## PREFACE.

---

THE Publishers, in issuing the Thirty-second Edition of the DIRECTORY, beg to return their grateful thanks for the uninterrupted patronage and support so long enjoyed. The Directory for the current year, exclusive of Advertisements has increased in matter by 24 pages over its predecessor, arising chiefly from an increase of names, thus rendering the volume more valuable to the public. It has been prepared with the usual care and attention, and as opportunity offers every means will be employed to increase and extend its usefulness.

The Publishers owe their thanks to the Gentlemen connected with the Local Institutions of the City, for their promptitude and kindness in correcting the lists, thus giving to the public a very valuable appendage to the Directory.

POST-OFFICE, GLASGOW, *1st June*, 1859.

# ALMANAC AND TIDE TABLE.

FROM JUNE 1858, TILL JUNE, 1859.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean, as in the following figure:

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide, A, is produced by the waters receding from the earth, and the tide, D, by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Céleste* the mean force of the sun in raising the tides is to the mean force of the moon as 1 to  $1\frac{1}{2}$ ; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when she is in conjunction with the sun, and at full moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring Tides take place about two days after full moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 h. 25 m., that is, half the lunar day of 24 h. 50 m., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 h. 50 m.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanac* for 1857 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's phases are calculated to civil time. The civil day begins at midnight.

## TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained by addition, as here annexed.

## ECLIPSES OF THE SUN AND MOON.

In the year 1860 there will be two Eclipses of the Sun and two of the Moon.

I.—An angular Eclipse of the Sun, January 22, 1860, invisible at Greenwich. Begins on the earth generally, January 22, 9 h. 54.3 m., mean time at Greenwich, in longitude 99° 58' east of Greenwich, and latitude 49° 20' south. Central eclipse begins generally, January 22, 11 h. 35 m. P.M., in longitude 30° 29' east of Greenwich, and latitude 69° 9' south. Central eclipse at noon, January 22, 11 h. 51.2 m. P.M., in longitude 5° 10' east of Greenwich, and latitude 88° 59' south. Central eclipse ends generally, January 23, 1 h. 19.2 m. A.M., in longitude 88° 11' west of Greenwich, and latitude 41° 59' south. Ends on the earth generally, January 23, 3 h. A.M., in longitude 126° 30' west of Greenwich, and latitude 15° 8' south.

II.—A partial Eclipse of the Moon, February 7, 1860, visible at Greenwich. First contact with the penumbra, February 7, 0 h. 0 m. A.M. First contact with the shadow, 7 d. 1 h. 1.8 m. Middle of the eclipse, 7 d. 2 h. 28.7 m. A.M. Last contact with the shadow, 7 d. 3 h. 55.6 m. A.M. Last contact with the penumbra, 7 d. 4 h. 57.3 m. A.M. All mean time at Greenwich.

III.—A total Eclipse of the Sun, July 18, 1860, visible (as a partial one at Greenwich). Begins on the earth generally, July 18, 11 h. 53.8 m. A.M., mean time at Greenwich, in longitude 102° 14' west of Greenwich, and latitude 34° 43' north. Central eclipse begins generally, July 18, 0 h. 57.3 m. P.M., in longitude 125° 47' west of Greenwich, and latitude 45° 42' north. Central Eclipse at noon, July 18, 2 h. 8.1 m. P.M., in longitude 30° 33' west of Greenwich, and latitude 56° 8' north. Central eclipse ends generally, July 18, 3 h. 53.2 m. P.M.; ends on the earth generally, July 18, 4 h. 56.6 m. P.M., in longitude 18° 56' east of Greenwich, and latitude 4° 16' north.

IV.—A partial Eclipse of the Moon, August 1, 1860, invisible at Greenwich.

## EXEMPLIFICATION AND CONSTRUCTION OF THE FOLLOWING TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

**RULE.**—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction, and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place; from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

The sun's declination reduced to these times  $22^{\circ} 20'$  and  $22^{\circ} 15'$ , and the poll distances are  $67^{\circ} 40'$  and  $67^{\circ} 45'$ . The horizontal refraction, less the sun's parallax, is  $33'$  and  $33' + 90' = Z$  distance. Hence the following computation:—

**NOTE.**—The latitude of Glasgow is  $55^{\circ} 52'$  north, the longitude  $4^{\circ} 16'$  west of Greenwich; consequently there are 17 minutes of difference of time between the clocks of Greenwich and the clocks of Glasgow, the Greenwich time being earlier. The clocks of the United Kingdom are now generally adjusted to Greenwich mean time.

JAMES YUILLE,

Teacher of Mathematics, Navigation, and Nautical Astronomy.

# STAMP AND LEGACY DUTIES, &c.

*Note.*—The 13th and 14th Vict. c. 97, imposes a duty according to the number of words in deeds, by a general rule applicable to all deeds where progressive duty is not expressly charged by the schedule to the act. For the progressive duty on a deed when none is expressly charged under the instrument, reference must be made to the head "PROGRESSIVE DUTY."

**ADMISSION** as a Burgess or into any Corporation or Company in any burgh in Scotland, in lieu of the duties of £1 and £3 formerly payable,.....5s.  
*Admissions* of other descriptions various; as to which see the schedule annexed to 55 Geo. III., c. 184.  
 See also **LICENSE**, below.

*Admission* to act as advocate, £50: As writer to the signet, solicitor, agent, attorney, or procurator in any court, £25: To act as agent in Supreme Courts without indenture (in addition to the said £25), £60. Do. in Inferior Courts without indenture (in addition to the said £25), £30. To act as notary-public, £20. To be fellow of the College of Physicians, £25; or license by do. to practise physic, £15. To degree of Doctor of Medicine, £10. To Ecclesiastical benefice, £2.

**AFFIDAVITS.**—For every sheet or piece of paper, parchment, or vellum, on which the same shall be written or printed, 2s. 6d. Affidavits authorized to be made before Justices of Peace, exempted.

**AGREEMENT**, or Minute or Memorandum of Agreement without a clause of registration (not charged otherwise than under the head 'agreement' in the schedule to the Act 55 Geo. III. c. 184, nor expressly exempted from duty), where the matter is of the value of £20 or upwards, whether the same is evidence of a contract, or obligatory upon the parties from its being a written instrument, together with every schedule, receipt, &c., endorsed or annexed, 2s. 6d. Progressive duty on words, 2s. 6d.

*Exemptions.*—Agreements for the hire of any labourer, artificer, manufacturer, or menial servant. Memorandum or agreement for or relating to the sale of any goods, wares, or merchandize.

Agreements entered into in the United Kingdom for or relating to the service in the colonies of any person as an artificer, clerk, domestic servant, handicraftsman, mechanic, gardener, servant in husbandry, or labourer.—17 and 18 Vict. c. 83, § 21.

Agreements in compliance with or under the provisions of the Merchant Seaman's Act.—7 and 8 Vict. c. 112, or the Mercantile Marine Act, 13 and 14 Vict. c. 93.

*Note.*—The agreement, if liable to one duty of 2s. 6d. may be stamped if brought to the Commissioners at London, or their office at Edinburgh, or lodged with the distributors of stamps in the country, within fourteen days after being made. If after, at London or Edinburgh, on a penalty of £10.—7 and 8 Vict. c. 21, § 5.

 And the following instruments shall be deemed and taken to be drafts or orders for the payment of money within the intent and meaning of this act, and of any act or acts relating to the stamp duties on bills of exchange, drafts, or orders, and shall be chargeable accordingly with the stamp duties imposed by this act, or any such act or acts, viz.:—  
 All documents or writings usually termed letters of credit, or whereby any person to whom any such document or writing is or is intended to be delivered or sent, shall be entitled, or be intended to be entitled, to have credit with, or in account with, or to draw upon any other person for, or to receive from such other person any sum of money therein mentioned.

*Exemptions from the Duties on Drafts or Orders.*—  
 All drafts or orders for the payment of money to the bearer on demand, drawn upon any banker or bankers, exempt from stamp duty at the date of the Act 17 & 18 Vict. c. 59. These are drafts on bankers who shall reside or transact the business of a banker within the distance of fifteen miles of the places where such drafts or orders shall be issued. They must specify the place where issued, and bear date on or before the day on which they are issued, and not direct the payment to be made

by bills or promissory notes. In reference to this exemption, the Act 17 & 18 Vict. c. 83, § 7, provides that they shall not be remitted or sent to any place beyond fifteen miles in a direct line from the bank or place at which the same are made payable, or be received in payment, or as a security, or be otherwise negotiated or circulated at any place beyond that distance. Penalty on Persons sending or receiving such drafts, £50. Section 8th provides, that unstamped drafts, received within fifteen miles, on the adhesive stamp being affixed and cancelled, may be received and negotiated beyond that distance.

All letters of credit, whether in sets or not, sent by persons in the United Kingdom to persons abroad, authorizing drafts on the United Kingdom.—16 & 17 Vict. c. 59.

*Note.*—The duty on drafts or orders may be impressed on the paper, or an adhesive stamp may be affixed.—16 & 17 Vict. c. 59, § 3. The adhesive stamp may be either a receipt or draft stamp.—17 & 18 Vict. c. 83, § 10. Where an adhesive stamp is used, the maker of the draft to cancel the stamp by writing on it his name or initials. Penalty for omission, £10. Penalty for removing adhesive stamps or using them a second time, or doing any act to defraud of duty, £20.—16 & 17 Vict. c. 59, § 4 and 5.

*N.B.*—The duties on Foreign Bills, drawn out of the United Kingdom, are to be denoted by adhesive stamps. The amount of duty on the adhesive stamps is impressed on two parts. The Board of Inland Revenue recommend that the cancellation should be on one of the parts, and the other left legible.

If a Foreign Bill payable abroad, and as to which the provision "drawn in sets of three or more" apply, shall be drawn in a single bill, the duty will be the same as on an Inland Bill, and if in a set of two, the duty on each will be the same as on an Inland Bill. This is in accordance with the opinion of the Board of Inland Revenue (see North British Daily Mail, 3d November, 1854). But the Board have given an opinion that a Foreign Bill drawn abroad and payable in this country in duplicate or triplicate only represents one transaction, and is liable to the duty on one Inland Bill of the same amount,—that is, if one of the parts have the full duty, the others may be unstamped (see Times, 6th November, 1854). The schedule of the act does not provide for such a Bill being drawn in sets. Bills bearing to be drawn out of the United Kingdom are to be deemed Foreign Bills so drawn, although they may in reality be drawn in the United Kingdom, 17 and 18 Vict. c. 83, § 4. A person in the United Kingdom drawing and issuing a bill payable out of the United Kingdom in a set, must draw the whole set, and a person transferring or negotiating such bill must transfer and deliver, stamped, the whole number of the set. Penalty, £100. A person taking such bill must get the whole set, stamped, otherwise he cannot recover on it or make it available, *ib.* § 6. This applies only to bills drawn within and payable out of the United Kingdom.

**INLAND BILL, DRAFT, or ORDER** for the payment of any sum of money, though not made payable to the bearer, or to order, if the same shall be delivered to the payee, or some person on his or her behalf, the same duty as on a bill of exchange for the like sum, payable to bearer or order.

**INLAND BILL, DRAFT, or ORDER** for the payment of any sum of money, weekly, monthly, or at any other stated periods, if made payable to the bearer, or to order, or if delivered to the payee, or some person on his or her behalf, where the total amount of the money thereby made payable shall be specified therein, or can be ascertained therefrom, or shall be indefinite, the same duty as on a bill payable to bearer or order on demand.

**PROMISSORY NOTE** for the payment of any sum of money by instalments, or for the payment of several sums of money at different days or times, so that the whole of the money to be paid shall be definite and certain, the same duty as on a promissory note, payable otherwise than to the bearer on demand, for a sum equal to the whole amount of the money to be paid.

**BILLS OF LADING**.....6d.

#### BONDS AND OTHER SECURITIES.

**BOND (personal)** given for any certain sum of money not exceeding

	s.	d.
£50	1	3
Exceeding £50 and not exceeding £100	2	6
100	150	3 9
150	200	5 0
200	250	6 3
250	300	7 6

And where the same shall exceed £300, then for every £100, and also for any fractional part of £100, 2s. 6d.

**BOND** as security for moneys to be thereafter lent, advanced, or paid, or which may become due on account-current, together with any sum already advanced or due, or without, as the case may be,—

Where the money secured or to be ultimately recoverable shall be limited not to exceed a given sum,—The same duty as on a bond for such sum.

Where uncertain and without any limit,—The same as on a bond for a sum equal to the amount of the penalty.

Where there is no penalty, the bond shall be available for such an amount only as the *ad valorem* stamps will cover.

**PERSONAL BOND** given as security for the transfer or retransfer of any share in any of the *Government or Parliamentary Stocks or Funds*, or of the *Banks of England or Ireland*, or of the *East India Company*, or of any other company or corporation,—The same *ad valorem* duty as on a bond for a sum of money equal to the value of the stock or fund secured, according to the average price at the date of the bond, or on either of the ten days preceding: or the latest day preceding on which there shall have been a known sale.

**PERSONAL BOND** given as security for the payment of any sum of money, or for the transfer or retransfer of stock secured also by a wadset, or other instrument paying duty as a wadset, or for the performance of covenants contained in such instrument, or for both those purposes, provided such other instrument bear even date with, and be referred to in such bond—

Where the sum of money or the value of the stock secured shall not exceed £800,—The same *ad valorem* duty as on a mortgage or wadset for securing the like amount or value.

Exceeding £800, £1.

**PERSONAL or HERITABLE BOND** given as an additional or further security for the payment of any sum of money, or for the transfer or retransfer of any share in any of these stocks previously secured by a bond or other security therein referred to, which has paid the proper *ad valorem* duty on bonds at the date thereof,—

Where the sum or the value of the stock shall not exceed £1400,—The same *ad valorem* duty as on

a bond or mortgage for securing the like sum or value.

Where said sum shall exceed £1400, £1 15s.

**BOND—Transfer or Assignment**, disposition or assignation of any such bond as aforesaid, and which has paid the proper *ad valorem* duty on bonds—

Where the principal money or stock secured by the bond shall not exceed in whole £1400,—The same duty as on a bond for the total amount or value.

And in every other case such transfer, assignment, disposition, or assignation shall be chargeable with the duty of £1, 15s.

**PERSONAL or HERITABLE BOND** given as the only or principal security for payment of any annuity upon the original creation and sale thereof,—The same *ad valorem* duty as on a conveyance upon sale in consideration of the sum or value given or agreed for the purchase.—See Duties on Conveyances.

**PERSONAL BOND** given as a collateral or auxiliary security for the payment of any annuity upon the original creation and sale, where granted or conveyed or secured by any other deed or instrument, paying the *ad valorem* duty of conveyances upon the sale of any property—

Where such *ad valorem* duty shall not exceed 20s. such bond shall be chargeable with a stamp duty of equal amount therewith.

And where such exceeds 20s., £1.

**PERSONAL or HERITABLE BOND** given as a security for the payment of any annuity (except upon the original creation and sale), or of any sum or sums of money at stated periods (not being interest or rent upon a lease), for any definite and certain term, so that the total amount to be paid can be previously ascertained,—The same *ad valorem* duty as on a bond of the like nature for the payment of a sum of money equal to such total amount.

**PERSONAL or HERITABLE BOND** given as a security for payment of any annuity (except as aforesaid), or of any money at stated periods (not being interest nor rent upon lease), for the term of life or any other indefinite period, so that the whole cannot be previously ascertained,—

Where the annuity or sum secured shall not exceed £50 per annum, £1.

Exceeding £50 and not exceeding £100 per annum, £2.

And where exceeding £100 per annum, then for every £100, and also for any fractional part of £100 per annum, £2.

But where there shall be both a personal and heritable bond in separate deeds of the same date for securing any such annuity, &c., and the *ad valorem* duty above charged amounts to £2 or upwards, the heritable bond only to be charged with *ad valorem* duty, and the personal bond to be charged only with a duty of £1.

**BOND** of any kind or description given for any other purpose than as aforesaid,—The duty chargeable by any Act in force at passing 13th and 14th Vict., c. 97.

But no such bond shall be charged with any greater amount of stamp duty than the *ad valorem* duty before charged upon a bond given for the pay-

ment of a definite and certain sum of money of the same amount as the penalty of such bond.

BOND or RELIEF to a cautioner or surety, £1, 15s.

BOND for the due execution of an office, and to account for money received by virtue of such office, £1, 15s.

BOND given for, or in respect of, duties of customs or excise, or for preventing frauds or evasions thereof, or for any other matter relating thereto—relating of plate—registering of British vessels,—5s.

HERITABLE or PERSONAL BOND, of any kind whatever, not otherwise charged nor expressly exempted from all stamp duty, £1, 15s.

*Note.*—The above provision, that the duty shall not exceed the *ad valorem* duty on a sum the same amount as the penalty in the bond, applies to the four preceding entries.

CHARTER, DISPOSITION, or CONTRACT (after 10th October, 1854), containing the first original constitution of *feu* and *ground-annual rights* in Scotland (not being a lease or tack for years), in consideration of an annual sum payable in perpetuity, or for any indefinite period, whether fee farm or other rent, feu-duty, ground-annual, or otherwise:—

450 ...	500	2	10	0
500 ...	550	2	15	0
550 ...	600	3	0	0

And where the purchase and consideration money shall exceed £600, then for every £100, and also for any fractional part of £100; 10s.

It is directed that the purchase money or consideration shall be *truly expressed and set forth in words at length* in or upon every deed or instrument of conveyance; and where such consideration shall consist either wholly or in part of any stock or security, the value thereof respectively, to be ascertained as after mentioned, shall also be truly set forth as aforesaid in or upon every such deed or instrument; and such value shall be deemed to be the purchase or consideration money, or part thereof, as the case may be, in respect whereof the *ad valorem* duty shall be charged.

And where the consideration or any part of the consideration shall be *stock* in the public funds, or any government debenture or stock of the banks of England or Ireland, or any debenture or stock of any corporation, company, society, or persons or person, *payable only at the will of the debtor*, the duty shall be calculated (taking the same respectively, whether constituting the whole or a part only of such consideration) according to the average selling price thereof respectively on the day or on either of the ten days preceding the date of the deed or instrument of conveyance, or if no sale shall have taken place within such ten days, then according to the average selling price thereof on the day of the last preceding sale, and if such consideration or part thereof, shall be a mortgage, bond, or debenture, the amount whereof shall be recoverable by the holder, or any other security whatsoever, whether payable in money or otherwise, such calculation shall be made according to the sum due thereon for both principal and interest.

In any case where property shall be sold and conveyed in consideration of any rent-charge or annuity, or any annual or periodical payment to be made permanently or for any indefinite period, so that the total amount of the money to be paid for such property cannot be previously ascertained, which rent-charge, annuity, or other payment, shall be made, subject to redemption or purchase upon terms and conditions specified in the deed or instrument, whereby the property sold shall be conveyed to, or vested in, the purchaser, or any person by his direction, the money or the consideration mentioned in the said deed or instrument as that on payment or transfer, delivery, or satisfaction, of which the said rent-charge, annuity, or other payment, shall be redeemed or purchased, or repurchased, or shall cease to be payable, shall be deemed to be the purchase money or consideration, on the sale of the said property so sold and conveyed, and in respect of which last-mentioned purchase money or consideration, the *ad valorem* duty shall be chargeable; and where any such last-mentioned consideration shall consist wholly, or in part, of any stock or security mentioned in the Act 13 and 14

Vict., c. 97, the value thereof shall be ascertained as in such Act is in that behalf provided; and where any such annuity, rent-charge, or other payment aforesaid, shall be made, subject to redemption or purchase, or repurchase or discontinuance, upon payment or satisfaction of any money or value to be ascertained or calculated in manner provided in the said deed or instrument, the amount of such money or value shall, for the purpose of charging the said *ad valorem* duty, be ascertained or calculated, as in such deed or instrument shall be so provided. 16 and 17 Vict., c. 59, § 11.

COPIES or EXTRACTS from the public register, or from books of any court of record, 2s. 6d. And where the same shall contain more than 600 words, any less quantity of words over and above the first 600 words, or above any second, third, or other full quantity of 600 words, a further duty of 2s. 6d.

Copy attested of any agreement or deed for the security or use of a person not being a party or taking benefit under it, 1s.

Progressive duty for every 720 words, 1s.

Copy attested of a will, testament, or codicil, or of a confirmation of a testament, testamentary or dative, same duty as above.

COPYRIGHT OF DESIGNS, Certificate of, £5.

COVENANT.—Any deed containing a covenant for the payment or repayment of any sum, or for the transfer or retransfer of stock, in any case where a mortgage, if made for the like purpose, would be chargeable under this schedule with any *ad valorem* duty exceeding in amount £1, 15s.; or for the payment of any annuity, or any sums at stated periods, in any case where a bond for the like purpose would be chargeable with any such duty, the same *ad valorem* duty as on a bond respectively for the like purpose.

When it is an additional security to a properly stamped bond referred to in it, the *ad valorem* duty here charged not payable.

Exemption.—Any covenant contained in a deed chargeable under MORTGAGES or SETTLEMENT.

As to the duties in the first column, if the rent shall be under £20, and if a sum of money, by way of fine, premium, or grassum, shall be paid, the same duty as on a *conveyance on sale*; if the rent shall be above £20, both the *lease duty* and *conveyance on sale duty*. In the case of a lease, to which the second and third columns apply, where there is a fine, premium, or grassum, and whatever the amount of rent, both the *ad valorem* lease duty and conveyance on sale duty.—13 and 14 Vict. c. 97; and 17 and 18 Vict. c. 83.

LEASE or TACK made for any term or period less than a year, at a rent reserved or payable for the same, shall be chargeable with the same *ad valorem* duty as a lease or tack, at a yearly rent of the same amount as the sum so reserved or payable.—17 and 18 Vict. c. 83, § 23.

LEASE or TACK of any mine or minerals, or other property of a like nature, either with or without any other lands or heritable subjects, *where any portion of the produce shall be reserved to be paid in money or kind*—

If it be stipulated that the value shall amount at least to a given sum per annum, or it be limited not to exceed a given sum, to be specified, then the *ad valorem* duty shall be charged in respect of the highest of such sums.

And where any yearly sum is reserved in addition to or together with such produce, relative to the yearly amount or value of which there is no such stipulation or limitation, the *ad valorem* duty shall be charged in respect of such yearly sum.

And where both a certain yearly sum and also such produce relative to the yearly amount or value of which there shall be such stipulation or limitation is reserved, the *ad valorem* duty shall be charged on the aggregate of such yearly sum, and also of the highest yearly amount or value of such produce.

N.B.—Where a grassum or rent is in grain, it is to be charged according to the stipulated rate of conversion, and if none be stipulated, according to the fiars on an average of seven years. Where there are separate grassums or rents payable to separate *pro indiviso* proprietors in the same deed, the stamp is on the *cumulo* amount.

And where the same exceeds £300, for every £100, and fractional part of £100; 2s. 6d.

Where the deed is made as a security for the repayment of money, to be thereafter lent, advanced, or paid, or which may become due upon an account current, together with any sum already advanced or due, or without, other than any sums to be advanced for the insurance of any property comprised in such security against damage by fire, or for the insurance of any life or lives, or for the renewal of any grant or lease upon the dropping of any life or lives, pursuant to any agreement in any deed whereby any estate or interest held upon such life or lives is granted, assigned, or assured, or whereby any annuity is granted or secured for such life or lives—

If the total amount of the money secured, or to be ultimately recoverable, is limited not to exceed a given sum,—The same duty as on a wadset for such limited sum.

And if the total amount is uncertain and without

*any limit*, then the same shall be available as a security or charge for such an amount only as the *ad valorem* duty denoted by the stamp will cover. And where the same is made as a security for the transfer or retransfer of any share in any of the government or parliamentary stocks or funds, or of the Bank of England, or of Ireland, or of the East India, or of the South Sea Company, or of any other company or corporation, in consideration of stock, or money advanced or lent at the time, or previously due and owing, or foreborne to be paid, being payable,—The same duty as on a mortgage for a sum equal to the value of the stock or fund secured according to the average price at the date of the mortgage, or on either of the ten days preceding, or on the latest day preceding on which there has been a known sale.

And where the same respectively shall be made, as a security for the payment of a sum of money, and also for the transfer or retransfer of a share in any of the said stocks or funds, the said *ad valorem* duty shall be charged in respect of each.

And in case the same respectively shall be made, as a security for the payment or transfer, to different persons, of separate and distinct sums or shares,—The *ad valorem* duty shall be charged for each separate and distinct sum or share therein specified and secured, and not upon the aggregate amount.

And where any such deed or instrument shall be made respectively as a security for the payment of *any annuity*, or any sum by way of repayment, or in satisfaction or discharge, or in redemption of any sum lent, advanced, or paid, as or for or in the nature of a loan intended to be repaid, discharged, or redeemed, in manner aforesaid,—The same duty as on a mortgage or wadset for the sum of money so lent, advanced, or paid.

TRANSFER, disposition, or assignment of any wadset or other such security, &c.—

Where *no further sum* or stock shall be added to the principal already secured, if such principal shall not exceed in the whole £1400, the same duty as on a wadset, &c., for the total amount or value of such principal.

And if such principal shall exceed in value in the whole the sum of £1400, £1, 15s.

And where *any further sum* or stock shall be added to the principal already secured,—The same duty as on a wadset, &c., for such further money or stock only.

And in every other case not expressly provided for, £1, 15s.

Such instrument is not chargeable with further duty (*except progressive duty*) by containing any further or additional security for the payment, transfer, retransfer of such money, stock, interest, or dividends, or any new covenant, proviso, or other matter whatever in relation to such money or stock, interest, or dividends.

Any deed made for the *further assurance* only of any property already constituted a security, by a deed which has paid the *ad valorem* duty—

Also any deed made as an *additional or further security* for any sum, &c., already so secured.

Where the total amount or value already secured does not exceed £1400,—The same duty as on a wadset for the amount.

And in any other case, £1, 15s.

If any further sum be added to the principal, the deed is chargeable only (exclusive of progressive duty) with the *ad valorem* duty on wadsets, &c., in respect of such further sum.

RECONVEYANCE, surrender, discharge, or renunciation of any wadset, or other such security, or of the benefit thereof, or of the money or stock secured—

Where the total amount of the principal shall not exceed £1400, the same duty as on a wadset for the amount.

And in any other case, £1 15s.

RECEIPTS for money amounting to £2 or upwards, 1d.

The following provisions as to what shall be deemed a receipt, and the exemptions from receipt duty by 55 Geo. III. c. 184, are still in force:—

Any note, memorandum, or writing whatever, given upon the payment of money, whether signed or not, shall be a receipt if it shall import or signify that any sum of money, debt, or demand, or any part thereof amounting to £2 or upwards has been paid or settled; and like documents given upon payment by bills, drafts, promissory notes, or other securities for money, are also receipts.

According to decisions, a simple acknowledgment of a sum of money in loan, or of the correctness of a debt, or of a deposit of money, is not liable to stamp duty, either as a receipt or promissory note. The judges held it essential to render a receipt liable to duty that something formerly due had been discharged. On this principle a receipt for a sum of money as a donation to a religious or charitable purpose, not being anything formerly due, would not be liable. The Board of Inland Revenue have intimated that they are to regard such receipts as exempted.

Among the exemptions from receipt duty are—

*Receipts written on promissory notes, bills, drafts, or orders for the payment of money, duly stamped.*

*Letters by the general post acknowledging the safe arrival of any bills of exchange, promissory notes, or other securities for money.* This exemption is repealed by 17 and 18 Vict. c. 83, § 13. The effect of the repeal is, that letters by the general post are put on the same footing as letters delivered or sent otherwise. If they amount to acknowledgments of the statutory description (that is, whereby any sum of money, debt, or demand, or any part thereof, amounting to £2 or upwards, shall be expressed to have been paid, settled, balanced, or otherwise discharged or satisfied, or which shall import or signify such),—given for or upon payments made by or with bills of exchange, drafts, promissory notes, or other securities for money,—they will be liable to the receipt duty.

*Receipts written on any bond, mortgage, or other security, or any conveyance, deed, or instrument whatever, duly stamped, acknowledging the receipt of the consideration money therein expressed, or the receipt of any principal money, interest, or annuity thereby secured.*

*Note.*—Stamps may be impressed or affixed. Where adhesive stamps are affixed, the grantor is required to cancel the stamps by writing his name or initials on them. Penalty for omission, £10. Penalty for removing adhesive stamps, or using them a second time, or doing any fraudulent act to defraud of duty, £20.—16 and 17 Vict., c. 59, § 3, 4, and 5.

RESIGNATION.—Principal or original instrument of resignation, or service, or cognition of heirs, or charter, or sasine of any houses, lands, or other heritable subjects holding burgage; also instrument of resignation of lands, &c., not held burgage, 5s. Progressive duty, 5s.

SASINE.—Instrument of sasine given on any charter, precept of *clare constat*, or precept from Chancery, or on any wadset, heritable bond, disposition, apprising, adjudication of any heritable subjects not of burgage tenure, 5s. Progressive duty, 5s.

