“CAXTON HOUSE”

is the name we have given to our NEW BUILDINGS—  
Numbers 11 to 19 COWGATE—now happily undergoing  
the finishing touches of painters, cabinetmakers, shopfitters,  
french-polishers, and other artists.

We venture to think that our Establishment will be  
recognised as

A Model Printing Work  
— and —  
Stationery Emporium.

Abundant lighting and ventilation, ample accommodation  
for the many departments of our business, convenience in  
intercommunication, elegance of design and finish—these  
are the fundamentals which we have kept before us, and  
in their attainment neither trouble nor expense has been  
spared.

James D. Mathew & Co.  
PRINTERS, STATIONERS, LITHOGRAPHERS, BOOKBINDERS,  
CAXTON HOUSE,  
11 TO 15 COWGATE, DUNDEE.

WHO  
IS  
THIS,  
DO  
YOU  
THINK?

ISN'T IT A PRETTY PICTURE?

*And the young master seems to be in wonderfully comfortable circumstances, doesn't he? See his ample collar, his neckerchief, his parcel of some household supply, his saddle bags so plump with wholesome store, his steed so smart and willing. And his name—Dan O'Hare; his address—Beechhill, by Newry; his age—13 years. He is returning from market, and he is typical of the already-dawning day for the peasants of Ireland—the day of hopeful industry, of comfort, and of independence.*

*This picture is one of a series of photos which our Mr M. took on his tramp in Ireland last summer. But why print it here? Just to remind you that at Caxton House we make a speciality of **Fine Illustrations**—in Catalogues and such like—and that we set ourselves to do the very best work in all our departments—Printing, Lithographing, Bookbinding, Paper-Ruling, Die Stamping—not to speak of our large and varied stock of all kinds of Stationery.*

# DUNDEE DIRECTORY

1909-1910.

## GENERAL NOTICE.

A REVIEW of the affairs of the city during the year does not present any feature of specially outstanding significance. The business life of to-day, and the numerous issues it involves, is a fair reflex of those conditions which, with anticipations realised and unrealised, characterised much of the past. The spirit of enterprise is as active as of yore ; but it is so hedged about with diverse elements that caution is needed in its exercise. Engagements, therefore, of all kinds have been entered upon with praiseworthy prudence, and machinery kept going as much with the desire of preventing unemployment as from any sound economic principle. Throughout the winter trade was irregular, and much hardship was entailed. On the initiative of the Corporation, distress was more or less minimised by the formation of relief works. At the same time, amongst textile workers generally, the want of occupation told heavily. Nor was this uncertainty alone confined to staple production. All branches of industry suffered. The ordinary trader husbanded his resources, and the manufacturer marked time. In most aspects Dundee has been hit hard, and but for the patience exercised by employers numerous genuine cases of privation would have had to be dealt with by extraneous agencies. It is needless to speculate on the problems of the future. There can be no doubt that every effort will be made to open up new fields, and that those who are experienced in the technique of textile production will exercise it to the best ability in that direction. As the years pass it has been evident that Dundee goods will have to face the keenest competition in the markets of the world ; and were the cost of production put upon equitable lines our manufacturers would be able to hold their own. Though the strain has been exceedingly trying, nevertheless it has had its compensations, the brighter side being shown by the comparative absence of collapses.

Amid the turmoil and dubiety which have characterised much of our recent public life it cannot be said that the progressive element has been neglected, although the manner by which it has been gone about has grated upon the sensibilities of the community. Corporate development may not have reached a high level, still there are at the same time other phases which have come well to the forefront. Educationally we are forging ahead, and aim at loftier standards. Schools, splendidly equipped, are increasing in number, class subjects are continually undergoing revision, and additional facilities for the study of higher branches are provided on a liberal scale. Nor have the interests of those who have left elementary schools to engage in work been neglected. On this question most enlightened views are entertained, and these have been followed up by practical application. The evening continuation classes, with their extended curricula, have been fulfilling a great purpose. The advantages that have thus

accrued to young people who are entering upon careers are of incalculable value, and subjects are specially taught to fit in with daily avocations. Stobswell School, which was initiated to meet advancing educational requirements—namely, the correlation of the lower grade school to the higher—is now in use, having been opened by the Right Hon. John Sinclair (now Lord Pentland) on 8th October last year. This school, from results already given, shows in a distinct light the necessity for its existence, and there are indications that it will place within the reach of the humblest pupils the opportunity of securing tuition of a kind which will enable them to take a good place in any walk of life. The Academies under the Board, too, have been put upon a plane commensurate with the progressive spirit of the times, a number of improvements having recently been effected in their structural arrangements with a view to better classification. Apart from difference of opinion, it has been observed that the Board has kept before it a high ideal of its responsibilities; and it is still more evident that it has felt, if the youth of the city is to be placed educationally upon a footing of equality with other large communities, it must act in consonance therewith. Keeping that object, therefore, in view, to meet the requirements of the eastern centre of the city, the Board has determined to erect a new school in Dens Road. As there is a likelihood that fresh problems will soon claim attention, it is understood that the wants of other localities where there is an increasing population will fall to be considered.

There is another aspect of education of an academic nature which deserves meritorious recognition, alike for the ability attendant upon administration as for the genuine success which marks it. Since the assimilation of the twin institutions—the Technical Institute and the Y.M.C.A. Technical School—the mutual benefit has been gratifying both in consolidation and efficiency. The stately premises in Chapelshade, which, with the addition of a School of Art, are to be devoted to the furtherance of technical education, are rapidly approaching completion. The equipments, it is understood, have been the subject of special study, and will embrace every type of appliance required in an up-to-date institution.

University College, with its numerous resources, continues to add to its splendid reputation. As a seat of the highest branches of learning it ranks alongside those which claim the term venerable but do not surpass it in efficiency. Two annexes have recently been added—the Physical Laboratory and Electrical Engineering Laboratory—of the utility of which, and the work they are expected to facilitate, high opinions have been formed.

