PREFACE.

THE Publishers, having brought their arduous labours to a close, beg to submit for public approval the Twenty-fifth volume of the "GLASGOW POST-OFFICE ANNUAL DIRECTORY." Several additions and improvements have been introduced with a view to increase its utility. In the General Directory, the residence or house of every person is given, in addition to the place of business, so far as this could be obtained. In former years this was done only to a limited extent, but this year, in the preliminary circular issued, the Public were informed that the house, if separate from the place of occupation, should be given, and the result has been to add materially both to the usefulness and value of the DIRECTORY. In the case of parties not having "house" added to their address, it is assumed that the place of occupation and residence is the same. The method of dealing with *Firms* has been to give the place of business *only*; but the individual members have separate entries, in which are indicated the firm they belong to and place of residence. At the same time, the number of names has again been *greatly increased*, now rendering the work so copious and complete, that it cannot fail to meet the present wants of the Public. The Suburban portion of the Volume has been supplemented by giving carefully compiled Directories of Cathcart, Hillhead, Kelvinhaugh, Pollockshields, and Tolleross, which it is hoped may prove useful.

The Publishers were glad to learn that the insertion of the Local Institutions last year gave general satisfaction; these have all been retained, and some important additions likewise made. In the list of Clergymen in the Appendix, as well as in the General Directory, the *locality* of each Church is indicated, which, to strangers and others but slightly acquainted with the City, may not be uninteresting. The Publishers have been enabled to make these and other improvements by increasing the number of hands employed in collecting the necessary information, and preparing the work for the Press, although this has not been accomplished without considerable additional expense. Thanking their Friends and Subscribers for past patronage, they trust to merit its continuance. The thanks of the Publishers are due to those Gentlemen connected with the Local Institutions for their promptitude and kindness in correcting the Lists, thus giving to the Public a very valuable appendage to the DIRECTORY.

ALMANAC AND TIDE TABLE.

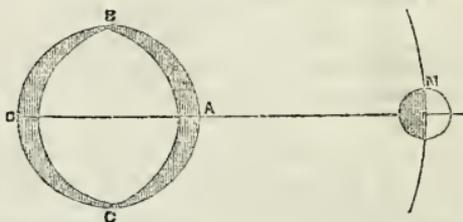

FROM JULY, 1852, TILL JULY, 1853.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean, as in the following figure.

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A: so that the tide A is produced by the waters receding from the earth, and the tide D by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now, the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Celeste*, the mean force of the sun in raising the tides is to the mean force of the moon as 1 to $1\frac{1}{2}$; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently, the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At New Moon, when she is in conjunction with the sun, and at Full Moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring

Tides take place about two days after Full Moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and, should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 h. 25 m., that is, half the lunar day of 24 h. 50 m., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 h. 50 m.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanac* for 1852 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These Tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's Phases are calculated to civil time. The civil day begins at midnight.

TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, from which the following equations are calculated, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained, by addition, as here annexed.

PHASES OF THE MOON AT GLASGOW.

New Moon,.....	8th day, 6 min. past	4 a.m.
First Quarter,.....	16th " 57 "	5 a.m.
Full Moon,	22d " 52 "	10 p.m.
Last Quarter,	29th " 39 "	5 p.m.

Apogee,..... 9th day, 3 morning.

Perigee,..... 22d " 7 evening.

The Moon's age is calculated from noon to noon of each day.

EXEMPLIFICATION AND CONSTRUCTION OF THE PRECEDING
TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

RULE.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place, from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

1. Required the time of high water at Peterhead, 9th September, 1852.

Time of high water, evening, 8th September, at Glasgow, 8 h. 22 m.
Correction for Peterhead,..... + 10 58

High water at Peterhead, morning, 9th September,..... 7 20

2. Required the time of high water at London Bridge, 12th January, 1853.

Time of high water at Glasgow, 12th January, morning, 3 h. 28 m.
Correction for London Bridge,..... + 0 20

Time of high water at London, 12th Jan., morning,..... 3 48

3. Required the time of high water at Liverpool, in the morning of the 1st of July, 1852.

Time of high water at Glasgow,..... 1 h. 1 m.
Correction for Liverpool,..... 9 35

High water at Liverpool, evening,..... 10 36

On the 18th April, 1852, the sun's longitude was $28^{\circ} 35'$, and the obliquity of the ecliptic $23^{\circ} 28'$. Required the sun's declination at noon.

To the log. sine of sun's longitude at noon, $28^{\circ} 35'$,	9.679824
Add the log. sine of obliquity of ecliptic, ... $23^{\circ} 28'$,	9.600118

The sum (rejecting 10 from the indices)
 is the sine of the sun's declination,..... $10^{\circ} 59'$, 9.279942
 North from 21st March till 22d Sept., and south the rest of the year,

Required the time of the sun's rising and setting at Glasgow, in latitude $55^{\circ} 52' N.$,
 longitude $4^{\circ} 16' W.$, on the 16th of May, 1852.

By a table of semidiurnal arcs, the approximate time of the sun's rising and
 setting is.....Rising 3 h. 48 m. Setting 8 h. 4 m.
 Longitude in time of Glasgow, $\mp 17 4''$ $\mp 17 4''$
 Reduced time,..... 4 5 8 21

The sun's declination reduced to these times is $19^{\circ} 8'$ and $19^{\circ} 10'$, and the polar
 distances are $70^{\circ} 52'$ and $70^{\circ} 50'$. The horizontal refraction, less sun's parallax,
 is $34' 17'' - 9'' = 34' 8'' \mp 90'' = 90^{\circ} 34' 8''$, or $90^{\circ} 34'$, and hence the following
 computation :—

NOTE.—The latitude of Glasgow is $55^{\circ} 52'$ north, the longitude $4^{\circ} 16'$ west of
 Greenwich; consequently there are 17 minutes of difference of time between the
 clocks of Greenwich and the clocks at Glasgow, the Greenwich time being earlier.
 The clocks of the United Kingdom are now generally adjusted to Greenwich time.

ALPHABETICAL LIST

OF

STREETS, SQUARES, PLACES, &c.

WITH REFERENCE TO THEIR SITUATION.

To avoid jostling in meeting, observe the general rule, "Right hand to the Wall;" that is, allow those you meet to pass on your left. If this is generally acted on, much inconvenience will be avoided in our crowded thoroughfares.

POSTAGE STAMPS, &c.

As the system of paying Inland Letters has been done away with, the public must use Postage Stamps.

Stamps may be procured at the General Office, Glassford Street, the Stamp-Office, and the several Receiving-Houses.

The Penny Labels,.....	at 1d. each.
The Twopenny Labels,.....	at 2d. "
The Tenpenny Labels,.....	at 10d. "
The Shilling Labels,.....	at 1s. "
The Penny Envelopes,.....	24 for 2s. 3d., or 2 for 2½d.

When the value of Stamps on a Letter is less than the amount of the postage to which it is liable, the Letter will be charged double the amount of such difference on delivery.

Stamps may be used for *Printed Votes* and *Proceedings in Parliament*, and on Foreign, Colonial, and Ship Letters, *outwards*. Letters for *parts abroad* posted with *Stamps of less value than the full amount of Postage*, if addressed to places to which prepayment is not compulsory, will be forwarded, charged with only such amount of Postage as shall be equal to the difference between the value of the Stamps and the proper rate of Postage; but letters addressed to *places abroad*, to which prepayment is compulsory, if posted with Stamps of less value than the full amount of Postage, will be sent to the Dead-Letter Office, to be returned, in all practicable cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries.

These Regulations are applicable to Newspapers, in those cases where they are liable to Postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

Redirected Letters are charged an additional postage for each redirection, according to the Prepaid Scale.

Letters to Warm Climates should be sealed with wafers, as wax destroys the letters by melting, causing them to adhere to one another.

No Letter, when once posted, can be given up to any but the person to whom it is addressed, neither is any person allowed to alter the address of a letter after being posted.

Adhesive Stamps should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly in water, to shake off the water immediately, and to press the label upon the letter with a piece of clean blotting paper. *When the gum is dull in appearance, it will require rather more time and moisture to make it stick firmly, than when it is glossy.* The purpose of wetting the label *wholly*, is to counteract the tendency it has to curl up from the letter, when one side only is wetted, a tendency caused by the expansion of that side as it imbibes the moisture.

PREPAID RATES OF POSTAGE.

Letters *not exceeding Half an Ounce* in weight, 1d.; *One Ounce*, 2d.; *Two Ounces*, 4d.; *Three Ounces*, 6d., and so on, *two rates* being added for *every ounce*. Inland Letters or Packets put *unpaid* into the letter boxes, are charged *double* the prepaid rates of postage. Letters having an insufficient amount of stamps affixed are charged with *double* the amount of the *difference between the stamps affixed and the prepaid rates*.

LIMITATION OF WEIGHT.

A letter to pass *unpaid* by the post must not exceed *Four Ounces*. In the event of any *unpaid* letter above the weight of four ounces being posted, it will be charged with *double* the *prepaid* rates of postage; if *insufficiently paid*, it will be charged with *double* the amount of the *difference between the stamps affixed and the prepaid rates*, and *thus charged*, "shall and may be *detained and opened*, and, at the *option of the Postmaster-General*, shall be either returned or given up to the *sender* thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination."—*Treasury Warrant*, 22d October, 1847.

LIMITATION OF SIZE.

A letter to pass by the post, either *paid* or *unpaid*, must not exceed the dimensions of *twenty-four inches* in length, or breadth, or width, or depth. Any letter above these dimensions may, if *fully paid*, be *detained and opened*, or forwarded at the *option of the Postmaster-General*. Any letter *unpaid*, or *insufficiently*, will be taxed precisely after the scale of charge mentioned in the preceding paragraph, as applicable to *unpaid* letters exceeding four ounces weight, and *thus charged*, be either *detained and opened*, and returned to the *sender*, or forwarded, at the *option of the Postmaster-General*. The only *exceptions* to the foregoing regulations as to size and weight are in the case of—1. Parliamentary proceedings or Addresses to Her Majesty. 2. Petitions to either Houses of Parliament, forwarded to any Member of such House. 3. Printed votes or proceedings of Parliament. 4. Letters or packets to or from public departments or public offices in Her Majesty's service. 5. Letters, &c., to or from places abroad.

All persons sending letters by the post *unpaid*, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a Magistrate.

Printed votes and proceedings in Parliament are charged at the following rate, between places in the United Kingdom, and between the United Kingdom and the Colonies, when conveyed by packet:—

Not exceeding 4 ounces,.....	1d.
Exceeding 4 ounces, and not exceeding 8 ounces,.....	2d.
Exceeding 8 ounces, and not exceeding 12 ounces,.....	3d.
And so on in proportion. Prepayment optional.	

SERVICE OF PARLIAMENTARY NOTICES.—These notices may be sent through the Post, provided they are posted on or before the 12th December, at the chief offices

of London, Dublin, and Edinburgh, or any of the following offices:—Birmingham, Bristol, Exeter, Lincoln, Liverpool, Leeds, Manchester, Newcastle-upon-Tyue, Norwich, Shrewsbury, Glasgow, Aberdeen, Inverness, Belfast, Cork, and Athlone. The words, "Parliamentary Notice," must be legibly printed on the face of the letter, the postage must be prepaid by means of Stamps, and a Registration Fee of 6d. at the time of posting, which may be known by applying to the above offices. Duplicate Lists of the Addresses must be sent with the Notices, which must be arranged in the same order as entered on the lists.

Letters of Soldiers and Sailors (except on letters addressed to the United States, which are charged 3½d.) remain unaltered, their privilege being restricted to half an ounce in weight.

INLAND BOOK POST.

Printed Books, Magazines, Reviews, Pamphlets, whether British, Colonial, or Foreign; Maps, Prints, Paper, Vellum, Parchment, &c., may be transmitted by Post, within the United Kingdom, at the following rates:—

For each Packet not exceeding 1 lb., 6d.; exceeding 1 lb. and not exceeding 2 lbs., 1s.; exceeding 2 lbs. and not exceeding 3 lbs., 1s. 6d., and so on. Provided, however, the following conditions be carefully observed:—1st. Every such Packet must be sent without a cover, or in a cover open at the ends or sides. 2d. It must not contain any letter, sealed or open, nor any sealed enclosure whatever. 3d. It must not exceed two feet in length. 4th. The Postage must be prepaid in full, by affixing outside the Packet or its cover the proper amount of Stamps.