SCHEDULE or INVENTORY of heritage, or moveables, or containing the terms of any proposed sale, lease, &c., or regulations for the cultivation and management of any farm, &c., separate from and referred to in the lease, bond, deed, agreement, &c., chargeable with any stamp duty not exceeding 10s.—The same duty as shall be chargeable on such lease, bond, agreement, &c., and where referred to in such, chargeable with a duty exceeding 10s.; 10s. Progressive duty, 10s.

SCRIP CERTIFICATE, after 4th Aug., 1853, that is to say, any document denoting or intended to denote the right or title of the holder thereof, or any person to any share or shares in any joint-stock or other company, or proposed or intended company, or any certificate declaring or entitling the holder thereof, or any person to be or become the proprietor of any share or shares of or in any such company, where such certificate, or the right or title to such share or shares shall be, or intended to be, transferable by the delivery of such certificate, or otherwise than by deed or instrument in writing, 1d.—16 and 17 Vict., c. 63.

SETTLEMENT.—Any deed or instrument, whether voluntary or gratuitous, or upon any consideration other than a *bona fide* pecuniary consideration, whereby any definite and certain principal sum or sums of money, or any definite and certain shares in any stocks or funds, shall be settled or agreed to be settled upon or for the benefit of any person or persons, either in possession or reversion, either absolutely, or for life or other partial interest, or in any other manner whatsoever,—if such sum or sums, or the value of such share or shares, together, shall not exceed in the whole £100; 5s.

And if the same shall exceed £100, then for every £100, and fractional part of £100; 5s.

All such deeds which contain any settlement of lands or other property, or any other thing besides the settlement of such money or stock, shall be chargeable with such further duty as any separate deed containing such settlement of lands or other property, or other thing, would have been chargeable with, exclusive of the progressive duty.

And where there is more than one such deed chargeable with any such duty exceeding £1, 15s., one of them only shall be chargeable with the *ad valorem* duty; and also where any settlement shall be made in pursuance of any previous articles charge-

able with, and which shall have paid any such duty exceeding £1, 15s., it is not chargeable with the *ad valorem* duty; and the deeds not chargeable with the *ad valorem* duty shall be charged with the duty to which they are liable under any more general description in the stamp schedules; and on the whole being produced, duly executed and stamped, the latter shall also be stamped with a particular stamp for denoting the payment of the said *ad valorem* duty.

*Exemption from this ad valorem duty.*—Wills, testaments, and testamentary instruments, and dispositions *mortis causa*.

**WRIT OF ACKNOWLEDGMENT** by any person infett of lands in Scotland, in favour of the heir or dispossnee of a creditor fully vested in right of an heritable security constituted by infettment, 10s.—16 and 17 Vict., c. 63, § 6.

#### INVENTORY DUTY.

The duty is imposed on the inventory of the personal estate and effects of deceased persons, required to be recorded in the commissary courts according to the rates in the following Table, and is regulated by the amount of such estate in Scotland. The same rates of duty are payable on probates and letters of administration in respect of the personal property situated in England and Ireland:—

Increasing progressively to.....£1,000,000

The inventory duty is paid on the whole personal property situated in Scotland, and probate or administration duty on the whole personal property situated in England and Ireland without deduction of debts; but the Act 5 and 6 Vict., c. 79, § 23,

provides for a return being given on proof of the constitution and payment of the debts. This repayment must be claimed within three years; but the time will be prolonged on application to the Board of Inland Revenue. If there be any omission in the inventory inferring payment of further duty, an additional inventory of such is required to be exhibited, by 48 Geo. III., c. 149, § 38; and § 40 provides that the same shall also specify the amount or value of the estate and effects of the same person comprised in the former inventory. By 16 and 17 Vict., c. 59, § 8, such additional inventory shall be chargeable only with such amount of stamp duty as, together with the stamp duty charged upon the former duly stamped inventory of the estate and effects of the same deceased person, shall make up the full amount of stamp duty, in respect of the total amount of all the estate and effects of the deceased specified in the said additional and any such former inventory. If the estate shall be over-estimated, or something improperly included in the inventory, an inventory on a stamp corresponding to the value must be exhibited, and the original inventory will be allowed on affidavit as a spoiled stamp, within six months of the recording of the second inventory.

#### LEGACY DUTY.

*Legacies, Annuities, Residues, &c.*

To children or their descendants,	Duty per cent
or lineal ancestors, .....	£1 0 0
Brother or sister, or descendant, .....	3 0 0
Uncle or aunt, or their descendant, .....	5 0 0
Granduncle or aunt, or descendant, .....	6 0 0
All other relations and strangers, .....	10 0 0

The husband or wife of the deceased is not chargeable with duty. If the legatee's husband or wife is of nearer consanguinity than the legatee, duty is payable according to such nearer relationship.—16 and 17 Vict., c. 51, § 11.

This duty is payable for every legacy out of the personal or moveable estate, or out of or charged upon the real or heritable estate of the deceased, or out of any moneys to arise by the sale, mortgage, or other disposition of the deceased's real or heritable estate, or any part thereof: Also for the clear residue (after deducting debts, funeral expenses, legacies, and other charges first payable thereout) of the personal or moveable estate, whether the title to such residue shall accrue by virtue of any testamentary disposition, or upon a partial or total intestacy: And also for the clear residue of the moneys to arise from the sale, mortgage, or other disposition of any real or heritable estate, directed to be sold, mortgaged, or otherwise disposed of by any will or testamentary instrument.

Annuities are valued for legacy duty according to tables annexed to the Succession Duty Act.

Duty is not exigible on legacies or residues under £20; but if a legatee take two or more legacies under any testament, which shall together be of the amount of £20, each shall be charged with duty, though each or either may be separately under that amount.

N.B.—Printed forms and regulations for payment of the legacy duties will be obtained gratis, on application at the Legacy Duty Office, Inland Revenue, Edinburgh; and at the offices of the distributors of stamps in the country.

**SUCCESSION DUTY**, 16 and 17. Vict. c. 51.—The duty commences on the death of persons dying after the 19th May, 1853, and seems to be imposed on all property, both heritable and movable, passing by death, not liable to the duty on legacies and successions to personal estate upon intestacy—the duty imposed by the Legacy Duty Acts. The duty on *heritable property* is charged on the annual value, after allowance of the necessary outgoings (§ 22), as an annuity for the life of the successor (§ 21), which is to be valued by tables annexed to the act.

**PERSONAL PROPERTY** is liable to duty according to the value of the succession; and money charged on heritage—heritable securities—is chargeable as personality (§ 1).

#### RATES OF SUCCESSION DUTY.

Lineal issue or lineal ancestor of the predecessor, £1 per cent.

Brothers and sisters of the predecessor and their descendants, £3 per cent.

Brothers and sisters of the father or mother of the predecessor and their descendants, £5 per cent.

Brothers and sisters of a grandfather or grandmother of the predecessor and their descendants, £6 per cent.

Any other person, £10 per cent.

The husband or wife of the predecessor is not chargeable with duty (§ 18), and if the successor's husband or wife shall be of nearer consanguinity than the successor, duty is paid according to such nearer relationship (§ 11). The following are also *exemptions* from the succession duty:

1. Successions from the same predecessor, passing on any death, not amounting in principal value to £100 (§ 18).
2. Any succession of less value than £20 in the whole (ib.).
3. Legacies and personal property charged with legacy duty, in respect of the same acquisition (ib.).

*Note.*—The collection of the succession duty will form a branch of the business of the legacy department of the Inland Revenue. Forms of the accounts may be obtained at the Legacy Duty Office, Edinburgh, and at the offices of the distributors of stamps in the country.

**POSTAGE STAMPS, &c.**

Prepayment of Inland Letters, &c., must be by Stamps.

**RATES OF POSTAGE.**

*Inland Letters.\**

1. The rate of postage on all inland letters is regulated by weight, irrespective of distance, and (with the exception afterwards mentioned) is as follows:

*If paid in advance—*

Letter weighing not more than  $\frac{1}{2}$  oz. .... 1d.  
 Letter weighing more than  $\frac{1}{2}$  oz., but not exceeding 1 oz. .... 2d.  
 Letter weighing more than 1 oz., but not more than 2 oz., ..... 4d.  
 Letter weighing more than 2 oz., but not 3 oz. 6d.  
 and so on; twopence being charged for every additional ounce.

2. As a general rule, the postage, if not paid in advance, is double the foregoing; and if the payment in advance be insufficient, double the deficiency is charged. An inland letter, for example, weighing more than half an ounce, and not exceeding one ounce, if bearing a penny stamp only, is, on delivery, charged twopence. The unpaid *additional* postage on re-directed letters, however, is not doubled, being the same as if such postage were prepaid. Unless three quarters, at least, of the postage of a letter weighing more than 4 oz. be prepaid, the letter is not forwarded, but is returned to the writer.

*Colonial and Foreign Letters.*

3. The rates of postage on letters to foreign countries and the colonies are entered in the Table of Colonial and Foreign Postage at pages 4-16.

*Addresses to the Queen and Petitions to Parliament.*

4. Petitions and addresses to her Majesty, forwarded direct, are exempt from postage; and such petitions and addresses, as also petitions to either House of Parliament, if sent to a member of either House, are likewise exempt, provided they do not weigh more than two pounds, and are without covers, or are in covers open at the sides. No letter or other enclosure, however, must be inserted, and if one be found, such enclosure, unless it bear the proper number of postage stamps, will be charged as an unpaid letter.

*Newspapers and other periodical Publications bearing the Newspaper Stamp.*

5. Although provision is made for forwarding newspapers, books, and money through the post, it is not compulsory on any one to employ this mode of transmission; everything except letters may be sent in any other way.

6. All periodical publications, including newspapers published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear an impressed stamp or stamps denoting the stamp duty (of the kind formerly confined chiefly to newspapers), may be transmitted and re-transmitted through the post within the United Kingdom free of postage under the following regulations, viz:—

1st. They are subject to the same restrictions with regard to the number of sheets and superficial extent as were formerly applicable only to newspapers properly so called. These restrictions are shown in the following table:—

Amount of Stamps Impressed on the Publication.	Maximum Number of Sheets.	Maximum Superficial Extent of Letterpress on One Side.
One Penny - -	Two - - - -	2,295 inches.
Three Halfpence - -	Three - - - -	3,443 "
Two Pence - -	Four - - - -	4,591 "

2d. No publication, or portion thereof, can pass through the post unless the impressed stamp which it bears be a stamp of the value at least of one penny.

3d. The title and date of the publication must be printed at the top of every page.

4th. The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside, except that where there are more than two publications in the same cover it will be considered sufficient if the stamps be so arranged that they can readily be examined.

5th. It must not be printed on pasteboard or cardboard, or on two or more thicknesses of paper pasted together, nor must any pasteboard, cardboard, or such pasted paper be sent with it as a back or cover thereto, or otherwise.

6th. It must be posted within fifteen days from the printed date of issue.

7th. It must have either no cover or a cover open at the ends.

8th. It must contain no enclosure.

9th. It must have no writing or other mark thereon, but the name and address of the person to whom it is sent, nor anything on the cover but such name and address, the printed title of the publication, and the printed name and address of the publisher or vender who sends it. Thus, if a newspaper, franked by a newspaper stamp, after having had the address of one person written upon the paper itself, be sent to another person, the first address must be cut off (obliteration not being sufficient), otherwise the paper will be charged as an unpaid letter.

10th. If the publication be addressed to any person within the free delivery of the place where it is posted, it will become liable to a postage of one penny, which must be prepaid by affixing a postage stamp.

11th. When a newspaper, &c., is so folded as not to expose the stamp or stamps, a postage of one penny is charged in addition to any other postage to which the publication, if properly folded, would be liable; and if the newspaper, &c., be addressed to any person within the free delivery of the place where it is posted, and do not bear a penny postage label, it will be charged 2d.

12th. In case of any other irregularity the publication is dealt with as an unpaid letter.

13th. It is suggested that every publication should have a notice to purchasers conspicuously printed, pointing out the necessity of exposing the stamp or stamps to view whenever the publication is sent through the post.

\* Inland letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

14th. Stamped publications can also be forwarded under the regulations of the book post; but when so sent the impressed stamp does not count as any part of the postage.

7. Newspapers sent abroad are liable to the same regulations as newspapers passing (under the newspaper privilege) between different parts of the United Kingdom, except as regards size, and that, before going abroad, the name of the newspaper must have been registered at the General Post Office, and that, instead of requiring to have an impressed stamp (by which is meant the stamp specially used for newspapers), each newspaper, if sent to a foreign country, is liable to the postage entered in the Table of Colonial and Foreign Postage, and if sent to a British colony, to a postage of 1d., with an addition (as shown in the Table of Colonial and Foreign Postage) when the newspaper has to pass through a foreign country; this additional postage being also payable in stamps *only*.\* In all cases of newspapers going abroad the impressed stamp stands for nothing. Publications registered for transmission abroad, although not strictly newspapers, are in all respects treated as such, as far as transmission by the British office is concerned.

*Parliamentary Proceedings.*

8. Printed proceedings of the Imperial Parliament, sent without covers, or in covers open at the ends, may circulate within the United Kingdom at the following rates of postage:—

Weighing not more than 4 oz.,.....	1d.
Weighing more than 4 oz., but not exceeding 8 oz.,.....	2d.
Weighing more than 8 oz., but not exceeding 12 oz.,.....	3d.
Weighing more than 12 oz., but not exceeding 16 oz.,.....	4d.
and so on; one penny being charged for every additional $\frac{1}{2}$ lb. or fraction of a $\frac{1}{2}$ lb.	

The words "Parliamentary Proceedings" must be written or printed on the cover of the packet, otherwise it will be liable to the letter-rate of postage.

Prepayment, when the circulation is within the United Kingdom, is optional; and if it be made in part, the simple difference only is charged.

Parliamentary proceedings may be sent under the Book Post privilege to all the Colonies, and to those foreign states between which and this country there is a Book Post.

9. The following are the Regulations of the Inland Book Post:—

1st. Rates of Postage—	
Weighing not more than 4 oz.,.....	1d.
Weighing more than 4 oz., and not exceeding 8 oz.,.....	2d.
Weighing more than 8 oz., and not exceeding 16 oz.,.....	4d.
Weighing more than 1 lb., and not exceeding $1\frac{1}{2}$ lb.,.....	6d.
and so on, 2d. being charged for every additional half pound or fraction of a half pound.	

2nd. The postage must be prepaid in full, by means of postage stamps affixed outside the packet or its cover.

3rd. Every packet must be sent either without a cover, or in a cover open at the ends or sides; so as

to admit of the enclosures being removed for examination. For the greater security of its contents, the packet may be tied at the ends with string, but in such case the Postmaster is authorized to cut the string, although he is required to refasten the packet.

4th. A book packet may contain any number of separate books or other publications (including printed letters and printed matter of every kind), prints, or maps, and any quantity of paper, parchment, or vellum; and the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. Further, all legitimate binding, mounting, or covering of a book, publication, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached; as also rollers, in the case of prints or maps; markers (whether of paper or otherwise), in the case of books; and, in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto; but no patterns, or books of patterns (unless these consist merely of paper) can be allowed.

5th. No book packet may contain anything which is sealed or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter, whether separate or otherwise, unless the whole of such letter or communication be printed. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter. Indeed, as respects the name and address of the sender, not only is the writing permitted but recommended; so that if the cover come off, or for any other reason the packet cannot be forwarded, it may be returned.

6th. No book packet must exceed two feet in length, width, or depth, and if any such packet be presented at a Post Office it will not be received.

7th. Any packet which shall not be open at the end or sides, or shall have any written letter or any communication of the nature of a letter written in it, or upon its cover, will be charged with the "unpaid" letter postage.

8th. If a packet be found to contain any written letter, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the letter or enclosure will be taken out and forwarded to the address on the packet, charged with the full postage as an unpaid letter, together with an additional rate; and the remainder of the packet, if duly prepaid with stamps, will then be forwarded to its address.

9th. If a packet be not sufficiently prepaid with stamps, but nevertheless bear a stamp of the value of 1d., it is forwarded, charged with the deficient book postage, together with an additional rate; but any packet which bears no postage stamp is charged with the "unpaid" or double-letter postage.

10th. In every case in which the postage chargeable under these regulations is greater than the letter rate, the latter postage is substituted.

At the following rates, and in the same conditions as the foregoing (except that no packet weighing more than three pounds can be sent to the East Indies or to New South Wales, and that no book packet can be sent to any other part of the Cape Colony than Cape Town), book packets can be forwarded to every British Colony, to Liberia, and to other parts of the west coast of Africa:—

To India, Ceylon, New South Wales, Victoria,

\* Newspapers posted unpaid are retained at the Returned Letter Office for one week, and then, if the postage still remain unpaid, are destroyed.

Tasmania (Van Diemen's Land), South Australia, Western Australia, New Zealand, Mauritius, and Hong Kong, the rate is as follows—

Via Southamp. Via Mars.

Weighing not more than 4 oz., 0s. 4d. ... 0s. 6d.  
 Weighing more than 4 oz., but  
 not exceeding 8 oz.,..... 0s. 8d. ... 1s. 0d.  
 Weighing more than 8 oz., but  
 not exceeding 1 lb.,..... 1s. 4d. ... 2s. 0d.  
 Weighing more than 1 lb., but  
 not exceeding 1½ lb.,..... 2s. 0d. ... 3s. 0d.

and so on; two rates being charged for every additional half pound or fraction of a half pound.

Book Packets are forwarded to every other British Colony, to the Argentine Republic, Hayti, Liberia, and other parts of the west coast of Africa, at the following rates, viz.:—

Weighing not more than 4 oz.,..... 0s. 3d.  
 More than 4 oz., but not exceeding 8 oz., .... 0s. 6d.  
 More than 8 oz., but not exceeding 1 lb. .... 1s. 0d.  
 More than 1 lb., but not exceeding 1½ lb., .... 1s. 6d.

and so on; 6d. being charged for every additional half-pound or fraction of a half-pound. Book-packets from Hayti or the Argentine Republic are chargeable with the same postage upon delivery in this country.

10. The Head Postmaster who first receives a book-packet is required, whenever he has ground for suspecting an infringement of any of the above conditions, and occasionally, even when there is no ground for suspicion, to open and examine the packet; and every book-packet which is not open at the ends or sides, or which has any written letter, or any communication of the nature of a letter, written in it or upon its cover, or which does not bear postage stamps equal to a single book-rate, is ordered to be sent up, with as little delay as possible, to the Returned Letter Branch of the Circulation Office in Edinburgh; but in the case of any other infringement of the regulations, the packet is dealt with by the Postmaster himself, in accordance with the above regulations.

11. To prevent obstacles to the regular transmission of letters, any Head Postmaster may, when necessary, delay forwarding a book-packet for a period not exceeding twenty-four hours beyond the ordinary time; and at Packet Offices\* the delay may, at the option of the Postmaster, be either for that period, or until the despatch of the mail next after that by which the book-packet ought otherwise to be forwarded.

12. It must be borne in mind that the main business of the Post Office is the transmission of letters, and that the forwarding of books and newspapers (which no one is compelled to send through the Post Office), though an important, is only a secondary object, for which no arrangement can be made which would interfere with the quick and regular conveyance and delivery of letters. Books, therefore, which would be injured by being thrust into a bag, and hurriedly pressed down like a bundle of letters, should not be sent through the Post.

## REGISTRATION.

13. By the prepayment of a fee of sixpence\* any letter, book, or other packet on which the postage has been prepaid in stamps may be registered to any place within the United Kingdom. Book packets and newspapers can also be registered to the Colonies under the conditions mentioned at page 26. To foreign countries letters only can be registered. The registration of a packet makes its transmission more secure by rendering it practicable to trace it, when inland, from its receipt to its delivery; and when colonial, if not to its delivery, at least to the port of despatch. The Post Office does not guarantee the safe delivery of the letter, &c., though the officers are of course responsible to the Postmaster-General, who will call to strict account any one neglecting his duty on this point, and, if his Lordship thinks proper, will require him to make good any loss that may be sustained thereby.

14. The postage and registration fee of registered letters must be prepaid; and if the letter be inland such prepayment must be by stamps.

15. Every letter to be registered should be presented at the window, and a receipt obtained for it, and must on no account be dropped into the letter-box. If, contrary to this rule, a letter marked "Registered" be dropped into the letter-box, it will, if directed to any place in the United Kingdom, be liable to a registration fee of one shilling, instead of the ordinary fee of sixpence. No Letter Carrier or Rural Messenger is required to take letters from the public for the purpose of registering them.

16. The latest time for posting registered letters is entered in the Notice exhibited in every Post Office, such time, unless otherwise directed by the Surveyor, being half an hour before the closing of the box for the mail by which it is to be despatched.

17. Parliamentary notices may be forwarded through the post under the following regulations:—

1st. The words "Parliamentary Notice," must be legibly printed on the face of the letter; and in order to secure the speedy return of any notices which may be undelivered, the name and address of the solicitor issuing such parliamentary notice should also be legibly printed or written on the face of the letter; though this is not imperative.

2nd. These notices must be posted either at the General Post Office, St. Martin's-le-Grand, in London; the General Post Office in Dublin; the General Post Office in Edinburgh; or at the chief office at one or other of the following towns:—

Aberdeen,	Inverness,
Athlone,	Leeds,
Belfast,	Lincoln,
Birmingham,	Liverpool,
Bristol,	Manchester,
Cork,	Newcastle-upon-Tyne,
Exeter,	Norwich,
Glasgow,	Shrewsbury.

3d. All notices which by the standing orders of either House of Parliament are required to be served on or before the 15th December, must be posted on or before the 12th December, unless the 12th fall on a Sunday, when they must be posted not later than the 11th; but those notices, which by the same

\* Packet Offices are those at which mails are made up for despatch by packet (as distinguished from private ships) to places abroad; such are the offices of London, Liverpool, and Plymouth.

\* This fee, in the case of a letter addressed to a place abroad, or posted in London, may be paid either in money or stamps; but in all other cases it must be paid in stamps.

orders may be served later than the 15th, may be posted after the 12th of that month.

4th. The Postage chargeable on these notices and the registration fee of sixpence on each must be prepaid either in money or stamps.

5th. The notices must be posted at the Post Office window, accompanied with duplicate lists of the addresses; the notices being arranged, for the convenience of comparison, in the order of the list. These lists are examined by the officer in attendance at the window; and if each list correspond with the addresses, he will sign and stamp every sheet of each list. One of the duplicate lists will then be returned to the person who brought the letters, and the other forwarded to the Secretary, General Post Office, London.

18. The hours for receiving both parliamentary notices and the under-mentioned voting notices are the same as those for the registry of ordinary letters, unless the parliamentary notices be presented at such a time as to interfere with the ordinary duties of the office; in which case the Postmaster may appoint any other time within the next twenty-four hours for receiving the same; Provided that, when the notices are to be served on or before the 15th Dec., such arrangement do not delay the posting beyond the 12th.

19. Whoever sends parliamentary notices, should, if possible, arrange on the day before with the Postmaster as to the most convenient time for posting them, and state the probable number.

20. On prepayment of the postage and of a registration fee of twopence, either in money or stamps, a notice belonging to any one of the classes enumerated in the Act 6 Vict. c. 18 (relating to votes for members of Parliament) can be sent through the post with the securities for their safe delivery enjoined by law, provided it be brought duly directed, open and in duplicate, to a Postmaster of an office where money-orders are issued or paid.\* On receiving the notice, the Postmaster has to compare it with the duplicate, and if the two agree the latter will be stamped and returned to the bearer.

21. When a poll-book is presented by any returning officer to be forwarded by post, the Postmaster is required to give to such officer an acknowledgment thereof in writing, stating therein the time when he received it.

22. No registration fee is demanded for poll-books, and the prepayment of the postage is optional, without regard to weight or size.

### POSTAGE STAMPS.

23. Every Postmaster and Letter Receiver is required to have on hand a sufficient stock of postage labels and penny stamped envelopes, and to sell them to the public at the following prices:—

#### Stamped Labels.

Penny Labels.....	1d. each.
Twopenny do.....	2d. each.
Fourpenny do.....	4d. each.
Sixpenny do.....	6d. each.
Shilling do.....	1s. each.

\* The posting of these notices is confined strictly to Post Offices where money-order business can be transacted; consequently, whenever such power is suspended at any office, none of these notices can there be received.

#### Stamped Penny Envelopes.

* 12 to be sold for.....	1s. 1½d.
8       ".....	0s. 9d.
6       ".....	0s. 6¾d.
4       ".....	0s. 4½d.
2       ".....	0s. 2½d.
1       ".....	0s. 1½d.

Two kinds of stamp envelopes are now issued; one with a thread passing through the stamp, and the other without any thread, but made with thicker and better paper. Every person can have the kind he prefers.

24. Every Rural Messenger is authorized to sell postage labels and stamped envelopes at the same prices at which Postmasters are empowered to sell them, and when any person applies to him for such labels the Messenger must either supply them, or (if he have none in his possession) he must, without extra charge, receive the postage in money, and, on his arrival at the Post Office, obtain stamps for it, and affix them carefully to the letters.

25. Prepayment of inland letters, &c. must be by stamps,† except at the Chief Post Office, London, where prepayment of such letters from 10 a.m. to 5 p.m. is permitted in money, provided the amount be not less than £1. Letters also to the colonies and foreign countries may be prepaid in money. Except in the case of letters posted in Malta, Gibraltar, Constantinople, the British colonies in the West Indies, under the control of the Postmaster-General, and by sailors in Her Majesty's service, British postage stamps are not available for the payment of letters, &c., coming into the country.

26. When adhesive stamps are used, they should be examined to see that they firmly adhere, since if they fall off, the letters, &c., will be charged with postage, which in the case of inland letters, is double the prepaid rate. To some places abroad also, double the prepaid rate is chargeable in such cases; and in other instances the letters, &c. are liable to be detained for the deficient postage. The stamps should be placed on the front of the letter, and upon the right hand corner of the upper side.

27. Arrangements have been made by which paper and envelopes taken by the public to the Office of Inland Revenue, &c., Somerset House, can be impressed with postage stamps under the following regulations:—

1st. When the stamps required do not amount to £10; 1s. is charged, in addition to the postage stamps, for each distinct size of paper.

2d. When the stamps amount to £10, no fee is charged, provided one size of paper only be sent.

3d. When the stamps amount to £20, no fee is charged, provided not more than two sizes of paper be sent.

4th. When the stamps amount to £30, no fee is charged, provided not more than three sizes of paper be sent.

5th. When the stamps amount to £40, no fee is charged, provided four sizes of paper only be sent, and no more than four sizes can be received on a single warrant.

\* Every complete dozen, or any larger number, must be charged at the same rate.

† Payment in stamps must always be made by affixing outside the letter, &c., before it is posted, a number of stamps equal in value to the amount of postage.

6th. No folded envelopes can be stamped, and therefore paper, whether intended for envelopes or letters, must be sent unfolded and without being creased.

7th. Every distinct size and form of envelope or paper must be marked so as to indicate the place on which the stamp is to be impressed, in order that it may appear in the proper position, according to the rules of the Post Office, when the envelope or letter is folded up.

8th. No coloured paper can be received for stamping, nor any paper which is too thin to bear the impression of the dies.

9th. Papers provided by the Office of Inland Revenue, with proper stamps thereon, will be substituted for any of those sent which may be spoiled in the operation of stamping.

The warrants (or requisition forms) used in applying for paper to be stamped, are obtainable on application at the Office of Inland Revenue, Somerset House.

### MONEY ORDERS.

28. The public are recommended, when applying for Money Orders, to use printed "Requisition Forms," which save time, and afford greater security, than verbal messages, against mistakes. These Forms are sold by Postmasters at the rate of ten for one penny, or five or any smaller number for a halfpenny.

29. The commission on a Money Order not exceeding £2 is threepence, and on one above £2 it is sixpence; no order being granted for more than £5.

30. No order is allowed to contain a fractional part of a penny.

31. With the subjoined exceptions, no Money Order can be issued unless the applicant furnish, in full, the surname and at least the initial of one Christian name, both of the remitter (the person who sends the order) and the payee (the person to whom the money is to be paid), together with the remitter's address.

1st. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient; and if a firm, the usual designation of such firm will suffice,\* except a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company," to which kind of company the above privilege does not extend.

2d. When the remitter notifies in writing that the order is to be paid through a bank, it is left to his option to give or withhold the name of the payee.

32. When application is made for a Money Order payable in London or any other town where there is a plurality of Money Order Offices, the remitter should say at which of such offices he wishes it to be paid, otherwise the order can be cashed at the chief office alone. It is not incumbent on a Postmaster to supply such information relative to local or provincial offices, but the nearest Money Order Office to any street in London may be ascertained by referring to the Street List.

33. An order once issued cannot be cancelled; and should repayment or transfer to a different office or alteration of name be required, the remitter must

apply to the Metropolitan Office, as directed in the 44th rule.

34. When an order is presented for payment (otherwise than through a Bank) the Postmaster has first to see that the signature of the payee be as full as the name given in the advice, and be not in any way inconsistent therewith. He has then to call on the applicant to give the name of the remitter, and if the reply be correct, the order will be paid, unless the Postmaster have good reason for believing that the applicant for payment is neither the rightful claimant, nor deputed by him. When an order is paid through a bank, it is sufficient that it be receipted (without regard to any discrepancy between the signature and the name in the advice, or to whether the receipt is given by the payee himself or by another person), and that it be presented (crossed with the name of the receiving bank) by some person known to be in the employment of the bank.

