the one not being in any way affected by the losses or profits of the other, except that the Accumulated Funds of the Fire office are liable to pay the obligations of the Life Department.

FIRE INSURANCE.

The Company Insure against LOSS or DAMAGE by FIRE all descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares, and Merchandise in the same; Ships in harbour or in dock, and Farming Stock of all descriptions, at the lowest rates of Premium corresponding to the risk.

The Rates of Annual Premium on the Three Ordinary Classes of Insurance are:—

COMMON, 1s. 6d.; HAZARDOUS, 2s. 6d.; DOUBLY HAZARDOUS, 4s. 6d.
with certain exceptions.

Rents of Property Insured on the same terms as the Buildings.

Farm Stock and Crop Insured, without the average clause, at 5s. per cent. (free of Duty), and Loss and DAMAGE by LIGHTNING thereon made good.

The Company holds itself responsible for Loss and Damage occasioned by Explosion of Gas, such Explosion taking place within Buildings on, or in which, this Company has Insurance.

No charge is made for Policies when the Sum Insured amounts to £300; or for Transfers from other Offices.

LOSSES SETTLED WITH THE UTMOST PROMPTITUDE AND LIBERALITY.

Prospectuses, containing Tables of Rates, and every other information, may be had at any of the Company's Offices or Agents.

LIFE DEPARTMENT.

THE prosperity of this Company has been very marked, by the steady increase of the business in all its branches, and by the increased advantages which have been declared at each Division of Profits to the Assured in the Life Department.

A continuation of this prosperity has been evidenced at the close of the financial year (14th May) by considerable additions to the number of Policies Issued, by the Losses being Moderate, and by the Guarantee Funds being much increased.

The prospective Bonus declared at last investigation out of the realized Profits, and payable on Policies which lapse by death, betwixt the periods of division, is equivalent to an Annual Bonus.

The Directors are anxious that the Life Policies of the Company should obtain all the advantages accruing to them from a prosperous and economically-managed business, and they have every hope that the benefits to policy-holders will be consequently augmented.

The Life Funds are kept quite distinct from those of the Fire Department, while they are almost wholly invested in Government or Landed and Heritable Securities.

VOLUNTEER RIFLE AND ARTILLERY CORPS.

As doubts have been expressed as to whether Policies effected with this Company would become void by the Assured becoming Volunteers in the Rifle or Artillery Corps, and, in case of invasion, falling in the service of their country, the Directors hereby intimate that their Policies will not be affected by any such contingency; and any party may, on application at the Head Office, have their Policies endorsed to this effect.

FIRE DEPARTMENT.

The Company Insures Houses, Manufactories, Rents, Furniture, Goods, and Merchandise, Farming Stock, Shipping in Port and Dock, and while Building or used in Navigable Canals, and almost every other description of Property, from Loss or damage by Fire, at Moderate Rates.

No charge is made for Policies when the sum insured amounts to L.300, nor for Policies when the Insurance is transferred from other Companies.

Prospectuses, and every information, given *gratis* at the Head Office, and other Branches.

Damage occasioned by Lightning or explosion of Gas made good.

COLONIAL AND FOREIGN ASSURANCES.

THE COLONIAL LIFE ASSURANCE COMPANY was established at Edinburgh in 1846, and introduced new and important features into Life Assurance practice, by publishing rates calculated for Foreign residence, and by establishing Agencies abroad, thus affording increased facilities to persons whose views or occupations might lead them to travel or reside in other countries. By its means, also, the benefits of Life Assurance were extended to India and to the Colonies of Great Britain generally, on such beneficial terms, and under such liberal conditions, as improved knowledge and the circumstances of the times authorized and required.

The progress of the business has been most successful and satisfactory in every respect, and its extent has proved how greatly such an institution was wanted.

THE RATES OF THE COMPANY for Colonial and Foreign residence will be found moderate, and looking to the facilities and advantages afforded by the Company, they may be considered more advantageous, and virtually less expensive, than those of any other Office doing business abroad.

For the purpose of giving increased facilities, also, in the Company's transactions, the Directors have formed Local Boards of Management, and Branch Offices, in India and the Colonies, where Assurances may be effected, Premiums paid, and Claims settled.

HOME ASSURANCE.

