

SCOTTISH AMICABLE LIFE ASSURANCE SOCIETY.

Those who have but a certain amount to pay away for assurance policies naturally inquire how they can realize most from it; and I think in availing themselves of this table they do so in a very satisfactory way. I believe that the Institution is based upon good principles generally, and that all its tables and calculations are sound and judicious. I cannot but think that it is worth while to call public attention to this Minimum Table, as a most valuable and desirable one for many classes of insurers."

The subjoined remarks explain the grounds on which it was thought desirable to frame these tables; and the principles upon which they were calculated.

- 1. If the rate of mortality and interest, and all the other circumstances which bear upon the condition and prosperity of Life Assurance Institutions, could have been anticipated with sufficient precision to enable so low a rate of premium for a definite sum to be fixed as the public would feel confident was no more than sufficient, it seems not improbable that this mode of assuring would have been preferred to the payment of a higher premium, and the return, in the shape of additions, of the excess thereof beyond what might be requisite.
- 2. The mode last mentioned may be generally stated to be the system at present adopted by Mutual Assurance offices; and
- 3. By Proprietary offices, except that in their case a considerable portion of the excess of premiums is allotted to the proprietors.
- 4. Soon after the investigation, as at 31st December, 1853, the Directors of this Society directed their attention to the means of securing to the public the convenience and advantage of as low a rate as would be justified by past experience, and be unattended with the risk of danger to the Institution.
- 5. The rates of Annual Bonus Additions declared at the different Septennial Investigations had at that time been as follows:

Looking to the results of these Prescipations, the Directors considered they might, with propriety, calculate on the probability of continuance of a rate of addition not lower than 1½ per cent., and according.

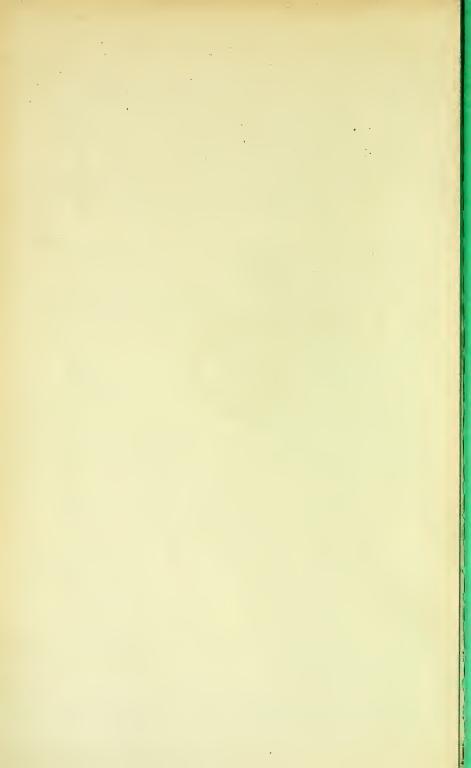

- 6. It was determined to calculate, as accurately as possible, the fair annual equivaents, WITHOUT PROFIT TO THE OFFICE in the conversion, of additions at the rate of 1½ per cent., according to the system of the Society, and to deduct these from the ordinary annual rates on the addition scale. The sums thus left are the premiums, according to Table A C, which will be found at the end of this Directory.
- 7. In submitting to the public such exceedingly low rates, it was thought requisite to provide that the sums in the Policies should be made subject to increase or diminution, according as the additions declared during their currency shall have exceeded or fallen short of amount, with accumulations, resulting from a rate of 1½ per cent.
- 8. It appeared to the Directors that, by this simple expedient, they had been enabled to meet the desire of a large body of the public for a liberal and comprehensive system, by which they might have as great a sum as possible assured for such annual amount as they could devote for the purpose; and there appeared little probability of the provision as to increase or diminution, requisite for the working of the plan, resulting in diminution. Under this mode, a person of the age of 30, paying yearly £25 17s. 6d., the ordinary premium for £1,000, would assure £1,400. In the same way,

A Person of the Age of 20 would, for the Premium of £1,000, Assure £1,500. A Person of the Age of 40 would, for the Premium of £1,000, Assure £1,333.

