# BOYLE'S PATENT SELF-ACTING AIR-PUMP VENTILATORS

Effectually extract the foul air, have no mechanical motion, are entirely free from down-draught, and can be constructed to har monize with every style of architecture.

"They are constructed on sound scientific principles, act in strict accordance with the laws of nature, and cannot fail to operate."- Professor

GRANT, LL.D., Glasgow Observatory.

#### Efficient Ventilation Guaranteed.

These Ventilators are pronounced by the most eminent scien tific and practical men in the kingdom to be the most efficient

method of Ventilation yet brought out.

The Air-Pump Ventilators were awarded the highest prize (only First Prize given for Roof Ventilators) at the International Exhibition of Medical and Sanitary Appliances, South Kensington, July 16th to August 13th. 1881; at the Eastbourne Exhibition of Sanitary Appliances, Silver Medal, August 22nd to 27th, 1881; and £50 Prize, International Ventilation Competition, London, May, 1882.

#### TESTIMONIALS.

Dr. B. W. RICHARDSON, F.R.S .- "Since these excellent Ventilators have been introduced we have

now got perfect methods of Ventilation."

From the late Sir GILBERT SCOTT, Architect .- "I have used your Patent Self-Acting Air-Pump Ventilators with complete success. From experience of them in my own house and other buildings-public and private-where they have been applied under my direction, I can confidently and will have always great pleasure in recommending them."

From ARTHUR GATES, Esq., F.R.I.B.A., Architect to the Crown, &c .- "I have used your Air-Pump Ventilator with satisfactory result. Those fixed under my direction at the Library of the Inner Temple have realized my expectations, and completely fulfil the object which I had in view. I consider this application of them a severe test, and the success which has attended it confirms the statement which

you make as to their efficacy."

From Sir WILLIAM THOMSON, F.R.S., Glasgow University.—"I have seen several different forms of Mr. Boyle's Air-Pump Ventilator in actual operation, and have much pleasure in testifying to their efficiency. They thoroughly realize the favourable anticipations which I formed from experiments on models shown to me by Mr. Boyle. Having one fitted up in my yacht, I find it has caused a very decided improvement in the draught."

# SYSTEM OF SANITATION

SOIL-PIPES, DRAINS, and SEWERS VENTILATED on the most approved principles by means of BOYLE'S PATENT SELF-ACTING AIR-PUMP VENTILATORS, combined with an Improved Trap and Inlet for fresh air.

"I have often made use of the Air-Pump Ventilator, for soil-pipes, &c., and consider it most admirable. Its action is continuous, and it cannot possibly get out of order. It is decidedly the most efficient fixed foul-air withdrawing medium that I ever met with."-W. EASSIE, Esq., C.E., F.L.S., &c., London, author of "Healthy Houses," &c.
"Boyle's Patent Self-acting Air-Pump Ventilator, which does not revolve, is the best soil-pipe ventilator

N.B.—The complete system may be seen in operation and tested at the above offices. Inspection respectfully invited.

\*\* CAUTION .- Beware of spurious and worthless imitations of the Air-Pump Ventilator, which inprincipled persons are at present attempting to palm off upon the public, and of SHAM EXPERIMENTS called by them "Ventilator Tournaments," the results of which, as published in their advertisements, cannot be proved beyond their own unsupported statements to have any foundation in fact.

PRINTED BY WILLIAM MACKENZIE, 41 to 49 HOWARD STREET.

FOR THE DISTRICT LETTER-CARRIERS OF THE POST OFFICE.

# PREFACE.

THE arrangement of the present issue is similar to that of last year. The Banking Houses, Carriers' Quarters, Stamp and Legacy Duties, and Religious Denominations and Churches are placed in front.

The General Directory includes Crosshill, Govanhill, Polmadie, Pollokshields East, Pollokshields West, Kinning Park, Partick, Whiteinch, Hillhead, Kelvinside, Possilpark, and Springburn.

