* * By an act of Parliament recently passed, merchants' Accounts, Bills of Exchange, Invoices, Bills of Lading, and Proceedings at Law, written on the same piece of paper with a letter, are no longer liable to separate rates of postage, but are to be charged as single only. A single piece of paper is only chargeable with single postage, whatever may be written upon it.

Printed Newspapers and other printed publications liable to the stamp duties may be sent to any of his Majesty's Colonies or possessions beyond seas by the packet boats, upon the payment of one penny halfpenny for every such paper, such payment to be made at the time the paper is put into the Post office, provided the same be sent in covers open at the sides and be put into the Post-office in any town of Great Britain or Ireland, on any day within seven days of the day on which the same shall be published, such day to be ascertained by the date of the paper.

The above are the days of Dispatch from the Post Office, Edinburgh.

The returns of the packets are calculated thus:—to Jamaica and back, 16 weeks; America, 15 weeks; Leeward Islands, 13 weeks; Malta, 14 weeks; Brazil, 20 weeks; Lisbon, 4 weeks.

From July to December inclusive, the packet touches at Pernambuco and Bahia, on her outward passage to Rio Janeiro; the other six months on her homeward passage.

In November, December, January, and February, the packets touching at Bermuda, go to New York direct; the other eight months they go and return by Halifax.

Letters for places abroad, to which there are no packets; as China, New South Wales, Sierra Leone, Cape Coast Castle, Goree, Senegal, St Helena, and many parts of South America, are forwarded in sealed Ship Letter Bags, by vessels sailing from London or the Out Ports.

Ship Letters, &c.

Ship Letters.—Letters coming from on board any ship are chargeable with an additional rate for a single letter of 8d.

Letters conveyed outwards, in sealed bags, are chargeable with half packet postage, which must be paid when put into the office.

India.—Letters to and from the East Indies are regularly forwarded by ships.—The postage must be paid here.

The rate outwards is 2d. per package under three ounces; if above that weight, one shilling per ounce.

By the Ship Letter Act it is enacted, that every master of a vessel, immediately on his arrival in port, shall take the whole of his letters to the Post-office, under penalty of £200; and the captain must sign a declaration that every letter has been so delivered, before his vessel can be permitted to report to the Custom-house.

Vessels to and from Ireland, or Coastwise, are not allowed to convey letters, under a heavy penalty.

Rates of Postage of Single Letters in Great Britain.

From any Post-office in Scotland, England, or Wales, to any place not exceeding 15 miles from such office,		0s. 4d.
For any distance above 15 and not exceeding 20 miles,		0 5
_____ 20	_____ 30	— 0 6
_____ 30	_____ 50	— 0 7
_____ 50	_____ 80	— 0 8
_____ 80	_____ 120	— 0 9
_____ 120	_____ 170	— 0 10
_____ 170	_____ 230	— 0 11
_____ 230	_____ 300	— 1 0

And so on in proportion, the postage increasing progressively one penny for a single letter for every like excess of distance of 100 miles.

Ireland, by way of Holyhead, 3d. Donaghadee, 4d. by packet-boats, over and above other rates.

Guernsey and Jersey, 3d. by packet-boats, over and above all other rates.

All double, treble, and other letters and packets whatever (except by the penny-post) pay in proportion to the respective rates of single letters; but no letter or packet to and from places within the kingdom of Great Britain, together with the contents thereof, shall be charged more than as a treble letter, unless the same shall weigh an ounce, when it is to be rated as four single letters, and so in proportion for every quarter of an ounce above that weight, reckoning each quarter as a single letter.

Letters for the penny-post delivery must be under 4 ounce weight.

Single letters from any seaman in his Majesty's navy, or from any sergeant, corporal, soldier, &c. in his Majesty's service, within any part of his Majesty's dominions, on his own private concern only, not to be charged more than one penny each, to be paid when put into the Post-office:—the name of the writer, his class or description, and the name of his ship, regiment, &c. must be given by himself; and the officer actually having the command must sign his name, and the name of the ship, regiment, &c. he commands.

Single letters to any seaman or soldier, &c. under the same restrictions, to pay one penny each, at the office where the letter is put in;—to specify on the superscription the class of the person, and the name of the ship or regiment, &c. to which he belongs; such letter not to be delivered to any person but the one to whom it is directed, or to some person appointed to receive the same, under the hand-writing of his commanding officer.

Receiving Houses.

Not to extend to commissioned or warrant-officers, midshipmen, masters' mates, captains' clerks, or schoolmasters in the navy; or to commissioned or warrant-officers in the army.

Officers endorsing letters, knowing them not to be on the private concern of such seaman or soldier, under his command, to forfeit *five pounds* for every offence.

Officers endorsing letters of seamen, &c. not under their command, to forfeit *five pounds*.

Any person directing a letter to any seaman, &c. intended for any other person, to forfeit *five pounds*.

Any person procuring any seaman, &c. to obtain the signature of his officer, which shall not be on his own private concern; or if any seaman, &c. obtain his officer's signature for any purpose contrary to what is here intended, each and every person so offending to forfeit *five pounds*.

One half of any of the above sums to the use of his Majesty, the other to the informer, recoverable before any Justice of the Peace where the offence is committed; in default of payment, to be committed to the house of correction, for any space not exceeding one month, or till the penalty be paid.

Bank Notes and Drafts.—Persons wishing to send bank notes or drafts by post, are advised to cut such notes or drafts in halves, and send them at two different times, waiting till the receipt of one half is acknowledged before the other is sent.

Money, Rings, or Lockets, &c.—When money, rings, or lockets, &c. are sent by the post from Edinburgh, particular care should be taken to deliver the same to the Clerk, at the window at the General Post-Office; and when any such letter is to be sent from the country, it should be delivered into the hands of the Post-master; but it is to be observed, that this office does not engage to ensure the party from loss.

Money Order Office.—For the security of sums of money not exceeding 5 guineas sent in letters by post, the Post-master General has authorized the establishment of the Money Order office, where orders are given (payable at sight) on the Post-masters in Scotland, England, and Ireland. Attendance from 11 to 3, daily, Sundays excepted.

— 1¼ mile	1	10½	— 2¼ miles	3	4½			

And so on, at the rate of 4½d. for every quarter of a mile farther.

Rules for regulating Hackney Coach Fares according to time.

For 30 minutes, 1s. | 45 minutes, 1s. 6d. | One hour, 2s.

And so on, at the rate of 6d. for every 15 minutes further time.—The fares to be charged, either by the length of ground, or time, in the option of the coachman, but not by both.

REGULATIONS.

1st. The regulations and table of fares enacted upon the 19th day of June 1811 years, are hereby repealed; and the before-mentioned general rules, the following regulations, and annexed table of fares, made according to these general rules, are substituted in place thereof.

