During a waulking, when the lads had come in, some one would raise this song - introducing the names of the young women present - or if going off on board the boat - with one of the young men - who would be comically described

Mr. Thomson's Duaneir - his tea table - example of a young man's page - 121

here would be put - here was the song - and in the house would be mentioned in the house - on board the boat -

Coisich a ruin —

A wife mourning

Coisich a ruin,

A Sub-nan-geala

Och-ho-nom o.
