A D D R E S S .

G. FOWLER, in ushering to the Public the Thirteenth Edition of the **DIRECTORY** and **GENERAL ADVERTISER**, begs to return his sincere thanks for the patronage he has hitherto enjoyed, and trusts that the present work will be found equally deserving their countenance and support.

To the *Magistrates, the Clergy, Merchants, Manufacturers, Agents, and Office-bearers of Public Institutions*, he offers his respectful thanks ; and to all those who have favoured him with their punctual attention to his notices.

Every person is aware that the chief value of a work of this kind, consists in the accuracy of its details, and the distinct arrangement of its several parts. In securing these essential requisites, he has in this, as in all former Editions of his **DIRECTORY**, spared neither labour nor expense ; and as this can only be compensated by an extensive sale of the work, he trusts he will meet with his usual encouragement from a *discerning Public*.

* The Birth Place of Alexander Wilson, the American Ornithologist.—Born 6th July, 1766; died 23d August 1813.

The Columbia Society of Fine Arts, of which he was a member, walked in procession *before the hearse*, and wore crape round their arms for thirty days. His remains were deposited in the cemetery of the Swedish Church, in the district of Southwark, Philadelphia. While in the enjoyment of health, he had, in a conversation with a friend on the subject of death, expressed a wish to be buried in some rural spot, sacred to peace and solitude; whither the charms of nature might invite the steps of the votary of the muses and the lover of science, and *where the birds might sing over his grave*. It has been matter of regret to those of his friends to whom was confided the mournful duty of ordering his funeral, that this desire had not been made known to them, otherwise it should have been piously observed. A plain marble tomb marks where his dust reposes, on which appears the following inscription:—

This Monument covers the remains of ALEXANDER WILSON, author of the American Ornithology. He was born in Paisley, Renfrewshire, Scotland, on the 6th July, 1766; emigrated to the United States in the year 1794; and died in Philadelphia, of the dysentery, on the 23d August, 1813, aged 47.

APPENDIX

TO

FOWLER'S PAISLEY DIRECTORY.

1851—52.

Population of Paisley, within the bounds specified in the Reform Act, according to the Census in 1851, is 47,951.

The above is the amount of Population within the Parliamentary Boundary of the Town. This is the second Census that has been taken since the Boundary was fixed. But the amount of Population, as nearly as can be computed within what is now the Parliamentary Boundary of the Town, was in 1831, 46,199, which makes an increase of Population since that period of 1,837 persons.

If, however, the number of persons absent at sea-bathing quarters and otherwise, and strangers present on the night of the 31st March, are taken into account, the Population would stand thus:—

Persons in Paisley on the night of the 31st March, 1851,						47,951
— absent,		160
						48,111
Deduct Strangers,		75
						48,036

Population of the three Burgh Parishes by this Enumeration.

			1841		1851

Low do.	7,086	...	7,205
			32,229		31,751

Postage Stamps.

Stamps may be procured at the Post office, or Stamp office, 2 County place; Labels 1d. 2d. and 1s. each, and covers at $1\frac{1}{4}$ d. and $2\frac{1}{4}$ d. each. When the value of stamps on the letter is less than the amount of the postage to which it is liable, the letter will be charged double the amount of such difference on delivery. Stamps may be used for printed votes and proceedings in Parliament, and on Foreign, Colonial, and ship letters, &c. outwards. If any letter, however, addressed to places beyond the sea, bear an insufficient number of stamps, it will be sent to the Dead Letter office, to be returned, in all practicable cases to the writer. Stamps are not permitted to be used on letters arriving in the United Kingdom, from the Colonies or Foreign countries.

These Regulations are applicable to newspapers, in cases where they are liable to postage. If the stamps affixed to letters have been mutilated or defaced, the letter will be liable to the unpaid rate.

The Post office do not convey packages exceeding 16 ounces in weight inland, except in the case of Parliamentary papers, and other privileged documents. The above are the charges on all letters posted and delivered in the United Kingdom, without regard to distance; and there is no difference in the case of letters posted and delivered within the boundaries of the old penny Post offices in towns. The rate of postage is affected by the weight entirely, and not by the number of sheets or inclosures.

and so on, half ounces not being counted when the letter exceeds 1 ounce. The postage is uniform, and applies, in whatever part of

the United Kingdom the letter is posted, or to whatever colony it is directed to. In the case of East India letters, this rate applies only to those passing by the *Falmouth packets*, and thence overland, and not to those passing in the first place through France. There is no limitation to any particular weight.

