The Kitson System of Incandescent Oil Lighting

Is the cheapest and most brilliant system of artificial lighting that has ever been produced. Here are a few facts relating to this light:—

1. It was **THE FIRST AND ORIGINAL** incandescent light produced from oil.

2. There are more Kitson Lamps in use throughout the world than electric arc Lamps.

3. The Kitson System requires no machinery or motive power for producing a light as brilliant as the electric arc, and this is obtained from ordinary paraffin oil.

4. **IT IS ABSOLUTELY SAFE.** There has never been an explosion or fire from any Kitson Lamp.

5. It is used on most of the great Railway systems in England, France, Germany, Austria, Canada, Australia, India, South America, and in fact throughout the world.

6. It has been adopted as the best system for lighthouse illumination by Trinity House and the British lighthouse authorities.

7. It is protected throughout the world, and is the subject of nearly 500 patents, and it is in use by the Army and Navy authorities, as well as by the Colonial Governments.

8. It has received the highest Awards at all the International Exhibitions where it has been exhibited.

9. **IT IS THE IDEAL LIGHT FOR THE LIGHTING OF CAMPS,** forts, grounds, docks, and in fact everywhere where a cheap, brilliant, and effective light is required.

10. It requires no skilled labour.

11. It is used at all the European War Departments.

Our New Non-Pressure Lamps are absolutely automatic, and require little or no attention.

BEWARE OF INFRINGING DEVICES AND IMITATIONS.