9. There are added the single payments and premiums for a certain number of years (Table C D C, at the end of this Directory), corresponding to these low rates, which are well deserving of consideration. The lowness of the single premiums is indeed startling; but they are the just equivalents for the annual premiums, the legitimate deduction of which has been so fully explained.

A further Table of Kates, on the same principle, for Joint Life Assurances has been calculated more recently, and an extract from this Table (E C) is subjoined.

*Another Investigation, as at 31st December, 1860, has been made since these rates were adopted, and the result is a declaration of Additions at the rate of 1½ per cent. so that if a Minimum Premium Policy were becoming a claim now, there would be paid, in addition to the sum in the Policy, one quarter per cent. for each year of its duration, up to 31st December, 1850.

THE QUEEN INSURANCE COMPANY-Continued.

At the Annual Meeting of the Proprietors held at Liverpool on the 21st October, 1863, BERNARD HALL, Esq., Chairman of the Company, in the Chair, the Directors' Report for the

Year stated:-£70,300 That the Fire Premiums for the Year amounted to . . Being an INCREASE over the Preceding Year of 22,880 That the Life Premium Receipts for the First Three Years were 15.249 43,557 And for the Past Three Years Being an INCREASE in the latter Triennial Period over the former of . 28,308 That the Amount Accumulated since Last Meeting, as a Fire Reserve Fund, was 23,427 And the Amount added to the Life Fund was 13,743 That during the past Five Years the Company has PAID FOR CLAIMS . 106.515

The Actuary Reported that the Life Liabilities had been valued on the soundest principles, viz.: -Net Premiums, at 3 per Cent. Interest, and that the Bonus to Participating Policy Holders. averaged as much as 46 per Cent. per Annum, of the Premiums paid; while, in some instances, it was as high as 65, 70, and even 75 per Cent. A Dividend was declared to Proprietors at the rate o Eight per Cent. per Annum.

A new Bonus Scheme was announced, which confers very great benefits on Participating Policy holders, as the Company's LARGE LIFE BONUSES may, under this scheme, be taken by the Assured in the shape of a BONUS POLICY, free from any condition whatever, and payable absolutely at the death of the Assured, without any reference to the original Policy, so that the holder possesses an absolute reversion of a defined market value, capable of being at any time converted into Cash.

RETURN OF FIRE INSURANCE DUTY FOR THE YEAR 1862.

(Ordered by the House of Commons to be Printed, 23rd June, 1863.)

As in previous years, this Return continues to afford indisputable evidence of the remarkable progress made by "The Queen Insurance Company," and furnishes another proof of the high estimation in which the Company is held by the Insuring Public.

Taking the Offices which had been in operation for two full years at the date to which the Return is made up—the 25th December, 1862—and comparing the amount of Daty collected in 1862 with that of 1861, "The QUEEN" STANDS THIRD ON THE LIST OF OFFICES SHOWING AN INCREASE. Excluding the new Odices formed in 1861, owing to their not having been at work for the whole period embraced in the comparison, the Return shows that "The QUEEN" was only exceeded in the increase of Daty of 1862 over 1861 by the other two Liverpool Offices, both of which were in full operation for many years before the formation of "The QUEEN."

The following statement will show the relative position occupied by "The QUEEN" IN THE LIST OF INCREASES, compared with the Thirty Offices standing below it, viz.:-

The eminent position thus occupied by the QUEEN INSURANCE COMPANY is doubtless owing to the high Commercial character of its proprietary, and the distinguished liberality of the Directors in the Settlement of Losses. Gratified by the remarkable confidence hitherto reposed in The QUEEN, it will be the constant endeavour of the management to sustain the High Reputation the Company has already obtained.

