THE Publishers of the "GLASGOW POST-OFFICE DIRECTORY," in submitting the present volume for public approval, feel confident that the measure of favour so liberally bestowed on former publications will not be withheld from this. On no former occasion has so much valuable matter been introduced, giving an increase of 44 additional pages of letterpress, as compared with volume 1853-54. In a work of this kind, prepared by Post-Office officials, it is natural that postal information should be ample and prominent. The present volume will show a large increase in this department. For the first time, Lists have been introduced of the Departments of Government, the Scottish Peerage, and Members of the House of Commons for Scotland; and, as promised, the Local Institutions and Societies have been so largely increased, that very few, it is presumed, will be found omitted; but, while the publishers are not insensible to the value accruing to the public by the introduction of the additional Lists above explained, they are fully alive to the more important, and indeed chief features of their work—viz., the correction and necessary extension of the List of Names, and to this object no effort has been spared. The greatest care has been bestowed on the present volume, which, on inspection, will be found to maintain that high character for accuracy hitherto accorded to it. In a work so minute in detail, and as a whole of such magnitude, it is pleasing to reflect how few complaints of errors, inadvertently committed, have been brought under the notice of the publishers; and they take this opportunity of acknowledging the *general* kindness and forbearance exercised towards them on these occasions. The annual increasing size of the volume has been attended with great additional expense; and while the publishers have hitherto resisted the idea of increasing the price, they have been necessitated to resort to this measure, both from the increased price of labour and material, as well as from the extension of the DIRECTORY itself.

The increase of price, however, will be found trifling, and which, it is believed, will be met with no objection from any quarter. The publishers beg to thank the gentlemen connected with the local institutions and societies for their kindness in furnishing the necessary information and correcting the Lists; thus giving to the public a very valuable appendage to the DIRECTORY.

POST OFFICE, GLASGOW,

Foreign Bills of Exchange, or Bills of Exchange, drawn in, but payable out of Great Britain, if drawn singly, and not in set, are subject to the same duty as an Inland Bill of the same amount and tenor.

RECEIPTS.

RECEIPTS for money amounting to £2 or upwards, 1d.

The following provisions as to what shall be deemed a receipt, and the exemptions from receipt duty by 55 Geo. III. c. 184, are still in force.

Any note, memorandum, or writing whatever, given upon the payment of money, whether signed or not, shall be a receipt if it shall import or signify that any sum of money, debt, or demand, or any part thereof amounting to £2 or upwards, has been paid or settled; and like documents given upon payment by bills, drafts, promissory notes, or other securities for money, are also receipts.

Among the exemptions from receipt duty are—

Receipts written on promissory notes, bills, drafts, or orders for the payment of money, duly stamped.

Letters by the general post acknowledging the safe arrival of any bills of exchange, promissory notes, or other securities for money. This will of course include acknowledgment by the general post of post-office orders, and drafts or orders now used instead of letters of credit; but according to the views of the board of Inland Revenue, the letters must not go beyond the acknowledgment of the safe arrival of bill, &c. If bills, &c., are said to be received in payment of a particular account or debt, or the amount placed to the credit of the remitter—if, in short, the appropriation is mentioned, the letters will not be exempted.

Receipts written on any bond, mortgage, or other security, or any conveyance, deed, or instrument whatever, duly stamped, acknowledging the receipt of the consideration money therein expressed, or the receipt of any principal money, interest, or annuity thereby secured.

Note.—Stamps may be impressed or affixed. Where adhesive stamps are affixed, the grantor is required to cancel the stamps by writing his name or initials on them. Penalty for omission, £10. Penalty for removing adhesive stamps, or using them a second time, or doing any fraudulent act to defraud of duty, £20. (16 and 17 Vict. c. 59, § 3, 4, and 5.)

DRAFT or ORDER, after 10th October, 1853, for the payment of any sum of money to the bearer, or to order, on demand, 1d.

And the following instruments shall be deemed and taken to be drafts or orders for the payment of money within the intent and meaning of this act, and of any act or acts relating to the stamp duties on bills of exchange, drafts, or orders, and shall be chargeable accordingly with the stamp duties imposed by this act, or any such act or acts, viz. :—

All documents or writings usually termed letters of credit, or whereby any person to whom any such document or writing is, or is intended to be delivered or sent, shall be entitled, or be intended to be entitled, to have credit with, or in account with, or to draw upon any other person for, or to receive from such other person, any sum of money therein mentioned.

Exemptions from the Duties on Drafts or Orders.—All drafts or orders for the payment of money to the bearer on demand, drawn upon any banker or bankers now by law exempt from stamp duty. All letters of credit, whether in sets or not, sent by persons in the United Kingdom to persons abroad, authorizing drafts on the United Kingdom. (16 and 17 Vict. c. 59.)

Note.—The duty on drafts or orders may be impressed on the paper, or an adhesive stamp may be affixed. Where an adhesive stamp is used, the maker of the draft to cancel the stamp by writing on it his name or initials. Penalty for omission, £10. Penalty for removing adhesive stamps or using them a second time, or doing any act to defraud of duty, £20. (16 and 17 Vict. c. 59, § 3, 4, and 5.)

ALMANAC AND TIDE TABLE,

FROM JUNE, 1854, TILL JUNE, 1855.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean, as in the annexed figure.

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide, A, is produced by the waters receding from the earth, and the tide, D, by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now, the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Céleste*, the mean force of the sun in raising the tides is to the mean force of the moon as 1 to $1\frac{1}{2}$; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently, the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when she is in conjunction with the sun, and at full moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring

Tides take place about two days after full moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and, should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanac* for 1854 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These Tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's Phases are calculated to civil time. The civil day begins at midnight.

TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained, by addition, as here annexed.

The Moon's age is calculated from noon to noon of each day.

EXEMPLIFICATION AND CONSTRUCTION OF THE PRECEDING TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

RULE.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place, from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

Required the time of high water at Peterhead, 9th May, 1855.

Time of high water, evening, 9th May, at Glasgow, 7 h. 25 m.

On 17th May, 1855, the sun's longitude was $55^{\circ} 59'$, and obliquity of the ecliptic $23^{\circ} 28'$. Required the sun's declination.

To log sine of sun's longitude at noon, $55^{\circ} 59'$, 9.918489

Add log sine of obliquity of ecliptic, $23^{\circ} 28'$, 9.600118

Log sine of the sun's declination, $19^{\circ} 16'$, 9.518607

Required the time of sun rising and setting at Glasgow in latitude 55° 52' N. longitude 4° 16' W., on 17th May, 1855.

By a table of semi-diurnal arcs, the approximate time of sun's rising and setting is—

	Rising, 3 h. 56 m.	Setting, 8 h 4 m.
Longitude in time of Glasgow,.....	+ 17	+ 17
	<hr/> 4 13	<hr/> 8 21

The sun's declination reduced to these times is 19° 12' and 19° 21', and the polar distances are 70° 48' and 70° 39'. The horizontal refraction, less the sun's parallax, is 33° 17' — 8 = 33° 9' + 90 = 90° 33', and hence the following computation :—

NOTE.—The latitude of Glasgow is 55° 52' north, the longitude 4° 16' west of Greenwich ; consequently there are 17 minutes of difference of time between the clocks of Greenwich and the clocks at Glasgow, the Greenwich time being earlier. The clocks of the United Kingdom are now generally adjusted to Greenwich time.

POSTAGE STAMPS, &c.

As the system of paying Inland Letters has been done away with, the public must use Postage Stamps.

Stamps may be procured at the General Office, Glassford Street, the Stamp-Office, and the several Receiving-Houses.

The Penny Labels,.....	at 1d. each.
The Twopenny Labels,.....	at 2d. "
The Sixpenny Labels,.....	at 6d. "
The Tenpenny Labels,.....	at 10d. "
The Shilling Labels,.....	at 1s. "
The Penny Envelopes,.....	24 for 2s. 3d., or 2 for 2 $\frac{1}{4}$ d.

When the value of Stamps on a letter is less than the amount of the postage to which it is liable, the Letter will be charged double the amount of such difference on delivery.

Stamps may be used for *Printed Votes* and *Proceedings in Parliament*, and on Foreign, Colonial, and Ship Letters, *outwards*. Letters for *parts abroad* posted with *Stamps of less value than the full amount of Postage*, if addressed to places to which prepayment is not compulsory, will be forwarded, charged with only such amount of Postage as shall be equal to the difference between the value of the Stamps and the proper rate of Postage; but letters addressed to *places abroad*, to which prepayment is compulsory, if posted with Stamps of less value than the full amount of Postage, will be sent to the Dead-Letter Office, to be returned, in all practical cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries.

These Regulations are applicable to Newspapers, in those cases where they are liable to Postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

Redirected Letters are charged an additional postage for each redirection, according to the Prepaid Scale.

Letters to Warm Climates should be sealed with wafers, as wax destroys the letters by melting, causing them to adhere to one another.

No Letter, when once posted, can be given up to any but the person to whom it is addressed, neither is any person allowed to alter the address of a letter after being posted.

Adhesive Stamps should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly

in water, to shake off the water immediately, and to press the label upon the letter with a piece of clean blotting-paper. *When the gum is dull in appearance, it will require rather more time and moisture to make it stick firmly, than when it is glossy.* The purpose of wetting the label *wholly*, is to counteract the tendency it has to curl up from the letter, when one side only is wetted, a tendency caused by the expansion of that side as it imbibes the moisture.

PREPAID RATES OF POSTAGE.

Letters *not exceeding Half an Ounce* in weight, 1d.; *One Ounce*, 2d.; *Two Ounces*, 4d.; *Three Ounces*, 6d., and so on, *two rates* being added for *every ounce*. Inland Letters or Packets put *unpaid* into the letter-boxes, are charged *double* the prepaid rates of postage. Letters having an insufficient amount of stamps affixed, are charged with *double* the amount of the difference between the stamps affixed and the prepaid rates.

LIMITATION OF WEIGHT.

A letter to pass *unpaid* by the post must not exceed *Four Ounces*. In the event of any *unpaid* letter above the weight of four ounces being posted, it will be charged with *double* the *prepaid* rate of postage; if *insufficiently paid*, it will be charged with *double* the amount of the difference between the stamps affixed and the prepaid rates, and *thus charged*, “shall and may be *detained* and *opened*, and, at the *option of the Postmaster-General*, shall be either returned or given up to the *sender* thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination.”—*Treasury Warrant*, 22d October, 1847.

LIMITATION OF SIZE.

A letter to pass by the post, either *paid* or *unpaid*, must not exceed the dimensions of *twenty-four inches* in length, or breadth, or width, or depth. Any letter above these dimensions may, if *fully paid*, be *detained* and *opened*, or forwarded at the *option of the Postmaster-General*. Any letter *unpaid*, or *insufficiently*, will be taxed precisely after the scale of charge mentioned in the preceding paragraph, as applicable to *unpaid* letters exceeding four ounces weight, and *thus charged*, be either *detained* and *opened*, and returned to the *sender*, or forwarded, at the *option of the Postmaster-General*. The only *exception* to the foregoing regulations as to size and weight are in the case of,—1. Parliamentary proceedings or addresses to Her Majesty. 2. Petitions to either Houses of Parliament, forwarded to any Member of such House. 3. Printed votes or proceedings of Parliament. 4. Letters or packets to or from public departments or public offices in Her Majesty's service. 5. Letters, &c., to or from places abroad.

All persons sending letters by the post *unpaid*, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a Magistrate.

PRINTED VOTES AND PROCEEDINGS IN PARLIAMENT.—Printed votes and proceedings in Parliament are charged at the following rate, between places in the United Kingdom:—

Not exceeding 4 ounces,	1d.
Exceeding 4 ounces, and not exceeding 8 ounces,	2d.
Exceeding 8 ounces, and not exceeding 12 ounces,	3d.
And so on in proportion. Prepayment optional.	

And between the United Kingdom and the Colonies by Packet at the same rates, except the following Colonies, viz., Prince Edward Island, Bermuda, British West Indies (Barbadoes and Turks' Island excepted), British Guiana, Surinam, Cayenne, Bahamas, Belize, Honduras, Guatemala, Malta, Gibraltar, which are charged 6d. under half a lb., 1s. under one lb., &c.—*For Regulations, see Foreign Book Post.*

SERVICE OF PARLIAMENTARY NOTICES.—These notices may be sent through the Post, provided they are posted on or before the 12th December, at the chief offices

of London, Dublin, and Edinburgh, or any of the following offices:—Birmingham, Bristol, Exeter, Lincoln, Liverpool, Leeds, Manchester, Newcastle-upon-Tyne, Norwich, Shrewsbury, Glasgow, Aberdeen, Inverness, Belfast, Cork, and Athlone. The words, "Parliamentary Notice," must be legibly printed on the face of the letter, the postage must be prepaid by means of Stamps, and a Registration Fee of 6d. at the time of posting, which may be known by applying to the above offices. Duplicate Lists of the Addresses must be sent with the notices, which must be arranged in the same order as entered on the Lists.

NON-COMMISSIONED OFFICERS, SEAMEN, AND SOLDIERS IN HER MAJESTY'S SERVICE ABROAD.

Letters to seamen and soldiers may be forwarded by post at the rate of one penny each, under the following regulations:—

- 1st, The penny must be paid at the time the letter is put into the Post-Office.
- 2d, The direction must signify the class of seaman or soldier.
- 3d, The name of the ship, regiment, or corps, to which he belongs.
- 4th, The letter must not exceed half an ounce, and be upon their private concerns only.

Letters for seamen and soldiers, whether in her Majesty's or the East India Company's military or naval service (while on actual service), may be forwarded under the foregoing regulations, to India, China, &c., *via* Southampton. They can now be sent to India, *via* Marseilles, on payment of the British rate of 1d., besides the French rate of 5d., if under a quarter of an ounce, or 10d. exceeding that weight, or to any foreign country, on payment of the foreign rate of postage in addition to the British rate of 1d. as above.

Letters for seamen and soldiers forwarded by private ships (with the following exceptions:—St. Helena, East Indies, New South Wales, Cape of Good Hope, and Mauritius) are charged 3d. each.

Letters of soldiers and seamen, addressed to the United States of America, will in future be chargeable with the American rate of five cents, or twopence-halfpenny sterling each, in addition to the ordinary British rate of one penny; the postage of all such letters must be prepaid.

Warrant officers, either in the army and navy, or masters' mates, or engineers of the navy, are not entitled to transmit letters at less than the usual rates of postage.

Seamen's or soldiers' letters received from any part beyond sea, upon which the said penny has not been prepaid, shall be charged to the receiver with double the rate—viz., 2d. each.

