## BOARD AND EDUCATION OF YOUNG LADIES,

12 CONSTITUTION TERRACE, DUNDEE.

---

**M**ISS HODGE begs respectfully to intimate to the inhabitants of Dundee and Neighbourhood that she has acquired that large and handsome Villa, 12 Constitution Terrace, where she will open Classes for the Education of Young Ladies. She will be assisted by a large staff of Masters, French and English Governesses, the whole being under her direct personal superintendence. The object of the Institution is to provide a High-class, and at the same time sound and healthy, Education; and with this end in view, Miss HODGE will make it her especial study to promote in every way the best interests of the children, and will personally attend to their moral and religious training.

The House is eminently fitted for educational purposes, occupying a commanding and airy site; it is very healthy, and convenient for all parts of the town, being within a short distance from the centre.

There is a large extent of recreation ground, including a Croquet Lawn for the use of the pupils. The Class-rooms are of a superior kind, being large and well ventilated, and the fittings are such as have been suggested by careful observation and long experience. In connection with the Institution there will be an **INFANT DEPARTMENT** for younger children, and Miss HODGE will bring to bear on their tuition the best features of the Kindergarten and other systems.

In order to give the Institution a wider range, opportunity will be afforded for children from a distance comfortably taking their luncheon, or it can be arranged that luncheon or dinner may be provided for them. They will receive every attention, and any suggestion that parents may make in this matter will be respected. Besides day pupils, Miss HODGE is prepared to receive a limited number of Boarders, to whose health and comfort every attention will be paid. For Boarders, the House, owing to its situation and large extent of ground, offers many advantages.

# DUNDEE DIRECTORY.

1876-77.

## HISTORY AND PROGRESS OF THE TOWN.

DUNDEE has long held an important place among the towns of Scotland. It is the third in point of population, and the second in mercantile and manufacturing importance. It is very ancient, and is believed to have existed at least as a village in the time of the Romans, as the remains of fortifications deemed to have been constructed by these warlike people still exist in the neighbourhood. It stretches for fully three miles along the north bank of the Tay, at about ten miles from the confluence of that river with the German Ocean. Its appearance from the stream or the opposite shore is highly picturesque and pleasing. It is placed for the most part on rising ground, crowned by wooded or green hills, which add greatly to the beauty of its situation. The Tay is here nearly two miles in breadth, and affords sufficient depth of water for vessels of the largest tonnage to enter its spacious and excellent harbour. In the centre of the town is the High Street, forming an oblong square 360 feet long by 100 feet in breadth, from which the leading thoroughfares diverge.

The following are the census returns for the last eight decades:—1801, 26,084; 1811, 29,716; 1821, 30,908; 1831, 45,355; 1841, 66,232; 1851, 78,829; 1861, 91,511; 1871, 121,975. It thus appears that the population has been more than quadrupled since the present century began.

Than Dundee perhaps no town in Scotland has suffered more from the ravages of war, it having been several times besieged, sacked, and pillaged. The most disastrous siege it ever sustained was in 1651, when it was taken and plundered by General Monk. The troops forming the garrison defended themselves with intrepid and persevering valour for about six weeks, but were at last obliged to capitulate. The governor was decapitated with base barbaric revenge, and his head placed upon one of the abutments of the Steeple, where it remained till the stone to which it was attached fell to the ground. The besieged forces amounted to about 11,000, and were to a great extent put to the sword. In addition to what was suffered by the garrison, about 1300 of the inhabitants were slain. Monk and his soldiers obtained an immense amount of booty. All the wealth which had accu-

culated from many successful commercial pursuits, and all the money and valuables which had been brought from other places by the numerous strangers who had crowded into it as a place of security, fell a prey to the revengeful and avaricious soldiery. The vessels belonging to the port, amounting to 100, were taken, and part of them loaded with the spoil and sent to sea, but most of them were lost within sight of the port, and thus great part of the wealth perished. The affairs of the town continued to be in a very depressed state till last century was considerably advanced. It was feared at one time that the town was utterly ruined. The disasters produced by the siege were followed by seven years of scarcity, caused by defective crops, as well as by another misfortune. Dundee was at the beginning of the last century the seat of the plaiding manufacture, and it promised to be an increasing and lucrative trade; but the hopes entertained regarding it were doomed to disappointment, by the partiality of the Government for the English manufacturers. An Act of Parliament was passed prohibiting the exportation of woollens from Scotland, and thus the manufacture was secured by the English. Some time afterwards the manufacture of linen was introduced, and has found in Dundee a congenial soil. Up to nearly the beginning of the present century it was carried on to a limited extent, the yarns having been all handspun and made into cloth by the hand-loom; but in 1793 spinning by machinery and motive power was commenced, and a great impulse was thus given to the business. Weaving by machinery followed in 1836, Messrs Baxter Brothers having been the first to introduce power-looms into their gigantic works. They were followed by Messrs A. & D. Edward, Messrs Gilroy Brothers, and others, so that very few works of any magnitude are now without a weaving department of corresponding extent, as well as calendering and press-packing premises.

About 1824, an importation of jute, then called "sun hemp," was received from India, but the first experiments made with it were not successful, and it did not seem likely to form a new fibre for our manufacturers; but by perseverance, skill, and improved machinery, all difficulties were ultimately overcome, and it is now used to a vast extent, and has added immensely to the business as well as to the wealth of the town. The quantity of jute imported into Dundee in 1875 was 113,930 tons, while of flax, hemp, tow, and codilla, which long formed the leading articles used by our manufacturers, only 30,743 tons were imported. India, where the jute is produced, has entered into competition with our manufacturers; but as they have the world to supply, it is expected the demand will be equal to take up all that can be produced. The goods into which jute is manufactured are carpeting, bagging, hessians, and other fabrics requiring to be produced from cheap material.