2d. That each coach or chariot, before plying for hire, shall be inspected by a magistrate; and, if approved of, will be licensed by him, when a number will be issued to the owner, who must affix the same, together with his name, in letters at least one inch in length, on each door of the coach or chariot, immediately below the window. That there shall not be the same number on two coaches or chariots; and that no coach or chariot wanting such number or name shall be allowed to ply.

3d. That no insufficient coach, or chariot, or horses, shall be allowed to ply; and when any of the proper furniture of steps, springs, blinds, glasses, or check-strings for stopping the coachman, are broken or wanting, or the harness shall not be in good repair, it shall be lawful to detain from the hire 1s., or the whole hire, if it shall not amount to more. The coachman shall always keep the check-string in his left hand when driving, under a penalty not exceeding 5s.

4th. That there shall not be fewer than six coaches or chariots on the stance in Prince's Street, every morning at nine o'clock, taking this duty by rotation, beginning at No. 1, and going on progressively, under a penalty of 10s. for every coach or chariot absent. All coachmen attending for a fare, at any stand, shall either sit on the coach-box, or stand at the horses' heads, under the penalty of 2s. 6d. for each offence.

5th. That each coachman shall be cleanly in his person, and wear a ticket on the front of his coat, with a number corresponding to that on his coach or chariot, under a penalty of 5s. for each offence.

6th. That when a company shall take a coach between the hours of ten and twelve o'clock, P.M. in that case fare and a quarter shall be paid; between the hours of twelve and one o'clock, fare and a half shall be paid; and after one o'clock, double fare shall be paid, with the exception of the Theatre, where the usual charge only shall be paid.

7th. That the stances for the coaches and chariots shall be as follows; viz. Tron Church—Prince's Street, east end,—George Street, between Hanover and Frederick Streets,—Prince's Street, west end, facing Hope Street; or at such other places as the magistrates from time to time may appoint; and that there shall not be fewer than four coaches at the stand facing Hope Street.

8th. That coachmen are not on any account to inquire where a company are going, previous to engaging, or to plead prior engagements, when their services are required; nor shall they be allowed to draw off the stance, under pretence of being engaged, so as to have their choice of work; but their coaches or chariots, being on or near the stance, shall be considered as proof of their being disengaged; and on their refusing to take a fare, they shall be liable in a penalty of 10s. unless they can adduce evidence, to the satisfaction of the Magistrates, that they were actually engaged.

9th. That when a coachman is required to wait, either upon setting down or taking up a party, he must on no account refuse, under the penalty of 5s. and the forfeiture of his hire; but he shall be entitled to charge for the first fifteen minutes sixpence, and a like sum for each successive fifteen minutes he may be detained.

10th. That if a coachman shall be sent from a stance to any house to take up a company, he shall immediately announce his arrival, and remain in waiting during the pleasure of the company; for which he shall be entitled to charge the

same allowance from his arrival as in the preceding regulation.

11th. That no fares higher than those in the annexed tables shall be demanded or taken: And if hired to any spot or place, not specified in the annexed table, (such as) from a change of the name, a new place, or beyond the limits, &c. in that case no fare higher than those in the before-mentioned general rules shall be demanded or taken: The coachman having it in his option to take either for the length of ground or time, but not for both. And if any coachman shall be convicted of imposing on his employers, or abstracting the fares from his master, he shall be liable in a penalty of four times the amount of the fare, and imprisoned until payment.

12th. That every coachman, when on duty, shall have in his pocket a printed copy of these regulations, to be kept in a tin box, with the number of the coach or chariot painted on it; and shall show the same to his employer, when required, under a penalty of 5s.

13th. That any coachman being convicted of drunkenness or abusive language, the Magistrates may revoke his license, or impose a penalty of 10s. and order him to be imprisoned till the same is paid.

14th. That the coachman (master or servant) after setting down a company, shall drive to the nearest stance; and if the number of coaches or chariots ordered to stand there is not complete, he shall remain for the service of the public.

15th. That any person wanting a coach or chariot, shall take one from the nearest stance to his residence; but if none shall be there at the time, and one shall be procured from another stance, there shall be paid for every stance beyond the nearest, in addition to the fare, the sum of 6d. This to be only applicable to fares under 2s. 6d.

16th. That there shall be no additional charge made for taking up or setting down any part of a company, unless the coach or chariot shall be detained ten minutes, which time for attendance shall be allowed to each fare, and not exceeding.

17th. That parties returning by the same coach or chariot, from any place, whether in town or at a distance in the country, shall pay one half fare additional, as back hire.

18th. That the fares are exclusive of the King's duty and tolls, which are to be paid by the company.

19th. That the regulations respecting the fare to Musselburgh will not be insisted on during the race week, for two hours before, and two hours after the horses have started for running.

20th. All parcels, or articles of any kind, to be immediately returned to the owner, if known; if not, to be lodged in the Council Chamber.

21st. At least one-fourth of the coaches to attend at the stand east end of Prince's Street, on Sunday, from ten o'clock morning, to ten o'clock at night.

22d. That these regulations may be enforced by the Magistrates in the Council Chamber, or Judge in the Police Court.

FIRE ASSURANCE.

The Company have made the following Reduction in the Rates of Premium hitherto charged on the three common Classes of Fire Assurances. The Reduction applies equally to Assurances in London, and throughout the Country—to Private and Mercantile Assurances,—except in special cases:—

- 1st Class is reduced from 2s. to 1s. 6d. per cent.
- 2d Class is reduced from 3s. to 2s. 6d. per cent.
- 3d Class is reduced from 5s. to 4s. 6d. per cent.

LIFE ASSURANCE.

Life Assurances continue to be effected by the Company on very moderate terms, while the Assured participate in the profits, which are to be declared at the expiration of every successive period of five years. The Lives of Naval and Military Officers, not engaged in actual service, are covered at the common rates of premium. The Assured may proceed to any part of Europe, provided they take shipping in decked or steam-vessels, from a port in the United Kingdom, to any port between the Texel and Havre, without previous communication with the Directors, or the payment of an additional premium. No Entrance Money is charged.

LIFE DEPARTMENT.

There are few persons to whom the advantages of Life Insurance are more applicable than to gentlemen in the learned professions, or in public offices, and to officers in the army and navy; even gentlemen of large landed property, whose estates are entailed on the eldest son, have, in many instances, of late years, adopted this mode of making provision for younger children, or of increasing the income they are desirous of leaving to their wives.

Persons holding lands by lease on lives, may assure the lives on which the lease depends. A creditor may assure the life of his debtor for the amount of his debt; and arrangements in the cases of loans may, by such means, be made highly convenient to the borrower, and afford security to the lender. The line in which estates are to descend often depend upon survivorships; if the person in expectation does not survive the person in possession, the estate perhaps goes into another family; in this case it is prudent, in those interested, to assure the life of the person through whom they may expect to inherit, against that of the person in possession; and as this is generally the case of a young life against an old one, a large sum may be secured for a moderate advance.