The following additional facilities have been granted since 1st March, 1852. A Book Packet may contain any number of separate Books, Maps, or Prints, and any quantity of Paper, Vellum, or Parchment; and the Books, Maps, Paper, &c., may be either Printed, Written, or Plain, or any mixture of the three. Further, All legitimate Binding, Mounting, or Covering of the same, or of a portion thereof, will be allowed, whether such Binding, &c., be loose or attached; as also Rollers, in the case of Prints, Markers (whether of paper or otherwise) in the case of Books; and in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto.

FOREIGN BOOK POST.

Printed Books, Magazines, Reviews, and Pamphlets (whether British, Colonial, or Foreign), may be sent to British West Indies; Ceylon, Gibraltar, Hong Kong, Ionian Islands, Malta, *via* Southampton; Bermuda, Canada, *via* Halifax; Capetown, *via* Plymouth; Newfoundland, Nova Scotia, *via* Halifax, at the following rates:—

For each Packet not exceeding ½ lb., 6d.; exceeding ½ lb. and not exceeding 1 lb., 1s.; 1s. being charged for every lb. or fraction of a lb. Provided, however, that the following conditions be observed:—1st. Every such Packet must be sent without a cover, or in a cover open at the sides or ends. 2d. It must contain a single Volume only (whether printed Book, Magazine, Review, or Pamphlet). 3d. It must not exceed two feet in length, breadth, or depth. 4th. It must have no writing or marks upon the cover, or its contents, except the name and address of the person to whom it may be sent. 5th. The Postage must be prepaid in full, by affixing outside the Packet or its cover the proper amount of Stamps.

The following Instructions have been addressed to all Postmasters, and are strictly acted upon:—

"GENERAL POST-OFFICE.—On and after 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, or which you have every reason to believe, contains any of the following articles, viz. :—Any Glass, or Glass Bottle; any Razor, Scissors, Knife, Fork, or other Sharp or Pointed Instrument; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance; any Bladder, or other Vessel containing Liquid; or any article, matter, or thing whatsoever, which might, by pressure or otherwise, be rendered injurious either to the Officers of the Post-Office, or to the contents of the Mail Bags; you will refuse to receive such Letter or Packet.

"In the event of any Letter or Packet being taken in by you, and you do not,

until *afterwards*, discover that it contains any article as above described, or should any such Letter or Packet be deposited in the Letter Box, *you will not forward it on its destination, but you will detain it in your Office*, and inform me by the *first Post*, of the circumstances, stating the precise address of the Letter or Packet, and its contents, or what you suppose them to be, when proper steps will be taken in this Department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

“Should any Letter or Packet, containing any article as before-mentioned not be discovered by the *Postmaster at whose Office it may be posted*, but be forwarded on to its destination, the *Receiving Postmaster*, to whose town it may be addressed, upon discovering, or *having every reason to believe*, that its contents are such as those alluded to, *will not send it out for delivery, but will detain it in his office*, reporting the circumstance by the *first Post*, and stating the nature of its contents, when he will be duly instructed in what manner to dispose of it.”

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

All Newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers or covers, after the same shall have been published, other than the name and address of the person to whom they are sent; nor anything enclosed or concealed in either newspaper or cover. *Newsvenders only* may *print* their names and addresses thereon. Newspapers may be examined by the Officers of the Post-Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage to which a letter of the same weight would have been liable. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanour.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.

“And be it further enacted, that in all cases in which a question shall arise, whether a printed paper is entitled to the privileges of a Newspaper, or other publication, hereby privileged, so far as respects the transmission thereof by the Post, under the Post-Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final.”

MARKS OR WRITING ON NEWSPAPERS.

Writing or marks are allowed on a *Newspaper* passing by Post between *any one part of the United Kingdom, and any other part*, provided that a postage of one penny be paid, by means of a stamp conspicuously fixed outside the cover or folded Newspaper. But the privilege is confined to writing or marks on the *Newspaper itself*, and is not to extend to the cover. Any writing or marks other than the address on which, or (if the Postage be not prepaid as above) on the Newspaper itself, will subject the Newspaper to the same rate of Postage as that to which an unpaid letter of the same weight is liable.

Newspapers posted in Town, addressed to any part within the town delivery, charged, paid or unpaid, 1d.

Newspapers printed or published in any of the Channel Islands, or in the Isle of Man, and sent by the Post between any of such Islands and Great Britain or Ireland, or sent by the Post in Great Britain or Ireland, will be liable to the full letter rates of Postage, according to the scale for charging Inland letters, with the exception of such as are printed in the *French Language*.

NEWSPAPERS FROM THE BRITISH COLONIES

are delivered free of Postage at any place within the British dominions. Those for persons who have removed, may be forwarded by Post, free of charge, provided they have not been opened at the place to which they were originally addressed.

THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions, by her Majesty's packet-boats, free of the duty of postage, provided

the same be duly stamped, made up open at the ends, and put into any Post-Office *within seven days* after the day of publication.

Newspapers may also be forwarded to the Colonies, by private ships, for a postage of One Penny each, and to Foreign Countries for a postage of Twopence each, to be paid when posted, *under the same regulations as to date, &c.*

For days of despatch and Rates of Postage, see the Alphabetical List of Foreign Countries, commencing at page 30.

NEWSPAPERS FROM ABROAD.

Newspapers arriving from British Colonies or "Foreign Parts," to which they are despatched free, are delivered free of postage. From places abroad, to which they are *not* despatched free, they are charged on delivery, *Twopence* each; excepting those brought by the closed mail through France, which are charged *Threepence*, or *Fivepence* each. *All newspapers must be printed in the language of the country from which they are sent.*

PRINTED PRICES CURRENT, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the Colonies and Foreign parts at One Penny each, provided they contain simply the names and prices of articles; the names and addresses of the parties dealing in such articles must be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written, or printed, immediately above the address; and any other writing than such address, name, initial, or mark for reference of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of postage.

Every Price Current to be posted *within seven days* after each publication; and no one can be forwarded a *second* time without being charged with full letter postage.

All other PRICES CURRENT, AND COMMERCIAL LISTS, published in the United Kingdom, *if duly stamped, and under the weight of two ounces*, will be treated as Newspapers, and enjoy the Newspaper privileges, *the sanction of the Postmaster-General having been previously obtained.*

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, France, Belgium, and Holland, are now admitted into the United Kingdom at the reduced rate of 1d. each, whether conveyed by Packet or by Private Ship.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from any foreign country, except France, Belgium, Holland, Prussia, and China, are admitted into the United Kingdom at the reduced rate of 2d. each.

PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, *passing through the United Kingdom*, are liable to a Postage of 2d. each, to be paid at the time of being Posted.

PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, *passing through France, Belgium, or Holland*, to the United Kingdom, are liable to a Postage of 2d. each.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, to China, *via Southampton*, 2d. each; *via Marseilles*, 3d. each. From China, *via Southampton*, 3d. each; *via Marseilles*, 5d. each.

REGISTRATION.

Letters, whether containing Coin or not, can be registered, on payment of a fee of 6d., *in addition to the Rates of Postage*, Inland, Colonial, or Foreign. On those for delivery in France, the charges, besides the Registration Fee, will be the English rate to France, in addition to double the French rate. A printed acknowledgment will be given to any person registering a letter. Registered letters will be taken at the Bar Window and the Receiving-Houses *within half-an-hour of the closing of the Box for the particular Mail* by which they are to be despatched. Letters for Registration addressed to places *within the United Kingdom*, must be paid by affixing a sufficient number of Stamps, and the Registration fee must be paid in Stamps; when addressed to *parts abroad* they may be paid either in money, or by means of Postage Stamps.

In case of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the port of shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post-Office undertaking to provide for their security till they shall have been delivered,

if addressed to France, and as long as they remain in the French territory, if passing through France.

The arrangements for carrying out the system of registration have been made with the view of insuring the safe delivery of Registered Letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge, in writing, their receipt. *Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, &c., should invariably secure their transmission by Registration; and persons having occasion to send by Post small sums, are recommended to make use of*

THE MONEY ORDER OFFICE,

which is open *every week-day*, fast-days excepted, from 9 a.m. till 5 p.m. The charge for such Orders is 3d. on sums not exceeding *two pounds*, and 6d. on sums between *two and five pounds*. No order will be given for sums beyond this amount; but if the sum to be transmitted exceeds *five pounds*, as many orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an order is payable is inconvenient, if the order is receipted (his or her name written in full), and the person presenting the order be able to give full information as to the Christian name, surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person, unless the Christian name of such person can be given by the party obtaining the order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. In cases of *Firms* the initials only are required.

A Money Order must be presented for payment before the end of the Second Calendar Month after that in which it was issued, (for instance, if issued in January, it must be presented before the end of March,) otherwise a new order will be necessary, for which a second commission must be paid; and if it be not presented for payment before the end of the Twelfth Calendar Month after which it was issued, the money will not be paid at all.

After an Order has been once paid, by whomsoever presented, the office will not be liable to any further claim.

The towns upon which Money Orders can be drawn are marked in the lists.

COLONIAL AND FOREIGN MAILS.

A single rate of Postage is given for each country.—See also Alphabetical List, page 30.

There being no bags despatched for London on Saturday, when any of the dates for the London, Southampton, or Dover Packets fall upon that day, reference must be made to the Alphabetical List for information whether the Letters should be posted on the previous Friday, or on the ensuing Sunday.

Letters for Foreign Countries, the prepayment of which is required, when put into the unpaid box, or left at the office with less than the full postage, are sent to the Dead Letter Office, and returned to the writer, when his address can be ascertained.

MAILS BY PRIVATE SHIPS.

SHIP LETTERS.—The single rate to places beyond sea, when conveyed by private ship, is 8d. under half an ounce; 1s. 4d. under an ounce; 2s. 8d. under two ounces; and so on.

Letters for any Foreign Port or Country, to which there are Regular Packets, will not be forwarded by Merchant Vessels, unless so directed.

Letters to the following places are sent by Private Ships only, unless addressed by some other route:—Cape Coast Castle, Fernando Po, Madagascar, New South Wales, New Zealand, River Gambia, St. Helena, and Van Diemen's Land.

Owners, Consignees, or Charterers (resident in the United Kingdom), and the

Owners, Consignees, and Shippers of Goods on board vessels inward-bound, are entitled to receive their letters free from sea postage, to the extent of six ounces. In case of vessels from *Ceylon, Mauritius, the East Indies, and the Cape of Good Hope*, the privilege extends to twenty ounces in weight. The Owner, Charterer, or Consignee, must be described as such in the address; and in case of Owners, Shippers, or Consignees of Goods, it must appear by the ship's manifest that they have goods on board.

A penalty of Ten Pounds is incurred by parties *falsely* superscribing a letter as Owner, Shipper, Charterer, or Consignee.

AMERICA, United States of, payment optional, by British Mail Steam Packets from Liverpool, every Friday, 7.20 p.m., *alternately to Boston and New York*. These packets return at similar periods from Boston and New York; 1s. not exceeding $\frac{1}{2}$ oz., and so on; or by United States Packet, *via* Southampton, at the same rates. Letters addressed "*By Private Ship*," may also be sent by any outward-bound vessel; postage 8d. not exceeding $\frac{1}{2}$ oz. Letters may also be forwarded by the "*United States Contract Packets*;" Newspapers, by Packet, 1d. each; by Private Ship, 2d. each. Periodical Works, not of daily publication, and Printed Pamphlets, may be sent, if prepaid and open at the sides, at the rate of 1d., 6d., and 8d., under 2, 3, and 4 oz. respectively. No Periodical Work to exceed 16 oz., nor Printed Pamphlet to exceed 8 oz. *Note.* — All Letters addressed to the United States, and *not directed to be otherwise sent*, will be transmitted by the first packet, whether British or United States, which is despatched after they are posted; but letters specially directed "*by British Packet*," "*by United States Packet*," or by any particular vessel named, will be forwarded in accordance with the desire thus expressed by the writers. The British Mail Packets *on the New York line*, will proceed *direct* from Liverpool to New York, and from New York to Liverpool, without calling at Halifax. Letters and Newspapers, however, for Nova Scotia, New Brunswick, and Prince Edward Island, may still be forwarded *in closed mails* by these Packets, *if specially addressed* "*via New York*," or "*via the United States*;" but letters and newspapers not so addressed will be sent in the Regular Mails to Halifax by the Packets proceeding from Liver-

pool *via* Halifax to Boston. The United States Mail Packets, as well as the British Packets, will convey closed mails for Canada, New Brunswick, Nova Scotia, and Prince Edward Island, and letters and newspapers will be forwarded in such closed mails, if specially addressed "*via New York*," or "*via the United States*." Letters for *Canada*, however, must, in addition, bear the words, "*by United States Packet*." Letters, &c., for Bermuda and Newfoundland, will be forwarded only by the Packets proceeding to Boston; the Mails for Bermuda will be despatched from Halifax immediately after the arrival of the Packet at that port, and those for Newfoundland will be despatched on the arrival at Halifax of the homeward Packet from Boston.