In the purely municipal domain the achievements of the year have altogether been fragmentary. In as far as the High-Tension Station at Carolina Port is concerned, much delay has been caused by unexpected difficulties. These, however, more or less, have been overcome, and though the date of the proposed opening is long overdue, it is ascertained that work will be in operation early in autumn. From the favourable sites of the station and sub-stations, the Corporation will not only be able to transmit electric current to the

utmost limits of the burgh, but to any part of the suburban neighbourhood. The other department connected with public lighting—the Gas Department—has reached an abnormal state of efficiency. This is largely the outcome of reconstruction and admirable management. To this efficiency we are indebted for the gradual decrease in price ; and its adaptability to heating, cooking, and various utilitarian uses has made gas exceedingly popular. To meet the increased output still further accommodation is required. To facilitate distribution in the central areas, as well as to prevent leakage by undue pressure, a sectional building is about to be erected in Irvine Square, Chapelshade. The financial department has not been overlooked, the offices in Commercial Street having been entirely reconstructed and arrangements made for improved supervision.

The Public Health Department is gradually extending its scope of operation. Its influence, which is a combination of the beneficent and the philanthropic, is exercised in many directions, and obstacles which hitherto have been obstructive are gradually being eliminated. In the conservation of the general health, and in the ever-watchful care exercised over dangerous maladies, this Department is actively bestirring itself. A pavilion for the treatment of diphtheria has been added to the already fine group at King's Cross. Quite a number of agencies bearing upon hygiene of late have been instituted, and each is developed on lines calculated to result in a maximum of ameliorative issues. The vitality of this Department, in fact, has never been more excelled than now ; nor has the comprehensive grasp it has of its various duties been handled with such a breadth of detail and a desire to keep the community immune from infection. The consumption scourge for a time engaged the attention of the Local Authority, and a laudable effort, with the resources available, was made to deal with it. In this connection it should be mentioned that a proposition having for its objective the acquisition of the Sanatorium at Auchterhouse was recently formulated by the Corporation. The proposal engendered much adverse criticism, which ultimately became so intense that one of the most stirring party episodes that ever marked municipal strife ensued. Opposition became fierce, the initiative being taken by the Citizens' Union, a newly-formed combination, in the ranks of which are representatives of all sections. On the part of the community there was a feeling that the matter had been rushed with undue precipitancy, and that a scheme of such magnitude, involving, as it did, a large increase of rate, had not received due consideration by the electors. Eventually, after acrimonious discussion on both sides, the proposal was rejected at a meeting in Council.

A number of projects of minor consequence have reached maturity. These include an admirable improvement at Stobswell, where the reservoir of the Water Department has been reconstructed. The branch libraries at Coldside and Blackness were opened on 22nd October last year ; and in the Central Library at Albert Institute many convenient changes have been carried out. The difficulty of obtaining a suitable site for the erection of a Central Reading Room and Library has been overcome, Sir William Ogilvy Dalgleish having

purchased at a cost of £5000 an ideal stance at the corner of Ward Road and Barrack Street, and presented it to the city.

Another improvement of note is the extensive alterations that have been made upon Cowgate. The line of the street on the south has undergone complete transformation, and a thoroughfare sixty feet in width has been substituted for the narrow defile which hampered traffic. The King's Theatre, at corner of Cowgate and St Andrew's Street, was opened on 15th February this year. The new offices of the DIRECTORY and adjoining premises are in an advanced stage. The style of architecture befits the business nature of the locality.

Shipping affairs still lag, and the prospect of betterment altogether is not hopeful. Some of the largest building yards have been shut down, and orders amongst those in operation are small and comparatively limited in number. In connection with the port a modicum of distinction has been conferred upon it. On the east coast a convenient base or resort for submarine flotilla for a time has been desiderated by the Admiralty. As the harbour of Dundee possessed the requisite accommodation, negotiations between parties were entered upon, and these have resulted in the ratification of a satisfactory agreement, the Admiralty leasing the West Graving Dock and a portion of King William Dock.

In the suburban areas there is much all-round progress, and Carnoustie, Monifieth, Broughty Ferry, Newport, Wormit, and Tayport are extending even more rapidly than the City, whilst as holiday resorts they draw visitors from distant parts.

Many notable and goodly citizens have dropped out of the race during the year:—Mr Arthur W. Shepherd, a promising young man; Mr James Scott, chief of the great firm of James Scott & Sons, Ltd.; and, a month afterward, his son, Mr James Scott, a young man of aptitude and ability; Mr James Mitchell, grain merchant; Dr Andrew Dow; Dr George Halley; Ex-Bailie Duncan Macdonald, an eminent public man; Ex-Bailie Francis Stevenson; Rev. Canon Burdon, Rector, St Mary Magdalene's; Rev. Roger Rowson Lingard-Guthrie; Councillor George Wood; Mr Daniel Dailly; Mr John Couper; Mrs A. H. Moncur; Mr John H. Luis, Mr Robert Scott (Tayport), Mr Alexander Nicoll, and Mr O. B. Hatch (who projected a photographic survey of the City), each being well known in mercantile circles.

It is herewith pointed out that there is appended in the DIRECTORY for the first time Plans of the Burghs of Monifieth and Carnoustie. Attention is also directed to the new arrangement whereby Registration Districts are defined, and explanations given of the method adopted for ascertaining promptly and correctly the exact location of each street therein contained, numbers and letters being introduced to indicate their relative positions. By this means, too, the Ward Boundaries are also denoted. (See page 17.)

The DIRECTORY this year has attained its centenary, its first publication taking place in 1809.

The cover must not bear anything except the name and address of the sender and addressee, with index or reference numbers or letters, the words "with compliments," a request for return in case of non-delivery, the title of the newspaper, and a reference to any place in the newspaper to which the attention of the addressee is directed.

The right hand half of the address side is reserved exclusively for the postage stamp and the address.