It can only be from a want of information of the principles of assurance, that lives on which so much depends should remain unassured by the persons interested in their continuance, and what removes every difficulty in point of expediency, is the advantage which the Atlas Company holds out of purchasing the interest of the Assured, at any time, at an equitable rate. The facility offered of transacting the business through a Committee of Proprietors acting for the Company, without

applying to a professional agent, or correspondent in London, must operate as a great inducement for persons not to neglect so salutary a precaution.

Persons interested in Life Policies for the whole term, will, at the close of every period of seven years, be entitled to participate in the surplus Premiums, to be then ascertained by actual valuation; and the average addition to the sum insured for the last period was 65 per cent of the premiums paid, which is GREATER THAN HAS BEEN MADE BY ANY OTHER INSURANCE OFFICE.

As to the Rates charged by the Company, it may suffice here to say, that the Tables adopted by the Directors were originally framed upon the sound principles of mathematical computation; and the practice of the Equitable Society has put them to the unerring test of long and extensive experience.

If any new offices have ventured to reduce these rates, they may, perhaps, have done so without transgressing the bounds of bare security; but their prudence is at least questionable; and the Atlas has no inclination to follow their example. The means of accumulating money at compound interest, without risk, are open alike to all; and if in the exercise of those means the Atlas shall be found to have collected greater funds than their actual engagements require, the security of the Assured is placed beyond all question, and the surplus is preserved for the future benefit of those who had contributed to create it; and therefore, constituted as this Company is, it will be more for the interest of parties having Life Assurances to effect, to assure a less sum, at premiums which have been found fully adequate to meet losses, than a larger one at premiums speculatively reduced. In effect, the reduction of premium is only nominal; for the comparison to be drawn is not between the two rates of premium, but between the premium and the sum ultimately to be obtained in return.

FIRE DEPARTMENT.

The Assurance of every species of property from loss or damage by fire, is undertaken by the Company on highly favourable terms; and policies for £300 and upwards will be entitled to participate in the surplus premiums every fifth year; the amount thereof in several late years has been from *Twenty to Twenty-Five per cent.*

The following are the rates for all policies where the premium exceeds 5s.

Common risks,	1s. 6d. per cent.
Hazardous ditto,	2s. 6d.
Doubly Hazardous,	4s. 6d.

A payment for rent is made by the Company in case of *Loss on Buildings, without any extra premium.*

Proposals, fully explanatory of the principles and rates of the Company, may be had at the Company's Office, No. 59, George street, Edinburgh, where all letters on the subject of Assurances may be addressed to the Committee, or to their chairman, Mr Campbell.

The distinguishing feature of this Company is to effect Insurances on lives, on the lowest possible terms, consistent with the security of the public. This Company is not founded on the principle of Mutual Insurance, nor does it, like many others, profess to share the profits with the Assured in any other way than by a diminution of the rates of Insurance. On this plan, the Assured, *without being made partners*, are in fact participators in the profits; because they are only required to pay the very lowest possible rate of premium, and thus enjoy all the important advantages attending Insurance at the least possible diminution of income. Of this a comparison of the Company's Tables with those of other offices will readily satisfy every one.

The rates are at least 18 per cent lower than those commonly charged, which may be illustrated by the following example.—A person aged 30 insuring £100, to be paid at his death, is required to pay an annual premium of only £2, 5s while in other offices he is charged £2, 13s. 5d., being upwards of 18 per cent more than this Company demands.

Persons wishing to discontinue their Policies may dispose of them to the Company at a fair price.

The Policies of the Company may be at any time sold or mortgaged, and no notice of such transaction is required to be given at the office.

No charge is made for entrance, nor for Policies, except the Stamp.

Annuities are purchased and granted by this Company on terms peculiarly advantageous to the public, and Endowments for Children are also granted on the most liberal terms.

Printed particulars may be had *gratis*, and every information obtained, from Mr Edwards, as above, or from any of the Company's agents, in every city and town of the united kingdom.

This Company was established in 1805, and is incorporated by royal charter, confirming the joint and individual responsibility of all the partners, thereby affording the most ample security to the insured.

The Directors have recently adopted a mode of insuring *cumulo*, without the average clause, on payment of an equivalent premium, by which, in certain cases, a most material saving of expense is effected.

The Company's terms are in this respect more favourable than those of any office in Britain.

For the convenience of Farmers, and others requiring insurances for short periods, short date policies are granted; and farm-stock is insured in one sum (without the average clause) wherever situate on the farm.

Proprietors may be insured against loss of rents by fire, at the same rate of premium that is charged for the buildings.

Persons insuring for seven years are charged for six only.

The rates of premium charged by the Company are—for
common insurance, £0 1 6 per cent.
Hazardous, 0 2 6 do.
Doubly hazardous, 0 4 6 do.

Losses are promptly settled, and no charge is made for policies, except where the sum insured is less than £200.

The Profits are divided amongst those who now insure, as well as the original Members, *in just proportion to their respective payments.* In the Fire Office, Returns, during the last thirteen years, to the amount of L.52,000, have been paid to all persons who have continued insured seven years, upon annual as well as septennial Policies, and whether they have been sufferers or otherwise. In the Life Office, Bonuses of L.13, 8s. and L.26, 12s. per cent have been divided during the last fourteen years.—Another septennial dividend will take place next year, in which those who now insure will participate. *Military men* are not charged additional, unless called into actual service. Persons are at liberty to pass and repass to the Continent under limitations, *without License and extra Premium.* Persons removing to *unhealthy climates*, or subject to *bodily infirmities*, may be insured. If any person die by *Suicide, Duelling*, or the *Hands of Justice*, the full value which his Policy bore on the day previous to the time of his death will be paid. The following may be mentioned among the advantages which attend insuring with this Company:—

The assured participate in the profits or savings of the Company, to the extent of two-thirds, and without any responsibility.

The participation may be applied, in the option of the assured, either to their own immediate benefit, by a diminution of the yearly premiums, or to the benefit of their heirs, by additions being made to the sums insured.

In case the assured should wish at any time to discontinue their policies, the Directors are authorized to purchase them.

An ample capital being provided by the Proprietors, the most undoubted security is afforded for the prompt discharge of the Company's engagements.

ALEXANDER GIBSON, and GEORGE GOOLD, of the British Linen Company Bank, Agents for Edinburgh.

Persons Insuring at this Office will derive two important advantages.—First, The most effectual security is provided for payment of losses. Not only will the premium received upon policies be carefully invested, and accumulated for that purpose, but a capital of Seven Hundred and Fifty Thousand Pounds has been subscribed, to answer any possible deficiency.

Secondly, Upon every policy effected for the whole term of life, the insurer will participate in the profits of the Company, by having periodical additions made to the sums insured, to the amount of two-third parts of such clear gains and profits.

At the same time, they will be protected by the ample capital above-mentioned from every chance of loss.