DISTRICT MANAGER AND SUPERINTENDENT OF AGENTS,

GLASGOW MEDICAL EXAMINERS.

H. R. HOWATT, Esq., M.D., 1 Apsley Place. T. M'CALL ANDERSON, Esq., M.D., 6 St. George's Road.

THE following are among the special advantages offered by this Company:—

Invalid and Diseased Lives.—In cases of invalid and diseased lives, where an extra premium might

reasonably be required, the ordinary rates only are charged, subject to the simple condition that in the event of a claim occurring considerably prior to the age to which, as a first-class life, the assured might have been expected to attain, such a deduction be made from the sum assured as shall be agreed upon in lieu of the extra premium remitted.

Application of Profits. - All bonuses will be applied upon the principle of converting the assurance into an endowment payable during the lifetime of the Assured. For instance, assuming a party to have assured at the age of 30, and become entitled to several bonuses during the succeeding ten years, the sum assured might be payable absolutely to himself at say 60, or at even an earlier period by further periodical divisions

N.B.—Active Agents wanted for Vacant Localities upon special and liberal terms, and a liberal commission allowed to the Agents of other Companies on such proposals as may not be completed with their own offices, owing to Extra Premiums, which this Company only charge as a contingent debt upon the Policy, which debt, however, is to be reduced every year of the Assured's life, until it is extinguished altogether on attaining the age at which the ordinary Premiums amount (with compound interest) to the sum Assured.

The following example explains the principle, and is of great importance to defective lives who are charged

extra annual Premiums, or declined altogether by other offices :-

Example.-W. B., aged 51, made a proposal for an assurance of £1000 with profits, but on medical examination of himself or f mily history, his life was found defective, and five years was added to his real age, making an extra annual premium of £10 Ss. 4d. he has to pay every year of his life on the £1000 policy, if assured with other offices. But this Company, instead of charging him with that extra every year, only charges him the ordinary tabular rate, and takes the said extra at fifteen years' purchase, which comes to £156 5s., and is charged as a contingent debt upon the policy, to be annually reduced by the £10 8s. 4d., and extinguishing the whole debt in fifteen years; whereas, if he had been assured in other offices, he would have paid the £156 5s., and should be live until be is eighty-one years of age, he would pay £312 16s. 8d., with interest, all which he can save by assuring with this Office, hesides never being annoyed by paying any extra premiums at all.

For further particulars apply to the Local Manager, Glasgow; the Head Office, London; or any of the

Company's Agents.

ALMANAC AND TIDE TABLE.

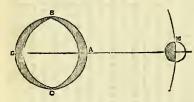

FROM JUNE 1864, TILL JUNE, 1865.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon, In order to render the question more simple, let us suppose the earth to be everywhere covered by the

ocean, as in the following figure:

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide, A, is produced by the waters receding from the earth, and the tide, D, by the earth

bra,

clock

receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerale effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his Mécanique Celeste the mean force of the sun in raising the tides is to the mean force of the moon as 1 to 11; and Emerson, in page 423, second edition of his Treatise on Fluxions, calculates the height of the solar tide to be 1 63 feet, and the height by the moon's influence to be 7.28 feet; consequently the height of their joint force to be 8.91 feet. height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when she is in conjunction with the sun, and at full moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring Tides take place about two days after full moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and should the moon happen to be in Perigee, their

joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior:

or inferior of the place; that is to say, twice in 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the Nautical Almanac for 1857 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's phases are calculated to civil time. The civil day begins at midnight.

TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained by addition, as here annexed.

In the year 1865 there will be two Eclipses of the Sun, and two of the Moon.

I.—A partial Eclipse of the Moon, April 11, 1865, partly visible at Greenwich. First contact with the penumbra, April 11th, 2 h. 3 m. A.M.; middle of the Eclipse, 11th, 4 h. 38 m. A.M.; last contact with the penumbra, 11th, 7 h. 13m. A.M.