The Suburban Directory includes Barrhead, Bearsden, Bishopbriggs, Bothwell, Busby, Cambuslang, Cathcart, Coatbridge, Govan, Lenzie, Maryhill, Millerston, Milngavie, Parkhead, Pollokshaws, Rutherglen, Shawlands, Shettleston, Tollcross, and Uddingston.

In the Street Directory (pages 646 to 884) the names of the intersecting streets are given in ordinary type, and the number affixed to the name of the Street denotes the Municipal Ward; and where a Street is divided into several Wards, such as Buchanan Street, the numbers belonging to each Ward are given at the top, viz.: from 1 to 275 are in Ward 8, from 2 to 210 in Ward 7, from 220 to 314 in Ward 5, and from 283 to 295 in Ward 10.

At pages 71 to 93 the names of the Streets are given with reference to their situation, and the number affixed to each Street indicates the Registration district, while the Italic letters prefixed to the name of each Street, Square, or Place shows its position on the Large Map, which is traced in Half-mile Squares, with similar letters on the margin. Thus, to find out Montgomery Crescent, marked B a, take the line B from top or bottom of Map, and the line a from the sides, and trace till they meet, and within that square the place wanted will be found. To find College Station, marked B a0 on list, take B0 from top or bottom of Map, and B1 from side, and trace in a similar way, and the Station will be found within the Half-mile Square where B2 and B3 meet.

The large Map of Glasgow has been revised and placed at the end of the Directory. On passing of the Redistribution or Seats Bill a Coloured Map will be issued, showing the Wards of the City for Parliamentary purposes. Orders for Copies will be received by the Letter-carriers. The Map of the Environs is placed in front, and shows the Clyde west to Gourock.

In the Appendix will be found Tables with despatches and arrivals of Mails, Lists of Post Towns, Post-Office Regulations, Telegraph information, Names of the Members of Parliament for Scotland, Local Institutions, Charitable Societies, &c.

The publishers return thanks to the gentlemen connected with the various Local Associations for their kindness in supplying much useful information. They also beg to thank their numerous subscribers for the patronage bestowed on the work for the long period of fifty-seven years.

The printing has been done, as formerly, by Mr. Mackenzie, Howard Street, and the binding by Messrs. Gowans & Gray, Ann Street.

Post Office, Glasgow, May 28, 1885.

### INVENTORY DUTY.

PROPERTY LIBLE TO THE DUTY.—Generally—All personal property (heritable securities are personal property) belonging to the deceased in the United Kingdom, heritable securities, and personal bonds excluding executors—(48 Geo. III. c. 149, § 38, &c.; 55 Geo. III. c. 184, Schedule, Part III.; 21 and 22 Vict. c. 56, §§ 9, 12, 13, &c.; and 16 and 17 Vict. c. 59, § 8.)

Personal Property—Absolute power of disposal.—
Personal estate which a person, dying after 3rd
April 1860, shall have disposed of by will, under
any authority enabling such person to dispose of
the same as he shall think fit, shall be deemed personal or movable estate of the person so dying, for
the purpose of payment of inventory, probate, or
administration duty.—(23 Vict. c. 15, § 4.)

Indian Promissory Notes—Ships.—Indian Government promissory notes and certificates issued, or stock in lieu thereof, being assets of a deceased person, the interest of which shall be payable in London, registered in London, or enfaced in India for the purpose of such registration before the death of the owner; also Indian Government promissory notes, with coupons attached, in the same circumstances as to registration, and certificates issued, or stock created in lien thereof, shall be personal estate, and bona notabilia in England of the deceased person (23 Vict. c. 5, § 1); also any ship, or any share of a ship, belonging to a deceased person, registered in any port in the United Kingdom, notwithstanding such ship at the time of the death may have been at sea, or elsewhere out of the United Kingdom, shall be deemed to be at the port at which she may be registered (27 and 28 Vict. c. 56), and liable to inventory, probate, or administration duty.