35. The holder of a Money Order is always at liberty to correct, by crossing it, that the order be paid through a bank, even though its payment was not originally so restricted; and when the order is thus crossed, the question put on the presentation of an Ordinary Money Order is dispensed with.

36. Money Orders do not require a receipt stamp.

37. Payment of an order must be obtained before the end of the second calendar month after that in which it was issued (for instance, if issued in January it must be paid before the end of March), otherwise the order becomes lapsed, and a new order will be necessary, for which a second commission will be charged. Any person presenting a lapsed order will be furnished with a copy of a printed notice headed "Lapsed Money Orders," containing directions how to proceed. If the order be not paid before the end of the twelfth calendar month after that in which it was issued (for instance, if issued in January, and not paid before the end of next January), all claim to the money will be lost.

38. No application can be entertained for compensation for alleged injury from the nonpayment of a Money Order at the expected time; and after once paying a Money Order, by whomsoever presented, the Office is not liable to any further claim. The public are therefore strictly cautioned—

1st. To guard against the loss of the Money Order.

2nd. Never to send the Money Order in the same letter with the information required on payment thereof.

3rd. To be careful on applying for a Money Order to state correctly the surname, and at least the initial of the Christian name, of the person in whose favour it is to be drawn.

4th. To see that the name of the person taking out the order is correctly known to the person in whose favour it is drawn.

39. Under no circumstances can payment of an order be demanded on the day of issue; and, as respects orders granted at minor offices, time must be allowed for the advice to pass through the Metropolitan Office.

40. In case of the miscarriage or loss of a Money Order, a duplicate is granted on a written application (with the necessary particulars) to the Controller of the Money Order Office of the kingdom where the original order was issued; and by a similar application to the same officer, who (except as

\* The mere term Messrs., however, is not sufficient.

regards a temporary power to stop payment) can alone act in such cases, authority can be obtained to transfer the payment of an order from one office to another, or to stop payment, or to correct any error in the name of the remitter or payee, or to repay the money to the remitter. Every such application, however, must contain, in postage stamps, a second commission (namely, threepence for an order not exceeding £2, and sixpence for an order above that sum), though one commission will suffice even when, in the same application, more things than one, relating to the same order, are asked for; as both an alteration in the name of the payee and payment at another office. Unless a sufficient reason be given for an exception, the application must be either from the remitter or payee. Whenever, on complaint being made, it is found that the necessity for an application entailing the payment of a fresh commission is attributable to the Post Office, the stamps transmitted in payment of the commission will be returned; and when it can be ascertained where the blame lies, the officer in fault will be required to pay the additional commission.

41. A Postmaster is required to give information how to apply for a duplicate order, &c., and must furnish the applicant with the prescribed form of application. Moreover, if payment of an order be refused in consequence of the replies to the questions respecting the remitter not corresponding with the entries in the advice, or of a difference in the name in the receipt, the Postmaster is instructed to advise the applicant for payment to communicate with the remitter, and request him to apply to the Controller of the Metropolitan Money Order Office of the kingdom in which the order was issued, enclosing in his application the additional commission (in postage stamps) chargeable for the alterations required.

42. No Letter Carrier or other servant of the Post Office is bound to procure a Money Order for any person, or to obtain payment for one, but such services are not forbidden.

43. No Money Order business is transacted on the Sunday; neither, in England or Ireland is any transacted on Christmas Day or Good Friday; nor in Scotland on the Sacramental Fast Days; but for the convenience of the labouring classes the provincial offices are kept open on the Saturday night till 8 o'clock (or as near that hour as the despatch of the mail will allow), except where the Surveyor of the district considers such an arrangement unnecessary.

44. Money Orders are issued and paid at the Chief Offices in London, Dublin, and Edinburgh daily, between the hours of 10 a.m. and 4 p.m., except on Saturdays, when the hours of business are from 10 a.m. till 1 p.m. Orders are issued and paid at most provincial offices from 9 in the morning till 6 in the evening, and the time is never less than from 10 till 4.

A Postmaster, however, is in some cases allowed to suspend the business during the time he is making up his letter bags, &c., provided a notice of the intervals be placarded at his office.

45. The agents of the Post Office in Malta and Gibraltar are authorized to issue Money Orders on the several Money Order Offices in the United Kingdom; but no orders can be drawn upon the above-mentioned places.

## MISCELLANEOUS RULES.

46. With the following exceptions, no letter, &c., can be forwarded by the post which is more than two feet in length, breadth, or depth, nor any unpaid packet which weighs more than four ounces, unless three quarters of the postage have been paid. The exceptions are:—

1st. Packets to or from places abroad.

2nd. Packets to or from any of the Government Offices or departments, or Public Officers.

3rd. Petitions or addresses to the Queen, whether directed to Her Majesty, or forwarded to any member of either House of Parliament.

4th. Petitions to either House of Parliament, forwarded to any member of either House.

5th. Printed Parliamentary proceedings.

47. No information can be given respecting letters which pass through a Post Office\* except to the persons to whom they are addressed; and in no other way is official information of a private character allowed to be made public.

48. Postmasters are not allowed to return any letter, &c., to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon: as every letter, &c., must be delivered to the person to whom it is directed, and to him alone.

49. Late letters, &c.,† are received till within five minutes of the despatch of the mails, except in those large towns where the surveyor may deem an interval of ten minutes necessary, and excepting that no office is to be kept open merely for this purpose after ten o'clock at night.

50. No late letters, &c., are forwarded by the mail preparing for despatch unless prepaid, and that in stamps, so as to include both the ordinary postage and the late-letter fee.

51. With the subjoined exceptions, every re-directed letter or other postal packet will be liable to an additional postage (at the prepaid rate) unless the re-direction be not only made by an Officer of the Post Office, but be to a place within the district belonging to the same Head Office. Thus, on a paid or unpaid letter re-directed either by an Officer of the Post Office, or by any one else, to a different postal district in the United Kingdom, and weighing not more than half an ounce, an additional postage is levied of one penny; or, if the weight be more than half an ounce, but does not exceed an ounce, of twopence; and so on. Upon a book thus re-directed to any other postal district in the United Kingdom, and weighing not more than four ounces, an additional postage of one penny is levied; or, if the book weigh more than four ounces, but not more than eight ounces, an additional postage of twopence; and so on. Newspapers and books, &c., received from

\* The term "Post Office" applies to all Post Offices, whether Head Office, Sub-Office, or Receiving Office. A "Head Office" is an office subordinate only to a Metropolitan Office. Both Sub-Offices and Receiving Offices are under Head Offices; but at Receiving Offices letters are received only, not delivered.

† The term "Letters," &c., is meant to include everything sent by the post; whether letters, newspapers, parliamentary proceedings, books, or aught else. "Late letters" are such as are posted after the ordinary time, and which cannot therefore be sent forward by the mail then in preparation, unless extra payment be made.

abroad, and reposit to any other place abroad, with which there is no book post, are chargeable with letter postage. A registered letter when re-directed, is not subject to a greater additional charge than an ordinary letter. Letters which have once been posted addressed to commissioned officers in the army, navy, or ordnance, employed on actual service in any of Her Majesty's colonies, or on any foreign station, and who, before receiving the letters may have started on their return home, or to another station, may be re-directed to such officers when removed *upon service*, and will be delivered to them for the same postage that would have been chargeable had the letters been delivered at their original address. The same privilege extends to the letters of soldiers and seamen (see page 24), except as regards foreign postage, which must be paid. No such privilege, however, is allowed with regard to letters for a commissioned officer when such officer is in the United Kingdom, and was so when the letters were posted. Postmasters are not bound to re-direct letters for inhabitants of the same postal district, unless their places of abode should be left uninhabited, or they have a private bag or box; and unless, in addition, a written application be received by the Postmaster from the person to whom the letters are addressed, requesting that they may be re-directed.

52. Every Postmaster is required to have a notice conspicuously placarded, giving information respecting the hours of attendance, the despatch and delivery of Letters, &c.

53. During the time the office is open on Sunday (viz. from 8 to 9) the public are allowed to prepay foreign or colonial letters, to purchase postage stamps, and to have letters registered; and all other duties are performed as usual, except the issue and payment of Money Orders, which on that day are wholly suspended.

54. At no office in England or Ireland is there more than one delivery on the Sunday, Christmas Day, or Good Friday, nor in Scotland on Sunday or the Sacramental Fast Days.

55. No Postmaster is bound to give change, or is authorized to demand change; and when money is paid at the Post Office, whether as change or otherwise, no question as to its right amount, goodness, or weight can be entertained after it has been removed from the counter.

56. Except as regards foreign and colonial letters about to be prepaid in money, a Postmaster is not bound to weigh any letters or other packets for the public, though he may do so if his duty be not thereby impeded.

57. Postmasters are instructed not to receive any letter, &c., which there is good reason to believe contains anything likely to injure the contents of the mail bag, or the person of any officer of the Post Office. If such a letter, &c., be posted without the Postmaster's knowledge, or if at any time before its despatch he should discover any letter, &c., of the above description, he is directed not to forward it, but to report the case, with the address of the letter, &c., to the Secretary. The following are examples of the articles referred to:—

A glass bottle, or glass in any form; razors, scissors, needles, knives, forks, or other sharp instruments; leeches, game, fish, meat, fruit, or vegetables, bladders or other vessels containing liquids; gun-

powder, lucifer matches, or anything which is explosive or combustible.

When any letters, &c., remain undelivered, owing to the residences of the persons to whom they are addressed not being known, a list of the addresses is affixed in the window of the Post Office to which they may have been sent, during the time—one week—they are allowed to remain there.

All *inland* letters which contain the name and address of the senders are returned to them the same day they reach the Returned Letter Office.

Colonial and foreign letters are, with a few exceptions relating only to the former, returned in periods varying from one to two months.

Every letter, &c., which is opened at the Returned Letter Office, and found to contain the address of the sender, is sent back to him; but such as do not contain the sender's address are destroyed, except those which contain money or other articles of value.

58. By the Act 1st Victoria, cap. 36, sec. 2, any person conveying otherwise than by the Post a letter not exempted from the exclusive privilege of the Postmaster-General incurs a penalty of £5 for every letter, and £100 for every week the practice is continued. The sender also incurs a penalty of £5 for every letter, with full costs of suit.

59. The following are the exceptions granted by the Act 1st Victoria, cap. 34, from the exclusive privilege of the Post Office, in the conveyance of letters:—

1st. Letters sent by a private friend, so as such letters be delivered by such friend to the party to whom they shall be directed:

2nd. Letters sent by a messenger on purpose, concerning the private affairs of the sender or receiver thereof; commissions or returns thereof, and affidavits and writs, process or proceedings, or returns thereof, issuing out of a Court of Justice:

3rd. Letters sent out of the United Kingdom by a private vessel (not being a packet boat):

4th. Letters of merchants, owners of vessels of merchandize, or the cargo or loading therein, sent by such vessels of merchandize, or by any person employed by such owners for the carriage of such letters, according to their respective directions, and delivered to the respective persons to whom they shall be directed, without paying or receiving reward or profit for the same in anywise:

5th. Letters concerning goods or merchandize sent by common carriers, to be delivered with the goods which such letters concern, without hire or other advantage for receiving or delivering such letters:

6th. No person is authorized to make a *collection* of such excepted letters for the purpose of sending them in the manner above described.

60. The following persons are expressly forbidden to carry a letter, or to receive or collect or deliver a letter, even though they shall not receive hire or reward for the same:

1st. Common known carriers, their servants or agents, except a letter concerning goods in their carts or waggons, or on their pack horses; and owners, drivers, or guards of stage coaches:

2nd. Owners, masters, or commanders of ships, vessels, steam boats, or boats called or being passage or packet boats, sailing or passing coastwise, or otherwise between places within Great Britain or

Ireland, or between, to, or from ports within Her Majesty's dominions or territories out of the United Kingdom, or their servants or agents, except in respect of letters of merchants, owners of ships, or goods on board:

3rd. Passengers or other persons on board any such ships, vessels, steam boat, passage or packet boat:

4th. The owners of or sailors or others on board a ship or boat passing on a river or navigable canal within the United Kingdom or other Her Majesty's dominions.

61. Local Postal Guides, price one penny, containing information special to the locality, are issued in England at the Post Offices at Birmingham, Bristol, Leeds, Liverpool, Manchester, and Sheffield; in Ireland, at Dublin, Cork, and Belfast; and, in Scotland, at Edinburgh and Glasgow.

*Time of Posting.*—When the time for making up a Mail is marked "Afternoon," the latest time (in Glasgow) for posting Letters by it for Abroad, is 5.15 p.m., at the Chief Office. When marked "Evening," 7.20 p.m.

#### *Optional or Compulsory Prepayment.*

63. The asterisk \* prefixed to a division (as that of Letters or Newspapers) indicates that in such case prepayment is compulsory. In other cases prepayment is not compulsory unless the Letter be registered. When a Letter or Newspaper, addressed to go by a route that requires prepayment, is posted unpaid, and there is some other route where prepayment is not required, it is sent by that route; but if there be none, it is sent to the Dead Letter Office, to be returned to the writer.

*Distance to which the Postage carries the Letter, &c.*

64. D. The letter D prefixed to any division (as that of Letters or Newspapers) shows that the postage there entered carries the Letter, &c., from the place where it is posted in the United Kingdom to its place of destination. In all other cases the postage carries it only part of the way. The word "Free," as applied in certain cases to Newspapers, &c., simply means that no charge is made upon them in this country.

*Letters for Non-commissioned Officers, Soldiers, and Seamen in Her Majesty's Service.*

65. S. Subject to the subjoined regulations, non-commissioned officers, private soldiers or seamen,

whether serving on board Her Majesty's Ships or Transports, on sea or land (in Foreign Parts), as also enrolled pensioners in Canada, can send and receive letters by direct Packet, Vessel of War, or Transport for a postage of 1d.; and if any such letters have to pass through a foreign country they are subject, in addition to the foreign rate, whatever that may be; for instance—

To or from

India, Ceylon, Hong Kong, Mauritius, &c., via Marseilles,.....	3d. per $\frac{1}{4}$ oz.
United States,.....	2 $\frac{1}{2}$ d. per $\frac{1}{2}$ oz.
Vancouver's Island, via United States, .....	5d. per $\frac{1}{2}$ oz.
Vancouver's Island, via West Indies and Panama, .....	6d. per $\frac{1}{2}$ oz.
Pacific, and west coast of South America, via St. Thomas,.....	6d. per $\frac{1}{2}$ oz.

1st. The person claiming the privilege must at the time be actually employed in the service of Her Majesty, or of the East India Company, and must not be either a commissioned or warrant officer, midshipman, or master's mate, the privilege not extending to these officers.

2nd. If the Letter be posted within the United Kingdom, the penny must be prepaid, as must any foreign postage that may be chargeable; and if sent by a private ship the gratuity of one penny or twopence, as the case may be, to the captain must also be prepaid. If posted abroad, prepayment is not compulsory, but if the letter be sent unpaid, it is on delivery charged twopence, together with any foreign postage or gratuity to a sea captain that may be due.

3rd. The Letter must not weigh more than half an ounce.

4th. It must relate entirely to the private concerns of the soldier or seaman.

5th. The name of the soldier or seaman, with his class or description, must appear in the direction, and the officer having the command must sign his name, and specify the ship or regiment, corps, or detachment to which the soldier or seaman belongs; the name of the ship or regiment being entered in full. The foregoing particulars must be given in one of the following forms:—

#### SEAMEN.

From A.B., Seaman, H.M.S. \_\_\_\_\_

(Here the direction of the Letter to be inserted.)

C.D., Captain (or other Commanding Officer),  
H.M.S. \_\_\_\_\_

To A. B.

Seaman H.M.S. \_\_\_\_\_

(Here the direction of the Letter to be finished.)

#### SOLDIERS.

C.D., Colonel (or other Commanding Officer),

Regt. \_\_\_\_\_

To A.B.

Private (or Sergeant, Corporal, &c.) — Regt. \_\_\_\_\_

(Here the direction to be finished.)

66. If either of the foregoing regulations be violated, the Letter is charged with the full Letter Rate.

*Officers' Letters.*

67. The postage on Letters addressed to naval officers on board Her Majesty's ships on Colonial or Foreign Stations is as follows, and must be paid in advance:—

River Tagus and Lisbon Station—6d. not exceeding  $\frac{1}{2}$  oz., and so on. Newspapers, 1d. each.

Brazilian, River Plate, and eastern coast of South America Stations—6d. not exceeding  $\frac{1}{2}$  oz., and so on. Newspapers, 1d. each.

Stations in Pacific and South Seas, at Valparaiso and on western coast of South America—1s. not exceeding  $\frac{1}{2}$  oz., and so on. Newspapers, 3d. each. Unless sent via the United States, when the postage on Letters is 11d. the  $\frac{1}{2}$  oz., and that on Newspapers, 2d. each.

East Indian Station. *See* India.

China Station. *See* Hong Kong.

Mediterranean Station. *See* Malta.

Station on western coast of Africa. *See* Sierra Leone.

West Indian Station. *See* Barbadoes.

South African (or Simon's Bay) Station. *See* Cape of Good Hope.

*Letters weighing more than 2 oz.*

68. The postage of a Letter weighing any number of ounces, with any fraction of an ounce, may be reckoned by first seeing what it would be if the Letter weighed only one ounce, with the same fraction; and then adding the charge for the additional ounces. Thus, to find the postage on a Letter to France weighing between 3 oz. and  $3\frac{1}{2}$  oz., take 1s. 8d. (the charge for a Letter between 1 oz. and  $1\frac{1}{2}$  oz.), and add thereto 2s. 8d., the charge for the additional two ounces; giving a total of 4s. 4d. For a Letter between  $3\frac{1}{2}$  oz., and  $3\frac{3}{4}$  oz., take 2s. 4d. (the charge for a Letter between  $1\frac{1}{2}$  oz. and  $1\frac{3}{4}$  oz.), and add thereto 2s. 8d., the charge for the two additional ounces, giving a total of 5s. Whenever it appears by the Table that the postage to a British Colony of a Letter not exceeding  $\frac{1}{2}$  oz. in weight is 6d., the postage of a Letter of any greater weight may be found by multiplying the prepaid Inland rate by six. Thus, the postage of a Letter between 4 oz. and 5 oz. in weight to Jamaica is 5s., being six times 10d., the prepaid Inland rate of a Letter of that weight.

*Routes.*

69. When the route by which a Letter, &c., is to go is not marked on it, it will, under ordinary circumstances, be sent by the route immediately following the name of the place. Thus, a Letter or Newspaper directed to India, with no route marked on it, will be sent via Marseilles, and charged the higher postage attendant thereon.

70. For information respecting Foreign rate of postage, as distinguished from the combined British and Foreign rate (which will be found in the above Table), application should be made to the Secretary of the Post Office. No Foreign postage is chargeable on Letters to or from India via Southampton.

*Exceptional Rates of Postage, &c.*

71. *Rates of Postage (which must be paid in advance) chargeable upon Newspapers and other Printed Papers to Belgium, France, Algeria, or the French Offices in Turkey, Syria, and Egypt.*

Not exceeding 4 oz.	0	4
Above 4 oz. and not exc. 8 oz. -	0	8
Above 8 oz. and not exc. 16 oz. -	1	4
and so on, two rates being charged for every additional 8 oz. or part of 8 oz.		

No packet of books or newspapers, however, can be sent to the Austrian dominions via Sardinia if it weighs more than 1 lb.

The term "printed papers" (as applied to foreign countries) includes printed papers of every kind, Parliamentary Proceedings and Books of every kind, whether printed, engraved or lithographed, Sheets of Music, Prints, and printed or engraved Maps, with any binding, mounting or covering (whether loose or attached), belonging to any Book, &c., and any cases or rollers of prints, or of printed or engraved Maps, together with Bookmarkers, Pencils, Pens, or other articles usually appertaining to any such Book, &c., or necessary for its safe transmis-

sion. But no such Book, &c. (unless it be for Sardinia, in which case writing, not of the nature of a letter, is allowed), must contain any writing or manuscript mark of any sort, and no packet must exceed 18 inches in length, width, or depth (except those addressed to Sardinia, Spain, the Balearic or Canary Islands, Tuscany, Parma, Modena, and the Austrian Dominions, which must not exceed 24 inches), otherwise it will be detained and sent to the Returned Letter Office charged with Letter postage. *To Spain, the Balearic or Canary Islands, however, bound Books cannot be sent; neither can Prints, Music, Maps, nor Drawings, unless they form part of any publication included in a packet of printed papers.*

73. To all parts of Belgium, to Sardinia, Spain, the Balearic or Canary Islands, Tuscany, Parma, Modena, and the Austrian Dominions, France, Algeria, and to those places in Turkey, Syria, and Egypt where France maintains post offices, the above rates carry the packet to its destination; no charge being made on delivery. At the same rates (although subject to a further charge on delivery) newspapers and other printed papers may be sent to those countries not mentioned in the foregoing Section (72), the correspondence for which is forwarded as a rule by way of France (as shown in the Table of Colonial and Foreign Postage), and (when so addressed) to other countries via France. As regards packets sent *through* France (except to the countries enumerated in Sections 71 and 72) the term "printed papers" does not include cases or rollers, or Maps, Bookmarkers, Pencils, Pens, &c., but *does* include Parliamentary Proceedings, Books of every kind, sheets of Music, and Prints. In these latter cases the rates paid in the United Kingdom free the newspapers or other printed papers through France, but not beyond.

74. The Foreign rates of postage on Newspapers to parts of Turkey, &c., via Belgium, specified in the Table, as *exceptional rates*, are as follows:—Not exceeding  $\frac{1}{2}$  oz., 1 $\frac{1}{2}$ d.;  $\frac{3}{4}$  oz. and not exceeding 1 oz., 3d.; 1 oz. and not exceeding  $1\frac{1}{2}$  oz., 4 $\frac{1}{2}$ d.;  $1\frac{1}{2}$  oz. and not exceeding 2 oz., 6d.; 2 oz. and not exceeding  $2\frac{1}{2}$  oz., 7 $\frac{1}{2}$ d.; and so on, 1 $\frac{1}{2}$ d. being charged for every succeeding  $\frac{1}{2}$  oz. or fraction of  $\frac{1}{2}$  oz. Besides this Foreign postage there is a British postage of 1d. for each Newspaper. Both rates must be prepaid.

75. A newspaper for India, Hayti, or the Argentine Republic, weighing above 4 oz. and not exceeding 8 oz. is chargeable with two single rates; above 8 oz. and not exceeding 12 oz. with three single rates, and so on.

"B." The privilege of the Book Post to and from India and New South Wales is limited to packets not exceeding 3 lbs. in weight; any packet weighing more than 3 lbs. is liable to letter rate of postage.

76. Periodical works not of daily publication, issued in the shape of pamphlets, may be sent to Bremen and Hamburg by private ship, to Prussia via Belgium and by private ship, to the United States by Packet, and to Holland via Belgium and by private ship (to which latter country Parliamentary Proceedings may also be sent), at the following rates: not exceeding 2 oz., 1d.; 2 oz. and not exceeding 3 oz., 6d.; 3 oz., and not exceeding 4 oz., 8d.; with an addition of 2d. for every additional

ounce up to 16 ounces, above which weight the privilege does not extend, *except in the case of parliamentary proceedings to Holland, the weight of which is unlimited.* At the same rate of postage, any pamphlet not weighing more than 8 oz. (even though it be not a periodical publication) may be sent to the United States. The periodical works or pamphlets must always be sent in a cover open at the ends (not more than one being sent in a single cover), and the postage must be prepaid. Other printed papers or books (except those specified above) addressed to the places above named are liable to letter rate of postage.

77. On the same conditions as those on which they can be sent to the colonies, and at the following rates, books may be forwarded to Monte Video: not above 8 oz., 6d.; above 8 oz., but not above 16 oz., 1s.; with 1s. for every additional pound or fraction of a pound.

78. "G.U." According to the regulations of the German Customs Union, no Letter exceeding 50 grammes (a little more than  $1\frac{1}{2}$  oz.) in weight, and containing any other enclosure than paper, can be allowed to circulate by the post. Any Letters, therefore, forwarded in the Mail to Prussia above that weight, and containing any other enclosure than paper, will be liable, on their arrival at the Prussian frontier, to be stopped, and sent to the Custom House for delivery as *freight*.

#### *Foreign Newspapers, &c.*

79. With the following exceptions, Foreign newspapers must be printed in the language of the country from which they are sent:—"Argentine News," published at Rio de Janeiro; and all newspapers and other printed papers posted in Belgium, Sardinia, Spain, the Balearic or Canary Islands, or France, or coming from countries through Sardinia or France.

#### *Registration of Letters, &c.*

80. The fee chargeable for registering a letter, in addition to the ordinary postage, both of which must be prepaid or the letter cannot be registered, will be found against each country or place in the Table of Colonial and Foreign postage.

81. "¶" Where this sign is made use of in the column of fees in the Table of Colonial and Foreign postage, it signifies that the letter can only be registered with certainty to the port of despatch; it being left in those cases to the postal authorities of the colony or foreign country to continue the registration if they think proper.

82. *France and Countries through France.*—The registration fee upon letters addressed to France or countries through France (exclusive of those sent in the British Mails to India, Malta, or Australia) is not a fixed sum, but is chargeable by weight, and is in all cases a sum exactly equal to the postage, whatever that may be.

83. *Russia and Poland via Belgium.*—The registration fee chargeable upon letters addressed to Russia and Poland is stated at length in the Table of Colonial and Foreign postage. It is composed as follows—a fixed sum of 9d. for a letter of any weight, in addition to 3 $\frac{1}{2}$ d. for every  $\frac{1}{2}$  oz. or fraction of a half ounce.

84. Book-packets and newspapers addressed to the British Colonies, viz.—British West Indies (including Honduras), British North America (including Bermuda), Sierra Leone, Gold Coast, St.

Helena, Cape of Good Hope, and Natal, as well as to Mauritius, India, Ceylon, Hong Kong, New South Wales, South Australia, and Western Australia; either by way of Southampton or Marseilles, Malta, and Gibraltar, can likewise be registered upon the prepayment of a registration fee of 6d., irrespective of weight, in addition to the usual and ordinary book or newspaper postage. To Victoria, Tasmania, New Zealand, Ascension, Gambia, Vancouver's Island, British Columbia, Lubuan, and Falkland Islands, they can be registered upon the same terms, but only as far as the port of despatch.

#### *Letters by Private Ships.*

85. To most of the places entered in this Table, letters may, if so marked, be sent by British private ship, even where there is no entry to that effect in the Table. Letters may be sent by private ship, also, to many other places; the Table of Colonial and Foreign Postage being chiefly limited to those with which there is postal communication by regular packets. To insure any letter, &c., being sent by private ship, the words "By Private Ship," or "By Ship," should be distinctly written above the address. Except where otherwise specified in the Table, the postage on a letter by a private ship is six times the inland prepaid rate; consequently, on a letter not a  $\frac{1}{2}$  oz. it is 6d., which postage must generally be prepaid, though to the following places ship letters may be sent unpaid, viz., Bermuda, Canada, Cape of Good Hope, Gold Coast, New Brunswick, Nova Scotia, Newfoundland, Prince Edward Island, Turks Island, Sierra Leone, East Indies, Ceylon, and Mauritius—Newspapers by private ships are charged 1d. each. In those cases where there is no packet conveyance, and where, at the same time, book-packets are allowed to be sent by private ship, an entry to that effect will be found in the Table.

#### *Warm Climates.*

86. The practice of sealing letters passing to and from the East and West Indies, and other warm climates, with wax (except such as is specially prepared) is attended with much inconvenience, and frequently with serious injury to the letters, in consequence of the melting of the wax and adhesion of the letters to each other.

87. The public are therefore recommended in all such cases to use either prepared wax or wafers, and also to advise their correspondents in the countries referred to, to pursue the same course.

#### *Prepayment.*

88. Letters addressed to places abroad may be prepaid in this country either in money or stamps, though not partly in one and partly in the other, but such payment must be wholly in stamps or wholly in money. Newspapers and Book-packets must always be prepaid, and this in stamps. With certain exceptions the only admitted evidence of the prepayment of a letter, &c., inwards, is the mark agreed upon with the particular foreign country or colony. Naval officers and seamen also serving abroad are allowed to prepay such of their letters as are conveyed in their ship's bag, with English postage stamps. When prepayment is optional, any outward letter (that is, a letter posted within the United Kingdom, and addressed to some place out of

it) posted with an insufficient number of stamps is charged with the deficient postage in addition; unless the letter have to go to a country through France, Holland, or the United States, in which case it is treated as wholly unpaid, the postal conventions with the latter countries not allowing the recognition of partial prepayment. When prepayment, however, is compulsory, a letter or ought else posted with an insufficient number of stamps is sent (by the first post) to the Returned Letter Office. Unpaid letters addressed to or received from France, are charged with a postage of 8d. per  $\frac{1}{4}$  oz.; and those to or from places in Turkey, Egypt, and Syria, at which France maintains Post Offices, are, on delivery, charged a rate of 9d. per  $\frac{1}{4}$  oz., instead of 6d. the prepaid rate. Unpaid letters addressed to or posted in Sardinia are on delivery, charged with 6d. beyond the ordinary postage, as a fine. Unpaid letters sent to or received from Belgium are, on delivery, charged 8d. per  $\frac{1}{2}$  oz. when conveyed by direct packet; and 10d. per  $\frac{1}{2}$  oz. when conveyed by way of France. Unpaid letters sent to or received from Spain, the Balearic or Canary Islands, are charged on delivery with double the prepaid rates.

