## *Subscription for Relief of the Distressed Classes of the Community.*

---

---

THE Committee beg leave to state, that many of the Persons now in their employment are in a most wretched condition in point of CLOTHING. They have, therefore, been induced to open a depôt for the reception of such OLD CLOTHES of every description as the liberality of the Public may entrust to them for this benevolent purpose. Articles of female apparel would be extremely acceptable for behoof of the families of those who are under the charge of the Committee. Those who have the goodness to contribute in this way will please send their Old Clothes to the Shop, No. 15, within the Royal Exchange, which will be open for this purpose every lawful day from 10 to 4.

*N. B.*—The Committee have every reason to believe, that many who intend to subscribe for behoof of this fund have, from mere inadvertency, hitherto failed to do so. As it is feared that the fund may prove inadequate to the purpose which the Committee have in view, they take the liberty to request, that those who have hitherto neglected to come forward with their subscriptions, will do so without delay; and that those who have subscribed, but have not yet paid their contributions, will have the goodness to transmit the same to the Treasurer, Mr ROBERT JOHNSTON, North Bridge Street.