REDIRECTED LETTERS FOR OFFICERS, SOLDIERS, AND SEAMEN.

Letters redirected to commissioned officers in the army or navy, subject to foreign or colonial postage, may be forwarded to such officers when removed upon service (whether at home or abroad), and be delivered to them for the same amount of postage that would have been chargeable had they been delivered at their original address. In all other cases, they are subject to the same regulation as ordinary redirected letters. Soldiers' and seamen's letters are not liable to any additional rate upon redirection.

INLAND BOOK POST.

Printed Books, Magazines, Reviews, Pamphlets, whether British, Colonial, or Foreign; Maps, Prints, Paper, Vellum, Parchment, &c., may be transmitted by Post, within the United Kingdom, at the following rates:—

For each Packet not exceeding 1 lb., 6d.; exceeding 1 lb., and not exceeding 2 lbs., 1s.; exceeding 2 lbs. and not exceeding 3 lbs., 1s. 6d., and so on. Provided, however, the following conditions be carefully observed:—1st. Every such Packet must be sent without a cover, or in a cover open at the ends or sides. 2d. It must not contain any letter, sealed or open, nor any sealed enclosure whatever. 3d. It must not exceed two feet in length. 4th. The Postage must be prepaid in full, by affixing outside the Packet or its cover the proper amount of Stamps.

A Book Packet may contain any number of separate Books, Maps, or Prints, and any quantity of Paper, Vellum, or Parchment; and the Books, Maps, Paper, &c., may be either Printed, Written, or Plain, or any mixture of the three. Further, all legitimate Binding, Mounting, or Covering of the same, or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached; as also Rollers, in the case of Prints, Markers (whether of paper or otherwise) in the case of Books; and in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto.

FOREIGN BOOK POST.

Printed Books, Magazines, Reviews, and Pamphlets (whether British, Colonial, or Foreign), may be sent to British West Indies, Gibraltar, by packets *via* Plymouth; East Indies, Ceylon, Hong Kong, Mauritius, Malta, *via* Southampton; Bermuda, Canada, *via* Halifax; Newfoundland, Nova Scotia, New Brunswick, Prince Edward's Island, *via* Halifax; St. Helena, by Packet; New South Wales, by Packet; New Zealand, by Packet or Private Ship; Monte Video, by Packet, at the following rates:—

For each Packet not exceeding $\frac{1}{2}$ lb., 6d.; exceeding $\frac{1}{2}$ lb. and not exceeding 1 lb., 1s.; 1s. being charged for every lb. or fraction of a lb. Provided, however, that the following conditions be observed:—1st. Every such Packet must be sent without a cover, or in a cover open at the sides or ends. 2d. It must contain a single Volume only (whether printed Book, Magazine, Review, or Pamphlet). 3d. It must not exceed two feet in length, breadth, or depth. 4th. It must have no writing or marks upon the cover or its contents, except the name and address of the person to whom it may be sent. 5th. The Postage must be prepaid in full, by affixing outside the Packet or its cover the proper amount of Stamps.

Periodicals, unstamped, and not of daily publication, and Pamphlets, if under 16 oz. in weight, and printed in the language of the country from which they are sent, and containing only a single number of any periodical work, or a single Pamphlet in one cover, may be forwarded to, or received from, the United States, France, Prussia, *via* Belgium; Holland, Belgium, Denmark, and Hamburg; Bremen, Lubec, and Oldenburg, *via* Hamburg, at the following rates, which must be prepaid when sent from this country:—Not exceeding 2 oz., 1d.; above 2 and under 3 oz., 6d.; above 3 and under 4 oz., 8d., &c., 2d. being added for every additional oz. Pamphlets, (not being Periodicals,) when sent to the United States, must not exceed 8 oz.

The following Instructions have been addressed to all Postmasters, and are strictly acted upon:—

“GENERAL POST-OFFICE.—On and after 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, or *which you have every reason to believe* contains, any of the following articles, viz.:—Any Glass or Glass Bottle; any Razor, Scissors, Knife, Fork, or other Sharp or Pointed Instrument; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance; any Bladder or other Vessel containing Liquid; or any article, matter, or thing whatsoever, which might, by pressure or otherwise, be rendered injurious either to the Officers of the Post-Office, or to the contents of the Mail Bags; *you will refuse to receive such Letter or Packet.*

“In the event of any Letter or Packet being taken in by you, and you do not, until afterwards, discover that it contains any article as above described, or should any such Letter or Packet be deposited in the Letter Box, *you will not forward it on its destination, but you will detain it in your Office*, and inform me by the first Post of the circumstances, stating the precise address of the Letter or Packet, and its contents, or what you suppose them to be, when proper steps will be taken in this Department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

“Should any Letter or Packet, containing any article as before-mentioned, not be discovered by the Postmaster at whose office it may be posted, but be forwarded on to its destination, the Receiving Postmaster, to whose town it may be addressed, upon discovering, or having every reason to believe, that its contents are such as those alluded to, *will not send it out for delivery, but will detain it in his office*, reporting the circumstance by the first Post, and stating the nature of its contents, when he will be duly instructed in what manner to dispose of it.”

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

All newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers or covers, after the same shall have been published, other than the name and address of the person to whom they are sent; nor anything enclosed or concealed in either newspaper or cover. Newsvenders *only* may *print* their names and addresses thereon. Newspapers may be examined by the Officers of the Post-office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage to which a letter of the same weight would have been liable. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanour.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.

“And be it farther enacted, that in all cases in which a question shall arise, whether a printed paper is entitled to the privileges of a Newspaper or other publication, hereby privileged, so far as respects the transmission thereof by the Post, under the Post-Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final.

MARKS OR WRITING ON NEWSPAPERS.

Writing or marks are allowed on a *Newspaper* passing by Post between *any one part of the United Kingdom, and any other part*, provided that a postage of one penny be paid, by means of a stamp conspicuously fixed outside the cover or folded Newspaper. But the privilege is confined to writing or marks on the *Newspaper itself*, and is not to extend to the cover. Any writing or marks other than the address on which, or (if the postage be not prepaid as above) on the Newspaper itself, will subject the Newspaper to the same rate of Postage as that to which an unpaid letter of the same weight is liable.

Newspapers Posted in Town addressed to any part within the town delivery, charged, paid or unpaid, 1d.

Newspapers printed or published in any of the Channel Islands, or in the Isle of Man, and sent by the Post between any of such Islands and Great Britain or Ireland, or sent by the Post in Great Britain or Ireland, will be liable to the full letter rates of Postage, according to the scale for charging inland letters, with the exception of such as are printed in the *French Language*.

NEWSPAPERS FROM THE BRITISH COLONIES

are delivered free of Postage at any place within the British dominions. Those for persons who have removed may be forwarded by Post, free of charge, provided they have not been opened at the place to which they were originally addressed.

THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions, by her Majesty's packet-boats, free of the duty of postage, provided the same be duly stamped, made up open at the ends, and put into any Post-Office *within seven days* after the day of publication.

Newspapers may also be forwarded to the Colonies, by private ships, for a postage of One Penny each, and to Foreign Countries for a postage of Twopence each, to be paid when posted, *under the same regulations as to date, &c.*

For days of despatch and Rates of Postage, see the Alphabetical List of Foreign Countries.

NEWSPAPERS FROM ABROAD.

Newspapers arriving from British Colonies or “Foreign Parts,” to which they are despatched free, are delivered free of postage. From places abroad to which they are *not* despatched free, they are charged on delivery, *Twopence* each; excepting those brought by the closed mail through France, which are charged *Threepence*, or *Five-pence* each. *All newspapers must be printed in the language of the country from which they are sent.*

Printed PRICES CURRENT, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the Colonies and Foreign parts at One Penny each, provided they contain simply the names and prices of articles; the names and

addresses of the parties dealing in such articles must be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written or printed immediately above the address; and any other writing than such address, name, initial, or mark for reference of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of postage.

Every Price Current to be posted within *seven* days after each publication; and no one can be forwarded a *second* time without being charged with full letter postage.

All other PRICES CURRENT and COMMERCIAL LISTS, published in the United Kingdom, *if duly stamped, and under the weight of two ounces*, will be treated as Newspapers, and enjoy the Newspaper privileges, *the sanction of the Postmaster-General having been previously obtained*.

Printed PRICES CURRENT and COMMERCIAL LISTS, from the British Colonies, France, Belgium, and Holland, are now admitted into the United Kingdom at the reduced rate of 1d. each, whether conveyed by Packet or by Private Ship.

Printed PRICES CURRENT and COMMERCIAL LISTS, from any foreign country, except France, Belgium, Holland, Prussia, and China, are admitted into the United Kingdom at the reduced rate of 2d. each.

PRICES CURRENT and COMMERCIAL LISTS, *from the British Colonies, passing through the United Kingdom*, are liable to a Postage of 2d. each, to be paid at the time of being posted.

PRICES CURRENT and COMMERCIAL LISTS, from the British Colonies, passing through France, Belgium, or Holland, to the United Kingdom are liable to a Postage of 2d. each.

Printed PRICES CURRENT and COMMERCIAL LISTS, to China, *via* Southampton, 2d. each; *via* Marseilles, 3d. each. From China, *via* Southampton, 3d. each; *via* Marseilles, 5d. each.

REGISTRATION.

Letters, whether containing Coin or not, can be registered on payment of a fee of 6d., *in addition to the rates of Postage*, Inland, Colonial, or Foreign. On those for delivery in France, the charges, besides the Registration Fee, will be the English rate to France, in addition to double the French rate. On those to Prussia, or passing through Prussia, the Prussian Registration fee of 3d. must be paid, in addition to the British. On those to Russia and Poland, *via* Belgium, an additional rate of 3½d. under ½ oz., 7d. under 1 oz., &c. Thus, for a letter not exceeding ½ oz., the charge will be ordinary postage, 11½d.; additional postage, 3½d.; British Registration fee, 6d.; Prussian do., 3d.; total, 2s. A printed acknowledgment will be given to any person registering a letter. Registered letters will be taken *at the Bar Window and the Receiving-Houses within half an hour of the closing of the Box for the particular Mail* by which they are to be despatched. Letters for Registration addressed to places *within the United Kingdom*, must be paid by affixing a sufficient number of Stamps, and the Registration fee must be paid in Stamps; when addressed to *parts abroad*, they may be paid either in money, or by means of Postage Stamps.

In case of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the port of shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post-Office undertaking to provide for their security till they shall have been delivered, *if addressed to France*, and as long as they remain in the French territory, *if passing through France*.

The arrangements for carrying out the system of registration have been made with the view of insuring the safe delivery of Registered Letters. On their delivery the parties to whom they may have been addressed will be required to acknowledge, in writing, their receipt. *Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, &c., should invariably secure their transmission by Registration*; and persons having occasion to send by Post *small sums*, are recommended to make use of

THE MONEY ORDER OFFICE,

which is open *every week-day*, fast-days excepted, from 9 a.m. till 5 p.m. The charge for such Orders is 3d. on sums not exceeding *two pounds*, and 6d. on sums between *two and five pounds*. No order will be given for sums beyond this amount; but if

the sum to be transmitted exceeds *five pounds*, as many orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an order is payable is inconvenient, if the order is receipted (his or her name written in full) and the person presenting the order be able to give full information as to the Christian name, surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person, unless the Christian name of such person can be given by the party obtaining the order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. In cases of *Firms* the initials only are required.

A Money Order must be presented for payment before the end of the Second Calendar Month after that in which it was issued (for instance, if issued in January, it must be presented before the end of March), otherwise a new order will be necessary, for which a Second Commission must be paid; and if it be not presented for payment before the end of the Twelfth Calendar Month after which it was issued, the money will not be paid at all.

After an order has been once paid, by whomsoever presented, the office will not be liable to any further claim.

The Towns upon which Money Orders can be drawn are marked in the lists.

COLONIAL AND FOREIGN MAILS.

A single rate of Postage is given for each country.—See also Alphabetical List, page 48.

There being no bags despatched for London on Saturday, when any of the dates for the London, Southampton, or Dover Packets fall upon that day, reference must be made to the Alphabetical List for information whether the Letters should be posted on the previous Friday, or on the ensuing Sunday.

Letters for Foreign Countries, the prepayment of which is required, when put into the unpaid box, or left at the office with less than the full postage, are sent to the Dead Letter Office, and returned to the writer, when his address can be ascertained.

MAILS BY PRIVATE SHIPS.

SHIP LETTERS.—The single rate to places beyond sea, when conveyed by private ship, is 8d. under half an ounce; 1s. 4d. under an ounce; 2s. 8d. under two ounces; and so on.

Letters for any Foreign Port or Country, to which there are Regular Packets, will not be forwarded by Merchant Vessels, unless so directed.

Owners, Consignees, or Charterers (resident in the United Kingdom), and the Owners, Consignees, and Shippers of Goods on board vessels inward-bound, are entitled to receive their letters free from sea postage, to the extent of six ounces. In case of vessels from Ceylon, Mauritius, the East Indies, and the Cape of Good Hope, the privilege extends to twenty ounces in weight. The Owner, Charterer, or Consignee, must be described as such in the address; and in case of Owners, Shippers, or Consignees of Goods, it must appear by the ship's manifest that they have goods on board.

A penalty of Ten Pounds is incurred by parties *falsely* superscribing a letter as Owner, Shipper, Charterer, or Consignee.

ALPHABETICAL LIST OF FOREIGN COUNTRIES,

WITH THE TIME OF DESPATCH FROM GLASGOW, RATES OF POSTAGE, AND ROUTES OF MAILS.

FOREIGN CITIES AND PRINCIPAL PLACES

TO WHICH MAILS ARE DESPATCHED.

On reference to the kingdom or country in the preceding list, commencing at page 48, full information with reference to the despatch of *Letters* will be found. For instance, "Aalborg, Denmark," under the head "DENMARK," are the various modes of despatch, the postage by each route, and instructions as to the manner in which letters should be addressed. As all the places in France have a uniform rate of postage when paid in this country, it has not been thought necessary to include many of the French Post towns.

For the recovery of Debts not exceeding £12, sits every Monday and Thursday at 10 o'clock forenoon for Glasgow, and on Tuesdays and Fridays for Lanark, Hamilton, and Airdrie, at 11 o'clock, forenoon, and have jurisdiction over the whole of Lanarkshire. The Defendants are cited before this Court on an *inducia* of six days: warrants to arrest on the dependence are issued: the decree may be extracted, and arrestments used upon it instantly; and it may be enforced, in all

cases, by poiding, sale, and imprisonment, when above £8 6s. 8d. of the debtor's effects, ten free days after its date. In case of the debtor removing to a different county, the decree may be enforced against him there, on being endorsed by the Sheriff-Clerk of the county to which he removes. Judges—Sheriff and Sheriff-Substitutes of the County.

