* In using this Table, take from the Kalendar the time of High Water at Leith; add to it the time opposite the place required when the sign + is prefixed; subtract it when the mark — occurs. Thus the time of High Water at Leith in the morning of January 2 is 4h. 52m.; the time in this Table opposite Liverpool is — 3h. 0m.; and by subtracting this from the former there is obtained 1h. 52m. for the morning tide at Liverpool on the day required.

The time given in the Kalendar for the Rising and Setting of the Sun and Moon is Greenwich mean time; that of High Water at Leith is Edinburgh mean time.

Farmer's and Grazier's Kalendar.- In fresh weather the plough may be set in mo-Turn over stubble-lands intended for green crops or summer fallows. will correct wet ploughing; but this operation should seldom be performed unless the soil is moderately dry. During frost apply composts; manure may be taken to distant fields, and deposited in large heaps or scattered on the surface. grain, so as to afford ample supplies of straw for littering courts. This and Thrash This and the following month constitute the chief season for converting straw into manure. Devote attention to live stock, by affording shelter and supplying food at regular hours. Keep fatting cattle dry, and give them stored roots during frost. Cows require succulent roots, or food prepared by steam or hot water, to yield milk copiously. Shelter newdropt lambs, and give their dams roots, hay, and bruised grain, or lintseed cake. Ewes will not produce fat lambs at this season without nutritious food.

Gardener's Kalendar .- When the frost is not severe, trench, manure, and turn up in Gardener's Kalendar.—when the frost is not severe, trench, manure, and turn up in ridges all vacant ground, and prepare hotbeds. In open and dry weather, sow in mild exposures, for a succession, a few early-firame pease, common beans, short-topped radishes, lettuces, carrots, onions, spinach, and curled parsley, protecting them from the frost by mats or straw; and, in hotbeds, sow caulifolowers, melons, cucumbers, small salading, early cabbages, and kidney-beans. Plant, prune, and train standard and wall fruit-trees, gooseberry, raspberry, and currant bushes. Edge beds, form new flower-gardens, and shelter from frost tender evergreens, tulips, ranunculuses, &c. Pot choice dahlias, placing them in a stove or hotbed. Air and keep dry carnations and stage auriculas. Plant snow(drops, cropulses, placing less, irises, &c.

Plant snowdrops, crocuses, gladioluses, irises, &c.

Bank-Holidays are marked t. When they fall on a Sunday, they are held on the following day.

Farmer's and Grazier's Kalendar.—Frost being a powerful agent in obtaining mould for covering seeds, plough grass and other lands intended to produce a crop. Whether turnip be folded or carried from the field, plough the land as the crop is removed, and wheat-sowing may follow. Beans and oats may be sown; but it is only rich dry soils which can be seeded so early with prospect of success. In mild weather thorn hedges may be dressed, and new ones planted. Lay up stores of seed-corn, put implements into working trim, and execute many little jobs, that no interruption may be experienced in sowing-time.—Animals about to bring forth merit particular attention, the supply of milk and strength of offspring being affected by the dam's treatment pre-vious to birth. Keep calves warm, clean, and dry; give hay and sliced roots in addi-

tion to liquid food to such as are rearing.

Gardener's Kalendar.—Make ready all the ground intended for early crops; and, when the weather is favourable, continue to sow every fortnight pease, beans, onions, spinach, savoys, lettuces, celery, cauliflowers, carrots, parsnips, and radishes, as directed in the kalendar for the preceding month. Cut early kidney potatoes for seed, and put them into the stove or hotbed in order to start them for planting out. Clean shrub-beries, roll walks and lawns, and plant out evergreens and shrubs of all kinds, par-ticularly roses. Put cuttings into rich light soil in well-sheltered borders, and plant stocks of the common wild rose for standards on which to bud the Chinese and other fine varieties. Protect all tender plants from the effects of frost, and air greenhouse and stage auriculas and polyanthus frames. Top-dress all fine auriculas and polyanthuses in pots or boxes. Strike dahlias from roots in hotbeds, and sow balsams, cockscombs, tricolors, amaranths, sensitive and ice plants, as well as other tender annuals. Plant carnationlayers, ranunculuses, anemones, and bulbous roots, and divide the roots of herbaceous plants.

Farmer's and Grazier's Kalendar.—Continue preparations for seedtime. Finish wheat-sowing about the middle of the month. Sow beans, oats, and barley as soon as the weather and soil admit,—reserving cold wet lands till the season advances. The seeds of clover and ryegrass will succeed amongst autumnal-sown wheats, without harrowing or rolling the surface. Particular fields intended for barley or potatoes may receive a second ploughing. Prepare composts and manures for turnip. This is the best time for planting hedges.—In altering the diet of fatting animals, always let the change be to one more nutritious. Part of the fatting cattle may be allowed bruised grain or lintseed cake, which will quickly fit them for the shambles. If scarcity of turnip render a richer substitute necessary for advanced cattle intended for grass, give a small allowance, and plenty of straw. Ewes will lamb freely on arable farms, and seldom require any kind of food but grass and turnip.

or Intseed cake, which win questy at them for the snamnies. It scarcity of turnip render a richer substitute necessary for advanced cattle intended for grass, give a small allowance, and plenty of straw. Ewes will lamb freely on arable farms, and seldom require any kind of food but grass and turnip.

Gardener's Kulendar.—The principal crops of vegetables should be put into the ground this month. Sow asparagus, celery, cauliflower, Brussels sprouts, beets, brocoll, spinach, onions, Dutch turnips, carrots, pease and beans, savoys, parsnips, and turnip-rooted radishes. Plant red cabbage, sea-kale, kidney-beans, and cauliflowers from frames; and sow cucumbers and melons in hotbeds. Finish pruning, dress borders and strawberry beds. This is the best time to graft fruit-trees, and the China, perpetual, moss, and rosette roses, on the common brier or blush China rose, and to propagate them by layers. Pot dahlas that have pushed, and also cuttings from the offsets, placing them in a moderate heat Protect tender plants and blossoms, and sow polyan-

thus, auricula, and almost every kind of perennial, biennial, and annual seeds.

Farmer's and Grazier's Kalendar.—This is the most important seed-month, and no favourable opportunity should be lost to sow grain crops. Harrow and roll clover and ryegrass sown amongst wheat, to ensure the seed germinating. Store the residue of the turnip crop, to preserve the bulbs and prevent the exhaustion of soil. Drain lands intended for green crop where previously neglected. Potatoes may be planted in favourable situations. Finish planting thorn hedges.—On store farms, this is the chief lambing season, and the shepherd's utmost attention is necessary. Cease folding turnip, and either feed sheep on stored roots, or restrict them to grass. Fatting lamb-hogs require good pasture, being unable to cat turnip freely, from shedding teeth. When there is a scarcity of keep at the homestead, lean cattle may be allowed to roam over permanent pastures. Seedling grasses will seldom admit of being depastured with cattle.

New Moon . . . 12th, 47 m. past 0, A. Full Moon 26th, 20 m. past 11, M.