The DIRECTORS of the COLONIAL LIFE ASSURANCE COMPANY having directed much attention to the CLASSIFICATION OF RISKS in connection with LIVES ABROAD, in which they have been most successful, have turned their attention to the CLASSIFICATION OF HOME RISKS, so as to give Professional Men, and settled persons of all classes, whose occupations are not likely to call them beyond the limits of Europe, the advantage and privilege of possessing Policies, unfettered by restrictions as to foreign residence, on terms which the absence of such extra risks authorises them to adopt.

The Directors have, in accordance with these views, resolved to grant to Persons resident in this country, whose occupation, profession, or calling, infers a residence in the United Kingdom, and who declare that they have no intention or prospect of going abroad,

Policies without any Restriction as to Residence.

It is not possible to state exactly the Professions which this Class will embrace, and much will depend on the features and particulars of each case; but the Directors may mention a few Professions and Occupations which the new Class will include:—COUNTRY GENTLEMEN, BARRISTERS AND ADVOCATES, SOLICITORS,

AND OTHER LAW AGENTS, SETTLED MEDICAL PRACTITIONERS, BENEFICED CLERGYMEN, MANUFACTURERS, AGRICULTURISTS, RETAIL SHOPKEEPERS, and others of like position; it being a rule, however, that no Policy under this class shall be issued on the life of any one below the age of 25, unless he shall have settled in life,

The Home Rates of Premium are moderate. For example:—

	Age 25.	Age 35.	Age 45.
With Profits,.....	£2 1 0	£2 13 10	£3 14 2 per Cent.
Without Profits,....,	1 17 7	2 9 4	3 7 11 “

DIVISION OF PROFITS.

The first Division of the Company's Profits took place as at 25th May, 1854, and the second as at 25th May, 1859, when large additions were made to all Policies effected in the Participation Scheme of the Company, as shown in the following Table, the examples being Policies of £1000.

Policies opened before	Original Sums Assured.	Bonus.		Total Bonus Additions.	TOTAL.
		Eight Years, 1846 to 1854.	Five Years, 1854 to 1859.		
25th May 1847...	£1000	£160	£75	£235	£1235
“ 1849...	1000	120	75	195	1195
“ 1851...	1000	80	75	155	1155
“ 1853...	1000	40	75	115	1115
“ 1855...	1000	—	75	75	1075
“ 1857...	1000	—	45	45	1045
“ 1859...	1000	—	15	15	1015

The additions to Policies of larger or smaller amount are in the same proportion.

Those who do not wish to add the amount of the Bonus to the sum assured, are permitted to take the value of the addition in a present sum, or to apply its value for five years to the reduction of the Annual Premium.

THE PRESENT INCOME of the Company is upwards of One Hundred Thousand Pounds Sterling per annum, and the ACCUMULATED FUND Three Hundred and Fifty Thousand Pounds Sterling.

Every information regarding the Company will be furnished on application to any of the Branch Offices or Agencies.

LIFE DEPARTMENT.

THE arrangements of this Office are based on principles that have been verified by experience.

The rates for assurance of fixed sums are very moderate.

Extra Premiums for Foreign Residence have been dispensed with to a great extent, and a very important rule has been adopted to protect the interests of parties holding Policies on the Lives of others, who may incur extra risks without the knowledge of the holders.

For surrender of Policies of the ordinary class, after three years' endurance, a liberal return of Premiums, according to a fixed rule, is *guaranteed*, besides the value of vested Bonuses where such have been declared.

According to the constitution of the Company, Investigations must be made at intervals not exceeding five years. The last investigation took place at 31st January, 1857, when Bonuses were added to all Assurances of the Participation Class; and the following results of this and previous declarations may be stated.

1. A Policy for £1000 on which 7 years' premiums had been paid was increased in 1857, to £1095 9 4
2. A Policy for £1000 on which 12 years' premiums had been paid was increased to £1163 10 8
3. A Policy for £1000 on which 17 years' premiums had been paid was increased to £1234 18 2

A further Bonus is also payable on Policies, to which vested additions have been made, becoming Claims before next Investigation—an arrangement which secures for such cases advantages similar to those of Annual Investigations.

Prospectuses, with every information, and forms of proposal may be obtained at any of the Offices or Agencies of the Company.