FOREIGN CITIES AND PRINCIPAL PLACES

TO WHICH MAILS ARE DESPATCHED.

On reference to the kingdom or country in the preceding list, commencing at page 30, full information with reference to the despatch of *Letters* will be found. For instance, "Aalborg, Denmark," under the head "DENMARK," are the various modes of despatch, the postage by each route, and instructions as to the manner in which letters should be addressed. As all the places in France have a uniform rate of postage, when paid in this country, it has not been thought necessary to include many of the French Post Towns.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary manner before the Justice of Peace Court, to the extent of £5; and, before the Sheriff Courts, to the extent of £8. 6s. 8d.

The first step is set forth in a complaint or libel, agreeably to a prescribed form, (the Clerks of Court will provide the necessary forms,) the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law, without special leave of the Court on cause shown.

If the defender fail to appear, after being cited, he will be held as confessed, and judgment will be given against him.

But, when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decerned for.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing, on consigning 2s. 6d., if the case be before the Justices; and the expense decerned for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender in his personal presence, diligence may proceed against him by arrestment instantly; and by pointing and sale, at the end of ten days, before the Sheriff; and pointing and sale, instantly, before the Justices.

If decree be given against the defender in his absence, pointing and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff and of the Justices may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitur, or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrestments; but in such actions, both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or, if there be no Circuit Court, by the

High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable, by a reduction before the Court of Session, on the ground of malice and oppression, on the part of the Justices; and such reduction will only be competent for one year, and finding caution for costs.

No person should be exempted from the jurisdiction of Justices or Sheriffs, in such cases, by reason of privilege as a member of the College of Justice.

WESTERN TRAINING ACADEMY, THISTLE STREET, SAUCHIEHALL ROAD.

THIS INSTITUTION is established for the purpose of Educating the CHILDREN of the WEALTHY CLASS on that system of Bible, Moral, and Intellectual Training, which has been so successfully carried out in the NORMAL SEMINARY, and so extensively adopted throughout England and the Colonies.

RECTOR.....JAMES LONG, M.A.

LADY SUPERINTENDENT.....MRS. RUTHERFORD.

PUBLIC CLASSES.

These consist of the following departments:—

INITIATORY.

For Pupils (Boys and Girls) from Three to about Seven Years of Age.
JAMES BAILEY, MASTER, (from the Normal Seminary.)

JUVENILE.

Junior Division for Pupils (Boys and Girls) from Seven to about Ten Years of Age.
Senior Division for Pupils (Boys and Girls) from Ten to about Fourteen Years of Age.
JAMES LONG, M.A., MASTER, (from the Normal Seminary.)

WRITING AND ARITHMETIC.

Divisions as in the *Juvenile Department*.

JOHN LAIDLAW, MASTER, (from the Normal Seminary.)

CHARLES FRAZER, ASSISTANT.

MISS ANDERSON, ATTENDANT ON THE YOUNG LADIES.

By these arrangements, it will be observed, there is a *uniformity of system* secured which must greatly facilitate the progress of the Pupils. The Lessons are also in every case carefully adapted to their capacity. The Children in the *Initiatory* are never confined to their Classes for more than an hour at a time; and Oral Gallery Training Lessons are in part substituted for those from books at each stage of the course. The Pupils are thus relieved to a great extent from burthenome lessons at home, and are left more at liberty to enjoy the society of their Parents and of the Family; and the Trainers are enabled at the same time to impart a greater amount of general knowledge, and to communicate it in a more interesting and instructive manner. The great object of the system is not only to develop and strengthen the Physical, Intellectual, and Moral Powers of the Young, but to carry out Family and Social Training, by making School, as far as possible, part of the Home of the Children.

Mid-day play-hour from Twelve till One o'clock, during which time the Pupils take Luncheon together; and Play under the superintendence of the Teachers, with a view to the more efficient carrying out of their Physical and Moral Training.

MECHANICS' INSTITUTION, NORTH HANOVER STREET.

INCORPORATED BY SEAL OF CAUSE.

This Institution was founded by the Mechanics of Glasgow, for obtaining instruction in the useful branches of knowledge, especially as connected with the arts, and was opened to all classes of the community on November 5, 1823.

A fee of 5s. entitles to the rank of membership, to attend the course of Lectures on Chemistry or Mechanics, and to receive books from the Library, consisting of 6,000 volumes, chiefly scientific works. The management is invested in a committee of nineteen; sixteen of whom are chosen by ballot from amongst the members, the remaining three being selected from the list of Honorary Councillors.

In addition to the courses on Chemistry and Natural Philosophy, there are now Lectures on Popular Anatomy and Physiology; there are also Classes for Mathematics, Drawing, and Perspective. The ticket of each of these courses, which consists of twenty-five lectures, entitling to the use of the Library during the course, is 5s. There is also a Reading Room in connection with the Institution, in which there is above thirty of the best periodicals received, and the use of which is granted to the members of any of the classes gratuitously.

Honorary Patron, The Right Honourable Lord Brougham.

Vice-Patron, John Leadbetter.

President, William Campbell of Tillichewan.

Vice-President, Thomas Gordon.

Treasurer, Mudie Macara.

STIRLING'S PUBLIC LIBRARY,
48 MILLER STREET.

Founded in 1791 by the late Walter Stirling, merchant in Glasgow, who bequeathed his own collection of books, and certain other property, to found and endow a Public Library, to be open, free of charge, to the inhabitants of Glasgow.

On the first institution of this Library, life subscribers only were admitted to the

privilege of taking out any of the books; but in the year 1848, the directors, with a view of making the Library more generally useful, agreed to admit also annual subscribers, who enjoy the same advantages as the life subscribers.

The library of Mr. Stirling, which formed the nucleus of this collection, consisted of from 600 to 700 volumes, and, besides the books purchased by the directors, the Library has received many valuable additions from various donors, among whom may be particularly mentioned the late William Jamieson, jun., and James Bogle, Esqrs.—The number of volumes in the Library is now about 10,000.

The Library is open daily from 10 to 4, and 7 to 9, excepting Saturdays, when it is closed at 12.

Life Subscription, £5 5s. Annual Subscription, 15s. the first year, and 10s. 6d. yearly afterwards.

GENERAL REGULATIONS.

1. The Board is, in all cases, payable quarterly, and in advance.

2. The regular quarterly terms are—1st January, 1st April, 1st July, and 1st October. In regard to patients at and above the rate of 15s. per week, no part of the first quarter's board shall be returned, except in the event of the patient dying before the expiry of that period, in which case it shall be in the power of the weekly committee to allow the return of such proportion of the board as, under all the circumstances, they shall consider reasonable.

3. Patients have no claim for remuneration for their labour.

4. Every patient must be provided with proper apparel. An accurate list of every article brought with the patient must, on admission, be delivered to the Steward, or Principal Attendant, to the Superintendent of the Ladies, or the Matron, according to the House in which the Patient is placed, and the name must be fully marked on each article. If any necessary part of dress should not be duly supplied, after eight days' intimation has been given that it is wanted, it will be furnished by the House, and the cost of it charged against the patient.

On applying to the Physician, the patient will be carefully and expeditiously conveyed to the Asylum, the necessary expenses being paid to the Steward by the applicant.

Patients in the West House may be visited every *lawful day* between 10 and 12 o'clock; those in the East House, who are not paupers, on Mondays, between the same hours; and patients who are paupers, on Saturdays, also from 10 till 12 o'clock. Only those who are duly authorised can be admitted to visit patients.

In order to prevent, as much as possible, chimneys taking fire, the magistrates recommend to the inhabitants to get their chimneys swept every six weeks, and not to employ or admit to their houses, or to the roof thereof, any chimney sweeper not having a badge, or who refuses to produce the same when demanded. The magistrates also recommend to the inhabitants to keep the hatchway, or other access to the roof of their houses, properly secured; and not to intrust the key to any chimney sweeper who has not a badge, in order to prevent theft and destruction to property.

BILLETING SOLDIERS.

Soldiers on the recruiting service, &c., are billeted on the houses of the inhabitants, in regular rotation, with the following exceptions, viz., Parish-ministers and Schoolmasters, Faculty of Physicians and Surgeons, Faculty of Procurators, Widows, and Unmarried Ladies not in business, and who do not keep Lodgers, and Paupers.

Occupiers of houses at £3 and under £5 yearly rent, two men for any number of days under a week; at £5 and upwards, two men for two weeks, or the remainder of the month, which may happen to be seventeen days.

Any person refusing the billet is subject to a penalty of Five Pounds.

When inconvenient to furnish the soldier with a bed, it is customary to pay a private 3d. for each night, and a serjeant 4d.

On the 4th, 5th, and 6th of the month, after the billet has expired, a penny for each day for each man will be repaid, by presenting it to the Quarter-Master, 5 Great Hamilton Street. Attendance from 11 till 2 o'clock.

INSTITUTED IN 1821.—INCORPORATED BY ROYAL CHARTER.

CAPITAL—FIVE MILLIONS STERLING.

HEAD OFFICES,

EDINBURGH, 95 GEORGE STREET.—LONDON, BARTHOLOMEW LANE.

BRITISH AND FOREIGN ASSURANCE.**P**ERSONS effecting Assurances with the Company, enjoy the following important advantages:—**PERFECT SECURITY.**

The large Capital, and nearly One Thousand Shareholders composing the Company, render the security presented to the Public undoubted.

HONOUR AND LIBERALITY IN THE SETTLEMENT OF LOSSES.

The well-known character of the Members of the Direction affords on this head every possible security.

MODERATE PREMIUMS OF ASSURANCE.

The Rates in Life Cases, for the younger ages, lower than those charged by many of the older and most respectable Offices.

The Premiums for Fire Risks are the same as those which are demanded by the first class of Assurance Companies.

PARTICIPATION OF PROFITS BY THE ASSURED BOTH IN LIFE AND FIRE.

The Profits of the Life Department, appropriated every five years, are applied to the increase of the amounts assured, or to the reduction of the future premiums, according to the choice of the Assured.

The Profits of the Fire Department, appropriated to the Assured, are distributed at the close of each successive period of five years, in the form of a per centage on the premiums which have been paid.

LIFE DEPARTMENT.

Parties may effect Assurances on a Non-Participating Scheme at reduced rates. Assurances may also be effected on the Ascending or Descending Scales, and on Joint-Lives or Survivorships.

NO ENTRY-MONEY CHARGED.**FIRE DEPARTMENT.**

The Company Insures nearly every description of Property, including Cotton, Wool, Flax, Silk, and Paper Mills, Distilleries, Print-Works, &c., at rates regulated by the peculiarities of each case.

The Rates of Premium charged by the County Fire Office are upon the lowest scale consistent with Secnrity to the Insured.

When a Policy has existed for a period of Seven Years, a return of 25 per Cent. or one-fourth of the amount or premiums paid during that period, is declared upon such policy.

The Returns paid to the present time amount to upwards of £181,000.

All Losses are settled with promptitude and liberality.

Prospectuses and full particulars may be obtained upon application to the Agents of the Office in all the principal towns of the United Kingdom, and at the Offices in London.

EDINBURGH LIFE ASSURANCE COMPANY.

HEAD OFFICE, 22 GEORGE STREET, EDINBURGH.

Established in 1823.—Incorporated by Act of Parliament.

CAPITAL, £500,000.

OFFICE IN GLASGOW, 59 ST. VINCENT STREET.

Medical Adviser,DR. PAGAN.

Agents,.....KNOX & GUILD, ACCOUNTANTS.

THE Company was established in 1823, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its varieties, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company:—

MUTUAL ASSURANCE, without liability.

The guarantee of a responsible body of Proprietors, either personally or otherwise, assured with the Office, affords the most undoubted security to all classes of Assurers.

NINE-TENTHS of the WHOLE PROFITS Septennially divisible among the Assured.

This is a larger proportion than can ever be divided by any simple Mutual Assurance Society.

AN INTERMEDIATE BONUS paid on Policies becoming Claims between one Investigation and another.

All the advantage of an Annual division is thus given, without its attendant evils.

The MOST EQUITABLE PRINCIPLE OF DIVISION.