Lives insured with the IMPERIAL are allowed to pass by sea from one part of the United Kingdom to another; and also, in time of peace, to pass in King's ships and packets, or other decked vessels, between British ports and such foreign ports as lie between Ostend and Havre-de-Grace, both included, without extra premium, and without being subjected to the inconvenience of applying for the special leave of the Directors, as formerly required by the usual condition of life policies.

The business of the Company embraces Insurance on single Lives, Joint Lives, and Survivorships—the granting and purchasing of Annuities—Endowments for Children, &c.

The following are a few of the Rates, from both Tables, for single Lives:—

<i>With Profits.</i>				<i>Without Profits.</i>			
Age 25	£2	5	4	Age 25	£2	1	5
30	2	10	7	30	2	6	6
35	2	16	11	35	2	12	10
40	3	4	11	40	3	0	9
45	3	14	9	45	3	10	9
50	4	7	10	50	4	3	7

The Rates of the First Table are adapted to those who wish to participate in the profits. They will thus enjoy the advantages of a mutual Insurance Society, while they are exempted from the risks and anxiety to which an association so modelled is for a number of years obviously exposed. At each periodical investigation of the Company's Affairs, the shares of the profits of those insured under the First Table, will either be applied to the increase of the sum insured, or the reduction of Annual Premiums, at their option.

The Rates in the Second Table are adapted to that class of persons, who, having no desire to participate in the profits, only wish to secure a definite sum at the lowest premium.

The Rates of Premium on Joint Lives, Survivorships, Annuities, Endowments, and every other department connected with Life Insurance, may be learned on applying at the Office.

On effecting an Insurance, *no extra charge* is made beyond the government stamp.

THE unexampled encouragement which this Company has met with since its establishment, is a sufficient proof that the principles upon which it is founded, combine the most per-

fect security, with advantages superior to those offered by any institution of a similar character.

The Capital amounts to **TWO MILLIONS**, subscribed in shares of £100 each, upon which a deposit of 10 per cent has been paid. This deposit, and the accumulations thereon, form the present capital of the Company, with a further claim upon the subscribers to pay such sums as may be required to the extent of their respective shares.

The conditions of Assurance, both in the Fire and Life departments, will be found to be extremely liberal; the premiums are as moderate as is consistent with perfect security; and the strictest secrecy is observed in all the Company's transactions.

This Company insure the lives of persons going abroad—of delicate health, or predisposed to hereditary or constitutional maladies. Lives of females are insured at a less rate than those of males. The lives of persons who are not enabled to return perfect testimonials, or are uncertain of their date of birth, are also insured by this Company—the rates of premium in these and similar cases being determined as low as the paramount duty of security permits.

By the Deed of Settlement the assured are entitled to one-third of the profits in the Fire department; and two-thirds in that of the Life, without any liability on their part to the losses; and they have themselves the power of ascertaining and enforcing their rights.

Parties may arrange to pay their premiums by single, yearly, half-yearly, or quarterly payments. Policies of three years' standing are bought by the Company, or a sum will be advanced to aid the assured in continuing their payments.

The Directors have, in their general principles, endeavoured to extend the utility, and improve the practice of Life Assurance, and they will, in all the details of the Office, meet as far as possible the convenience, and facilitate the business of parties assuring.

Arrangements are made whereby Life Assurances are transacted at once by the Agent in Edinburgh, in the same manner as at the head office at Manchester. The official requisites are conducted in the most simple form; delay and irrelevant discussion are avoided; and the parties proposing assurance can effect this object without subjecting themselves (as the case in other offices) to the scrutiny of a Board of Direction.

Any farther information—forms of proposal, declaration, &c. may be obtained by personal application at either of the Offices of the Company, or by letter, addressed to the Secretary in Manchester, or the Agent in Edinburgh.

LIFE DEPARTMENT.

The variety of cases in which, by means of Life Assurance, income is made to supply the place of capital, is becoming daily more generally understood, and must readily suggest themselves to all who perceive that the person who applies a part of his annual income to an insurance on his life, instead of lodging it in a bank, or applying it in his trade, for the purpose of accumulation, converts at once *the prospective savings* of a long course of years into *testamentary capital* for the benefit of his family; and thus effects immediately what, without the aid of Life Assurance, he could not accomplish unless he should happen to attain a period of life which there is at best many chances against his ever reaching.

It is usual to have a precise sum insured at the lowest possible rate of premium; but the party insuring sometimes prefers to speculate on his longevity, by paying a higher rate of premium, in order that periodical additions may be made

to his policy, proportioned to the success of the Office. The North British Insurance Corporation have therefore adopted two different plans for assurance upon lives,—one of them embracing assurances for short periods, and for all the other usual contingencies of life insurance; thereby combining, as far as is practicable, every advantage which is to be found in the various systems of life insurance hitherto offered to the public.

By one of these plans the assured do not become partners, but have the benefit of a *reduced scale of premiums*, calculated at the lowest rate at which such risks can be safely undertaken. By the *other* plan, assurers for the whole duration of life are entitled to *participate to the extent of two thirds in the profits* of the Office, and are guaranteed from all responsibility by the Capital of the Corporation.

The following extract from the Company's Tables of Rates shows the premiums exacted for the assurance of precise sums.

Annual Premiums for the Assurance of £100 on a single Life.

FIRE DEPARTMENT.

Property of every description is insured against loss or damage by fire, at the usual rates of premium, corresponding to the risk. Loss or damage by lightning is made good. Farm stocking is insured without the average clause, on a plan which saves the farmer from 20 to 25 per cent.

The Company's Tables of Rates, or other information, may be had at the Office in Edinburgh, or by applying to any of the agents in the principal towns of Scotland and the North of England.

Norwich Union

FIRE AND LIFE INSURANCE SOCIETIES

FIRE SOCIETY.

This Society was originally established in 1797, and was the first Office to introduce to the public the principle of returning profits to the *parties insured*, and it actually did return the sum of L.114,072, 11s. 7d.

Since the principle of the Office has been modified, it has declared a return to the parties insured of L.31,965, 1s. 6d.

No other Fire Office has given such large advantages to the public; and the consequence has been, that the Norwich Union ranks the *second* Office, in the amount of its business in the united empire!

It is a part of the constitution of the Society, that Loss may be substantiated before Local Committees, a system which greatly facilitates the prompt settlement of claims.

The Capital of the Society is L.550,000, and the parties insured are completely guaranteed from all responsibility.

LIFE SOCIETY.

This Society was commenced in 1808, not as a Joint-Stock Company, but as a Society for mutual insurance, and its prosperity has been so unrivalled, that it has accumulated a Fund of L.360,000. This success has resulted from the extreme caution of the Managers, and the high popularity of the principle on which the Office is founded, its leading feature being that the *whole profits are secured to the parties insured*, and consequence, those who effected Policies prior to June 1811 have had 44 per cent on the premium added to the sums insured, and those whose Policies commenced subsequent L.24 per cent.