A Private Card becomes a Post Card when it has a halfpenny stamp affixed to its face. It must be composed of ordinary cardboard, not thicker than the material used for the thickest official Post Card, and not thinner than the material used for the thinnest. They may not exceed  $5\frac{1}{2}$  by  $3\frac{1}{2}$  inches in size, or be less than 4 by  $2\frac{3}{4}$  inches. The rules in the preceding paragraph also apply to Private Cards.

#### EXPRESS DELIVERY OF LETTERS AND PARCELS.

There are three systems by which letters and parcels can be specially delivered, as under:—

- 1) *By special messenger all the way.* For a letter or packet the Express fee (inclusive of charges for omnibus, tramcar, railway, &c.), is:—For every mile or part of a mile, 3d; and on each packet weighing more than 1 lb. a weight fee of 3d. (Ordinary postage is not charged). Every packet must be handed in over the counter, and must have the word "Express" boldly marked above address. All charges must be prepaid by postage stamps affixed to a form provided by the Post Office.

If the sender desires, or it is otherwise necessary, that a special conveyance be used, the fare or cost of such must be paid in addition to the mileage fee. The weight fee is not charged in such a case.

On the delivery of an Express packet, the messenger may take a reply, or perform a further delivery service. The fee must be prepaid either by the sender of the first service or by the sender of the reply or further service.

When several packets are tendered by one sender for delivery by the same messenger at different addresses, or to different persons at same address, the Express fee of 3d a mile will be charged for the full distance to be traversed by the messenger, and an additional fixed charge of 1d for each article above one.

- (2) *By special messenger after transmission by post.* In addition to the full ordinary postage the Express fee is :—For every mile or part of a mile from office of delivery, 3d (weight fee is not charged). Letters may be posted like ordinary letters, but they must be marked “Express Delivery,” and have a thick perpendicular line drawn on each side.
- (3) *By special delivery in advance of the ordinary mail.* Persons who desire at any time to receive their letters or parcels in advance of the ordinary delivery may have them delivered by special messenger on payment of the following fees, viz. :—The full Express fee of 3d a mile as for one packet, and 1d for every 10, or less number of additional packets.

#### INLAND PARCEL POST.

Parcels not exceeding 11 lbs. in weight, 3 ft. 6 in. in length, or 6 ft. in length and girth combined, are received at any Post Office for transmission between places in the United Kingdom. The rates of postage are :—

Not exceeding 1 lb. in weight,	3d	Exc. 7 lbs. and not exc. 8 lbs.,	8d
Exc. 1 lb. and not exc. 2 lbs.,	4d	„ 8 lbs. „ 9 lbs.,	9d
„ 2 lbs. „ 3 lbs.,	5d	„ 9 lbs. „ 10 lbs.,	10d
„ 3 lbs. „ 5 lbs.,	6d	„ 10 lbs. „ 11 lbs.,	11d
„ 5 lbs. „ 7 lbs.,	7d		

Postage stamps to the required amount must be affixed by the sender, and parcels must not be posted in a letter-box, but must be taken into a Post Office and handed over the counter. A certificate of posting may be had on application.

Parcels containing fish, game, meat, eggs, &c., or razors, scissors, needles, knives, forks, or other sharp instruments, are not accepted unless securely packed so as to guard against risk of injury to other parcels. Liquids or semi-liquids, such as jellies, pickles, paint, varnish, &c., are not accepted unless in bottles or cans securely stoppered; nor powders, unless well packed. Live bees are allowed to pass by letter or Parcel Post, if sent in suitable cases, so packed as to avoid all risk of injury.

In order to facilitate the return of parcels which cannot be delivered, it is most desirable that the name and address of the sender should appear on the outside of every parcel.

#### REGISTRATION AND COMPENSATION—INLAND.

Correspondence of any kind (including parcels) can be registered. The ordinary registration fee is 2d, in addition to the postage.

Everything intended for registration must be handed to an officer of the Post Office, and a receipt obtained. Nothing intended for registration must be dropped into a letter-box. The packet must be made up in a strong cover, fastened with gum or other adhesive, but this does not apply to post-cards, halfpenny packets, nor newspapers. If it be desired to secure compensation for damage to a packet (other than a parcel), it must bear the words “Fragile, with care.”

Packets for registration must be marked in the bottom left-hand corner with the word “Registered,” and, when the fee exceeds 2d, with the amount of the fee proper to the value up to which the sender desires to secure compensation, thus, “Registered 3d,” and so on. The sender of an Inland postal

packet may obtain an acknowledgment of its due delivery by paying, at the time of posting, a fee of 2d in addition to the postage and registration fee.

Inland postal packets containing coin, watches, or jewellery, if posted without registration, are subject to compulsory registration, and are charged on delivery with a fee of 4d, in addition to the ordinary postage. Letters containing uncrossed Postal Orders in which the name of the payee has not been inserted, uncrossed cheques or dividend warrants, bank notes, postage stamps, or any article (other than coin and jewellery) of a value exceeding 10s, will, when found open in the post, or when opened in the Returned Letter Office, be subject to registration, and be chargeable with a registration fee of 2d. Money of any kind must be enclosed in a Registered Letter Envelope and transmitted by Registered Letter Post. The compensation in respect of coin will in no case exceed £5.

The Postmaster-General will (subject to certain rules) pay compensation for the loss or damage of Correspondence as follows:—

(1) *Registered Correspondence (including Parcels).*—

Fee 2d, Compensation	£5	Fee 5d, Compensation	£60
„ 3d, „	£20	„ 6d, „	£80
„ 4d, „	£40	„ 7d, „	£100

and so on at the rate of 1d for every £20 up to—Fee 1/10, Compensation £400.

(2) *Unregistered Parcels.*—Limit of compensation, £2. No compensation is given in respect of money of any kind sent by Parcel Post, whether registered or not, or in respect of jewellery sent by Parcel Post unregistered. To secure compensation a certificate of posting should be obtained when a parcel is posted.

(3) *Express Correspondence.*—Compensation according to the ordinary scale is paid in respect of Correspondence of the kinds specified in Sections (1) and (2), when sent by Express Service; and up to £2 for Unregistered Packets (not money nor jewellery) conveyed by special messenger throughout their whole course.