The greatest benefits are thereby bestowed upon the oldest Policies, thus securing that first-class lives shall not suffer by any undue Bonus being paid away to those who may die early.

RATES OF PREMIUM EXTREMELY MODERATE.

The Non-Participation Scale is equivalent to a present Bonus of considerable amount when compared with most other Offices.

It will be observed, that in some instances the above Bonuses amount together to more than the sum originally insured—a feature of success of which few offices can boast.

In effecting a Policy, *No Entry-Money* or other charge is made, beyond the Premium and Stamp.

The utmost liberality as to extra licenses, consistent with a due regard to the nature of the risk incurred; and no extra within the limits of Europe.

Copies of the Report of Proceedings at last General Meeting to declare the Bonus of 1849, with Prospectus and Rates, and all information, may be obtained at the Head Office, or any of the Agencies.

FIRE BRANCH.

CAPITAL—£300,000, IN 15,000 SHARES OF £20 EACH.

THIS Society has not joined the late combination to raise the rates; and as it is a principle in its management to exclude all extreme hazard, the Society is enabled to offer the advantage of lower premiums than are now generally charged upon various important risks.

One of its distinguishing regulations is to relax the stringent terms which have recently been imposed upon Warehousemen and others holding large Premises.

The Society is purely Proprietary.

Assurances paid in advance for Five Years, will be charged Four-and-a-Half Years' Premium and Duty.

Assurances paid in advance for Seven Years, will be charged Six Years' Premium and Duty.

Losses settled liberally, and paid immediately on the amount being duly ascertained.

LIFE BRANCH.

CAPITAL—£500,000, IN 10,000 SHARES OF £50 EACH.

The Tables of this Society have been calculated with the utmost care and consideration, and will be found to present superior though just advantages to Assurances upon Young Lives. They are based upon the combined experience and practical knowledge of the principal and most successful Offices, and the Directors have adopted them after cautious deliberation.

Prospectuses, forms of Proposal, and any information respecting the terms on which Assurances may be effected, will be furnished on application to

LIFE INSURANCE.

THE RATES of this COMPANY are GENERALLY LOWER THAN THOSE OF ANY OTHER OFFICE in SCOTLAND WHICH has GIVEN a BONUS TO THE ASSURED. For the same Premium which a person aged 20 would have to pay to the Chief Mutual Offices for an Assurance of £1000, *he may obtain a Policy from the NATIONAL for £1288. 17s. ; or one for £1177. 14s., with a Right to Share in the Profits.*

At the INVESTIGATION of the Company's Life Business, made at 15th May, 1851, a LARGE SURPLUS WAS FOUND TO HAVE ARISEN, after discharging all past claims and expenses of every description. Out of the Profits realised, A VESTED BONUS ADDITION was made to every existing Policy on the Participation Scheme, varying from one to eight per cent. on the Sums Assured, and exceeding, in some cases, 64 per cent. of the Premiums paid. The following Table exhibits the additions made to some of the Policies :—

Date of Policy.	Original Sum Assured.	Bonus Added.
2d June, 1843,	£4999 19 0	£400
30th Nov., "	2999 19 0	240
12th April, 1844,	499 19 0	40
19th May, 1848,	4999 19 0	200

Any Bonus may be converted into a *present Cash Payment*. A liberal value will be given.

An INVESTIGATION and DIVISION of PROFITS will take place ANNUALLY in future, and every Participating Policy in existence at 15th May, in each year, will share in the Division.

On application, Policies may be admitted to very important privileges, whereby, after

the lapse of a certain period, they shall be *absolutely indefeasible, and not liable to extra premiums for residence in any part of the world.*

Attention is specially directed to the Company's NON-PARTICIPATION SCHEME, by which fixed sums without additions may be secured at very moderate rates.

FIRE INSURANCE.

Property Insured on the usual moderate terms. *Prompt Settlement of Losses.* Policies may be transferred from other Offices without expense.

A REPORT OF THE RECENT INVESTIGATION AND DIVISION OF PROFITS MAY BE HAD ON APPLICATION.

LIFE DEPARTMENT.

PARTICIPATING SCHEME.—TWO-THIRDS OF THE PROFITS, WITHOUT ANY DEDUCTION FOR CHARGES OF MANAGEMENT, ARE DIVIDED QUINQUENNIALY AMONG THE ASSURED.

The following Table shows the Additions made to Policies of £1,000, which have been in existence Seventeen complete years, from 1st August, 1834:

Age when Assured.	Additions.	Total Sum Payable in case of Death.
30	£250 1 6	£1250 1 6
35	254 2 6	1254 2 6
40	259 6 11	1259 6 11
45	267 11 10	1267 11 10
50	281 12 7	1281 12 7

Thus averaging upwards of one and a-half per cent. per annum on Policies which have been in existence from the commencement of the Profit Scheme in 1834, a period of Seventeen years.

The Bonus may be applied, at the option of the Assured, in any of the following ways:—

- I. *It may be added to the Sum Assured; or*
- II. *Applied in Reduction of future Premiums; or*
- III. *Surrendered for a present payment in Cash.*

NO ENTRY-MONEY CHARGED.

LIBERAL SUMS ALLOWED FOR THE SURRENDER OF POLICIES AFTER THREE PREMIUMS HAVE BEEN PAID.

ASSURANCES MAY BE EFFECTED ON THE INCREASING OR DECREASING SCALE OF PREMIUMS, AND UPON JOINT LIVES AND SURVIVORSHIPS.

ASSURANCES WITH PARTICIPATING IN THE PROFITS ON A REDUCED SCALE OF PREMIUMS.

THE SCOTTISH PROVIDENT INSTITUTION is the *only Office which combines the advantages of Mutual Assurance with Moderate Premiums.*

In many Offices (including even some of the older Mutual Offices) Assurers are offered the choice of a Moderate Scale of Premiums, without any claim to Share in the Profits, or of a right to participate in these at an excessive rate of Premium. Assurers with the SCOTTISH PROVIDENT INSTITUTION are the sole recipients of the Profits, and at rates of Premium equally moderate with the *Non-participating* scale of the Proprietary Companies.

The principle on which the Profits are divided is at once safe, equitable, and favourable to good lives—the Surplus being reserved for those Members who alone have made surplus payments; in other words, for those whose Premiums, with accumulated Interest, amount to the sums in their Policies.

These Members, sharing along with a comparatively small number, and not, as is usual, in common with the great body of the contributors, may reasonably anticipate very considerable Additions, notwithstanding the lowness of the Premiums.

34	2 5 7	1 18 6	44	3 3 3	3 12 10

By the first of these Scales, a person of the age of 30 may secure £100 at death, for a yearly payment, during his life, of £2. 1s. 6d. The same amount of Premium which, at that age, is charged in other Scottish Mutual Offices, for an Assurance of £1,000, will secure a policy in the SCOTTISH PROVIDENT of £1,230. By the Second Scale, he may secure the same sum at death, for a yearly Premium of £2. 14s. 6d., *ceasing on his attaining the age of Fifty*, being thus entirely relieved of payment before he has passed his prime, and that for nearly the same Premium as other Mutual Offices require for the whole of life.

THE THIRTEENTH ANNUAL GENERAL MEETING OF THE CITY OF GLASGOW LIFE ASSURANCE AND REVERSIONARY COMPANY was held in the Company's Office, Glasgow, on Tuesday, the 30th March, 1852, in Terms of Act of Parliament.

The Manager read a Report by the Directors, containing the Results of the Business transacted by the Company, for the Year ending 20th January last, from which it appeared that a large amount of new Assurances had been effected—THAT THE ANNUAL REVENUE FROM PREMIUMS ALONE IS NOW NEARLY

THIRTY-EIGHT THOUSAND POUNDS;

AND THAT THE SUMS ASSURED AMOUNT TO UPWARDS OF

ONE MILLION ONE HUNDRED THOUSAND POUNDS.

The Results of the Annual Investigation into the Company's Affairs were also given in the Report, and, from the continued success which has attended the Company, the Directors were again enabled to declare a Bonus Addition, for the Year ending 20th January, 1852, of One and a Half per Cent. on the sums Assured under all Policies opened on the participating principle.

EXTRACT FROM THE "POST MAGAZINE."

We know of no other Institution for transacting Fire Assurance business started since the passing of the Registration Act, that can be at all compared with it, either in respect of the extent, or the success of its operations. The full exposition of receipts, expenditure, profits, dividends, and accumulation, furnished in the Annual Reports of the *Royal* affords unerring evidence of the state of prosperity which we are

desirous to offer as an illustration of what can be accomplished by energy, good management, and high reputation.

Looking at the action of the Society from its formation in 1845, we find that at the end of 1848 the accumulated profits amounted to the enormous sum of £108,641 14s. 11d. Of that amount it was determined to appropriate £89,280 as a bonus addition to the original paid-up capital of £178,560, being a clear realized profit of 50 per cent. in 3½ years.

EXTRACT FROM THE "REPORTER."

The Report before us pre-eminently justifies the opinion we have previously expressed, that the Royal Assurance Company ranks at the head of *all* Assurance Companies projected, and got into working order during the last half-dozen years, and has transacted, and is transacting, an amount of business which very many of the "elder" offices have never approached, and are not likely to do so for some time to come. In both the Life and Fire Branches, an enormous, we confess an almost incredible increase of business is exhibited, as compared with that transacted in former years. The Life Branch has also progressed most satisfactorily. The strange immunity from claims by death is perfectly remarkable, and speaks "trumpet tongued" of the diligence and care exercised by the medical officers and the directors in the selection of the lives.

LIFE INSURANCE.

The Non-Participation Department embraces every description of Insurance on approved Lives, at the lowest Rates of Premium consistent with safety.

The Participation Scheme was begun in 1840. The Premiums are much more moderate than those usually charged, so that, by transacting with this Company, an important saving is effected, equivalent, in many cases, to the highest amount of Bonus added by any office for the first Five years. Notwithstanding this, a large profit has already been realized. By the first Declaration of Bonus, as at 10th February, 1847, vested Retrospective additions, at the rate of 1½ per cent. per annum, were made to all Policies then connected with the Scheme, together with Contingent Prospective additions at the same rate to such of these Policies, including vested Bonuses, as may become claims before next Investigation. From the experience of the last two years, during which the Mortality in connection with the Participation Branch has been extremely light, the results are expected to be satisfactory in the highest degree.

AT the Annual General Meeting of the Members of this Society, held on 2d March last, the following results, as regards the Society's progress during the past year, were reported by the Directors:—

1. AS TO BUSINESS.

The number of New Policies opened with the Society during the year, amounted to 643—the total amount assured under these Policies being £412,565. 4s. 6d.

On an average of the last fourteen years, the amount of New Assurances effected had exceeded

Half a Million Sterling per Annum.

Ninety-seven Members had died during the year,—the sums assured under their Policies amounting to £105,978. 14s. 9d.; and this amount of mortality was only in the ratio of 53 per cent. of what might have been expected, according to the Tables on which the Society's calculations are based.

The Total Sums assured under the Society's existing Policies, (exclusive of Annuities and Bonus additions,) amounted to

£7,135,281. 2s. 4d.

2. AS TO FUNDS.

The Society's Capital had increased, during the year, to the extent of £140,642. 10s., and amounted, at 31st December last, to upwards of

Two Millions Four Hundred and Fifty Thousand Pounds Sterling.

3. AS TO REVENUE.

The Society's Revenue had also increased, during the year, to the extent of £12,150. 0s. 8d., and at the same date exceeded

Three Hundred and Eighteen Thousand Pounds.

The Directors consider that the above statements of themselves bear ample testimony to the high standing of the Society; and they would beg leave to refer to one or two of the principles upon which it is founded, and to which, they do not hesitate to say, this Institution is mainly indebted for the unprecedented prosperity which has attended all its operations:—

Unlike all Insurance "*Companies*," consisting of bodies of *proprietors* or *shareholders*, who receive a proportion, and, in many cases, the whole of the profits, this "*Society*" consists exclusively of its own members, each one paying into a common fund a certain annual sum (or its equivalent) in proportion to his age and the amount of his assurance.

The *Whole Profits* of the Society, therefore, belong to the Assured, and are *exclusively* devoted to their benefit.

These Profits are ascertained at periodical intervals; and in order to maintain the stability of the Institution, the Laws of the Society require that one-third thereof shall be reserved till the succeeding period of investigation, to be then included in the Profits to be dealt with in like manner.

The remaining two-thirds are converted into what is called "*Bonus Additions*"—*i. e.*, *additions to the original sums assured, and payable along with these at death*; but members who desire it, can receive the present value of these *Bonus Additions in cash*, or they may apply this value towards the *reduction and gradual extinction of the Premiums payable under their Policies*.

