THE ROYAL AIR FORCE MEMORIAL FUND has been established to commemorate the work of the Flying Services during the Great War by an organization which will be of lasting benefit to the Officers and Men of the Royal Air Force and their dependents, whether from the Dominions or the United Kingdom. It is proposed to establish schools or other institutions for the children of Airmen, to provide scholarships for the children of Officers, and either directly or in co-operation with other organizations, to give help to Officers, Airmen and their dependents who are disabled, sick, or otherwise infirm.

In addition, a permanent Memorial to the Officers and Men of the Flying Services who fell in the Great War, to be erected in London.

For all the above purposes the Fund requires a capital sum of £400,000, of which at present only one-third has been raised. Money is therefore urgently needed, and an appeal is made to all Officers, past and present, of the Flying Services, their relatives and friends, and to the General Public, for whom the Officers and Men of the Flying Services did such splendid and gallant service in all theatres of war from 1914 to Armistice Day, 1918.

And Still Unpuncturable!

READ WHAT THE NEW
RAPSON CORD TYRES

BY APPOINTMENT TO

BY APPOINTMENT TO
H.R.H. THE PRINCE OF WALES

GARAGE LAFITTE,
BIARRITZ,
FRANCE,

To
Messrs. Rapson Tyre & Jack Co., Ltd.

October 7th, 1922.

Dear Sirs,

I have just examined the photograph of your four Rapson Cord Tyres, which you so kindly sent me. After 10,000 miles running I agree with your remarks that these tyres look good for double the distance; but one cannot forget that at speeds averaging 20 M.P.H. any tyre should be capable of completing such a distance provided punctures are avoided.

You ask me how my Rapson Cords are getting on. I have now run 20,018 miles, chiefly over these vile Continental roads: although nearly worn out the tyres still appear to be unpuncturable, for only last night I withdrew a huge nail, and was amazed to find that it had not penetrated the deflector-tube. Nothing you did at 20 M.P.H. under R.A.C. Supervision could ever compare with the gruelling these tyres have received. My car is a heavy Saloon, capable of speeds up to 65 M.P.H.; and prior to running on your new Cords I generally managed to wear out or burst those on the back at less than 3,000 miles.

Yours faithfully,
(signed) G. EDWARDS.