RE-DIRECTION.

Letters, halfpenny packets, post cards, and newspapers are not liable to additional postage for re-direction, whether re-directed by an officer of the Post Office or by an agent of the addressee after delivery, provided in the latter case that the letters, &c., are re-posted not later than the day (Sundays and public holidays not being counted) after delivery, and that they do not appear to have been opened or tampered with.

Parcels are, when re-directed, liable to additional postage at the prepaid rate for each re-direction, except where the original and corrected addresses are both within a delivery from the same Post Office.

Registered letters, &c., when re-directed, must be taken back to the Post Office to be dealt with as registered.

A Postmaster is not bound to re-direct letters for a person temporarily leaving home (unless the house be left uninhabited), nor to re-direct letters addressed to clubs, hotels, boarding-houses, or lodgings.

POSTE RESTANTE.

Correspondence of any kind to be called for is, as a rule, taken in at all Post Offices except Town Sub-Offices. The words “to be called for” or “Poste Restante” should appear in the address. The Poste Restante is for accommodation of strangers and travellers, but they may not use it for more than three months.

Parcels addressed to a Post Office to be called for, are kept three weeks, at the end of which period, if not called for, they are returned to the sender.

## “BLIND LITERATURE” POST.

Literature impressed for the use of the blind may be sent by post at the following rates:—2 oz.,  $\frac{1}{2}$ d; 2 lbs., 1d; 5 lbs.,  $1\frac{1}{2}$ d; 6 lbs.,  $2\frac{1}{2}$ d. The packet must not contain anything written or printed in ordinary type, except title and contents, key to the type, and a label for return of the packet. It must bear on the outside the words “Literature for the Blind,” and address of sender, and it must be posted either without a cover or in a cover open at both ends.

## MONEY ORDERS.

The commission on Inland Money Orders is:—For sums not exceeding £1—2d; £3—3d; £10—4d; £20—6d; £30—8d; £40—10d.

When applying for Money Orders, the public should use the printed “Application Forms,” which are supplied gratuitously at all Money Order Offices, and should state thereon as fully as possible the name or designation of the payee.

The remitter of an Inland Order may direct at the time of issue, that the Order be crossed like a cheque thus, & Co., and thus be payable only through a Bank, or he may cross the Order after obtaining it.

If the remitter of an Inland Money Order is desirous of delaying payment for any period not exceeding ten days, he must, at the time of issue, sign his name in the place allotted at the foot of the Money Order, and should inform the Postmaster that he wishes payment to be so deferred.

Money Orders for amounts not exceeding £40 are issued free of charge when required for the remittance of Beer Duty, Corporation Duty, Income Tax, Inhabited House Duty, Land Tax, Excise Duties, or Legacy and Succession Duties.

Money may be transmitted by Telegraph Money Order in the United Kingdom. The commission is:—(1) The ordinary Money Order poundage as above; (2) a charge at the ordinary Inland rate for the Official Telegram authorizing payment at the Office of Payment, the minimum being 6d; and (3) a fee of 2d for each order. Any telegraphic communication which the remitter may wish to despatch to the payee must be paid for at the ordinary inland rate.

#### FOREIGN AND COLONIAL LETTERS.

The prepaid rate of postage on letters for all Foreign Countries (except Egypt, United States, and British P.O. Agencies in Morocco) is  $2\frac{1}{2}$ d for the first ounce, and  $1\frac{1}{2}$ d for each succeeding ounce; to British Possessions generally and to Egypt, United States, and British P.O. Agencies in Morocco, the letter rate is 1d per ounce. (See pp. 155-158.) Dutiable articles must not be sent by Letter Post.

No letter for a colony or foreign country may exceed 2 feet in length or 1 foot in width or depth. Coupons exchangeable for stamps of the value of 25 centimes ( $2\frac{1}{2}$ d) each (in many foreign countries) can be purchased at the Money Order Office at 3d each, for the prepaying of replies to letters.

#### FOREIGN AND COLONIAL PRINTED PAPERS AND COMMERCIAL PAPERS.

Articles which may be sent to places abroad under these designations consist of two classes, as follows:—

- (a) "Commercial Papers," under which are comprised all papers or documents written or drawn wholly or partly by hand (except letters or communications in the nature of letters, or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, Deeds drawn up by public functionaries, copies of or extracts from Deeds under private seal, written on stamped or unstamped paper, Way Bills, Bills of Lading, Invoices, and other documents of a mercantile character, documents of Insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, letters and post cards of old date which have already served their original purpose, pupils' exercises with corrections, and other papers of a similar description.
- (b) "Printed Papers." The articles which may be sent at the rate applicable to Printed Papers are mostly impressions or copies obtained upon paper, parchment or card-board, by means of printing, lithography, engraving, photography, or any other mechanical process easy to recognize. This description includes newspapers, periodical works, books (stitched or bound), pamphlets, sheets of music, visiting cards, address cards, proofs of printing, plans, maps, catalogues, prospectuses, announcements, circulars, notices, engravings, photographs, designs, manuscript for press (when sent with proofs of same), papers impressed for use of the blind, albums of photos, or card-board drawing models stamped in relief, and anything (not glass) usually appurtenant to the before-mentioned articles in the way of binding, mounting, or otherwise and anything convenient for their safe transmission which shall be contained in the same packet. Postage stamps, obliterated or not, and all printed articles constituting the sign of a monetary value, are excluded. The products of the copying press and the typewriter are not admitted, nor, as a rule, are printed papers which have been modified after printing, either by hand or by a mechanical process. But the following exceptions are allowed:—Printed circulars may be dated in manuscript or by a mechanical process, name and address of the sender and of the recipient, as well as his trade or profession, and his address may be added; on printed visiting cards and Christmas cards the address of the sender, or formulas of courtesy in not more than five words may be written, and on printed circulars manuscript corrections and insertions may be made as to names of commercial travellers, dates of journey, dates of departure of ships, names of person

invited to meetings, and the place, date, and object of the meetings; date of despatch may be inserted in advices of goods; printers' proofs may be corrected in manuscript, errors in other printed documents may be corrected, and figures may be inserted in prices current, stock and share lists, &c.; books, music, photos, engravings, and Christmas cards may contain the invoice relating to them; books may have a dedication inscribed on them; in orders for books printed on cards, the works required or offered may be indicated in manuscript; to cuttings from periodicals, the title and date of the publication may be added. Circulars printed or lithographed in characters resembling those of the typewriter, or produced from typewritten originals, will be admitted, provided that they are handed in at the counter of Post Office, that special attention is called to their nature, and that at least twenty copies are posted at the same time. Blank paper, note-paper or envelopes, and articles of stationery are inadmissible.