THIS Office having been established Fifty years, more than sufficient time has elapsed to test the soundness of the principles on which it has been conducted. During that period its prosperity and the magnitude of its operations have been constantly increasing.

IN THE LIFE DEPARTMENT,

The Accumulated Premiums are over £1,645,000. And the Annual Income exceeds £190,000. BONUSES have been declared on Policies to an amount GREATER THAN THE SUM ORIGINALLY ASSURED. PREMIUMS HAVE BEEN EXTINGUISHED, where the parties assured have applied the Bonus in reduction of the Annual Premium.

At the last Valuation there existed a SURPLUS OF £268,694—the whole of which belonged to the Policy-holders.

The sum of upwards of £3,200,000 has been paid during the existence of the Office for claims under Life Policies, of which amount a very considerable part was for Bonuses.

The Directors beg to announce that the Rates of Premium have been recently revised and readjusted, in accordance with a long experience, and that persons assuring in Great Britain have the option of

- PARTICIPATING RATES OF PREMIUM, or of
- NON-PARTICIPATING RATES—payable
- Half-yearly, yearly, or for a fixed number of years only—or
- Credit may be taken for one-fourth of the Premium, and
- The sum assured may be made payable, either at death, or
- on attaining a specific age.

FIRE DEPARTMENT.

This Company undertakes the Assurance of almost every species of Property in the United Kingdom, at rates of Premium, and upon principles which will be found quite as advantageous to the interests of the Assured as those offered by any other Office. The Directors can confidently refer to the well-known character of the Company for liberality and promptitude in the discharge of claims made upon it during the Fifty Years it has been established.

Manufactories, Sugar Houses, Distilleries, Private or Public Warehouses, Ships Building, Ships in Harbour, Houses, Furniture, Stock-in-Trade, &c., assured for the year, or any shorter period.

AN ALLOWANCE FOR THE LOSS OF RENT OF BUILDINGS rendered untenable by Fire, is one of the advantages offered by the Company.

The Policies of this Company cover Losses occasioned by the explosion of Gas. Losses occasioned by Lightning will also be paid.

Duty paid to Government by the Atlas Assurance Company for 1858, on Fire Assurance in United Kingdom, £44,410.

Tables of Rates, Forms of Proposal, and any information needful to effect Life or Fire Assurances, may be obtained on application to the Office, No. 92 Cheapside, London; or to any of the Company's Agents.

This Reduction is 2½ per cent. greater than in any former year.

LIFE POLICIES

Rendered more Valuable than hitherto.

The Policies now being issued, do not contain several of the usual Restrictions, and confer important facilities and privileges. The Policies are thus unusually valuable, and form nearly absolute securities for debts, advances of money, family provisions, &c.

DAYS OF GRACE AND NON-PAYMENT OF PREMIUMS.—There is **NO FORFEITURE**, if death occur during the 21 Days of Grace allowed for paying a Premium, and the Premium be unpaid. After payment of Five Years' full Premiums, there is **NO FORFEITURE** by non-payment of any future Premium at the proper time, but the Policy remains in force for a year (even in the event of death), subject to payment of the Premium, and of a small fine per month; and Evidence of Health is not required.

DEATH BY SUICIDE, &c.—After five years, there is **NO FORFEITURE** by such death under any circumstances. Previous to five years there is **NO FORFEITURE** by such death as regards a third party holding an onerous assignment intimated for a month.

POLICIES INDISPUTABLE on any ground whatever, after five years, and proof of age.

NO LIMITS OF RESIDENCE AND OCCUPATION.—Under Policies of Five Years' endurance, the Directors, in the majority of cases, will, on application, and without any extra charge, issue a Certificate removing all restriction on residence and occupation. In all other cases there is **NO FORFEITURE** by the Assured transgressing the limits of residence or occupation, if Policy held by a third party ignorant thereof, who shall pay the necessary extra Premium when the circumstance comes to his knowledge.

It is believed that equal advantages cannot be obtained from any other Assurance Office.

NOTE.—These Conditions are printed on the Policies to which they apply.

Outlay for Life Assurance Materially Lessened.