Note.—The Act authorising Imprisonment for Small Debts expired in 1840 for sums under £8 6s. 8d., excepting claims of aliment.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and before the Sheriff Courts, to the extent of £12.

The first step is set forth in a complaint or libel, agreeably to a prescribed form, (the Clerks of Court will provide the necessary forms,) the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law, without special leave of the Court on cause shown.

If the defender fail to appear after being cited, he will be held as confessed, and judgment will be given against him.

But when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decreed for in cases before Justices, and in cases before Sheriff by consigning 10s. of expenses on applying within 3 months from date of charge.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing, on consigning 2s. 6d., if the case be before the Justices; and the expense decreed for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender, diligence may proceed against him by arrestment instantly; and by poiding, sale, and imprisonment, if above £8 6s. 8d. at the end of ten days, before the Sheriff;

and poiding and sale instantly, before the Justices.

If decree be given against the defender in his absence, poiding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitur, or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the

Sheriff, for making effectual arrestments; but in such actions, both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or, if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable, by a reduction before the Court of Session, on the ground of malice and oppression on the part of the Justices, and such reduction will only be competent for one year, and finding caution for costs.

No person is exempt from the jurisdiction of Justices or Sheriffs, in such cases, by reason of privilege as a member of the College of Justice.

GLASGOW RELIGIOUS FRIENDLY.

This Society was instituted 1st October, 1827, on the principles laid down in the Highland Society's Report, and the Reports of the House of Commons, with an addition of 10 per cent. upon their tables; but having found this insufficient to sustain the Society, it was agreed on 1st July, 1846, that a reduction of the sick allowance should be made after nine months' continued aliment, with a further increase of 10 per cent. upon contribution tables. It has two departments, viz., 1st, The sick allowance, with a stated superannuation allowance, from the age of 65 to the end

of life. 2d, Allowance at death; to any of which the members pay in proportion to their ages and the benefits required; and females are admissible to the latter department, the two being kept perfectly distinct.

GENERAL REGULATIONS.

1. The Board is, in all cases, payable quarterly, and in advance.

2. The regular quarterly terms are — 1st January, 1st April, 1st July, and 1st October. In regard to patients at and above the rate of 15s. per week, no part of the first quarter's board shall be returned, except in the event of the patient dying before the expiry of that period, in which case it shall be in the power of the weekly committee to allow the return of such proportion of the board as, under all the circumstances, they shall consider reasonable.

3. Patients have no claim for remuneration for their labour.

4. Every patient must be provided with proper apparel. An accurate list of every article brought with the patient must, on admission, be delivered to the Steward, or Principal Attendant, to the Superintendent of the Ladies, or the Matron, according to the House in which the Patient is placed, and the name must be fully marked on each article. If any necessary part of dress should not be duly supplied, after eight days' intimation has been given that it is wanted, it will be furnished by the House, and the cost of it charged against the patient.

On applying to the Physician, the patient will be carefully and expeditiously conveyed to the Asylum, the necessary expenses being paid to the Steward by the applicant.

Patients in the West House may be visited every *lawful* day between 10 and

12 o'clock; those in the East House, who are not paupers, on Mondays, between the same hours; and patients who are paupers, on Saturdays, also from 10 till 12 o'clock. Only those who are duly authorised can be admitted to visit patients.

The object of this institution is to afford assistance to natives, and widows and families of natives, of the city of Glasgow, who, from reverses of fortune or otherwise, have been reduced to necessitous circumstances: though not such casual or trivial relief as is properly obtained from the funds destined by law for the support of the poor, but rather such more ample and efficient assistance, as may tend to secure comparative ease and independence to the parties on whom it is bestowed. It is composed of parties born within the Royalty or Parliamentary limits of the Burgh, though donations are received and invited from those who, though not natives, have been identified, by long residence or commercial connections, with the interests and prosperity of the city, and who, though not members, are enrolled in a separate class, titled donors. Legacies and bequests will also be received and are invited from the opulent and generous, either at home or abroad, who approve of its object. A payment of £5. 5s., either in one sum at entry or by five successive yearly instalments of £1. 1s., constitutes membership. Members, and widows and families of members, are entitled to a preference in the distribution of the funds.

GLASGOW SEAMAN'S FRIEND.

MITCHELL'S MORTIFICATION.

Gilbert Kennedy, 227 Brandon Place, Patron.

This charitable fund was bequeathed by William Mitchell, a native of Glasgow, who died in London, 1729. The patronage is vested in the lineal descendants of the donor, male and female; and failing either, in the Magistrates of Glasgow. The annual accumulation from the mortification, amounting to above £100, is disbursed in sums not exceeding £10, to decayed burgesses and Guild brothers, their widows, and unmarried females whose fathers were merchants and Guild brothers.

BUCHANAN.

James Buchanan, Woodlands, merchant, Glasgow, Preses; William Buchanan, 95 Candleriggs Street, Treasurer; Andrew Buchanan Yuille of Darleith, 83 George Place, Secretary. STIRLING'S PUBLIC LIBRARY, 48 Miller Street.

Founded in 1791 by the late Walter Stirling, merchant in Glasgow, who bequeathed his own collection of books, and certain other property, to found and endow a Public Library, to be open, free of charge, to the inhabitants of Glasgow.

On the first institution of this Library, life subscribers only were admitted to the privilege of taking out any of the books; but in the year 1848, the Directors, with a view of making the Library more generally useful, agreed to admit also annual subscribers, who enjoy the same advantages as the life subscribers.

The library of Mr. Stirling, which formed the nucleus of this collection, consisted of from 600 to 700 volumes, and, besides the books purchased by the directors, the Library has received many valuable additions from various donors, among whom may be particularly mentioned the late William Jamieson, jun., and James Bogle, Esquires.—The number of volumes in the Library is now about 13,000.

The Library is open daily from 10 to 4, and 7 to 9, excepting Saturdays, when it is closed at 12.

Life Subscription, £5. 5s. Annual Subscription, 15s. the first year, and 10s. 6d. yearly afterwards.

In order to prevent, as much as possible, chimneys taking fire, the magistrates recommend to the inhabitants to get their chimneys swept every six weeks, and not to employ or admit to their houses, or to the roof thereof, any chimney-sweeper not having a badge, or who refuses to produce the same when demanded. The magistrates also recommend to the inhabitants to keep the hatchway, or other access to the roof of their houses, properly secured; and not to intrust the key to any chimney-sweeper who has not a badge, in order to prevent theft and destruction to property.

BILLETING SOLDIERS.

Soldiers on the recruiting service, &c., are billeted on the houses of the inhabitants, in regular rotation, with the following exceptions, viz., Parish-ministers and School-masters, Faculty of Physicians and Surgeons, Faculty of Procurators, Widows, and Unmarried Ladies not in business, and who do not keep Lodgers, and Paupers.

Occupiers of houses at £3 and under £5 yearly rent, two men for any number of days under a week; at £5 and upwards, two men for two weeks, or the remainder of the month, which may happen to be seventeen days.

Any person refusing the billet is subject to a penalty of Five Pounds.

When inconvenient to furnish the soldier with a bed, it is customary to pay a private 3d. for each night, and a sergeant, 4d.

On the 4th, 5th, and 6th of the month, after the billet has expired, a penny for each day for each man will be repaid, by presenting it to the Quarter-Master, 5 Great Hamilton Street. Attendance from 11 till 2 o'clock.

LIFE INSURANCE.

THE DIRECTORS of this COMPANY have been able, at each of three successive Divisions of Profits, after discharging all claims and expenses of every description, to make a vested Bonus Addition to every existing Policy on the Profit Scheme, exceeding, in some cases, 64 per cent. of the premiums paid.

At the last allocation, after providing for the Bonus, a large sum was carried over to increase the Fund for future division.

The following Table exhibits the Additions already made to some of the Policies, as at 15th May, 1853:—

Date of Policy.	Original Sum Assured.	Bonus Added.
June 2, 1843,	£4999 19 0	£500 0 0
Nov. 30, "	2999 19 0	300 0 0
April 12, 1844,	499 19 0	50 0 0
May 19, 1848,	4999 19 0	300 0 0

It will be kept in view that, while the Bonuses have been so considerable, the Company's Premiums are generally lower than those of most other Offices.

The PROFITS are Divided ANNUALLY, and every Policy on the Participating Scheme shares in each Division.

NO CHARGE is made for the *Policy Stamp*, *Entrance Money*, or any other payment but the Premium.

Persons Assuring their Lives obtain relief from Income Tax on that portion of their incomes which they devote to this purpose.

FIRE INSURANCE.

Policies may be transferred to this Company without expense.

This Company insures all the ordinary classes of Buildings and Goods, and also First-Class Warehouses, Power-Loom Factories, Woollen Mills, &c.

Losses are promptly and liberally settled.

LIFE DEPARTMENT.

PARTICIPATING SCHEME.—TWO-THIRDS OF THE PROFITS, WITHOUT ANY DEDUCTION FOR CHARGES OF MANAGEMENT, ARE DIVIDED QUINQUENNIALY AMONG THE ASSURED.

The following Table shows the Additions made to Policies of £1,000, which have been in existence Seventeen complete years, from 1st August, 1834:—

Age when Assured.	Additions.			Total Sum Payable in case of Death.		
30	£250	1	6	£1250	1	6
35	254	2	6	1254	2	6
40	259	6	11	1259	6	11
45	267	11	10	1267	11	10
50	281	12	7	1281	12	7

Thus averaging upwards of one and a half per cent. per annum, on Policies which have been in existence from the commencement of the Profit Scheme in 1834, a period of Seventeen years.

The Bonus may be applied, at the option of the Assured, in any of the following ways.—

- I. *It may be added to the Sum Assured; or*
- II. *Applied in Reduction of future Premiums; or*
- III. *Surrendered for its present value in Cash.*

NO ENTRY-MONEY IS CHARGED.

CLAIMS ARE PAID WITHIN THREE MONTHS after satisfactory evidence is produced to the Directors of the death of the party insured.

LIBERAL SUMS are allowed for the SURRENDER OF POLICIES after THREE PREMIUMS have been paid.

PARTIES are allowed to pass and repass, in time of peace, from one part of Europe to another, by sea or land, without payment of additional Premium, or the Policy being subject to forfeiture.

LIFE POLICY STAMPS paid by the Company.

NO EXTRA PREMIUM charged for residence in Anstralia, New Zealand, Canada, or the United States of America north of the 38° of north latitude.

FIRE DEPARTMENT.

MITRE GENERAL LIFE ASSURANCE ASSOCIATION,

23 PALL MALL, LONDON.

ESTABLISHED IN 1845.....CAPITAL, £100,000.

THIS Association does not exclusively hold out to Assurers the prospect of Bonuses, and in many instances it will be found that the low Premiums required in the Non-participating Department will prove a more certain, as well as a more immediate advantage.

The sum usually charged at the age of 21 to assure £1,000 in such offices as restrict themselves to the principle of granting Bonuses at stated intervals, will, in the MITRE, assure nearly £1,400. Here is an immediate Bonus of what generally requires more than twenty years to attain; and the importance of this point, as far as regards economy, where collateral security is required in cases of Loans and Mortgages, is sufficiently obvious.

From 1849 to 1853.....	3,607	34,000	0	0	80,000	0	0

The system adopted by this Institution gives to the Assured every advantage Life Assurance is capable of affording; and the success with which it has been attended, arising from its extended connection and the safe and liberal principles on which it is founded, is sufficiently proved by the fact, that nearly *Nine Thousand Policies* have been issued, assuring sums amounting to almost Two Millions sterling.

Policies issued for the year ending 20th November, 1853, have been *One Thousand Three Hundred and Fifteen*.

No Entrance Fee, or charge for Policy Stamp.

ADVANTAGES OF THIS OFFICE.

1. Entire profits belong to the Assured.
2. No lawsuits—disputes, if any, settled by arbitration.
3. Any sum may be assured, from £25 to £5000, payable to the Member himself on attaining any fixed age, or at once to his representatives, in case of earlier death.
4. Arrears may be paid up at any time, within twelve months, upon production of certificate of health.
5. Policies indisputable, except for palpable fraud.
6. This Society is formed entirely on the Mutual Principle, and possessing advantages resulting from being enrolled under the provisions of the Acts of Parliament relating to Friendly Societies, whereby the sums assured to the Widow, Widower, or Children of deceased Members, are payable to them free from Legacy or Probate Duty—a privilege which the Directors, by considerable effort, were the means of securing.
7. By a Clause in the New Act relating to Friendly Societies, the Board is empowered to advance Loans to Members on the security of their Policies, of Five Years' standing and upwards. The mode of procedure in such cases is easy and simple, entailing no trouble or legal expense, and many Members have already availed themselves of the privilege.
8. A lower rate of mortality than in any other office in Great Britain.
9. Liberty to travel or reside in any part of Europe, in Canada, and in the northern part of the United States, without extra charges.

N.B.—The Temperance and Public Sections are kept in separate classes, and will each receive their own profits.

LIFE DEPARTMENT.

THE Public are reminded of the advantages which this Company offers to Assurers, some of which are subjoined:—

FIRST, Undoubted Security from a large accumulated fund from Premiums, besides the Subscribed Capital.

SECOND, The Premiums under the Non-Participating Table enable a party aged 30 to open a Policy for £1,244 9s. 9d. payable at death, for the same premium that the Mutual Societies insure £1000, thus giving an immediate Bonus of £244 9s. 9d.

- THIRD,** The Participating Premiums give the Assured a right to participate in the Profits to the extent of about 84 per cent.
- FOURTH,** No Charge is made for the Policy Stamps.
- FIFTH,** Parties insuring with this Company can deduct the Annual Premiums on their own and their Wives' Lives, from the Assessment made upon them for the Income Tax.
- SIXTH,** No extra Premium is charged for residence in Australia, Van Diemen's Land, Cape of Good Hope, or America, north of 38 degrees North latitude.
- SEVENTH,** Parties, on application, in terms of printed Forms to be had at the Office, may have their Policies declared indisputable after the lapse of five years from their date.
- EIGHTH,** Liberty granted to the Assured, after five years from the date of their Policies, on application, in terms of the above, to reside beyond the limits of Europe without extra charge.
- NINTH,** No Entry-Money.

The business done by the Company during each of the two past years nearly doubles the number of the Policies issued in the preceding year, and clearly shows that the public appreciates the benefits which this Old-Established Institution confers on those opening Policies with it.