The extent of the staple trade of Dundee has led to an increase of the shipping of the port. In 1731, the number of vessels belonging to the Tay and St Andrews amounted to 70, the tonnage being 2309; but single vessels now occasionally enter the harbour, whose tonnage is about equal to that of all the vessels belonging to the Tay and St Andrews in 1731. The vessels belonging to the port, though rather fewer in number than at one time, are of larger tonnage, and for elegance in appearance and efficient equipment are not surpassed by the mercantile navy of any port in the kingdom. It is by vessels belonging to Dundee that the sealing and whaling business is now chiefly prosecuted. A fleet of strongly-built and well-fortified ships sail in the spring for the capture of the seal, and on their return, after discharging and refitting, proceed to the whale fishing. The success is variable, but over a succession of years is found to be a remunerative industry.

The Harbour is now admirably adapted for the reception of vessels of every class and size. Besides the tidal and ferry harbours, it consists of four wet docks extending to about 35 acres, and two dry docks, one of them now finishing being 500 feet long, and capable of receiving two vessels of the largest class at a time. Previous to 1815, the harbour was very defective, neither affording sufficient safety nor depth of water, but its improvement was then begun, and has been proceeding ever since. It has cost upwards of three quarters of a million. The gross tonnage of the port is upwards of 80,000.

An Improvement Bill for the town was obtained by the Magistrates in 1870, and the changes authorised to be made by it are in course of being carried out; Victoria Road, formerly Bucklemaker Wynd, is now a spacious and handsome street; and when the improvements are completed, the complaint made as to the narrowness and inequality of some old streets will be removed.

Dundee is now abundantly supplied with excellent water. Upwards of thirty years ago, a supply was obtained from Monikie by means of a Joint Stock Company, but in consequence of the rapid increase of the town, and the quantity required for manufacturing purposes, it was found to be inadequate, and a scheme was in 1871 promoted by the Town Council for bringing a more ample supply from the Loch of Lintrathen. It was completed in the autumn of last year, and is capable of yielding ten millions of gallons daily, which, with the quantity obtained from Monikie, will give about fifteen millions. Both are now the property of the community, and are under the management of Commissioners.

In order to facilitate intercourse with the South, an Act of Parliament was passed in 1870, authorising the construction of a Bridge across the Tay. The vast undertaking is now making rapid progress, and is ex-

pected to be completed next year. The cost is estimated at £300,000. The North British Railway subscribed £100,000, the remainder of the money is being supplied by the shareholders. It will be the longest bridge in the world, and will consist of nearly 90 spans, the girders resting either upon brick columns or strong cast-iron pillars. The spans over the navigable part of the river will be 245 feet in width, and 88 above the surface of the water.

The Tunnel along Dock Street, an important and expensive undertaking in connection with the Bridge, is making favourable progress, and will be finished by the time the Bridge is ready for traffic.

Fully 70 Churches exist in Dundee for the requirements of the various communions, and are in general well attended. The Benevolent Institutions for the relief of the poor and distressed are numerous. Besides the High School and the Morgan Hospital, there are many educational seminaries in the town, and the School Board have either acquired or are constructing others, still further to promote the instruction of the young.

A Free Library was established in 1866, and appears to be increasing the number of readers.

The erection and endowment of a College in Dundee has been contemplated, but the scheme appears to be deferred for the present. However, so far to supply University instruction, Principal Tulloch and two other of the St Andrews Professors gave courses of lectures here last winter, and it is understood that they are to continue their prelections during the next and succeeding winters.

In taking a survey of the town, the stately and venerable tower, the Old Steeple, although less lofty than some of the spires of recent erection, still appears to be the most conspicuous object.

A building of very ornate and elegant architecture, intended for the Clydesdale Bank, is now in the course of erection. It will form the eastern termination of the High Street.

The Esplanade, extending from the Craig Pier to the Magdalen Green, now affords to the inhabitants a pleasant and refreshing promenade.

The Public Baths, which have for some time been closed for the purpose of being greatly improved and enlarged, have just been re-opened. It is expected, when fully completed, that they will be among the most commodious and handsomely fitted up in the kingdom.

A statue in bronze of Mr James Carmichael, the celebrated engineer, is now completed, and will soon be placed upon its pedestal in Albert Square. Another, in marble, is intended for the residence of a relative.

There are now three Daily Newspapers published in Dundee, and two Weeklies, besides a literary periodical.

## POSTAL DIRECTORY.

POST-OFFICE, DUNDEE—POST-OFFICE BUILDINGS, TOP OF REFORM STREET.

WILLIAM GIBB, Postmaster.

On Week Days the Office is open for Postal business from 6.45 a.m. till 9 p.m.; and for Money Order, Savings Bank, Life Insurance, and Annuity business, from 9 a.m. till 6 p.m.

On Sunday the Office is open for Postal business from 9 till 10 a.m. only, but the Letter-Box remains open as on other days.

For Telegraph business there is attendance continuously during the day and night, both on Week Days and Sundays.

For Arrivals and Departures of Mails, see pages 82 and 83.