The rate of postage on Printed Papers and Commercial Papers for all places abroad is  $\frac{1}{2}$ d per 2 oz. For Commercial Papers the lowest charge is  $2\frac{1}{2}$ d, for which sum, however, a weight of 10 oz. may be sent. If there be any mixture of the two in the same packet the whole packet is treated as Commercial Papers.

Commercial Papers and Printed Papers may be posted either without a cover, or in an unfastened envelope, or in a cover easily removable for examination without breaking any seal or adhering surfaces. The packet may, however, be tied at the ends with string easy to unfasten.

To secure the return of packets which cannot be delivered, the name and address of the sender should be written or printed outside.

The limit of size for British Colonies or Possessions or non-Union countries are 2 feet in length by 1 foot in width or depth; but to Foreign Countries in the Postal Union the length is limited to 18 inches. If in the form of a roll the limits of size in either case are 30 inches in length and 4 inches in diameter. The limits of weight are from 4 lbs. to 5 lbs. according to destination.

#### CANADIAN MAGAZINE POST.

British Newspapers, Magazines, and Trade Journals may be sent to Canada at a rate of 1d per lb.; limit of weight, 5 lbs.; limit of size, 2 feet in length by 1 foot in width or depth. They must be posted in covers open at both ends and easily removable. Neither cover nor contents may bear any superscription except title and date and reference to registration, address of sender and addressee, index or reference numbers and letters, the words "with compliments," a reference to any place in the publication, and a request for return in case of non-delivery.

All registered inland Newspapers are admissible under this rate, but any other Newspaper, Magazine, or Trade Journal may be placed on the Register of publications transmissible by Canadian Magazine Post, provided (1) that it be printed and offered for sale in the United Kingdom; (2) that it be published at intervals of not more than thirty-one days; (3) that publication and binding consist only of paper; (4) that not more than five-sixths of the contents consist of advertisements; (5) that title and date be printed on cover or at top of first page and on every detached sheet; (6) that a copy of the publication, with a fee of 5s, be sent every year to the Secretary of the Post Office.

#### FOREIGN AND COLONIAL SAMPLES.

There is a Sample Post to Foreign Countries and the Colonies generally; but it is restricted to *samples of merchandise or scientific specimens*. Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another which are not actually trade samples or specimens, are not admissible.

No article liable to Custom Duties can as a rule be sent as a sample.

The rate of postage is  $\frac{1}{2}$ d per 2 oz., except that the lowest charge is 1d, for which sum, however, a weight of 4 oz. may be sent.

Patterns or Samples, when practicable, must be sent in covers open at the ends, and in such a manner as to be easy of examination. But samples of seeds, drugs, and such like, may be posted enclosed in boxes or bags fastened in such a manner that they may be readily opened.

There must be no writing or printing upon or in any Sample Packet for non-Union countries, except the address of the person for whom it is intended the address of the sender, a trade mark or number, the price of the articles, the weight or size, and the quantity to be disposed of, or such as may be necessary to indicate the place of origin or the nature of the merchandise. A packet for a country in the Postal Union may contain Printed Papers, and if the rates for Commercial Papers be paid, it may also contain Commercial Papers.

The limit of weight for British Colonies or Possessions or for non-Union countries is 5 lbs., but for Foreign Countries in Postal Union the limit is 12 oz.

The limit of size for British Colonies or Possessions or for non-Union countries is 2 feet in length by 1 foot in width or depth; and for foreign places in the Postal Union 12 inches in length, 8 inches in width, or 4 inches in depth unless it be in the form of a roll, in which case the limit of size is 12 inches in length and 6 inches in diameter.

#### REGISTRATION AND INSURANCE—FOREIGN.

The fee for registration of letters, post cards, commercial and printed papers, and samples, addressed to places abroad, is 2d. Articles to be registered must be enclosed in a strong envelope, and given to an agent at the Post Office. To some countries it is forbidden to send coin, jewellery, or precious articles.

Letters and parcels may be insured (up to certain limits of value to many foreign countries. Letters must be securely fastened and sealed with private seal, and presented at the counter of a Post Office. Parcels must be substantially packed, and sealed with wax or lead. Seals must be placed over each join or loose flap of the covering, and at the ends of the string. The seals must all have distinct impressions of the same device, such device not consisting merely of straight or curved lines. Parcels containing coin, watches, or jewellery must be enclosed in strong box substantially fastened in wrappers of canvas or strong paper, duly sealed. Letters or parcels for insurance must bear the words "Insured for—" according to amount. The sums payable for insurance, including registration, are as follows:—To secure compensation up to £12, a fee of 4d; £24, 6d; and so on at the rate of 2d for every additional £12, up to £400, 5s 10d.

For the insurance of parcels to the United States by the semi-official service, the sums payable are as follows:—For £12, a fee of 6d; £24, 1s; and so on at the rate of 6d for every £12, up to £120, 5s.

Articles of gold and silver, precious stones, and jewellery (but not currency coin, letters, bank notes, or securities) may be sent in the letter mails to France, Belgium, and Holland as an "insured box." The box, strongly made of metal or wood, and having top and bottom covered with white paper, must be tied crosswise with a single strong string, sealed with private seal on all four sides. Limit of weight, 2 lbs.; limits of size, 12 inches by 4 inches by 4 inches. The postage is 1s; limit of insurance, £400.

