p. The product from domestic ores only.
h. Of 75/2 avoirdupois pounds net; of 75 avoirdupois pounds net after June, 1904.
c. Consumption in 1904.
i. Consumption in 1904.
j. Includes antimony smelted from imported ores and antimony contained in hard lead.
k. Including nickel in corper-nicket alloy, and in exported ores and matte.
k. No netalitic tri; about 20 short toos of high-grade concentrates shipped to England from South Carolina in 1903. In 1904: about 159 short tons of concentrates from South Carolina, south Carolina, South Carolina, South Carolina, South Carolina, South Carolina, and Anaka shipped to England.
m. Not including \$4,000 worth of plashnum reported as consilined in silms from copper one from the Rambler mine, Wyoming.
a. Including thort tons; value at ovens: \$66,498,664.
1904: 23,621,600 short tons; value at ovens: \$66,498,664.
1904: 23,621,600 short tons; value at ovens: \$66,092,183.

p. Of 300 pounds for natural cement, and 400 pounds for Portland cement.
g. Including limestone for iron flux, but not including grindstones.
r. Including value of 20 pounds for product scalulary of cost of packages.
g. Not including value of 60 short tons of cobalt ore produces during value soft.
g. Not including value of 60 short tons of cobalt ore produces during value soft.
g. Not including value is for new reduct scalulary of the soft of packages.
g. Not including value is for new reduct scalulary value is for new reduct scalulary value is soft of the soft of packages.
g. Not including value of 60 short tons of cobalt ore produces during value soft one soft of the soft of the