Gardener's Kalendar.—Sow whatever was omitted last month, and plant out such of the pot-herbs as are ready for that purpose. Continue to sow and plant out rhubarb, artichokes, asnaragus, nasturtiums, sea-kale, Dutch turnips, German greens, and small salading. Earth up pease, tie up lettuces, and in very dry weather water seedling beds. Finish the grafting of fruit-trees, and train and clean walks and edgings. Sow annuals, biennials, and perennials. Plant evergreens, and propagate by cuttings jasmine, lavender, sage, rosemary, rue, &c., and all the woody kitchen shrubs. Sow dahlias, carnations, pinks, hollyhocks, Cape, Brompton, and German stocks, China asters, and all kinds of hardy annuals. Destroy the green fly on roses, and preserve the bloom of stage auriculas from sun and rain. Top-dress all flowers in pots by removing withered leaves, and put in fresh earth. Hoe and rake gravel walks, cut box-edgings, and mow grass plots.

Farmer's and Grazier's Kalendar.—Conclude the sowing of grain crops; and, with the advance of the season, use early varieties. From necessity, barley and pease may be sown up to the end of the month; but early-sown spring crops are generally the most valuable. Be diligent in preparing soils for potatoes and turnip; and by judiciously using harrow and roller, endeavour to retain moisture, and produce a fine tilth. Finish potato planting. Give a second ploughing to summer fallow, and never allow vegetation to make progress at this season on its surface.—Fatting cattle may be continued on well-kept Swedish turnip and potatoes. When there is a sufficiency of grass, and the soil becomes dry, stock pastures with all descriptions of cattle. In cold and wet evenings, shelter milch cows and fat cattle in courts. Wean early calves, and turn late ones out to pasture.

Gardener's Kalendar.—Sow capsicums, cauliflowers, carrots, lettuces, spinach, Knight's marrow-tat pease, cucumbers, red beet for pickling, and a full crop of kidney and French beans. Transplant cabbages, winter-greens, lettuces, cauliflowers, and celery. Hoe and stake pease, water newly planted crops, and propagate aromatic plants by slips or cuttings. Plant out dahlias if there be no appearance of frost, and protect from wind and rain choice tulips, ranunculuses, and anemones. Propagate herbaceous plants by dividing the roots; wallflowers, sweet-williams, lychnis, and rockets, by slips; and China roses, calceolarias, mimuluses, &c. by cuttings. Put out into the open border calceolarias, pelargoniums, fuchsias, salvias, the verbena melindris, with other greenhouse plants. Sow biennials and perennials if formerly omitted.

Farmer's and Grazier's Kalendar.—This is the month for sowing turnip. Put Swedes into the earth between 20th May and 10th June. All other varieties may be sown in course of the month. Drilled crops require attention. Weeds are most easily destroyed when young; and as a general rule, use hand and horse hoes as soon as the crops admit of the operations. Earth up early-planted potatoes. Haymaking commences in early situations. Mow grasses before the plants seed; remove the crop quickly from the ground, and soon afterwards carry it to the stack.—Cattle may be best soiled this month; but the practice is seldom followed, and has little to recommend it beyond making manure. Sheep-shearing becomes general. Fleeces are proportionate to the treatment of animals; and every progression or falling off in condition may be traced in the quantity and quality of wool.

Gardener's Kalendar.—Continue sowing the vegetables directed last mouth, and also turnips for autumn use. Plant out brocoli, cabbages, savoys, celery, caulifowers in shady borders, leeks, lettuces, cueumbers for pickling, and kidney-beans. Watering is requisite in dry weather both evening and morning; and also the hoeing of potatoes, cabbages, and pease. Thin out onions, leeks, carrots, parsnips, and early turnips. Gather and preserve kitchen-herbs. Shade and air melon-plants, and strike by cnrttings double wallflowers, rockets, scarlet lychnis, and stocks. Transplant annuals, biennials, and perennials, and seedling pinks into a bed. Lift all hyacinths, tulips, and other bulbs that have ceased flowering; cut off the foliage an inch above the stem, and before putting by lay them in sand a fortnight. Re-pot auriculas, polyanthuses, &c. Mow and roll grass walks and plots once a-fortnight during this and the other summer months.

Farmer's and Grazier's Kalendar.—Conclude haymaking from artificial grasses. Single out turnip, and let hand and horse hoes be in constant requisition, with a view to improving the crops and benefiting succeeding ones. Work fallows thoroughly with plough, harrow, and roller, carefully removing root-weeds by the hand,—atmospheric influence being generally insufficient to accomplish their destruction. Execute draming, and apply lime and lime-composts when such operations are necessary. Hand-weed grain crops.—In warm weather fatting cattle and milch cows are the better of sheds, to shelter them from the sun. Throughout summer examine flocks daily, to preserve them from the attack of flies, and use the common remedies for the prevention and destruction of maggots.

Gardener's Kalendar.—In this month prepare all unoccupied plots of ground for autumn and winter crops. Sow turnips, French beans, lettuces, and black Spanish radishes. Plant out brocoll, cauliflower, savoys, lecks, and winter cabbages, and earth up celery. Lift full-grown winter onions, and prepare mushroom spawn. In fine weather, gather medicinal flowers and sweet herbs when in bloom, dressing them in the shade for winter use. Divest wall-trees, espaliers, and standards, of all superfluous shoots. Continue to water in dry weather, and gather all kinds of seeds as they advance to maturity. Propagate evergreens, roses, and other shrubs, by laying the young wood. Inoculate flowering and other shrubs, bud roses in cloudy weather, and divide the roots of double primroses, polyanthuses, and auriculas. Lay or pipe carnations and pinks, take up anemones and ranunculuses, and put in cuttings of pansies, calecolarias dabilas, Chinese chrysanthemums, geraniums, &c.

Farmer's and Grazier's Kalendar.—Conclude hand and horse hoeing turnip. Apply manure to the fallows, and immediately plough it into the soil, putting the ridges into proper form, and clearing out water-courses, to guard against wet weather. Thrash out the residue of the grain, to extirpate rats and mice before the new crop is stacked. In mountain districts haymaking from natural grasses engages the attention of storefarmers. In low situations corn-harvest will occupy all hands.—Lambs not separated from their dams last month must be weaned and put on the best pastures. On lowly-situated arable farms get in ewes for early lambing. In high districts, select and prepare the stock which is to be sent to market in the course of autumn.

Fardener's Kalendar.—Sow onions, early cabbages, and parsley, for the succeeding year; and lettuces, spinach, brocoli, and cauliflowers, to stand the winter. Earth celery; hoe and thin turnips; transplant brocoli, savoys, and cauliflowers, and the principal crop of celery into trenches for blanching. Cut those herbs which are adapted for distillation, or for winter use. Make mushroom-beds, propagate kitchen-herbs by slips, and take up all onions, garlic, and shalots that are withered in the stem. Continue to bud on fruit-trees, roses, and bushes, so long as the bark rises freely and the weather is cloudy. To obtain new varieties, sow auricula, polyanthus, and anemone seeds, and mignonette to blow in winter; as also the seeds of tulips, hyacinths, irises, and all the other bulbous-rooted flowers. Support and thin dahlias to improve their bloom. Shift tender exotics and hardy greenhouse plants into fresh pots. Keep the ground clear of weeds, and continue to water plentifully.

Farmer's and Grazier's Kalendar.—This may be considered the harvest month. Engage plenty of assisting hands for this impor'ant season. Guard against shaking winds by reaping before the juices have left the straw; and to avoid sprouting, keep cut crops always standing in an upright position. When the crop is fit for stacking, carry it by day and by night, and cover the stacks as soon as they are built. Prudent farmers provide stores of ropes and thatch before harvest commences. Hand-weed turnip where necessary. Finish fallows; and such as are wet and coldly situated may be sown with wheat.—On arable farms, weaned lambs and ewes for early lambing may be allowed to depasture stubbles and seedling grass. The breeders, rearers, and feeders of stock will meet at the different markets, and make arrangements for their customary changes of animals.