When Policies are of *sufficient value* to admit of it, the Directors are empowered to grant Loans on their security, of sums not less than £50.

In the event of a party becoming unwilling or unable to keep his Policy in force, the Directors are empowered to accept the surrender thereof, and to pay the party, in right of it, a sum equivalent to its value at the date of surrender.

Greatly increased facilities have lately been given to parties leaving Europe; the Extra Premium formerly chargeable for residence in certain parts having, in many cases, been either reduced or entirely dispensed with,—in these latter cases, only a small charge for risk of sea voyage being now made.

The above are a few of the leading features of this Society. The Directors might allude farther to the fact of its being *the Oldest Institution of the kind in Scotland*,—having been the means of introducing the system of Life Assurance into that part of the kingdom. Corroborative of some of the statements above, they might refer to the fact of the Society, since its commencement, having issued Policies covering Assurances to the extent of upwards of

TEN MILLIONS STERLING,

upwards of *Seven Millions* of which have been effected during the last fourteen years.

These general facts, the Directors feel assured, are sufficient to prove the high estimation in which this Institution has always been held by the public, and cannot fail to secure for the future the same amount of favour which it has so long been privileged to receive.

JOHN MACKENZIE, *Manager*.

WM. LINDESAY, *Secretary*.

THE Company offers to the Public very important advantages, and affords, by its large paid-up Capital and accumulated Fund, with a Proprietary of nearly ONE THOUSAND in number, an undoubted security for all its engagements.

The Company continues to effect FIRE and LIFE ASSURANCES, and to grant ANNUITIES and ENDOWMENTS, on the most favourable terms.

Upwards of 4000 Life Policies have been issued.

The Constitution of this Company embraces:—

I.—A MUTUAL ASSURANCE BRANCH,

The Members of which incur no liability, while they obtain the WHOLE BENEFIT of their contributions,—the sums assured being *guaranteed*, and the business conducted by the Company for a charge of 10 per Cent. upon the Premiums without any deduction whatever.

The Assured have the power, under the Act of Incorporation, to elect three of their number as Directors for the *Management and Investment* of their own funds.

The Bonus declared in 1851 (when the Institution completed its fifteenth year) was at the rate of £1. 7s. 6d. per £100 Assured, and a Policy for £1000, opened 30th April, 1837, is now increased to £1,202. 6s. 11d.

II.—A PROPRIETOR'S BRANCH,

AMONG the many advantages offered by this Company to Insurers, are the following:—

1.—The security of a large paid-up Capital, whereby all claims upon the Company are amply provided for.

2.—Prompt settlement of claims. All Fire Claims paid immediately upon the amount being examined. And all Life Claims within three months after satisfactory proof of the death of the Insured, or sooner, by arrangement with the Directors.

3.—Moderate Rates, both in Fire and Life Insurance, the Company being established on a defensive principle, and not for speculative purposes.

4.—All Life Policies may be rendered indisputable, at the time of effecting the Insurance.

Forms of Proposals, Tables of Rates, and all other information, may be obtained on application at the Offices of the Company, No. 34, New Bridge Street, Blackfriars, London; or of the Agents for Glasgow,

Since 1841 the Company have assured, it will be perceived, upwards of FOUR MILLIONS of Pounds Sterling—

£1,802,625 in the first five years, and

£2,245,470 in the second period of five years.

Or on an average for 10 years, above £400,000 per annum.

DIVISION OF PROFITS.

The Profits of the Company are ascertained every Five Years, and Additions, by way of Bonus, have been made to the Policies of Four Periods, 1835, 1840, 1845, 1850. The following are examples :—

SURRENDER OF BONUS FOR VALUE IN CASH.

According to this method, if the person assured does not wish the sum in his Policy increased, he may surrender the Bonus, and take its value in cash; that is, instead of the amount being paid with the sum assured at death, such a sum will now be given as the Directors may consider equivalent to it in present value.

In the case of the Policy of £1000 opened before 15th November, 1825, for instance, as quoted above, assuming the party to have assured at the age of 35, and to be now 60 last birth-day, the sum of £463. 7s. 9d. would be given for a surrender of the Bonus of £873, while the Policy will continue to receive its share of profits, at future investigations, as if the surrender had not taken place.

APPLICATION OF THE BONUS TO THE EXTINCTION OF ANNUAL CONTRIBUTIONS.

A person, aged 45, who assured in 1830 for £1000, has received Bonus Additions to the extent of £633. He pays a premium of £37. 7s. 6d., but wishes to apply the Bonus in extinction of the Annual Payment. His age being 65 last birth-day, he can redeem his future Premiums by surrendering £578. 14s. 9d. of his Bonus, leaving £54. 5s. 3d. to be paid along with the sum assured at death, and will receive further additions at each Investigation he may survive.

SELECT ASSURANCES.

The public are indebted to this Company for the introduction of new and important benefits in the practice of Life Assurance. A Standard Policy which has existed for

Five Years is admissible to a class of "SELECT ASSURANCES;" and in that class all Policies are unchallengeable on any ground of objection whatever. The Directors have also made provision, in connection with that class, for relieving the Assured who have no prospect of going abroad, from the usual irksome restrictions as to Residence beyond the limits of Europe. Persons lending money on the security of Policies, Marriage Trustees, and, in short, all who rely on the security afforded by Life Assurance, cannot fail to appreciate these new and important advantages.

A full Report on the late Investigation of the Company's affairs and Division of Profits, can be obtained by application at the Offices or Agencies of the Company.

FIRE DEPARTMENT.

This Company undertakes almost every description of Risk.

The rates decided on are as reasonable as is consistent with safety; and in case of accident, the utmost promptitude and liberality may be expected.

Insurers paying in advance for three, five, or seven years, will be allowed a considerable reduction in the amount of Premium.

No expense will attend the transfer of Policies from other Offices; and no charge will be made for the Policy where the sum insured shall exceed £200.

Indisputability.—In consequence of numerous instances of disputed claims under Policies of Fire Insurance, the Directors of this Company have decided that such measures shall be taken to secure the identity and value of property upon an Insurance being proposed, as shall give all the force of indisputability to a policy when once effected, except in cases of apparent fraud.

ONE-HALF THE PROFITS DIVIDED EVERY FIVE YEARS.

TIMES LIFE ASSURANCE AND GUARANTEE COMPANY.

The business of the Company consists of—

Life Assurance, Annuities, and Family Endowments of every description, adapted to meet the views and means of the provident of all classes.

Policies are issued for any sum from £10 to £5000, and are *indisputable*, save in cases

of fraud. The payment of Premiums is arranged to suit the convenience of all classes of Assurers, viz., Monthly, Quarterly, Half-Yearly, or Yearly.

Half the Premiums for the first seven years may remain on credit for the whole term of life.

The extra Premiums for Foreign Risks are reduced.

One description of Assurance may be exchanged for another, and arrangements can be made with this Office whereby the forfeiture of a Policy is prevented when the Assured is temporarily unable to keep up the payments.

FOUR-FIFTHS OF THE PROFITS DIVIDED AMONGST THE ASSURED.

GUARANTEE FOR FIDELITY OF TRUST.—In this Department the Company affords Guarantee at the lowest possible Rates; and, after the first three years, *annually divides four-fifths of the Profits*. Thus the Premiums, instead of being a tax upon honesty, become a means of saving and investment.

A liberal allowance is made on the Guarantee Premium when a Life Assurance and Guarantee are combined.

Rates from 7s. 6d. per Cent. upwards.

Further particulars and Forms of Proposal may be obtained on application at the Head Office, or of any of the Company's Agents.

FIRE INSURANCE.

THIS Company insures against LOSS or DAMAGE by FIRE, all descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares, and Merchandise in the same; Ships in Harbour or in Dock, at the lowest rates of Premium corresponding to the risk.

FARM STOCK and CROP insured, *in cumulo*, on one farm, without the Average Clause. Loss and Damage by lightning made good.

LOSSES SETTLED WITH PROMPTITUDE AND LIBERALITY.

LIFE ASSURANCE.

The system adopted by this Company gives every advantage to the Assured that Life Assurance is capable of affording. The Premiums are moderately rated at every age, and may be paid either in one sum, or by yearly or half-yearly instalments: and those who find it convenient to make the payments small for the first few years, may take credit for half the Premium for the first five years.

At a SPECIAL MEETING of PROPRIETORS, held on the 14th April, 1852, the following Regulations, proposed by the Board of Directors, were unanimously approved and made Bye-laws of the Company:—

[Over.]

First: In future, Nine-tenths of the divisible Profits shall be allowed to the Policies entitled to participate, in place of Four-fifths, as at present.

Second: At each Septennial Division of Profits, it shall be competent to the Proprietors to declare a prospective Bonus to such Policies as may become claims within the Septennial period, such prospective Bonus not to exceed Four-fifths of the Bonus rate then declared.

Third: Policies shall, on proof of age of the party assured, be declared indisputable from and after the expiry of FIVE YEARS *from their date.*

Fourth: Parties effecting Insurance with the Company, may, on application, receive a certificate declaring the Policy *exempt, FROM AND AFTER THE EXPIRY OF FIVE YEARS FROM ITS DATE,* from the payment of extra Premium for travelling or residing beyond the limits of Europe, or for entering into MILITARY or NAVAL SERVICE, and from the necessity of applying for License so to travel or reside, or for entering, after the expiry of the said FIVE YEARS, into MILITARY or NAVAL SERVICE, provided it shall be shown, to the satisfaction of the Directors, that they have at the time of the application no intention or prospect of going abroad, or of entering into Military or Naval Service.

It was explained to the Meeting, that the Directors, looking to the state of the Company's Guarantee Fund, and the extent of its business, were satisfied that the time has arrived when the participating Policies can safely be allowed to draw Nine-tenths of the divisible profits, and that such arrangement will prove advantageous to the Company as well as to the Assured.

The length of the Septennial period was found to be attended with hardship in many cases, especially when the parties advance in years. The Prospective Bonus remedies this evil, and has all the advantages of an Annual Division of Profits, without its disadvantages.

The Third and Fourth Regulations are material improvements, as they make the Policies of the Company more available when required as a security, and more marketable when offered for sale.

At 31st December last, the fourth Septennial Division of Profits, a BONUS or ADDITION was made to the *Participating Policies* at the rate of £1. 5s. per cent. on the sum insured, reckoning previous bonuses as sums insured, and as such entitled to participate; with a prospective Bonus of £1 per cent. to such Policies as may become claims before next Division of Profits.

The Bonuses may either be added to the sum insured, or applied in reduction of future Premiums, or commuted for a payment in Cash.

No Entrance-Money or other charge is made, except the Stamp for the Policy.

LIFE DEPARTMENT.—IMPORTANT ADVANTAGES.

A MODERATE SCALE OF PREMIUMS, COMBINING THE BENEFITS OF THE MUTUAL WITH THE SECURITY OF THE PROPRIETARY SYSTEM; FOUR-FIFTHS, OR EIGHTY PER CENT. OF THE PROFITS BEING APPROPRIATED TO THE ASSURED EVERY FIFTH YEAR.

THE Share of Profits allotted to each Policy may be applied either as a Bonus or Reversionary Sum to be added to the amount insured, and payable at the Death of the Life; or in Reduction of the future Annual Premium; or an immediate payment may be obtained in Cash, of its present value.

Insurances may also be effected upon the joint continuance of two or more Lives; upon the joint Lives and the Life of the Survivor of two or more persons; upon the contingency of one Life dying before another; upon the Life Assured attaining any specific age, or dying previously thereto.

Premiums may be paid either yearly or half-yearly; by a single payment; by a limited number of payments; by an ascending or descending scale.

INSURANCES WITHOUT PARTICIPATION, FOR THE WHOLE OF LIFE, OR FOR SHORT PERIODS, AT REDUCED RATES.

ANNUITIES AND ENDOWMENTS EFFECTED.

In the *three months* from the first of December, 1851, to the end of February, 1852, no less than *Three Hundred and Sixteen new Policies* have been effected, covering Assurances for the sum of £50,427, the largest number ever issued in the same period of time since the establishment of the office.

ADVANTAGES OF THIS OFFICE.

1. Entire profits belong to the Assured.
2. No lawsuits—disputes, if any, settled by arbitration.

[Over.

3. Any sum may be assured, from £25 to £3000, payable to the Member himself on attaining any fixed age, or at once to his Representatives, in case of earlier death.