Ship Letters.

These include letters passing by private ships, between any place in the United Kingdom, and a place beyond seas, foreign or colonial, including Ceylon, the Mauritius, the Cape, and the East Indies. Owners, Consignees, or Charterers, (resident in the United Kingdom) and the Owner, Consignees, and Shippers of goods on board vessels, inward bound, are entitled to receive their letters from sea postage, to the extent of six ounces. A penalty of ten pounds is incurred by parties *falsely* superscribing a letter as Owner, Shipper, Charterer, or Consignee.

Money Orders.

The most secure mode of transmitting Bank Notes, Bank Post Bills or Drafts, is to divide each and send the halves by different posts, waiting the acknowledgment of the one half before forwarding the other.

Coin should not be sent by post, and persons having occasion to transmit small sums, will avoid all risk by sending the money through the medium of the Money Order Office, which is carried on by the Post Office on the public account. The charge for such orders will be threepence on sums of Two Pounds and under, and sixpence on sums between Two and Five Pounds. No order will be given for sums beyond this amount. To avoid trouble, it must be understood that the party in whose favour the order is drawn must attend personally to receive it.

This circumstance having been represented to the Queen by Lord John Russell, her Majesty has been graciously pleased, by letters patent, dated Whitehall, June 28, 1838, the Coronation day, to confirm the appointment of our late much-respected King.

PARLIAMENTARY BOUNDARIES.

By the bill to regulate the boundaries of Scotch towns, returning, or joining to return Members to Parliament, under the new regime, the following are the boundaries assigned to Paisley and Renfrew. They are certainly ample, and will not be complained of as cutting too closely on the outskirts.

PAISLEY.

From the summit of Byres Hill, on the north-east of the Town in a straight line to the point near Knockhill, at which the Renfrew road is joined by a road from Glasgow; thence in a straight line to the summit of Knockhill; thence in a straight line to the northern gable of the Moss toll house on the Greenock road; thence in a straight line in the direction of the chimney of Linwood cotton mill, to the point at which such straight line cuts the Candren burn; thence up the Candren burn to the point at which the same is joined by the Braidiland burn at the bridge over the same on the Johnstone road; thence up the Braidiland burn to a point which is distant five hundred yards (measured along the Braidiland burn) above the said bridge; thence in a straight line to Meikleridge bridge over the Candren burn; thence in a straight line to the point at which the old Neilston road leaves the new Neilston road; thence in a straight line to the summit of Dykebar hill; thence in a straight line to a point which is one hundred yards due north-east of the summit of Bathgo hill; thence in a straight line to the first described.

RENFREW.

From the Millburn bridge over the Pudzeoch burn on the Glasgow road in a straight line to a point up the Pudzeoch burn, which is distant three hundred yards in a straight line from the said bridge; thence in a straight line to a point on the Greenock road, which is distant two hundred and fifty yards, (measured along the Greenock road) from the point at which the same leaves the Paisley road; thence in a straight line to a point in the river Clyde, which is distant three hundred yards (measured along the river Clyde) below the point at which the same is joined by the Canal; thence along the river Clyde to the point at which the same is joined by the Canal; thence along the Canal to the point at which the same is joined by the Pudzeoch burn; thence along the Pudzeoch burn to the bridge aforesaid.

F O W L E R ' S

J O H N S T O N E D I R E C T O R Y .

The names of the streets of Johnstone, and the numbers of the houses in each, were formerly distinctly marked; but at present, these are in a great measure obliterated, which is not to be wondered at, the original markings having been made so long ago as the year 1828. This was done at the suggestion and under the superintendence of the present compiler, as were also those of Pollockshaws, Port-Glasgow, Greenock, Gourock, and Largs; and even those of Paisley on its present improved plan. There can be little doubt that the spirited inhabitants of Johnstone will see the propriety, not to say the necessity, of having this defect speedily supplied—an arrangement so very useful, not only in guiding strangers to the different parts of the town, but also for enabling traders and correspondents to direct letters and parcels to their proper destinations. Indeed it would be well if every town and village in the kingdom had similar arrangements.

FAIRS.

Johnstone Cross, nearly opposite to the Black Bull Head Inn, is distant from the Cross of Paisley, 3 miles, 5 furlongs, 34 poles.

Fairs are held on the Thursday following the second Monday of July and the last Thursday of October, for cattle; also, on the Monday preceding the first Tuesday of December (OLD STYLE)* for Horses.

