Caledonian Insurance Company

Head Office—19 GEORGE STREET, EDINBURGH.

Life Assurance on unusually favourable terms.

CLASS A 1. Moderate Premiums, with Early Bonuses, which may be applied either to increase the sum assured or to make the Policy *payable during life.*

CLASSES A 2 and B. Lowest Premiums, with special Bonus advantages to persons attaining old age.

NEW AND SELF-ACTING NON-FORFEITABLE SYSTEM.

Under this System the Surrender Value is applied to pay overdue premiums, thus preventing the accidental forfeiture of any valuable policy. Although this plan is new in Great Britain, a similar plan has for some years been carried on with much success in the Australian Colonies. The AUSTRALASIAN INSURANCE AND BANKING RECORD concludes an article on the Non-forfeitable System in the following terms:—"It is to the credit of the CALEDONIAN that it should be the first to introduce this liberal feature into practice in Great Britain. As the precursor of a new and better state of things in the Insurance world there, it deserves, as we trust it will find, its reward in a large accession of business."

New Life Assurances in 7 years ending 31st Dec. 1874, £856,399

New Life Assurances in 7 years ending 31st Dec. 1881, £1,780,930

PREFATORY NOTE.

IN publishing a work such as this for the first time, some allowance ought to be made for errors and omissions. The plan adopted to collect the names was considered to be the best to obtain a full and accurate list, while special advertisements appeared in the local papers asking all who were omitted, or who intended to change their address, to give notice of such, and attention would be paid to them. Still, it must be considered that this being the first arrangement, and although every *precaution* has been used to make it as complete and perfect as possible, and if in City Directories, where men are trained to the work, errors do occur, it is hoped any appearing here will meet with forbearance. Several complaints have been made at the time it has taken, but to those acquainted with the nature of the work it will not appear too long.

I have to thank my Subscribers and Advertisers, without whose assistance I would not have ventured on the undertaking.

FIRE DEPARTMENT.

Insurances are granted on Property situate in all parts of the British Dominions, and in most Foreign Countries, at rates which are computed according to the actual risk incurred.

The Company has already paid over THREE MILLIONS STERLING for claims under its Fire Policies.

LIFE DEPARTMENT.

The Company offers the advantages of perfect security, with great economy in management, and moderate rates of Premium.

The total expenses of the year 1880 were less than $7\frac{1}{2}$ per cent. of the Income from Premiums and Interest, or, excluding commission paid to Agents, less than 4 per cent.

In the Participation Branch the whole of the ascertained surplus at each valuation belongs to the Assured. The amount for the Quinquennium ending 31st December 1880 was the largest ever earned in any five years since the formation of the Company, and was sufficient to provide a bonus of £1, 10s. per cent. per annum upon the sum Assured, or £7, 10s. per cent. for the whole Quinquennium, leaving, in addition, £46,311 to be carried forward.

Claims under Life Policies are payable as soon as the Claimant's title is proved, instead of after the lapse of Three Months, as heretofore.

Fire and Life Proposals, and Tables of Rates, may be obtained at the Company's Offices, and numerous Agencies throughout the Kingdom.

SECRETARY—G. W. M. BREMNER.

MUTUAL ASSURANCE with MODERATE PREMIUMS.

SCOTTISH PROVIDENT INSTITUTION

(ESTABLISHED 1837).

IN THIS SOCIETY alone are combined the advantages of Mutual Assurance with Moderate Premiums.

A Policy for £1200 to £1250 may, at most ages, be had for the premium generally charged, with profits, for £1000; whilst under the equitable system of division large additions may be expected to the Policies of those who participate.

The **WHOLE PROFITS** go to the Policyholders, on a system at once safe and equitable,—no share being given to those by whose early death there is a loss.

THE **FIFTH SEPTENNIAL INVESTIGATION** showed a **SURPLUS** of £624,473, which, after reserving one-third (£208,158) for future division, was divided among 6662 Policies entitled to participate. Policies of £1000 sharing a first time were increased to sums varying from £1180 to £1300 or more. Other Policies were raised to £1400, £1500, and upwards. A few of the early Policies have been doubled.

Examples of Annual Premiums for £100 at Death (with Profits).