II. -A total Eclipse of the Sun, April 25th, invisible at Greenwich. Begins on the earth generally, April 25th, 37 min. past 11 A.M., mean time at Greenwich; ends 25th, 40 min. past 4 P.M., long. 76° 35' W., lat. 31° 24' S.

III .- A partial Eclipse of the Moon, October 4th. Visible at Greenwich. First contact with the penumbra, October 4th, 26 min. past 8 P.M.; middle of Eclipse, 4th, 40 min. past 10 P.M.; last contact with the penumbra, 4th, 54 min. past 12 A.M., or 4 d. 0 h. 54 m. A.M.

IV.—An annular Eclipse of the Sun, October 19th, 1865, partly visible (as a partial one) at Greenwich, begins on the earth generally, October 19th, 1 h. 25 m. F.M. Ends on the earth generally, 19th, 7 h. 17 m. P.M., in lon. 23° 46′ W. of Greenwich, and lat. 4° 26′ N.

At Greenwich a partial Eclipse is partly visible, and begins October 19th, 12 min. past 4 P.M. Greatest phase, 19th, 9 min. past 5 P.M. mean time at Greenwich.

At Edinburgh a partial Eclipse is partly visible, and begins October 19th, 52 min. past 3 P.M. phase, 19th, 45 min. past 4 P.M. mean time at Edinburgh.

NOTICE.

The latitude of Glasgow is 55.52, and the longitude 4.16 west of Greenwich, consequently there should be 17 minutes of difference of time between the clocks of Glasgow and the clocks of Greenwich, but the clocks of Glasgow are now adjusted to Greenwich mean time.

EXEMPLIFICATION AND CONSTRUCTION OF THE FOLLOWING TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

Rule.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction, and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place; from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

Note.—The duty on a foreign bill drawn or endorsed out of the United Kingdom, payable on demand, is the same as on an inland bill payable otherwise than on demand. 23 Vict. c. 15. The word "endorsed" is held by the board of inland revenue to have no practical effect.—Times, 20th and 22nd

April, 1860.

N.B.—The duties on foreign bills and notes, drawn and made ont of the United Kingdom, are to be denoted by adhesive stamps. The holder to affix the adhesive stamp, if one not on it, before he negotiate it, and cancel the stamp by writing his name or the name of his firm and the date on it. If the bill or note be received by the holder with the adhesive stamp effectually obliterated, and purporting and appearing to be duly cancelled, the same, as regards such holder, shall be deemed to be so. If not cancelled, the holder may do so as if he were the person first negotiating the bill or note. On his doing so, the bill or note to be deemed duly stamped. The person who ought to have cancelled the stamp not relieved of any penalty incurred by not cancelling the same, 24 and 25 Vict. c. 91, § 33. The Act 23 Vict. c. 15, § 12, provides that the party paying the bill shall. when he does so, write the word "paid" upon the The amount of duty on the adhesive stamps is impressed on two parts. The board of inland revenue recommend that the cancellation should be on one of the parts, and the other left

If a foreign bill payable abroad, and as to which the provision "drawn in sets of 3 or more" apply, shall be drawn in a single bill, the duty will be the same as on an inland bill, and if in a set of two, the duty on each will be the same as on an inland bill. This is in accordance with the opinion of the board of inland revenue (see North British Daily Mail, 3rd November, 1854). But the board have given an opinion that a foreign bill drawn abroad and payable in this country in duplicate or triplicate only represents one transaction, and is liable to the duty on one inland bill of the same amount; that is, if one of the parts have the full dnty, the others may be unstamped (see Times, 6th November, 1854). The schedule of the act does not provide for such a bill being drawn in sets. Bills bearing to be drawn out of the United Kingdom are to be deemed foreign bills so drawn, although they may in reality be drawn in the United Kingdom, 17 and 18 Vict. c. 83, § 4. A person in the United Kingdom drawing and issuing a bill payable out of the United Kingdom in a set, must draw the whole set, and a person transferring or negotiating such bill must transfer and deliver, stamped, the whole number of the set. Penalty, £100. A person taking such bill must get the whole set stamped, otherwise he cannot recover on it, or make it available, ib. § 6. This applies only to bills drawn within and payable out of the United Kingdom.

