DUNDEE DIRECTORY.

1880-81.

TOPOGRAPHICAL NOTICE.

THE rapid progress which Dundee has made in manufactures and commerce has been no less remarkable than the great and sweeping changes which during the past few years have taken place in the external appearance of the town. Ancient Dundee may be said to no longer exist. Most of the fine old buildings, replete with numerous architectural beauties, and associated with many a legend, "quaint and olden," have succumbed to the levelling operations of modern improvement. It cannot now bear the reproach of being one of the most unsightly towns in the kingdom. A modern town has sprung up, and has extended far beyond the limits of the ancient burgh, every advantage having been taken to improve the natural beauty of its situation. A few years ago, it has been said, the traveller, on viewing the town from a distance, as it lay nestling in the valley of the Tay, declared that in all reality it well deserved the appellation of "Ai-lec, the beautiful—bonnie Dundee." On entering Dundee, however, and exploring its narrow, dirty, sinuous thoroughfares, its obscure alleys and confined closes, and viewing the dingy time-stained houses, the feeling of enthusiasm was quickly dissipated, and the stranger's reminiscences of the town were generally unfavourable. The mind of the casual visitor now receives a different impression. The taste for order and beauty is not offended; the old irregular streets, which in the centre of the town were of varying width and of an oriental narrowness, have given place to thoroughfares of noble proportions; and the dilapidated houses, once so unsightly, have been supplanted by ranges of substantial structures of a regular and tasteful order of architecture.

The suburbs encircling the town occupy ground which, a generation ago, was covered with "golden grain" and abundant crops for the market; and the estates in the vicinity, although divested of their picturesque beauty, have been considerably enhanced in value. Their wooded slopes and trim avenues having been effaced, are now studded by the mansions of the wealthy. Craigie, with the Baxter Park and the river foreshore, skirts the town on the east; Maryfield, with the Morgan Hospital standing out conspicuously against the dark ridges of the Sidlaws in the distance, and flanking the Dens on the north-east; Dudhope, with the Law, and Balgay with its

superb pleasure ground and fine cemetery, forming a barrier on the north; while Blackness and Invergowrie close in the town on the west—are all partially occupied with the elegant villas of enterprising and thriving merchants.

No part of the town, however, has undergone a more thorough change than the High Street and its immediate neighbourhood. Indeed, it would seem that during the past hundred years this portion of Dundee had been designed for continual reformation. In 1746, the houses on the High Street were composed principally of wood, while the centre of the thoroughfare has been described as being in a state which would not be tolerated by the sanitary authorities of the present time. An open space at the junction of the Murraygate and Seagate—on which the Trades Hall was afterwards erected—was occupied as the common Shambles; and at the western section of the High Street, almost immediately in front of “Ladie Warkstayris House,” was a place where the mealmillers and the farmers of the period transacted their general business—in fact, an ancient Corn Exchange. Shortly afterwards the Shambles were demolished, and the Trades Hall, a building which, at the time of its erection, was considered one of the most striking architectural features of the town, was built upon the site. At the west end, the frequenters of the meal market had to remove to a more open space behind the Town House, a position which they occupied for a considerable time. They afterwards removed to the High Street, a stance which, notwithstanding the exertions of the public authorities, they have retained to the present day. A building, plain and unpretentious, was erected on the market ground, and was long used as a place of worship by the Episcopalians of the town. The wooden buildings were taken down, and tenements of stone being erected in their place, the High Street, with the Trades Hall at the one end and the English Chapel, as it was then called, at the other, was long considered one of the finest public squares in Scotland. The tremendous stride, however, which Dundee has made in commerce, and the traffic which has now assumed such enormous proportions, have rendered necessary the opening up of the High Street, the Nethergate, Murraygate, Seagate, and other thoroughfares. The old English Chapel—afterwards known as the Union Hall—and the Trades Hall, have in turn been swept away, and the traffic, once so hampered at these junctures, now moves along with ease and facility. The antiquated building on the north side of the High Street, known as the house of “Ladie Warkstayris,” has been taken down, and a structure of ornate design, to be used for banking purposes, is proposed to be erected in its stead. The High Street, notwithstanding the extension of the town, still retains

its pre-eminence as a central thoroughfare. From it diverge, as from a focus, the principal streets leading to all parts of the town. On the south, Crichton Street, the Vault, St Clement's Lane, Tindal's Wynd, and Castle Street, lead to Greenmarket and Dock Street—King William Dock, Earl Grey Dock, and the Public Baths being situated in the vicinity. On the west, the Nethergate runs in a direct line as far as Small's Wynd, where it forms a junction with the Perth Road; whilst the Overgate, busy and bustling, stretches as far as the West Port. Reform Street, on the north—the most fashionable street of the town—leads to the Post Office, the High School, and Albert Square. On the east side, the Murraygate and Seagate branch off in parallel lines, the one joining the Wellgate at Panmure Street and Cowgate, and the other terminating at Blackscroft.