#### COMPENSATION FOR LOSS OR DAMAGE OF UNINSURED PARCELS.

The Postmaster-General will, subject to certain rules, give compensation for the loss or damage of uninsured parcels sent by Parcel Post to various Foreign Countries (to amounts not exceeding 12s and 20s) when such loss or damage takes place while the parcels are under his custody; and in the case of parcels lost or damaged while under the control of the Post Offices of these countries the Postmaster-General will endeavour to obtain compensation for the sender.

# DATES OF DESPATCH AND ARRIVAL OF MAILS.

## FOREIGN AND COLONIAL POST CARDS.

Single and Reply Official Post Cards are transmissible to all parts of the world—Single Cards, 1d each; Reply Cards, 2d each. (Official Inland Post Cards are transmissible abroad if the additional postage is supplied by postage stamps being affixed.) Cards used as Post Cards must be of similar substance to the official cards; not exceeding  $5\frac{1}{2}$  by  $3\frac{1}{2}$  inches, and not less than 4 by  $2\frac{3}{4}$  inches. Reply-paid cards of private manufacture must display the title “Post Card” on the address side, but this is not obligatory for single cards of private manufacture. Reply halves of reply-paid cards must bear the words “Post Card—Great Britain and Ireland” and “Reply.”

The left-hand half of the address side of a Post Card, as well as the back, may be used for a written communication subject to the following restrictions:—Nothing may be attached except stamps in payment of postage, a gummed label not to exceed 2 by  $\frac{3}{4}$  inches bearing address of recipient, a similar label with address of sender, and illustrations and photos on very thin paper completely adherent to the card.

## SPOILT STAMPS.

Applications for allowance on spoilt, or unused, postage stamps, embossed envelopes, post-cards, or newspaper wrappers, which have not passed through the post, should be made at the Stamp Office.

## POST OFFICE SAVINGS BANK.

Deposits of one shilling, or of any number of shillings, may be made by any person at the Post Office Savings Banks to the extent of £50 in one year ending 31st December, and £200 in all, including interest.

Any person desirous of saving one shilling by means of penny contributions for deposit in the Post Office Savings Bank, may do so by purchasing with every penny so saved a penny Stamp, and affixing it to a form to be obtained at any Post Office. Instructions as to this form are printed thereon.

## FOREIGN AND COLONIAL PARCEL POST.

### GENERAL REGULATIONS.

*Dimensions.*—The dimensions allowed are :—

For Argentine Republic, Corsica, France, Italy, Persia (*via* Russia), Samoa (*via* Hamburg), Turkey (Ottoman P.O.'s)—2 feet in any direction. Parcels somewhat exceeding 2 ft. in length are accepted if their other dimensions are inconsiderable.

For Bolivia, Brazil, Cape Verd Islands, Congo Free State, Dahomey, Dominican Republic, Dutch East and West Indies, Erithrea, French Congo, French Guiana, French Guinea, French Oceania, French Somali Coast, French West Indies, Ivory Coast, Madagascar, New Caledonia, Paraguay, Pitcairn Island, Portuguese Timor and West Africa, Reunion, St Pierre and Miquelon, Senegal, Tripoli (Africa), Tunis, Turkey (Austrian Agencies)—greatest length, 2 ft. ; greatest length and girth combined, 4 ft. Parcels slightly exceeding 2 feet in length are admitted (if their other dimensions are small) to Algeria, Comoro Islands, Crete, Cuba, Dutch Guiana, Ecuador, French Indo-China, German South-west Africa, Greece, Venezuela.

For Canada—Greatest length, 2 ft. 6 in. ; length and girth combined, 6 ft.

For Mexico—Greatest length, 2 ft. ; greatest length and girth combined, 6 ft.

For places named in the Table of Parcel Postage—other than those detailed above—same as for Inland Parcel Post.

The postage must in all cases *be paid in advance*, by means of postage stamps fixed by the sender. Each parcel must be plainly directed, and should bear the words "Parcel Post" in the upper left-hand corner, and the name and address of the sender. The date of posting should also be added. A parcel must not be posted in a letter box, but, as in the case of the Inland Parcel Post, must be taken into a Post Office and presented at the counter.

Parcels will be liable to Customs duties and regulations, and the sender of each parcel will be required to make a Customs declaration furnishing—upon special form provided for the purpose, which can be obtained at any Post Office—an accurate statement of the contents and value, the date of posting, and other particulars. Arrangements have been made with many Foreign Countries whereby senders may take upon themselves the payment of the Customs charges if they so desire.

No letter whatever may be sent in a parcel addressed to any Foreign Country, or to many British possessions. Invoices in open envelopes, giving particulars of the goods contained in the parcel may, however, be enclosed.

Parcels containing coin, watches, jewellery, or any article of gold or silver, must not be sent by Parcel Post to any Foreign Country or British Possession included in the insurance system, unless they are insured for at least part of their value, and packed according to special regulations.

Parcels should be securely packed, and must, if for Foreign Countries, be so sealed that they cannot be opened without the seals being broken.

PACKING AND SEALING.

The rules as regards careful packing must be observed in the case of Foreign and Colonial parcels. More careful and substantial packing is necessary for such parcels than for Inland parcels, owing to the distance over which, as a rule, they are conveyed, the conditions of transit, and climate; and in the case of parcels for certain countries a special form of packing must be employed. Light and bulky parcels containing fragile articles should be packed in strong wooden cases. No compensation is paid for damage to articles insufficiently packed.

For parcels containing liquids and substances which easily liquefy two receptacles must be used. Between the inner receptacle, which contains the liquid, and the outer one, which should be of strong wood or metal, space must be left all round, and this space must be filled with bran, sawdust, or other absorbent material.

Celluloid, unmanufactured or in sheets, must be well packed in strong wooden boxes, and articles composed wholly or partly of celluloid must be in a packing not less strong than stout cardboard, the nature of the goods must be shown on the parcel and on the despatch note when one is used. Liquid celluloid cannot be sent by post.