INLAND BILL, DRAFT, or ORDER for the payment of any sum of money, though not made payable to the bearer, or to order, if the same shall be delivered to the payee, or some person on his or her behalf, the same duty as on a bill of exchange for the like sum, payable to bearer or order.

INLAND BILL, DRAFT, or ORDER for the payment of any sum of money, weekly, monthly, or at any other stated periods, if made payable to the bearer, or to order, or if delivered to the payee, or some person on his or her behalf, where the total amount of the money thereby made payable shall be specified therein, or can be ascertained therefrom, or shall be indefinite, the same duty as on a bill payable to bearer or order on demand.

PROMISSORY NOTE for the payment of any sum of money by instalments, or for the payment of several sums of money at different days or times, so that the whole of the money to be paid shall be definite and certain, the same duty as on a promissory note, payable otherwise than to the bearer on demand, for a sum equal to the whole amount of the money

to be paid.

RECEIPTS for money amounting to £2 or upwards, 1d.

The following provisions as to what shall be deemed
a receipt, and the exemptions from receipt duty by
55 Geo. III., c. 184, are still in force.

Any note, memorandum, or writing whatever, given upon the payment of money, whether signed or not, shall be a receipt if it shall import or signify that any sum of money, debt, or demand, or any part thereof amounting to £2 or upwards, has been paid or settled; and like documents given upon payment by bills, drafts, promissory notes, or other securities for money, are also receipts.

According to decisions a simple acknowledgment of a sum of money in loan, or of the correctness of a debt, or of a deposit of money, is not liable to stamp-duty, either as a receipt or promissory note. The judges held it essential to render a receipt liable to duty that something formerly due had been discharged. On this principle a receipt for a sum of money as a donation to a religious or charitable purpose, not being any thing formerly due, would not be liable. The Board of Inland Revenne have intimated that they are to regard such receipts as exempted.

Among the exemptions from receipt duty are—

Receipts written on promissory notes, bills, drafts, or orders for the payment of money, duly stamped. Receipts written on any bond, mortgage, or other security, or any conveyance, deed or instrument whatever, duly stamped, acknowledging the receipt of the consideration money therein expressed, or the receipt of any principal money, interest, or annuity thereby secured.

N.B.—Receipts for money passing between master and servant are not regarded as liable; but this would not apply to travellers who travelled for

several houses.

Receipts for donations are also not considered liable, if the donation is made and the money

paid at once.

Note.—Stamps may be impressed or affixed. Where adhesive stamps are affixed, the granter is required to cancel the stamps by writing his name or initials on them. Penalty for omission, £10. Penalty for removing adhesive stamps, or using them a second time, or doing any fraudulent act to defraud of duty, £20.—(16 and 17 Vict. c. 59, § 3, 4, and 5.)

INVENTORY DUTY.

I. PERSONAL ESTATE:-

All and every person who shall, as executors or otherwise, enter upon the possession or management of any personal or movable estate in Scotland of any deceased person, in whole or in part, shall, within six months, exhibit upon oath in the Commissary Court an inventory, duly stamped, of all the personal or movable estate and effects of the deceased. The inventory and testamentory writings left by the deceased, if any, shall be recorded in the books of the said court. (48 Geo. III. c. 149, § 38.)

Inventories and relative testamentary writings are to be given up and recorded in, and confirmations granted by, the Commissary Court of the county wherein the deceased died domiciled; and in the case of persons dying furth of Scotland, or without any fixed or known domicile, having personal property in Scotland, the Commissary Court of Edinburgh. (21 and 22 Vict. c. 56, § 3 and 8.) Oaths and affirmations on inventories of personal

estates, to be given up and recorded in any Commissary Court, may be taken either before the commissary or his depute, or the commissaryclerk or his depute, or before any commissioner appointed by the commissary, or before any magistrate or justice of the peace within the United Kingdom or the Colonies, or any British consul.