#### SUGGESTIONS TO THE PUBLIC, &c.

89. Facility would be given to the Post-Office in the discharge of its daily duties, and consequently benefit to the public, by a more careful and general attention to the following points:—

1st. To post all letters and newspapers as early as practicable.

2nd. When several letters are sent by the same person for registration, they should be accompanied with a list in duplicate of the addresses; one list to be retained at the Post Office, and the other, when signed, to be returned by the bearer. This practice (which is adopted by many bankers) saves time both to the public and to the department.

3rd. To make the address legible\* and complete, giving the name of the post town, and if there be more than one town in the kingdom of that name (but not otherwise) adding that of the county. Letters posted in one part of the United Kingdom, and intended for another part (as, for example, letters posted in England and intended for Scotland) should have the name of the country to which they are sent added to the other part of the address. The number of the house too, if in a street, is a great assistance. It must not be supposed that because a letter will eventually reach its destination without a number, the omission is not a cause of hesitation and delay in the process of sorting for delivery; and when such small delays occur again and again they tend greatly to retard the general distribution. In the case of letters for places abroad, the name of the country as well as the town or city should be given. Attention to this latter precaution will often assist in deciphering the name of the town or city, and will prevent the letter from being mis-sent when there are towns of the same name in different countries: For example—a letter intended for London in Western Canada, North America, but simply addressed "London, W.C.," would be forwarded to

\* As an instance of miscarriage owing to the want of legibility, it may be mentioned that badly directed letters intended for *Belgravia*, have not unfrequently been sent to *Belgrade*.

the West Central District of the Metropolis of England, and thus be delayed.

4th. Every letter, newspaper, or other packet sent by post should be securely folded and sealed.\* It should be remembered that every such packet has to be several times handled, and that even when in the mail bag it is exposed to pressure and friction. Unless, therefore, the article be light and pliant, it should be enclosed in strong paper, linen, parchment, or some other material which will not readily tear or break. Owing to neglect of these precautions, many postal packets burst open, causing much trouble to the department and risk to the owners, it being sometimes impossible to determine to what packet a particular article belongs.

5th. To prevent newspapers from slipping out of their covers, care should be taken to fasten the covers firmly. When, for additional security, the address is written on the newspaper itself, such address must, in case of re-transmission, be cut off; otherwise the newspaper will become subject to letter postage. It is not sufficient that the old address be obliterated, as the rules forbid writing or marks of any kind in addition to the true address. This applies to newspapers bearing the impressed stamp, newspapers prepaid by postage stamps, and treated as any other printed matter.

6th. When money or any other article of value is to be transmitted through the post, it should be sent either by means of a money order or in a registered letter. Any person who sends money or jewellery in an unregistered letter, not only runs a risk of losing his property, but exposes to temptation every one through whose hands his letter passes, and may be the means of ultimately bringing some clerk or letter-carrier to moral ruin. Every letter which contains money or other valuable article, even when registered, ought to be securely sealed.

7th. To provide a letter-box, except where the outer door is kept open.

8th. In case of removal, to leave at the residence vacated the particulars of the new address.

9th. When complaint is made of letters or newspapers lost, miscarried, or delayed, to furnish information as precise as possible in regard to all the facts of the case, and to enclose whatever documents may throw light upon it. The day and hour at which the letter or newspaper was posted, as well as the office at which and the person by whom this was done, should always be stated; and when possible, the cover or wrapper in an entire state should be sent, in order that the place of delay may be ascertained by an examination of the stamps. Cases frequently occur in which complaint is made against the Post Office, and redress expected, although little or no means of tracing the error, and of guarding against a repetition of it, is supplied by those who alone are able to do so.

10th. Every letter to contain the full address of the writer, in order to insure the return of the letter if the person to whom it is directed cannot be found.

90. Whilst trouble and loss are too often caused by the carelessness or dishonesty of some of the twenty-one thousand servants of the Post Office, yet the instances are not few in which it has been shown, to

the satisfaction even of the complainant, that the fault attributed at first sight to the Post Office, rested really in other quarters.

91. The publisher of one of the London papers complained of the repeated loss in the Post Office of copies of his journal, addressed to persons abroad. An investigation showed that the abstraction was made by the publisher's clerk; his object apparently being to appropriate the stamps required to defray the foreign postage. In another case a general complaint having arisen as to the loss of newspapers sent to the Chief Office in St. Martin's-le-Grand, the investigation led to the discovery of a regular mart held near the office, and supplied with newspapers by the private messengers employed to convey them to the post. Again, a man was detected in robbing a news-vender's cart by volunteering on its arrival at the entrance of this Office to assist the driver in posting the newspapers; instead of doing so, he walked through the hall with those intrusted to him, and upon his being stopped, three quires of a weekly paper were found in his possession.

92. Depredations so impudent and systematic is not likely, whoever the perpetrator may be, to remain long undiscovered; but isolated cases of theft by private hands are often brought to light, although necessarily very difficult of proof on the part of the Post Office, upon which no doubt the blame for a time rests; and it is greatly to be desired that those who have suffered loss should, in the first instance, and whilst the circumstances are fresh, endeavour to ascertain with the utmost precision all particulars respecting the despatch or receipt of the letters or papers in question, and communicate that information to this department. Indeed, generally speaking, it is only by careful inquiry into minute details that the offender can be detected, whether he be a servant of the Post Office or not.

93. The Post Office is a department which admits of constant improvement and expansion; and the public by sending to the Post Office clear and correct information respecting faulty arrangements may greatly aid in the accomplishment of these objects. It is not, however, always borne in mind that changes in machinery so extensive and intricate as that of the Post Office must be made cautiously, and with much previous consideration.

94. The arrangements of the service, even in districts widely separated, are so much dependent upon each other, and economy of time (one of the first objects in all postal organization) requires that they should be so nicely adjusted, that no alteration can safely be made without a close examination of all its consequences, and the utmost completeness of preparation; for as on the one hand experience proves that almost every improvement made shows the way to further amendment, so, on the other, it will be found that an ill-considered chance, though it may give a partial advantage in one quarter, will almost invariably lead to dislocation and confusion in others.

95. This, of course, involves a reference to every district or community which may be affected, often distant from the metropolis; and entails the necessity of reports from various quarters, which must be considered, compared, and in many instances tested by experiment before a safe decision can be arrived at. Even then negotiations with railway companies or coach proprietors may have to be entered into

\* The most secure mode of sealing, in the opinion of the practical officers of the department, is first to wafer the letter, and then to seal it with wax.

tenders invited, new contracts made, and old contracts, requiring notice of termination, got rid of, before the decision can take effect.

96. The proper execution of a great portion of these duties not only requires high ability, diligence, and precision on the part of the officers intrusted with them, but is also (and it is this which more immediately concerns the public) a work of time. Hence it has frequently happened that the necessity for a change has been recognised in this Office, that investigation has been set on foot, and measures of improvement have been taken before any public demand has arisen: such demand even having been suggested by these very proceedings.

97. It is often assumed that a Mail conveyance, passing by or through a place, however small, ought as of a matter of course to deposit the letters directed thereto; the practice being that until the mail arrives at the head post office of the district the letters in question are not separated from the other letters of the district. A slight consideration of the nature and objects of the Postal Service will show that such separation cannot be effected in any other way, unless, indeed, the Mail conveyance, even supposing it to be but a mail cart, were converted into a travelling post office, and furnished with clerks of unlimited local knowledge (which is plainly impossible), or unless every town and village in the kingdom having any correspondence with the place in question were to make up a bag for that place; in which case its mail would contain nearly as many bags as letters.

98. It happens from time to time that, owing to the stream of postal communication having been diverted from the old mail road to a line of railway, or from other causes of like nature, it becomes desirable to reduce the post office of a town from the condition of a principal office to that of a sub-office. This step not unfrequently gives rise to complaints; the inhabitants being under the impression that they will not in future be so well served. This is a misconception. The change is not made when it will subject the correspondence to delay; nor does it cause any withdrawal of accommodation in respect to Money Orders. It is, in fact, simply a departmental arrangement, which consists in carrying on the sorting of the letters for the new sub-office at some intermediate office, instead of sending them in direct bags.

99. A frequent error is to assume that the Postmaster-General has some control over the delivery, charge, and other postal arrangements in all the Colonies, and even in foreign countries; whereas in most of the former, and in all the latter, the British Post Office is as powerless as the Foreign or Colonial Post Offices are here:—

*Colonies in which the posts are under the control of the British Postmaster-General:—*

100. Another misconception, which occasionally causes trouble and disappointment, consists in assuming that a discretionary power can be intrusted to subordinate officers to remit penalties or overcharges in special circumstances. Cases will undoubtedly occur in which strict observance of a general rule may inflict more or less injustice upon individuals, and where a dispensing power immediately at hand might furnish a remedy; but in an establishment as large and as widely spread as the Post Office there will always be many subordinate officers, some of them carrying on their duties beyond the easy reach of any supervising authority, who are not fit depositaries of such a power, affecting, as it would to as great degree, the public revenue. It therefore becomes necessary to lay down definite and precise rules from which no departure can be allowed, except under sanction of the Postmaster-General; and in the few instances in which these rules press hardly, appeal must be made to the General Office. It must be added, that in many instances even such appeal is necessarily fruitless, the Postmaster-General being bound to a particular course by positive law.

101. In regard to the expense of railway conveyance, the public naturally supposes as such conveyance is the cheapest for ordinary purposes, and as the charges made for the carriage of the mails are subject to arbitration, that it must be the cheapest for postal purposes also, and, indeed, so cheap as to warrant the free use of the railways either as substitutes for other conveyance or for the multiplication of Mails. The fact, however, is very different. Except in certain instances where companies have entered into arrangements securing to the Post Office the use of their trains on moderate, though still highly remunerative terms, railway conveyance, with all its acknowledged advantages, has proved much more expensive than that which it has superseded.

102. In truth, under any modification of the law that could be made without injustice to the railway companies, the especial establishment of trains at hours unsuited to ordinary traffic, a measure often pressed upon the Postmaster-General, must remain a source of very heavy expense, such as can be justified only by commensurate advantage to the public.

Sinclair, Depute-Clerks; Robert Duncan Douglas, Procurator-Fiscal; John Buchanan, Bar-Officer.

## SMALL DEBT COURT OF THE JUSTICES.

This court, on six days' inducie, decides claims of £5 and under, sits every Tuesday and Friday, at 11 o'clock, forenoon, in the Small Debt Court, Justices' Hall, County Buildings, 117 Brunswick Street. Two Justices are the Judges. Summonses and warrants are issued for the Lower Ward of Lanarkshire at the Justice of Peace Clerk's Office, County Buildings, entering by 111 Brunswick Street. Geo. Crawford, Clerk of the Peace; Alexander Clugston and William Sinclair, Depute-Clerks.

## SHERIFF SMALL DEBT COURTS.

For the recovery of Debts not exceeding £12, sits every Monday at 11, and Thursday at 10 o'clock forenoon for Glasgow, and on Tuesdays and Fridays for Lanark, Hamilton, and Airdrie, at 11 o'clock, forenoon, and have jurisdiction over the whole of Lanarkshire. The Defendants are cited before this Court on an inducie of six days: warrants to arrest on the dependence are issued: the decree may be extracted, and arrestments used upon it instantly; and it may be enforced, in all cases, by poinding, sale, and imprisonment, when above £8, 6s, 8d. of the debtor's effects, ten free days after its date. In case of the debtor removing to a different county, the decree may be enforced against him there, on being endorsed by the Sheriff-Clerk of the county to which he removes. Judges—Sheriff and Sheriff-Substitutes of the County.

*Note.*—The Act authorising Imprisonment for Small Debts expired in 1840 for sums under £8. 6s. 8d., excepting claims of aliment.

## FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and before the Sheriff Courts, to the extent of £12.

The first step is set forth in a complaint or libel, agreeably to a prescribed form (the Clerks of Court will provide the necessary forms), the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorize; but in no case by persons practising the profession of the law, or by Officers of Court, without special leave of the Court or cause shown.

If the defender fail to appear after being cited, he will be held as confessed, and judgment will be given against him.

But when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decreed for in cases before Justices, and in cases before Sheriff by consigning 10s. of expenses, on applying within three months from date of charge.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing on consigning 2s. 6d., if the case be before the Justices; and the expenses decreed for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender, diligence may proceed against him by arrestment instantly; and by poinding, sale, and imprisonment, if above £8. 6s. 8d., at the end of ten days before the Sheriff; and by poinding and sale instantly, before the Justices.

If decree be given against the defender in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decreed for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolver or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrestments; but in such actions both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable, by a reduction before the Court of Session, on the ground of malice and oppression on the part of the Justices, and such reduction will only be competent for one year, and finding caution for costs.

No person is exempt from the jurisdiction of

Justices or Sheriffs in such cases, by reason of privilege as a member of the College of Justice.

Trustees.—Robert Bartholomew, John Bain, John Blackie, jun., Robert Lamond, John Gilmour, James Burns, James Lumsden.

The object of this institution is to afford assistance to natives, and widows and families of natives, of the city of Glasgow, who, from reverses of fortune, or otherwise, have been reduced to necessitous circumstances, though not such casual or trivial relief as is properly obtained from the funds destined by law for the support of the poor, but rather such more ample and sufficient assistance as may tend to secure comparative ease and independence to the parties on whom it is bestowed. The association is composed of natives of Glasgow, but donations are received and invited from those who, although not natives, have been identified, by long residence or commercial connections, with the interests and prosperity of the city, and who are enrolled in a separate class, titled donors. Legacies and bequests will also be received, and are invited from the opulent and generous, either at home or abroad, who approve of its object. A payment of £5. 5s., either in one sum at entry, or by five successive yearly instalments of £1. 1s., constitutes membership. Members and widows and families of members, are entitled to a preference in the distribution of the funds.

### GLASGOW RELIGIOUS FRIENDLY.

This Society was instituted 1st October, 1827, on the principles laid down in the Highland Society's Report, and the Report of the House of Commons, with an addition of 10 per cent. upon their rates, but having found this insufficient to sustain the society, it was agreed on 1st July, 1846, that a reduction of the sick allowance should be made after nine months' continued illness, with a further increase of 10 per cent. upon contribution tables. It has two departments, viz., 1st, The sick allowance, with a stated superannuation allowance, from the age of 65 to the end of life. 2d, Allowance at death; to any of which the members pay in proportion to their ages and the benefits required; and females are admissible to the latter department, the two being kept perfectly distinct.

W. Angus, 113 Rottenrow St., President; David Sutherland, Morrison's Court, 108 Argyle St., Treasurer; Wm. Sutherland, 5 M'Aslan St., Secretary.

Meet in Religious Institution Rooms, 75 St. George's Place, on the first Monday in Jan., March, May, July, Sept., and Nov., at eight o'clock p.m., to receive contributions and enter new members.

## GENERAL REGULATIONS.

1. The board is, in all cases, payable quarterly, and in advance.

2. The regular quarterly terms are—1st January, 1st April, 1st July, and 1st October. In regard to patients at and above the rate of 15s. per week, no part of the first quarter's board shall be returned, except in the event of the patient dying before the expiry of that period, in which case it shall be in the power of the weekly committee to allow the return of such proportion of the board as, under all the circumstances, they consider reasonable.

3. Patients have no claim for remuneration for their labour.

4. Every patient must be provided with proper apparel. An accurate list of every article brought with the patient must, on admission, be delivered to the steward, or principal attendant, to the superintendent of the ladies, or the matron, according to the house in which the patient is placed, and the name must be fully marked on each article. If any necessary part of dress should not be duly supplied, after eight days' intimation has been given that it is wanted, it will be furnished by the house, and the cost of it charged against the patient.

On applying to the physician, the patient will be carefully and expeditiously conveyed to the asylum, the necessary expenses being paid to the steward by the applicant.

Patients in the west house may be visited every lawful day between 10 and 12 o'clock; those in the east house, who are not paupers, on Mondays, between the same hours; and patients who are paupers, on Saturdays, also from 10 till 12 o'clock. Only those who are duly authorized can be admitted to visit patients.

The Magistrates also recommend to the inhabitants to keep the hatchway, or other access to the roof of their houses, properly secured, and not to intrust the key to any chimney-sweeper who has not a badge, in order to prevent theft and destruction to property.

## RIVER AND HARBOUR RATES.

Authorized to be levied by the Trustees of the Clyde Navigation, under the Act 21 & 22 Vict., Cap. 149.

## SCHEDULE G.—Rates on Vessels on each time of Entering, or Using, or Departing from the River or Harbour:—

On all Vessels, except as after-mentioned, arriving at or departing from the Harbour, from or to any place in the United Kingdom of Great Britain and Ireland, per Register Ton,	In. 1½d., Out. 1½d.
On all Steam Vessels arriving at or departing from the Harbour, from or to any place within a line drawn from East to West across the Channel at Pladda, per Register Ton,	In. ¾d., Out. ¾d.
On all Vessels arriving at or departing from the Harbour, from or to any place out of the United Kingdom of Great Britain and Ireland, per Register Ton,	In. 4d., Out. 4d.
On all Vessels that shall remain in the Harbour over and above the first Twenty-four lawful Days, per Register Ton per Week,	One Penny.
On all Vessels entering or departing from any of the Wet Docks or Tidal Basins, when constructed, in addition to the Harbour Rates, per Register Ton,	In. 6d., Out. 6d.
On all Vessels that shall remain in any of the Wet Docks or Basins over and above the first Twenty-four lawful days, per Register Ton, per week,	Twopence.
On all Vessels entering or using the River, not liable for the above rates, and not trading with cargo liable for rates under Schedule H, per Register Ton,	Sixpence.
Provided that the last mentioned charge shall not extend to any Vessels the goods in which are exempted from rates by this Act.	
On all Vessels entering or using the Trustees' Basin at Bowling, having previously been regularly trading on the River, per Register Ton per Week,	One Halfpenny.
On all other Vessels entering or using the said Basin, per Register Ton per Week,	Twopence.
Vessels proceeding empty for a cargo, or returning empty having discharged a cargo to or from any place beyond the limits of the Harbour, shall not be liable to pay any rates for the empty trip.	
Vessels passing to or from any place on the River Clyde above Hutchesontown Bridge, through that portion of the River which is embraced within the limits of the Harbour, shall not be liable for any of the	

rates specified in this Schedule, unless they shall use any of the said Docks or Tidal Basins, or any of the Quays or other works constructed by the Trustees on the banks of the River, within the limits of the Harbour, or unless they shall take in or discharge their cargo or any part thereof within the said limits, or shall remain therein longer than may be necessary for passing through the same.

**SCHEDULE H.—1. Rates on Goods conveyed upon, or shipped or unshipped, in the River, or at the Harbour or using any Transit Shed or Warehouse.**

Goods in Vessels to or from any place out of the United Kingdom of Great Britain and Ireland are liable for the Rates in the First Column; and Goods in Vessels to or from any place within the United Kingdom of Great Britain and Ireland, are liable for the Rates in the Second Column.

Goods brought to Glasgow for transhipment pay only the rate one way, either inwards or outwards, in the option of the Trustees; previous notice being given at the Tonnage Office before the Goods are discharged or loaded.

# BRITANNIA

## LIFE ASSURANCE COMPANY,

No. 1 PRINCES STREET, BANK, LONDON.

ESTABLISHED AUGUST 1, 1837.

EMPOWERED UNDER A SPECIAL ACT OF PARLIAMENT.

CAPITAL, ONE MILLION STERLING.

GREAT ADVANTAGES OF THIS INSTITUTION.

**T**HE Rates of Premiums are on the *lowest Scale consistent with stability, and so varied as to accommodate the views of every class of insurers.*

This Institution is empowered under special Act of Parliament, and so constituted as to afford the benefits of Life Assurance in their fullest extent to Policy Holders, and to present greater facilities and accommodation than can be obtained in any similar Establishment. Increasing and decreasing Rates of Premium on a new and remarkable plan have been constructed, peculiarly advantageous for securing loans or debts. By the former mode, a less immediate payment is required on a Policy than in any other Office, and the amount of future payment optional with the Assurer.

The following important improvements on the ordinary system of Life Assurance have been adopted by the Britannia Company, and are recommended to the particular attention of the public:—

*Age of the Assured in every case admitted in the Policy.*

*All claims payable in Three Months after proof of death, while other Offices take Six Months to consider this momentous question.*

*Medical Attendants remunerated by the Company in all cases for their reports, by which an important saving is effected to parties insuring.*

*No charge made for Policies or Admission Fees.*

*Policies revived within Twelve Months after expiration, on evidence of unimpaired health, without payment of the FINE demanded by other Offices.*

*Premiums may be paid Half-Yearly or Quarterly, and payments may be made to terminate after five, ten, or any other number of years required.*

*A Board of Directors in attendance Daily at two o'clock.*

*Thirty days allowed for Renewal of Policies. And in case any person Assured shall die within the said space of Thirty Days, and the party holding Policy from the Company, or his representatives, or any other person on his or their behalf, the Policy will be as valid and effectual as if the Premium had been paid when due, and in the lifetime of the person Assured.*

*The business of the Company in Scotland is so constituted as to confer all the benefits of purely Scotch Offices, and may sue or be sued in the Scotch Courts, and does not require Probates, or Letters of Administration, on the lapsing of Policies.*

*Parties Insuring with this Company can deduct the Annual Premiums on their own and their wives' lives from the amount assessed upon for Income Tax.*

*Ladies and others, to whom it may be inconvenient to attend at the Office, visited by one of the Medical Officers.*

*Assurances perfected on the same Day they are proposed.*

EXTRACT FROM NO. 1.

Table of Equal Rates of Premium, which may be paid to this Company in any way most suited to the convenience of parties insuring:—

Age of the Assured.	Annual Premium required by old Offices sharing profits for Policy of £100.	The ordinary rate of the old Offices not sharing profits.	Reduced Premium of the Britannia Company.	Saving per Cent. by insuring in the Britannia Company, equal to an immediate Bonus of 25 to 30 per Cent.
	£ s. d.	£ s. d.	£ s. d.	£ s. d.
20	2 3 7	1 18 6	1 12 5	0 11 2
25	2 8 1	2 9 0	1 16 0	0 12 1
30	2 13 5	2 4 6	2 0 8	0 12 9
35	2 19 10	2 16 1	2 6 9	0 13 1
40	3 7 11	3 6 0	2 15 1	0 14 0

This table exhibits at a glance a very important saving to the Insurer, fully adequate to insure AT ONCE

one-third more principal sum than can be secured for the same Premium in Offices sharing Profits to be realised, and in which it should be borne in mind, that should the life drop prematurely, no Bonus would have accrued; consequently the whole extra Premiums charged above the Britannia Company's rate would have been sacrificed, without yielding any commensurate advantage to the Insurer.

The BRITANNIA COMPANY prefer giving a direct and immediate advantage to the public by a fair reduction of rates, rather than inviting those to become partners who can have neither leisure nor inclination to understand or investigate their own rights. *These advantages may be observed in the following scale, where the absolute saving to insurers in the Britannia Company is made to appear, supposing the sum to be insured One Thousand Pounds at any of the following ages:—*

Age of the Assured.	The Annual Premium on £1000 in Offices dividing profits.	Sum Assured in the Britannia Office for the same Premium.	Certain and immediate Bonus secured in the Britannia Company on a Policy of £1000.

\* \* \* This table, as will be obvious from the following illustrations, presents New and Important features in Life Assurance. (Vide the Company's Prospectus, which may be had gratis on application, either personally or by letter, to the Company's Agent, as under.)

By this plan of Insurance the public are vastly inconvenienced, increased facilities afforded, and every possible contingency or disappointment anticipated for the protection of the Assurer, with less immediate payment for the first five years than in any other Office, and the amount of subsequent payments left optional with the Insurer, an important advantage not given to the Policy Holders of any other Company.

If the Life assured drops within the first period of five years, the sum he receives is almost equal to a gratuity. If in the second, he derives still a considerable benefit; and if he should live even to the last period, he has, notwithstanding, made his Assurance on advantageous terms. Again, if the Assurer should become unable to advance his Premium, or that it is inconvenient for him to do so, he drops into the alternate scale—namely, a proportionate reduction of the sum assured, whilst it is only fair to remind him, that in other Companies adopting the increasing Rates of Premium, no such alternative exists. The insurers with Offices adopting that principle, are called upon without any excuse or consideration of circumstances, to advance their Premiums AFTER THE FIRST FIVE YEARS (when all accommodation has ceased), whether they are able to do so or not, otherwise their policies are forfeited, and all their previous payments lost to them for ever. The rate of reduction in the sum assured after the first five years, should the premium be not advanced, will appear by the following abstract, taking the sum assured at £1000, the whole amount insured being payable by this Company, should death previously occur, without any deduction whatever:—

If the Insurer dies after the first period of five years, without increasing his premium, it will be reduced one-eighth to.....£875, principal sum.  
 If he shall die after the second period of five years, without increasing his premium, it will be reduced one-fourth to.....£750, ditto.  
 If he shall die after the third period of five years, without increasing his premium, it will be reduced three-eighths to.....£625, ditto.  
 And if he shall die after the fourth period of five years, without increasing his premium, it will be reduced to.....£500, ditto.  
 After this period, no further reduction can be made on the amount assured.

\* \* \* This Company assures the Lives of Officers and others travelling to, or residing in, any part of the world.

Emigrants to Australia and the Colonies may effect Insurances on their Lives at the lowest current rates, and every contingency affecting human life negotiated on equitable principles.

*The progressively increasing patronage enjoyed by the Britannia Company during the past years (no doubt induced by the many important advantages it affords), renders it an imperative duty on the undersigned thus publicly to express his sincere acknowledgments to the public; and in soliciting a continuance of the same favours, he most respectfully begs to direct attention to the fact that, during the past year the number of Policies issued have not been exceeded by any Life Office in the Kingdom.*

*\*\* Medical Officers (who are in constant communication with the Agent as under) have been appointed in the principal Towns throughout the Kingdom, with the view of affording the utmost expedition to parties effecting Insurances, and to obviate the inconvenience of personal appearance at the Office.*

The uniform promptitude and liberality observed in the adjustment of all claims on this Company, the extreme attention and expedition in effecting Insurances, guided by equitable and honourable principles, with the lowest and most accommodating rates of premium that stability can admit of, have deservedly obtained for this Institution such a decided preference over its numerous competitors.

Proposal Forms for effecting Insurances, Prospectuses detailing the many advantages of the Company, with every information respecting the Rates of Premium for Home and Foreign Insurances, Survivorships, Joint Lives, and every other contingency affecting human life, may be had on application to

## LIFE INSURANCES.

**T**HIS Company offers to the Public, besides the security of an ample paid up Capital, and Accumulated Fund of One Million and a Half Sterling, with an Annual Income of £200,000 from the Life Branch alone, a Bonus of 80 per cent., or Four-fifths of the Profits to the Assured for £100 and upwards, every successive period of Five Years, *without responsibility of partnership.*

The share of Profits allotted to each Policy may be added to the sum insured, and payable at the death of the Life—or its present value in cash may be received—or an equivalent reduction of the future Annual Premium obtained; at the option of the assured.

At last DIVISION,—Christmas, 1857,—the REVERSIONARY BONUS declared upon the Policies participating in Four-fifths of the Profits, ranged BETWEEN TWENTY-SEVEN AND SEVENTY-THREE PER CENT., according to age, upon the Premiums paid during the preceding Five Years.

Assurances effected at lower rates without participation.

Advances made on the security of Policies of adequate value. Reversions purchased, and Annuities granted.

### "DAYS OF GRACE."

By the conditions upon the Policies of this Company, and invariably acted upon for upwards of Fifty Years, the period for payment of Premiums is not only extended to the days of grace, without forfeiture of the Policies, but the sums insured are recoverable, the same as if the claim had arisen at any time previously.

**T**HE Public are reminded of the advantages which this Company offers to Assurers, some of which are subjoined:—

- FIRST.** Undoubted Security from a large accumulated fund, besides the Subscribed Capital.
- SECOND.** The Premiums under the Non-Participating Table enable a party aged 30 to open a Policy for £1244. 9s. 9d. payable at death, for the same premium that the Mutual Societies insure £1000, thus giving an immediate Bonus of £244. 9s. 9d.
- THIRD.** The Participating Premiums give the Assured a right to participate in the Profits to the extent of about 84 per cent.
- FOURTH.** No charge is made for the Policy Stamps.
- FIFTH.** Parties insuring with this Company can deduct the Annual Premiums on their own and their Wives' Lives, from the Amount Assessed upon for Income Tax.
- SIXTH.** No extra Premium is charged for residence in Australia, Van Diemen's Land, Cape of Good Hope, or America, north of 38 degrees North Latitude.
- SEVENTH.** Parties on application, in terms of printed Forms to be had at the Office, may have their Policies declared indisputable after the lapse of five years from their date.
- EIGHTH.** Liberty granted to the Assured, after five years from the date of their Policies, on application, in terms of the above, to reside beyond the limits of Europe without extra charge.
- NINTH.** No Entry-Money.