SecondQuarter13th, 21 m. past 8, M. Last Quarter. 28th, 53 m. past 9, A.

Gurdener's Kalendar.—The operations of this month are not very numerous. Sow vegetable seeds for a spring-crop, and plant brocoli, cauliflowers, savoys, German greens, leeks, lettuces, celery, and perennial aromatic and pot herbs. Hoe winter spinach and turnips, earth up celery and cardoons, weed cauliflowers and young onions, prick out cabbage-plants, gather ripe seeds, and make mushroom-beds. Plant cuttings of goose-berries, currants, and raspberries, and also strawberries, taking out all the old stools which have twice produced fruit. Continue to divide and transplant bennial and perennial flower-roots; lay almost every kind of shrubs; and put in cuttings of evergreens, China roses, and flowering shrubs. Crocuses, snowdrops, Persian irises, dog's-tooth violets, fritillarias, crown imperials, narcissuses, and most ofte other bulbous roots, may now be planted. All the rooted pinks and carnations may be planted out. Sow hardy annuals to stand the winter, and trench up ground in which to plant tulips and hyacinths during October or November.

Fermer's and Grazier's Kalendar.—Harvest being finished, employ the plough in preparing soils for wheat. Commence with the wettest lands, and only defer sowing such as are dry and situated in an early climate. Use the common preventatives for smut immediately before scattering the seed, and never sow unless there be sufficient moisture in the soil to effect germination. A good deal of thrashing is commonly requisite for supplies of cash, straw, and seed-wheat. Gather the potato crop, and carefully secure it from fros.—Unless there is abundance of grass, fatting cattle and sheep should be supplied with turnip on the pastures. Towards the middle of the month remove fatting cattle to the courts, and shelter milch cows during night. Keep weakly calves warm, and allow them a portion of nourishing food.

Gardener's Kulendar.—Sow radish, lettuce, and carrot seeds; also early pease and beans in a warm exposure. Plant horse-radishes, lettuces, early cabbages, and other greens neglected last month, in sheltered situations; also cauliflowers, mint, and tarragon in firames, for winter use. Earth up savoys and cabbages as high as the leaves. Take up carrots and parsnips, cut off their tops, and bury them in dry sand. Crop the tops of parsley, to make fresh leaves for winter. Plant all deciduous trees and shrubs. Commence pruning, taking the vertical branches in fruit-trees, and cutting obliquely to prevent rain from lodging; also roses, honeystickle, and other flowering shrubs. Protect dalhias, young carnations, and layers, from sudden frost; and, about the end of the month, begin to plant hyadinths, tulips, ranunculuses, and ancmones. In favourable weather, transplant hardy fibrous-rooted plants, intermixing them in the borders, to keep up a succession in the flowering season.

Farmer's and Grazier's Kalendar.—Conclude potato harvest. Finis'n wheat sowing, although this grain may be sown any time on rich dry soils up to the middle of March. At this season, as newly ploughed land receiving rain seldom becomes dry, sow wheat from day to day as the soil is turned over. Store turn'sp to use in frosty weather; and wheat may be sown where the crop is removed. Form lime-composts for applying in spring and summer. This is the best time for draining soils intended for green crop and fallow. Dress hedges and ditches.—Sheep intended to be fatted should be folded on turnip, and allowed dry fodder. Lamb-hogs will thrive best with an allowance of turnip on pastures. To all flocks apply the salves and lotions in common use. Cattle of all descriptions should receive fodder and shelter during night, and such as are fatting be shut out from the pastures.

Gardener's Kalendar.—Although hazardous, early pease and beans may be sown in a warm border; if neglected, most vegetables recommended in the last two months may still be planted, earthed up, &c., taking care to protect them from frost. Force sea-kale, rhubarb, and asparagus. Prune and plant fruit trees and bushes; and finish flowering shrubs and trees. Transplant seedling stocks, and suckers taken from the roots of the pear, codling, plum, and quince trees, to prepare them for budding or grafting different fruits upon; also stocks of the tree-rose, for budding upon them the garden and Chinese varieties. Shelter choice flowers. To make the colours of the tulip distinct, the compost ought to be changed every alternate year; an operation which should be performed this month. Tulip-soil should be one-third of fresh, light, turfy loam; one-third of fine sand; and one-third of sandy peat, or leaf-mould. Take up dahlia roots whenever the bloom is nipped by frost, and keep them in sand free from damp.

Furmer's and Grazier's Kalendar.—Continue to plough stubbles. Store turnip in mild weather. A great deal of straw will be requisite; and regulate thrashing, so that there may be enough to last throughout the season. As general winter employment, in mild weather dress ditches and repair fences, drain and add by every possible means to the stores of compost and putrescent manure. During frosty weather bring forward materials for drains and composts, and remove all heavy commodities which require a firm surface for transport.—Cattle of every description should now be in winter quarters, and receive winter fare. Separate the weak from the strong. Have a constant supply of water to store cattle, and apportion their litter and stood so that they may last until the arrival of the grassseason. Give fatting cattle at all times as much as they can eat, commencing with globe turnip, and proceeding with food of increasing richness.

Gardener's Kalendar.—Prepare for future operations, by digging, manuring, or trenching vacant ground, and collecting dung, leaves, and turf, to make compost. In mild weather, a few early pease and radishes may be sown in a warm border, and small salads and cucumbers in hotbeds. Cover with fern, straw, litter, or mats, all such plants as are likely to be injured by the frost, either in the open ground or in frames, admitting free supplies of air when the weather is favourable. Plant and prune all kinds of trees and bushes, taking care to stake the trees that are newly planted. In pruning roses, remove the old wood, curtail the young straggling branches, adding good store of decayed manure. Fine auriculas, polyanthuses, and carnations must now be treated with great care.

FAIRS, CATTLE-MARKETS, & TRYSTS IN SCOTLAND.

When the appointed day happens to fall on Saturday, Sunday, or Monday, the fair is generally deferred till the Tuesday following. Fairs which are held according to the Old Style are distinguished by the letters o s placed after the day indicated. In some parts of the country the difference between the Old and New Styles is computed to be eleven, in others twelve days,—the Old being reckoned to be so much later than the New Style.

STATE OF THE FIARS-PRICES

OF THE DIFFERENT COUNTIES IN SCOTLAND FOR CROP AND YEAR 1848.

The following Tables have been prepared from authentic documents in the Teind-Office, and their accuracy may be entirely relied on. The average is that of the seven years, from 1842 to 1848 inclusive; but in a few cases, distinguished by an asterisk, that of six years only. Where blanks occur, no average could be given, the Fiars not having been regularly struck.

The Grain is computed by the Imperial Quarter,—the Meal by the Boll of 140 Imperial Pounds.

RULE FOR ASCERTAINING THE WEIGHT OF HAY.

stack; then take its height from the ground to the eaves, and add to this last one-half of the height from the eaves to the top: Multiply the length by the breadth, and the product by the height, all expressed in feet; divide the amount by 27, to find the cubic yards, which multiply by the number of stones supposed to be in a cubic yard (viz. in a stack

Measure the length and breadth of the of new hay, 6 stones of 22 lbs, avoir, each; if the stack has stood some time. 8 stones; and if old hay, 9 stones), and you have the weight in stones. For example, if a stack be 60 feet in length, 30 in breadth, 12 in height from the ground to the eaves, and 9 (the half of which is $4\frac{1}{2}$) from the eaves to the top; then $60 \times 30 \times 16\frac{1}{2} = 29700$, and $29700 \div 27 =$ 1100, and $1100 \times 9 = 9900$ stones of old liav.

