MACPHERSON'S OSSIAN AND THE OSSIANIC CONTROVERSY

A CONTRIBUTION TOWARDS A BIBLIOGRAPHY

BY GEORGE F. BLACK, PH.D.

INTRODUCTORY NOTE

*“Ossian, sublimest, simplest bard of all
Whom English infidels Macpherson call.”*

JAMES MACPHERSON, a young Highland schoolmaster and poet, born at Ruthven in the parish of Kingussie, Inverness-shire, in 1736, became tutor to the son of Mr. Graham of Balgowan in 1759. In the course of his travels with young Balgowan (who afterwards became Lord Lynedoch) he met at Moffat Wells the Rev. John Home, author of the now forgotten tragedy of *Douglas*, to whom he showed what he said were fragments of ancient Gaelic poetry still recited in the Highlands. One of the pieces, *The Death of Oscar*, he translated at Home's request. It greatly pleased Home, the Rev. Dr. Alexander Carlyle, and others, and when Macpherson produced and translated some fifteen or sixteen more pieces, they strongly urged him to publish them. They were finally turned over to the Rev. Dr. Hugh Blair, Professor of Rhetoric in the University of Edinburgh, for that purpose, and they appeared in a thin volume in July 1760 as *Fragments of Ancient Poetry collected in the Highlands of Scotland, and translated from the Galic or Erse language*, with an introduction by Blair, who declared the poems to be “genuine remains of ancient Scottish poetry.” Professor Adam Ferguson, John Home, Dr. Blair, Dr. Robertson the historian, with other competent judges, were loud in their praise. Thomas Gray, the poet, also thought well of them, but was doubtful “whether they were the invention of antiquity or of a modern Scotchman.” A subscription was raised to enable Macpherson to return to the Highlands with the object of

collecting other pieces, especially the longer poem or epic relating to the wars of Fingal, the existence of which was hinted at in the introduction to the *Fragments*. To all appearances the tour was successful, for in 1761 Macpherson published *Fingal*, an epic in six books, and two years later *Temora*, in eight books.

It was assumed that as far back as the third century, in the remote Highlands and islands of Scotland, there existed a people who possessed not only noble and generous qualities of the highest type but also a strong poetic fervor which was nourished and kept aglow through the centuries down to our day. Some there were who had their doubts about the authenticity of the poems, others there were who disbelieved, but a still greater number clung to the idea, as Gibbon puts it, that "Fingal fought, and Ossian sang." By way of a test David Hume the philosopher put the question on a simple and concise issue: Show us the original poems and manuscripts from which you have made these translations and tell us how they have been preserved during so many centuries. To Hume's appeal Macpherson vouchsafed no answer. "The absurd pride and caprice of Macpherson himself, who scorns, as he pretends, to satisfy anybody that doubts his veracity," tended, as Hume says, to confirm the general scepticism. This scepticism threatened to damage the reputation of more than one of the critics, chief of whom was Dr. Blair, whose elaborate *Critical dissertation on the poems of Ossian the son of Fingal*, published in 1763, was written "with more zeal than discretion." To combat this growing unbelief Dr. Blair procured from eleven persons of reputed authority in the Highlands letters in favor of the authenticity of the poems and affirming that at the time when *Fingal* and *Temora* were published there were several persons living in the Highlands and islands who had either old Gaelic manuscripts in their possession or could recite long passages from traditional Gaelic poetry similar in subject and composition to those published in English by Macpherson.

But this was not deemed sufficient to allay the suspicion which still clung to Macpherson, the doubters persistently demanded a sight of the original poems before the charge of fraud against him could be withdrawn. It was all without avail, the only "originals" existing being in the handwriting of Macpherson himself or in that of his amanuenses.

On the continent of Europe, however, the effect of Macpherson's Ossian was wide and enduring. "The translation of Caesarotti initiated a new poetic school in Italy. In Germany, then going through its romantic stage, it was hailed with rapture. Klopstock wrote turgid odes after its worst style;

Herder gloried in it; Bürger versified it; Schiller found rare beauty and grandeur in the life of Celtic past with its background of mist; and Goethe tried his skill in translating it; and his *Werther*, to express his agonised emotions, turned to the melancholy bard of the North, and in his strain pours forth his abject woes. Voltaire laughed his dry laughter like the crackling of thorns over it, and for a while France was unthralled. At last even it gave way to the spell, especially when Napoleon, who knew it through the Italian translation, and loved the grandiose, was moved to admiration for 'Ocean', as he spelt it, carrying it with him as his favourite reading during his campaigns. French parents found baptismal names for their children in its pages." Oscar I., King of Sweden, the son of Napoleon's marshal, Bernadotte, was named after the son of Fingal, and to this day Oscar has continued a favorite name in the Swedish royal family.