### RATES OF POSTAGE—INLAND LETTERS.\*

The rates of postage when prepaid are as follows, viz. :—

For a letter not above 1 oz.†	-	-	-	1d.
„	above 1 oz. but not above 2 oz.			1½d.
„	„	2 oz.	„	4 oz. 2d.
„	„	4 oz.	„	6 oz. 2½d.
„	„	6 oz.	„	8 oz. 3d.
„	„	8 oz.	„	10 oz. 3½d.
„	„	10 oz.	„	12 oz. 4d.

A letter above the weight of 12 oz. is liable to a postage of 1d. for every ounce, beginning with the first ounce. Thus, a letter weighing between 14 and 15 oz. must be prepaid 1s. 3d.

A letter posted unpaid is chargeable on delivery with double postage; and a letter posted insufficiently prepaid is chargeable with double the deficiency.

No letter may be above 18 inches in length, 9 inches in width, or 6 inches in depth, unless it be sent to or from one of the Government Offices.

### COLONIAL AND FOREIGN LETTERS.

For the rates of postage on letters to the colonies and foreign countries, see page 84.

A letter posted unpaid, or paid only in part, directed to any place abroad to which prepayment is compulsory, is sent to the Returned Letter Office, to go back to the writer. Letters, however, for Australia and New Zealand, if prepaid as much as one rate (even although the prepayment be insufficient), are not detained, but are forwarded charged with the deficient postage and an additional rate.

A letter posted insufficiently prepaid for a place to which prepayment is optional is sent forward charged; the value of the stamps, however, being as a rule, taken into account.

No letter for any colony or foreign country may be above 2 feet in length or 1 foot in width or depth.

\*Inland Letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

† If the weight be exceeded to the smallest extent, even though the balance be merely turned, the letter becomes liable to a higher postage. The same rule applies to Letters going abroad. To provide, therefore, for errors in scales, &c., it is well to allow a little margin, or to pay the postage of the next greater weight.

## INLAND NEWSPAPERS.

Under the "Post Office Act, 1870," any publication fulfilling the conditions hereafter named can, upon payment of an annual fee of 5s, be registered at the General Post Office to pass within the United Kingdom as a newspaper for a postage of one halfpenny. Without such registration no newspaper is entitled to be sent through the post at less than the book rate of postage. The conditions are as follows :—

- 1st. The publication must consist wholly or in great part of political or other news, or of articles relating thereto, or to other current topics, with or without advertisements.
- 2nd. It must be printed and published in the United Kingdom, must be published in numbers at intervals of not more than seven days, and must be printed on a sheet or sheets unstitched.
- 3rd. The full title and date of publication must be printed at the top of the first page, and the whole or part of the title and the date of publication at the top of every subsequent page.
- 4th. A supplement must consist wholly or in great part of matter like that of a newspaper, or of advertisements, printed on a sheet or sheets, or on a piece or pieces of paper, unstitched; or wholly or in part of engravings, prints, or lithographs illustrative of articles in the newspaper. The supplement must in every case be published with the newspaper, and must have the title and date of publication of the newspaper printed at the top of every page; or, if it consists of engravings, prints, or lithographs, at the top of every sheet or side.

Registration for inland circulation includes registration for transmission abroad.

For each inland newspaper, whether posted singly or in a packet, the postage, when prepaid, is one halfpenny; but a packet containing two or more registered newspapers is not chargeable with a higher rate of postage than would be chargeable on a book packet of the same weight, viz., one halfpenny for every 2 oz. or part of that weight.

A newspaper posted unpaid, or a packet of newspapers posted either unpaid or insufficiently paid, is treated as an unpaid or insufficiently paid book packet of the same weight.

The postage must be prepaid either by an adhesive stamp, or by the use of a stamped wrapper.

No newspaper can now be sent through the post a second time for the original postage. For each transmission a fresh postage is required.

Every newspaper must be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, or sealing wax, postage stamp, or otherwise) or in a cover entirely open at both ends, so as to admit of easy removal for examination. If this rule be infringed, the newspaper is treated as a letter.

Every newspaper must be so folded as to admit of the title being readily inspected.

A newspaper or packet of newspapers which contains any enclosure except supplements is charged as a letter, unless the enclosure is such as might be sent at the book rate of postage, and the entire packet be sufficiently prepaid as a book packet, in which case it is allowed to pass.

A newspaper which has any letter, or any communication of the nature of a letter, written in it or upon its cover, is charged as an unpaid or insufficiently paid letter.

No packet of newspapers may be above 14 lbs. in weight, nor above two feet in length, one foot in width or depth.

## COLONIAL AND FOREIGN NEWSPAPERS.

For the rates of postage to the colonies and foreign countries on newspapers registered for transmission abroad see page 84. Each newspaper is liable to a separate rate of postage, whether sent singly or in a packet, and, if above 4 oz. in weight, it is liable to two rates of postage; and so on.

The conditions of registration for transmission abroad are the same as those for inland transmission; excepting that for foreign transmission, a newspaper may be published at intervals of thirty-one days; and that it may be printed (but not its supplement) on sheets stitched together. Moreover, prices current and market reports (but not private price lists or trade catalogues) may be registered as newspapers for foreign transmission, provided that they be published at intervals not exceeding thirty-one days.

The postage, *which must be prepaid*, cannot be paid in money.

All publications registered for transmission abroad *must be posted within eight days from the day of publication*, including that day; and any newspaper posted more than eight days after the date of publication, as well as any unregistered publication, must be prepaid at the book rates of postage.

The collected numbers issued during the month of a weekly or fortnightly publication are not allowed to pass as a monthly publication.

