GOLD AND SILVER FOREIGN COINS.

A KNOWLEDGE of the relative value of foreign coins is highly important to commercial men, and to the traveller. In the following table of the different coins used among the various nations with which England has intercourse, will be found their corresponding value in English money. The method of obtaining this

result is founded upon the following principle. In a coin we consider the weight and standard. By standard is meant the proportion of pure gold or silver which it contains: the rest is alloy. Thus, if we suppose a coin to contain a thousand parts of metal, of which 917 are pure gold or silver, the 83 remaining parts being alloy, the 917 represent the standard, or relative purity of the coin.

The English sovereign weighs 7.9808 gram., the standard is at 917, the alloy consequently 0.662 gram., and the weight of pure gold contained in it is 7.3184 gram.

Now by the Rule of Three, the question will thus be resolved:
 7.318 gram. : 11.988 gram. :: 20 shillings : = £1, 12s. 9d.

By this method, we can ascertain the relative value of all coins; but sometimes the value thus ascertained will not exactly agree with the sum allowed in exchange. This difference arises from political causes and commercial vicissitudes. Thus, for instance, the value at par of the sovereign in French money, is 25 fr. 26 c., yet it rose to 25 fr. 50 c. in the month of August 1829, after the change of the French ministry. This fall and rise, in the relative value of money, principally takes place whenever there is a paper currency.

1. FRANCE.

The money unit in France is the *franc*, which, according to the decimal system, is divided into one hundred parts, called *centimes*. In Government accounts and legal deeds, all sums must be expressed in francs and centimes; but among the people, and in the purchase of goods sold retail, and in small quantity, the denomination of *sous* is still in use. This practice does not create confusion, because the *sou* is a multiple of the *centime*,—that is, there are twenty sous to the franc, and each contains 5 cent. The two sous piece may also be called *décime*, or tenth of a franc.

Although the *franc* and the *livre tournois* now appear to be of equal value, there is however a slight difference in favour of the franc:—100 fr. = 101 livres 5 sous. Hence if an individual had to discharge a debt contracted previously to the year VIII. of the Republic, and stipulated in livres tournois, he would be entitled, in making his payment in francs, to a deduction in the proportion above mentioned. Formerly the *livre tournois* was the money unit of France. Its value has varied much, although it has retained the denomination which, originally, was the expression of its nature. Under Charlemagne, in the ninth century, its weight was 12 ounces, or 1 lb. troy weight, and its value 78 liv. 17 sous of present money. The weight and value progressively decreased down to the time of Louis XV. when it only amounted to 8 sous. Under Louis XVI. it rose again to 20 sous.

Besides the new coinage issued during the Republic, under the Empire, and since the Restoration, the old one is still in circula-

tion. There is, however, but little of it extant. The value of the silver pieces has not only been reduced in 1810, as will be seen here, but the pieces of 24, 12 and 6 sous are not to be taken in payment, except they have preserved some part of the stamp (empreinte); consequently, all those which were defaced have been withdrawn from circulation.

There is also in France a coin, composed of copper and silver, in the proportion of 4 to 1, called *Billon*, and denominated by the people "monnaie grise." Before the Revolution, there were of this mixture, pieces of *six liards*, (the French sou being divided into four liards,) and of two sous and a half, called *pieces of six blancs*: there are few of this value now extant, but there are pieces of two sous or *décimes*.

## REGULATIONS.

The Sergeant Major and two Constables, with twelve Officers, attend at the Office, previous to the Watchmen, being sent to their Stations. These Officers thereafter patrol the Streets, observe if the Watchmen are doing their duty, apprehend vagrants, suspicious and disorderly persons, and report lamps not burning, in order that they may be immediately lighted by a lamp-lighter, who remains in the Guard-House during the night, for that purpose. After 12 o'clock, they commence taking up the tickets from the Watchmen, that they received when going to their Stations, which they deliver to the Constable, on duty, at 2 o'clock; they again visit the Watchmen, and after 3 o'clock deliver them

check-tickets, which they return to the Constable in the morning, on arriving from their Stations. The other twenty-four Officers that were in bed all night, attend in the morning, at 6 o'clock, from the 1st of March till the 1st of November, and at 7 o'clock, from the 1st of November till the 1st of March, to patrol the Streets, till 9 o'clock, inspecting their Wards, and observing that the Pavements are properly cleaned. A regular report of the whole is entered in a book, by the Constable of the night, for the inspection of the Master of Police, in the morning, and the Commissioners at the Weekly Board; as also a report of all delinquents brought before the Sitting Magistrate at 10 o'clock, forenoon.