Although this market is not generally known, being but lately established, yet, from the excellent supply of cattle brought forward, it promises to be one of the most numerous attended Fairs in the West of Scotland. The market place is spacious and very extensive, affording accommodation rarely to be met with.

* *Old Style* is too antiquated to be understood now, and we would recommend to the inhabitants of those villages who regulate their Fairs by it, to join in "the progressive march of intellect." The Russians who are in the rear of European civilisation, have lately adopted *New Style*, and surely we will not allow ourselves to droop behind.

Profits are divided among the Insured, while the Non-Participation Rates of the Company, compared with the Rates of the Mutual ones, give, at the age of 30, an annual return of £5 14s. on an Insurance of £1,200; or, in other words, an Insurance of £1,475 may be effected with this Company for the same premium that an Assurance of £1,200 would cost with the Mutual Companies at that age, exclusive of 10s. per cent. of Entry-money, which this Company does not charge.

Parties insured with other Companies which do not declare their Bonuses for one or two years to come, may have these secured to them by an Insurance with this Company at a moderate rate.

The quality of the Arden Lime, for Hydraulic and other purposes, is universally acknowledged to be unequalled. The Roman Cement he warrants as unequalled, and the Floor Composition, for excluding damp, durability, beauty, and cheapness, he ventures to say is unrivalled. In the Manures, his experience as a practical Chemist, enables him to hold out advantages to purchasers possessed by few dealing in this commodity.

## SCOTTISH EQUITABLE LIFE ASSURANCE SOCIETY.

**Incorporated by Special Act of Parliament.**

*EDINBURGH*,...26, ST. ANDREW SQUARE.

*LONDON*,.....61, MOORGATE STREET.

*GLASGOW*,.....43, WEST NILE STREET.

The TWENTIETH ANNUAL GENERAL MEETING was held on 6th May last, when a Report of the State of the Society, and of the Business for the year ending 1st March, was read, exhibiting the following satisfactory results:—

That the number of NEW POLICIES was 626, being an increase of 144 over the preceding year;

That the SUMS ASSURED during the year amounted to £313,274; being an increase of £61,924;

That the TOTAL AMOUNT then assured was £3,566,101;

The ANNUAL REVENUE, ..... £128,438;

And the ACCUMULATED FUND, ..... £628,472.

The Directors believing that a thorough investigation into the whole affairs of the Society, by Professional Gentlemen of high respectability and talent, and unconnected with the management, could not fail to be satisfactory to the members, remitted, in February last, to John Sinclair Cunningham, Esq., Secretary to the Commercial Bank of Scotland, John Hunter, Esq., Auditor to the Court of Session, and Ralph Erskine Scott, Esq., accountant, to make such an investigation. The Report of these Gentlemen, read to the General Meeting, contains a minute statement regarding the Society's affairs, and states in the concluding remarks, that "being themselves holders of Policies in the Institution, they cannot conclude their investigation without congratulating their brother members on the sound and prosperous condition of its affairs, and expressing a hope that the promulgation of the satisfactory results of their inquiries will not only secure the confidence of the existing Policy Holders, but tend still more to increase the business, and consequently to enlarge the profits for division among the present and future members."

Copies of the foresaid Reports by the Directors and by the Committee of Investigation may be had at the Head Office, and from the Agents.

The leading feature of the Scottish Equitable is, that the WHOLE PROFITS are allocated every THREE YEARS amongst Policy holders of more than five years' standing, the effect of which is, that on a Policy for £1000 dated 1st March 1832, if it become a claim before 1st March, 1852, no less a sum than £1486 will be payable, being an increase of nearly FORTY-NINE per cent. on the sum originally assured:—or, supposing the Policy to have been effected at the age of 30, the additions may be applied in reduction of the future premiums, which would thereby be reduced from £25 10s. 10d. to £8 15s. 8d. only, which last mentioned sum is SEVENTEEN SHILLINGS AND SEVENPENCE, OR SEVEN-EIGHTHS PER CENT. ONLY, on the amount assured; and even this small payment must

be still further reduced every three years, or ultimately extinguished during the continuance of the Policy.

Policies at other ages have like advantages.

It may with perfect truth be affirmed regarding this Society, that no other Life Assurance Institution whatever can, taking everything into account, warrantably hold out greater advantages to assureds than it does.

ROBT. CHRISTIE, Manager.

Edinburgh, June, 1851.

*Agent at Paisley,*