Every newspaper must be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, sealing wax, postage stamp, or otherwise), or in a cover entirely open at both ends, so as to admit of easy withdrawal for examination.

Every newspaper must be folded to admit of the title being readily inspected.

No newspaper, whether posted singly or in a packet, may contain any enclosure except the supplement or supplements belonging to it.

There must be no writing or other mark on a newspaper sent abroad but the name and address of the person to whom it is sent; nor anything on the cover but such name and address, the printed title of the publication, the printed name and address of the publisher and vendor who sells it, and words indicating the date on which the subscription to the newspaper will end.

No packet of newspapers may be above two feet in length or one foot in width or depth.

## INLAND BOOK POST.

The postage is one halfpenny for every 2 oz. or part of that weight.

A packet posted wholly unpaid is charged with double the book postage; and if posted partially prepaid, with double the deficiency.

A book-packet may contain any number of separate books or other publications (including printed or lithographed letters), photographs (when not on glass or in cases containing glass or any like substance), drawings, prints, or maps, and any quantity of paper or any other substance in ordinary use for writing or printing upon; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed, or plain, or any mixture of these. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof, is allowed, whether such binding, &c. be loose or attached; as also rollers in the case of prints or maps; markers (whether of paper or otherwise) in the case of books, pens, or pencils, in the case of pocket-books, &c.; and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto; but the binding, rollers, &c., must not be sent as a separate packet.

But a book-packet may not contain any letter, or communication of the nature of a letter\* (whether separate or otherwise), unless it be a circular-letter

\*Entries merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter.

or be wholly printed; nor any enclosure sealed or in any way closed against inspection; nor any other enclosure not allowed by the preceding paragraph. If this rule be infringed, the entire packet is charged as a letter.

A book-packet may be posted either without a cover (in which case it must not be fastened, whether by means of gum, wafer, sealing wax, postage stamp, or otherwise), or in a cover entirely open at both ends, so as to admit of the contents being easily withdrawn for examination;\* otherwise it is treated as a letter. For the greater security of the contents, however, it may be tied at the ends with string.

No book-packet may be above 5 lbs. in weight, nor above 1 foot 6 inches in length, 9 inches in width, or 6 inches in depth, unless it be sent to or from one of the Government offices.

When, owing to a great and unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with without distinction, book-packets may be kept back till the next despatch or delivery.

*Circulars*,—*i.e.*, letters which are intended for transmission in identical terms to several persons, and the whole or the greater part of which is printed, engraved, or lithographed,—may also be sent by book post.

#### COLONIAL AND FOREIGN BOOK POST.

For the rates of postage on book-packets to the colonies and foreign countries, see page 84

The limit of size for a book-packet addressed to any place abroad is 24 inches in length and 12 inches in width or depth.

#### COLONIAL AND FOREIGN PATTERN AND SAMPLE POST.

The Pattern and Sample Post is restricted to *bonâ fide trade patterns or samples of merchandise*. Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another which are not actually patterns or samples, are not admissible.

The rates of postage for patterns are the same as for books going abroad. See page 84.

Patterns or samples, when practicable, must be sent in covers open at the ends, and in such a manner as to be easy of examination. But samples of seeds, drugs, and such like articles, which cannot be sent in covers of this kind (but such articles only) may be posted enclosed in boxes, or in bags of linen, or other material, fastened in such a manner that they may be readily opened; or, in the case of samples of seeds, &c., for the United States of America, Holland and its possessions, Belgium, Denmark, Greece, Portugal and its possessions, and Switzerland, in bags entirely closed, provided such closed bags are transparent, so as to enable the Officers of the Post Office readily to satisfy themselves as to the nature of the contents.

There must be no writing or printing upon or in any packet except the address of the person for whom it is intended, the address of the sender, a trade mark or number, and the price of the articles.

#### INLAND CARD POST.

Post Cards, whether official or private, having a halfpenny stamp impressed upon them (adhesive stamps not being accepted in payment of the postage) may be transmitted between places of the United Kingdom with letters written upon the back.

---

\* In order to secure the return of packets which cannot be delivered, the names and addresses of the senders should be printed or written *outside*, thus—"From \_\_\_\_\_, of \_\_\_\_\_."

The official "stout" Post Cards are sold at the rate of 8d for 12 cards, or 4d for 6 cards. The "thin" cards are sold at the rate of 7d for 12 cards, or 3½d for 6 cards. Neither the "stout" nor the "thin" cards are sold singly.

The front (or stamped) side is intended for the address only, in addition to the printed words "Post Card" and "The address only to be written on this side." There must be nothing else written, printed, or otherwise impressed on it, nor must there be any writing or printing across the stamp. On the reverse side any communication, whether of the nature of a letter or otherwise, may be written or printed. Nothing whatever may be attached; nor may the card be folded, cut, or otherwise altered. If any one of these rules be infringed, the card will be charged 1d on delivery.

When, owing to a great and unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were dealt with without distinction, Post Cards may be kept back until the next despatch or delivery.

No card other than one of those issued by the Government, or a private card impressed with a halfpenny stamp at the Office of Inland Revenue, will pass under a halfpenny stamp, if it bear on it a written communication of the nature of a letter.

#### FOREIGN CARD POST.

Post Cards intended for transmission to foreign countries comprised within the General Postal Union, are sold at the rate of 1½d each.

#### LETTERS, &c., BY PRIVATE SHIP.

Letters intended to be sent by Private Ship must be addressed "By Private Ship;" and if by a particular vessel, the name of the Ship must be added.