RULE FOR ASCERTAINING THE WEIGHT OF CATTLE.

Measure the girt close behind the shoulder, and the length from the forepart of the shoulder-blade along the back to the bone at the tail, which is in a vertical line with the buttock, both in feet. Multiply the square of the girt, expressed in feet, by five times the length, and divide the product by 21; the quotient is the weight, nearly, of the four quarters, in imperial stones of 14 lbs. avoirdupois. For example, if the girt be $6\frac{1}{2}$ feet, and the length $5\frac{1}{2}$ feet, we shall have $6\frac{1}{2} \times 6\frac{1}{2} = 42\frac{1}{4}$, and $5\frac{1}{2} \times 5 = 26\frac{1}{4}$; part of the whole.

then $42\frac{1}{4} \times 26\frac{1}{4} = 1109\frac{1}{8}$, and this, divided by 21, gives 52 stones nearly, or 52 stones 11 lbs. It is to be observed. however, that in very fat cattle the four quarters will be about one-twentieth more, while in those in a very lean state they will be one-twentieth less, than the weight obtained by the rule. The four quarters are little more than half the weight of the living animal; the skin weighing about the eighteenth part, and the tallow about the twelfth

PART II.

COUNTY OF MORAY.

NAME.—The most probable derivation is from the Celtic words "Mur" or "Mor," the sea, and "Taobh" or "Tav," the side, being in construction "Mor'av," the seaside—thus answering the situation of the county, lying as it does along the shores of the Moray Firth.

SITUATION.—The county is situated on the east side of the northern division of Scotland, and is 177 miles north of Edinburgh, and 67 miles north-west of Aberdeen. It forms the central part of the ancient Province, and lies between

the 57° and 58° of north latitude.

BOUNDARIES.—The Moray Firth forms its northern boundary, the counties of Nairn and Inverness adjoin it on the West, Banffshire on the East, and on the South the northern range of the Grampian mountains terminating in Benrinnes, which has an elevation of nearly 2300 feet, from which

there is a gradual descent to the sea level.

EXTENT.—The extreme length of the county, in a straight line, is about 40 miles from North to South, and from East to West its breadth varies from 8, 15, to 23 miles. By the most direct roads, from Lossiemouth to Upper Craigellachie, its extreme length is $58\frac{1}{2}$ miles, and its extreme breadth from Fochabers to Dyke about 26 miles. It contains 302,729 Imperial Acres.

SOIL AND CLIMATE.—The soil is generally light and sandy, interspersed with tracts of clay and rich loam. In the Duffus or lower district there is a deep clay; and for productiveness it is equal to the vale of the Clyde or the plains of the Lothians.—The climate is very mild and sa-

lubrious, the average temperature being 48° 33m.

PAROCHIAL DIVISION.—There are 21 parishes within the county, besides portions of the parishes of Boharm, Inveraven, Keith, and Cromdale.

RENTAL.—The valued rent in 1674 was £65,603, 0s. 9d,

Scots, which is still the rule by which the public assessments, except the prison assessment, are allocated; and in 1835 a valuation of property, not included in the above rental, was made, which amounted to £4837, 7s. 2d. sterling, making the total rental £70,44, 7s. 11d. sterling.

POPULATION.—According to last census, taken in 1841, the population was

COMMUTATION ROADS.

All the roads in the county not mentioned as turnpike were made and are kept in repair in virtue of the Act 59 Geo. III., cap. 57. The funds are raised by yearly assessments.

The assessment on the valued rent of lands in the county is the rule and foundation for the other assessments. The maximum rate is 50s. sterling for every £100 scots of valued rent, and the minimum 30s. sterling. But it is in the power of the trustees to fix either of these two sums, or any sum between them, as exigencies may require.

SCALE OF ASSESSMENT—PARISH OF ELGIN, FOR 1848.

Valued Rent—For every £100 Scots, 35s.

Burgh Lands-For every £1 Sterling of real rent, 4d.

SPEY BRIDGE TRUST.

The memorable flood of 1829 carried away the two principal arches of the former bridge, and they were rebuilt of wood in one arch, under the Act 11th, Geo. IV., cap. 129, passed in 1830, at an expense of £6061, 4s. 4d. sterling. This sum having been advanced by the late Duke of Gordon, the collection of the pontage dues was assigned over to him in security, and in payment of the interest of the advance; and is now retained by his Grace's successor, the Duke of Richmond.

The pontage duties for the year ending 26th May last, amounted to £563, 15s. 9d., and after payment of the interest of the advance, at 5 per cent., and other expences, the vearly surpluses have reduced the debt to £2618, 4s. 71d. sterling.

Clerk-Patrick Duff, Elgin. Treasurer-Alex. Marquis, Factor, Fochabers. Collector of Pontage Duties-John Shand, Spey Bridge.

Salaries-Clerk, £10; Treasurer, £10; Collector, £30 8s. 4d. per annum, with a house.

FINDHORN BRIDGE TRUST.

The elegant suspension bridge across the Findborn on the Great North Road was erected with funds raised by a Joint Stock Company, in shares of £10 each, who have right to the pontage duties, till their subscriptions are paid off with interest. The subscribed capital is £6170 sterling, and the holders receive 5 per cent. interest. The pontage duties for the year to 24th April last, were £561, 12s. 5d. and are annually let by public roup, in the month of April. Balance at credit with British Linen Company, £2331 5s. 9.

Treasurer—Thomas Davidson, banker, Forres. Clerk-Robert Watson, Town-clerk, Forres. Salaries—Clerk, £10, 10s.; Treasurer, £10, 10s.

ELGIN.

NAME.—From *Hely*, holy, and *Dun*, a hill, or, as some suppose, from Helgy, a Pictish general, who, it is said, built the town.

SITUATION AND BOUNDARIES.—The parish is extremely irregular in its figure. The town lies in a valley, from which there is a gradual acclivity to the base of the Blackhills, the summit of which forms the southern boundary of the parish. On the north and north-west, it is protected by the Bishopmill, and Quarrywood plantations, in the parish of Newspynie. The parish of St Andrews bounds it on the east, and Alves on the west.

EXTENT.—About 18 superficial square miles.

PART IV.

THE BURGH OF ELGIN.

The town of Elgin was erected into a Royal Burgh by charter, granted by Alexander II. in 1234, and its rights and privileges were subsequently confirmed, and grants of land, &c. made, by Alexander, Robert, James I., James II., James VI., and ratified by Charles I., in a charter dated the 8th Oct., 1633. The derivation of the name seems to be doubtful. In the Chartulary of Moray it is stated that prior to 1226 it was called Elgin, or Helgyn, after Helgy, a real or supposed General of the Picts, who, it is said, about the beginning of the 10th century, conquered Moray, and other three northern counties, and built a town in the southern district, supposed to be Elgin; while Shaw attributes the derivation of the name to the Saxon words, Hely holy, and Dun, a hill, or Helgyn, by changing d into g; and there is an iron seal in the town's repositories, on which the following inscription is engraved in Saxon characters:- "S. COMMUNE CIVITATIS DE HELGYN," No other distinct information can be obtained of the origin of the town; but there is no doubt of its having been, at an early period a place of considerable importance. St Giles is the Patron Saint and the burgh arms represent him standing in a pastoral habit, with book in his right, and crosier in his left hand, and beneath is inscribed the motto of "Sic itur ad astra,"-such is the way to heaven. Elgin is the county town where all the Courts of Justice are holden, and the public business of the county transacted. It returns a Member of Parliament in conjunction with the burghs of Banff, Peterhead, Cullen, Inverury, and Kintore. There existed no regular written sett for the burgh previous to 1700; the proceedings of elections of office-bearers; &c., being regulated by usage, and the general rules established

by the Scottish Parliament. In that year, however, in consequence of certain disputes respecting the mode of election the matter was submitted to the Convention of Royal Burghs, and the act passed by that body at the time, was acted upon as the sett of the burgh till the Reform Bill was passed in 1832.

