The following are some of the Special Advantages attaching to the possession of an Endowment Assurance Policy in the Northern Assurance Company:—

1. The entire Profits in the Participating Life Branch belong to the Policy-holders.
2. The Bonuses declared have always been at the same rate as that upon "Whole of Life" Policies.
3. Intermediate Bonuses are given.
4. Payment of Claims is made immediately.
5. Policies do not become void by non-payment of the Premium, provided that not less than one-tenth of the total number of Premiums exigible has been paid, but remain in force for such proportion of the original sum assured as the number of Premiums paid bears to the whole number originally payable.
6. Policies, under certain conditions, are from commencement free from all restrictions as to foreign travel and residence.
7. The rates of Premium are extremely moderate.
8. The Policy-holders incur no liability of partnership whatever.

LESLIE'S NEW Map of Perthshire

REDUCED FROM THE ORDNANCE SURVEY AND REVISED
TO THE PRESENT DATE BY

JOHN BARTHOLOMEW, F.R.G.S.

THE important changes which have recently taken place in Perthshire—the re-arrangement of the Parishes, and the adoption of county-council government, together with the general progress of the County in railways, roads, &c.—have suggested the desirability of bringing out at this time a new and complete Map incorporating these changes to the present date.

This Map is an accurate reduction of the Ordnance Survey to the scale is two miles to an inch. It contains every detail of any importance that of shown on the Survey, and has the special advantage of being thoroughly corrected to date.

By special permission of the Boundary Commissioners the new parish boundaries are here published for the first time. The Map measures $32 \times 35\frac{1}{2}$ inches. All roads are shown, and are distinguished as main roads, ordinary roads, and footpaths. Hamlets, mansion houses, farm houses, woods, antiquities, &c., are also clearly indicated. Instead of hill shading, contour lines are given at every five hundred feet, which, with the numerous heights given on roads and lochs over the County, enable anyone to form a correct estimate of the physical features of any district.

The value and interest of such a Map to the nobility, county gentlemen, ministers, lawyers, agriculturists, factors, parochial authorities, schoolmasters, and all interested in the County, is so evident that it is hoped its publication at a moderate price will be fully appreciated.

PRICES

Folded and in Cloth Case, - - -	5s.