The postage of a letter by Private Ship to Ascension, the Cape of Good Hope, Natal, and St Helena, is 4d per ½ oz.; and to the West Indies (British) 3d per ½ oz.

#### REGISTRATION.

The fee for registering a letter, newspaper, or book-packet is 4d.

Every letter to be registered should be presented at the counter, and a receipt obtained for it, and should on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered" be dropped into the letter-box, it will, if directed to any place in the United Kingdom or the British Colonies, be liable to a registration fee of 8d, instead of the ordinary fee of 4d.

The registration of a packet makes its transmission much more secure, inasmuch as, under ordinary circumstances, a registered packet can be traced through its whole course; and thus the loss of a registered packet is a very rare occurrence. Nevertheless, large sums of money or other articles of great value should not be sent through the Post, even if the packet be registered; as the machinery of the Department is not arranged with a view to such transmissions. By law, the Post Office is not responsible for the safe delivery of registered packets; though any officer who may neglect his duty on this point will be called to strict account. Sent in *unregistered* letters, valuable articles are exposed to risk, and offer a temptation which ought not to be created; and the Department cannot in any way undertake the safe conveyance of such packets. All inland or colonial letters, therefore, which contain coin, and all inland letters which contain watches or jewellery, even though they be posted without registration, are treated as registered, and charged on delivery with a double registration fee of 8d in addition to the ordinary postage; and any such letters which cannot be registered in time to be forwarded by the Mail for which they are posted, are detained for the next despatch. Even if the letter do not contain any article of intrinsic value, it should, if it be very important, be registered.

Registration is applicable equally to letters, newspapers, book-packets, and patterns addressed to places abroad.

No letter or other postal packet addressed to initials or to a fictitious name can be registered; nor can any letter be accepted for registration, unless the enclosure be securely placed so as not to move about, and be covered by a proper and well-fastened envelope.

### MISCELLANEOUS REGULATIONS.

The Post Office is not, by law, responsible for any loss or inconvenience which may arise from the non-delivery, mis-sending, or mis-delivery of any letter, book, or other postal packet (even if the packet be registered); nor is the Post Office responsible for any injury which a packet may sustain during its transmission.

To guard against such injury all postal packets which are likely to suffer from stamping or from great pressure should be placed in strong covers; and even with this precaution no fragile article should be sent through the Post. It should be remembered that every packet has to be handled several times; that it is exposed to considerable pressure and friction in the mail bag; and that, whenever the bag has in the course of its transmission to be transferred by means of the railway apparatus, the risk of injury is much increased.

Postmasters are not allowed to return any letter or other packet to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon.

To discourage the transmission of coin by post, Postmasters, at whose Offices Money Order Business is transacted, are permitted, though not compelled, to purchase postage stamps from the public (provided the stamps be not soiled or otherwise damaged), at a charge of  $2\frac{1}{2}$  per cent.

To facilitate the delivery of letters, a letter-box should be affixed to every house-door.

### MONEY ORDERS.

The public are recommended, when applying for Money Orders, to use the printed "Application Forms," prepared expressly for the purpose, which are supplied gratuitously at all Money Order Offices. These Forms save time, and afford greater security, than verbal messages, against mistakes.

The commission on inland Money Orders is:—

For sums under 10s,.....1d.	For sums of £5, and under £6,.....7d.
" of 10s, and under £1,....2d.	" " £6, " " £7,.....8d.
" " £1, " " £2,....3d.	" " £7, " " £8,.....9d.
" " £2, " " £3,....4d.	" " £8, " " £9, ...10d.
" " £3, " " £4,....5d.	" " £9, " " £10, ...11d.
" " £4, " " £5,....6d.	" " £10, .....1s.

No Order is allowed to contain a fractional part of a penny.

No Money Order can be issued unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter and the payee, together with the remitter's address. In the case of Colonial and Foreign Orders the full address of the payee must be given.

*Exceptions.*—1st. When the remitter directs at the time of issue (which he is at liberty to do), that the order, by being crossed like a cheque, be made payable only through a bank, it is left to his option to give or withhold the name of the payee. 2d. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient. 3d. The usual designation of a firm is sufficient, except in the case of a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company."

Money Orders are issued in the United Kingdom on the following colonies, British agencies, and Foreign countries:—

Alexandria	The German Empire	Queensland
Berbice (New Amsterdam)	Gibraltar	St Helena
Belgium	Gold Coast	Seychelle Islands
Belize (British Honduras)	Heligoland	Shanghai

### POST OFFICE TELEGRAPHS.

The charge for telegrams throughout the United Kingdom, including the Channel Islands and the Isle of Man, but excepting the Scilly, Orkney, and Shetland Islands, is 1s. for the first twenty words, and 3d. for every additional five words, *i.e.*, for every additional group of not more than five words; the names and addresses of the sender and receiver not being counted.

The charge for telegrams to the Scilly Islands is (*in addition to the ordinary Inland rate*) 2s. 6d. for five words or less (exclusive of the address, which is not charged for unless it exceeds 10 words, in which case 6d. is charged for every extra word above 10), and 6d. for each additional word; and to the Orkney and Shetland Islands 6s. for the first 20 words, and 1s. 6d. for every additional five words; except to Moss Bank, Culla Voe, Uya Sound, and Balta Sound, in Shetland, the rates to which are 7s. for the first 20 words, and 1s. 9d. for every additional five words.