Specialty Debts.—For probate and administration duty, debts and sums of money due from persons in the United Kingdom to a deceased on obligation or other specialty, shall be estate and effects of the deceased within the jurisdiction of Her Majesty's Court of Probate in England or Ireland, in which the same would be if they were debts upon simple contract, without regard to the place where the obligation or specialty shall be at the time of the

death. - (25 Vict. c. 22, § 39.)

Foreign Bonds and Stocks.—Documents of the debts of foreign governments and foreign companies which pass from hand to hand are property where the documents may be. Debentures or bonds by foreign companies and governments, and the title to stocks of foreign companies and governments, are property in this country, if in the possession of any person in this country, and can be sold in the market, and the title of the purchasers completed to them in this country .- See Attorney-General v. Bouwens, 4 Meeson & Welsby, 171.

Rents of Heritage. - If the deceased survive Whitsunday, one moiety of the rents of the crop of that year is personal estate. If he survive Martinmas, the whole rents of that crop fall into the executry. In addition, from and after 1st August, 1870, the Acts 33 and 34 Vict. 1870, c. 35, would seem to give the executor a proportion of the rents from the term preceding the date of death to the date of death. That Act would also seem to give a proportion of the term's rents of quarries, minerals, and houses, and also feu-duties current at the death. The executor's right to house-rents would not therefore be to the half-year's rents current at death, but to a proportion only to the date of death.

Modes in which Duty may be Paid .- When deceased domiciled in Scotland. - In the case of a person dying domiciled in Scotland, having personal property in Scotland, England, and Ireland, and also heritable securities excluding executors, and personal bonds excluding executors, duty in respect of the whole may be paid on the inventory required to be recorded in the Sheriff Court; or inventory duty may be paid on the personal property situated in Scotland, including heritable securities made movable by the Act 31 and 32 Vict. c. 101, § 117, and duty may be paid on a "special inventory" of the heritable securities excluding executors and personal bonds excluding executors, and probate or administration may be obtained in England and Ireland in respect of the personal estate in these countries, and duty paid in respect of such on these instruments.

When deceased domiciled furth of the United Kingdom .- In case of a person dying domiciled furth of the United Kingdom leaving personal estate in Scotland, England, and Ireland, an inventory must be given up in Scotland, probate or administration taken out in England and Ireland, and duty paid on such in respect of the property in each country.

ABSTRACT OF THE RATES OF INVENTORY DUTY. Inventories to be exhibited and recorded on or after 1st June, 1881.-44 Vict. c. 12. [For duties previously payable, see 55 George III. c. 184 (schedule, part III.)-22 and 23 Vict. c. 36, § 1, 27 and 28 Viet. c. 56, § 5, and 43 Viet. c. 14.]

# WORTHINGTON STEAM PUMPS.

SIZE-9  $\times$  5½  $\times$  10 (fitted with extra side pipe and strainer).

THE valve motion is the important and characteristic peculiarity of this Pump, as being that to which it owes its complete immunity from noise or concussive action. Each pump has two steam cylinders and two double-acting plungers, and the slide valve of the one cylinder is worked by a lever which is actuated by the piston rod of the other, thus dispensing with the whole system of cranks, fly-wheels, loose tappets, and supplemental cylinders, all of which have been found in practice more or less objectionable.

The valve motion also allows of the plungers pausing at the end of each stroke sufficiently long to allow the water to fill the chambers and the valves to settle back in their places before the return stroke commences. This arrangement removes all shock and water-hammering, and makes the pumps peculiarly suitable for feeding boilers, and for other services where exceptionally high pressures have to be pumped against.

The "Worthington" pumps are also positive in their action, the valve arrangement being such that they have no dead centre, but in every position of the stroke will start away the moment steam is admitted—a feature not to be met with in any single direct-acting or crank and fly-wheel pump.

Illustrated Catalogues and List of Prices may be had at the Office of the Company, where also a "Worthington" Steam Pump may be seen.