THE FIFTEENTH ANNUAL GENERAL MEETING OF THE CITY OF GLASGOW LIFE ASSURANCE AND REVERSIONARY COMPANY, was held in the Company's Office in Glasgow, upon 28th MARCH, 1854. It appeared from the Report by the Directors, that

<i>The new Assurances for the past Year amounted to.....</i>	£258,000
<i>The Premiums thereon exceeded.....</i>	6,600
<i>The Annual Revenue from Premiums alone is.....</i>	43,600
<i>The Sums Assured amount to.....</i>	1,403,000

A BONUS ADDITION FOR THE PAST YEAR OF ONE AND A HALF PER CENT. was declared on all Sums Assured by Policies opened on the participation principle, in ADDITION TO PREVIOUS BONUSES.

DISTINCTIVE ADVANTAGES.

- I.—AN ANNUAL BONUS to the Assured, by which Plan, each Policy-Holder receives his share of Profits the very first Year he enters.
- II.—PRIVILEGE FROM ENTRY, to all except seafaring persons, to pass by sea from one part of the World to another without extra Premium.
- III.—PRIVILEGE FROM ENTRY, on intimation being made to the Directors, to reside abroad without extra Premium, as under:—NORTH AMERICA, (including the British Possessions and United States East of 100° of West Longitude, excepting as regards the more southern States during the period between 1st July and 1st November.)—MADEIRA.—AUSTRALIA.—NEW ZEALAND.—VAN DIEMEN'S LAND.—CAPE OF GOOD HOPE, PORT NATAL.—BUENOS AYRES.—ALL PLACES from Buenos Ayres Southward to Cape Horn, and from thence as far North as Adrica on the West coast of South America.
- IV.—MODERATE RATES for other places abroad not specified above.
- V.—PRIVILEGE AFTER FIVE YEARS to reside in any quarter of the World without extra Premium, on certain conditions explained in the Company's Pamphlet.
- VI.—When a Policy falls by non-payment of the Premium from oversight or other cause, no advantage is taken thereof to deprive the Holder of the Policy of its full surrender value, and special notice is given that the same will be paid on application within Three Months. Thus, no one Assured with this Company can suffer pecuniary loss by what is usually termed "FORFEITURE."

BRITISH AND FOREIGN INSURANCE.**P**ERSONS effecting Assurances with the Company, enjoy the following important advantages:—**PERFECT SECURITY.**

The large Capital, and nearly One Thousand Shareholders composing the Company, render the security presented to the Public undoubted.

HONOUR AND LIBERALITY IN THE SETTLEMENT OF LOSSES.

The well-known character of the Members of the Direction affords on this head every possible security.

MODERATE PREMIUMS OF ASSURANCE.

The Rates in Life Cases, for the younger ages, lower than those charged by many of the older and most respectable Offices.

The Premiums for Fire Risks are the same as those which are demanded by the first Class of Assurance Companies.

PARTICIPATION OF PROFITS BY THE ASSURED BOTH IN LIFE AND FIRE.

The Profits of the Life Department, appropriated every five years, are applied to the increase of the amounts assured, or to the reduction of the future premiums, according to the choice of the Assured.

The Profits of the Fire Department, appropriated to the Assured, are distributed at the close of each successive period of five years, in the form of a per centage on the premiums which have been paid.

THE SCOTTISH PROVIDENT INSTITUTION is the only Office which combines the advantage of participation in the Whole Profits, with moderate Premiums. It is a Mutual Assurance Society, in which the Whole Profits belong to the Policyholders; and it is free from the objection of excessive Premiums, which is urged by the Proprietary Companies against other Mutual Societies.

The Premiums are as low as those of the *non-participating* scale of the Proprietary Companies. They admit of being so not only with safety, but with ample reversion of Profits to the Policyholders—being free from the burden of payment of dividends to Shareholders.

The principle on which the profits are divided is at once safe, equitable, and favourable to good lives—the surplus being reserved for those members who alone can have made surplus payments; in other words, for those whose Premiums, with Accumulated Interest, amount to the sums in their Policies.

This principle, while it on the one hand avoids the anomaly of giving additions to those Policies which become claims in their earlier years, secures on the other hand that there is no Member who has not been, in a pecuniary sense, a gainer by the transaction, who does not receive a share of the Profits.

On this principle bonuses as high as 54 per cent. were added to some of the older policies on the first division of profits declared at last annual meeting, detailed reports of which may be had on application.

SPECIMEN OF TABLES.

ANNUAL PREMIUM FOR ASSURANCE OF £100 AT DEATH.

Age.	Premium.	Age.	Premium.	Age.	Premium.	Age.	Premium.

31	2 2 6	37	2 9 8	43	3 0 11	49	3 18 1

It will be seen on comparison that the same Premium which, at age 30, for example, is charged in the other Scottish Mutual Offices for Assurance of £1,000, will secure, in this Society, a Policy for £1,230. And it is to be borne in mind, that the higher immediate Assurance in this Office does not involve the sacrifice of the member's interest in the profits, or any portion of it.

This advantageous comparison holds good, to nearly the same extent, with the *participating* scale of the Proprietary Companies.

DIVISION OF PROFITS.

A very large portion of the Profits of this Company is allocated periodically to the Assured on the principle of a TONTINE. Divisions have already taken place at four periods, viz., 1835, 1840, 1845, and 1850; and next year, 1855, a fifth Division will be made from the Profits which have arisen during the five years from 1850 to 1855.

The following Table shows the Additions, as made at the periods abovementioned:—

(Additions to Policies are vested when the Policies have been in existence for Five Years from the date of the risk commencing.)

According to the Tontine principle referred to, the measure of a Policy's claim for Profits increases at each Division, so that the party who protects his family by a Life Assurance has, at the same time, the benefit of participating in the profits of the business, according to his survivorship,—that is, the length of time he continues connected with the Institution.

The following cases, taken from the Books, will tend to illustrate the system:—

1852.

On 4th May, 1852, died E. F., aged 65. He effected an Assurance on his Life in 1828, for £500 0 0

And there was added by the Company from the Profits—

In 1835,.....	£50	0	0
1840,.....	81	5	0
1845,.....	112	10	0
1850,.....	120	15	0
			<u>364 10 0</u>

Making the sum paid, £864 10 0

On 12th June, 1852, died G. H., aged 73. He effected an Assurance on his Life in 1827, by Annual Payments of £10. 5s. 5d., for £250 0 0

And to the sum assured was added from the Profits—

In 1835,.....	£28	2	6
1840,.....	43	15	0
1845,.....	59	7	6
1850,.....	63	0	0
			<u>194 5 0</u>

Making the sum paid, £444 5 0

1853.

On 25d February, 1853, died E. F., aged 56. He effected an Assurance on his Life in 1827, for £700 0 0

And there was added by the Company from the Profits—

In 1835,.....	£78	15	0
1840,.....	122	10	0
1845,.....	166	5	0
1850,.....	176	8	0
			<u>543 18 0</u>

Making the claim, £1,243 18 0

On 10th July, 1853, died G. H., aged 80. He effected an Assurance on his Life in 1826, for £500 0 0

And there was added by the Company from the Profits—

In 1835,.....	£62	10	0
1840,.....	93	15	0
1845,.....	125	0	0
1850,.....	131	5	0
			<u>412 10 0</u>

Making the claim, £912 10 0

The Share of Profits attaching to a Policy may be applied to increase the Sum Assured, or the value may be received in Cash, or be applied to reduce the Annual Premiums.

CONDITIONS OF ASSURANCE.

UNCHALLENGEABLE POLICIES AND FREE RESIDENCE IN ANY PART OF THE WORLD.

When a person assures his life, he generally limits his inquiries to the rate of premium, the prospects of bonus, and the general character of the office, but seldom gives attention to the "Terms and Conditions" of Assurance. Within the last few

years, however, indeed since 1851, when this Company promulgated the system of "Select Assurance," admission to which renders Policies *indisputable and unchallengeable on any ground whatever*, the question of "Terms and Conditions" has become a most important point of consideration, and the day is quickly approaching when no one will hold a Policy from an office which does not give similar advantages. What a boon is it to heirs of Entail, to Borrowers of all description, to Marriage Trustees, in short to all classes, to know, that *whatever may happen, wherever the Assured may go*, the claim will be met at death, subject to one simple condition, that the annual premium originally stipulated be punctually paid!

ADVANCES ON THE SECURITY OF POLICIES—AND SURRENDERS.

The Directors have also been led to consider the position of the Assured with reference to Loans on the Security of their Policies, and to Surrenders. In both these respects, they have lately adopted rules of the most liberal character, allowing surrender value on Participating Policies from the commencement of the Assurance, while the same sum which would be given for surrender will be given in loan *without expense* beyond the trifling stamp duty, and at a rate of interest which securities on land alone command. Thus at present the rate is 4 per cent., and the Directors have followed this course on the simple and unanswerable view, that the loan, being on the security of a Policy with the Company, and within its value, should not be subject to a higher rate of interest than landed securities. With these facilities, no Policy need be forfeited, except by carelessness, so long as the Assurance is of sufficient value to authorise an advance equivalent to the Premium.

THE Company was established in 1823, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company:—

MUTUAL ASSURANCE, without liability.

The guarantee of a responsible body of Proprietors, either personally or otherwise, assured with the Office, affords the most undoubted security to all classes of Assurers.

NINE-TENTHS of the **WHOLE PROFITS** Septennially divisible among the Assured.

This is a larger proportion than can ever be divided by any simple Mutual Assurance Society.

AN INTERMEDIATE BONUS paid on Policies becoming Claims between one Investigator and another.

All the advantage of an Annual division is thus given, without its attendant evils.

THE MOST EQUITABLE PRINCIPLE OF DIVISION.

The greatest benefits are thereby bestowed upon the oldest Policies, thus securing that first-class lives shall not suffer by any undue Bonus being paid away to those who may die early.

RATES OF PREMIUM EXTREMELY MODERATE.

The Non-Participation Scale is equivalent to a present Bonus of considerable amount when compared with most other Offices.

Since last Declaration, this Company have *paid* Bonuses of £145 per Cent. £110, £100, £85, £71, and various others, according to the endurance and position of the Policies.

In effecting a Policy, *No Entry-Money* or other charge is made beyond the Premium, the Company now paying the Stamp Duty.

The utmost liberality as to extra licenses, consistent with a due regard to the nature of the risk incurred; and no extra within the limits of Europe.

Important privileges conferred on the Assured, under resolutions some time back adopted in favour of the Company's policy-holders.

Copies of the Report of Proceedings at last General Meeting to declare the Bonus of 1849, with Prospectus and Rates, and all information, may be obtained at the Head Office, or any of the Agencies.

MODERATE PREMIUMS

Specially calculated for the Company from the most approved Tables, by an eminent Actuary.

In this Company, a party, aged 30, may insure from £1,100 to £1,150, WITH PROFITS, at the same Premium as £1,000 with the leading Scottish Proprietary or Mutual Offices.

There is no ENTRY-MONEY, and the STAMP DUTY on Policies is defrayed by the Company.

POLICIES INDISPUTABLE.

The validity of Policies will never be disputed, unless there be unquestionable evidence of fraudulent intention. To promise more would be a delusion, no agreement to consent to a fraud being legal.

CLAIMS.

In all cases Claims will be paid within three months after proof of death.

RENEWALS.

Thirty days of grace will be allowed for the Renewal of Policies, and Claims *will be admitted for deaths occurring during those days, provided the Premiums be paid before their termination.*

BONUSES.

Four-fifths of the Profits will be appropriated to Policies at the end of the first five years, and afterwards at the end of every three years, which may be applied as the Assured may direct, in either of the following ways, viz. :—

- 1st, By immediate payment of the present value of the sum so appropriated.
- 2d, By an equivalent reduction in the future annual payments.
- 3d, By an equivalent addition to the amount of the Policy.
- 4th, By a new Policy, free from Premiums.

FIRE BRANCH.

This Company insures against Fire almost every description of Property, and at rates as moderate as those of other respectable Companies.

PROFITS.

Fifty per Cent. of the Profits of this Branch is divided among Policies of three years' standing, and which have not been the subject of claim.

Prospectuses and all other information will be had on application at any of the Offices of the Company.

LOSSES PROMPTLY SETTLED.—PREMIUMS MODERATE.

Extract from J. H. Hartnoll's Letter to the President of the Board of Trade.

"I fear that the comments which have been made, from time to time, in the *Post Magazine*, on the success of the *Royal Insurance Company*, have had the mischievous effect of creating a desire in many of the new *Life Offices* to 'try their luck' in the *Fire* line. Several engraftments of the kind have already been made, others are announced, and more are privately talked of. The results that are exhibited in most of the preceding summaries of accounts are not, however, very encouraging for such experiments. It is as hazardous to enter upon a '*Little Fire Insurance business*,' as the good old Duke used to say it was to enter upon a '*Little war*.'"

Extract from the "REPORTER," for September, 1853.

"The '*Royal*' is the most successful fire company ever established since the theory of fire insurance was carried into actual practice. Its talismanic influence upon gold will

be gathered from this patent fact, that in three brief, fleeting, ordinary years, the capital of this Company, which originally stood at £178,560, was increased, such was the caution and prudence with which the business was conducted, to the value, or rather capitalized to the extent of £267,840, which sum represents, this hour, the paid-up and hoarded capital of the Company, or rather the proprietors' capital, and the surplus or revenue funds, which latter fund is £50,000, amount in the aggregate to upwards of £300,000 in hard cash; thus presenting a magnificent amount of security to fire and life insurers and assurers that the Company is in a condition to discharge, to the uttermost farthing, every contract as they fall in."

Extract from the "POST MAGAZINE," August, 1853.

"It seems but a month or two ago that we were engaged in examining the figures which represented the business, position, and prospects of the Company, up to the end of the year 1851; and almost before the ink which formed them has settled down into its natural colour, we have another year's figures before us—which figures show, that in the apparently small interval of time which has been measured by the production of 52 numbers of this little publication, the Company has added to its former receipts the very large sum of SEVENTY-SIX THOUSAND POUNDS. Still it would appear there is no apprehension entertained of a diminution in the amount of business, for Mr. Dove informed the meeting that 'it was likely that the revenue of the Company, which only four years ago was £34,000, would amount to £100,000 in the present year from Fire Premiums alone.'"

LIFE DEPARTMENT.

PERSONS Assured for the whole term of Life, for £100 and upwards, will have an addition made to their Policies every *fifth* year (instead of every seventh, as heretofore), or an *Equivalent Reduction* will be made in the future payments of Premium, at the option of the Assured.

