## PREFACE.

---

SOON after the first notice was issued that a Directory for Dundee was in the course of publication, several unforeseen and unavoidable circumstances occurred, tending to retard its progress and delay its appearance. Perfect accuracy in such a publication as the present is hardly attainable, although the greatest care and attention have been bestowed in collecting the information, and making up the lists. Any omissions or errors, however, which may have inadvertently crept in, it is confidently trusted will be found neither numerous nor material. A supplementary sheet, containing lists of the Magistrates and Town Council, Police Commissioners, Harbour Trustees, &c. will be published immediately after the elections take place, with any other alterations, corrections, or additions which may appear necessary, or which the publisher may receive before that time.

DUNDEE, 1837.

He gladly avails himself of this opportunity of intimating that he has lately been in PARIS, which he visited for the purpose of making himself acquainted with the excellencies of making Bright Colours—for which the Parisians are so much famed; and, in consequence of this, and of the experience he has had in London and Edinburgh, and other parts of the kingdom, he hopes he will be found fully qualified to give satisfaction in the Dyeing of Ladies' Dresses, Shawls, &c., exactly to their tastes, both in the French and English Fashions.

A. C. takes this opportunity of informing his customers, that he has just received from his Correspondent in Paris, a new invented patent Machine, unrivalled in the Dressing and Finishing of Silks—the only one of its kind in Scotland.

**J.** LYON ALEXANDER, CHEMIST and DRUGGIST, begs to return thanks for the liberal share of public patronage with which he has been hitherto favoured; and respectfully solicits the public attention to the select Stock of MEDICINE which he has on hand, including patent Medicine, and every article usually sold in the line. From his unremitting personal attendance at the Laboratory, where every prescription is made up under his immediate superintendance, the Public may rely with confidence on the strictest attention being paid to the orders with which he may be favoured; both as to the quality of the Medicine, and, what is of no less importance, the *exact* quantity and proportions in which the Medicine may be prescribed.

**M**R. GRAY, SURGEON, Dundee, begs to announce to the Inhabitants of Dundee and the surrounding country, that he has found out an elegant preparation of MEDICINES for preserving and beautifying the TEETH, much superior to that in general use, which is merely a preparation of Chalk and Cutle Fish-bone; or Chalk coloured with a little Vermilion. He can assure those who may give it a fair trial, and continue the daily use of it, that they will have very little occasion to employ a Dentist, either now or at any future period.

Price 1s. per box.

Mr Gray has on hand an excellent Stock of Medicines, all of the finest quality.