THE DIRECTORS INVITE PARTICULAR ATTENTION TO THE LIBERAL TERMS AND CONDITIONS OF ASSURANCE INTRODUCED BY THIS COMPANY INTO THE PRACTICE OF LIFE ASSURANCE.

## SELECT ASSURANCES.

The privileges of this class are—Permission to travel and reside in any part of the world, *free of extra premium*; and the cancellation of all conditions under the Company's Policies, which thus become unchallengeable on any ground whatever except non-payment of the ordinary premium.

Assurances of five years' standing are admissible to this class.

## RENEWAL PREMIUMS AND DAYS OF GRACE.

Under these regulations, Policies of Five Years' standing, with certain exceptions mentioned in the Company's Prospectus, cannot be forfeited unless the annual Renewal Premium remains unpaid for 13 months. Thirty days is the regular period allowed for payment, but should the 30 days have been exceeded, the arrears can be paid at any time within 13 months from the date when the Premium fell due, on payment of a fine, without a medical certificate. Should death have taken place within the 30 days, or 13 months, before renewal of the risk, the Company hold themselves liable, the arrears and fines (if any) being deducted at settlement. After the expiry of the 13 months the Policy is forfeited, but the surrender value is held at the disposal of the parties interested for five years from the regular date of renewal. The privileges of renewal under Policies which have not been in force five years are very liberal.

## SURRENDER VALUES.

The Directors allow value for the surrender of Assurances under the Profit Scheme, at any time after payment of one annual premium.

**LOANS.**

## **DIVISION OF PROFITS.**

**Excerpt—Remarks made by PETER HARDY, Esq., Actuary, at Annual Meeting, held 18th May, 1857.**

He (Mr. Hardy) assured the Meeting that, during his experience of twenty-eight years, he had met with nothing in the history of Life Offices comparable to the success of that Institution. When he saw that the working expenses were only  $7\frac{1}{2}$  per cent., while some other Institutions were very much higher, he would venture to predict that the UNITED KINGDOM PROVIDENT INSTITUTION would become one of the most flourishing Offices in the Kingdom.

The uniform promptitude observed by this Institution in the settlement of claims, it being the desire of the Directors to relieve parties from unnecessary trouble or delay, together with the moderate and safe rate of premiums, and the steadily increasing business of the Society, offer to intending Assurers every advantage that Life Assurance is capable of affording.

During the last two years nearly Five Thousand New Members have joined the Society.

N.B.—The Temperance and Public Sections are kept in separate classes, and will each receive their own profits.

## FIRE BRANCH.

THE FIRE DEPARTMENT has a clear available Capital of £80,000, over and above its large Annual Revenue of £45,000.

INSURANCES against FIRE are received upon nearly all descriptions of Property in the United Kingdom, and in Foreign Countries, more particularly in the Colonies, India, China, United States, the Continent of Europe, South America, and Australia. The Association offers peculiar advantages in this branch of Fire Insurance, from its moderate rates, experience, and the co-operation of its numerous Foreign Agents.

The Rates of Premium in this Department will be generally as moderate as those of other responsible Companies.

## LIFE BRANCH.

The LIFE DEPARTMENT has an Insurance Reserve of £65,000, in addition to its Annual Revenue of £25,000.

This Association possesses all the elements required to develop the benefits of Life Assurance, and to extend its advantages to Assurers; and every practicable accommodation that can be honourably and safely carried out by Assurance Companies is afforded to Assurers in this Office.

Thirty days' grace allowed for payment of Annual Premiums, and fifteen days for Half-yearly Premiums. In the event of a death happening, within the days of grace, the Claim will be paid if the Premiums be tendered before they expire.

Travelling to, and residence in, any part of Europe allowed without any additional charge, and the extra Premium charged for Voyage to, and residence in, any Foreign Country, or for active Naval and Military Service, or any other special risk, are fixed on a moderate basis.

The SCOTCH BUSINESS having been centralized under Local Managers of experience, in the West and East of Scotland, Assurers are thereby secured all the advantages of a Local Office.

Notices of Assignment received and registered at the Company's Branch Offices in Glasgow, Edinburgh, and Dublin.

Claims are paid either in London, Glasgow, Edinburgh, or Dublin, and either on English, Scotch, or Irish Titles; and parties assuring with the Company in Scotland or Ireland secure all the benefits that can be obtained in a Scotch or Irish Office.

*Medical Officer*—DR. ANDREW ANDERSON.

THE Premiums, at early and middle ages, are about a fourth lower than in the other Mutual or Participating Offices. They are as low as the *Non-Participating* rates of the Proprietary Companies, which they admit of being, not only with safety, but with ample reversion of Profits to the Policy-holders—being free from the burden of Dividends to Shareholders.

#### EXAMPLES OF ANNUAL PREMIUM TO ASSURE £100 AT DEATH.

Age—25	30	35	40	45	50
£ s. d. 1 18 0	£ s. d. 2 1 6	£ s. d. 2 6 10	£ s. d. 2 14 9	£ s. d. 3 5 9	£ s. d. 4 1 7

Thus, a person of 30 may secure £1000 at death for a yearly payment of £20. 15s., which, if paid to any of the other Mutual Offices, would secure a Policy for £800 only, instead of £1000.

The arrangement by which the Premiums are reduced to a rate commensurate with the risk, is obviously more suited for securing a competent family provision, in case of early death, than that which, by the same yearly outlay, secures a much smaller present sum, with the hope only of prospective and contingent additions.

#### PROFITS.

The principle on which the profits are divided is at once safe, equitable, and favourable to good lives—the Surplus being reserved for those members who alone can have made surplus payments; in other words, for those whose Premiums, with accumulated interest, amount to the sums in their Policies.

The practical working of the system has been that, at the First Division of Surplus, Bonus Additions were made to the policies which had come within the Participating Class,

#### VARYING FROM 20 TO 54 PER CENT. ON THEIR AMOUNT.

In all points of practice—as in provision for the indefeasibility of Policies, facility of license for travelling or residence abroad, and of obtaining advances on the value of the Policies—the regulations of the Society, as well as the administration, are as liberal as is consistent with right principle.

Reports explanatory of the principles, with every information, may be had on application at the Head Office; or at the

**THE SCOTTISH UNION INSURANCE COMPANY** was instituted in 1824, and is Incorporated by Royal Charter, and Empowered by Act of Parliament. It is composed of a very numerous, wealthy, and influential body of Proprietors, and affords the most unquestionable security to the Public from the magnitude of its Capital—a large proportion of which is invested in Government and real securities.

## FIRE DEPARTMENT.

FOR INSURING PROPERTY AGAINST LOSS OR DAMAGE BY FIRE.

PROPERTY of almost every description may be secured against accidents arising from FIRE, by the Payment of a small Annual Premium; and Risks involving more than ordinary hazard are moderately rated.

All Losses, when satisfactorily ascertained, are IMMEDIATELY PAID; and the Directors of this Incorporation confidently refer to the liberality and promptitude which have hitherto marked their settlement of claims.

*The Progressive Increase of the Company's Fire business is shown in the following Table of the Duties paid to Government, and of the Sums Insured on Farming Stock (Free of Duty) for the years undermentioned:—*

Year.	Amount of Duty Collected, 3s. per £100.	Sum Insured on Farming Stock.
1846	£17,683	£857,194
1849	22,291	1,124,482
1852	24,473	1,373,282
1855	26,040	1,572,240
1858	28,615	1,701,385

## INSURANCES OF FARMING STOCK.

FARMING STOCK, which includes Hay and all sorts of Corn and other Grain, Implements of Husbandry, and Live Stock, may be insured with this Company, against LOSS by FIRE or LIGHTNING, without any average Clause, for a year or for any shorter period.

*Losses caused by Lightning to Farming Stock are Paid; and no Government Duty is chargeable on the Insurance of Farming Stock.*

AMOUNT INSURED BY SCOTTISH UNION INSURANCE COMPANY ON FARMING STOCK FOR YEAR ENDING CHRISTMAS, 1858, £1,701,385.

Copies of Prospectus, and all other information, may be obtained on application at the Head Office of the Company, 47 GEORGE STREET, EDINBURGH, or at any of the Company's Agents.

## LIFE DEPARTMENT.

### BONUSES

Have been declared in 1841, 1846, 1851, and 1856. At the last investigation in 1856—

*A Reversionary Bonus was allocated upon those Policies entitled to participate, in proportion to the Premium paid during the five preceding years, varying from One to One and a Half per cent. per annum on the sums assured, according to age and duration of the Policy.*

The following examples are taken from the Company's Books:—

No. of Policy.	Issued in	Sum Assured.	Total Additions as at 1st Aug. 1856.	Total sum payable.
812	1834	£4000	£1236 8 4	£5236 8 4
1060	1835	5000	1404 11 11	6404 11 11
1190	1835	8000	886 14 9	3886 14 9
1368	1836	5000	1290 2 10	6290 2 10
1650	1837	2500	603 6 9	3103 6 9
2164	1840	5000	1147 12 3	6147 12 3

The Reversionary Bonus may be applied, at the option of the Assured, in any of the following ways:—

1. *It may be added to the Sum Assured; or*
2. *Applied in Reduction of Future Premiums; or*
3. *Surrendered for its present value in Cash.*

The next Division of Profits will take place in 1861.

## NON-PARTICIPATING POLICIES.

The low Rates charged in the Non-Participating Class are peculiarly well adapted for Loan Transactions; also, where the object is to assure a specific Sum payable at death, at the lowest rate of Premium compatible with Security.

NO CHARGE FOR POLICY STAMPS OR MEDICAL FEES.

**T**HE Rates of Premium are those adopted by the Principal Life Offices; the Rate without bonus is lower than that of most other Offices.

The Bonuses are added to the Policies, or applied to the reduction of Premiums.

Policies issued by this Office are purchased at their full value; or Loans may be obtained upon them after they have been in existence for five years.

If a party neglect to pay for the renewal of his Policy, he may repair the omission any time within twelve months, upon proof of good health.

The Profits (subject to a trifling reduction) are divided among the Insured. The plan upon which they are divided gives to each party insured a share proportionate to the amount of the Premiums he has contributed.

*The following extract from the LIST of CLAIMS paid by the "PROVIDENT," is published with the sanction of the parties interested in the policies, some of whom have accompanied their acknowledgment of the unexpected advantages with an earnest desire that the widest circulation may be given to the publication:—*

**SPECIAL CONDITIONS.****CLASS A.  
RESIDENCE.**

*Persons Assured in this class have permission to reside—*

In any part of Europe.

In BRITISH NORTH AMERICA.

In any part of the UNITED STATES of NORTH AMERICA, to the northward of the southern boundaries of the STATES of VIRGINIA and KENTUCKY, eastward of 100° of west longitude; and from 30th November to 1st June, persons may travel or reside in any part of the United States and Territories as organized in 1847. Residence to the southward and westward of the above limits charged at an increased rate, according to circumstances.

In the MAURITIUS.

In AFRICA (Cape Colony), to the southward of 30° of south latitude.

In AUSTRALIA (including NEW ZEALAND), to the southward of 30° of south latitude. The northward of that limit charged at an increased rate, according to circumstances.

**VOYAGES.**

*Persons Assured in this Class have permission to pass—*

From any part of EUROPE to another, without extra charge.

From any part of NORTH AMERICA to another, within the limits before specified, without extra charge.

From any EUROPEAN Port to any NORTH AMERICAN Port within the above limits, without extra charge.

From any EUROPEAN Port to the CAPE OF GOOD HOPE or MAURITIUS, without extra charge.

From any EUROPEAN or NORTH AMERICAN Port within the above limits, to AUSTRALIA or NEW ZEALAND, at £1 per cent. each voyage.

*PERSONS Assured in this Class may proceed to those parts of the world embraced by any other Class, paying the corresponding Premium, in terms of General Regulations and Conditions, for which, see large pamphlet*

**The Directors of the COLONIAL LIFE ASSURANCE COMPANY request attention to the following particulars:—**

**Home Insurances** effected on most liberal terms.

From the name of the Company it might be inferred that the COLONIAL do not grant Assurances on the lives of persons resident in the United Kingdom, but the Directors wish it to be known, that they do transact such business, and they are satisfied they can hold out advantages to assurers which purely Home Offices cannot confer.

**Home Rates** of Premium charged for British North America, the Cape, Mauritius, Australia, and part of the United States.

**Foreign Insurances** at all times negotiated,—also

Persons who have no present intention of proceeding abroad, but whose business or pleasure may at some future period induce them to travel, have, by assuring with the COLONIAL, the advantage of knowing exactly beforehand the additional rate, if any, that would be charged for such increased risk, the Company's rates for Foreign residence being published and referred to in their Policies. Assurers are thus protected against an arbitrary charge, to which they are exposed under the ordinary Policies issued by other Life Assurance Offices.

**Military, Naval, Mercantile, Marine, and Whole-World Assurances** effected.

**Bonus** hitherto declared, £2 per cent. per annum.

*Next Investigation and Division of Profits will be made in 1859, and quinquennially thereafter.*

From the extensive field of business which the Company is cultivating, and from the great success which has attended its operations, the Directors look forward to large future Profits available to their Policy-holders; and they do not think they over-estimate the advantages of the Company, in stating that no Office affords so many facilities, and at the same time holds out the prospect of so much advantage to Assurers.

**Reduced and Moderate Rates.**

**Thirty days of Grace** allowed for Payment of Premiums.

In case any person Assured shall die within the said space of thirty days, and the party holding Policy from the Company, or his representatives, or any other person on his or their behalf, shall pay the Premium due thereon before the expiration of such thirty days, the Policy will be as valid and effectual as if the Premium had been paid when due, and in the lifetime of the person Assured.

**No Entry Money** or charge for Policy Stamps.

**Medical Fees** paid by the Company.

**Agencies and Local Boards** in every British Colony.

**Claims Paid** in Great Britain or in the Colonies.

**T**HE Company, established in 1823, has existed upwards of thirty-four years, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its branches, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company :—

**MUTUAL ASSURANCE**, without liability. See English Law Cases for Call on the Policy Holders in a Mutual Insurance Society for Debts of the Society.

The guarantee of a responsible body of Proprietors, either personally or otherwise, assured with the Office, affords the most undoubted security to all classes of Assurers, in addition to the accumulated and invested fund of the Company, now upwards of Three-fourths of a Million.

**NINE-TENTHS** of the WHOLE PROFITS Septennially divisible among the Assured, a larger proportion than can be divided with safety by any simple Mutual Assurance Society.

**AN INTERMEDIATE BONUS** paid on Policies becoming Claims between one Investigation and another.

All the advantages of an Annual division are thus given, without its attendant evils.

**THE MOST EQUITABLE PRINCIPLE OF DIVISION.**

The greatest benefits are thereby bestowed upon all *first-class lives*, by no undue Bonus being paid away to those *who may die early*.

**RATES OF PREMIUM EXTREMELY MODERATE.**—The non-participation scale very favourable for security on Loans, or for *partnership* Insurances.

The results of Four Bonus Declarations of the Company, are exhibited in the following examples :—

*Total Bonus Additions at 31st August, 1856, on Policies effected in the First Year of the Company's Business.*

19	500	46 15	43 4	57 0	74 5	221 4	721 4	44 4 10

Thus, at all ages from 19 to 60, on the earliest Policies the Accumulated Bonuses now range from upwards of £44 per cent. to upwards of £140 per cent. of the sums originally insured.

To later entrants the results are in proportion, equally satisfactory. No Entry-Money or other charge in effecting a Policy beyond the payment of the premium.

Bonuses may be surrendered for cash, or applied in reduction of the annual premiums. By this latter course, several of the oldest Policy holders have redeemed their premiums, with a bonus still attaching to the Policy, and *increasing*.

## NEW ADAPTATION OF THE BONUS SYSTEM.

### "SEVEN YEARS' HALF CREDIT ASSURANCE."

**B**Y the following new and peculiarly advantageous plan of Assurance, based upon the system of an ANNUAL DIVISION OF PROFITS, first adopted by the CITY OF GLASGOW LIFE ASSURANCE COMPANY, the assured are allowed Credit for Seven Years, for one-half of the Premium exigible at entry, and at the end of the Seven Years are enabled to keep up the Policy at a *very moderate and annually decreasing* rate of Premium, whilst the *sum in the Policy on the expiry of the term of credit is payable at death, free of all debt or claim upon it by the Company.*

#### EXTRACT FROM TABLE,

*Showing the Annual payments, including interest on arrears of Premiums, required during the first seven years for an assurance of £500, with right to profits; assuming that the company's rate of Bonus shall continue to be as hitherto, One and a Half per cent. per annum; the Table being constructed on the principle that at the end of the first seven years the cash value of bonus additions then accrued is applied towards extinction of the unpaid Premiums then due.*

Ditto. 1854-5.....	73,591	3	11	Ditto. 1857-8.....	103,979	7	3

### BUSINESS IN SCOTLAND.

1. Centralised in Glasgow under a Board of Proprietors.
2. Similar arrangements as in First-Class Scotch Offices.
3. Policies issued and made payable at the Company's Office in Glasgow.
4. No Probate or Letters of Administration required on lapsing of Policies.
5. Assignments received and Registered at the Company's Office in Glasgow.
6. A Large Amount of the Capital Stock is held in Scotland.

### ADVANTAGES.

**ECONOMY OF MANAGEMENT.**—The Expenses of Management of the Lancashire Insurance Company, are the least in proportion to the Income of any of the fifty-two Companies who have rendered their Accounts to the Registrar General, under the Joint Stock Companies' Act. (*See pamphlet by R. Christie, Esq., Scottish Equitable Office, Edinburgh.*)

The great extent of the FIRE BUSINESS of the Company enables the Directors so to apportion the expenses of management, as to charge the Life Department with its proper costs only, thus giving Assurers with THE LANCASHIRE INSURANCE COMPANY, all the *real* benefits offered by a *Mutual Office*, without any of its drawbacks.

**THE RATES OF PREMIUM** are extremely moderate, but calculated by an eminent and experienced Actuary, and are ample on First-class Lives to produce a **Large Bonus Fund**, which will be **Divisible** amongst the Assured, triennially.

**MEDICAL FEES.**—All Medical Fees and other Charges paid by the Company.

**STAMP DUTIES** not Charged, and Policies are issued *free of any expense whatever* beyond the Premium.

**MILITIA OR YEOMANRY CORPS.**—Policies will be issued to persons serving in the Militia, free of any additional charge.

**CREDIT SYSTEM.**—On Policies for the Whole of Life, on the participating principle, one-half of the Annual Premium, for the first five years, may remain on credit, and may either continue as a debt on the policy, or be paid off at the option of the Assured, thus enabling parties with an increasing Income to make at once an adequate provision for their families.

**One-Third** of the Premium may remain at interest unpaid **until Death**, thus affording the opportunity to Insurers of effecting a Policy for **£1500 at the Premium otherwise required for £1000.**

**BONUSES.**—Four-fifths of the profits will be appropriated to Policies at the end of every three years, which may be applied as the assured may direct, in any of the following ways, viz.:—

By immediate payment of the present value of the sum so appropriated.

By an equivalent reduction in the future annual payments.

By an equivalent addition to the amount of the Policy.

By a new Policy, free from Premiums.

## LIFE BONUS DECLARED AT THE ANNUAL MEETING OF THE SHAREHOLDERS, HELD 14th OCTOBER, 1857,

*It was resolved:—*

“That a Reversionary Bonus equal to **£2.2s.6d.** per cent. per annum on the Sums Assured be and is hereby declared on all Life Policies on the Participating scale in force on the 20th July, 1857.”

The DIRECTORS request the attention of the Assured and the Public to the **Solid Advantages** offered by the LANCASHIRE INSURANCE COMPANY, as evidenced by their being enabled to declare the above **Large Bonus** out of **Actual Profit**, without anticipating the value of future Premiums.

### SECURITY.

The large Capital of £2,000,000, of which One Million Four Hundred and Forty-eight Thousand Four Hundred Pounds are actually subscribed, by a highly respectable and influential Proprietary, affords undoubted security for the fulfilment of all the Company's engagements.

## FIRE DEPARTMENT.

BONUSES EQUAL TO FIFTY PER CENT. OF THE PROFITS.

**ANNUAL RETURN BONUSES.**—The Constitution of this Company enables the Directors to devote Fifty per Cent. of the Fire Profits to form a Bonus Fund, which is divisible amongst the Insured annually, on Policies of three years' standing, which have not been the subject of claim.

**POLICIES FOR SEVEN YEARS** will be issued at a charge for Six Years only.

**LIGHTNING.**—Losses by Fire occasioned by Lightning will be paid.

**EXPLOSION BY GAS.**—Losses occasioned by Explosion of Gas taking place in Buildings insured by this Company will be paid.

**LOSSES.**—The Company consider it an important part of their Engagement to settle Losses, in both Life and Fire Departments, promptly and liberally.

Special Risks taken at the lowest rates commensurate with the risk.

**INSURANCES** requiring to be effected or renewed, incur no extra expense by being brought to this Company.

### ATTENDANCE DAILY FROM 10 TILL 4.

Prospectuses, Mercantile Rates, Forms of Proposal, and all other information, will be afforded at the Offices and Agencies of the Company.

CHARLES STEWART,

GLASGOW, March, 1859.

*Resident Secretary.*

**SPECIAL NOTICE.**—The next Bonus division will be made in 1860, and all proposals lodged on or before the 20th July next, will have a year's advantage over delayed proposals.

BANKERS.—THE ROYAL BANK OF SCOTLAND.

## LIFE DEPARTMENT.

THE arrangements of this Office are based on principles that have been verified by experience. The rates for assurance of fixed sums are very moderate.

Extra Premiums for foreign residence have been dispensed with to such extent, that a large proportion of the assured, who may go abroad, will be free from any charge on that account, excepting for sea risk and a very important rule has been adopted to protect the interests of parties holding Policies on the lives of others, who may incur extra risks without the knowledge of the holders.

For surrender of Policies of the ordinary class, after three years' endurance, a liberal return of Premiums, according to a fixed rule, is *guaranteed*, besides the value of vested Bonuses where such have been declared.

According to the constitution of the Company, Investigations must be made at intervals not exceeding five years. The last investigation took place at 31st January, 1857, when Bonuses were added to all Assurances of the Participation Class; and the following results of this and previous declarations may be stated.

1. A Policy for £1000 on which seven years' premiums have been paid is now increased to £1095 9 4
2. A Policy for £1000 on which twelve years' premiums have been paid is now increased to £1163 18 8
3. A Policy for £1000 on which seventeen years' premiums have been paid is now increased to £1234 18 2

Prospectuses, with every information, and forms of proposal may be obtained at any of the Offices or Agencies of the Company.

## FIRE INSURANCES.

Among the many Advantages Offered by this Company may be enumerated the following :—

- I. THE SECURITY AFFORDED by a Capital of ONE MILLION FIVE HUNDRED THOUSAND POUNDS, and the solidity resulting from an experience extending over THIRTY-THREE YEARS, during which period upwards of £350,000 have been paid in satisfaction of claims.
- II. MODERATE RATES OF PREMIUMS, which will bear comparison with those of any other Company, and graduated in such a way that no one Assurer is favoured at the expense of another.
- III. PROMPT SETTLEMENT OF CLAIMS, and general liberality in all transactions with the public.
- IV. AN EQUITABLE SYSTEM OF BONUS Distribution among Participating Life Policy-Holders, each Assurer being entitled to his share of two-thirds of the Profits, *in the proportion he has contributed to the Fund.*
- V. NO CHARGE MADE FOR ENTRANCE MONEY, Medical Fees, or Policy Stamp.
- VI. POLICIES PAYABLE AT 63 or previous death, and one-half of first Seven Premiums allowed to remain unpaid, at 5 per cent. interest, till the Policies become Claims.  
EXAMPLE.—The First Annual Payment (including interest) for a £500 Policy, taken out by a person aged 25, is only £6. 4s. 3d.
- VII. LOANS ADVANCED on approved security, in conjunction with Life Policies.
- VIII. POLICIES BECOMING CLAIMS during the *days of grace* will be at once admitted, provided the premium is duly paid within the specified time.
- IX. THE BUSINESS IN SCOTLAND (centred under a Board of Resident Directors) is so constituted as to confer all the benefits of purely Scotch Offices. The Company may sue or be sued in the Scotch Courts, and does not require probates or letters of administration on the lapsing of Life Policies.

**FIRE RISKS** undertaken at moderate rates of Premium, and Policies transferred from other Companies free of charge. This Company holds itself liable for damage done by Explosion of Gas within the Building Insured.

## AND LIFE ASSURANCE SOCIETY.

FOUNDED A.D. 1815.

**R**EALISED AND INVESTED CAPITAL, *arising solely from the Accumulation of Premiums*, upwards of  
**THREE MILLIONS STERLING;**  
 ANNUAL REVENUE more than  
**FOUR HUNDRED THOUSAND POUNDS.**

THE NEXT PERIODICAL INVESTIGATION and DIVISION of PROFITS takes place as at 31st DECEMBER, 1859, and all Participating Policies effected during the current year will then rank as Assurances of *One Year's Standing*.

The PROFITS are allocated amongst the members in proportion to the sums insured and the endurance of the Policies, and may either be allowed to remain as an addition to the original Assurance; or, if there is no legal obstacle in the way, they may be surrendered to the Society for their immediate Cash value, or they may be applied towards reduction of the future premiums.

On all Participating Policies which may become claims during the current year, and after payment of the premiums, the following additions, by way of Bonus would be paid:—

To a Policy opened in any of the years from 1815 to 1819 inclusive, a Bonus of £1279. 17s. 10d., in addition to each £1000 insured.

To a Policy opened in the year 1830, a Bonus of £686. 12s. 7d., in addition to each £1000 insured.

To a Policy opened in the year 1840, a Bonus of £411. 4s. 2d., in addition to each £1000 insured.

To a Policy opened in the year 1850, a Bonus of £181. 8s. 8d., in addition to each £1000 insured.

Practical examples of the application of the profits, with Forms of Proposal and all necessary information regarding the Society, may be had at the HEAD OFFICE, 5 ST. ANDREW SQUARE, EDINBURGH; or at any of the Agencies throughout the Kingdom.

95 GEORGE STREET, EDINBURGH.

### LIFE DEPARTMENT.

THE ALLIANCE COMPANY, Instituted 1824, and Established by Act of Parliament, offers the most important advantages in the Life Department.

FIRST.....Perfect security from a subscribed capital, and a large accumulated Life Fund.

SECOND....Moderate rates of Premium, especially for the younger ages.

THIRD.....A large share in the Profits, FOUR-FIFTHS, or EIGHTY PER CENT. of the Declared Profits divided quinquennially among those entitled to Participation.

FOURTH...Polices without Participation in Profits, issued at very reduced rates of Premium.

### FIRE DEPARTMENT.

THE INSURANCE COMPANY OF SCOTLAND, Instituted in 1821, and Incorporated by Royal Charter, was united with the Alliance Office in 1847.

The Directors would invite special attention to the perfect security offered to the Insured, to the rates of Premium which are regulated by the character of each risk, and to their immediate and liberal settlement of losses when the claim is adjusted.

By Order of the Board,

D. MACLAGAN, Manager at Edinburgh.

## LIFE DEPARTMENT.

**T**HE NORTH BRITISH INSURANCE COMPANY, as a Life Office, was established in 1823. The principles on which it was founded, and on which it continues to act, combine the system of **MUTUAL INSURANCE** with the safety of a large **PROTECTING CAPITAL**, and thus afford all the facilities and advantages which can prudently be offered by any Life Assurance Office.

The subscribed Capital is **ONE MILLION**. The accumulated Fund invested to meet its obligations, amounted in 1858, to **£984,000**.

In virtue of the Guarantee afforded by this Capital, the Company can adopt rates lower than what are practicable by a purely Mutual office; while, in virtue of the principle of giving the insured, *in their option*, a right to a share in the Profits, they derive the same, or even a greater benefit, than if they actually belonged to a Mutual office.

The Premiums are regulated on these two principles—either a party may pay a higher rate, and secure the benefit of a share in the Profits, or he may adopt a lower rate, while he has absolute security for the payment of the amount in his Policy.

**DIVISION OF PROFITS.**—The Profits are ascertained and allocated *every Seven Years*.

The share of the Profits allotted to those insured with Profits is *Nine-tenths*; or, *in other words*, the whole of the Profits arising from the Life Business, after setting aside one-tenth for the Guarantee, are divided among the assured.

Previous Bonuses are added to the sums assured, and are thus entitled to participate in future Divisions.

**EXAMPLES OF THE MODE OF DIVISION.**—To show practically the working of the system in reference to the Division of Profits, the following examples may be cited:—

A Policy for £1000, opened in 1830, amounted at 1844, with previous additions, to... £1213 14 0

In 1851 this Policy was ranked for £1213. 14s., and received the addition of..... 106 4 0

Again, in 1858, it was ranked for £1319. 18s., and received an addition of..... 115 10 0

Thus making the amount of the Policy at December, 1858..... £1435 8 0

## PROSPECTIVE BONUS.

In order to obviate any disadvantage arising from the Periods of Division being so distant, the Company have adopted a rule by which a Prospective Bonus of one per cent. per annum is allowed on all Policies which may become claims previous to the next Investigation in 1865, thereby giving the Policy holders the benefit of an annual division without the corresponding hazard arising from the want of a proper average.