4. Arrears may be paid up at any time within twelve months, upon production of certificate of health.

5. Policies indisputable.

6. This Society is formed entirely on the Mutual Principle, and possessing advantages resulting from being enrolled under the provisions of the Acts of Parliament relating to Friendly Societies, whereby the sums assured to the Widow, Widower, or Children of deceased Members, are payable to them free from Legacy or Probate Duty—a privilege which the Directors, by considerable effort, were the means of securing.

7. By a clause in the New Act relating to Friendly Societies, the Board is empowered to advance Loans to Members, on the security of their Policies, of five years' standing and upwards. The mode of procedure in such cases is easy and simple, entailing no trouble or legal expense, and many Members have already availed themselves of the privilege.

8. A lower rate of mortality than in any other office in Great Britain.

9. Liberty to travel or reside in any part of Europe, in Canada, and in the northern part of the United States, without extra charges.

N.B.—The Temperance and Public sections are kept in separate classes, and will each receive their own profits.

Prospectuses, also copies of the Eleventh Annual Report, may be had at the BRANCH OFFICES, and at the CHIEF OFFICES in London and Edinburgh.

Established by Act of Parliament in 1834.

THIS COMPANY, established by Act of Parliament in 1834, affords the most perfect security, in a large paid-up Capital, and in the great success which has attended it since its commencement.

The Annual Revenue being upwards of £112,000.

SECOND SEPTENNIAL DIVISION OF PROFITS AMONG THE INSURED.

In 1841, the Company declared a Bonus of £2 per annum on the Sum Insured, to all Policies of the Participating Class, from the time they were effected to the 31st Dec. 1840; and from that date to 31st Dec. 1847, £2 $\frac{1}{4}$ per cent. per annum was added, at the General Meeting on the 6th July, 1848.

NO ENTRANCE-MONEY OR CHARGE, EXCEPT FOR POLICY STAMP.

The Bonus added to Policies from March, 1834, to the 31st December, 1847, is as follows:—

Sum Assured.	Time Assured.	Sum added to Policy in 1841.	Sum added to Policy in 1848.	Sum Payable at Death.

LIFE DEPARTMENT.

The Business of this Office embraces *every* mode of Life Assurance, and the Rates of Premium will be found essentially moderate.

LIVES DISEASED, or having a tendency to disease, may be assured with this Office on payment of a proportionate *extra* Premium, which the Office will reduce or cancel on the restoration of the party to health.

Policies effected or assigned in security for CASH ADVANCES, are not necessarily voided should the Life Assured incur a FOREIGN CLIMATE RISK without the knowledge of the Policy-Holder, or a special license from the Board of Directors.

ONE-HALF ONLY OF THE ANNUAL PREMIUM may be paid during the first five years of Whole Life Policies, the other moiety of the Premium remaining a debt on the Assurance.

To Policies effected in the Mutual Assurance Branch, a Bonus of THIRTY-TWO PER CENT. on the Premiums which had then been paid was declared on 30th September, 1849, for the seven years preceding; and similar additions will be subsequently apportioned to all Policies effected with a right to participation in profits. A Policy becoming a claim betwixt two periods of division, is entitled to share in profits according to the preceding participation, and the number of years since elapsed.

THE following is the New Business of the Society as reported to the Annual Meeting, 18th March, 1852:—

At last Annual Meeting the Directors were enabled to congratulate the Members on a great increase of New Business, not arising from an accession of heavy risks, but by the diffusion of the benefits of Life Assurance among a large number.

The New Business for the year 1851 has very considerably exceeded that of 1850, both in the amount of the sums Assured and in the number of the Policies.

NEW BUSINESS.

	1851.	1850.
Amount of capital sums of Policies passed,...	£444,170 17 0	£356,367 0 0
Corresponding Premiums,.....	16,345 7 2	12,273 0 8
Number of Policies,.....	1,079	944

The Net Addition to the total existing business, after deducting for all Policies emerged, forfeited, surrendered, and not taken up, for these two years being—

NET ADDITION.

	1851.	1850.
Amount of capital sums,.....	£368,051 4 0	£272,354 9 0
Corresponding Premiums,.....	13,103 8 9	8,764 15 0
Number of Policies,.....	882	809

The Premiums above stated are exclusive of the single Premiums for Assurances, and the single and Annual Premiums for Annuities.

Such a very large addition to the business cannot fail to be highly gratifying to the Members, and the Directors do not suppose any Office can exhibit so great a Net Increase during the same period.

While the extension of the business is thus almost all that can be desired, the Directors have thankfully to acknowledge the exceedingly small amount of claims which has arisen from the deaths of Members during the past year. The sum is *positively* less than it has been for many years, and looking to the greatly augmented business, and the advancing ages of the earlier Members, the relative proportion exhibits, of course, a still more favourable feature. The per centage of claims is only about 14s. per £100, or about £1 out of £143.

Pamphlets containing Tables of Rates, Terms of Proposals, and every information, may be obtained on application at the Office, 78 St. VINCENT STREET.

THE CITY OF LONDON LIFE ASSURANCE SOCIETY, guaranteed by a subscribed Capital fully adequate to every contingency, offers all the advantages of the Mutual System without involving the Assured in its risks or liabilities, and it affords facilities in every department on principles of true economy, limited only by strict regard to security.

The Rates of Premiums are founded, not upon local, imperfect, or theoretic data, but upon the actual experience of the most important Offices in existence, and after six years the Profits are to be declared Triennially.

Amongst the peculiar advantages offered by this Society, are the following modes of Assurance:—

The **MUTUAL**;

The **PROPRIETARY**; and

The **DEPOSIT** or **ACCUMULATIVE**;

The two first embracing the most liberal and advantageous arrangements to meet the objects of parties assuring, whilst the *third*, a new feature introduced by this Society, unites all the advantages of *Life Assurance*, together with the convenience of a Deposit Bank, *the Assured being always at liberty to withdraw the whole or any part of the Amount deposited as Premiums*, while no Policy in this department can become lapsed.

SELF-PROTECTING ASSURANCES;

A new combination of Life Assurance interests, the particulars of which are hereinafter set forth.

INDISPUTABLE POLICIES.

GENERAL ASSURANCES.

Under this head are included the several systems of Assurance now in operation, the nature of which is so well known as to render more than the following classification unnecessary:—

ORDINARY ASSURANCES, either for the whole or a definite portion of life, with or without participation in the Profits of the Office.

QUARTERLY or **HALF-YEARLY** payment of Premiums, or at Annual, Biennial, Triennial, or other stipulated intervals.

HALF-PREMIUMS on credit of the Policy for stipulated periods.

INCREASING or **DECREASING** Rates of Premiums.

SURVIVORSHIPS, **JOINT LIFE**, and other Assurances, contingent on any specified event.

IMMEDIATE, **DEFERRED**, or **REVERSIONARY ANNUITIES** granted to the Assured or Nominee, on the payment of one sum or of periodical premiums.

ANNUITIES or **ENDOWMENTS** for the benefit of Naval and Military Officers, Clerks in Government Offices, and their Widows or Children.

FOREIGN LIVES Assured, and Annuities granted to Foreigners under special contracts.

LOANS granted on approved securities.

SELF-PROTECTING POLICIES.

This Society has also introduced a new combination of interests, whereby the Assured receives, by one Policy and one Rate of Premium, an Endowment—a Life Assurance, and a Deferred Annuity; and also the full benefit of every payment he has made, **ALTHOUGH HE SHOULD BE UNABLE OR UNWILLING TO KEEP UP HIS POLICY.** This has been effected by what are termed "*Self-Protecting Assurances.*"

A **SELF-PROTECTING POLICY** thus embraces an Endowment of a specific sum to be paid to the Assured himself on his attaining a specified age; an Assurance payable if he should die before reaching that age, to his representatives or any person he may appoint; and an Annuity to be paid half-yearly to the Assured during his lifetime, after having attained that specified age.

The premiums for these Policies cease when the amount assured becomes payable and the Annuity commences, and may be made by such periodical payments as to suit the convenience of the Assured. The Policies on this plan will not fall by reason of non-payment of future premiums, nor will the Assured lose the benefit of any part of the sums he may have paid, (the first year's premium excepted,) although he should at any time be unable or unwilling to continue the periodical payments: for a Self-Protecting Policy, once granted, will continue in force and be available for the Endowment, Assurance, and Annuity, to the extent, and in that proportion, which the sums received by the Society bear to the amount of the periodical premiums that would have been received if they had not been discontinued. Hence the Policy can never be forfeited.

By this plan of Assurance, therefore, the following advantages are secured by ONE POLICY:—

1. The payment of a principal sum at a specified age.
2. An Annuity to commence at that age.
3. The payment of a principal sum in the event of death, whenever that may happen.
4. The full benefit of all sums paid, although the premiums should at any time be discontinued.
5. Relief from the payment of premiums after a specified age.
6. Small periodical payments, so as to suit the convenience of the Assured.

The premiums will be made payable quarterly, half-yearly, or yearly; but by an arrangement with an Agent, acting for the Society, they may be paid weekly or monthly.

As an example of a Self-Protecting Policy, suppose a person aged 25 can spare 1s. 2d. a-week, or 13s. 10d. quarterly, he will secure £50, payable to himself on his attaining 60 years of age, and also an Annuity of £10, to be received by him during his lifetime after reaching that age; and in the event of his death at any time, (however soon that may happen after he has made the first payment,) the £50 will be paid to his representatives, or any one he may have appointed to receive it. By doubling the premium, the sum assured will be £100, and the Annuity £20; and if, in place of fixing upon the age of 60 for the receipt of these sums, he should make it 55, the premium for an Assurance of £50, and an Annuity of £10, would be 6s. 6d. monthly, or £3. 16s. 9d. yearly. And as an example of the effect of discontinuing a Policy, suppose a person, aged 25, to take a Self-Protecting Policy for an Endowment and Assurance of £100, and an Annuity of £20, payable on attaining 60 years of age, and to continue the payment of the premiums only until he reaches 35 years of age, and then to discontinue them; in such case the Policy will remain effectual to the extent of an Endowment or Assurance to the amount of £27. 4s. 6d., and an Annuity of £5. 8s. 10d., without the payment of further premiums.

PARTIES about to insure would do well to consider the benefits which this old established Corporation gives to the Assured, both under the Mutual Plan, (but without risk,) and under the Non-Participation Plan. Under the former about 84 per cent. of the whole Profits are divided among the Insured, while the Non-Participation Rates of the Company, compared with the Rates of the Mutual ones, give, at the age of 30, an annual return of £5 14s. on an Insurance of £1,200; or, in other words, an Insurance of £1,475 may be effected with this Company for the same premium that an Assurance of £1,200 would cost with the Mutual Companies at that age, exclusive of 10s. per cent. of Entry-money, which this Company does not charge. Parties insured with other Companies which do not declare their Bonuses for one or two years to come, may have these secured to them by an Insurance with this Company at a moderate rate.

EXTRACT FROM NON-PARTICIPATING TABLE:—
Annual Premium to insure £100 at death.

Though established only 18 years, this Society has issued upwards of 5,300 Policies, and its annual income now exceeds £110,000.

The following are among the advantages which it offers:—

The Rates being founded upon the surest principles, are as moderate as is consistent with perfect security.

The Profits are declared in each year, on the second Wednesday in May, when all Policies on which six annual Premiums have been paid become entitled to participation. "*The practice of an annual division,*" as observed by Mr. Babbage, "*distributes the profits with more regularity and justice than any other,*" and it is especially advantageous to persons of advanced years, who cannot hope to participate in many septennial or decennial divisions.

Three-fourths of the Profits fall to the Assured; and, to guard against any unforeseen contingencies, they are fixed from the average of the five preceding years.

The Assured may have either a reduction of the Premium or an equivalent Bonus.

The annual abatement of the Premium has averaged considerably above 40 per cent., and in no year has it fallen below that amount.

The following Table will show the advantage of even 40 per cent. abatement:—

Age when Policy was issued.	Sum Assured.	Original Premium.	Reduced Annual Premium.
20	£1000	£19 6 8	£11 12 0
30	1000	24 8 4	14 13 0
40	1000	31 10 0	18 18 0
50	1000	42 15 0	25 13 0
60	1000	66 11 8	39 19 0

The system of reducing Premiums affords early benefit to the Assured; or, by investing the difference in a new Policy, he can secure a much larger addition in a shorter time than by any system of increasing bonuses.

Persons who look forward to going abroad, can make provision for it more favourably in this than in any other Office, and may have the consequent extra Premium defined at once.

One-third of the Premiums for six years may remain on credit, and two-thirds of the estimated value of the Policy may be advanced by way of loan.