THE TOWN COUNCIL.

By the Act 3d & 4th Will. IV. cap. 76, the Council consists of seventeen burgesses, who must be Parliamentary electors of the burgh, one-third of whom go out every year by rotation, and the election of their successors takes place on the first Tuesday of November by the votes of the Parliamentary electors registered on premises situated within the royalty. The poll opens at eight, A.M., and closes at four, P.M., at which hour the parties having the greatest number of votes are declared elected. Should any party so elected decline accepting the office, another day for voting, to supply the vacancy, takes place within three days thereafter. The Magistrates, consisting of a Provost, four Bailies, and Dean of Guild, are elected along with the other office-bearers, not sooner than two or later than three days after the Council is complete.

The Council holds stated meetings in the Council-room on the last Monday of every month for the despatch of the ordinary business of the burgh. Special meetings are also

occasionally held as circumstances require.

BURGESS AND GUILD BRETHREN.

By the Act 9th Vict., cap 17, passed on 14th May, 1846, all exclusive privileges of burghs and trades' incorporations were abolished; and all may now open shop or carry on any trade or profession in any royal burgh without being called upon to pay any dues whatever. No party however is eligible to be elected a member of the Town Council except Burgesses, and the dues were last year reduced from £20 to £4 each, being £2 for Burgess and £2 for Guild dues.

CHARITIES UNDER THE MANAGEMENT OF THE PROVOST, MAGISTRATES & TOWN COUNCIL.

1. MAISONDIEU ENDOWMENT.

After the Reformation, the Preceptory of Maisondieu having fallen to the Crown James the Sixth of Scotland and First of England, by Royal Charter of Confirmation, dated

the last day of February, 1620, granted to the Provost, Bailies, Councillors, and community of Elgin, and their successors, the Hospice or House of Preceptory of Maisondieu, lying adjacent to the said burgh, founded for the aliment and support of certain poor and needy persons, with the right of patronage to the same; together with all lands, tenements, rents, &c. &c. belonging thereto, and of which the precentor and beidmen thereof were in possession at any former period; together with the town and lands of Over and Nether Manbeen and Haugh of Manbeen, the lands of Over and Nether Kirdels, the lands of Over and Nether Pittensear, for the support of certain poor and needy persons, according to the original establishment thereof; and also to maintain and support a teacher of music, properly qualified, to instruct the youth within said burgh in music and other liberal arts, and also to answer and promote the affairs of the said burgh, because the common revenue was barely sufficient for its own purposes.

The lands of Maisondieu were accordingly appropriated by the magistrates for the purposes designed by the charter. No evidence can be found that those of Manbeen, Kirdels, and Pittensear had ever been in their actual possession; but that the charter gave right to the casualties of these lands payable at the time to the hospital of Maisondieu, the

Dominium utile being in the hands of lay proprietors.

The lands of Maisondieu contained 29 acres, 2 roods, and 6 falls. The present rent of the land is £68, 10s. sterling, besides £42. 17s. 6d., of a few rent, being, in all, £91, 7s. 6d.

sterling.

A beidhouse was erected at the east end of the burgh in 1624, to contain four poor persons, with a piece of garden ground attached. This building having become ruinous, a new beidhouse was erected by the Magistrates and Council in 1846. So far back as can be ascertained, each occupant received one boll of Barley quarterly; but the allowances are now paid in money, and each beidman, besides the accommodation of house and garden, receives £8 per annum.

The present incumbents are—Alexander M'Iver, shoemaker; John Pyper, carpenter; Alexander Jenkins, weaver,

and Alexander Christie.

2. AUCHRAY'S OR PITTULIE'S MORTIFICATION.

The charity under this title was instituted by Wm. Cummine of Auchray and Pittulie, who, by deed of mortifi-

cation, dated the 12th October, 1693, bequeathed a sum of money to be laid out in the purchase of lands, the rents of which were to be applied for the maintenance of four poor old decayed or broken merchants, being residenters within the burgh, and burgesses thereof. With part of the amount the "Leper" lands had been purchased previous to the date of the deed of mortification, and since that time the four crofts called the "hospital crofts," and a rood of burgh land, have been purchased for the purposes of the charity. The balance, £2022, 17s. 9d. Scots, or £168, 15s. sterling, lies in the hands of the Town Council, for which interest at 5 per cent. is paid yearly into the funds of the charity. The lands are in the possession and under the management of the magistrates, and the

Present rental is - £54 10 0 Interest of £168, 15s. in town's hands 8 8 9

£62 18 9

This sum, after deducting a few shillings for local taxes, is divided equally among the four decayed merchants presented to the charity. The presentation is vested in the donor's heirs and successors jointly with the magistrates of Elgin, who alternately have the right of nomination.

The present incumbents are—James Callum, carpenter, appointed in 1838; Wm. Russell, merchant, appointed in 1845; John Forsythe, appointed in 1848, and John Shepherd,

appointed in 1849.

The right of patronage was last exercised by the magistrates, and Mr Cummine of Auchray, has, therefore, the right of presentation on next vacancy occurring.

3. DARKLAND'S MORTIFICATIONS.

1. On the 6th December, 1698, John Innes, of Darkland bequeathed the sum of £1000 Scots (£83, 6s. 8d. sterling) the interest of which to be divided among the poor of the burgh of Elgin and the parishes of Lhanbryd and Birnie, in the following proportions:— Scots. Sterling.

To the poor of Elgin - $\pounds 666$ 13 4 £55 11 1 $\frac{1}{4}$ To the parish of Lhanbryd 133 6 8 11 2 2 $\frac{3}{4}$ To the parish of Birnie - 133 6 8 11 2 2 $\frac{3}{4}$ The Balance of - - 66 13 4 5 11 1 $\frac{1}{4}$

To be divided on the burial day

of William Innes.

£1000 0 0 £83 6 8

The patrons are the Magistrates of Elgin for their own share and for the two parishes, the Kirk-sessions of Lhanbryd and Birnie, and the Lairds of Coxton and Dunkinty or their heirs.

2. On the 20th November, 1707, Mr Innes also bequeathed the sum of £1100 Scots, with which he purchased, from Robert M'Kain, merchant in Elgin, the lands called the "Shooting Acres," and appointed the free rent thereof to be divided yearly among the poor of the undermentioned parishes, in proportion to the following sums:—

£1333 6 8£111 2 $2\frac{3}{4}$

The Shooting Acres are in the possession and under the management of the Magistrates and Town Council. The first distribution took place with crop 1709, when the rent was only £90 Scots, or £7, 10s. sterling. The present rent is £23, 5s. sterling, which, after deducting the public burdens, is annually divided according to the above proportions. The patrons are the Magistrates and Ministers of Elgin and the Lairds of Coxton, Dunkinty, and Leuchars, and their successors.