The following view of the yearly receipt of Premiums for the periods quoted, indicates the rapid growth of the Establishment.

The distinguishing features of this Institution are, viz.

1st,—The great proportion of profits distributed among the Assured.

2d,—The control which the Assured have over the management of the Society's affairs.

Additions to Life Policies.

Four-fifths (or eighty per cent) of the estimated profits, will be added every seventh year, by way of bonus, on all

Policies effected upon Lives not exceeding the age of 50, for the whole term of life, or an equivalent *reduction in the future annual premiums* will be made, instead of such additions, at the option of the party when assuring.

Lives above 50 may be assured, but they do not participate in the Profits.

Power vested in the Assured.

The holder of a Life Policy effected for the whole term of the life of any person, not exceeding 50, will be entitled, after two annual payments of premiums, to *Vote at General Meetings*, viz.

On a Policy for £1000,	. . .	One Vote.
£2000,	. . .	Two Votes.
£3000,	. . .	Three Votes.

By this most important arrangement, the Assured obtain an effectual protection against an improvident application of the capital and funds of the Society; which, with ample subscribed Capital, and the accumulation of Premiums, affords the best security for the payment of all just claims.

Sea Risk Allowed.

Persons whose lives are Assured in this Society, may freely go, in decked vessels, in times of peace, to all ports between the Elbe and Brest, or to any part of Europe in any of His Majesty's ships of war, or regular packets; and may also pass from any part of the United Kingdom to another, (including the Channel Islands,) without giving notice there, and *without paying any additional premium.*

Additions to Fire Policies.

Four-fifths (or eighty per cent) of the estimated profit will be septennially returned to the Assured, who have paid seven years' Premium, either in one sum, or by annual payments.

A prompt payment of six years' premium entitles the Assured to the benefit of a seven years' insurance.

Payment of Losses.

Losses by lightning made good.

All just claims are paid with the utmost promptitude, *without deduction.*

Arbitration.

Every Policy contains a power for the Claimant to have a dispute with the Society decided by *Arbitration.*

As objections have sometimes been stated to the publicity which is given to Insurances effected upon Lives, arrangements have been made by the Directors of this Establishment which will entirely obviate this difficulty.

Pelican

LIFE INSURANCE COMPANY,

FOR INSURANCE ON LIVES, AND GRANTING ANNUITIES.

This Office was established in Lombard Street, London, in the year 1797, by a numerous and respectable Proprietary; and the *Board of Directors*, with confidence, arising from the increased prosperity and permanency of the establishment, as well as from the experience of its usefulness and benefit to the public, think it due to those who may be still unacquainted with the importance and advantages of LIFE INSURANCE, briefly to suggest some of its leading and peculiar recommendations to almost every degree and rank in society:—Life insurance is of manifest consequence to all who hold estates for life, situations and offices, civil, ecclesiastical, or professional; to officers in the army and navy, &c., as, by payment of an annual premium, the party insured is enabled to provide for wife, children, or others whose future welfare he may wish, in vain, by other means to promote. It affords a permanent ultimate security to those who advance money upon annuities or otherwise. It renders leases, determinable on one or more lives, nearly equal in value to freehold estates, as an insurance to the amount of the fine, payable on the demise of a party nominated in such leases, will produce the sum required for renewal. It is a cheering refuge to parties engaged in extensive and speculative undertakings; it affords to persons in trade the certain means of indemnification against a bad or doubtful debt; in short, life insurance, established in policy, sanctioned by Government, and confirmed by the test of experience, is become, to almost every situation of human life, a measure equally important, useful, and beneficial. Annuities are granted upon the most equitable terms, under a special act of Parliament granted to this office.

Property of a description more than usually hazardous will be insured at a rate of premium commensurate with the risk.

IN THE LIFE DEPARTMENT,

The rates of Premium either for *short periods* or for the *whole term* of Life, are considerably lower than the rates exacted by nearly all the other Offices.

The difference between the *reduced rates* of this Company and the rates usually required, is equivalent to an annual bonus, giving *immediately* to the Assured, upon the best and most equitable footing, that share of the profits which is only *prospectively* held forth by the Societies acting on the Return System.

Tables of Rates, and Proposals explanatory of the plan on which the *Life Department* is founded, may be had *gratis*, on application at the Head Office, North Bridge Buildings, Edinburgh, or from any of the Agents in the principal towns of Scotland.

London Union Assurance Society,

FOR FIRE, LIVES, AND ANNUITIES,

INSTITUTED IN THE REIGN OF QUEEN ANNE.

This is one of the oldest offices in London, (1714). Of the Profits of THE LIFE DEPARTMENT, which are divided, the Proprietors draw *one-third*, and the Insured receive *two-thirds*, which are added, once in seven years, to the sums in the Policies, or, in the option of the insured, the yearly premium suffers a corresponding abatement. From the large share of Profits divided among the Insured, every L.100 insured by a policy for the *whole period of life*, may become worth L.140 or L.150 at the death of the person whose life is insured. The Insured for limited periods do not participate in the profits, but the rates for such Insurances are very much reduced. The rates for Insurances *for life* are equally low with those for short Insurances, when the share of the Profits to which the insured are entitled, is taken into computation. The Assured for the entire period of Life, may by the rules of the Society, pay off the *whole annual premiums in one year, or any limited number of years*—for which purpose the Society have had Tables calculated on the most equitable principles. This will be found to be of great advantage to many who cannot, with certainty, calculate on it being convenient to make an annual payment during Life.

In the FIRE DEPARTMENT this Office has adopted the same reduced rates as others. Those insuring against loss by Fire, for *seven years*, are entitled to share in the profits in the same proportion as in the Life Department, which generally amount to upwards of *one-fourth* of the total premium paid; while *only six years premium and duty* are required. The terms for *Septennial* Insurance are, therefore, highly advantageous to the public. Annual Fire Insurances are done on the usual terms.

The business of this Society is extended, not only throughout *Britain and Ireland*, but also widely on the *Continent of Europe*—in the profits of all which the assured in Scotland are entitled to participate as above, without any risk whatever. Besides the rates of Insurance, the *other conditions*, particularly of Life Insurance, will be found extremely liberal—such as subject the assured to the least possible inconvenience.

The Society is under the direction of a Board of Management, formed of eminent Merchants in London, who meet regularly twice a-week.

Scottish Widows'

FUND AND LIFE ASSURANCE SOCIETY,

(Founded on the Model of the Equitable Society of London.)

PRINCIPAL OFFICE, No. 5, ST ANDREW'S SQUARE,
EDINBURGH.

The Thirteenth Annual General Court of this Society was held in the Waterloo Tavern, on Monday the 13th November 1826,

JAMES GIBSON CRAIG, of Riccarton, Esq. one of the Vice-Presidents, in the Chair.