Policies may also be effected for the whole term of Life by payments yearly or half-yearly, also by a limited number of yearly payments, a mode of Assurance which originated with this Company in 1816.

Assurances for Short Periods may now be effected in this Office at considerably reduced rates of Premium.

The *next valuation* will be made at Christmas, 1854; and Policies effected before that date will participate in proportion to the time they may then have been in force.

The following statement of *Sums paid* on various Policies (printed with the consent of the Representatives of the Claimants) will, it is submitted, confirm the very satisfactory result of the principles on which the Company's business is conducted, and exhibits the *Bonus* or *Additions* which attached thereto respectively, viz. :—

The Directors have the satisfaction of stating—

That the **INCOME** of this Branch for the year 1851 exceeded £166,000.

That the INVESTMENTS for the Life Policy-holders now amount to £1,382,108.

And as evidence of the advantage to Families of Life Assurance,

That the Company has disbursed, among 2,943 Claimants, from 1808 to the close of 1851, the sum of £2,476,897, of which a very *considerable proportion* was for ADDITIONS, under the system pursued by this Company.

Amongst the advantages offered by the Company to the Public are the following, viz. :—

That the Charges for carrying on this Branch of the Company's business are *very moderate*.

That the Interest and Dividends on the Life Fund are invested for the *sole benefit* of the Policy-holders, and, in like manner, the Profits arising therefrom after the Quinquennial Valuations, *without any deduction whatever*.

The following Table shows the *total additions* made to Life Policies for £1,000, effected in London or through an Agent in Great Britain, which had been in force for the Thirty-three Years ending at *Christmas, 1849* :—

Equivalent Reductions have been made in the future payments of Premium, where the parties assured have desired to have the amount of Bonus so applied.

FIRE DEPARTMENT.

The Company undertakes the Assurance of Property in the Manufacturing, Agricultural, and other districts, on favourable terms. Risks of extraordinary hazard on special agreement, upon survey.

An Allowance for the Loss of Rent of Buildings rendered untenable by Fire, is one of the advantages offered by the Company.

The Assured are entitled to participate in a Surplus-Fire-Premium-Fund every fifth year.

The Office Proposals and Forms for Assurance on Lives or against Fire, with full particulars explanatory of the constitution, &c., of the Company, may be obtained at the Office in London, or of any of the Company's Agents in the principal Cities and Towns of the United Kingdom.

THE Company offers to the Public very important advantages, and affords by its large paid-up Capital and accumulated Fund, with a Proprietary of nearly ONE THOUSAND in number, an undoubted security for all its engagements.

The Company continues to effect FIRE and LIFE ASSURANCES, and to grant ANNUITIES and ENDOWMENTS, on the most favorable terms.

Upwards of 5000 Life Policies have been issued.

The Constitution of this Company embraces:—

I.—A MUTUAL ASSURANCE BRANCH,

The Members of which incur no liability, while they obtain the WHOLE BENEFIT of their contributions,—the sums assured being *guaranteed*, and the business conducted by the Company for a charge of 10 per Cent. upon the Premiums without any deduction whatever.

The Bonus declared in 1851 (when the Institution completed its fifteenth year) was at the rate of £1. 7s. 6d. per £100 Assured, and a Policy for £1000, opened 30th April, 1837, is now increased to £1,202. 6s. 11d.

THE NEXT INVESTIGATION will be made at 30th April, 1856, so that Policies taken out previous to that date will be entitled to rank for a full share of the BONUSES then to be declared.

II.—A PROPRIETOR'S BRANCH,

By which Assurances may be effected for fixed sums upon terms which will bear comparison with those of any Office of STABILITY in the Kingdom.

THIS Society grants every variety of Policies, Life Assurance or Annuity, on any number of lives, and to any amount, for which the payments can be made by such arrangements as may be most convenient. There are various special features in this Society, among which may be mentioned the suspension principle, by which Policies do not become void through temporary inability in the payment of a premium when it becomes due.

Non-commissioned Officers in the Army, and Petty Officers in the Navy, on payment of a moderate extra Premium beyond ordinary rates, Assured against war and climate, if Policies are effected while on home service.

Partners in Firms can increase their available capital by the aid of a Special Life Assurance Policy.

CREDITORS and BORROWERS can Insure their Debts with special advantages in this Society.

The Rates of Endowments granted to young lives, and of Annuities to old lives, are liberal.

The Deed of this Society exempts the Assured from the liabilities of Partnership, which attend in Mutual Life Offices, and gives them the Security of a large Capital Stock, independently of the Fund accumulated from Premiums.

The Society defrays the cost of Policy Stamps and Medical Fees, so that the Assured are subject to no charge beyond the Premiums.

A valuation of the Society's Assets and Liabilities will be made at the close of its second financial period, on the 31st December, 1854, when it is expected, from the great increase of business during the past few years, that the Bonus to be allotted to the Assured, on the participating scale, will be a liberal and most advantageous one. Full particulars of the last Bonus, declared in 1849, with every information as to the mode of effecting Assurance, may be had on application to the Actuary in London; or to

THE CITY OF LONDON LIFE ASSURANCE SOCIETY, guaranteed by a subscribed Capital fully adequate to every contingency, offers all the advantages of the Mutual system without involving the Assured in its risks or liabilities, and it affords facilities in every department on principles of true economy, limited only by strict regard to security.

The Rates of Premiums are founded, not upon local, imperfect, or theoretic data, but upon the actual experience of the most important Offices in existence, and after six years the Profits are to be declared Triennially.

Amongst the peculiar advantages offered by this Society, are the following modes of Assurance:—

The **MUTUAL**;

The **PROPRIETARY**; and

The **DEPOSIT or ACCUMULATIVE**;

The two first embracing the most liberal and advantageous arrangements to meet the objects of parties assuring, whilst the *third*, a new feature *introduced by this Society*, unites all the advantages of *Life Assurance*, together with the convenience of a Deposit Bank, *the Assured being always at liberty to withdraw the whole or any part of the Amount deposited as Premiums*, while no Policy in this department *can become lapsed*.

SELF-PROTECTING ASSURANCES;

THE advantages offered by this Society are—ECONOMY combined with SECURITY, and LOWER RATES of Premiums than those of any other Office, which entitle the Assured to participate in the Profits, and *considerably lower* than those of any other *Mutual Assurance Society.*

The WHOLE OF THE PROFITS are divided every fifth year among the Assured, and a BONUS is added, after the Payment of the Fifth Annual Premium, to every Policy effected on the Participating Scale, if a claim accrue thereon prior to the next division of Profits.

The BONUS declared in 1854 (arising from the whole of the Profits) upon the *Mutual Principle*, averaged 67 per Cent. on the Premiums received.

Number of Policies in force, 6,600.

The Assurance Fund amounts to £1,340,000. Income upwards of £220,000 per Annum.

No charge for Policy Stamps, nor for Service in the Yeomanry or Militia Corps.

The subjoined Table shows the advantages offered by the Society, resulting from low Premiums, and a division of the *entire Profits* among the Assured:—

LIFE ASSURANCE.

THE system adopted by this Company gives to the Assured every advantage Life Assurance is capable of affording, and combines the benefits of Mutual Assurance with the guarantee of a Capital of One Million, fully subscribed, besides a large accumulated Life Assurance Fund. The whole Profits, after reserving *one-tenth* for the Guarantee, are divided amongst the Assured, each Policy drawing in proportion to the sum insured, and the number of Annual Premiums paid during the period of division, previous Bonuses being reckoned additions to the Sums insured, and, as such, entitled to participate. Thus, for example, a Policy of £1000, having £285. 16s. of previously-vested Additions, was at 31st December, 1851, ranked as a Policy for.....£1285 16 0 and had a further addition made to it of..... 112 10 3 and will, according to the principle of division above mentioned, be ranked at next investigation, on 31st December, 1858, as a Policy for.....£1398 6 3 The Profits are divided septennially, and a prospective Bonus declared in favour of such Policies as may become Claims during the septennial period, thus giving the advantage of an Annual Division without its disadvantages.

GENERAL FACILITIES.

1. Premiums moderately rated at all ages, and so adjusted as to suit the objects and convenience of parties; and the Sums insured may be made payable to the party himself on attaining a specified age, or to his heirs or assignees at his death; or, *alternatively*, to himself on attaining the specified age, or to his heirs or assignees, if he should die earlier.

2. No Entry-Money or other charge. Policy Stamps and Medical Fees paid by the Company, and Assignments of Policies registered free of charge.

3. ONE-HALF of the Premiums may remain on credit for the first five years; or ONE-THIRD during the convenience of the Assured, interest being paid on the portion on credit.

4. Bonuses may *at any time* be commuted for a Cash Payment, or applied in reduction of future Premiums; except in cases of Policies of less than five years' standing, issued on an ascending scale of rates; and on the Credit system, if the debt be not repaid.

5. Liberal allowance made for the surrender of Policies upon which three Annual Premiums have been paid, when parties wish to discontinue them, either by payment in Cash, or by granting a new Policy for a corresponding sum, free of Premium.

6. Advances made on Policies to the extent of their acquired value.

7. Permission to pass and repass in time of peace from one part of Europe to another, by Sea or Land; and no extra charge for residence in British North America, the Cape, Australia, and parts of the United States, nor License required, except for the Voyage.

8. Twenty-one days allowed for Payment of Premiums after they become due, and in event of the Party dying, payment within Twenty-one days by the Representatives held sufficient for preserving the Policy.

SPECIAL ADVANTAGES.

1. Policies, on proof of age, indisputable on any ground whatever after the lapse of five years.

2. Certificates granted on application declaring Policies exempt from payment of extra premium for travelling or residing beyond the limits of Europe, or for entering into Military or Naval Service, and from the necessity of applying for License to do so, from and after the expiry of five years from their date, provided it shall be shown to the satisfaction of the Directors that the Assured have, at the time of the application, no intention or prospect of going abroad, or entering into Military or Naval Service.

FIRE INSURANCE.

Fire Insurance effected at moderate rates on every description of Property.

Annual Premiums on the three ordinary classes of Insurance, with certain exceptions:—

Common, 1s. 6d. per cent. ; Hazardous, 2s. 6d. per cent. ;

Doubly Hazardous, 4s. 6d. per cent.

Rents of Property insured on same terms as the Buildings.

Farm Stock and Crop insured, *in cumulo*, on one Farm, without average clause, at 3s. per cent.

Rates for all Insurances not coming under the above heads fixed by special agreement.

Policies from other offices transferred free of expense.

The Business of this Company consists of—

- 1st, Life Assurance Annuities and Endowments of all descriptions adapted to meet the views and means of the Provident of every class. Policies are indisputable, save in cases of fraud. Payments taken Quarterly, Half-yearly, or Yearly. Half the Premium for the first Seven Years may remain on credit, *and arrangements can be made to prevent the loss of a Policy when the Assured is temporarily unable to keep up the Payments.* One description of Assurance may be exchanged for another. Policies issued for any Sum from £10 to £5,000.
- 2d, GUARANTEE FOR FIDELITY IN SITUATIONS OF TRUST.—In this Department the Company affords Guarantee to persons requiring the same, at the lowest possible rate, and, after the First Three Years, divides four-fifths of the Profits. Rates from 7s. 6d. per Cent. upwards. No charge for Stamp. No extra charge.
- 3d, LIFE ASSURANCE AND GUARANTEE COMBINED.—*The attention of persons holding Situations of Trust is specially invited to the advantages offered by this Company in combining Guarantee with Life Assurance.* In all cases where the amount of Guarantee is under £1,000, and a Life Assurance is effected for half the amount, a reduction of Fifty per Cent. is made upon the Guarantee Premium. Thus—

£300 Guarantee, at 6s. 3d. per Cent.,	£0 18 9
A Life Assurance for £150, Age 25,	3 0 6

Annual Premium for Life and Guarantee Combined, 3 19 3

Being only a few Shillings more than is generally required for Life Assurance alone.

Where the Guarantee required exceeds £1,000, special arrangements are made, and the rate still further reduced.

Eighty per Cent., of the Profits in both Departments belong to the Assured.

THE TIMES FIRE ASSURANCE COMPANY.

Established under Act of Parliament for the following Purposes :—

1st. Assurance against Damage or Loss by Fire.

2d. Assurance of Plate-Glass Windows and Mirrors against accidental breakage or damage.

This Company undertakes almost every description of Fire Risks.

Insurers paying in advance for three, five, or seven years, will be allowed a considerable reduction in the amount of Premium. *No expense will attend the Transfer of Policies* from other Offices; and no charge will be made for the Policy where the Sum Insured shall exceed £200. The engagements of the "TIMES FIRE ASSURANCE COMPANY" are guaranteed by a responsible Proprietary, and an ample subscribed Capital, whilst the Insured are free from the liabilities of a Mutual Insurance Society. All reasonable expenses incurred at the time of Fire, in the removal of Goods Insured by this Office, will be repaid. Loss of Rent Insured against during the period of re-insurance of damage by Fire. Losses by Fire occasioned by Lightning will be made good, so far as where either the Building or the Effects Insured have been actually set on Fire thereby, and burned in consequence thereof.

ASSURANCE OF PLATE-GLASS.

The enormous amount of Plate-Glass brought, or being brought, into general use, not only in the principal streets of the Metropolis, but also throughout the large Provincial Towns, has suggested the idea of its Assurance against accidental breakage, it being more or less exposed to danger from the crowded state of leading thoroughfares.

The risks undertaken by the Company will include Plate-Glass of every description, whether used as Windows, Panels, Enclosures, Pilasters, Show-glasses, or for any other business purposes.

Also, Looking-glasses, Mirrors, and other private designs, from every description of loss to the owner arising from accidental causes.

The Policies will provide for replacing the same with Glass of similar colour and quality to that destroyed, as speedily as possible after the receipt of notice of loss.

Special risks to be settled by Agreement.

The Rates decided upon in either department are as reasonable as is consistent with safety; and, in case of accident, the utmost promptitude and liberality may be expected.

All other requisite information in the several departments of Life, Guarantee, Fire, and Plate-Glass, may be obtained at the London Office, or of any of the Agents of the Company throughout the Kingdom.

A SCALE of Premiums on Insurances for the whole Term of Life has recently been adopted, by which a Material Reduction has been made at all Ages below 50 years.

Four-fifths, or 80 per Cent., of the Profits are assigned to Policies every fifth year; and may be applied to increase the sum Insured; to an immediate payment in Cash; or to the reduction and ultimate extinction of future Premiums.