A parcel for a Foreign Country should be so sealed by the sender that it cannot be opened without breaking the seals or leaving an obvious trace of violation. The seals should bear the impression of a private device of the sender.

## CASH ON DELIVERY SERVICE.

This arrangement for collecting from the recipient, for remittance to the sender, by Money Order or Postal Order, the value of articles sent by post, is in operation between Britain and the following countries:—Bahamas (Nassau only), Barbados, Bermuda, Cayman Islands, Cyprus, Egypt, Fiji, Gambia, Gibraltar, Gold Coast, Grenada, Hong Kong, Jamaica, Leeward Islands, Malta, Morocco, Nyasaland, St Lucia, St Vincent, Somaliland (British), Southern Nigeria (Lagos, Calabar, and Warri only), Straits Settlements, Trinidad, Turkey (Beyrout, Constantinople, Salonica, Smyrna). The amount to be collected, or "Trade Charge," may not exceed £20. Articles may be sent as parcels, insured letters, or registered packets. The sender must (a) write, on cover of packet, his name and address, the amount in British currency of Trade Charge in figures and words, and name of office on which payment is to be drawn (no erasure or alteration allowed); (b) fill up a "Request Form"; (c) prepay a special fee by affixing 2d in stamps to Request Form. The ordinary postage and other charges must be prepaid in ordinary way.

The packet must be handed in at a Post Office, where the sender must obtain a certificate of posting, which is to be given up when the Money Order or Postal Order is presented for payment. The amount of the Trade Charge will be remitted directly to the sender, after deduction of fee due to office of delivery, and commission on Money Order or Postal Order. The rate charged as fee and commission for the various countries may be ascertained at the Post Office.

## GOVERNMENT INSURANCES AND ANNUITIES.

Insurances may be effected for amounts not less than £5 and not more than £100 to persons between 14 and 65 years of age; and Annuities may be purchased for amounts not less than £1 and not more than £100 on one life. Children between 8 and 14 years of age can be insured for £5. Forms of proposals may be obtained at the Post Office.

## POST OFFICE TELEGRAPHS.—INLAND TELEGRAMS.

The charge for telegrams throughout the United Kingdom is 6d for the first 12 words, and  $\frac{1}{2}$ d for every additional word. Addresses are charged for.

Forms with embossed stamps can be obtained either singly or in books of 20, interleaved, and with a sheet of carbonic paper, price 10s 2d each book.

When the terminal office is a Head Post Office, the amount paid for transmission covers the cost of delivery within three miles or within the town postal delivery when that extends for more than three miles. But when it is not a Head Post Office, the message is delivered free within three miles only. The portorage on messages for places beyond the limits of the free delivery will be at the rate of 3d a mile or part of a mile, the charge being reckoned from the limit of the free delivery.

Copies of a telegram directed to more than one person in the same form of delivery are delivered at a charge of twopence per copy, in addition to a halfpenny for each word in the address of the copy.

Persons not wishing to send to a Telegraph Office may post a telegram in an envelope addressed "Telegram, Immediate" in a wall or pillar-box, or Suburban Post Office. Telegrams so posted are sent on by next collection to the Telegraph Office for transmission free of extra charge, provided that the proper amounts have been prepaid.

No combination of words is counted as one, with the exception of those which are ordinarily written as one, or coupled by hyphens, as "mother-in-law," "forty-seven." Certain exceptional names, such as O'Neil, MacDonald, De la Rue, are charged for as single words. So, too, are names with the prefix "St," as St Pancras; but double names of persons, like Smith-Payne, are counted as two words.

Abbreviations of words, "can't," "won't," "don't," are counted as single words.

Figures are counted at the rate of five figures to a word. Fractions are counted according to the number of figures employed, one figure being added for the mark of division. In groups of figures a stop is counted as a figure. The symbols o/o, a/c, b/l, and c/o are each counted as one word. In ordinal numbers the affix st, nd, rd, or th is counted as two figures—thus "1st" counts as one word, "1432nd" as two words. When figures are preceded or followed by a letter (except in the case of ordinal numbers), the letter is counted as a word, but letters added to figures to denote the number of a house are counted as figures. Initial letters are each counted as one word, with the exception of the initials of the London Postal Districts, which are counted as one word for each group. Names of towns and villages in the United Kingdom are counted as one word each.

Anyone may register an abbreviated address on payment of a guinea a year.

The cost of a reply, not exceeding forty-eight words, may be prepaid, and a reply form will then be delivered to the addressee, who will be at liberty to send his reply, from any telegraph office, at any time within two months.

Telegrams can be repeated, if the sender desires it, by being signalled back from office to office. No copy is, in such case, given to the sender. The charge for repetition is one-half the ordinary tariff. Telegrams containing mercantile quotations or figures, and telegrams written in cypher, or according to a preconcerted code, should always be repeated.

#### FOREIGN TELEGRAMS.

Foreign telegrams are of two kinds, telegrams in plain language and telegrams in secret language. Those in plain language are composed of words, figures, and letters conveying an intelligible meaning. Those in secret language are divided into: (1) preconcerted language or code, (2) cypher.

Code language is composed of real words not forming comprehensible phrases, or of pronounceable groups of letters having the appearance of real words. Words of more than ten letters are not allowed. In Code telegrams English, French, German, Italian, Spanish, Portuguese, Dutch, and Latin, may be employed, whilst artificial words must be pronounceable according to the usage of these languages.

Cypher is composed of Arabic figures having a secret meaning, or letters having a secret meaning, and words or combinations of letters not fulfilling the conditions applicable to plain language or code. Letter and figure cypher cannot be combined.

The address of the sender is charged for, if transmitted; in any case it must be written at the foot of the form.

In telegrams written in plain language the length allowed for a word is 15 letters. Additional letters are charged for at the rate of 15 letters to the word.

Subject to the limit as to number of letters, ordinary compound words and names of persons and places, &c., written without break or interruption, are counted as single words. If joined by a hyphen, or separated by an apostrophe, they are counted as so many separate words.