"No competent Gaelic scholar," says Mr. G. M. Fraser, Librarian of the Aberdeen Public Library, "will be found in Europe who would take up the attitude that Macpherson's work, either in respect of the Gaelic 'originals,' or the English translation, was authentic"; and he concludes: "it is much to the credit of Gaelic scholarship of our own time that, uninfluenced by racial feeling which previously must have affected impartial judgment of the work, it has finally rejected James Macpherson and his 'Ossian', which can now be set down as one of the most remarkable literary impostures that has happened in Britain in modern times."

It may be mentioned that the Library's collection of Ossiana has been greatly increased by the gift of a sum of money for that purpose from a gentleman who desires to be known simply as "F. H." To Mr. J. Norman Methven, of St. Martin's, Perth, Scotland, the Library is also indebted for the gift of several scarce editions, including a copy of the rare second edition of the *Fragments*.

This list comprises not only what is in The New York Public Library, but also some titles gathered from other sources with the aim of making it a fairly complete list of works on the subject. The works which are in the Library have the call-number added at the end of the title — the others are understood as being not at present in the Library collection.

A reprint of the Highland Society's edition of 1807 with a literal translation of Clerk's own

alternate pages and Macpherson's English at the foot of the page.

"The edition is creditable to the industry of the editor; but not to his scholarship. He has written a very readable preface, although the Ossianic mania has carried him into giving expression to very serious philological heresies. But no one expects to find in the advocates of Ossian earnest votaries of philological science. The voluminous notes illustrative of the text, and explanatory of the so-called proper names, which must have cost Mr. Clerk such a waste of time, though not of learning, might have been expunged with great advantage to the reader, and benefit to the editor's reputation... Let us hope that this is the last occasion on which the public will be asked to accept as genuine a work which is only an audacious attempt at imposture." — *W. M. Hennessy.*

"In this volume the text of Ossian remains as it was left by Macpherson in his edition of 1773, and the poems are presented in the final order arranged by him. The four last translations only, 'The Battle of Lora,' 'Temora,' 'Conlath and Cuthona,' and 'Berrathon,' have owing to the exigencies of space been omitted. Some curtailment has been made of the translator's notes, many of which are irrelevant. All, however, have been included which are necessary for the understanding of the text." — *Editorial note.*

Temora ought to have been included in this edition, as book I, is founded on a genuine tradition, the remainder being Macpherson's own composition. The editor, it may be mentioned, is a believer in the authenticity of the poems.

"It should be stated that, while the editor is responsible for what he considers a more apt arrangement of the poems, and also for a few notes, this Centenary edition is otherwise reprinted from the edition produced in 1822 by Mr. Hugh Campbell."

Beyond a rearrangement of the poems and the addition of a few notes "this centenary edition is otherwise reprinted from the edition produced in 1822 by Mr. Hugh Campbell. The notes to which the initial C is appended are those by Mr. Campbell, and are generally to correct some statement of Macpherson — though some of Mr. Campbell's own correctional notes have not been reproduced, often in error as he was himself. The great majority of the notes without any initial are Macpherson's own comments."

The "introductory note" (p. ix-xxiv) by Sharp is simply a rehash of earlier opinion and contributes nothing new to the elucidation of the Ossianic question.

"Although Wordsworth professed contempt for Macpherson's 'translation' as a worthless forgery, it can be shown that he was familiar with the subject-matter, the spirit, and, in places, with the exact phraseology of *Ossian*; that he borrowed an Ossianic word or two when he needed it; that many of his poems deal with themes relating to the Ossianic poems, or present images or lines to which parallels may be found in *Ossian*; and that in his passionate love of the mountain wilderness he came very near the spirit of the blind bard of Selma."

A nine page article. In the third volume of plates, music, pl. 45, is given the music to the Hymn of Ossian in *Temora*. The author of the article states that when at Hamburgh he mentioned, in the company of Klopstock, "the being in possession of the following melodies, which we wrote down for the first time perhaps that they were ever received on paper, he most earnestly intreated us to favour him with transcripts of these airs, which we readily promised to do; but, to our great regret, we were never able to find them till two or three months after his decease. We therefore now give them a place on our plates, not only as curiosities, but to appease the manes of the sublime Klopstock."

His thesis is that Ossian's poetry as well as his heroes are of Irish origin. "I must beg leave to be of opinion, that the Irish antiquities here recited are authentic; that all the famous champions, Cuchullin, *Fingal*, Ossian, Oscar, &c., were absolutely Irish heroes; and that it is extremely probable — tho' I suspend my judgment upon that article — that all the poems in their original composition, were fables finally imagined and imitatively executed by an old Irish Bard." — p. 31–32.
