SOCIETY FOR PROMOTING EDUCATION IN THE  
HIGHLANDS OF SCOTLAND.

This Society is just established, and we will venture to predict that it will be productive of incalculable advantages to the northern counties. Branch Societies should be set on foot without loss of time, in every town and village to the north of the Spey. It is not necessary that these should be confined to the higher classes of the community. Tradesmen, labourers, &c. who can afford from 1d to 6d per week should form themselves into Societies, as they are equally interested in the success of this benevolent institution. As their views are the same, though differently directed, we hope to see a large portion of the funds of the Bible Society, applied to the more legitimate and patriotic purpose, of dispelling the ignorance which binds in darkness the minds of so many thousands of our countrymen.