BY means of the "*HALF-CREDIT SYSTEM*," an Assurance for £500, or upwards, may be effected and kept in force by payment of only *One-Half* of the first six years' Premiums. The unpaid Half-Premiums remain (without security) in the hands of the Assured, so long as he pleases; and if not paid before death, the amount will be deducted from the sum Assured,—interest thereon being, in the meantime, payable annually in advance.

BUSINESS IN SCOTLAND.

1. Centralized in Glasgow under a Board of Proprietors.
2. Similar arrangements as in First-Class Scotch Offices.
3. Policies issued and made payable at the Company's Office in Glasgow.
4. No Probate or Letters of Administration required on lapsing of Policies.
5. Assignments received and Registered at the Company's Office in Glasgow.
6. A Large Amount of the Capital Stock is held in Scotland.

ADVANTAGES.

ECONOMY OF MANAGEMENT.—The Expenses of Management of the Lancashire Insurance Company, are the least in proportion to the Income of any of the fifty-two Companies who have rendered their Accounts to the Registrar-General, under the Joint Stock Companies' Act. (*See pamphlet by R. Christie, Esq., Scottish Equitable Office, Edinburgh.*)

The great extent of the FIRE BUSINESS of the Company enables the Directors so to apportion the expenses of management, as to charge the Life Department with its proper costs only, thus giving Assurers with THE LANCASHIRE INSURANCE COMPANY, all the *real* benefits offered by a *Mutual Office*, without any of its drawbacks.

THE RATES OF PREMIUM are extremely moderate, but calculated by an eminent and experienced Actuary, and are ample on First-class Lives to produce a **Large Bonus Fund**, which will be **Divisible amongst the Assured**, triennially.

MEDICAL FEES.—All Medical Fees and other Charges paid by the Company.

STAMP DUTIES not Charged, and Policies are issued *free of any expense whatever* beyond the Premium.

RIFLE, ARTILLERY, MILITIA, OR YEOMANRY CORPS.—Policies will be issued to persons serving in these Corps, free of any additional charge.

THE Premiums, at early and middle ages, are about a fourth lower than in the other Mutual or Participating Offices. They are as low as the *Non-Participating* rates of the Proprietary Companies, which they admit of being, not only with safety, but with ample reversion of Profits to the Policy-holders—being free from the burden of Dividends to Shareholders.

EXAMPLES OF ANNUAL PREMIUM TO ASSURE £100 AT DEATH.

Age—25	30	35	40	45	50
£ s. d. 1 18 0	£ s. d. 2 1 6	£ s. d. 2 6 10	£ s. d. 2 14 9	£ s. d. 3 5 9	£ s. d. 4 1 7

Thus, a person of 30 may secure £1000 at death for a yearly payment of £20 15s., which, if paid to any of the other Mutual Offices, would secure a Policy for £800 only, instead of £1000.

The arrangement by which the Premiums are reduced to a rate commensurate with the risk, is obviously more suited for securing a competent family provision, in case of early death, than that which, by the same early outlay, secures a much smaller present sum, with the hope only of prospective and contingent additions.

PROFITS.

The principle on which the profits are divided is at once safe, equitable, and favourable to good lives—the Surplus being reserved for those members who alone can have made surplus payments; in other words, or those whose Premiums, with accumulated interest, amount to the sums in their Policies.

The practical working of the system has been that, at the First Division of Surplus, Bonus Additions were made to the policies which had come within the Participating Class,

VARYING FROM 20 TO 54 PER CENT. ON THEIR AMOUNT.

In all points of practice—as in provision for the indefeasibility of Policies, facility of license for travelling or residence abroad, and of obtaining advances on the value of the Policies—the regulations of the Society, as well as the administration, are as liberal as is consistent with right principle.

Reports explanatory of the principles, with every information, may be had on application at the Head Office; or at the

LIFE DEPARTMENT,

ONE of the chief characteristics of the Company, in this department of their business, is the plan of

NON-FORFEITURE OF POLICIES.

exhibited in the following clause, and to which attention is respectfully directed:—

“In case of the inability of the Assured, from whatever causes, to continue the Premiums on an ordinary *Life Policy*, the Company would, in consideration of the amount received, after a period of three years from the date of the Assurance, issue a paid-up *Policy* for that amount, together with any Bonus that may have been added.”