A Constable and twenty-four Officers, attend at the Office, every morning at 10 o'clock. Four of these Officers remain in charge of the Office, and the other twenty are stationed in different districts of the city, and continue on their respective Stations, until relieved by the night Watchmen.

The Watchmen go to their Stations at 9 o'clock at night, during the whole year, and continue till 5 in the morning, in the months of May, June, July, and August; till 6, in the months of March, April, September and October; and till 7, in the months of November, December, January, and February. The whole draw up in line in the centre of the street, opposite their respective stations, immediately before calling the hour and half-hour, in order to ascertain, at one glance, that every man is at his post.

The funds for defraying the expense are raised part from the town, and from the yearly rent of subjects, rented or valued at £4 and under £6, sterling, yearly, 4d. per pound, sterling—At £6, and under, £10, 6d. per pound.—£10, and under £15, 9d. per pound.—£15, and upwards, 1s. per pound.

### *Form of Proceeding in the Recovery of Small Debts.*

Debts may be recovered, in a summary form, before the Justice of Peace Courts, to the extent of £5, and before the Sheriff Courts, to the extent of £8, 6s. 8d.

The first step is to set forth in a complaint or libel, agreeably to a prescribed form, [the Clerks of Court will provide all necessary forms,] the origin of the debt, or ground of action, and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at same time, be obtained to cite witnesses, and, when the case is before the Sheriff, to use arrestments.

The parties may appear either by themselves, or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law.

If the defender fail to appear, after being cited personally, he will be held as confessed, and judgement will be given against him.

If the defender has not been cited personally, he will receive a second citation; after which, whether given personally or not, he will be held confessed as above.

But when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing on consigning the sums decerned for.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing on consigning of 2s. 6d. if the case be before the Justices, and the expenses decerned for, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender offering a suitable excuse, or if any witnesses be absent.

If decree be given against the defender in his personal presence, diligence may proceed against him by arrestment, poiding and sale, and imprisonment; after six free days if the case be before the Sheriff, and at the end of ten days if before the Justices.

If decree be given against the defender in his absence, poiding, and sale, and imprisonment can only follow after a charge of six days if before the Sheriff, and ten days if before the Justices.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff may be executed in any county on the same being indorsed by the Clerk of such county.

Any arrestments used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed on offering sufficient caution, or on showing evidence of absolver or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever before the Sheriff or Justices, for making effectual arrestments; but in such actions both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary, or, if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees when pronounced by the Justices will only be reviewable by a reduction before the Court of Session on the ground of malice and oppression on the part of the Justices; and such reduction will only be competent for one year, and on finding caution for costs.

No person will be exempted from the jurisdiction of Justices or Sheriffs in such cases by reason of privilege as a member of the College of Justice.

Soldiers on the recruiting service and not lodged in the Barracks are billeted on the inhabitants in regular rotation, with the following exceptions, viz. Parish Ministers and Schoolmasters, Faculty of Physicians and Surgeons, Faculty of Procurators, Widows and unmarried Ladies not in business, and who do not keep lodgers and paupers; and no inhabitant to have Soldiers billeted on them a second time till the whole are gone over.

Occupiers of houses at £3 and under £5 yearly rent, two men for any number of days under a week—at £5 and upwards, two men for two weeks, or the remainder of the month, which may happen to be seventeen days.

When it is inconvenient to furnish Soldiers with a bed, it has been usual in lieu thereof to pay 3s. a week for two men, and 2s. to sergeants, payable weekly at the option of the Inhabitant.

Government allows a return of 9d. per week, and one penny for each odd night for each Soldier. The Billet master attends from 11 to 3 o'clock, on the 28th of each month, (when it does not fall on Sunday,) and the two following days, to pay the Government allowance.

The case of a sergeant, who charged 8s. for a billet of two weeks upon an inhabitant, was brought before the sitting Magistrate, who, after hearing both parties, and examining witnesses, ordered the soldier to refund the overcharge, and communicate this circumstance to his comrades; and decerned that 1s. 6d. per week is a sufficient sum in lieu of a bed; but, as the soldier is put to some trouble to provide a bed for himself, he should be allowed 6d. additional, making a sum of 2s. per week; and, if at any future time a higher charge is made, it shall not be allowed to pass unnoticed.—*Glasgow Herald*, 23d Dec. 1822.