LIFE DEPARTMENT.

THE DIRECTORS OF THE NORTH OF ENGLAND INSURANCE COMPANY BEG TO CALL THE SPECIAL ATTENTION OF PARTIES ABOUT TO EFFECT POLICIES OF LIFE ASSURANCE TO THE FOLLOWING ADVANTAGES OFFERED BY THIS COMPANY:—

- 1.—Policies may either be placed on the system of Mutual Assurance, with right of Participating in the Profits, or be effected at a Reduced Rate of Premium without such right of Participation.
- 2.—Annual Investigations and Divisions of Profits.—All Policies on the Mutual System are entitled to share Annually to the extent of Eighty per cent. in the Profits arising from Assurances of that Class. In order to obtain a proper average, the first investigation has been delayed to 31st December, 1852.
- 3.—Profits Allocated may be applied in augmentation of the sum payable at death,—or in reduction of the future annual premiums,—or may be paid to the assured by an equivalent in present cash.
- 4.—Moderate Rates of Premium.—The same Premium required by the older Offices for the Assurance of £1,000 at age 25, will Insure in this Office £1,156, with Profits, or £1,315, without such right of Participation.
- 5.—Policies purchased by the Company, and Loans granted thereon according to their acquired values.
- 6.—Claims are payable three months after proof of Death. When the Sum assured is under £300, the sum is payable one Month after such proof.

PURE BLACK-LEAD.

JOHNSTON & CO.,

IMPORTERS OF BOHEMIAN BLACK-LEAD,

9 MITCHELL STREET, GLASGOW,

RESPECTFULLY request those who have not yet tried their superior Lustre, to procure a little, and compare it with the most expensive London Packets that can be had; and, confident in the purity of their quality, they are certain it will have a decided preference.

The Black-lead Trade has for long been confined almost exclusively to a certain class of houses in London; and it is well known that four-fifths of all that is put into Packets there is adulterated more or less with soot, sand, lamp-black, charcoal, &c., &c. Only one or two kinds made up in London are really good, and they are sold at very high prices.

With a knowledge of these facts, and a connection with the Merchants on the Continent, to whom the trade in the Bohemian Lead is confined, JOHNSTON & Co. feel assured that, by sending out the best article, pure and unmixed, they are certain to command a permanently extensive sale; and they have made suitable arrangements for doing so. It would be of little use to advertise such an article were it not the best; but it has been tried already by several hundred shopkeepers, and has given invariable satisfaction, without one single complaint.

The best article has a red label marked—

J O H N S T O N ' S

GENUINE BOHEMIAN JET LUSTRE,

FOR POLISHING GRATES, &c.

JOHNSTON & Co. also import Common German Black-lead and Lumps, for the convenience of such as require that description, and put up packets of a second quality, similar to the kinds known as "British Lustre," "Peruvian Lustre," "Mexican," "Pencil Lead," &c., &c., but they only put their name and label upon the

PURE BOHEMIAN BLACK-LEAD,

which they guarantee to be the very best that can possibly be procured at any price.

It imparts a permanent Jet Black Lustre to Grates, &c., with little labour.

For machinery it is the best that can be had, on account of its purity and freedom from grit.

Some shortsighted shopkeepers think that because they get a middling good Black-lead at a few shillings per cwt. under the price of the Bohemian Lustre, they make more out of the sale by retailing it at the same price as the best. This is simply penny wise and pound foolish, because people will gradually go where they get the best article, without the petty economiser being aware of his loss. The best article will give permanent satisfaction to the consumer; and, when obtainable (as is Johnston's Lustre) at a reasonable rate, will prove the most profitable to the shopkeeper.

JOHNSTON'S BOHEMIAN JET LUSTRE is sold by all respectable shopkeepers.

The Trade only supplied by the Importers,

D. MINTO begs leave to return thanks to the Grocers and Druggists of this Town and Vicinity for past favours.

He also begs leave to intimate, that in connection with his Coffee-Roasting, and Coffee and Spice-Grinding Works, he has fitted up an extensive Sugar-Pounding Machine, offering to the Confectioners, and Trade in general, an advantageous opportunity of having their Sugar Pounded by Steam-power, far surpassing anything ever yet offered to the Trade.

D. M. trusts that, by personal attention, along with twenty-four years' experience, he will be enabled to give entire satisfaction to those who may favour him with their Orders.

P.S.—*All orders punctually attended to, and delivered by his Van at the proper time.*

29 M'Pherson Street, off High Street,
GLASGOW, May, 1851.

The COFFEE PLANT, "*Coffea Arabica*," of Linnæus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of commerce. It may be remarked, as a singular fact, in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its independence; for though cultivation may greatly enlarge the crop, it as certainly, at the same time, deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret to the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so, when its medicinal properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of Asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—"I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be dispersed than when exposed to the fierce heat of a fire in a single cylinder."

In the double rotatory globular method of roasting, as practised at Mr. Minto's Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder since the application of steam-power to this branch) revolves in a medium of heated air, which, experience has shown, best prevents the dispersion of the essential oil, or aroma.

THE GLASGOW TUBE & METAL WAREHOUSE,

9 MITCHELL STREET.

WILLIAM JOHNSTON,
METAL BROKER AND BIRMINGHAM FACTOR,

BEGS to acquaint ENGINEERS, BRASSFOUNDERS, and PLUMBERS, that he has removed to the above Premises, which, from their extent, will enable him to keep a still larger and better assorted Stock than hitherto. By his arrangements with many of the first houses in the Trade, he is always in early possession of the Newest Articles produced, and the PRICES ARE UNIFORMLY THE SAME AS AT THE WORKS IN BIRMINGHAM.

The other advantages he has been enabled to offer, are :—the Trade can thus procure, through one channel, the productions of different Manufacturers; save the expensive charges for carriage of small lots of Goods from England; get conveniently and promptly all that is required; avoid the necessity of keeping a large assortment of Goods, and consequently lessen the risk of loss on bad stock.

These advantages have been appreciated, to a large extent, by the Brassfounders and other Manufacturers throughout Scotland, and being now in a better position to execute Orders with punctuality, and to carry out, to the fullest extent, his rule of giving the same prompt attention to small as to large Orders, he hopes to receive a continuance of their favours.

TUBES.—Every description of Tubes for Locomotive and Marine Boilers, Gas, Steam, &c., in Brass, Copper, Tin, and Composition; Welded Iron Tube with Couplers, Knees, &c.; Open Joint Tube for Beading; Patent Cased Tube, &c. &c.

METALS.—Bismuth; Regulus of Antimony; German Spelter; Copper; Tin; Rolled and Sheet Brass; Spelter Solder; Hard Rolled Copper for Block-Cutters; Spring Brass, &c.

BLACK-LEAD CRUCIBLES for Brassfounders.—The Foreign Crucibles are imported from the first German makers. They have been tested for some years, and have, with few exceptions, been found to stand remarkably well. Mr. Johnston has been regularly corresponding with the makers in Germany, giving them hints suggested by practical and experienced Brassfounders here, which has led to considerable improvements in the quality of the Crucibles. When size is taken into account, they will be found one-half cheaper than those made in Scotland.

LAMP MATERIALS.—Tubes of every description and of the best quality.—ROUGH STAMPED BRASS WORK, in Vases, Spouts, Husks, Knobs, Balance Weights; 2, 3, 4, and 6 Light Bodies for Lamps, &c.; Chain Links; Rollers for Chain (of an improved description, burnished and lacquered); Brass Washers of every size; Bohemian Black Lead for bronze work; Dipping Aqua Fortis; English Lacquer of all shades.—OPAL and COLOURED GLASS ORNAMENTS, in Vases, Arms, Lilies, &c., Plain, Gilt, or Painted; Lamp Cord; Moons and Shades, in the newest Shapes and Styles of Pattern.

W. JOHNSTON calls special attention to the fact, that he is the only party in Scotland who keeps a Stock of ALL THE ARTICLES required by LAMP-MAKERS and BRASSFOUNDERS. He is the EXCLUSIVE AGENT here for most of the New Articles in Struck Work, Lamp Ornaments, &c.; while he, at the same time, supplies the manufactures of the older houses in the trade, and, in every instance, at the prices charged by the makers.

PLUMBERS' MATERIALS.—Copper and Brass Wires; Copper Tacks; Closet Pans; Copper Cistern Balls; Brass and Iron Wire Chain; Cast-Iron Pipes, Runs, Jaw-Boxes, Marine Acid, &c. &c.

BELL-HANGERS' MATERIALS.—Copper Wire; House Bells; Cranks; Levers; Pull Outs, &c.

GALVANIZED IRON GOODS of every description; Telegraphic Wire; Corrugated Roofing; Hoops, Nails, Tubes, Chains, Galvanized Wrought-Iron Pipes and Gutters, &c. &c.

VAPOUR BATH ESTABLISHMENT,

109 MAIN STREET, ANDERSTON,

(West from the Gushet House.)

MOST Physicians now concur in the opinion, that the Vapour Bath is an important auxiliary in the practice of Medicine, and that there are many persons labouring under Chronic Diseases that could not be restored without its aid. Long experience has proved it is one of the most efficacious and safest agents ever discovered for removing diseases of an obstinate nature, and, in connection with other appropriate medicines, it will effect a cure in all cases within the reach of human skill, as it has proved a remedy in hundreds of cases, where everything else has failed, in Scrofula, Gout, Rhenmatism, Liver Complaints, Dyspepsia, Costiveness, Erysipelas, Palsy, Nervous Irritability, Obstinate Glandular Affections, Dropsy, Asthma, Leprosy, Gravel, Female Complaints in general, and all Cutaneous Diseases. There is scarcely a form of disease, or a condition of the system, in which the Vapour Bath (as administered at this Establishment) may not be employed, not only with safety, but benefit. It is generally esteemed a great luxury by persons in health. The head not being enveloped in the vapour, a person can sit with comfort for twenty minutes, enjoying the most delightful sensations. These Baths may be taken at all times and seasons, without risk of taking cold; the stimulating effect of the Vapour upon the skin, and the process afterwards, enabling the individual to resist cold better than before. Since the opening of this Establishment, in June, 1850, hundreds have enjoyed the Vapour Bath weekly (Summer and Winter) with immense benefit.

To accommodate the Working Classes, an extra Second Class Bath Room has been added, with every comfort and attendance,—Sixpence each Bath.

Medicated Vapour Baths in five minutes' notice, a superiority not approached by any Establishment in London or Paris, at less than half the Price usually charged,—One Shilling each, with Medical Attendance.

TO CIVIL ENGINEERS & LAND-SURVEYORS.

ALEXANDER DICK,

Land Surveying Chain-Maker, and Plain and Fancy Wire-Worker,

10 BUCHANAN BUILDINGS, 105 STOCKWELL STREET, GLASGOW,

RESPECTFULLY returns his unfeigned thanks to those Gentlemen who have, these 28 years past, favoured him with their patronage, and hopes, by prompt attention to their orders, and making every article in the above line of the very best materials and superior workmanship, still to merit a continuance of their kind favours.

A. D. would most earnestly request those Gentlemen who have not as yet given his Chains a trial to do so, confident that they will find them a superior article, and second to none now in use; and to prevent mistakes, '*Alexander Dick, Chain-maker, Glasgow,*' is on the middle teller or counter of his Chains. The following is an abridged list of his Prices:—

Foot Link 100 Feet Chains,

100 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 10s. 6d. each; and with a set of No. 5 link brass counters, 11s. 6d. each.

100 feet long, 100 links with long eyes and filed joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 18s. each. With a set of No. 5 link brass counters, 19s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 16s. each. With a set of No. 5 link brass counters, 17s. each.

A. D. would particularly recommend the Chains with long-eyed links, filed joints, and 300 oval rings, as being the best he makes; warrants them not to crank, twist up, nor so apt to stretch as those with round-eyed links and round rings, being made in a superior style.

Scotch Surveying Chains, with or without the Fractions, made only to Order.

Imperial or Link Surveying Chains,

66 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 8s. 6d. each.

66 feet long, 100 links, with long eyes and filed joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 16s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 14s. each.

Brass Imperial, or Link Surveying Chains, with strong neat brass handles and copper swivels, for Coal Mines, 8s. per Chain extra, made only to Order.

Surveying Chains, made of cast steel wire to any length, size of wire, or pattern, made only to Order.

Large and small ring Swails, Planting and Holing Chains for the East and West Indies, made to Order.

Copper, Brass, Iron, and Steel Wire, oval link Clock and Pitch Chain, of all sizes of link or wire, made on the shortest notice.