The Company also holds out to Assurers Rates of Premium *Lower* than almost any other Offices, and they have tables to meet any description of Assurance contingent on life, whether for *Terms of Years, Joint Lives, Survivorship, &c.*

THIRTY DAYS ARE ALLOWED FOR THE PAYMENT OF RENEWAL PREMIUMS; AND, IN THE EVENT OF THE LIFE ASSURED DYING DURING THE DAYS OF GRACE, THE SUM ASSURED WILL BE PAID AFTER DEDUCTION OF THE PREMIUM DUE.

ANNUITY BRANCH.

Immediate and Deferred Annuities granted on most liberal terms.

Annuities granted on the JOINT LIVES OF HUSBAND AND WIFE, AND TO THE SURVIVOR OF THEM.

Endowments can be effected on the Lives of Children, payable at a certain age, with a *return of Premiums* in the event of death.

This Company effects Insurances upon every description of Property, including Mill and Special risks, on the most favourable terms.

The share of profits allotted to each Policy may be added to the sum insured, and payable at the death of the Life—or its present value in cash may be received—or an equivalent reduction of the future Annual Premium obtained—at the option of the assured.

At last DIVISION,—Christmas, 1857,—the REVERSIONARY BONUS declared upon the Policies participating in Four-fifths of the Profits, ranged BETWEEN TWENTY-SEVEN AND SEVENTY-THREE PER CENT., according to age, upon the Premiums paid during the preceding Five Years.

THE Company, established in 1823, has existed upwards of thirty-six years, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company :—

MUTUAL ASSURANCE, without liability. See English Law Cases for Call on the Policy Holders in a Mutual Insurance Society for Debts of the Society.

The guarantee of a responsible body of Proprietors, either personally or otherwise, assured with the Office, affords the most undoubted security to all classes of Assurers, in addition to the accumulated and invested fund of the Company, now upwards of Three-fourths of a Million.

NINE-TENTHS of the **WHOLE PROFITS** Septennially divisible among the Assured, a larger proportion than can be divided with safety by any simple Mutual Assurance Society.

AN INTERMEDIATE BONUS paid on Policies becoming Claims between one Investigation and another.

All the advantages of an Annual division are thus given, without its attendant evils.

THE MOST EQUITABLE PRINCIPLE OF DIVISION.

The greatest benefits are thereby bestowed upon all *first-class lives*, by no undue Bonus being paid away, to those *who may die early*.

RATES OF PREMIUM EXTREMELY MODERATE.—The non-participation scale very favourable for security on Loans, or for *partnership* Insurances.

The results of Four Bonus Declarations of the Company, are exhibited in the following examples :—

Total Bonus Additions at 31st August, 1856, on Policies effected in the First Year of the Company's Business.

Age at Assuring.	Sum Insured.	1st Bonus, 31st Aug. 1835.		2d Bonus, 3d Aug. 1842.		3d Bonus, 31st Aug. 1849.		4th Bonus, 31st Aug. 1856.		Total Bonuses.	Total Amount Payable under Policy 31st Aug. 1856.	Rate per Cent. of Total Bonuses on Sums Insured.				
		£	s.	£	s.	£	s.	£	s.			£	s.	d.		
53	300	40	15	48	18	99	9	236	10	425	12	725	12	141	17	4
50	999	128	19	146	12	275	8	612	3	1163	2	2162	2	116	6	0
45	1000	116	10	124	4	210	2	422	1	872	17	1872	17	87	5	8
35	1000	104	9	91	10	143	2	242	4	581	5	1581	5	58	2	6
30	1000	101	8	89	3	122	13	199	17	513	1	1513	1	51	6	0
19	500	46	15	43	4	57	0	74	5	221	4	721	4	44	4	10

Thus, at all ages from 19 to 60, on the earliest Policies the Accumulated Bonuses now range from upwards of £44 per cent. to upwards of £140 per cent. of the sums originally insured.

To later entrants the results are, in proportion, equally satisfactory. No Entry-Money or other Charge in effecting a Policy beyond the payment of the Premium.

Bonuses may be surrendered for cash, or applied in reduction of the annual premiums. By this latter course, several of the oldest Policy Holders have redeemed their premiums, with a bonus still attaching to the Policy, and *increasing*.