3. Mr Innes, on the 6th April, 1713, bequeathed the sum of 1000 merks Scots to the poor of the town and parish of Elgin, and parish of Lhanbryd, to be divided as follows:—

Scots. Sterling.

To the town and parish of Elgin £466 13 4 £38 17 91 To the parish of Lhanbryd - 200 0 0 16 13 4

£666 13 4 £55 11 14

The patrons are the Magistrates and Ministers of Elgin, the Minister of Lhanbryd, and the Lairds of Innes, Dun-

kinty, Leuchars, and Bishopmill.

4. John Innes of Dunkinty, by deed of settlement, recorded at Edinburgh on the 28th May, 1781, bequeathed the sum of £100 sterling to the Magistrates and Ministers of Elgin, for the benefit of the poor, and the sum of £160 sterling for the Episcopal chapel. Both the legacies lay in the hands of

the donor's nephew, John Innes of Leuchars, and the amount recovered in 1830, from his estate, was £112, 10s. 2d. sterling, which was apportioned as under, after deducting expenses:—

To the Episcopal chapel,....£62 15 2

4. DICK'S MORTIFICATION.

On the 21st December, 1719, Alexander Dick, glover in Elgin, mortified the sum of 1000 merks Scots (£55, 11s. 1\frac{1}{4}d. sterling) to the poor of the town, which lies in the town's hands. The interest, £2, 15s. $6\frac{3}{4}d.$, is annually divided among the poor at Christmas.

5. GORDON'S MORTIFICATION.

Bailie Charles Gordon, Elgin, on the 22d October, 1733, bequeathed the sum of £200 Scots (£16, 13s. 4d. sterling) to the poor of the town. The money also lies in the town's hands, and the interest, (16s. 8d. sterling) is annually divided among the poor at Christmas.

6. CRAMOND'S MORTIFICATION.

Bailie Cramond, merchant, Elgin, of date the 9th February 1737, bequeathed the sum of 500 merks Scots (£27, 15s. 6\frac{2}{4}d. sterling) to the poor of the town. The money also lies in the hands of the town, and the interest, £1, 7s. 9\frac{1}{4}d. is annually divided among the poor at Christmas, along with the other mortifications.

£34 0

Donation by the town of Elgin.....

Donation by George Skene Duff, Esq., M.P.....

The particulars of this royal grant we have already given in pp. 166 and 167, to which we refer our readers.

LESLIE AND BRANDER'S BEQUESTS.

The above bequests were both made to the Grammar School, as noticed in the minutes of the Town Council. On the 24th May, 1794, there is a state of accounts entered, showing that a sum of £420 sterling had been left to the seminary by James Leslie of Jamaica, which had been duly recovered, with interest, by Mr Ross of Main; and on the 1st February, 1796, we find it stated that a sum of £50 sterling, bequeathed by Mr Brander of London, had also been received.

PETRIE'S MORTIFICATION.

James Petrie, merchant in Elgin, by deed of mortification, dated 12th June, 1777, disponed to the Kirk-session of Elgin

two aughteen parts of the Greeshop lands of Elgin, the rent of which to be applied towards defraying the expence of the education of six poor orphans, or children within the parish of Elgin whose parents cannot afford to pay their school fees, for teaching them to read and write, or any other branches the Kirk-session might judge necessary, under the following conditions:-The children to be of the age of eight or nine years, and to enjoy the benefit for three years; the school fees to be paid for each to be Is. per quarter; the children to be of parents living within the parish, who have been exemplary as good Christians, and those of the names of Petrie or Murdoch to be preferred. The donor bequeathed the free balance of the rents, to be expended in the maintenance in bed, board, washing, and clothes of the children, the Kirk-session having a discretionary power to take in girls as well as boys, and to apply the money destined for their education towards instructing them in any other branch of industry.—The lands are at present let at a rent of £25. DICK'S MORTIFICATION.

John Dick of Hart Street, Covent Garden, London, by a codicil to his last will, dated 12th March, 1786, bequeathed the sum of £120 sterling "to the Magistrates and Provost of Elgin for the time being, to be placed out at interest from time to time, to be paid by them and their successors for ever, to the Teacher of the Free Grammar School of Elgin for the time being, in augmentation of his salary." The Classical Master receives the benefit of this mortification by an addition to his salary of £5 more than those of the other Masters.

DUNCAN'S MORTIFICATION.

John Duncan, Bishopmill, by his will, dated 15th October, 1822, bequeathed to "the Magistrates of the Burgh of Elgin, and to the Minister and Kirk-session of the parish of Alves, in the county of Elgin for the time being, the sum of £25 sterling each, in trust, to be laid out by them at interest, and the interest to be applied by the said Magistrates of Elgin and Kirk-session of Alves in defraying the expense of educating a poor boy at each of the parish schools of Alves and Elgin, to be named by them respectively, for four years, in the common branches of education deemed by them most proper for him to learn, such as reading, writing and accounts." The amount effeiring to Elgin, under deduction of £2, 10s. of legacy duty, is in the hands of the town, and

the interest, £1, 2s. 6d., is annually paid for the purpose of the charity.

THE MACANDREW BEQUEST.

The late James Macandrew, Elgin, by his will, dated the 6th September, 1822, bequeathed the sum of £200 sterling "for the benefit of the Grammar or Latin School of Elgin, the principal to be sunk for ever, and the interest to be applied for books and otherwise, as premiums to three boys at the annual public examination of the school who shall give the most approved specimen of their yearly progress." The bequest to be administered by the Grammar School Master, the two established Ministers, and the Provost.

DR ALLAN'S BEQUEST.

The late John Allan, M.D., H.E.I.C.S., a native of Elgin, by his will, dated 30th April, 1833, bequeathed to the Chief Magistrate of Elgin and the several Teachers of the Academy, in succession, as Trustees, the sum of £400 sterling, to be lent out on heritable security, for the purpose of establishing, from the annual proceeds, three annual prizes in the Academy, to be payable on the 30th December yearly, being the anniversary of his birthday, equally among three pupils, one in each of the Latin, Mathematical, and English classes, who shall be found at the annual examination best to merit a prize on account of proficiency in their respective studies. No pupil to receive the prize two years for one branch, and a preference to be given to pupils of the name of "Allan." The prize to be called "Allan's Reward of Merit;" and a regular record of prize holders to be kept, and their names advertised. The bequest came into operation in December, 1837, when the sum of £16 sterling, being the annual interest, was divided into three prizes.

THE ELGIN INSTITUTION,

FOR THE SUPPORT OF OLD AGE & THE EDUCATION OF YOUTH.

This charity was founded and endowed by a native of Elgin, the late Major-General Andrew Anderson, H.E.I.C.S., who, by his will, dated the 23d Nov., 1815, bequeathed his large fortune, amounting to £70,000 (under the burden of three annuities, one of £100, and two of £200), for educational and charitable purposes. The institution consists of (1.) an hospital for the maintenance of indigent men and women, not under 55 years of age; persons from the burgh to be preferred, failing their application, those from the parish, and failing both, applicants from any part of the e musty. (2.) A school of industry, for the maintenance and education of poor male and female children, and afterwards for placing them as apprentices to some trade or occupation. (3.) A free school, for the education of such male and female children whose parents are in narrow circumstances, though still able to maintain and clothe them, to be taught by a master and mistress.

The free school was opened on the 4th Oct. 1831, and the

average number of children attending it is about 200.