The following will show the effect of the Bonus on Policies of 30 years' duration, on the 31st of January, 1851.

Age when Insured.	Sum Insured.	Annual Premium.	Addition to Sum payable at death.	Value of Addition in Cash.	Or Premium extinguished and Cash paid.
21	£1000	£22 5 0	£560	£276	£ 5
26	2000	49 1 8	1120	617	93
31	3000	81 17 6	1680	1027	282
36	4000	122 13 4	2240	1505	582
41	5000	174 7 6	2800	2043	992

One-third of the Premium on Insurances of £500 and upwards, for the Whole Term of Life, may remain as a Debt upon the Policy, to be paid off at convenience; by which means £1,500 may be insured for the present outlay otherwise required for £1000.

LOANS.

The Directors will lend sums of £50 and upwards on the security of Policies effected with this Company for the Whole Term of Life, when they have acquired an adequate value.

SECURITY.

Those who effect Insurances with this Company are protected by its large Capital from the risk incurred by Members of Mutual Societies.

CLAIMS.

Since the commencement of the Company, upwards of £1,000,000 sterling has been paid in Claims and Additions to the sums Assured.

Insurances, without Participation in Profits, may be effected at Reduced Rates.

The Assured are not charged with Policy Stamp Duty or Medical Fees.

SAMUEL INGALL, Actuary.

* * * The attention of the Public is invited to the 54th section of the Act 16 and 17 Victoria, cap. 34, by which an abatement of Income Tax is allowed on such portion of Income (not exceeding one-sixth), as may be applied to the payment of Premiums of Assurance.

AMONG the many advantages offered by this Company to Insurers, are the following:—

1.—The security of a large paid-up Capital, whereby all Claims upon the Company are amply provided for.

2.—Prompt settlement of Claims. All Fire Claims paid *immediately* upon the amount of loss being ascertained. And all Life Claims within three months after satisfactory proof of the death of the Insured, or sooner, by arrangement with the Directors.

3.—Moderate Rates, both in Fire and Life Insurance, the Company being established on a defensive principle, and not for speculative purposes.

4.—All Life Policies may be rendered indisputable, at the time of effecting the Insurance.

BONUS ON LAST DIVISION OF LIFE PROFITS, FORTY PER CENT.

Forms of Proposals, Tables of Rates, and all other information, may be obtained on application at the Head Office, No. 34 New Bridge Street, Blackfriars, London; or of the Agents for Glasgow.

THE advantages offered by this Company consist of perfect Security, arising from an amply subscribed Capital, and invested accumulation amounting to nearly £200,000. One-third of the Premium during the whole term of life may remain as a permanent loan on the Policy, thus enabling a person to secure an Insurance for £1,500 at the rate of £1,000.

Persons desirous of discontinuing their Policies can have them converted into absolute Reversions, provided they have been in existence for five clear years. For example, a Policy now in force for £2,000, effected in 1837, on a life aged 41, could now be exchanged for one for £1,030, 8s., free from all further premiums. This plan is highly favourable to Insurers, as it prevents a serious loss being sustained by the sale of the Policy.

Creditors and others having a *bona fide* Interest in Policies, can have them rendered indisputable securities.

No charge made for Policy Stamps.

LIFE DEPARTMENT.

THE Business of this Office embraces *every* mode of Life Assurance, and the Rates of Premium will be found essentially moderate.

LIVES DISEASED, or having a tendency to disease, may be assured with this Office on payment of a proportionate *extra* Premium, which may, as to future payments, become modified or reduced on evidence of the improved health of the party.

ONE-HALF ONLY OF THE ANNUAL PREMIUM may be paid during the first five years of Whole Life Policies, the other moiety of the Premium remaining a debt on the Assurance.

To Policies effected in the Mutual Assurance Branch, a Bonus of THIRTY-TWO PER CENT. on the Premiums which had then been paid was declared on 30th September, 1849, for the seven years preceding; and additions on a similar principle will be subsequently apportioned to all Policies effected with a right to participation in Profits. A Policy of not less than five years' standing, becoming a claim betwixt two periods of division, is entitled to share in Profits according to the number of years elapsed from the previous apportionment.

THE Rates of Premium are those adopted by the principal Life Offices; the Rate without Bonus is lower than that of most other Offices.

The Bonuses are added to the Policies, or applied to the reduction of Premiums.

Policies issued by this Office are purchased at their full value; or Loans may be obtained upon them after they have been in existence five years.

If a party neglect to pay for the renewal of his Policy, he may repair the omission any time within twelve months, upon proof of good health.

The Profits (subject to a trifling deduction) are divided among the Insured. The plan upon which they are divided gives to each party insured a share proportionate to the amount of the Premiums he has contributed.

In addition to this advantage which is now offered to the Policy-holders in this Office, an annual addition or bonus is made to each Policy in anticipation of the Quinquennial Division of Profits.

LIFE DEPARTMENT.

THE peculiar and distinctive features of this Society consist—In allowing no Member, when unable to continue his payments, to lose the benefit of the sums which he has paid, and arrangement may be made to secure a Policy free from any future payments.

By appropriating one-tenth of the profits of the Society to a Fund for the purpose of endowing Schools, in which the Holders of Policies for £300 and upwards will be allowed to nominate Scholars, thereby securing a direct interest and privilege not to be found in any other existing institution.

By making every Policy *absolutely Indisputable* under any circumstances, thereby rendering them negotiable instruments as security, and entailing no trouble or inconvenience on the survivors.

By making every Policy PAYABLE TO THE HOLDER by endorsement, by which means the expense and trouble of an Assignment are avoided. By this means a Policy may be negotiated with the same facility as a Bill of Exchange.

The Society is established on the just principle of Mutual Life Assurance, returning to the Assured, by way of Bonus, the surplus above the cost of the Assurance.

It embodies all the improvements of other Offices.

The Funds of the Society are employed in granting Loans to Members upon approved Security.

The Payment of the Premiums is arranged to suit the convenience of all classes of Assurers. One-half the Premiums for the first five years may remain unpaid.

The Assured are protected by a Guarantee Fund of £50,000, in addition to the Annual Income and Reserved Fund.

The Directors and Auditors are chosen by the Members.

FIRE DEPARTMENT.

This Company Insures almost every description of Property.

DESIRE to intimate that they have reserved to *themselves* the **EXCLUSIVE** USE in GLASGOW of JAMES A. YOUNG'S **PATENT FORCEPS**, which *cause the least possible amount of pain* in the extraction of **ANY Tooth or Root**, **HOWEVER FAR DECAYED**. This great desideratum is secured by the *many* improvements embraced in their construction; some of the more particular of which are—the heads of the beaks are opened at a sufficient angle to enable the operator to *see* the tooth or root during the whole operation, and the curve of the handles and the inclination of the beaks to the bodies of the instruments allowing them to be applied and freely moved in *any* direction. The beaks are made to embrace only the roots, and as every root, or combination of roots, is more or less wedge-shaped, therefore, when the apex of the wedge is represented by that of the root, or the approximation of the roots, the two beaks of each forceps act so near as possible as two highly polished inclined planes upon a moveable wedge, causing the tooth, root or roots, in many instances to slip or leap out of the mouth; but when the apex of the wedge is represented at the neck of a tooth by the shape of a part of the root, or by the junction of two or more roots, then the forceps secure a firm hold. These, with the other improvements, permit the application of the *smallest* amount of force, in the *best* direction, and consequently (*cæteris paribus*) *reduce the PAIN to a MINIMUM*.

LIFE DEPARTMENT.

THE system of this Company presents a combination of the most important advantages, of which the following may be enumerated:—

1. Absolute security is afforded by the Funds accumulated from Premiums, with the Guarantee of a large Capital.
2. The Premiums are moderate.
3. Investigations are made quinquennially, and intermediate Bonuses are allowed on Participating Policies that become Claims between two periods of division. The interests of the holders of such Policies are in this manner equalised as perfectly as by any system.
4. Policies in which the age of the Assured is admitted are now issued, without liability to be disputed on any ground whatever after the lapse of five years from their date, provided only that the ordinary Premiums be regularly paid, with any extra that may be incurred.
5. No Extra Charge is now made for residence, in time of peace, in any part of the world north of 38 degrees of North latitude, or south of 30 degrees South latitude—California and the Gold Regions of Australia alone excepted.
6. For Surrender of Policies for the term of Life, effected at uniform rates, and which have been three years in force, a return of Forty per Cent. of the Premiums received will, at any time, be allowed, and that, in the case of Participating Policies, in addition to the value of vested Bonuses thereon.

FIRE DEPARTMENT.

Common, Hazardous, and Doubly Hazardous Risks are undertaken at the usual Rates of 1s. 6d., 2s. 6d., and 4s. 6d. per Cent. respectively. Special Insurances at increased rates.

THE SCALE OF PREMIUMS adopted by this Office will be found of a very moderate character, but at the same time quite adequate to the risk incurred.

FOUR-FIFTHS, or 80 per Cent., of the Profits are assigned to Policies *every fifth year*, and may be applied to increase the sum Insured; to an immediate payment in Cash; or to the reduction and ultimate extinction of future Premiums.

ONE-THIRD of the Premium on Insurances of £500 and upwards, for the Whole Term of Life, may remain as a Debt upon the Policy, to be paid off at convenience; or the Directors will lend sums of £50 and upwards, on the security of Policies effected with this Company for the whole term of life, when they have acquired an adequate value.

SECURITY.—Those who effect Insurances with this Company are protected by its Subscribed Capital of £750,000, of which nearly £140,000 is invested, from the risk incurred by Members of Mutual Societies.

The satisfactory financial condition of the Company, exclusive of the Subscribed and Invested Capital, will be seen by the following Statement:—

On the 31st October, 1853, the sums Assured, including Bonns added, amounted to.....	£2,500,000
The Premium Fund to more than.....	800,000
And the Annual Income from the same source, to.....	109,000

THE object of this ASSOCIATION is to promote the knowledge and love of the FINE ARTS in this City, and their general advancement by an extensive distribution of the WORKS OF LIVING ARTISTS, and to elevate ART and its PROFESSORS by creating an increased desire for their WORKS, and an improved taste on the part of the PUBLIC.

I.—It is under the direction of a COUNCIL OF MEMBERS, who are chosen by the Subscribers at the GENERAL MEETING, whose services are honorary, four of whom retire from office annually.

II.—Subscribers of Ten Shillings and Sixpence are Members of the ASSOCIATION for the year for which the Subscription is paid.

III.—The FUNDS of the ASSOCIATION are appropriated to the purchase of MODERN WORKS OF ART, in PAINTINGS, DRAWINGS, and SCULPTURE, and those WORKS OF ART are publicly distributed by Lot, at the ANNUAL GENERAL MEETING of the MEMBERS, which will be held in JUNE, when each Subscriber shall be entitled to one chance for every HALF GUINEA Subscribed; and each Member who gains a Prize shall receive due intimation thereof.

IV.—No WORK OF ART, other than the *bona fide* production and property of the ARTIST, shall be purchased by the Association.

V.—PRIZE-HOLDERS shall have the liberty of selecting the WORK of ART most suited to their taste, according to the number of the Prize, No. 1 having the first choice and so on.

THE MEMBERS OF COUNCIL are particularly anxious to afford every encouragement to NATIVE TALENT, by making purchases at the ANNUAL EXHIBITIONS IN THIS CITY, with a view to suit the taste and growing requirements of an enlightened Public.

Subscriptions received by any of the MEMBERS OF COUNCIL, by the HONORARY SECRETARIES and AGENTS throughout the Country; and at the OFFICE OF THE ASSOCIATION, 11 WEST NILE STREET, GLASGOW.

JAMES PEARSTON, SECRETARY.

MEDICAL BOTANY.

REMOVAL.

DR. W. DALE, at Whitsunday, 1854, will *Close* the MEDICO-BOTANIC DEPOT, 270 Buchanan Street, and *Open* more central and commodious premises—

THE BOTANIC MEDICAL HALL, 40 QUEEN STREET,

(OPPOSITE THE NATIONAL BANK,)

where DR. W. DALE will personally attend, daily, from 9.30 A.M. to 3 P.M., and from 5 P.M. to 8 P.M., after which hour he may be consulted at his House, 94 Dundas Street, corner of Parliamentary Road.

The encouragement and support DR. W. DALE has received since his residence in Glasgow, and the good name that has ever attached to the place of business he has the pleasure to superintend, have induced him to remove to more central and commodious premises, for the more perfect accommodation of the friends of true medical reform, and for the extension to the utmost limits of his own usefulness.

The second edition of DR. DALE's work on Cholera—a *weapon wherewith to oppose the pestilence*—is now ready, and may be had at THE BOTANIC MEDICAL HALL, 40 Queen Street, or from any of the Booksellers. By acting on the advice contained in this little work, and by the use of the Anti-Cholera Powder therein recommended, some hundreds of people in the city of Glasgow and surrounding neighbourhood have been cured of Cholera during its last visitation, whilst their neighbours under the treatment of parish doctors have died around them!

“Of this whoe'er would know the truth need but inquire.”

WEST BAY BOARDING ACADEMY,
ROTHESAY.

CONDUCTED BY MR. JOHN MONRO.

THIS ESTABLISHMENT, which is distant upwards of a mile from the Town of Rothesay, is so situated as to possess the salubrity, retirement, and facilities for Sea-Bathing, for which the Island of Bute is so much resorted to and celebrated; while, for the purposes of recreation, the locality is unsurpassed.

For full particulars regarding Terms, Education, &c., apply personally, or by letter, to Mr. Monro.

His Majesty's Royal Letters Patent.

THE FURBATOR,

A NEW MACHINE for Cleaning, Polishing, and Sharpening Table Cutlery, Invented and Patented during the present year. Its Economy, Durability, and Simplicity of Construction, make it quite a contrast to the knife machines heretofore known, which, though very good and valuable in many respects, have had objections to contend with which have prevented their general adoption as a household article. In the FURBATOR the Patentees defy a single objection to be raised against it. In every point of view its Economy is indisputable, and its Efficiency for its purpose is such that no family who keep a servant, and are alive to their own interest, will be long without knowing and availing themselves of its advantages.

HILLIARD & CHAPMAN, Patentees and Sole Manufacturers,

56 BUCHANAN STREET, GLASGOW.

The FURBATOR may be had of all the principal Ironmongers and Cutlers in the United Kingdom.

COFFEE-ROASTING, SUGAR-POUNDING, AND GENERAL GRINDING WORKS,

29 M'PHERSON STREET (*off HIGH STREET*), GLASGOW.

The only Steam-power Roasting Establishment connected with the Trade in the City.