(21 and 22 Vict. c. 56, § 11.)

If the deceased person died domiciled in Scotland, it shall be competent to include in the inventory of the personal estate in Scotland, the personal estate in England and Ireland. The estate in England and Ireland shall be separately stated in the inventory, and the inventory shall be stamped corresponding to the entire value of the estate situated within the United Kingdom. If confirmation be required, the domicile must be proved, and the commissary must find it to be in Scotland. Confirmation, in which shall be included personal estate in England and Ireland, on being produced in the principal Probate Court in Eugland, and the Court of Probate in Dublin, and a copy thereof deposited with the registrar, together with a copy of the interlocutor of the commissary finding that the deceased died domiciled in Scotland, is to be returned sealed, and is thereafter to have the same force and effect in England and Ireland, as if probate or letters of Administration had been granted by these courts. (21 and 22 Vict. c. 56, § 9, 12, and 13.)

The provisions of the act are merely permissive to pay inventory duty on the whole personal estate in Great Britain and Ireland where the deceased died in Scotland, and the like provisions as to the payment of probate and administration duty where the deceased died domiciled in England and Ireland. It is therefore still competent to pay inventory duty on the estate situated in Scotland, and probate or administration duty in respect of the Estate in England and Ireland. In the case of a person dying domiciled furth of the United Kingdom having personal estate situated in Scotland, this mode of paying the duty must be followed, as there is no provision for payment of stamp-duty, in respect of the personal estate in England or Ireland on the inventory, or obtaining

confirmation in respect thereof.

If there be any omission in the inventory inferring payment of further duty, an additional inventory of such is required to be exhibited by 48 Geo. III. c. 149, § 38; and § 40 provides that the same shall also specify the amount or value of the estate and effects of the same person comprised in the former inventory. By 16 and 17 Vict. c. 59, § 8, such additional inventory shall be chargeable only with such amount of stamp-duty as, together with the stamp-duty charged upon the former duly stamped inventory of the estate and effects of the same deceased person, shall make up the full amount of stamp-duty, in respect of the total amount of all the estate and effects of the deceased specified in the said additional and any such former inventory. If the estate shall be over-estimated, or something improperly included in the inventory, an inventory on a stamp corresponding to the value must be exhibited, and the original inventory will be allowed on affidavit as a spoiled stamp, within six months of the recording of the second inventory,

Personal estate which a person, dying after 3rd April, 1860, shall have disposed of by will, nnder any authority enabling such person to dispose of the same as he shall think fit, shall be deemed personal or movable estate of the person so

dying, for the purpose of payment of inventory, probate, or administration duty, 23 Vict. 15, § 4. The duties to be charged on the property, in respect of which the same are payable, and to be paid thereout by the trustees or owners thereof to the executor.

Indian Government Promissory Notes, and certificates issued, or stock in lieu thereof, being assets of a deceased person, the interest of which shall be payable in London, registered in London, or enfaced in India for the purpose of such registration before the death of the owner; also Indian Government Promissory Notes, with coupons attached, in the same circumstances as to registration, and certificates issued, or stock created in lieu thereof, shall be personal estate, and bona notabilia in England of the deceased person (23 Vict. c. 5, § 1), and liable to inventory, probate,

or administration duty.