The Manager addressed the General Court at some length, and developed the satisfactory progress of the Society's affairs during the bygone year. His statement and abstracts clearly proved the great and continued increase in the extent of the Society's business, as well as in the amount of its accumulated fund and annual revenue.

The Chairman congratulated the Members upon the very flourishing condition of the Establishment, as disclosed in the statements just laid before them by the Manager, and took occasion to point out, in the most forcible manner, the peculiar advantages of the principle on which this Society is founded. He also contrasted the benefits which have already, and may hereafter be expected to attend it, with the results arising in the case of Insurances done with proprietary Companies, and even with establishments which are only partially founded upon the same principle.

Mr Cockburn, the Auditor of the Society, then read a report exhibiting the present state of the Society's affairs, and the increase that had taken place since 1st January 1825, the first period of distribution. It also showed the SURPLUS, which, from a comparison of the actual with the estimated amount of claims, appeared to have arisen since that period. This Report bears, that the results of his investigation "present a most favourable view of the affairs of the Institution; that the prosperity of the Society continues progressively to increase; and that the experience of the first two years of the second interval of its progress, affords every prospect that the addition to the interests of the Members at the next period of investigation at 1st January 1832, will not be less than those made at that which has elapsed, 1st January 1825."

The Report concludes as follows:—"Upon the whole, it is with particular satisfaction I have to state, that the principles upon which the constitution of the Society was formed, having now been put to the test of experience, their accuracy has been fully proved, and that a combination of advantages has thereby been secured to all the individuals who now are, or hereafter may become, members of the Society, which could not have been attained under any other known form of constitution.—Among these advantages may be enumerated, 1st, The ample security afforded by the fund for payment of the provisions charged upon it, which render any guarantee of a separate proprietary unnecessary. 2dly, The means thus afforded of appropriating to the use of the members assured, the surplus fund arising from time to time, without incurring the expense of such guarantee, or being subjected to any other expense than that of an economical management. 3dly, The equitable distribution of those surplus funds among the individuals composing the Society, at stated periods, by making additions to their policies, according to fixed and definite

rules; and, finally, (an object of no small importance,) the unanimity of all the measures and resolutions of the Directors and General Meetings, which has hitherto prevailed in a remarkable degree, and which may be expected to continue, under the influence of arrangements, by which the interests of every individual who may be connected with the Society, is placed upon so clear, safe, and equitable a footing, as to prevent disputes, and remove any desire to change a constitution so well fitted to promote the benefit of the whole."

On the motion of Dr Adam Hunter, the thanks of the Court were unanimously voted to the Directors for their assiduous and successful administration of the Society's affairs; and he at the same time suggested, for the consideration of the Ordinary Court, how far it might not tend to the still farther extension of the Society's usefulness, to print and circulate occasionally an abstract of the Society's affairs. He proposed this, because he felt convinced that no stronger argument could be stated by the members to their friends, in favour of the Society, than a reference to such a document.

JOHN M'KEAN, *Manager.*

At the first Periodical Investigation, which took place on 31st December 1824, the addition declared from the Surplus Fund amounted to 26 per cent on the sums assured, and a contingent prospective amount of addition, at the rate of 1½ per cent per annum, was also provided for, to meet the case of persons whose decease may take place before the next period of investigation. In this way, the representatives of a person holding an early Policy in this Society (say, for example, for L.500,) entitled to the benefit of these additions, would, in the event of his decease now taking place, receive as under, viz.

Original sum in policy,	L.500	0	0
Twenty-six per cent thereon,	130	0	0
And having made three Annual Payments since the investigation (1825-6-7,) 1½ per cent on the accumulated Sum for each payment,	28	0	0
Making Total amount,	L.658	7	0

And so in proportion for any greater or lesser sum, or for any longer period.

GENUINE FRENCH AND FOREIGN

Wines.

FREDERICK JAMES SCOTT, grandson of the late William Glendonwyn of Glendonwyn, has, with the approbation, and under the direction, of his Tutor, David Ramsay, Esq. W.S. till of age, commenced the Business of a WINE MERCHANT; and from the connexions which he has formed in France, he has the opportunity and the ambition to establish a character for the fine Wines of that country in their genuine state, and at the lowest price for which they can possibly be afforded. The French Wines are all bottled in France, and sent direct to the King's Cellars in Leith, from whence they may be purchased in cases of three dozen each.—Mr CONNELL, No. 88, Prince's Street, is the Agent for the sale of these Wines, and from him they may be purchased either in cases or in single bottles, and all particulars as to price be known.

Any wines not approved, may be returned within a week after being purchased, and the price will be repaid.

AND OTHER EXTERNAL APPLICATIONS,

No. 1, ANTIGUA STREET, HEAD OF LEITH-WALK,

AND

RAMSAY-LODGE,

(*The late residence of the Principal,*)

WHERE rooms unconnected with the house are set apart for that purpose, and where Sea-water, Buxton, Aix-la-Chapelle, Barege, and plain Warm-water Baths, and also Acid, Aromatic, and Opiate Vapour Baths, Vapour of Water, Alcohol, or Ammonia, are administered in various complaints; and an entrance to them from the Prince's Street Gardens, from the Found, or the High Street, and Ramsay Lane; but diseases of the skin are not admitted at Ramsay Lodge for many reasons, and particularly as there are apartments in Antigua street expressly for that purpose, and where, in addition to the above, the Harrowgate-Bath, and Fumigations of Sulphur, Mercury, &c. are used.

Vapour, Sea-water, or plain Warm-water Baths, are sent ready for immediate use to all parts of the Town from both establishments, without any additional charge, except the usual fare for a chair, as they are carried warm by two chairmen.

The above, and other Mineral Waters, may be had in tumblers, or in bottles, every morning, in Antigua street.

To remove any possible ground for unworthy suspicions on the part of any medical man, unfounded as they are, and insinuated, as they have been, from motives too obvious to be repeated, a rule has been laid down, that whenever a patient shall bring directions in writing, as to the sort of Bath required, specifying the temperature and duration—such patient will be seen only by the attendants; and that this may be the more perfectly understood, it is expected, that whenever the advice of the author of this practice in Edinburgh, or his superintendance in its administration, at home or abroad, may be desired, the charge for the Baths, Shampooing, &c. is not to be considered as any remuneration for such advice or such attendance. This remuneration, however, is entirely *ad libitum*; for the law, as it relates to the professions in which he has been educated, forbids any demand being made, and he never has, and never will, make any demand upon any person, high or low.

Having lived upon terms of intimacy with the most eminent of the Faculty, both in England and Scotland, the author must naturally wish to enjoy their good opinion; and he knows himself to be incapable of doing or saying anything, for the purpose of shaking the confidence of the patient of any medical man; but as to courting the patronage of the profession, or refusing to give any information that may be asked of him respecting the practice he has introduced here, it is what he

never will do. The truth is, he has been a much greater patron all his life of medical men, than they ever have been, or ever will be, of him.

