If taken as a percentage on the original Sums assured, this Bonus is equivalent to an addition of from £2 11s. 4d. per cent. per annum on the oldest Policies, to £1 7s. 6d. per cent. on those now for the first time entitled to participation.

J. & J. COOK

BELIEVE they have made every reasonable effort to secure accuracy of detail as well as completeness of information in this issue—the first for which they are responsible—of the long-established Paisley Directory.

The survey of the Town made under their inspection in preparation for the publication of the Volume, was minute and extensive. Yet there is reason to fear that some persons in business may not have been reached, and that others may have failed to return, or neglected to have ready when called for, the Schedule left with them in order to be filled up with the particulars wanted for publication.

Difficulties such as these are inseparable from the compilation of a Directory. Probably no publication of the kind has been absolutely perfect, even when long under the same management. An approach to something like perfection is perhaps all that can be hoped for. The Publishers of this Volume expect, however, that they will be able, in next year's issue, to rectify such mistakes and to supply such omissions as may be apparent in the present publication.

Newspaper in the County.

Its columns contain carefully-selected items of News, foreign and domestic, particular attention being paid to local and district intelligence. During all its career the *Gazette* has been the chosen medium through which gentlemen of literary tastes and antiquarian zeal throughout the County have made known their views and communicated the results of their studies to the public. So valuable have the articles thus contributed been considered, that many of them have been reprinted in book or pamphlet form and enjoyed a wide sale.

The Proprietors have in view several changes and improvements in the production of the *Gazette*; and, through the conveniences for getting up and publishing the newspaper which their new Office affords, hope to be able at an early day to realise these intentions.

The *Gazette* consists of Eight Large Pages, and is published every Saturday morning, price Twopence.

Any letter exceeding the weight of 12 oz. will be liable to a postage of 1d. per ounce, beginning with the first ounce.

No Inland Letter must exceed 18 inches in length, 9 inches in breadth, and 6 inches in depth. Re-directed letters are liable to new rates of postage, but though the new postage should not be paid on the re-posting the letter, it will, on delivery, be charged only the prepaid rate.

PARCELS POST.

1. A Parcel, within the prescribed limits of weight and size, can now be sent from any one part of the United Kingdom to any other part of it, whatever be the distance, for a moderate and uniform rate of charge.

2. There are upwards of 15,000 Post Offices at which such Parcels can be posted, so that convenient means of sending are within the reach of all.

3. Parcels will be delivered regularly at every place where there is a delivery of letters, and may therefore now be sent to many places where previously they could only be sent, if at all, irregularly and by uncertain methods.

4. All postage being paid in advance, the sender knows exactly what the service will cost, and also that the receiver of the Parcel will be put to no expense.

The following are the chief Regulations of the Parcels Post:—

1. The Rates of Postage are, for a Parcel:—

Not exceeding 1 lb. in weight,	3d.	Exceeding 3 lbs. and not exceeding 5 lbs.,	9d.
Exceeding 1 lb. and not exceeding 3 lbs.,	6d.	— 5 " —	7 "
		— 7 " —	1s.

No Parcel can be sent exceeding 7 lbs. in weight.

2. The dimensions allowed for an Inland Postal Parcel—Greatest length, 3 ft. 6 in.; greatest length and girth combined, 6 ft. For example—A Parcel measuring 3 ft. 6 in. in length may measure as much as 2 ft. 6 in. in girth. A shorter Parcel may be thicker; thus, if it measure no more than 3 ft. in length, it may measure as much as 3 ft. in girth—*i.e.*, round its thickest part.

3. The most convenient mode of measuring will be by means of a tape 6 feet long, having the length of 3 ft. 6 in. marked thereon. Such a tape might conveniently be marked in one colour up to 3 ft. 6 in., and the remaining part in another colour.

3. The full postage must be *paid in advance*, by means of ordinary postage stamps, which must be affixed by the sender.

4. Parcels must not be posted in a letter-box, but must be handed over the counter of a Post Office. If a Parcel be posted in a letter-box, it will be treated and charged as a letter (or as a book-packet if entitled to pass at the book-rate of postage).