Plain and Ornamental Wire Fence for Pleasure Grounds, and every other Article in the Line equally Cheap.

A Liberal Discount to Ironmongers and Shippers.

PRIZE MEDAL.

RANSOME & PARSONS

BEG TO DRAW THE ATTENTION OF
 ARCHITECTS, BUILDERS, AND OTHERS
 TO THEIR

PATENT STONE,

WHICH, in its composition, differs essentially from all other artificial productions for a similar purpose—Flint forming the basis. In character, texture, and appearance, it is made to resemble every kind of natural stone, at pleasure, from the finest marble to the coarsest sandstone, and to possess all their valuable and enduring properties, without being liable to any of their defects. It is especially applicable to all kinds of architectural decorations and mouldings, fountains, balustrades for terrace walks, vases, and pedestals, &c., &c.; also for all varieties of plain and ornamental flooring. In price it is far below the cost of any natural product, and, in many cases, can be furnished as low as ordinary cement. Copies of Busts, Statuary, or other Works of Art, can be produced in the finest Patent Stone as faithfully as in Plaster of Paris.

 IMPORTANT TO

 WATER COMPANIES, MANUFACTURERS, AND THE PUBLIC.

RANSOME & PARSONS

Beg to call the attention of Water Companies, Manufacturers, and others to their

Patent Stone Filtering Slabs,

Which are capable of filtering from 100 to 200 gallons of water per superficial foot per day, with a head of water varying from 2 to 4 feet. These Slabs can be produced to any required dimensions, and, consequently, can be adapted to any cistern, tank, or reservoir. By a simple precautionary arrangement, they are prevented from being in any way choked or impeded in their action.

Filters for Family Use.

These Filters can either be placed in the Hall, Water Butt, or can be attached to the Water Pipe. Those attached to the Water Pipe are well worthy the attention of Builders and Landlords who study their Tenants' comfort and their own interests, as, for a trifling outlay, they insure a constant supply of Cool Water purified from all filth, whether in suspension or infusion, however fulsome the source from which it is obtained.

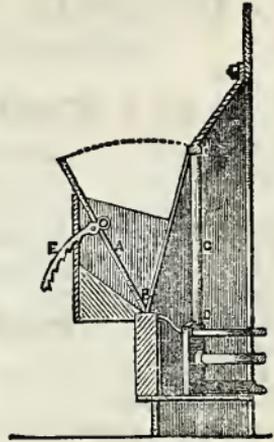

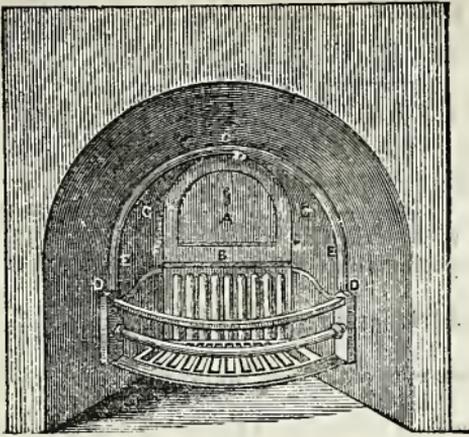

They may always be seen in operation on the Premises of the Agent, who will afford a trial to respectable parties who may be sceptical as to their merits.

ARE prepared to lay ASPHALTE WORK of every Description, either in TOWN or COUNTRY.

Their position enables them to produce the best Materials; and they are careful to select the most skilful workmen, so that the work may in every instance give satisfaction.

As the advantages and appliances of Asphalte are not generally known, these may with propriety be here noted.

Not only, when *properly Manufactured and Laid*, does it form a cheap and durable Pavement, but its Imperviousness to Damp and Vermin, recommends it as the best sort of Flooring for Dwelling-Houses, Cellars, Cotton Factories, Grain Mills, and Granaries, Cotton and other Stores, Barus, Stables, Dairies, &c. It has also of late been successfully introduced as a Roofing for Fire-Proof Mills, and as a Covering for Underground Vaults. Equally adapted is it to the formation of Gutters and Recesses, whatever their form or depth.

Builders and Contractors who prefer laying Asphalte themselves may be supplied with BITUMEN, of best Quality, on liberal terms.

ROBERT GREIG,

No. 20 GREYFRIARS' WYND, OR 147 HIGH STREET,

BEGBS to return his sincere thanks to his numerous Friends for the unprecedented patronage they have bestowed on him for many years past, and for their flattering testimonials in favour of his

IMPROVED PATENT AND BOX MANGLES,

the superior quality of which, in regard to construction, well seasoned materials, and unquestionable workmanship, amply warrant him in charging a somewhat higher price than is charged for the ordinary "job" Mangles. No one who has experienced the easy and effectual working of *his* Mangles, fails to recommend them to their friends. He feels himself, therefore, justified in challenging competition from any quarter of the kingdom.

R. G., believing that MANGLES should be made for *use*, and not merely to *sell*, sends none of *his* make to Auction Rooms; on the contrary, he guarantees that every Mangle sold by him will give complete satisfaction.

NOTICE.

Mr. GREIG will make all repairs on his own Mangles promptly and satisfactorily.

WOOD ENGRAVING.
ENGRAVED PHOTOGRAPHS.
33 BUCHANAN STREET, GLASGOW.

JOHN URIE,
Draughtsman and Engraver on Wood,
33 BUCHANAN STREET,

EXECUTES ENGRAVINGS on WOOD in the first style of Art, for Civil and Agricultural Engineering, Machinists, Publishers, Manufacturers, and others, who may wish to avail themselves of this economical and elegant species of Illustration.

He also supplies, at the lowest rate consistent with artistic excellence, ILLUSTRATIONS for CATALOGUES, for Machine Makers, Cutlers, Silversmiths, Ironmongers, Glass and Porcelain Makers, and also Engravings for Advertisements.

The recent extraordinary improvements in Photography have induced him to apply that Art for the advancement of his own; and, after long experience, he is now in a position to produce Engravings of every kind, from representations of natural objects, taken directly on the Wood by Light. It is almost unnecessary to add that Engravings so made present perfect copies of the original, whilst they are much less costly than those produced in the ordinary way.

GENUINE ULTRA TONIC BITTERS.

PETER HATTRICK, HERBALIST, in returning his sincere thanks to the Public of Glasgow and surrounding country, for their liberal patronage, begs leave to state that his celebrated ULTRA TONIC BITTERS may be had Wholesale and Retail at his Establishment, the BRIDGETON TEA GARDENS, 206 Main Street, where all kinds of Medicinal Herbs and Roots may be had.

VALUABLE AND IMPORTANT DISCOVERY.

Under the distinguished Patronage of the Nobility and Gentry of England, Scotland, and Ireland, the Principal Courts of Europe, and the most eminent of the Faculty.

MILL'S SPANISH BALSAM,

THE ONLY INFALLIBLE PRESERVER OF THE HUMAN HAIR.

AMID the multiplied efforts of the scientific and speculative of the past two centuries for the restoration and promotion of the human hair, none has ever been found efficacious; and the bairl were still compelled to submit to the humiliating privation, until the introduction of MILL'S SPANISH BALSAM, in Montrose, A.D. 1850, occasioned, as was aptly remarked, "a new era in the annals of man's triumph over nature." Its virtues having now been fully experienced and attested, and being so highly recommended by the Medical Faculty, demonstrates that it is the best article ever yet discovered for the growth and preservation of Nature's greatest ornament—a luxuriant head of hair. The Proprietor of the SPANISH BALSAM is fully aware, that from its extraordinary virtues alone could this result have been attained, which is to him a subject of extreme self-gratulation, as it is to others of an uncommon interest.

TO LADIES

It is invaluable, being a sure restorative of the hair that has fallen off from the seams or divisions occasioned by being overstrained or too tightly tied; at the same time, it adds all that glossy and silky appearance to the flowing curls so essential to female beauty. Ladies recovering from fever or any sickness that may have caused the skin of the head to become relaxed and loose, will, by the use of the SPANISH BALSAM, have the skin restored to its natural healthy tone and firmness, and the hair preserved from falling off, which is the natural consequence, if means are not promptly taken to prevent such.

TO GENTLEMEN

Who desire Whiskers or Mustaches, a trial is only necessary, as in almost every case where it has been applied it has produced the above in abundance; which must convince the most sceptical that it is the only effectual remedy ever yet discovered. The SPANISH BALSAM is particularly serviceable to frequenters of the Ball, the Public Assembly, and the Promenade.

Nothing can surpass it for keeping the head cool, especially in crowded Assemblies. The patronage of the Aristocracy throughout Europe, together with its general use by the *elite* of fashion in England, Scotland, and Ireland, and the confirmation by experience of the infallible efficacy of this unique preparation, have characterised it with perfection, and given it a celebrity unparalleled.

A. M., in addressing himself to both sexes, would respectfully urge on all Ladies and Gentlemen the necessity and propriety of attending to the information above-mentioned, as due attention will prevent the fatal consequences to the hair which may accrue from neglect, and at the same time produce the gratifying results of a beautiful head of hair to the latest period of life. A. M. begs to recommend those whose hair is falling off, turning grey, or not keeping the curl, and who desire a luxuriant head of hair, to try the SPANISH BALSAM, and, if properly used, it will have the desired effect. The SPANISH BALSAM will be found an indispensable appendage to the

TOILET AND NURSERY,

where personal advantages are held in any estimation. The beneficial effects arising from the use of the SPANISH BALSAM, have been fully attested by thousands. Testimonials are daily arriving from the highest circles of fashion, and from amongst the immense number received, the following extracts have been selected as a proof of its utility and efficacious results:—

From Miss BURLIE, Lochee, near Dundee, Jan. 13, 1852:—

"Dear Sir,—I have to acknowledge the great virtue of your Spanish Balsam, having been nearly bald for nine months; and, everytbing having failed to produce hair, three months ago I was induced to make a trial of your famed Spanish Balsam, which has

proved to be the only effectual restorer of the human hair. My hair is now very thick and soft, with a fine gloss; it has also rendered the skin pure and beautiful. I would recommend every one who wants a luxuriant head of hair to make a trial of your great discovery. I have to thank you for the benefit I have received, and beg to say that you have my consent, as well as my friends', to publish this, as the intrinsic value of the Spanish Balsam cannot be too well known.—I am, dear Sir, yours truly.

(Signed) "HELEN BURLIE."

From Miss JANE WATT, Union Row, Montrose, Jan. 3, 1851.

"Sir,—I consider it almost an imperative duty to give my testimony to the valuable efficacy of your Spanish Balsam. About three years ago I had an attack of fever, which caused *all* my hair to come out. I was advised to have it shaved, which I had done; but ever since it has become extremely coarse and full of dandriff, which has prevented the hair growing to any length. Having been induced to try your Spanish Balsam, from the high repute it has obtained in this quarter, I have great pleasure in stating that, after a trial of four weeks, it has fully realised my greatest expectations, and I have no hesitation in asserting that it has contained all those virtues which you ascribe to its use. My hair is now quite free of dandriff, and has become so soft and glossy, that I can put it into any form. It has grown beyond all precedent—nearly three inches in four weeks. I am convinced I will now have as good a head of hair as ever I had. I have written this as a convincing proof of its utility to others similarly situated; and you may make what use you think proper of this note.—I am, dear Sir, yours respectfully,

(Signed) "JANE WATT."

From Mrs. DUIRS, Burgh Hill Farm, near Laurencekirk, April 18, 1851.

"Sir,—By reading your advertisement, I was induced to make a trial of your Spanish Balsam, for restoring hair and preventing it turning grey. My hair has been nearly all out for four months, and the small quantity left became quite grey. I have now to congratulate you upon the great discovery which you have made. The extraordinary power of the Spanish Balsam is what I considered beyond the power of man to find out. My hair is now quite thick, and the grey hair turned to its original colour, which has astonished every one who knows me.—I am, Sir, yours much obliged,

(Signed) "ISABELLA DUIRS."

From Mr. JAMES CHRISTIE, Clothier, Murray-street, Montrose, Feb. 18, 1851.

"Sir,—My hair has been falling off for the last three years. My head was also very tender, so that I could scarcely allow a comb or brush to touch it. I have applied your Spanish Balsam for nearly two months, and my hair is quite strong, and a fine growth of young hair coming up; it has also strengthened my head, so that I can use the hardest brush without the least pain. I have recommended it to a friend of mine, who is using it with equal success; and I have no hesitation in saying that you have bestowed a benefit upon man that will be hailed for ages to come.—With the greatest respect,

(Signed) "JAMES CHRISTIE."