D. MINTO begs leave to return thanks to the Grocers and Druggists of this Town and Vicinity for past favours.

He also begs leave to intimate, that in connection with his Coffee-Roasting, and Coffee and Spice-Grinding Works, he has fitted up an extensive Sugar-Pounding Machine, offering to the Confectioners, and Trade in general, an advantageous opportunity of having their Sugar Pounded by Steam-power, far surpassing anything ever yet offered to the Trade.

P.S.—*All Orders punctually attended to, and delivered by his Vans at the proper time.*

29 M'Pherson Street, off High Street,
GLASGOW, *May*, 1854.

The COFFEE PLANT, "*Coffea Arabica*," of Linnæus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of commerce. It may be remarked, as a singular fact, in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its independence; for, although cultivation may greatly enlarge the crop, it as certainly, at the same time, deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret to the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so, when its medicinal properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of Asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—"I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be dispersed than when exposed to the fierce heat of a fire in a single cylinder."

In the double rotatory globular method of roasting, as practised at Mr. MINTO'S Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder since the application of steam power to this branch) revolves in a medium of heated air, which, experience has shown, best prevents the dispersion of the essential oil, or aroma.

ROBERT GREIG,
43 and 45 RENFREW LANE,

BEGBS to return his sincere thanks to his numerous Friends for the unprecedented patronage they have bestowed on him for many years past, and for their flattering testimonials in favour of his

IMPROVED PATENT AND BOX MANGLES,

the superior quality of which, in regard to construction, well-seasoned materials, and unquestionable workmanship, amply warrant him in charging a somewhat higher price than is charged for the ordinary "job" Mangles.

Although the prices of R. GREIG's Mangles are somewhat higher than others, yet no one who has used them fails to recommend them to their friends.

ROBERT GREIG, confident in the superiority of his materials and workmanship, guarantees his Mangles for one year.

NOTICE.

R. GREIG will make all repairs on his own Mangles promptly and satisfactorily.

GEO. MILLER & CO., DALMARNOCK ASPHALTE WORKS,

ARE prepared to lay ASPHALTE WORK of every Description, either in Town or COUNTRY.

Their position enables them to produce the best Materials; and they are careful to select the most skilful workmen, so that the work may in every instance give satisfaction.

As the *Advantages* and *Appliances* of *Asphalte* are not generally known, these may with propriety be here noted.

Not only, when *properly Manufactured and Laid*, does it form a cheap and durable Pavement, but its Imperviousness to Damp and Vermin recommends it as the best sort of Flooring for Dwelling-Houses, Cellars, Cotton Factories, Grain Mills, Granaries, Cotton, and other Stores, Barns, Stables, Dairies, &c. It has also been, of late, successfully introduced as a Roofing for Fire-Proof Mills, as a Covering for Underground Vaults, and in the Formation of Liquid Manure Tanks, Cisterns, &c. &c. It is well adapted to the formation of Gutters and Recesses, whatever their form or depth.

Builders and Contractors who prefer laying Asphalte themselves, may be supplied with BITUMEN, of Best Quality, on liberal terms.

ALEXANDER DICK,

Land-Surveying Chain and Safety Lamp Maker, and Plain and Fancy Wire Worker,

10 BUCHANAN BUILDINGS, 105 STOCKWELL STREET, GLASGOW,

TAKES this opportunity again to return his unfeigned thanks to those Gentlemen who, for thirty years, have honoured him with their kind favours, and hopes, that by prompt attention to their orders, as heretofore, still to merit a continuance of their patronage.

A. D. would earnestly solicit the attention of those gentlemen who may not, as yet, have given his Chains a trial, to do so; being confident, from the flattering testimonials received from eminent practical gentlemen, in different parts of the three kingdoms, of their superiority, and besides being made of the very best Charcoal Springwire (being nearly as hard as steel), he feels confident a trial is only necessary to prove them second to none now in use; and to prevent counterfeit, '*Alexander Dick, Chainmaker, Glasgow,*' is on the middle teller or counter of those chains warranted. The following is an abridged list of his Prices for Cash only.

Foot Link 100 Feet Chains.

100 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 11s. 6d. each; and with a set of No. 5 link brass counters, 12s. 6d. each.

100 feet long, 100 links with long eyes and filed joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 18s. each. With a set of No. 5 link brass counters, 19s. each.

A Chain of the same kind, but links and rings made of No. 8 Wire, 16s. each. With a set of No. 5 link brass counters, 17s. each.

A. D. would particularly recommend the Chains with long-eyed links, filed joints, and 300 oval rings, as being the best he makes; warrants them not to crank, twist up, nor so apt to stretch as those with round-eyed links and round rings, being made in a superior style.

Scotch Surveying Chains, with or without the fractions, made only to Order.

Imperial or Link-Surveying Chains.

66 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 8s. 6d. each, and 8s., 7s. 6d., 7s., 6s. 6d., and 6s. common make.

66 feet long, 100 links, with long eyes and filed joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 16s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 14s. each.

Imperial Link Mine Surveying Chains, with neat strong brass handles and copper swivels, with 10 links of brass wire at each handle, 19s. each, and with 10 links of brass wire also at the 50 and 60, 25s. each.

Surveying Chains, made of cast-steel wire to any length, size of wire, or pattern, only to Order.

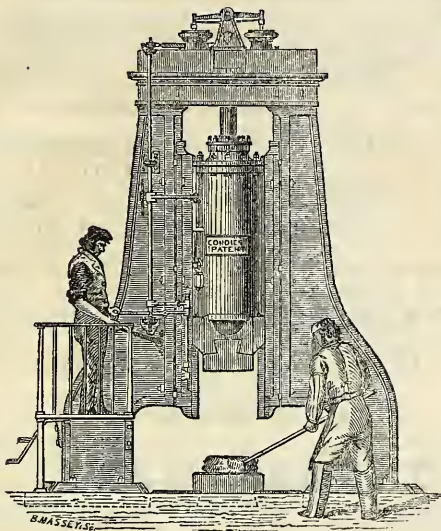

Large and small ring Swails, Planting and Holing Chains for the East and West Indies, made to Order.

Copper, Brass, Iron, and Steel Wire, oval link Clock and Pitch Chain, of all sizes of link or wire, made on the shortest notice.

IMPROVED SPRING MATTRESSES.

JAMES M'EWAN,

PRACTICAL UPHOLSTERER,

(Having long Experience in the Principal Shops of Glasgow and London,)

16 BATH STREET, GLASGOW,

A FEW DOORS FROM BUCHANAN STREET,

RESPECTFULLY invites the inspection of the Public to a most considerable improvement he has made in the making-up of Spring Mattresses, which, for comfort, elasticity, and durability, surpass anything of the kind at present in use. From the large number he has already made of these Mattresses, and all, without exception, given the highest satisfaction, he can with confidence recommend them to the Public.

J. M'E. begs the attention of Hotel-Keepers to these Mattresses, as they will be a saving of time in the making-up of beds. They require no making-up, and, having all the feeling of hair mattress and feather bed combined, no other bedding is needed.

PRICES VERY MODERATE.

for the Second-Class Baths, bringing them within the reach of all, will, it is hoped, be appreciated by the inhabitants of the City of Glasgow.

The Hydropathic treatment, or "Cold Water Cure," as it is called, has made a great stir in the world; and notwithstanding the prejudices against it among certain medical gentlemen and others, it is ridiculous to suppose it a mere chimera, when hundreds of people recover, and live to tell of the immense service it has rendered them. Certain it is, that Cold Bathing, either local or general, with proper exercise, careful living, and other such adjuncts, is a highly important remedy; and he is the most enlightened Physician who, while throwing aside old notions—no matter how venerable they may have become from age, and which he knows to be erroneous—adopts a system, or the useful parts of all systems, which he knows will benefit his fellow-creatures. Patients can have the Water Cure at this Establishment, the charges for which will be from One Pound to Five Shillings per Week, to suit circumstances, with daily attendance. The Vapour Baths can be administered to parties unable to leave home, in their own dwellings, by experienced persons.

6. Hot, Warm, or Tepid Salt Bath...5d.

With use of One Clean Towel.

There are four separate and distinct Divisions of the Bath Buildings, each having separate and exclusive Entrances for Male and Female, and for First and Second Class Bathers.

As a means of preserving, and even restoring health, and of refreshing and invigorating the body—especially in cases of fatigue—the use of the Tepid, Warm, or Hot Bath is most beneficial.

With the view of dispelling fears which many entertain of catching cold from Warm Bathing, attention is solicited to the subjoined copy of a Medical Certificate, *signed by upwards of One Hundred and Forty of the most Eminent of the Profession in London*:

"It has been stated to us that many labouring men and women in London fear that the use of the Warm Bath might make them liable to take cold, and we have been requested, on behalf of the Committee for promoting the Establishment of Baths and Wash-Houses for the Labouring Classes, to express our opinion on the subject.

"We, the undersigned Physicians and Surgeons, therefore hereby certify, that no fear need be felt of the moderate use of the Warm Bath making the bathers liable to take cold. On the contrary, *we strongly recommend* the general establishment and use of Public Baths, *Warm and Cold*, and Wash-Houses, from our conviction of the great good of a clean and healthy skin, and clean clothing, to the health of the whole body.

"We are of opinion that, if London were fully supplied with Public Baths, Warm and Cold, and Wash-Houses, and they were properly made use of, the amount and severity of disease, and the number of deaths, would be materially diminished."

Baths open from Seven Morning till Nine Evening; Washing-Houses open from Seven Morning till Nine Evening; Steam from Eight Morning till Nine Evening.

Under Her Majesty's Royal Letters Patent,
(GRANTED TO LANGSTON SCOTT,)

WHITE OXIDE OF ZINC FOR PAINT, &c.

CROWLEY, WHITE, & CROWLEY,

SOLE MANUFACTURERS UNDER THE ABOVE PATENT.

GREAT EXHIBITION PRIZE MEDAL.

Patronised by the Lords of the Admiralty, the Governors of Greenwich Hospital, St. George's, Guy's, and adopted exclusively by the French Government for all Public Works.

ADVANTAGES:—

**Healthfulness, Durability, Unchangeableness, Purity of Colour,
Preservation of Materials, Cheapness.**

WHITE-LEAD FORMS THE BASIS of almost every Paint, and when used gives out *poisonous exhalations, destructive to the constitution*. The *Lives of delicate and aged persons are often sacrificed by inhaling its pernicious properties*; whilst lingering* *disease and premature death attend those employed in its manufacture and use*.

A *sufficient substitute* for White-Lead has for many years occupied the attention of Scientific men, without their arriving at any practical result. This was eventually in part obtained by Mons. Leclair, at Paris, in 1846. Messrs. CROWLEY, WHITE, and CROWLEY now offer to Export Merchants and the Trade, a *disinfecting agent* in White Zinc, perfectly free from all deleterious properties, OF GUARANTEED PURITY (UNDER BRAND), EITHER IN THE DRY OR GROUND STATE.

(Certificate.)

Ansdales Street, Salt-house Dock, Liverpool, Aug. 23, 1852.

Gentlemen,—We are much gratified to find the last parcel of Oxide of Zinc so much improved in body, and as the colour of the first parcel was very satisfactory, we see very little difficulty in its way to more general adoption and use, for it certainly has, in many respects, a decided advantage over White-lead in situations of severe test—contiguity to bilge-water; cesses; wherever gases are evolved, &c.—and we may mention two cases in point: the one was a stable and petit, and the other an apartment in an antiquated building, exceedingly low, with the beams prominently crossing it. In both these instances, it was customary to have them painted and whitewashed annually. The workman employed was so ashamed of these at the usual time for renewing, that, hearing of the peculiar properties of the Oxide of Zinc in resisting the action of foul air and gases, he gave Zinc a trial, and the result was, on his employers going over the work when it was supposed to require doing again, that it was deemed unnecessary. Your Oxide of Zinc was that employed, and we have supplied it subsequently, but, of course, time alone will confirm the result. The Zinc was used both in paint and dry, same as Whiting or Paris White.—We are, Gentlemen, your obedient Servants,

(Signed)

J. MATTHEWS & CO.,

1, Orford Street, Liverpool, June 22, 1852.

This is to certify, we painted the Ship "Owen Potter" in June, 1851, with Zinc Paint, manufactured by Mr. LANGSTON SCOTT, of London, which quite suited our expectation as to colour and durability, on her return from Calcutta in April last. We also found in the Barque "Agnes" of London, that her cabin, ceilings, state-rooms, &c., were not affected by the Steam of a Sugar Cargo, as had always been the case when

* WHITE-LEAD.—It is calculated that the use and manufacture of every thousand tons of White-Lead produce, on an average, a hundred and twenty patients and five deaths.—*The Builder*, October 8th, 1853.

painted with White-Lead Paint, the Zinc Paint, in this case, quite retaining the purity of its original colour. (Signed) J. & W. WILSON,

Mr. W. W. COOZE, 23 Frith Street, Soho Square, Dec. 16th, 1851.

Dear Sir,—In answer to your inquiry respecting my opinion of the Zinc Paint, I beg to say that, having used it very extensively, I have had an opportunity of testing it in various ways, and have come to the conclusion that it must ultimately supersede White-Lead.—I remain, dear Sir, yours very truly,

TURNING LATHE AND EDGE-TOOL MANUFACTORY.

NOTICE OF REMOVAL.

JOHAN CUTHBERT, TURNING LATHE and EDGE-TOOL MANUFACTURER (Successor to the late Mr. GEORGE YOUNG, Edge-Tool Maker), in intimating his REMOVAL from 12 DUNLOP STREET to 56 OLD VENNEL, begs respectfully to take this opportunity of tendering his thanks to his numerous Friends, Customers, and the Public generally, for the steady and liberal patronage awarded him during the long period he has been in business.

J. C. would also state, that, from his lengthened experience in the employment of the late Mr. Young (so long and well known in the trade), his usual strict attention to good workmanship, and having secured the services of an extra number of experienced first-rate Workmen in the line, combined with the facilities derived from large and commodious Premises, he is now enabled to execute orders with despatch, to the satisfaction of his Patrons, and solicits a continuance of their favours.

GEORGE A. HOPE, GENERAL MERCHANT, 21 GREENHEAD STREET,

RETURNS his sincere thanks to his Friends and the Public generally, for the liberal patronage he has received since commencing Business in Glasgow. He has erected Large Premises in 21 GREENHEAD STREET, for the sole purpose of DRYING DAMAGED WET COTTON, FLAX, and all kinds of SOFT GOODS.

G. H. having had long experience in the above line, feels confident that there will be nothing wanting on his part to give satisfaction to those who may favour him with a trial.