66 The inventory and additional inventory of any person deceased, required to be exhibited and recorded in the proper Commissary Court in Scotland, shall be stamped with duty according to the value of the property contained therein at the time they shall be respectively sworn to, including the proceeds accrued thereon down to that time; and the duty, or deficient duty, according to such value and proceeds, and interest thereon at the rate of five per centum per annum, shall be a debt to her Majesty by the person making oath to said inventory and additional inventory, and his heirs and successors; and if such inventory and additional inventory shall not be exhibited and recorded, the inventory-duty on all the personal or movable estate and effects of the deceased, and interest thereon at the rate of five per centum per annum from the expiry of the period of six months after the death of such deceased person, shall be payable and shall be a debt to her Majesty by the person who shall intromit with or enter upon the possession and management of such personal or movable estate and effects, or any part thereof, and his heirs and successors." (23 and 24 Vict. c. 80, § 5.)

II. Money Secured on Heritage, &c.

The Act 23 Vict. c. 15, § 6 (3rd April, 1860), declared that money secured on heritable property in Scotland, and money secured by Scotch bonds in favour of heirs and assignees, excluding executors, should be chargeable with inventory,

probate, or administration duty.

The Act 23 and 24 Vict. c. 80, was passed to regulate the levying and collection of the said duty. Section first gives a description of the property which shall be liable to inventory-duty under the Act. of 23 Vict. c. 15, and section 8 further explains what shall be subject to duty. Section 9 of the Act 23 and 24 Vict. c. 80, repeals the Act 23 Vict. c. 15, section 6, in so far as regards probate and administration duty being chargeable in respect of the property, so that now in all circumstances such property is liable to inventory-duty. Section 1 is in these terms—

"All money secured on heritable property in Scotland, and all money secured by Scottish bonds and other instruments, excluding executors, and all money secured by Scottish bonds and other instruments, the rights to which shall be taken excluding executors, constituting the succession, or part of the succession, of any person who shall have died on or after the 3rd day of April, 1860, shall be liable to inventory-duty under the said recited Act."

There are two modes of paying the duty provided for—23 and 24 Vict. c. 80, § 3 and 4—

1. By a "Special Inventory" of the property, to be lodged with the Solicitor of Inland Revenue at Edinburgh (a form of which, with relative oath, is given in the schedule to the Act), stamped according to the amount of property contained in it. The inventory stamp shall be testate or intestate according as the stamp on the inventory of the personal estate shall denote the testate or intestate rate of duty.

By adding the amount of the property to the inventory of the personal estate, and paying stamp-

duty upon the aggregate amount.

This second mode will generally be the most advantageous for the tax payer, and will be followed when the interest in the heritable and movable estate is the same, or when the heir and executor can make an arrangement as to the payment of the duty. As to both modes of paying the duty, it is declared that the duty is ultimately to be borne by the parties proportionally according to their interests in the property.

The 5th sect. of 23 and 24 Vict. c. 80, provides, that the inventory-duty shall be payable on the property made liable by the Acts referred to, according to the value of such property at the time the inventory containing it shall be sworn to, including the proceeds accrued thereon down to

that time.

It will be observed that the inventory-duty on money secured on heritage, &c., is limited to such property constituting the succession of a person who shall have died on or after the 3rd April, 1860 (23 and 24 Vict. c. 80, § 1); but the provision for valuing property at the date of the affidavit to the inventory, and including the proceeds down to that time, is retrospective and universal in its operation, applying to all inventories sworn to on or after that date without regard to the date of death.

III. GENERAL OBSERVATIONS.

In the case of a person dying domiciled in Scotland, having personal property in Scotland, England, and Ireland, and also money secured on heritage, &c., duty in respect of the whole may be paid on the inventory required to be recorded in the Commissary Court; or inventory-duty may be paid on the personal property sitnated in Scotland, and duty may be paid on a "special inventory" of the money secured on the heritage, &c., and probate or administration may be obtained in England and Ireland in respect of the personal estate in these countries, and duty paid in respect of such on these instruments.

In case of a person dying domiciled furth of the United Kingdom leaving personal estate in Scotland, England, and Ireland, an inventory must be given up in Scotland, probate or administration taken out in Eugland and Ireland, and duty paid on such in respect of the property in each country.