The hospital and school of industry was opened on the 5th June, 1833. There are 5 old men and 5 old women in the former, and 24 boys and 20 girls in the latter, selected from every parish of the county, in proportion to the population.

OLD MAIDS' CHARITY.

Dr Gray also bequeathed the annual interest of £3000 for the use of reputed old maids in the town, daughters of respectable but decayed families, the amount to be placed in the British Funds, and the annual interest to be distributed by the two parish clergymen and physicians to the proper objects.

PAUPER LUNATIC ASYLUM.

Established in 1834, and built by a voluntary assessment of £850 on the landowners of the county. The buildings have since been considerably enlarged, and there are at present 34 patients, male and female, in the asylum. The establishment is conducted in connection with Gray's Hospital, and is supported by the interest of £1200, subscribed for the purpose, and a board of £12 per annum, paid for each patient by the parishes who send them—in addition to which a bequest of £50 has been left to it by the late Miss Cuming of Blackhills, and one of £150 by the late Wm. Innes, Esq., Elgin. The institution is chiefly managed by the Trustees of Gray's Hospital.

Medical Attendants-John Paul, M.D., and James Ross,

THE GUILDRY FUND.

Established in 1714, for the maintenance of decayed guild brethren, their widows and children. The annual dues is 2s, each, and the entry-money has been raised at various times from £1 to the amount at present exacted, £50

sterling. Present number of members, 31. The present rental is £409 sterling, which, after deducting public burdens, expense of management, and a small sinking fund, is divided among the annuitants, who are paid quarterly, on the first Monday of February, May, August and November. No person can be admitted a member unless he is a merchant burgess and guild brother, and under forty years of age, except member's sons. The eldest son of a member is admitted free on coming of age, and the second and younger sons on the payment of £10 sterling. The annual meeting takes place on the first Saturday of October, when the office-bearers are elected, applications for the benefit of, and admission to, the fund are discussed, and all other business transacted.

MORTIFICATIONS MANAGED BY THE GUILDRY FUND.

1. BRACO'S MORTIFICATION.

This mortification was made by the Right Hon, William Lord Braco, only lawful son and heir of William Duff of Dipple and grandfather of the present Earl of Fife. disposition of date the 17th April, 1729, Lord Braco disponed to and in favour of the Provost, Magistrates, and Dean of Guild, and Treasurer of the burgh for the time being, "all and haill thirteen crofts of land, lying contiguous together on the south side of the burgh of Elgin, betwixt the crofts of land called St Catherine's Croft at the west, and one croft of land belonging to Kenneth M'Kenzie, apothecary, at the east, with the taills of land thereto belonging, bounded" &c. The mortification is for the maintenance of "ane honest poor and decayed merchant burgess and guild brother, resident within the town of Elgin;" and it is specially provided that the person presented "be a man of honest life and conversation, and a Protestant, who frequents the ordinances and public worship." His Lordship reserved the right of presentation to himself during his lifetime, and afterwards to be exercised by his heirs or any person whom he might appoint; and in the event of their not presenting a qualified person within six months after a vacancy, the right jure devoluto fell to the Dean of Guild and managers of the Guildry Fund for the time being, to whom was also committed the management of the mortification. The present rental is £23, and the incumbent, David Christie, shoemaker, presented 21st Nov., 1828.

2. BAILIE LAING'S MORTIFICATION.

On the 3d May, 1775, John Laing, Over Manbeen, and sometime one of the magistrates of Elgin, disponed in favour of the Provost, Bailies, Treasurer, and Dean of Guild, a park of land, commonly called "Laing's Cat tails," lying in the wards of Elgin, the rents of which to be applied for the maintenance of "ane decayed merchant Burgess and Guild brother." The management is vested in the Managers and Treasurer of the Guildry Fund. The patronage is exercised by the Magistrates and Town Council. The rent is £7, 7s. besides public burdens; and the incumbent Wm. Russell, merchant, appointed in 1832.

3. HUTCHISON'S BEQUEST.

Alexander Hutchison, sometime merchant in Edinburgh, by his will, dated the 26th August, 1820, bequeathed the sum of £1000 sterling to the Guildry Fund, under the burden of two annuities of £30 and £20 per annum.

THE INCORPORATED TRADES.

THE CATHEDRAL.

The foundation stone of the Elgin Cathedral was laid by Bishop Andrew Moray on the 19th July, 1224, who, having lived about eighteen years thereafter, it is supposed, finished the building. In 1390, it was burned by "The Wolf of Badenoch:" but its re-building was soon thereafter begun by Bishop Bar, and continued by his successors till wholly completed. The Cathedral remained entire till about the

year 1506, when the great steeple fell, but it was again rebuilt in 1538, and was 198 feet in height. By an act of Privy Council, dated at Edinburgh, 1567-8, the lead was directed to be taken off the roof and sold for the purpose of providing for the maintenance of soldiers during the rebellion, which was accordingly done, and shipped at Aberdeen; but the vessel sunk near the harbour. The building being thus unroofed, soon began to decay; and in 1711, on a Peace Sunday morning, the great tower fell. The ruin is now carefully preserved by the Commissioners of Woods and Forests, and a new and substantial wall has been erected around the grounds. The churchyard of the burgh and parish being within and around the Cathedral walls, the inhabitants have free access to it, and strangers are admitted on payment of a gratuity to the keeper.

Gate-keeper-John Taylor, weaver.

PART VI.

BURGH OF FORRES.

The town of Forres appears to be of very ancient origin during the 9th and 10th centuries it was a place of considerable note, having been frequently the temporary residence of the reigning Kings of Scotland; some of whom lost their

lives there. The original charter having been burned in time of war, no distinct date of the royalty can be given; but a new charter was granted by James IV. in 1496.

The Arms of the burgh consist of the Patron Saint, St Lawrence, in a long habit, standing on a brander; a Chaplet round his head; at his right side a Crescent, and at the left a Star of six points; holding in his right hand a book, with the motto, "Jehovah tu mihi Deus, quid deest,"—Jehovah is my God, what is wanting.

BURGH DEBTS.

Amount of bonds and bills, and balance due on bank account, £4507 10 6

MORTIFICATIONS AND BEQUESTS.

1. DICK'S BEQUEST.

1. James Dick, sometime merchant in London, a native of Forres, by deed of mortification of date the 23d August, 1810, bequeathed the sum of £500 stg., for behoof of decayed burgesses, and poor inhabitants of the town. The donor set the charity in operation in his own lifetime. The minister of the parish and the two eldest bailies were appointed Trustees. The funds are in the town's hands, and the interest is divided annually in September.

2. Mr Dick also bequeathed the sum of £1500, the interest of which to be applied for the purpose of providing coals for the poor of Forres, to be divided by the minister of the town. The amount is principally invested in the Government Funds, and partly in private hands; and the interest is duly applied in the purchase of coals, for the poor.

** The above mentioned donor is the same benevolent and patriotic individual, who has contributed so liberally to increase the comfort and remuneration of the parochial schoolmasters of the counties of Aberdeen, Banff, and Moray.

2. NICHOLSON'S BEQUEST.

John Nicholson, sometime writer in Edinburgh, a native of Forres, by his will dated the 2d September, 1651, be-

queathed the sum of 2000 merks Scots (£111, 1s. 8d. stg.,) to the provost and magistrates, "to be consolidated, and remain as an patrimonial to the poor, indigent, and decayed brethren, and members of Jesus Christ, in the said burgh of Forres, and the annual rent thereof to be applied and bestowed for the help and supply of the poor." A piece of land was obtained for the purposes of this charity.