A case similar to the above, was tried in the Justice of Peace court, when a sergeant made a charge of 3s. per week, for one man, for a bed, which the inhabitant resisted as being too much; the Justices adhering to a decision of the Magistrates in December, 1822, decided, that 2s. per week, was the proper sum to be paid to one man in lieu of a bed.—*Glasgow Chronicle*, 17th June, 1824.

These Badges must be worn constantly by the Carters when at work; and they must immediately get the number which is on the Badge painted on some conspicuous part of their Carts, under a penalty of ten shillings for each offence.

And every Carter, who says he is engaged, shall, upon being asked, specify the person by whom, and the hour at which he is engaged, and he shall not refuse to be employed in the interval between the time he is so asked, and the hour of his engagement, under a like penalty of ten shillings for each offence.

This Table is calculated for the Broomielaw, on the supposition that the tides are influenced only by the action of the sun and moon. It will, therefore, be necessary when using it, to remember that in rivers, like the Clyde, the regularity of the tides is much interrupted by heavy rains, as well as by high winds, the former producing what are called floods or freshes, the latter altering both the height of the tide and the time of high water.

Heavy rains affect the hour of full tide in a very inconsiderable degree; but a strong gale from the North-West, North, or North-East, not only prevents the tide from rising so high as usual, but causes high water to happen sometimes above half an hour earlier, than what is stated in the table; while, on the other hand, if the gale be from the South-East, South, or South-West, the tide will be as much later, and probably from twelve to eighteen inches higher than the average.

The preceding Table will be applicable to the following places, if, to the time of High Water at Glasgow, the hours and minutes, opposite to the given place, be added or subtracted as directed.

## The Lowest Rates Ever Published,

WHETHER FOR A TERM OR FOR THE WHOLE OF LIFE.

The following are selected from the Even rates.

| Age. | Whole Life. | 7 Years. |
|------|-------------|----------|
| 20   | 1 11 9      | 0 17 1   |
| 30   | 2 2 0       | 1 2 10   |
| 40   | 2 17 1      | 1 10 8   |
| 50   | 4 2 0       | 2 1 7    |

## ALTERNATIVE.

One-third of the Premium may be left unpaid, to be deducted from the sum assured, on a scale equal to interest at 4 per cent.

Thus, at the age of 30, 20 Guineas a year, will insure £1500 in the first instance, to be reduced by £10, 18s. 5d. if the Assured die within the first year; by £59, 2s. 11d. if he die within the fifth year; and so on, according to a scale endorsed on the Policy.

## Ascending Scale of Premiums.

| Age. | First 7 Years. | Next 7 Years. | Every Year after. |
|------|----------------|---------------|-------------------|
| 20   | 1 1 4          | 1 6 2         | 2 4 7             |
| 30   | 1 8 7          | 1 15 1        | 3 0 11            |
| 40   | 1 18 3         | 2 7 0         | 4 9 8             |
| 50   | 2 11 11        | 4 0 11        | 7 0 3             |

A man at 30,—instead of £2, 2s. for every year of life, according to the Even Table, by adopting the Ascending Scale—will pay £1, 8s. 7d. per annum for the first seven years, £1, 15s. 1d. per annum for a further seven years, and £3, 0s. 11d. for every year of life after.

This scale ought to supersede all others in cases of Annuity, or Leases for lives, in which very low rates for so long a period as 14 years, will be found highly advantageous.

## INSURANCES ON THE LIVES OF OTHERS.

Parties having a fixed or variable interest in the lives of others, may have a general admission of interest on the Policy.

Contingent interests,—as a father insuring a child during minority, or a husband his wife,—will be admitted, the insurance being confined to the particular interest detailed in the proposal.

**VOYAGES AND FOREIGN RESIDENCES.**

**NAVAL AND MILITARY SERVICE.**

**PREGNANCY, DELICATE HEALTH, AND OLD AGE.**

Females need not appear; the rates for diseases are moderate, and Policies are granted to persons of advanced age.

Insurances may be effected without delay, and full particulars obtained from