During the past three years a great change has been effected in the external appearance of the Murraygate and Seagate. What was once appropriately designated as immense “jungles of malodorous closes” has disappeared through the operation of the Improvement Act: the huge piles of buildings known as the “narrow” of the Murraygate—the dreary-looking alleys and courts, relieved in some instances by a picturesque old tenement with overhanging eaves and pointed gables—having been razed to the ground. The Murraygate is now a symmetrical and finely-modelled thoroughfare. Ranges of buildings, of chaste and uniform design, towering storey above storey, have supplanted the old worn-out tenements; and the great traffic, which lately poured through a narrow defile, now passes over a spacious and elegant street. A great portion of the Seagate, which lay between the Murraygate on the north and Commercial Street and Gellatly Street on the south, has also undergone a complete reformation. This thoroughfare, two centuries ago, was considered the most aristocratic in the town. The ancient abodes of the Afflecks, the Guthries, and other families of distinction, however, exist no longer, these antiquated edifices having now been swept away. Several building sites in the Seagate remain vacant; but it is anticipated that in a short time the whole of the stances will be occupied by tenements built in a style conforming to the general surroundings. Situated opposite the Murraygate and Seagate, and fronting the High Street, the fine building of the Clydesdale Banking Company, rich with ornament and elaborate carving, occupies a triangular position, and forms a splendid junction to the two streets.

New Commercial Street, a continuation of the old thoroughfare, intersects the Seagate and Murraygate, and leads from the Harbour to Albert Square and Meadowside. This new street is lined on both sides with ranges of very fine buildings. The Commercial Bank, which is almost completed, will form a prominent feature, from its massive but, at the same time, elegant construction. New Commercial Street in the course of a short time is certain to outrival Reform Street in popularity and as an emporium of trade. It is well situated, being flanked on the north by the eastern wing of the Albert Institute. Looking along its area to the south it embraces a fine view of King William Dock and the river, with the hills of Fife in the distance.

Passing down Commercial Street, and entering into Dock Street, the alterations at the harbour are at once observable. Large commodious sheds have been erected on the quays for the temporary storage of goods, and at Camperdown Dock a warehouse of colossal demensions, to be used for the same purposes, has just been completed.

At the corner of Candle Lane, and adjacent to the Docks, a splendid building in an ornamental style of architecture is in course of erection, and will be used for the accommodation of seamen arriving from distant ports. A Sailors' Home is a want which has long been felt in Dundee; but, through the philanthropic exertions of Miss Baxter, Mr W. O. Dalgleish, Councillor Moncur, and many ladies and gentlemen belonging to Dundee, who have thrown themselves heartily into the scheme, an excellent Home will ere long be provided for seafaring men who in the course of their profession visit Dundee.

A great boon has been conferred upon the inhabitants by the opening of a new roadway from Camperdown Dock to the Stannergate. It runs parallel with the New Timber Ponds on the south, and the Caledonian and North British Railways on the north, and commands a magnificent view of the river and the shores of Fife.

Returning along Dock Street to the westward, and passing West Dock Street Station, and the Tay Bridge Station, to the Esplanade, the scene of a terrible disaster is at once displayed—the formidable gap in the world-renowned Tay Bridge giving painful evidence of the unprecedented calamity which occurred during a terrific storm, on the evening of Sabbath, December 28th, 1879. A searching inquiry has been made as to the capability of the Bridge to withstand high wind pressure, and a large number of witnesses have been examined in Dundee and London, but the decision of the examiners has been reserved for a time. Seventy-nine persons lost their lives by the disaster. Queen Victoria passed over the Bridge on 20th June 1879.