3. TAYLOR'S MORTIFICATION.

Robert Taylor, of Starrwells, by his will, dated 18th Oct., 1710, mortified the sum of 4000 merks Scots (£222, 3s. 4d. stg.), to the magistrates, for the following purposes:—"The annual rent of 2000 merks for the subsistence of the master of the music school of Forres, who can both play and sing; and the annual rent of the other 2000 merks to be applied for the use of the poor, specially poor families within the burgh of Forres, at four terms in the year, viz.:—Christmas, Easter, Ascension and Penticost; and for the security of the same he disponed the lands called Orchyard, Katherine's Yard, and the brae of Thornhill. The yearly rent arising from the two preceding mortifications amounts to about £30 stg.

4. ANDERSON'S BEQUEST.

Jonathan Anderson, sometime of Sweethope, thereafter of Rochsoles, by his disposition and deed of settlement, dated the 29th August, 1814, disponed to the magistrates and town council of Forres, the lands of Cowlairs or Sighthill, near Glasgow, the income from which to be applied for the following purposes :- "In the first place to pay therefrom the price or expence of a piece of ground in a convenient situation, for the purpose of erecting a school-house thereon, and in defraying the expense of building the said school-house and keeping the same in repair; also in paying a salary to a schoolmaster, for educating the children of necessitous parents and orphans, inhabitants of the parishes of Forres, Rafford, and Kinloss, in reading, English, writing, arithmetie, and such other branches of education as the said Provost, Magistrates, and Town Council shall judge proper; the extent of which salary to be not less than £40, nor more than £70. The master to be appointed by the magistrates and council, and the institution to be to all intents and purposes a free charity school, and denominated "Anderson's

Institution." In the second place, he appointed the balance of the feu-duty to be divided annually among poor house-keepers in Forres, in such manner as the magistrates and council should judge proper; but not to exceed £5 yearly to any individual. Some years ago the property was sold to the Sighthill Cemetery Co., for an annual payment of £200.

5. FRASER'S BEQUEST.

The late Peter Fraser, of St John, New Brunswick, a native of Forres, by his last will, left the sum of £1200 currency, besides a residuary legacy, for advancing education in his native town. The bequest has not yet been realised, but every exertion will be made to obtain it.

6. COLONEL SIMON FRASER'S BEQUEST.

Lieut.-Colonel Simon Fraser of Drumduan, by Deed of Settlement, of date the 7th July, 1845, bequeathed the sum of £2000, sterling, to the Minister and Kirk-Session of Forres, three-fourths of the annual interest of which to be distributed by them among the aged, infirm and industrious poor and decayed householders of the town and parish not on the parochial roll, expressly excluding such as may be given to intoxication, or who have been brought to poverty through it or any other vice; and £10 to be given as a salary to a female teacher of an industrial school under the management of the said minister and kirk-session. maining one-fourth of the interest the donor directed to be applied for behoof of the Female Society of Forres during the lifetime of the President, Miss Grant, and thereafter to revert to the minister and kirk-session, to be divided among the parties above described.

CHARLES M'LEAN.

CHINA MERCHANT.

ESPECTFULLY announces to the LADIES of ELGIN and vicinity, and the Public generally, that, in consequence of the great increase which has taken place in his business during the last two years, he has found it necessary to extend his Premises, and he takes this opportunity of intimating, that he has opened that elegant and commodious Shop, 150, High Street,

EAST CORNER OF BATCHEN LANE, (Nearly opposite his former Premises),

with an entirely new Stock of GLASS, CHINA, AND EARTHENWARE,

where he hopes to be favoured with that patronage which was so liberally bestowed upon him in his former Premises. As the Stock is wholly purchased with Ready Money, exported to Elgin at freights 100 per cent. under former rates, and thus brought here under every possible advantage, he flatters himself that he can Sell at prices as low as those charged in Edinburgh and Glasgow.

MUTUAL ASSURANCE WITH MODERATE PREMIUMS.

SCOTTISH PROVIDENT INSTITUTION

LIFE ASSURANCE AND ANNUITIES No. 14. ST. ANDREW SQUARE, EDINBURGH. Incorporated by Act of Parliament.

THE SCOTTISH PROVIDENT INSTITUTION IS THE ONLY OFFICE IN WHICH THE ADVANTAGES OF MU-TUAL ASSURANCE ARE COMBINED WITH MODERATE THE ASSURED ARE AT THE SAME TIME PREMIUMS. SPECIALLY EXEMPT FROM PERSONAL LIABILITY.

The Premiums, at early and middle ages, are about a fourth lower than in other Mutual Offices; so that the sum usually charged, say at age 30, for an Assurance of £1000, will secure a Policy of £1230.

THE WHOLE PROFITS belong to the Assured, and are divisible on a principle peculiar to this Office, which is at once safe, equitable, and favourable to good lives. The Surplus is preserved entire for those Members who survive the period at which their Premiums, with Accumulated Interest, amount to the Sums in their Policies, instead of a great part of such Surplus being paid away to the representatives of those who have died before contributing a half or a fourth of the Sum originally assured.

The Directors invite attention to the important and beneficial Resolutions which (on the motion of Robert Chambers, Esq., seconded by Mr Duncan, Manager of the National Bank) were adopted at last General Meeting, and the effect

of which is to render

POLICIES INDISPUTABLE EXCEPT ON THE GROUND OF FRAUD,

Specimen of Annual Premiums to assure £100 at death.

The Premiums may be made to cease after a limited number of payments. Thus, at 30, an Assurance of £100 may be obtained for a Premium of £2 14s. 6d. ceasing after 21 payments— the Assured being thus relieved of further payment before he has passed the prime of life, and that for nearly the same Premium as other Mutual Offices charge for the whole term of life.

FIRE AND LIFE ASSURANCE COMPANY.

ESTABLISHED 1825.—CAPITAL, £1,000,000.

Life Department.

THE Non-participation Branch embraces every descrip I tion of transaction to which Life Assurance is appli-

cable. Terms strictly moderate.

The Participation Scheme, begun in 1840, has been emi nently successful. The first Bonus, declared in 1847, will be found to bear a most favourable comparison with that c any other Office, whether Proprietary or Mutual, when the difference of Premiums is kept in view-the same payment which would be required to ensure £1000 with some Esta blishments being sufficient to cover £1120 with this Com pany, and give right to future Bonuses on this sum.

Prospectuses, containing Tables of Rates, with particular of the Bonus declared in 1847, and every information, ma

be obtained at the Head Office or any of the Agencies.

Fire Department.

Almost every description of risk is undertaken at the ates charged by other respectable Companies. Policies ransferred from other Offices without expense. Claims promptly and liberally settled.

LIFE ASSURANCE NOTICE.

Policies on the Participating Class effected before the 31st December next, participate in the Profits of the Year, sharing at the Septennial Division at 31st December 1851, in proportion to the sum Insured and the number of Annual Premiums paid. The Bonus when declared is immediately vested, and does not, as in most other Offices, depend on the party surviving a longer period.

The Bonus added to Policies at the last Division of Profits, on the 31st December, 1844, averaged 40 per Cent. on the Premiums paid during the Septennial period.

FIRE INSURANCES effected at the usual rates of Premium. Special risks moderately rated.

Prospectuses showing the advantages afforded by this Company, with Tables of Premiums, and every information, may be had at the Head-Office in Edinburgh, or from any of the Agents in the Country.