When the terminal telegraph office, *i.e.*, the office from which the message is delivered, is a Head Post Office, the amount paid for the transmission of a message covers the cost of delivery within the town postal delivery of that office. But when it is not a Head Post Office, the message is delivered free only within the limit of one mile.

When the addressee resides beyond the above-decried limits, portorage is charged at the rate of 6d. per double mile (that is, a mile out and a mile back), or any part thereof, provided the whole distance to be transversed does not exceed three miles out and three miles back; but the charge is calculated from the boundary of the district within which no portorage is levied. For instance, if the addressee's residence is a mile and a quarter from the terminal

telegraph office, and also beyond the free delivery, the charge for portorage would be 6*d.*; if the distance is above two miles and under three, 1*s.*

If the addressee resides at a greater distance than three miles from the terminal telegraph office, portorage is charged for delivery by mounted messenger at the rate of 1*s.* per double mile, except in Ireland, where the charge usually is only 8*d.* per double mile.

#### POST OFFICE SAVINGS BANK.

The Post Office Savings Bank is open for bank business during the same hours as for Money Orders.

Deposits of one shilling, or of any number of shillings, or of pounds and shillings may be made by any person at the Post Office Savings Banks, provided that such depositor shall not make deposits amounting to more than £30 in any year ending 31st December, or make any further deposit when the amount standing in his name, exclusive of interest, exceeds £150. When any depositor's principal and interest amount together to £200, all interest will cease so long as the balance of the account continues to amount to the said sum of £200.

#### GOVERNMENT INSURANCES AND ANNUITIES.

The Postmaster-General is empowered, under the Act 27 and 28 Victoriae, cap. 43, to insure the lives of persons of either sex, between the ages of 16 and 60, for not less than £20 or more than £100. He is also empowered under the same Act to grant Immediate or Deferred Annuities of not more than £50 on the lives of persons of either sex, and of the age of ten years and upwards.

The persons whose lives are insured or to whom Annuities are granted by the Postmaster-General, have direct Government security for the payment of the money, at the proper time.

Forms of proposals for the Insurance of Lives and the purchase of Annuities, and all necessary information on these subjects, may be obtained at the Post Office.

#### INDIAN PARCEL POST.

1. Persons wishing to send parcels to any part of British India can do so through the Indian Parcel Post Agency—established under authority of the Director-General of the Post Office of India—at 122 Leadenhall street, E.C., and (Branch Office) at 25 Cockspur street, S.W.

2. The charge for parcels is 1*s.* per lb. or fraction of a lb. (prepayment optional), covering transit from London to destination in India. Insurance may be effected, if desired, at the rate (to be prepaid) of 1*s.* up to £3 value, 2*s.* 6*d.* up to £10 value, and 5*s.* up to £20 value. Indian Customs duty (if chargeable) will be realised from the addressee.

3. The maximum weight, size, and value of a parcel are:—weight 50 lbs., size 2 feet long by 1 foot broad and 1 foot deep, value £20.

4. The following are forbidden contents:—Jewellery, watches, precious stones, liquids, or articles of a dangerous or damaging nature.

5. Mode of packing and address:—Parcels must be entirely closed and securely packed and fastened, a covering of cloth or waterproof sewn at the edges being recommended. The Indian address should be legibly written, with the superscription, "By Indian Parcel Post."

6. A letter of advice, stating name and address on parcel, contents and value for Customhouse clearance, with legible signature and address of sender, should be sent to the office (see Clause 1), with each parcel, accompanied by payment, if it be desired to prepay or insure the parcel.

7. A receipt will be given (by the Company) for each parcel received from the country, and for other parcels, if required.

8. Parcels from the country (including all those not booked by the sender or

their messengers or agents in person at the London Offices) may be forwarded to the office in London (see address below) by railway, or any other means available; but the parcel with the Indian address, as in Clause 5, should in such case be enclosed in an outer covering, bearing the address, "Indian Parcel Post Agency, 122 Leadenhall street, London, E.C." The charges for carriage to the above address are additional to charges for transit or insurance under Clause 2, and may be prepaid to the local carrying agent, or left to be paid on delivery in London, and subsequently collected from the addressee. The letter of advice (see Clause 6), with any payment desired for transit or insurance (payment by post should be by cheque or money order, payable to A. M. Bethune), should be sent to the same address by letter post, and the receipt will in such case be forwarded by post.

 MANUFACTURERS AND MANAGERS

 POWERLOOM FACTORIES.

## GEORGE LANGLANDS,

161 HILLTOWN,

**B**EGS to call attention to the New Patented WEFT DRAG for SHUTTLES. The advantages of the Drag is its simplicity, which renders it almost impossible of being disarranged. It gives a uniform tension to the Weft Thread, gives way to inequalities and lumps, thereby improving the Selvedge of the Cloth. It saves the Selvedge Threads from being broken, is easily threaded, and the Weaver cannot put the thread by it.

*LANGLANDS & JOHNSTONE are the Sole Patentees.*

The SHUTTLES can only be supplied by Mr LANGLANDS, at his Works,  
 161 HILLTOWN, or COMMERCIAL STREET, Maxwelltown,

G. L. thanks his numerous Customers for the liberal support he has enjoyed since commencing Business, six years ago, and begs respectfully to intimate, that, with acquired experience, he is in a position to compete with any in the Trade for First-Class Workmanship and Materials, with Moderate Charges. So as to merit a continuance of that support, he has greatly enlarged his Premises, and put in New Tools, and is now in a position to fulfil Orders entrusted to him with greater despatch than hitherto.