Many of the Assured have been relieved of the Payment of all future Premiums by a surrender of a part only of their Bonuses, their Policies still retaining full right to share in future Division of Profits.
Policy Holders of five years' standing are entitled to share in the Profits, which are declared septennially; but Policies entitled to participate, becoming claims during the intervening periods, have a full share of Profits apportioned to them up to the year of death.

FACILITIES AND PRIVILEGES.

Surrender value is allowed upon every discontinued Policy, although no more than one Premium has been paid.
Loans of £50 and upwards are made to Members, if required, as soon as the value of their Policies admit of the same, at a medium rate of interest, as upon First-Class Securities.
Foreign Residence and Travel allowed in many parts of the world without extra charge, and in other parts at moderate extra rates, suitable to the risk.
Policies may be declared indisputable upon the application of Members, when their Policies are of five years' standing.

MEDALS AWARDED TO THOMAS GLOVER'S PATENT DRY GAS-METERS

IT IS A REMEDY FOR ALL THE DEFECTS OF WET METERS.

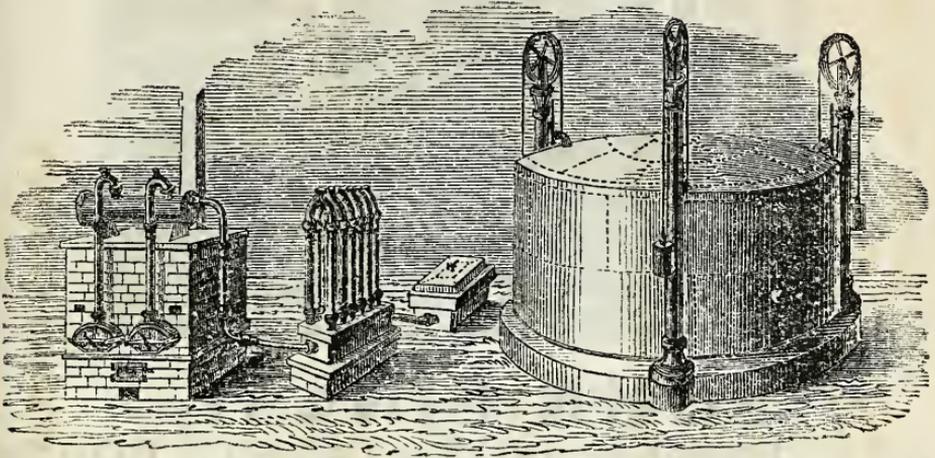

FIRST.—It is an accurate measurer of Gas, and does not vary in its registration.
 SECOND.—It prevents jumping of the lights, and sudden or unexpected extinction of the lights.
 THIRD.—It can be placed in light and conspicuous positions, so that the Consumer, as well as the Inspector, can at all times obtain an exact knowledge of the amount of consumption. This gives confidence to the consumer; the Inspector is no longer regarded with suspicion, and all unpleasant disputes are avoided.
 FOURTH.—It does not require to be interfered with, or opened to put water into it; and thus those dangerous explosions are prevented, which too frequently occur, owing to the escape of Gas from Wet Meters.
 FIFTH.—It cannot be tampered with and made to vary in its registration, without showing marks of injury on the outer case. Thus, Inspectors have no longer to contend with difficulties they cannot overcome, and frauds they cannot always detect.
 SIXTH.—It may be fixed either above or below the level of the lights.
 SEVENTH.—It works with less pressure, and economizes Gas.
 EIGHTH.—It is more durable than Wet Meters, not being subject to the corrosive influence of water.

R. E. SIMPSON & CO.'S

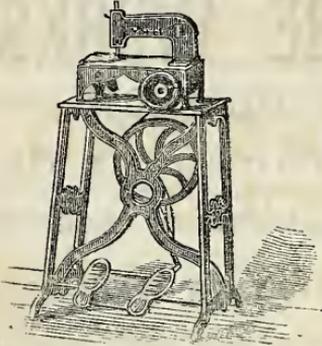

IMPROVED

Patent American Sewing Machines.

(Secured by Royal Letters Patent, dated February 15th, 1859.)

