# J. NESBIT,

## PHARMACEUTICAL CHEMIST,

Invites the attention of the Public to his

### AERATED MINERAL WATERS,

which, for Purity, are unsurpassed by any others in the Market.

These Waters are Manufactured on his own Premises and under his own supervision in Machinery which he has just had erected for him by a leading London Mineral Water Engineer, and which contains all the most recent improvements for the Manufacture of First-class Mineral Waters. The cylinders and other parts in which the Waters are condensed are thickly plated with PURE SILVER, thus obviating the possibility of metallic impurity.

The Water employed is drawn from the Edinburgh supply—well known for its purity—stored in slate cisterns, and subjected to careful filtration before use.

All Chemicals used in the Manufacture are of the Purest Quality, while the Flavouring Materials are derived directly from the best Fruits.

Special attention is directed to the advantage of these WATERS in SYPHON BOTTLES, which, for economy, elegance, and convenience, far surpass any other kind of Bottle yet introduced.

# COOKING BY GAS.

THE continued and increasing popularity of Gas as a Cooking and Heating agent has fully justified the most sanguine expectations formed regarding it.

The Economy, Cleanliness, and Efficiency of this mode of Cooking only require to be more widely known to dispel any prejudices which may still exist. Read "The Sanitary Aspects of Cooking and Heating by Coal Gas," by Dr STEVENSON MACADAM, F.R.S.E., F.C.S., F.I.C., Lecturer on Chemistry and Consulting Analytical Chemist, Edinburgh, supplied Gratis.
