❖ **PIANOFORTES,** ❖

HARMONIUMS,

AND

AMERICAN ORGANS

ON THE

THREE YEARS SYSTEM OF HIRE,

According to which, after Twelve Quarterly Payments,
Punctually made, the Instrument becomes
the Property of the Hirer.

H. S. SMART would call special attention to this most advantageous method of purchasing an Instrument. Pianofortes, American Organs, and Harmoniums may be hired for One, Two, or Three Years, as may be agreed upon, on the expiry of which period the Instrument becomes the absolute Property of the Hirer. This applies to all his Stock of High-class Pianofortes by Broadwood, Collard, Brinsmead, Allison, Hopkinson, Chappell, Lange, Knauss, and other Eminent Makers; and also to a varied Stock of American Organs and Harmoniums by Mason & Hamlin, Sterling Co., Trayser, &c.

# J. NESBIT,

## PHARMACEUTICAL CHEMIST,

Invites the attention of the Public to his

### AERATED MINERAL WATERS,

which, for Purity, are unsurpassed by any others in the Market.

These Waters are Manufactured on his own Premises and under his own supervision, in Machinery which he has just had erected for him by a leading London Mineral Water Engineer, and which contains all the most recent improvements for the Manufacture of First-class Mineral Waters. The cylinders and other parts in which the Waters are condensed are thickly plated with PURE SILVER, thus obviating the possibility of metallic impurity.

The Water employed is drawn from the Edinburgh supply—well known for its purity—stored in slate cisterns, and subjected to careful filtration before use.

All Chemicals used in the Manufacture are of the Purest Quality, while the Flavouring Materials are derived directly from the best Fruits.

Special attention is directed to the advantage of these WATERS in SYPHON BOTTLES, which, for economy, elegance, and convenience, far surpass any other kind of Bottle yet introduced.

# COOKING BY GAS.

THE continued and increasing popularity of Gas as a Cooking and Heating agent has fully justified the most sanguine expectations formed regarding it.

The Economy, Cleanliness, and Efficiency of this mode of Cooking only require to be more widely known to dispel any prejudices which may still exist. Read "The Sanitary Aspects of Cooking and Heating by Coal Gas," by Dr STEVENSON MACADAM, F.R.S.E., F.C.S., F.I.C., Lecturer on Chemistry and Consulting Analytical Chemist. Edinburgh, supplied Gratis.

**LIFE INSURANCE.**

**EARLY BONUS SCHEME (E.B.).**

The following among other special advantages apply to ordinary Policies issued under this Scheme. Besides being payable immediately on proof of death and title, they are, *at the end of three years from their date,*

Entitled to Rank for Bonus Additions;  
Indisputable on the Ground of Errors or Omissions:  
World-Wide without Extra Charge; and Kept  
in force wholly or partially even in cases of Non-Payment  
of Premium.

At the last two Divisions of Profits in 1884 and 1889, Ordinary Whole Life Policies under this scheme received a BONUS ADDITION OF £2 PER CENT. for EACH year they were entitled to share.

**SPECIAL BONUS SCHEME (D.B.).**

Under this Scheme PROFIT POLICIES are issued at *Non-Profit Rates*, and share in the Profits when the Premiums received, accumulated at 4 per cent. compound interest, amount to the Sum Assured. *Policies issued at these cheap Rates practically receive a large Bonus at the outset.* At age 30, £1,200 can be insured for the same Premium as would be charged for £1,000 under the usual Profit Schemes of most Offices.

Policies of this class which have for the first time become entitled to rank for Bonus have received Additions at the rate of £10 per cent., besides a further progressive addition of £1 per cent per annum.

**FIRE INSURANCE.**