## THE ELIAS HOWE SEWING MACHINE.

**T**HE SEWING MACHINE (*though invented by Elias Howe, Jun., upwards of 20 Years ago*) has only fairly been in the hands of the Public during the past Ten Years, so that they have only been enabled to judge of the Superior Durability of THE HOWE now that the Machines by other makers which have been in use during that time are all worked out and useless.

It is a fact worth attention that within the last three or four years, since the Public have had an opportunity of testing the Superior Durability of THE HOWE as compared with any other Machine, the Sales in this Country have increased six times as fast as those of any other of the Principal Makers.

*Report of Chemical Analysis by Mr G. D. MACDOUGALD, Public Analyst.*

This is to certify that I have examined the Lemonade, Soda, and Potass Waters manufactured by Mr D. F. REID, Union Place, Perth Road, Dundee, and that I find the same to be of the finest quality, highly aerated, and perfectly free from lead or any deleterious substance. I have also examined Ginger Beer of his manufacture, and find it to be of high class, and free from cayenne, which is so frequently used to give pungency to an inferior article. I have inspected minutely his new works, and find there every new appliance for successfully carrying out the manufacture of aerated beverages. The Aerating Machine is excellently adapted for the work it has to perform; it is of the newest and most complete construction, and is calculated at once to produce a very high degree of aeration, and to reduce any possibility of metallic poisoning. A sample of Sarsaparilla Beverage has also been submitted to me for examination, and is found to be of best quality.

## MUTUAL LIFE ASSURANCE.

**SCOTTISH PROVIDENT INSTITUTION.***Established 1837.*

**T**HE SCOTTISH PROVIDENT INSTITUTION is the only Office which combines the advantages of

**Mutual Assurance with Moderate Premiums.**

THE PREMIUM usually charged for £1000 will here in most cases assure £1200 or £1250 *from the first*, while (in addition) the **WHOLE SURPLUS** is divided among the Assured on a principle peculiarly favourable to good lives.

At last Investigation 4599 Policies participated. Policies for £1000 sharing a first time were increased to sums varying from £1170 to £1300. Other Policies were proportionately increased, a few being doubled.

The **NEW BUSINESS** in each of the last two years has exceeded **ONE MILLION STERLING**.

**Annual Premiums for £100 at Death (with Profits).**

21 Payments.....	2 12 6	2 15 4	3 0 2	3 7 5	3 17 6	4 12 1

\* A Person of 30 may thus secure £1000 at Death, by a yearly payment, *during life*, of £20 15s. This Premium, if paid to any other of the Scottish Mutual Offices, would secure £800 only, instead of £1000.

At age 40, the Premium *ceasing at age 60* is, for £1000, £33 14s 2d. being about the same as most Offices require to be paid during the whole term of life.

**The Accumulated Funds exceed £2,700,000.**

**T**HE importance of Life Insurance and the variety of purposes to which it may advantageously be applied, it is scarcely possible to overstate. Indeed, it is universally admitted to be an obligation, in very many cases amounting to a duty, that observation to urge it upon the attention of the public seems needless here.

The Directors invite attention to the following advantages afforded by this Company to persons taking out Policies on the lives of themselves and others:—

PREMIUMS on plans adapted to the various wants of the public.

No charge for Stamps on Policies.

SURRENDERS of Policies favorably dealt with.

# WEST OF ENGLAND FIRE & LIFE INSURANCE COMPANY.

ESTABLISHED IN EXETER, 1807.

AND EMPOWERED BY SPECIAL ACTS OF PARLIAMENT.

Secretary and Actuary—CHARLES LEWIS, F.I.A., F.S.S.

CAPITAL, £600,000.

THE WEST OF ENGLAND OFFICE, which has had an Agency in Dundee for half a century, is so well known here, as well as over the United Kingdom, that the Agents can, with the utmost confidence, solicit the support of their friends by favouring them with a share of their Insurance business.

## LIFE DEPARTMENT.

THIS Company gives the security of an ample Capital and Accumulated Fund of about ONE MILLION AND A HALF STERLING. Annual Revenue nearly £200,000 from the Life Branch alone. Four-fifths of the Profits appropriated to all Policies of £100, and upwards, and without responsibility of partnership. Amount paid for Life Claims since the Office was established, about £3,750,000. Bonuses may be added to the sum insured—or present value in cash may be received—or an equivalent reduction of the future Premium obtained—at the option of Assured. Assurances at lower rates of Premium, without participation.

LOANS granted by the Company on Life Policies, on approved personal security, and Advances also made on the security of Policies of adequate value.

VOLUNTEER CORPS.—Insured are at liberty to serve in any Volunteer Corps, within the United Kingdom, without prejudice.

DAYS OF GRACE.—By the condition of the Company's Policies, invariably acted upon for upwards of Fifty Years, the period for Payment of Premiums is not only extended to the "days of grace," without the forfeiture of the Policies, but the sums assured are recoverable the same as if the claim had arisen at any time previously. No charge for Policy Stamps or Medical Fees.

Agents will be happy to supply Life Proposal Sheets with full Tables of Rates.

## FIRE DEPARTMENT.

Insurances effected on Property in any part of the United Kingdom at the ordinary rates. Manufactories and Risks of a similar nature insured on the most favourable terms. Losses by explosion of gas and by lightning are made good. Steam Thrashing Machines allowed on Farms without extra charge. Policies transferred from other offices without expense. Claims settled promptly and with liberality.