Thus the above Policy which on 31st December, 1858, amounted to..... £1435 8 0

If it became a Claim in 1859, after payment of the annual Premium, it would

receive a further addition of..... 14 7 0

and so on in every succeeding year, the amount payable being as under:—

1859.	1860.	1861.	1862.	1863.	1864.	1865.
£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.
1449 15 0	1464 2 1	1478 9 1	1492 16 2	1507 3 4	1521 10 4	1535 17 5

## APPLICATION OF BONUS.

BONUSES may be added to the sum assured, or commuted into a Cash payment, or applied in reduction of future Annual Premiums.

1. *Application to Sum Assured.*—By this method the sum assured, payable at death, is increased without any alteration in the Annual Premium paid to the office.

2. *Surrender of Bonus for Value in Cash.*—According to this method, if the person assured does not wish the sum in his policy increased, he may surrender the Bonus, and take its value in cash, that is, instead of the amount being paid with the Sum Assured at death, such a sum will be given as the Directors may consider equivalent to its present value.

3. *Application of Bonus to reduction of Annual Premiums.*—By this method a person, instead of increasing the sum in his policy, or receiving a Cash payment, may apply the Bonus so as to reduce the future Annual Premiums payable by him.

### UNCHALLENGEABLE ASSURANCES.

On proof of age, Policies are declared unchallengeable on any ground whatever, after the lapse of five years from their date, provided the Premiums stipulated by the Policy be duly paid.

On special application, parties may receive a license to travel or reside in any part of the world, free of extra Premium, without forfeiture of their Policy, thus making the Policies of the Company good marketable securities.

### GENERAL FACILITIES.

Premiums moderately rated at all ages, and the payments may be made Yearly, Half-Yearly, or Quarterly. **No Stamp-Duty, Entry-Money,** or other charge, and all Fees for Medical Reports paid by the Company. **One-half of the Premiums** may remain on credit for the first Five Years; or one-third, during the convenience of the Assured (interest being paid on the portion on credit), to be deducted eventually from the Policy on becoming a claim, or paid off at convenience, whilst the Company have no claim for the Arrears in the event of an Assurer wishing to discontinue his Policy; thus affording to parties desirous of effecting **SHORT TERM POLICIES**, the advantage of having a whole Life Insurance at a slightly increased outlay.

**No extra charge** for residence in British North America, the Cape, Australia, New Zealand, and parts of the United States; and no license required except for the voyage.

**Advances made on Policies** to the extent of the security they afford when the value amounts to £50 and upwards, and larger Loans are granted on approved Securities, heritable or personal.

**Liberal allowance** made for the surrender of Policies upon which three Annual Premiums have been paid when parties wish to discontinue them, either by payment in cash, or by granting a new Policy free of Premium for a sum proportionate to the Premium already made.

**Policies are valid** and effectual notwithstanding the death of the Assured within the Twenty-one Days of Grace and before payment of the Premium, the Premium due being deducted with interest from the Sum Assured at Settlement.

*The Life Department of the Company is entirely separate from that of the Fire, the Funds of the one not being in any way affected by the losses or profits of the other, except that the Accumulated Funds of the Fire office are liable to pay the obligations of the Life Department.*

### FIRE INSURANCE.

The Company Insure against **LOSS or DAMAGE** by **FIRE** all descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares, and Merchandise in the same; Ships in harbour or in dock, and Farming Stock of all descriptions, at the lowest rates of Premium corresponding to the risk.

The Rates of Annual Premium on the Three Ordinary Classes of Insurance are:—

**COMMON, 1s. 6d.; HAZARDOUS, 2s. 6d.; DOUBLY HAZARDOUS, 4s. 6d.**  
with certain exceptions.

Rents of Property Insured on the same terms as the Buildings.

Farm Stock and Crop Insured, without the average clause, at 5s. per cent. (free of Duty), and Loss and **DAMAGE** by **LIGHTNING** thereon made good.

*The Company makes itself responsible for Loss and Damage occasioned by Explosion of Gas, such Explosion taking place within Buildings on, or in, which this Company has Insurance.*

No charge is made for Policies when the Sum Insured amounts to £300; or for Transfers from other Offices.

**FIRE, LIFE, and MARINE ASSURANCES** may be effected with this Corporation on advantageous terms.

In the Life Department, Assurances are granted with Participation in Profits; or, at Lower Premiums, without such Participation.

The Reversionary Bonus on British Policies has averaged nearly 2 *per cent. per annum* on the sum assured, or 48 *per cent.* upon the Premiums paid.

Equivalent reductions have been made in the Premiums payable by persons who preferred that form of Bonus.

The future divisions of Profit will take place *every Five Years.*

Any sum not exceeding £15,000 may be insured on one Life.

This Corporation affords to the Assured

Liberal Participation in Profits,—with exemption from the liabilities of partnership.

A rate of Bonus equal to the average returns of Mutual Societies,—with the guarantee of a large invested Capital Stock.

The advantages of modern practice,—with the security of an office whose resources have been tested by the experience of nearly a CENTURY AND A HALF.

**SPECIAL NOTICE.**

IN CASE OF DEATH occurring during the Thirty Days allowed for payment of a Life Premium, and before such payment has been made, the Corporation hold themselves liable under the Policy, provided the Premium be subsequently paid on or before the thirtieth day from that upon which it became due.

THIS ASSOCIATION is composed of two distinct and separate branches:—the one comprising the business of LIFE ASSURANCE; the other, that of a BANK OF DEPOSIT for the Investment of Capital.

### ASSURANCE DEPARTMENT.

Assurances may be effected by parties on their own Lives, or by parties having a pecuniary interest therein, on the Lives of others.

MUTUAL ASSURANCE—Half Credit Rates of Premium.

OTHER IMPORTANT ADVANTAGES ENJOYED BY POLICY HOLDERS IN THIS INSTITUTION.

### BANK DEPARTMENT.

OBJECTS OF THE COMPANY.—This Company was established in 1844, for the purpose of opening to the public an easy and safe mode of Investment, with a high rate of Interest.

PLAN OF OPERATIONS.—The Bank of Deposit differs from ordinary Banks in the mode of employing Capital—money deposited with this Company being principally lent upon well secured Life Interests, Reversions in the Government Funds, or other property of undoubted value. This class of investment, yields, it is well known, the greatest amount of profit, with ample security. Loans made by the Company are collaterally secured by Policies of Assurance on the Lives of the Borrowers, or their nominees, effected at rates of premium which insure the validity of the Policies against every possible contingency, secure adequate profit to the Company, and provide for the expenses of management.

ORDINARY DEPOSIT ACCOUNTS.—Accounts may be opened with sums of any amount, and increased from time to time, at the convenience of Depositors. A Stock Voucher, signed by two Directors, is given for each sum deposited.

WITHDRAWAL OF ORDINARY DEPOSITS.—In order that the permanent and profitable investments in which the funds are employed may not be unnecessarily disturbed, power is reserved to require six months' notice of withdrawal. It being, however, one of the principal objects of the Institution to unite a popular system of investment with the greatest possible accommodation to the public, the Board have power to dispense with notice, and to allow parties, in cases of necessity, to withdraw the whole or any portion of their Deposits on Special Application.

RATE AND PAYMENT OF INTEREST.—The Interest, which has never been less than five per cent. per annum on Ordinary Deposits, is payable in JANUARY and JULY, on the amount standing in the name of the Depositor on the 30th of June and 31st of December, and for the convenience of parties residing at a distance, may be received at the Branch Offices, or remitted through Country Bankers.

SPECIAL DEPOSITS.—Deposits made by Special Arrangement for fixed periods can be withdrawn without notice.

exhibited in the following clause, and to which attention is respectfully directed:—

"In case of the inability of the Assured, from whatever causes, to continue the Premiums on an ordinary *Life Policy*, the Company would, in consideration of the amount received, after a period of three years from the date of the Assurance, issue a paid-up Policy for that amount, together with any Bonus that may have been added."

The Company also holds out to Assurers Rates of Premium *Lower* than almost any other Offices, and they have tables to meet any description of Assurance contingent on life, whether for *Terms of Years, Joint Lives, Survivorship, &c.*

THIRTY DAYS ARE ALLOWED FOR THE PAYMENT OF RENEWAL PREMIUMS; AND, IN THE EVENT OF THE LIFE ASSURED DYING DURING THE DAYS OF GRACE, THE SUM ASSURED WILL BE PAID AFTER DEDUCTION OF THE PREMIUM DUE.

### ANNUITY BRANCH.

*Immediate and Deferred Annuities* granted on most liberal terms.

*Annuities* granted on the JOINT LIVES OF HUSBAND AND WIFE, AND TO THE SURVIVOR OF THEM.

*Endowments* can be effected on the Lives of Children, payable at a certain age, with a *return of Premiums* in the event of death.

*FOREIGN RESIDENCE.*—The Additional Premiums fixed on a *moderate basis*. *Whole World Licenses* granted on *special terms*.

### FIRE DEPARTMENT.

This Company effects Insurances upon every description of Property, including Mill and Special risks, on the most favourable terms.

N.B.—The Directors in Glasgow will settle claims (without reference to England) in all cases in which persons and property within Scotland are Assured by the Company.

## THE OBJECT OF THE ART UNION OF GLASGOW

Is, briefly, to aid in extending amongst the community a knowledge of the FINE ARTS, by the purchase and dissemination amongst the Members of meritorious works.

A Subscription of **ONE GUINEA** constitutes Membership for **One Year**. The whole Subscriptions, after deducting the necessary expenses, are devoted to the purchase of PICTURES, DRAWINGS, SCULPTURES, ENGRAVINGS, and other WORKS OF ART. Each Member for the present year, for every Guinea subscribed, is entitled to the following privileges:—

- I.—To a Copy of the beautiful Engraving in Line, of "PUNCH," after the Painting by THOS. WEBSTER, Esq., R.A., Engraved by H. LEMON, Esq.
- II.—To one chance of obtaining, at the Annual General Meeting in 1859, for every Guinea subscribed, a PAINTING, or other Work of Art.

**NOTE.**—Subscribers for **MORE** than **ONE SHARE** have the following Privileges:—

- TWO SHARES.**—Two Chances for the Prizes; Two Prints of the Engraving for the year, or a Proof on India Paper.
- FIVE SHARES.**—Five Chances for the Prizes; Five Prints of the Engraving for the year, or a Proof before Letters.
- TEN SHARES.**—Ten Chances for the Prizes; Ten Prints of the Engraving for the Year, or an Artist Proof.

The Committee most respectfully, yet earnestly, solicits the kind co-operation of those Gentlemen who are already Members of the Society for the purpose of increasing the number of the Subscribers, and thus put the Society in a situation to advance still more the cause of Art in the United Kingdom than it has yet been able to do.

SUBSCRIPTIONS will be received at the Office of the Society, 20 ST. VINCENT PLACE, GLASGOW; by any of the Members of the Committee of Management; and by the Honorary Secretaries appointed throughout the Country.

# CONDIE'S PATENT STEAM HAMMER.

THE novelty and superior utility of this Invention consist in introducing the Steam into the Hammer-block, which is a massive moveable Steam Cylinder, composed of a quality of metal closely approaching in strength to malleable Iron. By this simple and compact arrangement, the liability to breakage of the Piston and Piston Rod, and abrasion of the Cylinder are obviated—these being the evils so much complained of in the Steam Hammer Patented by James Watt in 1784, and others constructed on the same principle under different names.

These Hammers are all made of first-class materials and workmanship, from 5 cwt. to 7 tons, suitable for Jobbing Forges, Puddling Forges, and the Smith's Shops of Engineers, Ship Builders, &c. The Subscriber directs special attention to the many improvements which long experience has enabled him to introduce into his Hammers by New Designs of Framing, combining freer access round the anvil with increased facilities to the workmen. Reduction of Steam Pressure required to 25 lbs. Substitution of "Equilibrium Balanced Valves" worked by hand only, instead of Self-acting Geering. Simple Design of Self-acting Geering when required for any special purpose. He also refers to the following Testimonials, and numerous similar ones received, as a guarantee that for economy in working they are superior to all others at present in use.

**JOHN CONDIE,**  
GOVAN BAR IRON WORKS,  
GLASGOW.

*From "THE PRACTICAL MECHANIC'S JOURNAL," August, 1857.*

"The failure or success of the 'Great Eastern' Steam Ship, will, to a certain extent, affect the continuance and increase in the size of wrought-iron forge work to be made for some time to come. All the unprecedentedly heavy shafts in this enormous ship, were forged under Mr. CONDIE'S Hammers, at a time, and under circumstances, when such heavy masses could not have been shaped elsewhere."

## TESTIMONIALS.

*From MESSRS. J. SCHULTZE & Co., Engineers, Oldenburg, Germany.*

JOHN CONDIE, Esq., Govan Iron Works, Glasgow.

DEAR SIR,—In reply to your inquiry concerning the 30 cwt. Steam Hammer we received from you in 1852, we have much pleasure in stating that the same has been constantly working since that time for five puddling furnaces, and making forgings for heavy machinery. It has never been out of order, or required any repairs. In one word, we consider your Hammer the most perfect machine of the kind that can be constructed.—Believe us, dear Sir, yours truly,

J. SCHULTZE & CO.

Varel, Oldenburg, 20th June, 1856.

*From H. W. HARMAN, Esq., C.E., Marine Engineer, Northfleet, Kent.*

JOHN CONDIE, Esq.

DEAR SIR,—I beg to state that both the 10 cwt. and 30 cwt. Patent Steam Hammers supplied to Mr Pitcher, and erected here, have given me every satisfaction. In a time of pressure they enabled us to execute an immense amount of work in a very short period, their excellence consisting in the simplicity of the details, and their consequent non-liability to derangement. In our case boys work them, and this, coupled with a minimum of wear and tear, insures us two most economical and efficient machines.—I am, dear Sir, very truly yours,

H. W. HARMAN, C.E.

Steam Factory, Northfleet Dockyard,  
Kent, 21st August, 1856.

*From MESSRS. VAN HEEL & HOLTZMAN, Cyclops Forge, Amsterdam.*

JOHN CONDIE, Esq., Glasgow.

DEAR SIR,—We feel great pleasure in adding our testimony, to the many others you have received, as to the superiority of your Patent Steam Hammer. The 50 cwt. Hammer you supplied us with about two years ago has been at work every day since its erection, without causing us the slightest delay. Your 5 ton Hammer will be erected this summer.—We remain, dear Sir, yours truly,

VAN HEEL & HOLTZMAN.

Cyclops Forge,  
Amsterdam, 4th February, 1858.

*From GEORGE BLAXLAND, Esq., H.M. Dockyard, Sheerness.*

JOHN CONDIE, Esq., Govan Iron Works, Glasgow.

DEAR SIR,—In reply to your inquiry, the 50 cwt. Steam Hammer supplied and erected by you twelve months ago, has given most entire satisfaction, without any derangement of the parts. The foreman of the Engine Smithery Department having had many years' experience with Steam Hammers, affirms that yours is the most efficient he has ever used.—I am, dear Sir, yours truly,

GEORGE BLAXLAND, Chief Engineer.

# THE FRANKLIN COMPANY'S PATENT GAS REGULATOR.

"LUX, et præterea nihil." "LIGHT, and nought else."—(Free Translation.)

**T**HE FRANKLIN GAS REGULATOR, for economizing the consumption of Gas, and producing a Steadier, Safer, and Purer light, has been rising steadily in public estimation ever since its first introduction, now some two or three years since.

SMALL, SELF-ACTING, and INDESTRUCTIBLE, without hinges or close-fitting movements to become foul and stiff, or any material the elasticity of which may be destroyed by the action of Gas, all who examine it are struck with its simplicity, and NONE WHO ADOPT IT NEED EVER PURCHASE ANOTHER.

It has been brought into successful competition with others, both in London and Edinburgh, and has always given the highest satisfaction, the saving in some cases amounting to FIFTY per cent. and rarely being less than TWENTY-FIVE.

*It has succeeded where other Regulators have failed;* and to encourage its immediate and universal adoption, THE PROPRIETORS are WILLING TO FIT IT UP ON TRIAL FREE OF EXPENSE.

*Purchasers of the earlier makes, wishing to adopt the most recent improvements, will receive prompt attention on communicating with Mr. LINCOLNE.*

## THE FOLLOWING FACTS AND CERTIFICATES MAY BE RELIED UPON.

THE LANCEFIELD SPINNING COMPANY, *Glasgow, March 23rd, 1857.*

We have much pleasure in being able to state that the FRANKLIN PATENT GAS REGULATORS, which have been in use here for six months, have given us entire satisfaction, and have effected a saving of 15 to 20 per cent. in our consumption of Gas.

THE LANCEFIELD SPINNING COMPANY,  
PER JAS. G. SMITH.

An experiment at the end of four months gave the following result:—

Consumption with Regulator Stopped,  $12\frac{1}{2}$  feet per Minute.  
Do. do. Working, 9 do. do.

*From THE POOR'S HOUSE, Parliamentary Road, Glasgow.*

One Regulator was tested at the end of 12 months, and found to be saving at the rate of 20 per cent.

Two others, fitted up subsequently, appear to have saved about 35s. during the month of October, as compared with the consumption during the same month in 1856.

*From MR. GLOVER, Theatre-Royal, Glasgow.*

DEAR SIR,—I have much pleasure in stating, that the Franklin Gas Regulators (now ten in number) have been working here for the last twelve months, and that they are effecting a very considerable saving on my yearly consumption of Gas.—Yours faithfully,

EDMUND GLOVER.

29 M'Pherson Street, off High Street,  
GLASGOW, May, 1859.

The COFFEE PLANT, "*Coffea Arabica*," of Linnæus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of commerce. It may be remarked, as a singular fact in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its independence; for, although cultivation may greatly enlarge the crop, it as certainly, at the same time, deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret to the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so, when its medicinal properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of Asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—"I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be dispersed, than when exposed to the fierce heat of a fire in a single cylinder."

In the double rotatory globular method of roasting, as practised at Mr. MINTO'S Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder since the application of steam power to this branch) revolves in a medium of heated air, which, experience has shown, best prevents the dispersion of the essential oil, or aroma.

## JAMES ANDERSON YOUNG, SURGEON-DENTIST, 47 BATH STREET, GLASGOW,

who, he is happy to say, has given every satisfaction for the last Ten Years to all patients he has had the pleasure of attending. But should any of A. S. Young's patients desire to retain his services, he will be happy to attend to them should they visit him at HELENSBURGH; or, in *very particular* cases, he would meet them by appointment at his Son's, 47 BATH STREET.

All accounts owing by A. S. Young in Glasgow will be paid by James Anderson Young, who is authorized to receive all accounts owing to A. S. Young at this date. HELENSBURGH, 28th May, 1859.

In reference to the above, JAMES ANDERSON YOUNG, SURGEON-DENTIST, 47 BATH STREET, GLASGOW, would feel obliged by those patients of his Father whom he may not have the pleasure of knowing personally, *particularly observing* that the principle he has always adopted in the management of his Business, is that "WHATEVER IS WORTH DOING, IS WORTH DOING WELL;" *it being only by a strict adherence to this principle that it is possible to secure COMFORT and HEALTH to the PATIENT, and HONOUR to the DENTIST.* Also, that he received HONOURABLE MENTION at the PARIS UNIVERSAL EXHIBITION of 1855, for the INVENTION of his PATENT DENTAL FORCEPS. Is SOLE LICENSÉE in Glasgow for PAINLESS OPERATIONS by CONGELATION: and adopts *every* Improvement which is *really* to the COMFORT and ADVANTAGE of his patients.

N.B.—JAMES ANDERSON YOUNG *can only be consulted at 47 BATH STREET, GLASGOW.*

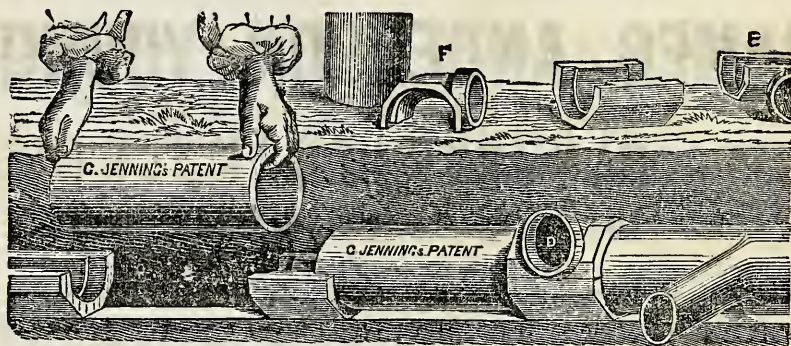

# JENNINGS' PATENT SEWER PIPES.

ROBERT BROWN,  
FERGUSLIE FIRE CLAY WORKS, PAISLEY,

Now holds the exclusive right from the Patentee to Manufacture and Sell these Pipes in all Scotland, with the liberty to Sell in Ireland (County of Cork excepted) and in Foreign Countries.

"Mr. George Jennings' Patent Drain Pipes, as we have before taken occasion to say, are certainly the best arrangement that can be used."—*Builder*.

These Pipes are the most perfect yet introduced, and are universally acknowledged as the only improvement yet effected on the ordinary Socket or Half Socket Pipe.

The following are some of the advantages offered by the use of these Pipes :—

1st. The Pipes, which are plain at both ends, are laid in the rebates of the chairs, a sufficient distance apart to admit of the workman striking up the joint of the invert perfectly fair on the inside, thus avoiding the burr of the cement, or other stopping material, being left to impede the flow of sewage and ultimately stopping up the drain.

2nd. The Superintendent of the Works can insure this being effectually done, by personal examination, before allowing the saddle pieces to be put on.

3rd. Facilities for examination, such as no other system of drainage presents or admits of, as in the event of stoppage it is only necessary to remove the Upper Saddle at any point, when the cause of the stoppage is at once ascertained and removed, without in any way damaging the drain, the only expense being the labour.

4th. Should Branch Drains be required at any future time, it is only necessary to remove any one of the Plain Saddles, and to substitute for it a Junction Saddle, as at D; which, by turning round, is available for either side of the street.

These Pipes are from 3 to 18 inch bore, and, with all the advantages they possess, are the same price per yard, including the Patent Saddle and Cradle, as charged for the ordinary Socket Pipes.

The usual Socket Pipes also made, and sold as formerly; along with Ornamental Chimney Cans, Vent Linings, Joist Shields, Fire Bricks, &c., &c., and all articles made of fire clay.

Building Bricks, and also Drain Pipes and Tiles for Field Drainage, of all sizes, and of the best quality.

Prices and all further particulars furnished on application.

## GREAT REDUCTION IN PRICES.

# I. M. SINGER & CO.'S AMERICAN SEWING MACHINES

Has received Eighteen Medals from Eighteen different States, in Exposition in the United States, and the Medal of Honour at Paris "Exposition Universelle."

WITH the great increase in our facilities for manufacturing which we have recently made, we are now prepared to sell our latest improved Machines at a great reduction from the former prices.

The practical utility and superiority of Singer's Sewing Machines over all others is well known to the public, and the fact is established beyond a doubt that in every branch of industry where sewing is to be done, these Machines can be used with immense profit. As the speed of the railway train is to travelling on foot, so is sewing with Singer's Machines compared with hand-sewing. No Tailor, Shoemaker, Hat or Cap Manufacturer, Dressmaker, Staymaker, Carriage Trimmer, Saddler, Sack or Bag Manufacturer, should be without them. These Machines are simple in their construction, easy to operate, are very strong and durable, and will not get out of order, except by gross carelessness—they being the only kind of Sewing Machines by which every variety of work, coarse and fine, can be perfectly executed. Many inferior and worthless Sewing Machines are manufactured and sold under various names. Several attempts are being made, by a few *adroit Artizans*, to copy and manufacture Singer's Sewing Machines. We would caution the public against purchasing such Machines, as they are inferior and quite worthless, as it has been proved by parties who have already purchased, and found them utterly incompetent to perform the work required of them, and have compelled the vendors of such Machines to take them back and refund the money. The result in purchasing cheap and inferior Sewing Machines, is disappointment and pecuniary loss to those who do so; but we are confident those who purchase Singer's Sewing Machines will not meet with disappointment or loss, for they alone have been found to satisfy the wants of the public. Our Machines are warranted to be all they are represented.

### SINGER'S NEW FAMILY SEWING MACHINE

Has achieved a great degree of popularity and a merited appreciation, and in all private families where there is much sewing to be done, these Machines are invaluable assistance. They will execute as much work in one hour as can be done by hand in ten; make a beautiful back stitch on both sides of the work, which will not ravel or rip, and will surpass hand sewing in durability and strength. As an elegant piece of furniture, nothing can be purchased for a like sum of money so ornamental as one of our Cabinet Machines. The ladies are specially invited to call at our Office, and see their usefulness demonstrated.

The Citizens of Glasgow, and Public in general, are requested to call at 65 BUCHANAN STREET, Glasgow, where we shall be pleased to exhibit our Sewing Machines, and show their great superiority in every branch of business.

## MEDALS AWARDED TO THOMAS GLOVER'S PATENT DRY GAS-METERS

IT IS A REMEDY FOR ALL THE DEFECTS OF WET METERS.

FIRST.—It is an accurate measurer of Gas, and does not vary in its registration.

SECOND.—It prevents jumping of the lights, and sudden or unexpected extinction of the lights.

THIRD.—It can be placed in light and conspicuous positions, so that the Consumer, as well as the Inspector, can at all times obtain an exact knowledge of the amount of consumption. This gives confidence to the Consumer; the Inspector is no longer regarded with suspicion, and all unpleasant disputes are avoided.

FOURTH.—It does not require to be interfered with, or opened to put water into it; and thus those dangerous explosions are prevented, which too frequently occur, owing to the escape of Gas from Wet Meters.

FIFTH.—It cannot be tampered with and made to vary in its registration, without showing marks of injury on the outer case. Thus, Inspectors have no longer to contend with difficulties they cannot overcome, and frauds they cannot always detect.

SIXTH.—It may be fixed either above or below the level of the lights.

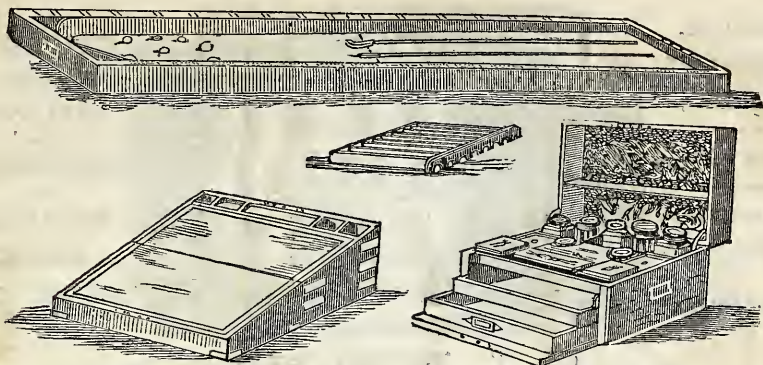

SEVENTH.—It works with less pressure, and economizes Gas.

EIGHTH.—It is more durable than Wet Meters, not being subject to the corrosive influence of water.

AGENT,

**JOHN HAMILTON, 19 GORDON STREET, GLASGOW,**

WHO HAS ALWAYS A STOCK OF THE ABOVE METERS ON HAND.

# GEORGE AUSTIN,

**PRACTICAL WRITING DESK, DRESSING CASE, BAGATELLE BOARD,

GEORGE AUSTIN having now had upwards of Eighteen Years' practical experience in designing and making every description of Writing Desks, Dressing Cases, &c., the following is a List of articles warranted made in his own workshops on the premises:—

Writing Desks and Dressing Cases, (including the much-admired Fall Front Dressing Case) in all the various Fancy Woods, Walnut, Ebony, Coromandel, Mahogany, and Rosewood, Work Tables, Work Boxes, Jewel Cases, Tea Caddies, Chess and Backgammon Boards, Chess Boards for Ships' use, Warranted Bagatelle Boards, in Mahogany, Walnut, and Rosewood, from 6 feet to 10 feet, with India Rubber Cushions, Adjusting Stands for ditto, Leather Travelling Desks, Despatch Boxes, Pocket Books, Gun and Pistol Cases, Knife, Surgical Instruments, and every description of Sample Cases, made to Order.

Always on hand, a large assortment of Dressing Case Fittings, and a large stock of well-seasoned materials. Parties wishing Dressing Cases, &c., made and fitted to meet their own particular views, G. A. would feel great pleasure in drawing a plan of such, with a correct estimate of cost. G. A. would call particular attention to his stock of Presentation Desks, likewise for Commercial Correspondence, which for durability, neatness, and finish, cannot be surpassed. The Prices, on inspection, will be found fully thirty per cent. below the usual price charged for inferior articles. G. A. need only further allude, that every article being manufactured on the premises, under his own inspection, parties favouring him with their orders will find the prices strictly moderate, consistent with first-class workmanship. An Elegant Assortment of Gilt Mediæval, Mounted Walnut, and Malachite Papier Mâché articles, consisting of Writing Desks, Dressing Cases, Work Boxes, Tea Caddies, Card Cases, Card Boxes, Card Trays, Ink Stands, Envelope Cases, Portfolios, Match Boxes, Twine Barrels, Pen Trays, &c., &c.