A practice which proposes to preserve health, and to be of great and speedy assistance in curing or relieving many distressing diseases, such as Gout, Rheumatism, Palsy, Stiff Joints, Asthma, Bilious, Nervous, and Calculous Affections,—Glandular Complaints, Syphilis, and Diseases of the Skin, by such simple means as Baths, External Applications, Diet, Regimen, or Mineral Waters, is not likely to be in high favour with the Medical Profession in general, however many honourable and illustrious examples there are and always have been to the contrary; but if this Institution, the utility of which has been repeatedly acknowledged by several of the Professors from their respective chairs, had depended for its support upon the Medical Profession, it must have been at an end long ago.

As the Proofs of its utility, reports of cures, and various other publications of the author upon this subject have been long out of print, the following extracts are subjoined:—

“We now find, from the discovery of the late Dr Murray, that, by the erroneous method of former chemists, in evaporating the waters to dryness before the separation of their several solid contents, medical men were very much in the dark as to the medicinal substances that formed the component parts of even the most celebrated mineral waters; and we also find, that, by adopting Dr Murray’s method of analysis, we can produce as nearly as possible, the mineral waters of Bath, Cheltenham, Harrowgate, Buxton, Barege, &c. These, therefore, together with the excellent mineral waters with which the neighbourhood of this place abounds, are ready to be administered either for pumping or for drinking.

“Different diseases require as different sorts of Baths, or other external applications, as they do internal medicines. ‘We should take the greatest care,’ says Dr De Carro, ‘of comparing this remedy (the Medical Bath) with a bathing tub, which one might use according to one’s pleasure.’”—*Appendix to the Author’s “Proposal, &c.” and “Treatise upon the Difference between the Application of Heat by Vapour and by Water, &c.”* p. 5.

“This proposal has for its object the restoration in an improved state, or rather, as it relates to this country, the introduction and establishment, of a mode of treatment which is known to have proved highly serviceable in former times, and in other countries, *as a cure for several diseases.*”

“We certainly feel indebted to him (the author), for his anxiety to urge, by every means in his power, the adoption and extension of a practice which has not hitherto been considered in this country with the attention due to its importance.”—*Edinburgh Monthly Review for June 1820*, p. 689, and 691.

“Mr Scott has traced the origin and importance of these Baths from Hippocrates downwards, and gives numerous extracts from, or rather an analysis of, Dr De Carro’s work, *Sur les Fumigations Sulfureuses*, lately published at Vienna. The Pamphlet contains many judicious and original observations besides, and is deserving of the reader’s attention. The Institution itself is, we conceive, entitled to the grateful patronage of all classes in the Scottish Metropolis.”—*Dr Johnson’s Review for September 1820*, p. 336.

“VAPOUR BATHS IN EDINBURGH.—The application of water, sulphur, mercury, and other medicinal substances, to the human body in a state of vapour, still continues to be

employed at the newly erected Vapour Bath Establishment in this city. We understand that these Baths have been successfully used in some severe cases of catarrh, with symptomatic fever,—in gout, rheumatism, and stiff joints,—in syphilis, and in lepra. They have also been used in some cases of paralysis, where apoplexy was threatened, and were found not to produce that determination of blood to the head which baths of hot water at a lower temperature had done: but, on the contrary, to give immediate relief to the giddiness and painful feelings in the head, and with decided benefit to the weak limbs.

“The vapour of *opium* has also been tried with good effect in a case of great irritability, and without any of the inconveniences which frequently follow when it has been received into the stomach. It is now trying in a case of neuralgia (*tic douloureux*.) The First Number of a work upon the subject, by Mr Scott, has been recently published by Messrs Waugh and Innes: the second is in course of publication, in which cases illustrative of the practice will be given.”—*Edinburgh Medical Journal*, Oct. 1820, p. 612.

“We are glad to observe that so very useful an Institution is patronized in the Northern Metropolis. The Proprietor is evidently taking the surest means of obtaining ultimate and permanent success. The application of the Baths is under the guidance of medical science, and no system of popular delusion appears to enter into the economy of the Institution. We hope the Faculty will strenuously support it.”—*Dr Johnson's Review for June 1826*, p. 216.

“At Mr Scott's Private Establishment, I have seen cutaneous diseases, (*lepra vulgaris*), which had resisted for years every other treatment, yield in a short time to the use of the Vapour Bath. Its action in relaxing stiff joints is also striking. Its immediate effects are, to accelerate the circulation, and to excite profuse sweating. In general, the vapour of water alone is sufficient, but more frequently it is medicated with the vapours of sulphur or mercury.”—*Dr Duncan Junior's Dispensatory*, Published in 1822, p. 46.

“We have had occasion to know various instances of Mr Scott's liberality to the poor; and few, we think, will deny that he has conferred a benefit on medicine, and upon this city, by his reviving, or rather *introducing* into this country, *a new* as well as extended use of the Medicated Vapour Bath.”—*Scotsman*, July 7, 1824.

The following cases, and letters from the author's accomplished and deeply-lamented friend Mr Bryce, from Captain Hamilton, Mr Campbell of Fairfield, &c. are selected from a great number of others, particularly on syphilitic and cutaneous diseases, which are authorised to be shown at the establishment, but not to be printed.

CASE.

“The head groom of the Marquis of Bute had by accident been exposed naked for an hour and a half in the open air of a winter's night, in the Isle of Bute. This caused the most distressing symptoms, and, among others, a convulsive cough, and a rigidity of the muscles of the neck and chest, approaching very nearly to locked-jaw. The man's life was in imminent danger. He came to this Establishment, and in less than ten days he returned perfectly cured.”—*Note Book for 1825*.

The power of the Vapour Bath in dropsical affections, and even in water in the head and chest, is vouched by the late Dr William Hunter, by Dr Kentish, and several continental physicians.

See the Author's letter upon acute hydrocephalus, published in the extra limites of Dr Johnson's Review for July 1825, p. 306.

"Duncan Macallister, a married man, between 20 and 30, came to this Establishment in the beginning of April last, with the total loss of the use of his hands and arms; and such weakness and numbness in his back, and all over him, that he could scarcely walk. His story was, that about 18 weeks before that time, he had been seized with a pain and weakness in his back and limbs; that he had immediately applied for advice, and had been under some of the most eminent medical men in this place, one after another. Finding no relief, he applied to the Old Town Dispensary; and after being a month there, and getting no good, he went into the Infirmary, where he remained for five weeks, and was dismissed incurable. He then put himself into the hands of other very eminent surgeons, and finding no benefit, he came here of his own accord. He had been bled, blistered most severely, galvanized, electrified, and moxified, and had taken some new oil that was then a favourite remedy in the Infirmary, where during the five weeks he was there, he had also had TWO HOT BATHS. A medical gentleman was at the Establishment when this man first called, and the case was shown to this gentleman, and, to his surprise, a speedy cure confidently promised. This was effected in about three weeks, and the man returned to his work."—*Note Book for 1827.*

Now this man was not cured by any single remedy, but by a combination of remedies, external and internal; and if in the appropriate application of remedies that are really efficient the value of a physician does not consist, it is difficult to say in what it does consist. No reflection is intended to be cast upon the medical officers of the Dispensary or the Infirmary, for considering the man incurable. One of the most eminent surgeons of this place, to whom this note was accidentally read, observed, that he had seen this man after he had come out of the Infirmary, and that he really thought him incurable. The remedies by which this man was cured are not in fashion at these Institutions, which is one of the reasons why this place, once so highly and so justly famed, will be soon considered half a century behind the rest of the world in point of medical science.