5. The Postmaster-General is not liable for any loss arising from Parcels being lost or damaged in transmission through the post; but every precaution is taken to prevent loss or damage.

Prohibited Parcels.

6. Parcels bearing or containing writing or marks of an offensive or indecent character; or containing gunpowder, cartridges, lucifer matches, or other combustible material, live animals, offensive or filthy matter, or any substance likely to cause injury to other Parcels, or to the Officers of the Post Office, may not be sent through the post.

Parcels requiring Special Precautions.

7. Parcels containing ripe fruit or eggs, fish, meat, or other animal matter; or knives and other sharp instruments; can only be sent if so packed as to prevent all risk of injury to other Parcels. Liquids must be sent in bottles, cases, or cans securely stoppered, and so packed as to be secure from breakage.

N.B.—The public will greatly assist the work of the Post Office, and help towards the safe delivery of Parcels, by taking care that they are in all cases strongly and securely packed, especially those with fragile or perishable contents.

Collection of Parcels in Rural Districts.

Rural Postmen, whether on foot or mounted, are required to accept Parcels from the public for despatch wherever they now collect letters. The Postman on foot must not accept from any one person a greater weight of Parcels than 7 lbs. in the aggregate, unless he shall have received notice, on the previous day, from such person of his intention to send a greater weight. A mounted Rural Postman is not required to accept a greater weight in the aggregate than 21 lbs. from any one person, unless similar notice shall have been given to him.

BOOKBINDING

IS the art of connecting together, in a durable and convenient manner, the several parts of a Book. The craft is very ancient; the Romans had their *Biblioepigi* for doing up their Books in Rolls; and during the Middle Ages the binding of Books in a square form was executed by the monks. The sudden and successful rise of Cheap Literature has caused most Households to have an accumulation of Numbers or Parts of Books, such as "Chambers's Journal," "Good Words," "Harper's Monthly," "Girl's Own Paper,"—such accumulations being of little comparative value either for reading or reference until they have been submitted to the art of the Bookbinder. All such Periodicals, Bibles, Albums, or Volumes of Music, neatly Bound at Moderate Prices, by

**GLASGOW GRAIN AND GENERAL
GRINDING MILL
AND
COFFEE ROASTING WORKS.**

A FRENCH Scientific Gentleman, who has directed his attention to the subject of Coffee Roasting, says:—I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be depressed than when exposed to the fierce heat of a fire in a single cylinder.

In the double rotary globular method of roasting, as practised at Mr. MINTO's Works, Græme Street, Glasgow, the above principle is acted upon, in as much as the globe (which has superseded the cylinder since the application of steam power to this branch) revolves in a medium of heated air, which experience has shown best prevents the dispersion of the essential oil aroma.

At GLASGOW, on 25th April, 1884, Lord Provost M'ONIE said :—" At the 31st December, 1883, the Accumulated Capital amounted to very close upon £176,000, which, after satisfying all claims, seems to be increasing at the rate of £16,000 per year. I am not aware of any Life Assurance Society of a similar kind that can show such wonderful results. It must be satisfactory to your Members to know that it is now one of the most economically managed Societies in Scotland—a statement which ought to give confidence, and serve to induce New Members to join even more largely than hitherto."

At PAISLEY, on 4th March, 1884, Provost CLARK said :—" I feel pleased at having the opportunity of testifying my sympathy with the objects of the Scottish Legal Life Assurance Society—a Society instituted thirty-two years ago, and one that has now grown to be a power for great good in the land. . . . I shall simply close by wishing your prosperous Society increased prosperity; that it might thereby be able to shower down increased blessings upon its rapidly increasing Members."

At EDINBURGH, on the 5th March, 1884, Mr. JAMES WALLACE, Advocate, said :—" The gain during the six months of the New Management was £8,241."

At LEITH, on the 21st March, 1884, Provost PRINGLE said :—" On comparison, he found that this Society was the most economically conducted in Scotland."