**PATENT METALLIC CASKS AND CISTERNS**, for Oil, Turpentine, Varnish, Naphtha, Ammonia, &c.

**PATENT METALLIC KEGS**, for White Lead, Paint, Colours, Printers' Ink and Dry Goods.

**PATENT METALLIC STABLE-BUCKETS and HOUSE-PAILS**, strong and durable, largely used at Public Works, also for export to the Diggings.

**TANKS and CISTERNS** for Ships' Stores.

THE attention of Oil and Colour Merchants, and others, is respectfully drawn to the above METALLIC CASKS and KEGS, as possessing strength, durability, lightness, cleanliness, and fitness for the several purposes to which they can be applied.

Being proof against changes of climate, leakage, evaporation, absorption, loss from negligent packing, &c., they are specially adapted for export, and possess advantages unknown in wooden vessels.

For the preservation of valuable and common Oils in MILLS and FACTORIES, the above Casks effect an important saving, and for such Establishments B. & Co. have made them with Glass Tube Gauges, so that the Stock on hand can always be ascertained at a glance.

**TO SHIPBUILDERS & ENGINEERS.**

BROWN & CO. strongly recommend their Metallic TANKS and CISTERNS for Ships' Stores. They can be made to any size or shape required, and for holding Oil, Tallow, Peas, Barley, and various other commodities on shipboard, they are invaluable. For years past B. & Co. have been supplying them to Shipbuilders, and in every case they are giving satisfaction.

**STOMACH COMPLAINTS.**

**A**LTHOUGH we cannot conscientiously offer  
them as a specific in all complaints, well  
knowing the absurdity of such pretensions in any  
one compound, still they will be found superior to  
every other Medicine, in respect to their gentle mode  
of action.

They are a safe and valuable remedy for Bilious  
Complaints, and Pains in the Stomach and Bowels;  
are completely calculated for those whose bowels are  
habitually slow, and consequently require the use of  
laxatives; and are well adapted for general Family  
Use, being purely of vegetable composition.

They form a most excellent remedy for Indiges-  
tion, Crudities in the Stomach, Loss of Appetite,  
Costiveness, Headache, arising from Flatulence in  
the Stomach and Bowels, which generally attend  
those who lead sedentary lives.

# GLASGOW INSTITUTION

FOR THE  
EDUCATION OF YOUNG LADIES,  
138 BATH STREET.

THE FIFTEENTH SESSION WILL BEGIN ON  
THE 1ST OCTOBER.

A VISITING COMMITTEE COMPOSED OF MEMBERS  
OF PARLIAMENT, CLERGYMEN, MAGISTRATES,  
PROFESSORS, &c., &c.,

LADY SUPERINTENDENT.  
SEVERAL GOVERNESSES.  
FIFTEEN MASTERS.

SECRETARY—F. A. WOLSKI OF THE HIGH  
SCHOOL OF GLASGOW.

**MASTERS.**—Many of the Gentlemen employed at this Institution stand at the head of their profession in Glasgow, and no local establishment, whatever be the Fee charged, can, on the whole, show superior teachers.

**BRANCHES.**—Scripture, English Grammar, Elocution and Composition, History, French Grammar, Composition and Conversation, Geography and the Use of the Globes, Arithmetic, Writing, Drawing, Pianoforte, Vocal Music, Dancing, and Needle-work.

**FEE**, payable in Two Instalments, **TWELVE GUINEAS** a Session of Three School Quarters, for all the above Branches, the same amount and quality of Instruction being charged from £22 to £30.

**SISTERS.**—Two sisters may, on paying One Fee, divide between them the Branches included in the Curriculum. Three or more Sisters are charged only Eleven Guineas each.

**SINGLE CLASSES** may, under certain conditions, be attended at a Fee far below that charged out of the Institution. The Fee for French, for instance, is £3. 3s., and for Pianoforte, with a Governess, from £2. 12s. 6d. to £3. 3s. per Session.

**ENGLISH GOVERNESS.**—All the less advanced Pupils are assisted in their Studies by a well-qualified Governess.

**PIANOFORTE.**—About two-thirds of the Pupils are taught by Messrs. A. C. Johnson, Howden, Macfarlane, Moritz, and Seligmann; the rest by competent Governesses.

**OPINIONS OF THE PARENTS.**—Upwards of One Hundred Letters from Clergymen, Physicians, Merchants, Magistrates, &c., whose daughters attended the Institution for three, four, and five years, may be seen by Visitors if required.

**ACCOMMODATION.**—The Premises occupied by the Institution consist of Seventeen Apartments, all of which are open to the Pupils, as no person resides in the house.

**Enrolment.**—Pupils are enrolled during the months of August and September. For particulars apply to the Secretary.

# GLASGOW MODEL SCHOOLS AND TRAINING COLLEGE, 234 GEORGE STREET, M. WILSON, PRINCIPAL, (EIGHT YEARS HEADMASTER OF THE GLASGOW NORMAL SEMINARY.)

**THE THIRD SESSION** begins on the 30th May, 1859. The Quarter days are Saturdays 28th May, 20th August, 12th November, 4th February, and 12th April.

Each Quarter consists of Twelve Weeks. No holidays or vacation are given by the masters, as it is deemed that the Parents are the competent party to judge when the child requires relaxation.

The objects of this Institution are to provide a first-class education at a moderate fee, and to conduct it on commercial and independent principles. No government or other eleemosynary aid is received, as it is believed that no official, governmental or other, should be placed as superintendent or inspector in room of the natural guardian. Parents are requested to visit the school as often as they can make it convenient.

Another object of the Institution is the instruction in the art of teaching of educated young men and young women who may be desirous of becoming acquainted with the details of school-management. The expense is moderate, and every facility for acquiring a thorough knowledge of the profession is afforded.

The branches taught comprise whatever is necessary to a thorough English and Commercial education. In addition there are masters for the Classics, Geometry, and Algebra, who are generally Graduates of the University. French is taught by a Frenchman, or by one who has resided in France. German, in like manner, is taught by a native of Germany. Drawing and Painting, Pianoforte, Vocal Music, Dancing, Calisthenics, &c., by teachers of experience and standing.

The Institution is under the direction of Mr. M. Wilson, assisted by fourteen masters and teachers, some of whom are of the highest standing in their respective branches, besides students and governesses.

**GLASGOW SOCIETY OF SONS OF MINISTERS OF THE CHURCH OF SCOTLAND,**

Was instituted 1790; incorporated by a Charter from the City of Glasgow, 1791. Their annual meeting is held on the last Thursday of March.

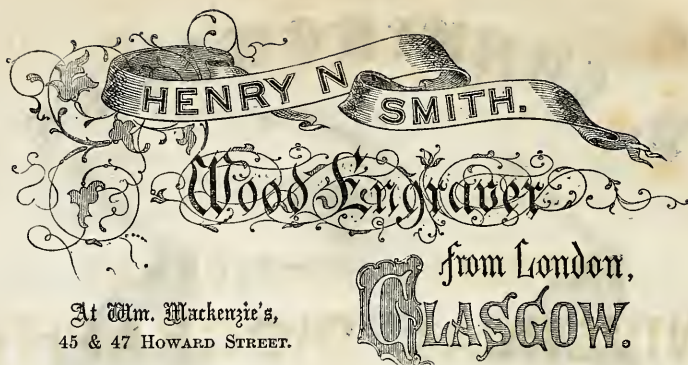

The Right Hon. Lord Campbell, Lord Chief-Justice of England, president; Adam Paterson, secretary; William Auld, treasurer; Archd. Glen, Rev. Dr. McLeod of St. Columba, Simon Fraser, Thomas Wharrie, Rev. Dr. Hill, John Couper, Robert Knox, Rev. Archibald Nisbet, D. M. Lang, council—stated according to official seniority.

The stated meetings are on the last Thursdays of July and November, and on the Thursday before the annual meeting. They grant no permanent pension. Applications for pecuniary aid must be

made every year, and lodged with the Secretary before the 1st of March. The following facts must be distinctly attested by respectable persons to whom they are known:—1. That the applicants are children of a minister of the Church of Scotland, whose fathers are dead. 2. The age, progress in education, destination, prospects, or employment of each child in the family, old or young. 3. How they have hitherto been supported, and the means of their present subsistence, of whatever kind, whether certain or precarious. Applicants to appoint some person in town to call on the Secretary—55 West George street—on the first Tuesday of April, for answers to their petitions.

The Society are also trustees on the late Miss Janet Paisley's Trust Fund, for the benefit of the daughters of deceased clergymen of the Church of Scotland.

H. N. S. having had much experience in the various branches of the Art, is prepared to execute all descriptions of Engraving in the First Style, and on Moderate Terms.

THIS School is conducted upon the following fundamental principle:—"That every system of general education ought of necessity to comprise instruction in the Christian religion." The utmost effort are used to render this principle efficacious by means of examples drawn from the Biography of individual distinguished in every walk of life.

There are two perfectly distinct departments—the Professional and the Modern. In the former the Pupils are efficiently prepared for the Universities, the Naval and Military Colleges, and Civil Service Examinations; the latter affords a thorough preparation for the higher walks of Commercial life, particular attention being paid to Composition in the English Language, to sound instruction in other Modern Languages, Book-keeping, and Science.

The Class Books employed have been most carefully selected, and the Reverend the Rector pledges himself to engage only the most efficient, trained, and certificated Masters, who feel the importance of the well-known sentiment—"The greatest respect is due to a child."

## IN THE PUBLISHING AND BOOKSELLING DEPARTMENT,

Persons of good address and respectable character will find employment to solicit Orders for Works of established merit. A liberal Commission is allowed, or fixed Wages may be agreed upon to suitable parties.

Deliverers also are occasionally required, to whom a fixed salary will be given, upon finding security to the amount of £50. Personal applications to be made at 45 & 47 Howard Street, Glasgow; or at any of the Branch Warehouses.

## ARCHITECTS, BUILDERS, AND HOUSE PROPRIETORS.

---

MR. JOHNSTON, in calling attention to the following Goods, many of which are improvements suggested by Architects, would more especially request inspection of Mr. Ross's and his own recent Patents. Their novelty has to overcome prejudices of many tradesmen, some of whom are interested in the manufacture of the old sorts of Closets and Taps. He is certain that no respectable firm will stand in the way of the introduction of any improvement, and that none but a short-sighted tradesman will throw difficulties in the way of these improvements, on the ground that they are "*too durable, and WILL HURT TRADE.*" Still this has been urged as an objection. Mr. Johnston is convinced that these improvements will ultimately benefit all Trades concerned, because to improve an article in efficiency, make it non-lia-ble to damage, and at the same time to decrease cost, is certain to indefinitely increase the demand for all sanitary appliances, and the comfort and convenience of every Kitchen, Bedroom, Office, and Warehouse being supplied constantly with pure water.

# PATENT WELDED IRON TUBES AND FITTINGS.

The repeated complaints as to the inferiority of the Scotch-made Malleable Iron Pipes, has induced Mr. Johnston to accept an arrangement with the original patentees in Staffordshire, whose Tubes are manufactured from a more expensive and genuine quality of Iron, are more even and smooth-skinned, better welded, and more true and exactly round than the Scotch make. Every tradesman who knows both makes is aware of the difference, both as regards a tight and business-like job, as well as greater ease in fitting a perfectly formed pipe. The Wrought Iron Tees, Knees, &c., are recommended as being in every respect superior to the Cast ones. Tubes all sizes are kept in Stock and in various lengths, with complers included, from 3-16ths to 2 inches diameter; T's, equal and diminishing; X Crosses, equal and diminishing; L Knees, equal and diminishing; Holdfasts, Stocks, Taps, and Dies.

*Shipping Orders delivered Free on Board at London, Liverpool, Glasgow, Hull, and Bristol.*

PRICE LISTS AND DISCOUNTS ALLOWED MAY BE HAD ON APPLICATION. *No extra charge for Tubes and Fittings made conform to plan (so as to save all waste and cutting), when order is large, and sufficient time allowed for execution.*

MAY ALSO BE HAD GALVANIZED TO ORDER.

## PATENT HARDENED TINNED COMPOSITION GAS PIPE,

Equal in appearance and quality to Block-Tin Tube (which it is properly fast superseding), and at one-fourth the price.

## CAST-IRON MAIN PIPES,

For Gas or Water, Spigot and Faucet for lead Connections, or Turned and Bored.

## GAS LUSTRE MATERIALS.

This has always been the leading Department of the GLASGOW TUBE AND METAL WAREHOUSE since 1849. Previous to that time such goods could only be had in Scotland direct from the Makers, by having a multiplicity of accounts, in which case the Carriage of separate lots of Goods was very heavy, besides the long and vexatious delays which were necessarily incurred. Mr. JOHNSTON is now, and long has been, the *ONLY PARTY* in the Kingdom who keeps a Stock of

ALL ARTICLES REQUIRED BY GAS LUSTRE MAKERS, BRASSFOUNDERS, AND PLUMBERS.

**STAMPED BRASS WORK.**—Balance Weights, Knobs, Vases, Water Cups, Husks, Spouts, Lamp and Bracket Arms, Pillars, Rosettes, Creeper Leaves, four to twenty inches long; Ceiling Plates, Pulley Wheels, Lamp Bodies, two, three, four, and six lights; Chain Links, cast; Chain Links, struck; Improved Rollers, burnished and lacquered; Cut Brass Washers.

**ORNAMENTAL GLASS.**—LAMP VASES, DISHES FOR LOBBY LIGHTS, MOONS, &c., of foreign manufacture, in all colours, gilt and otherwise ornamented. British, Plain, Obscured, and Cut Moons or Shades; Chimneys, Perdefumes, &c., &c.

**MISCELLANEOUS.**—Brass Wire Chain, Patent Chain, Balance Weight Cord, Green Lacquer, Gold Lacquer, Pale Lacquer, Dipping Aquafortis, Marine Acid, Pure Black Lead for Bronzing, Machine-made Galleries or Glass Holders, Taps, Dies, Lathe Brushes, Files, Steel, Pliers, &c., &c.

## GAS-FITTINGS DEPARTMENT.

Gas-Burners, Patent Plated Reflectors, Flexible Gas Tube; Holdfasts,  $\frac{1}{4}$  to  $1\frac{1}{2}$  inch; Coupling Screws, Stop Coeks, all sorts; Wing Joints, Mantelpiece do., Centre Joints, Ball and Socket Joints, Ring or Cup Joints, L Coeks, Galleries, Gasfitters' Screws,  $\frac{3}{4}$  to 9 inch.

**GAS LUSTRES, BRACKETS, &c.**—A variety of two to six-light Lamps, Bronzed, Lacquered, Artistic, &c., not only in the cheaper descriptions, but in the richest and most highly finished. **BOHEMIAN GLASS DISHES**, mounted for Gas, obscured and ornamented with elegant and novel designs in Ruby and Gold, which have a pleasing effect, and are moderate in price; Plain, Obscured, and Cut Crystal do.

## METALS.

**QUICKSILVER, REGULUS OF ANTIMONY, BISMUTH, SILESIA SPelter; SHEET BRASS; ROLLED BRASS** (*the only fully assorted Stock in Scotland*) kept in all gauges, from No. 6, W. G., to No. 40, W. G., and all widths, from 2 to 18 inches; and can be had cut to any dimensions, suited for Engineers' and Brassfounders' purposes; also for Door and Window Plates for Engravers. **BRASS AND COPPER WIRES; COPPER RIVETS AND WASHERS; SPelter SOLDER**, of all degrees of coarseness and fineness; **BLACK SOLDER**, for fine work, which is easily melted; **REFINED BORAX** for Brazing purposes; **GALVANIZED IRON GOODS** of every Description; **PLAIN AND CORRUGATED IRON SHEETS, TELEGRAPH WIRE, &c.**

## TUBES

Of every Description, for Locomotive and Marine Boilers, Gas, Steam, Water, &c. The **BRASS TUBE** of this establishment is all of Birmingham make, and of the very best quality. Every description of Fancy Tubes—*reeded, beaded, spiral, cable twist, French twist*—of all sizes, in Stock. Taper Brass and Copper Tubes; Open Joint Tube for Beading; Patent Cased for Rails and Picture Rods. Lead, Composition, and Patent Tubes.

## PLUMBERS' MATERIALS.

Tinned Water Balls, 2 to 10 inches; Closet Pans, all sizes; Brass Basins, 10 to 16 inches inside diameter, suitable for Counters, Cabins, and wash-hand purposes. The above Goods are manufactured on a peculiar and improved principle, by Mr. Johnston's own workmen in Birmingham, from one piece of solid metal, without any seam or soldering, and are consequently more durable, and look better than the hand-made ones in use previous to the introduction of the above. Bolt Copper, Copper Tacks, Copper Rivets and Washers, Perforated Zinc.

TOOLS.—Lead Ladles, all sizes, light and heavy, 2 to 10 inches; Cast-Iron Kettles, Chipping Knives, Scrapers, Soldering Irons.

CAST IRON GOODS.—Painted Rain-Water Pipes, Shoes and Boots, Cups, Flat or Angle, Swan Necks; Pipes, with Branches cast in, to order; Runs or Gutters, half-round and O G patterns; Angles, internal and external, Stop Ends and Drops; Lion's Head and other Clips; Jaw-Boxes, Boilers, Closet Metals, &c., on the best terms.

BRASS WORK.—Water Closet Trunks, Bib or Nose Cocks of all sorts, Ball Cocks, Pumps, Waste and Washers, and all the ordinary as well as improved descriptions of Brassfoundry work required by plumbers.

### SANITARY EARTHENWARE DEPARTMENT.

In addition to the facilities the Trade of Scotland enjoy through getting all they require on a day's notice from stock kept in Glasgow, and at same or less cost than from Staffordshire, when Crates, Carriage, and Straw are taken into consideration, Mr. Johnston has established a gilding and enamelling factory in Glasgow, with a staff of first-class hands from the potteries. Any PATTERN, DEVICE, CREST, INITIAL, or FLAG of SHIPS' COMPANY can be painted, enamelled, and gilt on the shortest notice, on wash-hand Basins and other articles of Earthenware, at very moderate rates.

The adoption of Urinals in all large establishments is now admitted to be essential in a sanitary point of view. The demand for such articles is rapidly on the increase; there have, consequently, been a great variety of shapes and sizes introduced, suitable for every conceivable situation. The Cradle Urinal, designed by the late Mr. Wm. Kirkwood of Edinburgh, is the shape usually recommended by Architects.

# THE CARLTON WATER-CLOSET.

## JOHNSTON'S PATENT.

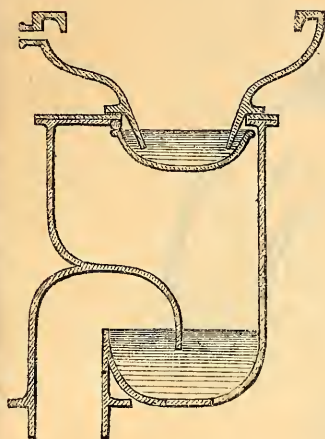

Fig. 1.

*Section of Carlton Closet with Down Trap.*

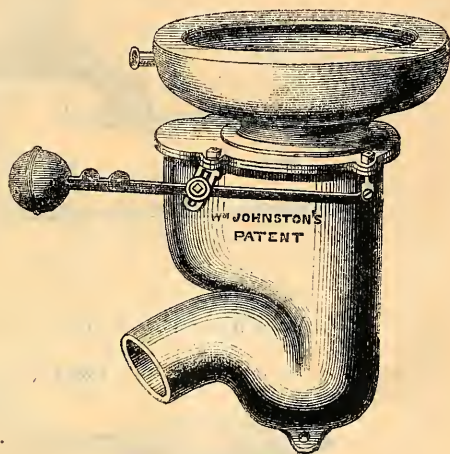

Fig. 2.

*Elevation of ditto with Off Trap.*

The Down Trap will always be sent unless otherwise ordered, and with the usual Cranks, Levers, Cistern Valves, &c., as used with ordinary Pan Closet. The CARLTON CLOSET is also made with Ross's Patent Self-Regulating Hydrostatic Valve, to work direct from the main or any cistern. Made also with Johnston's Patent Eccentric Valve, the "*Economic*." An Earthenware Basin, specially moulded for this Closet, can be supplied, either plain white, blue printed, marble, or enamelled and gilt.

The mechanism of this Closet is identically the same as the ordinary well-known Pan Water-Closet. There cannot therefore be any doubt as to its satisfactory working, notwithstanding the novelty of its appearance. The Trunk or Container is of one piece of cast-iron, the Copper Pan is only 6½ inches in diameter, and the capacity of the Trunk is reduced to the smallest practicable size,—thus obviating the objection to the old Pan Closet with its large space for accumulation of foul air.

The Trap and Closet being all above level of floor, the CARLTON CLOSET can be fixed in many places where the fixing of a common Closet is objectionable, or sometimes impracticable, and in all positions it can be fixed with less trouble and cost. It can be repaired, if necessary, with more facility. In case of being choked by careless usage, the Trap is accessible through the direct passage from Basin down, so that it can be cleared without any part of Closet or Joiner work requiring to be disturbed.

And while superior in these respects, it is no more expensive than the old Pan Closet of equal workmanship and quality, and saves in fixing 6s. to 10s. 6d. in each Closet, by not requiring a lead Trap.

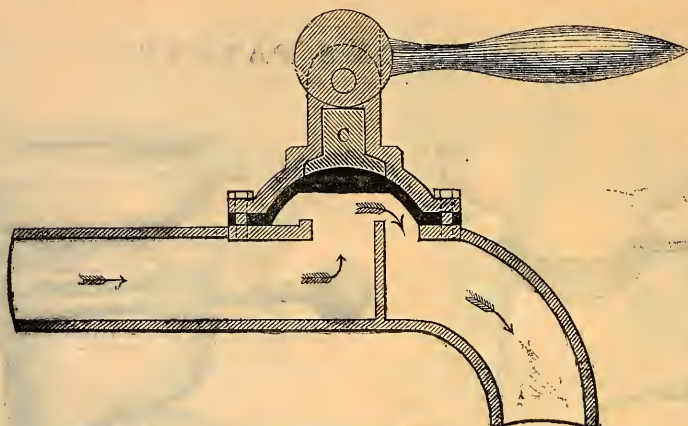

As the demand for the CARLTON CLOSET has been very great, although only a few months introduced, and this demand apparently likely to exceed my capabilities of turning out sufficient quantity, I am prepared to grant Licenses to first-class makers only for quantities of six dozen at a time for a moderate royalty, and to supply the cast-iron work, pans, basins, &c., on liberal terms.

# THE EVERLASTING TAP.

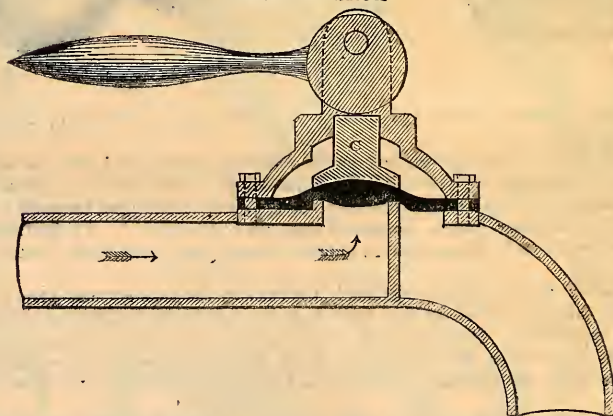

## JOHNSTON'S PATENT.

SECTION—OPEN.

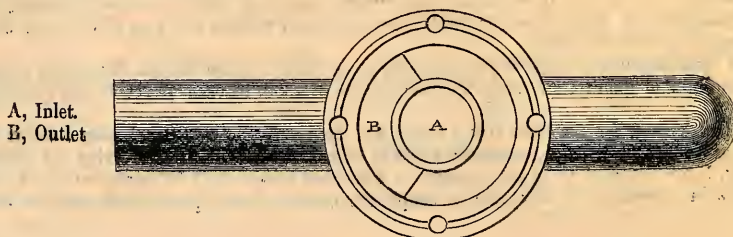

Water Way, □ — Flexible Partition, ▨ Brass Work, ▨

SECTION—SHUT.

The Handle being turned round, forces down the Piston, C, on Flexible Partition, and effectually closes the Water Way.

PLAN.

## THE SUPERIORITY OF THE EVERLASTING TAP CONSISTS IN—

The Easy and Ready mode of Opening and Shutting.

The Working Parts, being kept separate from Water Way, are not liable to derangement.

It cannot Leak, Waste Water, or get out of Order. Should water be off, it is not so likely to be left open, and cause damage, as this Tap indicates when "*Shut*" or "*Open*."

Will Work with any Pressure, from emptying a Cask or with 1000 feet Pressure, and stand frost as well as Boiling Water. Cannot be damaged by Dirty Water, and will run any Liquid Substance, and obviates all the annoyances, waste of liquids, and necessity for frequent repairs, getting stiff and unworkable, and all other disadvantages of the old Key or Screwed down Cocks. Can be had with the screw down motion instead of the eccentric.

For Distilleries, Dye Works, Breweries, Chemical Works, &c., these Taps can be made of any size, and of Iron, Galvanized Iron, Lead, Tin, or other metal.

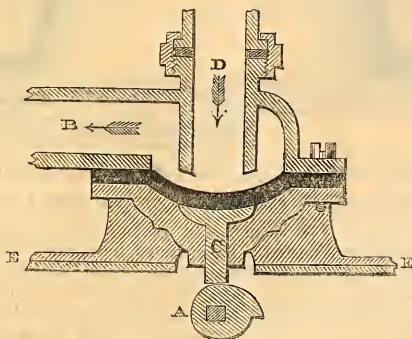

The Patent is also applicable to Fire Cocks, Ball and Stop Cocks, Swan Necks, &c.

Can be had from any respectable Plumber in the United Kingdom; or Wholesale from the Patentee.

Some parties have objected to fix these Taps on the ground of their dispensing entirely with necessity for repairs. No respectable tradesman will object on this account; but house proprietors and others, by paying a little more at first for this Tap, will effect the saving of future expense, as it is well known, that under any ordinary high pressure, the common Taps leak and require repair very frequently. They were introduced last summer, and already about 12,000 of them have been sold, and the demand is rapidly increasing. *The Public are cautioned against infringements of this Patent by obscure parties, as any party using or selling a Tap made on this principle, in violation of my patent rights, are liable to as heavy penalties as if they manufactured them.* The only parties legally authorized by me to make and sell these Taps are Messrs. James Duff & Sons, Greenock, and Mr. Samuel Sheppard, Birmingham. EVERY TAP BEARS MY TRADE MARK AND STAMP. Any sold without which are liable to seizure, and the recovery of damages.

## THE "ECONOMIC WATER-CLOSET."

## JOHNSTON'S PATENT.

Section of Eccentric Valve, attached to lid or cover of Iron Trunk or Container E. The eccentric A is fixed on end of journal of Pan, and is shown open. When handle is let down, the eccentric A turns round, presses up piston C, which closes Rubber Cup against face of inlet D. B is passage of Water to Basin.—The common Pan Water-Closet with this Valve attached, is called "THE ECONOMIC CLOSET," and dispenses with Cistern, Cranks, Levers, Wires, &c.

# ROSS'S PATENT SELF-REGULATING WATER-CLOSET AND HYDROSTATIC VALVE.

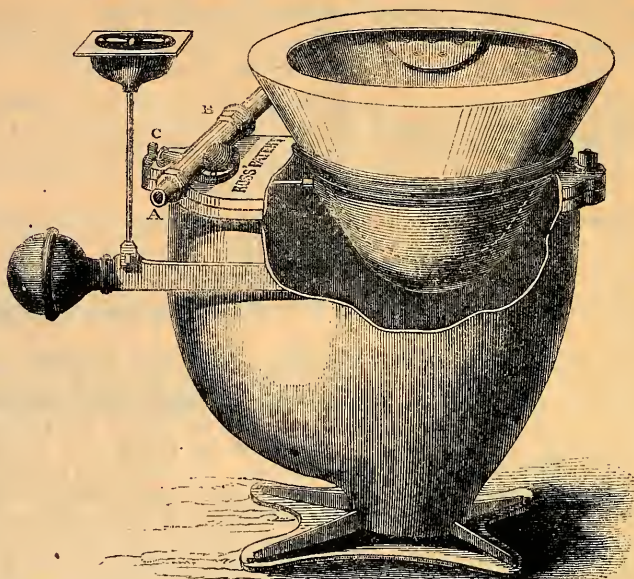

Fig. 1.—The ordinary Pan Water-Closet, with part of Trunk broken, to show mode of Working Valve.

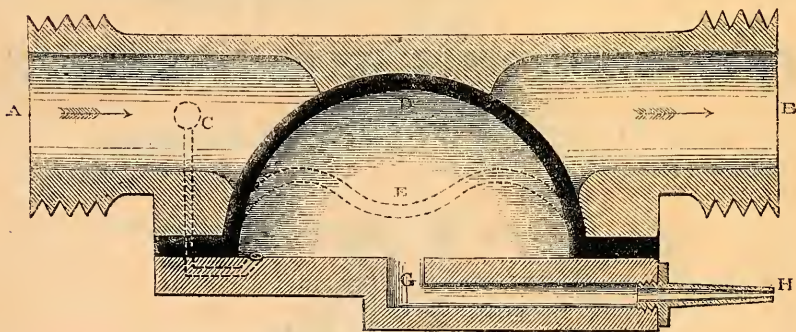

Fig. 2.—Full Size Section of the Valve or Patent Regulator.