On receipt of FIRE orders, Interim Receipts can be immediately issued, and when desired a surveyor will be sent to inspect, and assist in specifying the risk.

As the entire abolition of Duty is in effect equivalent to a reduction by about one-half of the hitherto annual expense of Fire Insurance on ordinary risks, a large increase of the sums formerly insured is generally being made.

# THE EQUITABLE LIFE ASSURANCE SOCIETY OF THE UNITED STATES.

ESTABLISHED IN 1859.

## ASSETS EXCEEDING £6,000,000 STERLING

Have been accumulated and invested only in *First-class Convertible Securities*, as restricted by the Insurance Laws of the State of New York. Such Investments are beyond the reach of MONETARY DISTURBANCE, and complete protection to Policy-holders is thus assured.

**The whole of the Profits are reserved for the Assured.**

The greater earning power of money in the United States enables the EQUITABLE to offer to its patrons UNEQUALLED ADVANTAGES.

A Popular Scheme of Life Assurance, on

## THE TONTINE PLAN,

Has originated with, and is granted by, THE EQUITABLE, which, upon a principle of deferred bonus adds very considerably to the proportionate profit of those holding these Policies.

Estimated Results at the end of 20 Years on a £1000 Policy.

Age.	Annual Premium.	Total Amount Paid.	Cash Value.	Paid up Policy.	Annuity and £1000 at Death.
	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.
25	19 17 6	397 10 0	735 0 0	1950 0 0	30 14 0
30	22 14 2	454 3 4	868 0 0	2020 0 0	40 8 0
35	26 7 6	527 10 0	1059 0 0	2160 0 0	57 10 0
40	31 5 10	625 16 8	1308 0 0	2350 0 0	84 0 0
45	37 19 2	759 3 4	1667 0 0	2670 0 0	135 0 0

Thus one aged 30, after 20 payments of £22 14s 2d may choose any of these three ways, viz., Cash, £868 and give up his Policy; a Paid up Policy for £2020 with no more to pay; or an annuity of £40 8s, increasing yearly, and the £1000 at death to his heirs. For CHILDREN from Ten years upwards this is a splendid way of assuring their lives. One aged 10 ceases to pay when he or she is 30, and secures an annuity which, increasing as it does yearly, becomes a most valuable one, and the sum assured at death to his or her heirs.

THE EQUITABLE LIFE ASSURANCE SOCIETY of New York has received an unqualified indorsement from leading Actuaries in London, expressing opinions of the soundness of the Institution, of its good management, and of its full title to confidence, in an **IMPORTANT DOCUMENT**, which ought to be read by every person desiring a Life Insurance.

Prospectuses, Forms of Proposals, and English Actuaries' Opinions, to be obtained on application at the Dundee Branch Office, 13 WARD ROAD, or any of the Society's Agents, or from

THE OLDEST SCOTTISH INSURANCE OFFICE.

## LIFE DEPARTMENT.

**S**ECURITY of the highest order is afforded to Policyholders. In illustration of the stringency of the principles of valuation employed, it may be stated that the Reserve made by the *Caledonian* is equal to 75 per cent. of all the premiums received under existing Policies. *Few Companies could stand so severe a test.*

The Bonuses have been increased at successive divisions of profit.

Premiums strictly moderate.

## FIRE DEPARTMENT.

Owing to the age of the Company, the Fire Reserve Fund, which has been gradually accumulating, is now greatly larger in proportion to the premiums than that of any other Scottish Company. This deserves attention, as *security* is really the only important point which should guide in the selection of a Fire Insurance Office, the rates of premium charged by all Fire Companies of good standing being practically the same.

*Insures all descriptions of Vehicles against Accidental Injury.*

## CARRIAGE ACCIDENTS

Have increased from 10 to 40 per cent. during the past five years.

AN OLD AUTHORITY SAYS—

“So frequent are Carriage Accidents becoming, not only in town but in country, that the pages of the ‘Gazette’ would scarcely suffice to record a summary of them.”—*Vide Carriage Builders’ Gazette*, No. 54, Vol. 5, October 1875.

The Company pays for **Accidents of every kind** (including destruction by fire), and saves the Assured the expense and annoyance of prosecuting the wrong-doers.

*One Penny a day insures a Carriage worth £100 against all risks.*

**Two hundred and thirty-six Claims** were paid by the Company during the first year of its business, some exceeding twenty times the amount of premium paid.

A similar Company in Paris, established 46 years, has 110,000 Vehicles insured, and has paid £260,000 for Accidents.

*Carriage Insurance has become one of the necessities of the age.*

The principle distinctive features of this Corporation are:—

The division of all Profits amongst the Members.

The very low percentage of Working Expenses.

Discounts on Premiums and Allowances for approved Appliances for the Extinction of Fire.

**Moderate Premiums.** Taken in connection with the Bonus and other advantages, the Rates of this Office will be found specially moderate.

**Large and increasing Bonuses.** The Company's System of Division secures an increasing share of the Profits as Policies advance in age. Many Policies have been doubled in amount, and for some years past the average Rate of Bonus paid on Claims has been about THIRTY PER CENT.

**Non-Forfeitable Policies.** The Non-Forfeiture System of this Company, embracing nearly all classes of Assurances, obviates the risk of loss from discontinuance of premiums.

**Liberal conditions.** The Conditions of Assurance as regards foreign travel and residence, the revival of Lapsed Policies, &c., are specially favourable, and exclude all unnecessary restrictions.