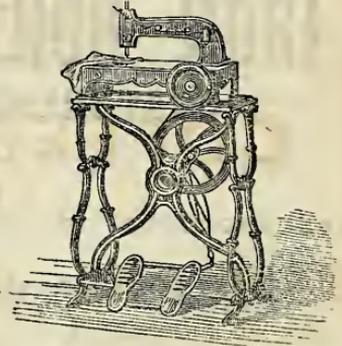

PUBLIC Patronage is the best evidence of merit. These Machines are alike victorious over prejudice and competition in Manufactories, Workshops, and Families. From the gratifying accounts daily reaching us from all quarters where they have been introduced, and our own experience of nine years in the Sewing Machine business, we have no hesitation in pronouncing them the very best Machine at present in the Market.

No. 1.—13-inch Table Machine.

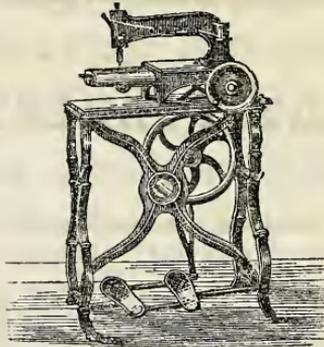

£16 : 0 : 0.

No. 2.—18-inch Table Machine.

£20 : 0 : 0.

No. 3.—Arm Machine.

£22 : 10 : 0.

IMPROVEMENTS.

We have recently added very great improvements to Nos. 1 and 2 TABLE MACHINES, which render them all that is desirable in a Sewing Machine.

The Principal Advantages of these Machines are—

- 1st. Their **ENTIRE SIMPLICITY**—the use of them being very easily acquired, any Girl of ordinary intelligence being capable of keeping them in order.
- 2nd. Their **SPEED**—they are capable of doing more work in a given time than any Machine now offered to the Public, and will do four times the quantity of many that are now used, and, as to quality, in a much superior style.
- 3rd. Their **DURABILITY**—they being strong in all their parts, and fitted with such mechanical nicety, and being free from the harsh, jarring movements and friction so common in inferior Machines, they will wear a long time without requiring repair of any kind.
- 4th. Their **ADAPTABILITY**—by a simple change of the Needle and Thread they will sew the finest Cambric or heaviest Leather; all the various kinds of Boots and Shoes, Buckskin Sewing, Clothing, Caps, Stays, Shirts, Mantles, and Dressmaking, can be done with equal facility.

5th. The Shuttle being large, it will carry a great quantity of Thread, thus saving in a great measure the trouble of filling the Bobbins.

6th. The means of getting the required Tension on the Threads is so simple and complete, that an even Back-stitch on both sides of the material (which will not nip or ravel) can be readily obtained.

7th. They will sew with equal facility Silk, Twist, Linen Thread, and common Spool Cotton.

Being perfectly satisfied with our success so far, the public may rest assured that no pains shall be spared in our researches after, and application of, every improvement the mind can suggest to perpetuate this great fact—that our Machine is, and will be, the favourite.

These Machines are all manufactured under our own supervision by experienced and skilful workmen, each Machine being thoroughly tested before sending it out, and warranted.

R. E. SIMPSON & Co.,

90 MAXWELL STREET.

N.B.—Binding and Hemming Gauges made to order of all sizes, and a large supply of Needles, Twist, Thread, Cotton, &c., &c., constantly on hand.

All orders will receive prompt and careful attention, and Machines ready-threaded for use, with particulars and sufficient directions for using, will be sent securely and compactly boxed to all parts of the world.

COFFEE ROASTING, SUGAR POUNDING, AND GENERAL GRINDING WORKS, 29 M'PHERSON STREET (off High Street), GLASGOW.

The only Steam-power Roasting Establishment connected with the Trade in the City.

D. MINTO begs leave to return thanks to the Grocers and Druggists of this town and Vicinity for past favours.

He also begs leave to intimate, that in connection with his Coffee-Roasting, and Coffee and Spice-Grinding Works, he has fitted up an extensive Sugar-Pounding Machine, offering to the Confectioners, and Trade in general, an advantageous opportunity of having their Sugar Pounded by Steam-power, far surpassing anything ever yet offered to the Trade.

P.S.—All Orders punctually attended to, and delivered by his Vans at the proper time.