## DESCRIPTION (LETTERS REFER TO BOTH FIGS.)

A, Inlet Pipe; B, Outlet (both with Couplings); a Small Valve is attached to the Journal of Copper Pan, closing end of Water Passage. H, which communicates with inside of India-Rubber Ball at G. On raising the Handle of the Water-Closet in the usual way, the Small Valve falls back from the face of the Passage, H—the water escaping from inside of Ball, the equilibrium is destroyed, and the pressure of water through Inlet, A, forces down the India-Rubber, as shown in dotted lines at E, Fig. 2, giving a free and direct passage to the water from A to B into the Basin. On letting down the Handle of the Closet, the Copper Pan rises to position shown in Fig. 1. The Small Valve is again closed, and water-pressure gradually re-fills India-Rubber Ball through Small Valve and Passage, C, which forms the Regulator; and the flow into the Basin may be regulated to flow for a long time by tightening the Screw Valve, C, for a short flow loosen the Screw Valve, C; and when Ball is filled, it presses firm and tight to Brass Cup, as shown at D, thoroughly preventing passage of water to the Outlet, B, till Handle is again lifted for use of Closet.

## ADVANTAGES OF ROSS'S PATENT REGULATING WATER-CLOSET.

1. Requires no Service Box, Cranks, Wires, nor Cistern, but can be attached direct to the main, or worked from any Cistern, however distant, thus saving great expense, and necessity of frequent repairs.
2. Non-liability to get out of repair, there being no metal surfaces acting on each other, or friction on India-Rubber, so as to cause tear and wear.
3. Cheapness and extreme simplicity.
4. Saving of Water, there being no leakage.
5. Works easily, and obviates the disagreeable noise of Cranks, Wires, and Levers.

*In ordering, please to say whether for High or Low Pressure, as they are constructed for, and in satisfactory use, with a constant pressure of 500 feet. For pressures as low as 2 feet a larger Valve and a thinner Cup is especially used. When no special pressure is mentioned, they are sent of the usual description, fitted to work under any pressure from 15 to 150 feet.*

### AS SOLE LICENSEE.

MR. JOHNSTON begs to state that NO OTHER PARTY IS AUTHORIZED TO MANUFACTURE MR. ROSS'S HYDROSTATIC CLOSETS AND TAPS, and all are marked ROSS'S PATENT.

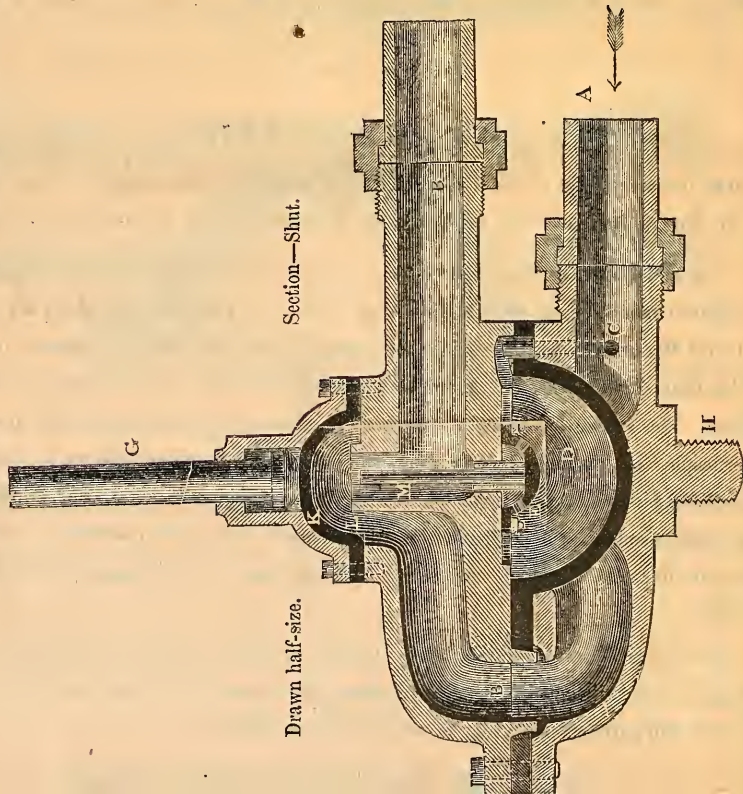

The first Closets sent out were in some respects defective, but the experiments of last eighteen months have brought this Closet into such perfection, especially the improved Direct Water-Way and Regulating Side-Screw Valve, that there is a difficulty in meeting the demand. Upwards of 1,500 of these Closets are now in use, and giving great satisfaction. This success has brought some small imitators into the field, who, while pirating the principle, and making some alteration in details, fancy they have ground for calling such modified piracies original inventions. Any parties selling or fitting up such Closets, which are infringements, will be liable to heavy damages. Parties have already, at the instance of Mr. Ross, the Patentee, been served with legal notices for infringement of his patent rights.

DETACHED VALVES FOR CLOSETS already in use are supplied; and this Patent is applied also to BRAMAH VALVE CLOSETS, JOHNSTON'S CARLTON CLOSET, and some others, full particulars of which may be had on application.

# SELF-ACTING CLOSET VALVE.

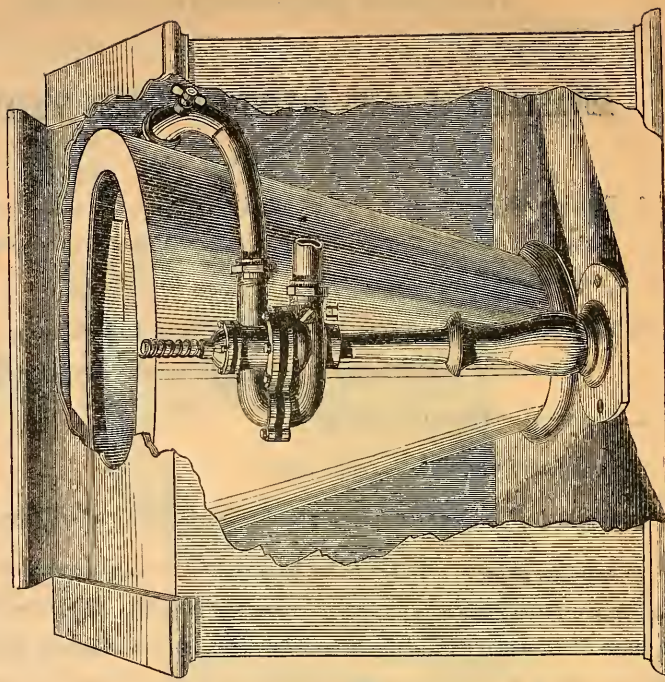

(Description on opposite page.)

Drawn half-size.

Section—Shut.

Front of seat broken off to show Valve.

## SELF-ACTING WATER-CLOSET VALVE.

THIS Valve is a combination of Ross's and Johnston's Patents, and will be more readily understood by reference to the principle fully explained in Ross's Self-Regulating Water-Closet.

It is so constructed that the Closet cannot be used without a flow of water coming to cleanse the Basin so soon as the user rises from the seat, when the water will only run for a definite number of seconds, determined at fitting up, by the regulating of the small screw side valve, C. No flow of water will come while any person is using the Closet, and by no means can it be left running and wasting water.

THE WATER WILL ONLY FLOW AFTER A WEIGHT HAS BEEN APPLIED TO THE SEAT AND THEN REMOVED, BUT NOT WHILE THE WEIGHT RESTS ON THE SEAT.

### DESCRIPTION.

Refer to "Section—Shut," opposite page; A, inlet from the main; B B, the passage to the Basin. Through small hole beginning at C, the water pressure is admitted to inside of India-rubber Cup D, which closes the water-way by filling inside of Brass cup; the water-way to Basin can only be opened by letting away from inside of cup D, as much or more water than gets in at C, through small passage. The seat of water-closet rests on spindle G, weight of seat may be counterbalanced by a spiral wire spring round the spindle. When the weight of a person on the seat depresses the spindle G, the upper India-rubber cup, K, is forced down on face of water-way at L, thus closing full water passage to the Basin. When L is closed, the smaller inside spindle, M, is depressed, and small cup, E, is forced down, into which are small holes, which are then opened, and water from interior of D being allowed to escape, the inside hydrostatic pressure is removed, and India-rubber cup is collapsed, allowing free passage of main water flow from A to B, but is intercepted at L from getting to the Basin so long as the pressure is kept on the spindle G. The moment the person rises and the pressure removed, the upper valve is opened, and a full flow of water rushes in to cleanse the Basin until the lower valve, D, gets gradually filled through small hole at C, when the apparatus is closed, and Closet again ready for use.

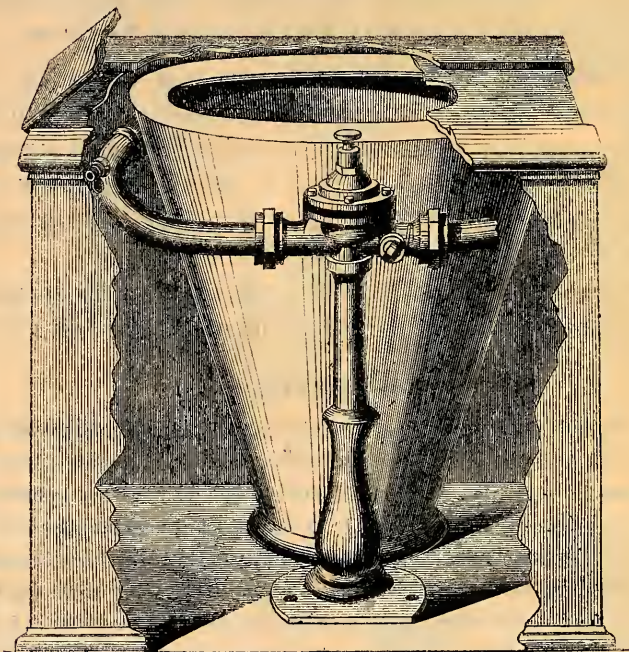

The Valve is sold screwed to a Cast-Iron Pillar, and Spindle G, can be cut shorter when the seat is low; for an extra high seat the pillar can be screwed to a piece of wood.

Is also sold with Basin and woodwork all complete. Requires no cistern, but works direct from the main.

*In ordering, state the pressure of water in feet.*

# SELF-CLOSING REGULATOR ON PILLAR, FOR SANITARY CLOSET.

Supplied on Pillar, or with Basin and Seat complete.  
Self-Closing, and cannot be left open to waste water.

THIS Closet is very simple: by touching the knob on top of Valve, a definite quantity of water flows to cleanse the Basin, and it cannot be left open.

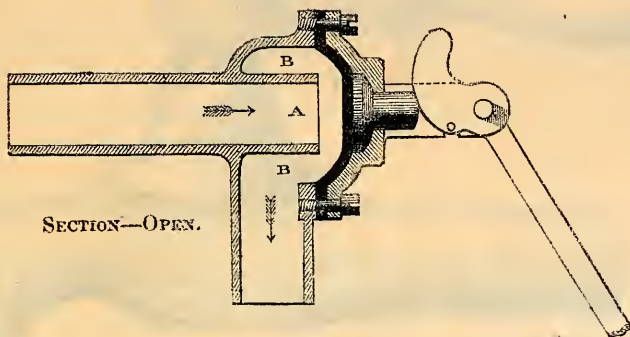

A SELF-ACTING PAN WATER-CLOSET has also been patented, but the woodcuts are not ready for this publication. Like the Closet at page 14, it cannot be used without a water flow, and cannot be left running water to waste. May be seen in operation at the Carlton Brass-foundry, Carlton Court, Bridge Street.

On a similar principle to the above a Self-Closing Bib Tap has been introduced, which cannot be left running to waste, or risk of damage of property or furniture.

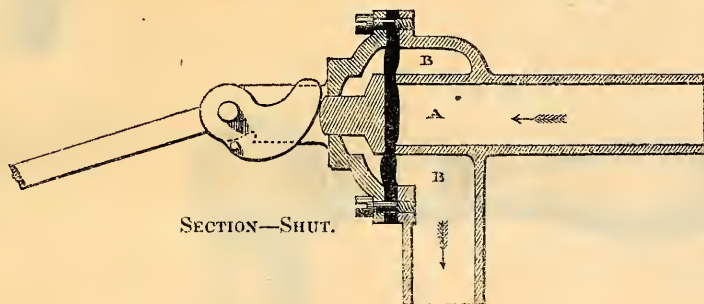

Wholesale only from the Subscriber.

# THE EVERLASTING BALL TAP.

## JOHNSTON'S PATENT.

SECTION—OPEN.

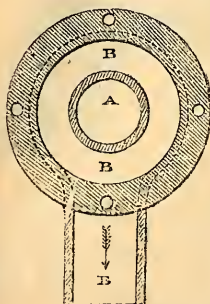

SECTION—SHUT.

[ A Inlet, B Outlet ; ■ Flexible India Rubber Cup ; ▨ Brass work.—When Cistern is empty the Ball float falls, and Eccentric at end of Ball shank is turned so as to allow the flexible Cup to rise and give full flow through A B into the Cistern. When water in Cistern rises to the full point, as shown in "section shut," the Eccentric at end of Ball float shank forces the piston on flexible Cup ▨, and closes the water way A.

### FRONT VIEW,

With working parts, and India Rubber Cup removed.

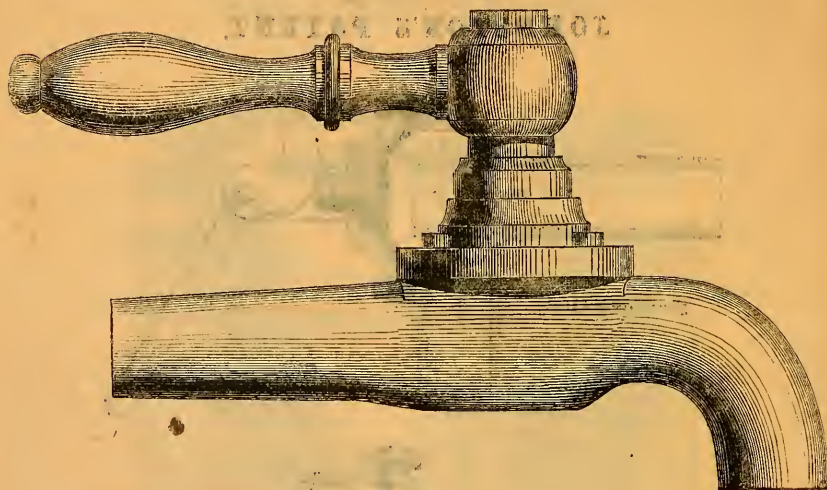

The advantages of this Ball Tap over the common ground Tap are evident at a glance. There can be no leakage, no wear of Key, as in the objectionable common Ball Tap hitherto in use, and such a constant source of annoyance and waste of water in every house where there is a Cistern and water supply. The working parts are separated from the action of the water by the India Rubber Cup, hence non-liability to wear. They cannot stick fast either open or shut, as ordinary Ball Taps frequently do. For extra high pressures a larger Ball float or longer lever is required ; but they are sent out fit for a good working pressure.

*Licenses to Manufacture the above granted for Scotland or Ireland.*

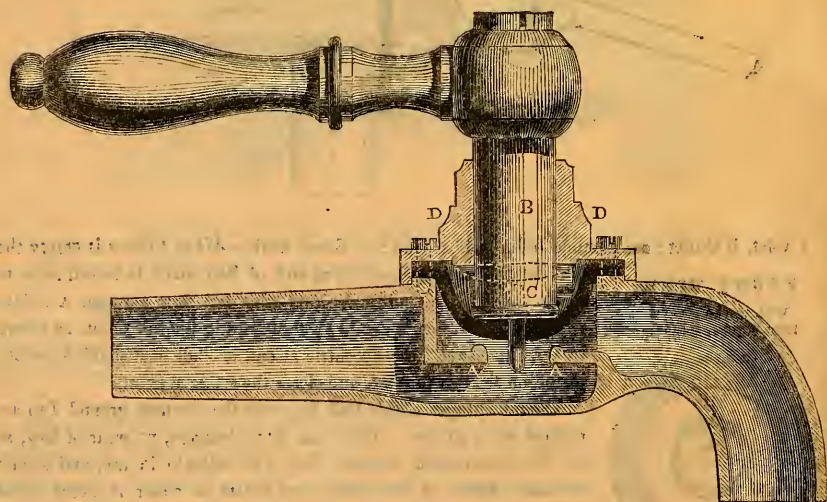

# THE UNIVERSAL TAP.

## ROSS'S PATENT.

Section Open.

### DESCRIPTION.

The Handle, B, works in a Gun-Metal piece, D, which covers flange of India Rubber Cup, **FIG. 1**. There is a pin or projection at C, which works, on the lower part of D, into which there are two hollows or grooves, . When the Pin, C, is bearing on the flat part, the Handle and Shank, B, is forced down, and the India Rubber Cup pressed against Inlet at A, and Water-Way is closed. One-quarter turn of Handle brings Pin, C, into the hollow or groove, and the Cup rises from A, as shown in woodcut, when there is a free passage for the water.

## THE UNIVERSAL TAP,

As shown on opposite page, possesses many excellent qualities. Like the Everlasting Tap, it is free from all the objections of the old Ground Key Tap, which is never tight after a few weeks' regular use under high pressure. The working parts are all divided from the water or fluid by the India Rubber Cup partition, which acts also as the Closing Valve. They possess an advantage over Screw-Down Taps, by requiring only a quarter-turn to open or close. When Crutch or Lever Handle is in line with the Tap—as in the ordinary Water Tap—it is open; when across, it is shut. It is elegant in appearance and very durable, as well as moderate in price, when quality is taken into consideration.

## THE UNIVERSAL SWAN-NECK, OR TUBE COCK,

Is constructed on a somewhat similar principle, but with only one notch or groove in the Gun-Metal Socket part, so that the Tap is only open for water supply when it is fully turned up; and at no other time should a Tube Cock be open. The part B, in section opposite, is, in this case, hollow for water passage through the Tube or Swan-Neck; and, in this instance, instead of working inside a solid Cup, it works through a conical Valve inside, which serves as a packing in screwing the parts together, and the higher the pressure the tighter it gets in embracing the part corresponding with B, in section opposite.

The annoyances of leakage and repairs of the old Swan-Neck, as used in Glasgow kitchens, is too well known to require comment. Various contrivances have been introduced, but all more or less defective till Mr. Ross introduced his last improvement on this UNIVERSAL TUBE COCK.

## THE HYDROSTATIC BALL-COCK, ROSS'S PATENT,

Works on same principle as the Self-Regulating Closet Valve. The Ball Float has only to resist the pressure of 1-16th inch water-way from inside of India Rubber Cup. A 3-inch Ball Float, with short lever, is sufficient for even a 2-inch Ball-Cock. The advantages are—the Cock works full water-way till cistern is at the full point, and a fall of water in cistern of one to two inches puts it full on: cannot stick or set fast, and is very durable.

MAY BE HAD OF ALL RESPECTABLE PLUMBERS THROUGHOUT SCOTLAND. BUT WHERE THEY CANNOT BE GOT FROM PARTIES WHO MAKE THE OLD SORT, THEY WILL BE SUPPLIED DIRECT.

# HART'S PATENT BURNER.

## WHOLESALE DEPOT FOR SCOTLAND AND IRELAND.

*Sold Retail by every respectable Ironmonger and Gasfitter in the Kingdom.*

**Price 2s. Each.**

This very complete and simple apparatus is a great desideratum to all consumers of Gas. It can be applied to any Gas-fitting in a few moments by the most inexperienced hand. Its construction is so simple, that it cannot be deranged in any way. The saving effected—from 5 to 35 per cent.—will defray its own cost in from one to three months. The evil which necessarily arises from the great variation of pressure in the mains, is remedied by means of the Economizing Gas Burner, producing an illuminating power far superior to any other (varying in degree from 10 to 150 per cent., as proved by experiments made with photometer). This is produced by means of a simple apparatus fitted within the Economizer, which effectually checks the undue pressure, and so allows the Gas to permeate with its natural velocity; this being attained, all noises caused by overdue pressure are obviated, and any flickering prevented, at the same time preserving the Globes from breakage.

Hitherto the objection to the introduction of gas into private houses has been, that it develops a hot and very oppressive vapour; all flame naturally generates heat, but by the use of Hart's Patent Economizing Gas Burner, the Gas is so supplied that it is impossible for it to escape, either as smoke, or in a state of semi-combustion, thus preventing those noxious vapours which are injurious to health, and so destructive to works of art.

## TESTIMONIALS.

"Polytechnic Chemical School, London.

"This is to certify that I have carefully conducted a series of experiments with various Gas Burners in present use, and find that 'Hart's Patent Economizing Gas Burner' is the most economical of all, producing, when compared with others, a saving of 40 per cent.

"Signed this 14th December, 1858,

"EDW. V. GARDINER,

Professor of Chemistry, &c., &c.

"309 Regent Street."

"I have Mr. Hart's Gas Economizing Burner fitted to every branch in my house, and can speak in the highest terms of its success. The light is perfectly steady, and the flame more brilliant, with perfect combustion, so that the air is by no means oppressive as formerly: the ceilings have no chance of being blackened, and the gilt frames and furniture cannot now, as before, be injured. I most warmly recommend their adoption.

"WILLIAM V. PETTIGREW, M.D.,  
Hon. F.R.C.S. Eng.

"Junior United Service Club, London,

"Secretary's Office, 21st Jan., 1859.

"SIR,—After a long course of experiments with your Patent Economizing Gas Burners, the

result of which is highly satisfactory, the Committee have decided on their adoption throughout the Club, and I herewith enclose order for same. —I am, Sir, your obedient servant,

"HUBERT G. DE CARTERET, Sec.

"MR. H. W. HART, 69 Fleet Street."

"44 Gloucester Square, Hyde Park,  
"January 21, 1859.

"Major-General Moncrieff has had Mr. Hart's Patent Gas Burners fitted in his house for several weeks past, and has great pleasure in testifying to their efficiency. As far as Major-General Moncrieff can judge, they fully come up to the description given of them by the Patentee, and are very much superior to any burner Major-General Moncrieff has yet seen tried.

"To MR. HERBERT WILLIAM HART."

"Parthenon Club, London.

"Secretary's Office, 14th March, 1859.

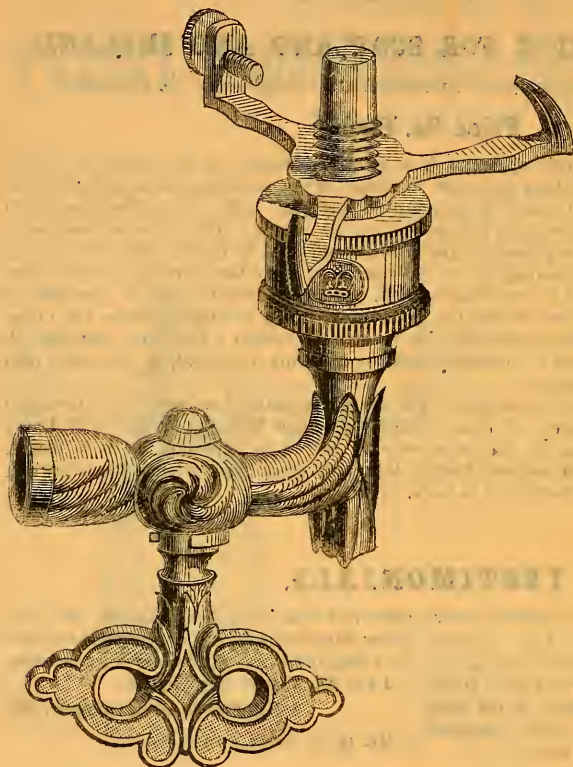

"SIR,—I beg to inform you that the trial of your Patent Economizing Gas Burners has been very satisfactory, and I have therefore to request that you will fit them throughout the Club without delay.—I am, Sir, your obedient servant,

"WILLIAM HENRY DE CARTERET.

## EXPLANATION OF

## VERTICAL SECTION.

(Not Full Size.)

The Governor is set to meet all ordinary pressure; but to regulate it for very high or low pressure, it only requires A to be unscrewed from B, and the plate C screwed a little up to decrease the light, and down to increase it; this being done by the Fitter when first applied, will not require any further attention.

FULL SIZE, 925.

Prices from 1s. 6d. each upwards.

To be had of all respectable Gasfitters and Ironmongers.

WILLIAM JOHNSTON, 49 MITCHELL STREET, GLASGOW.

# NEAL'S

## PATENT GAS-LIGHT GOVERNOR,

AND

### PURE ADAMANTINE BURNER.

The following are some of the advantages which result from its use, viz. :—

- 1st, The flow of gas to the burner is governed in just proportion to the power of consumption.
- 2d, The unpleasant noise and flickering of the flame, complained of with the ordinary Burner, is prevented.
- 3d, A perfect combustion of gas is insured, which, if not consumed, is injurious to health and destructive to works of art.
- 4th, The illuminating power of the gas is greatly increased.
- 5th, A considerable saving is effected in the quantity of gas consumed.

This Invention is equally applicable to Argand, as well as Jet Burners, and there is nothing used in its construction which can oxydize or corrode, as the passage through which the gas passes is of pure White Adamantine, which cannot be acted upon by heat or acid.

It is invaluable in a sanitary point of view, as the impurity of the air arising from the smoke and unconsumed noxious gas which pass through the ordinary Burner is prevented, and perfect combustion insured.

The Governor is NEW, UNIQUE, perfectly simple in construction, and ornamental; it can be applied to a Drawing-room Chandelier at half the cost of other Gas Regulators now offered to the public.

The pressure of Gas can be regulated at pleasure by the most inexperienced hand, by simply tightening or loosening the screw inside the cup at the under part of the Governor; as described with Section.

BY

WILLIAM JOHNSTON,

METAL MERCHANT,

49 MITCHELL STREET, GLASGOW.

THE leading Newspapers of England and Scotland have given long and very favourable notices of this CHART, from which are subjoined some short extracts:—

"The manner in which Mr. Johnston has accomplished this extremely tedious task, reflects the highest credit upon his tact and judgment. The sheet presents at one view an immense amount of information, of the greatest utility to all connected with the metal trades, the authorities quoted as having been consulted in its compilation being sufficient guarantee for its accuracy. Amongst the most important features, we may mention a diagram giving the prices of the principal metals on the first Saturday of each month during the last sixteen years, and tables giving the average prices for each year during the same period. There are also tables of the specific gravity, melting point, discoverer's name, and date of discovery of the several metals; with their order of hardness, ductility, malleability, heat-reflecting, and heat-conducting powers—electrical conduction, fusibility, tenacity, &c.; the Birmingham wire and metal gauges, and the modern Belgian zinc gauge, with their dimensions in decimals of an inch; thickness and weight of the several metals, tubing, &c.; and their strength and power to resist pressure. The sheet, in fact, contains as much information in a condensed and tabular form as could be gleaned from a large number of books and tedious research."—*Mining Journal*, London, March 15.

"A monument of industry and knowledge of this important branch of commerce and trade, perhaps as durable, and certainly more universally useful, than many of those erected to commemorate the names and acts of merely local celebrities. Contains such an amount of information, of all kinds, connected with metals in every state, and in many manufactured forms, that it will serve the purposes of a dictionary and ready-reckoner to all persons engaged in metallurgical processes—to metal manufacturers, mechanics, and merchants."—*Glasgow Herald*.

"Succinct and comprehensive. An extraordinary vidimus—invaluable for the counting-house of parties engaged in the metal industry of this country."—*Glasgow Citizen*.

"Large, elaborate, and beautifully printed. A more valuable adjunct to the business of the dealer in metals, or to the experiments of the man of science, could not well be conceived."—*Daily News*.

"No BANK, HOTEL, or PUBLIC INSTITUTION should be without one copy, at least. So systematized, that no person can err in consulting it. Considering its dimensions, accuracy, and clearness, the chart is amazingly cheap."—*Bulletin*.

"Embraces every point in connection with metals, which the worker or dealer in such may require to know—will, we are sure, be extensively popular. We recommend it to the public, whose business will be facilitated, by ascertaining at a glance," &c., &c.—*North British Daily Mail*.

"Can confidently recommend it to all who are connected with the metal trade."—*Birmingham Journal*.

"Must be invaluable—presents an immense amount of information."—*Manchester Examiner and Times*.

"There is not an item of practical information as to metallurgy, which will not be found in Mr. Johnston's admirably prepared and elaborate tables."—*Falkirk Herald*.

"To all who deal or work in metals it will be found indispensable. It presents, in a shape easy of reference—in fact at one view—the contents of dozens of volumes, so far as practical utility is concerned."—*Edinburgh Daily Express*.

"A vast deal of labour must have been expended in the preparation of this sheet, and it gathers together a mass of information, which must render it extremely useful to all connected with the metal trades."—*Bristol Mercury*.