LETTERS.

"August 20, 1823.

"MY DEAR SIR—Having had a very tolerable night, and finding myself much more free in breathing, with a good share of perspiration, I mean to omit the Vapour Bath another night. My appetite to-day is great; and on the whole, I think I am considerably improved.

"Believe me yours sincerely,

"JAMES BRYCE.

"William Scott, Esq."

GOUT.

"St Bernard's Row, 4th Oct. 1826.

"DEAR SIR,—Previous to my coming to Edinburgh in June 1825, and for many years before, I was dreadfully afflicted with gout in my hands, elbows, knees and feet, and had been repeatedly confined to bed two or three times in the year, and generally for six or seven weeks each time; but I

am happy to say that, since I applied to you, I have found the greatest relief, and am now seldom confined to the house for one day, and have not been to my bed a fortnight for the last twelve months. I would therefore recommend any one, afflicted as I was, to apply to you, and have no doubt of their receiving infinite relief. I am, dear Sir, with best wishes for your prosperity, your much obliged humble servant,

A. HAMILTON.

“ To William Scott, Esq.”

DISEASE OF THE SKIN.

“ Stockbridge, Sept. 25, 1825.

“ SIR,—It may do you some good as well as the public to print this letter. I had been troubled with a dry scaly eruption upon my head and different parts of my body for twenty years, which caused me much uneasiness, and was very disagreeable. In less than a week after applying to you I found myself wonderfully better, my appetite returned, and I had not been with you a month till my skin was quite cured. Many others, I am persuaded, from what I have seen, might be relieved if they were aware of your practice. It is not sufficiently known how much this town is indebted to you. I am, Sir, your obedient servant,

“ HUGH ROY.”

“ To William Scott, Esq.

Medical Baths, No. 1, Antigua Street.”

This patient took no arsenic, now the favourite, but dangerous remedy, for diseases of the skin. No patient, out of the hundreds that have been cured by the author, was ever cured at the expense of the constitution; and though many may be offended at this declaration, he feels it his duty to the public to say what he has said, from the mischief he has seen where this poison has been given for skin complaints; and in the propriety of the rule of never giving it, he has been joined by physicians of the greatest skill, and particularly by the decided opinion of his eminent friend, the late Mr Bryce.

RHEUMATISM.

“ Lieutenant-General Sir Thomas M. Brisbane presents his best compliments to Dr Scott, with the inclosed, and with many thanks for the benefit that he has derived from the valuable assistance he has received from Dr Scott's treatment of Rheumatism, of which he is now nearly cured; but as Sir T. M. Brisbane is obliged to return home, he cannot at present delay for further consultation. He expects soon again to be in Edinburgh, when he will have great pleasure in waiting on Dr Scott.

“ *Barrie's Hotel, Prince's Street, 31st Oct. 1826.*”

“ Nottingham Place, April 3, 1827.

“ SIR—Hearing that you are intending to publish some of the cases that have been cured by your practice, perhaps mine may not be thought unworthy of being among them.

“ I had suffered most cruelly from Rheumatism all over me for several months, and particularly in my back, so that I could not walk upright, and hearing of the speedy cure you had made of Mr Guthrie Wright, and Mr Johnston, one of Lord Abercorn's tenants, I put myself into your hands. The very first Bath appeared to me like a miracle, in giving me the use of my limbs, and enabling me to stand upright, and in less than ten days I was quite cured.

“ I am, Sir, your obedient servant,

“ SAML. WORDSWORTH.

“ To William Scott, Esq. Medical Baths.”

Nervous symptoms of weight and pressure on the top of the Head, from a severe injury on the eye-brow, mistaken for apoplectic symptoms.

“Edinburgh, 71, George Street,
May 30, 1827.

“Mr Campbell begs Mr Scott’s acceptance of the inclosed, with his best thanks, for the great benefit he derived from his *Douche de Vapeur*, as advised and applied by him to a lacerated nerve, which he pronounced to be the cause of all the symptoms which had given considerable inconvenience for a twelvemonth past. Mr C. will, with much pleasure, take charge of any packet for Mr Scott’s friend, the Duc de Luxembourg.

“William Scott, Esq. Medical Baths.”

P. S.—While correcting the press for the above advertisement, the author receives from Dr Balfour, whom he has not had the pleasure of seeing at this Establishment for more than a twelvemonth, his “Heads of Cases of Rheumatism,” &c. In justice to himself, the author takes leave to claim the merit of having been the adviser of calling in the Doctor to the case 72 of the Doctor of Divinity, whose life was in imminent danger, and who was at that time a patient of the author’s, and using the Vapour Bath, as he had done with great benefit the year before. The same observation applies to the case 82 of a Lady of Quality, who, to the author’s knowledge, had been a perfect martyr to Rheumatism for more than 20 years, and whose case he shall always consider as the greatest disgrace to the state of medical science in this country, of all the cases he has seen. This case led to the next (83), that of the noble Lord, and perhaps to others. The author believes that Dr Balfour’s only reason for not having acknowledged this, was an apprehension that he might thereby hurt the author with other medical men; but he can assure the Doctor, that he is quite above any alarm of that kind: on the contrary, he feels proud in knowing that the Doctor has declared, that the author was the first medical man in this town that ever called him in, or did him justice; and whenever he has a case of rheumatism (where the patient is his own, and not likely to be so speedily cured by his own practice), he shall advise the Doctor’s assistance to be called for, as he does that of any other medical man, whose peculiar practice he considers useful to his patient. And however it may seem, that they are in one another’s way, as far as Rheumatism and Affections of the Nerves are concerned, he shall always be ready to do ample justice to the great merit of Dr Balfour, in doing with his own hands what the author is often obliged to make patients themselves or others do, under his directions. There is Rheumatism enough God knows, for them both. Dr B. has cured cases of Rheumatism which had left the author, who, in his turn, has cured cases that had left Dr B.; and the author knows Dr B. to be a man of too much science to pretend, that any one remedy will cure all the varieties of disease, even of the same species, or that he and the author have not seen cases of Rheumatism that have baffled them both.