He has also on hand, Gigs, Dog Carts, and Carriages of every description. Cotton Waste for cleaning Machinery of every description.

Orders left at the above Establishment will be punctually attended to.

Glasgow, *May*, 1854.

and, having been in business in Cumberland for twenty years, hopes, by quality of Work and punctuality, to merit a share of Public patronage.

The following are a few of the numerous Testimonials J. B. has received:—

“Maryport, 21st July, 1846.

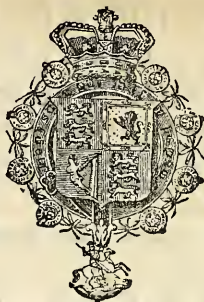

“We have much pleasure in certifying that we have for many years employed Mr. Jas. Brooker in Carving Figure Heads and Sterns, and all other Carved Work belonging to Vessels and that we consider him inferior to none, but superior to most in that Art. We feel confident that he will give satisfaction to those who may employ him.

“K. WOOD & SONS, Shipbuilders.”

(From the “Whitehaven Herald,” May 16, 1846.)

Respecting the launching of a new Vessel named the ‘Lord Hardinge,’ the Editor thus writes:—“She has a finely-executed and elaborately-defined full-length portrait of that gallant soldier and wise statesman, in the full uniform of a field-marshal, and having all his newly-acquired badges of honour conspicuously set forth, as a figure-head. Also a beautiful medallion of the gallant General cut in the stern carvings, with other appropriate devices. We understand that the representation of the great warrior is a very striking one. It is, in our opinion, as fine a piece of workmanship as ever we saw from the chisel of that eminent carver, Mr. Brooker of Maryport.”

NOTICE OF REMOVAL
OF
THE GLASGOW
TUBE AND METAL WAREHOUSE
TO THE NEW PREMISES,
No. 49 MITCHELL STREET.

WILLIAM JOHNSTON,
METAL BROKER, BIRMINGHAM FACTOR,
MANUFACTURER OF, AND AGENT FOR, EVERY DESCRIPTION OF
GAS-LUSTRE MATERIALS,
PLUMBERS' AND BRASSFOUNDERS' FURNISHINGS.

IN announcing his removal to the premises just erected, in accordance with a plan suited to the peculiar requirements of this business, Mr. Johnston deems it a proper opportunity to introduce a list of leading articles, which was rendered all the more necessary, as few of the customers or general trade were aware of the *full variety* of the goods kept in stock by him, and much disappointment and trouble to them was the consequence.

Special attention is invited to the fact, that the Glasgow Tube and Metal Warehouse is the only place in Scotland where a Stock is kept of **ALL THE ARTICLES** required by **LAMPMAKERS** and **BRASSFOUNDERS**.

It is the exclusive source of supply in Scotland for most of the new patterns in **Struck Work** and **Lamp Furnishings**, in addition to the productions of the older houses, whose patterns are more general.

No agency is entered into for Metals or other goods, unless put into a position to sell at least as cheap as if ordered direct from the Works.

The Trade can thus procure, through one channel, the productions of various manufacturers, which would otherwise require to have been ordered in several different lots, liable to delays, high prices, and expense of extra charges for goods in separate parcels.

Not the least important advantages to the Trade are, that they can at all times get conveniently and promptly all that is required. The same attention being given to small as to large orders, they can avoid the necessity of keeping a large assortment of goods, and consequently lessen the risk of loss on bad stock.

TUBES.

Tubes of every description, for Locomotive and Marine Boilers, Gas, Steam, &c. Brass Tubes of the best Birmingham quality, for Lustre-makers. Tin and Composition Gas-pipe. Fancy *Reeded*, *Spiral*, and *Cable* Brass Tube, from $\frac{3}{8}$ to 2 in. diameter, always in stock. Brass Beading, or Open Joint Tube. Patent Cased Tube, for Picture Rods, any size to order. Tubes made expressly for Beer Engines, and Pump Chambers for Plumbers. Copper Tubes of the usual sizes always in stock. Superior Machine-drawn Copper Tubes, for Heating and Condensing Apparatus, to any dimensions required by the Trade.

METALS.

Bismuth; Regulus of Antimony; Silesian Spelter; Foreign Sheet Zinc; Copper; Tin; Brass Sheets, all gauges; Rolled Brass, all widths in Stock, from 2 to 18 inches, in any length, suitable for Door and Window Plates, for Engravers, &c.; Hard-Rolled Copper for Print-cutters; Spring Brass, for Printers' Rule-makers and other purposes; Copper and Brass Wires; Annealed Brass Wire, for Reed-makers; Soft Copper Bottling-Wire; Rivets, and Washers; Spelter Solder; German Silver, any quality, to order; Tin or Lead Foil, for Damp Walls, &c. &c.

In Sheet Zinc and Spelter, Mr. Johnston has made very satisfactory arrangements with one of the first houses in Germany; he was the first to break down the monopoly prices in the former article last year, and the growing demands for Zinc have induced him to keep a stock in his Leith Store, for the convenience of the East and North of Scotland customers, and thus avoid delay and extra carriage.

FILES AND STEEL.

These articles being so much used by the Trade, and the inadequacy of the former Warehouse preventing the keeping of such a stock, Mr. Johnston is now happy to be able to comply with the numerous requests of his customers. The variety of qualities that are made have led to frequent disappointment, it being well known that a cheap sort are made to sell in retail shops, and a better quality are sold to engineers, brassfounders, &c. It will be his interest and study to supply a genuine article, even although at a price above what some qualities of files are to be had for.

MALLEABLE IRON TUBES, &c.

Patent Welded Tubes, for Gas and Steam, may be had all sizes and lengths, as required, with Knees, Tees, Bends, Couplers, and other requisites connected therewith, of the best English make, and sold at the English list, with the most liberal discount to the Trade therefrom, which varies according to the price of iron.

GAS LUSTRE MATERIALS.

ROUGH-STAMPED BRASS WORK.—This department has always had that special attention which, to the Lampmaker, its importance deserves, so far as the production of novel and tasteful designs is concerned. From Mr. Johnston's knowledge of the requirements of the Trade, he can always suggest to the Die-sinkers and Stampers improvements which might otherwise have been overlooked, and, in order to maintain his position as THE ONLY PARTY in the kingdom who keeps a full and varied assortment of every requisite for Lamp-makers, he has obtained a direct interest in the productions of several of the Works in Birmingham.

Every style of pattern in Vases, Turnover Leaves, Rosettes, Ceiling Plates, Bracket and Lamp Arms, Spouts, Husks, Knobs, Balance Weights, 2, 3, 4, and 6 light Lamp Bodies (soldered together, or with arms loose or to screw). Chain Links, cast or stamped, in every variety. Rollers, rough or burnished, and lacquered, of an improved description. Brass Washers, all sizes, made by machinery.

From the mode of manufacture, every Washer of each size must be exactly alike, and, as they require no filing up, the advantage over cast ones must be evident to the Trade.

MISCELLANEOUS.—Balance Weight Metallic Cord; Brass Wire Chain, double, single, and extra close; Johnston's Newly-Registered Chain (No. 95267, dated March 10th, 1854), which, although as cheap as a Wire Chain of same size, will sustain a weight of 3 cwt.; Pure Bohemian Black-Lead for Bronzing Work; Lacquers of all shades, green, gold, and pale; Dipping Aquafortis and Marine Acid; Black-Lead Crucibles of the best quality; Flexible Gas-Tube; Gas-Burners, screwed and plug (Milne's and common); Holdfasts, Circular Lathe Brushes, &c. &c.

ORNAMENTAL GLASS.

BOHEMIAN.—Cut Crystal Lamp Dishes, Star Pans, &c., drilled and fitted with pins, ready for mounting; Arms, Vases, Pillars, Rosettes and Points; Prisms, all sizes and styles of shape and cutting; and every other requisite for the manufacture of those elegant crystal chandeliers and girandoles, which would have been much more in use in this country but for the high prices charged for the English cut glass; and, till recently, the Foreign glass had to pay an excessively high duty. As a crystal lustre can now be produced at very little more than the price of a good brass one, the Trade may calculate on an increasing and permanent demand for these elegant articles.

In Coloured Bohemian Glass, Mr. Johnston is receiving, from time to time, samples from various makers in that country of every new style of ornamentation and shape, most of which being engaged patterns, are to be had only through him. A large assortment of Vases, Arms, Pillars, Lilies, &c., of all colours of Glass, plain, gilt, stained, and enamelled in a style unsurpassed in this country for cheapness and taste.

In Bohemia, the Glass Manufacture is very much subdivided, few houses manufacturing more than one description of article—some excelling in flint, others in white, and others in the various colours, from which it will be apparent that no single maker or agent for one maker can supply variety of articles to the Trade advantageously. From the extent of Mr. Johnston's Foreign Glass trade in England and Scotland, he has, through the medium of his Hamburg bankers, been enabled to open a connection with the best manufacturers in Bohemia who excel in the respective branches of the trade.

ENGLISH.—Opal, Blue, Green, and Ruby Glass Arms and Vases, Lilies, Beer-pump and Bath-pull Handles, &c., in considerable variety.

Since the introduction, on the above-mentioned scale, of Foreign Glass, the trade in English Coloured Glass has declined, the Foreign being as superior in quality to the English as the latter is to the Glasgow Fancy Ornamental Glass manufacture. Besides being superior in quality of colour and style of ornament, the Bohemian Glass is now much cheaper.

MOONS OR SHADES.—In all shapes, plain, obscured, engraved, and cut, in every variety of pattern. Painted Moons, for Shops and Lobbies, in all varieties of style. Patterns painted to order on shortest notice. The lithographed sheets of patterns may be had on application. Chimneys, plain and French shapes, all sizes.

SILVERED GLASS REFLECTORS.

Agent in Scotland for the Brilliant Reflectors of the Patent Glass Silvering Co. of London. They are applicable to Signal Lights, Shops, Railway and Private Carriages, Binnacle Lights, &c., and surpass anything hitherto accomplished; their durability, united with their moderate price, render them the cheapest as well as the best. Common Plated Reflectors tarnish with the consumption of gas or oil, and soon get useless by the necessity for frequent polishing and cleaning. The Glass Reflectors do not tarnish, and consequently require no cleaning. They have been adopted by the Admiralty for the use of her Majesty's Navy, the Great Western, Great Northern, Eastern Counties, South-Eastern, and other Railway Companies. A full assortment of all the sizes kept in stock. The other elegant productions of this Company are very varied, and although not kept in stock, can be had to order on short notice; and, as the risk of breakage and expense of carriage will be avoided by having articles brought down in the usual packages to the Warehouse here, orders will be punctually attended to.

THE PATENT PINNACLE ANTI-CORROSIVE GAS-BURNER (Argand), can be most advantageously used with the above Reflectors. The light is purer and more brilliant than that given by the common Argand Burners, which are liable to rust up in the iron part where the holes are drilled. The points or pinnacles of this new Burner being made from a durable, hard, white, anti-corrosive metal, have no tendency to go out of repair. They are made of two sizes, 18 and 24 hole, with chimney-holders; also moon or reflector-holders, as required. Having been tested by one of the managers of our gas-light companies, they are found to consume quite as little gas as the old style of Argand, which only gives half the light the pinnacle one does.

PLUMBERS' MATERIALS.

CAST-IRON GOODS.—Rain-water Pipes, Cups, Shoes, Swan Necks, Runs (plain half-round and ogee patterns), Angles, Drops, Stop Ends, &c.; Jaw-Boxes, with improved overflow; Sink Traps; Water-closet Metals; Boilers (plain and spouted), sold on the same terms as at the foundries in Glasgow, and priced at the recognised Glasgow list, as agreed upon by the Trade at their meetings.

ZINC GOODS.—Pipes, Runs, Ridges, &c.

PANS, BALLS, &c.—Mr. Johnston now employs in Birmingham a number of hands for this description of work, and can execute orders to any extent, from any weight of metal, and of any size that may be required. **TINN'D COPPER CISTERN BALLS**, all sizes, from 4 to 10 inches. **WATER-CLOSET PANS**, made of an anti-corrosive hardened alloy of copper, which are more durable, and less liable to be affected by the acid than when made of the usual sheet copper. From the mode of manufacture, these pans are strongest in the bottom part (where they are most liable to wear through), and, being made from one solid piece of metal, there are no soldered seams to open and give way. They are now produced of such strength and superior finish, as to have almost entirely superseded every other description in this country. **BRASS CLOSET-PANS**, made by the same machinery as the above, burnished and lacquered, and by some are preferred to the copper or anti-corrosive ones. **BRASS COUNTER, CABIN, and WASH-HAND BASINS**, of all sizes, from 10 to 16 inches diameter inside of the flange. These Basins are now made as deep as required, being quite half-round in the bowl (a matter only recently accomplished by machinery); and from their superior finish, absence of hammer-marks, and moderate price, they have now entirely superseded the old rough process of hand manufacture hitherto in use, and which cost about fifty per cent. more. These Basins are seamless, and although those in stock are made of burnished brass, they can be made of copper, and tinn'd; or of zinc, if required.

Superior Brass and Iron Wire Chain; Wires, Tubes, Zinc; Marine Acid, and other articles required by the Trade, are included in the Tube, Metal, and other departments already detailed.

EARTHENWARE BASINS.—In compliance with suggestions from so many of the Plumbers in Scotland, Mr. Johnston has added these goods to his list, and hopes to offer such inducements as to style of patterns, quality, and price, as to command a large sale, which will be convenient to the Trade, and mutually advantageous.

* * *The Plumbers' Price List may be had on application.*

Wholesale Agent for Scotland for Schlessinger's Newly-Invented **AUTOGRAPH MACHINES**, by which Merchants, Bankers, and others, may, from a Written Letter, Circular, Price List, or Sketch, throw off, in a few minutes, any number of copies, with secrecy and despatch.

Orders received for *Copying Presses, Embossing Presses, Milner's and other Fire-Proof Safes, Iron and Brass Bedsteads*, for shippers and the home trade.

While acknowledging the support Mr. Johnston has met with in *introducing* into the Metal, Tube, and Fancy Lamp Material Trade, a system of small profits on his own manufactures, and moderate commission for his agencies, he has to apologise for many delays, irregularities, and disappointments to valued customers—in England and Ireland as well as in Scotland—in the execution of orders, which were unavoidable, on account of the inadequacy of the late premises, and the pressure of a trade which was increasing with a rapidity quite unanticipated, and, consequently, not properly arranged for. Additional assistants, the introduction of more capital into the business, the extent and suitability of the new premises, will go far to remedy these occurrences in future.