Compound numbers written in words and without break are also counted as single words subject to the same limit as to the number of letters. The name of the office, county, province, and country of destination in the addresses of telegrams are each charged for as one word whatever their length.

Every separate letter or figure is charged for as one word. Groups of letters in cypher and groups of figures are counted at the rate of five to a word. Bars of division, decimal points, and stops used in the formation of numbers are counted as figures. Letters added to figures to form ordinal numbers are counted as figures.

If the sender desires to prepay a reply he must insert before the address of the receiver "R P—", which is charged for as one word. A less sum than 10d cannot be accepted in prepayment of a reply.

Books containing 25 forms, each bearing 10d stamp, interleaved, can be obtained, price 21s each.

#### RADIOTELEGRAMS.

Radiotelegrams are accepted at any Telegraph Office for transmission from various Coast Stations (both in the United Kingdom and abroad) to certain of the principal Ocean Liners, to His Majesty's Ships, and also to certain Mail Packets. Radiotelegrams from ships are also received at such stations, and are thence transmitted to their destination by wire. Particulars may be obtained at Post Office.

**Insides of Boilers and Economiser Tubes.** It prevents the deposit adhering to the walls of the Boiler or Tube, and thereby greatly reduces the amount of incrustation. What incrustation there is can be easily removed with a brush, leaving the plates clean and smooth.

**Galvanized Zinc or Iron Roofing,** as it preserves it from decomposition which no other paint will do.

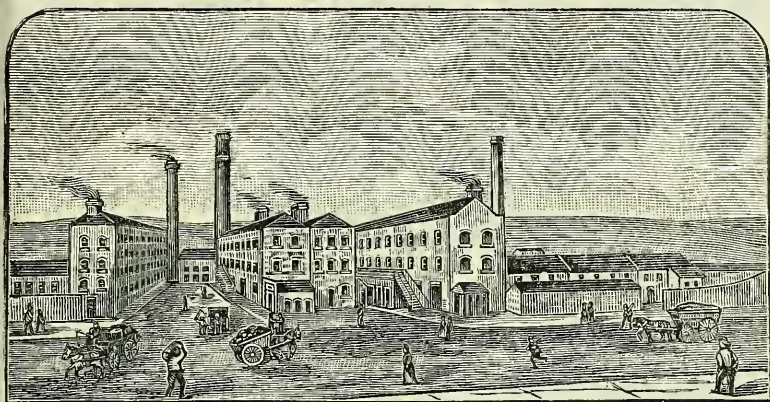

**Gas, Water, and Drain Pipes,** as it is not affected by the moisture of the earth.

**Gasometers, Tanks, Buoys, and Gutterings,** on account of its power of resistance to weather and all atmospheric changes.

HENRY ROSSELL & CO., Ltd.

MANUFACTURERS OF

THE PATENT

OVERCUT" SPIRAL CUTTERS,

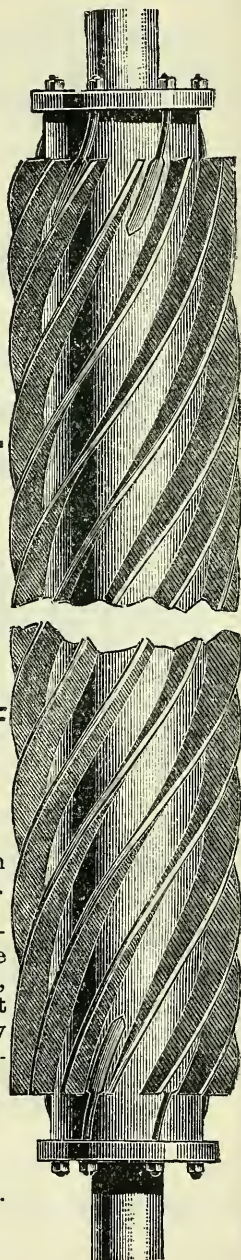

The great ADVANTAGES of which are now  
admitted by all who have adopted them.

- I. FAR BETTER CROPPING IS OBTAINED.
- I. MOST ECONOMICAL IN USE, requiring much less attention than any other type of spiral.
- I. GREATLY INCREASED OUTPUT. Without increasing the speed of the spiral cylinders the delivery speed may be greatly increased, giving even then a finish quite equal to that given by any other spiral at half the delivery speed. Made in all sections for every purpose where file-edge spirals are in use.

## CRIGHTON'S PATENT WRINGER PLATE.

The plate herewith has been designed to meet a much-felt want in the Wash-house, as the methods hitherto adopted for fixing the Wringer to the earthenware tubs have been invariably unsuccessful, and have caused much inconvenience to the users.

The Plate is made in one piece and is of Cast-Iron—Galvanised to prevent Corrosion—and although fixed between the tubs there is no risk of cleavage, as the double flange bearing upon the tubs counteracts this tendency. The ends of Plate are chequered on both sides to give wringer screws a secure hold, and any ordinary size of wringer can be fixed to same.

**INSURANCE AGAINST FRAUD AND EMBEZZLEMENT.**

The question of FRAUD by trusted officials is so frequently brought into public prominence that the necessity of Employers holding adequate security on behalf of responsible persons whom they employ must be freely admitted. *It is the obvious duty of Members of School Boards, Parish and County Councils, Directors of Public Companies, Committees of Charitable Institutions, Friendly Societies, &c., to see that proper security is held on behalf of those whose funds they administer, and the moral and financial safeguard of a Guarantee Policy issued by a good Office should commend itself.*

The Premiums charged by THE NATIONAL GUARANTEE AND SURETYSHIP ASSOCIATION are based on the statistics of upwards of Forty Years Experience, and a full prospectus, containing an approximate table of rates for the various classes of risk, will be sent on application. Special quotations are given where a large amount of business is involved.

The Association is prepared to grant immediate security to ACCOUNTANTS, SOLICITORS, AND OTHERS in connection with Court Appointments, and will give full particulars of the special facilities afforded on application.