29 M'Pherson Street, off High Street,
GLASGOW, May, 1860.

The COFFEE PLANT, "*Coffea Arabica*" of Linnæus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of coinherence. It may be remarked, as a singular fact in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its independence; for, although cultivation may greatly enlarge the crop, it as certainly, at the same time, deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret to the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so, when its medicinal properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of Asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—"I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be dispersed, than when exposed to the fierce heat of a fire in a single cylinder."

In the double rotatory globular method of roasting, as practised at Mr. MINTO's Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder since the application of steam power to this branch) revolves in a medium of heated air, which, experience has shown, best prevents the dispersion of the essential oil, or aroma.

M. WILSON, PRINCIPAL

THE THIRD SESSION begins on the 1st August, 1860. The Quarter days are Saturdays, Aug. 18, 1860, November 10, 1860, February 2, 1861, and April 10, 1861. Each Quarter consists of Twelve Weeks.

The objects of this Institution are to provide a first-class education at a moderate fee, and to conduct it on commercial and independent principles. No government or other eleemosynary aid is received, as it is believed that no official, governmental or other, should be placed as superintendent or inspector, in room of the natural guardian. Parents are requested to visit the school as often as they can make it convenient.

Another object of the Institution is the instruction in the art of teaching of educated young men and young women who may be desirous of becoming acquainted with the details of school-management. The expense is moderate, and every facility for acquiring a thorough knowledge of the profession is afforded.

The branches taught comprise whatever is necessary to a thorough English and Commercial education. In addition there are masters for the Classics, Geometry, and Algebra, who are generally Graduates of the University. French is taught by a Frenchman, or by one who has resided in France. German, in like manner, is taught by a native of Germany. Drawing and Painting, Pianoforte, Vocal Music, Dancing, Calisthenics, &c., by teachers of experience and standing.

The Institution is under the direction of Mr. M. Wilson, assisted by fourteen competent masters and teachers, some of whom are of the highest standing in their respective branches, besides students and governesses.

INDIGESTION, BILIOUS,

STOMACH COMPLAINTS.

ALTHOUGH we cannot conscientiously offer them as a specific in all complaints, well knowing the absurdity of such pretensions in any one compound, still they will be found superior to every other Medicine, in respect to their gentle mode of action.

They are a safe and valuable remedy for Bilious Complaints, and Pains in the Stomach and Bowels; are completely calculated for those whose bowels are habitually slow, and consequently require the use of laxatives; and are well adapted for general Family Use, being purely of vegetable composition.

They form a most excellent remedy for Indigestion, Crudities in the Stomach, Loss of Appetite, Costiveness, Headache, arising from Flatulence in the Stomach and Bowels, which generally attend those who lead sedentary lives.

Owing to the demand for our celebrated Sewing Machines being far greater than the supply, we have recently increased our manufactory in New York fourfold. The facilities which we now have for manufacturing, will enable us to turn out 130,000 Machines annually. With this great extension we hope to be able to supply the rapidly-increasing demand. For domestic use, and all manufacturing purposes of every description, "Light or Heavy," these Machines are unquestionably the most perfect, most substantial, most durable, and most reliable SEWING MACHINES ever offered to the public. The superior merits of these Machines are well known to all the principal manufacturers in the United Kingdom. We have recently made valuable and important improvements, which still further advances the utility of our Machines far beyond those of any other manufacture. The stitching produced by these Machines cannot be ravelled or pulled out, both sides of the work being alike, *which is not the case with many other Machines.* Every Machine is thoroughly tested before leaving our manufactory, and warranted perfect.—Send for SINGER & CO.'S Gazette, SENT GRATIS.

CIRCULARS, PROSPECTUSES, BILL HEADS, &c.

Note Paper Lithographed at Top, with Address and date.

ENVELOPES.

The advantage of Stamping the Name and Address on the flaps of Envelopes to all engaged in business is very great, as any letter misdirected is returned to the writer, unopened by the Post Office Authorities.

The expense for sinking a private die for embossing the Name and Address on flaps is small (from 4s. upwards), and, by affixing a Handle, it forms a Desk Seal.

NO CHARGE FOR STAMPING ENVELOPES FROM PRIVATE DIE.

ENVELOPES EMBOSSED FROM PRIVATE DIE, 3s. 6d. PER 1000 AND UPWARDS.

A CONSIDERABLE REDUCTION ON LARGE QUANTITIES.