The tramway system in Dundee, since the opening of the Perth Road line on 28th August 1877, has been considerably extended, and the ramifications of the Company now spread to nearly all parts of the town. The 'bus service has been abandoned; the roadway between the town and Lochee has been paved, and, having been laid with tramway rails, it now forms one of the most substantial and spacious highways in the kingdom. At the Lochee terminus a new depot has been opened. In addition to a first-rate service of cars, the Directors have introduced a new feature by the running of workmen's cars early in the morning, and giving a similar service in the evening. The tramway system has also been extended towards the east-end of the town, and the line by way of Reform Street, Albert Square, India Buildings, Victoria Road, Dura Street (on the north), across Victoria Bridge (on the south), to the termini at the Morgan Hospital and the south gate at Baxter Park, was recently opened.

In 1782, about a century ago, the population of Dundee was estimated at 15,652. The following are the census returns for the last eight decades:—1801, 26,084; 1811, 29,716; 1821, 30,908; 1831, 45,355; 1841, 66,232; 1851, 78,829; 1861, 91,511; 1871, 121,975. The population is now estimated at 155,000.

POSTAL DIRECTORY.

POST-OFFICE, DUNDEE--Post-Office Buildings, Top of Reform Street.

WILLIAM GIBB, Postmaster.

On Week Days the Office is open for Postal business from 6.45 a.m. till 9 a.m.; and for Money Order, Savings Bank, Life Insurance, and Annuity business, from 9 a.m. to 6 p.m.

On Sunday the Office is open for Postal business from 9 till 10 a.m. only, but the Letter-Box remains open as on other days.

For Telegraph business there is attendance continuously during the day and night, both on Week Days and Sundays.

For Arrivals and Departures of Mails, see pages 82 and 83.

RATES OF POSTAGE—INLAND LETTERS.*

The rates of postage, when prepaid, are as follows, viz.—

For a letter not above 1 oz.	-	-	-	1d.
„ above 1 oz. but not above 2 oz.	-	-	-	1½d.
„ „ 2 oz.	„	4 oz.	-	2d.
„ „ 4 oz.	„	6 oz.	-	2½d.
„ „ 6 oz.	„	8 oz.	-	3d.
„ „ 8 oz.	„	10 oz.	-	3½d.
„ „ 10 oz.	„	12 oz.	-	4d.

A letter above the weight of 12 oz. is liable to a postage of 1d. for every ounce, beginning with the first ounce. Thus, a letter weighing between 14 and 15 oz. must be prepaid 1s. 3d.

A letter posted unpaid is chargeable on delivery with double postage; and a letter posted insufficiently prepaid is chargeable with double the deficiency.

No letter may be above 18 inches in length, 9 inches in width, or 6 inches in depth, unless it be sent to or from one of the Government offices.

INLAND NEWSPAPERS.

Under the “Post Office Act, 1870,” any publication fulfilling the conditions hereafter named can, upon payment of an annual fee of 5s., be registered at the General Post Office to pass within the United Kingdom as a Newspaper for a postage of one halfpenny. Without such registration a Newspaper cannot be sent through the post at less than the book rate of postage.

The conditions are as follows :—

- 1st. The publication must consist wholly or in great part of political or other news, or of articles relating thereto, or to other current topics, with or without advertisements.
- 2nd. It must be printed and published in the United Kingdom; must be published in numbers at intervals of not more than seven days; and must be on a sheet or sheets unstitched.
- 3rd. The full title and date of publication must be printed at the top of the first page, and the whole or part of the title and the date of publication at the top of every subsequent page; and this regulation applies to “Tables of Contents,” and “Indices.”
- 4th. A supplement must consist wholly or in great part of matter like that of a newspaper, or of advertisements, printed on a sheet or sheets, or on a piece or pieces of paper, unstitched; or wholly or in part of engravings, prints, or lithographs illustrative of articles in the newspaper. The supplement must in every case be published with the newspaper, and must have the title and date of publication of the newspaper printed at

* Inland letters are those which pass between places in the United Kingdom, including the Isle of Man, the Orkney, Shetland, Scilly, and Channel Islands.

the top of every page; or, if it consists of engravings, prints, or lithographs, at the top of every sheet or side.

Registration for inland circulation includes registration for transmission abroad.

For each inland newspaper, whether posted singly or in a packet, the postage when prepaid, is one halfpenny; but a packet containing two or more registered newspapers is not chargeable with a higher rate of postage than would be chargeable on a book packet of the same weight, viz., one halfpenny for every 2 oz. or part of that weight.

A newspaper posted unpaid, or a packet of newspapers posted either unpaid or insufficiently paid, is treated as an unpaid or insufficiently paid book packet of the same weight.

The postage must be prepaid either by an adhesive stamp or by the use of stamped wrapper.

No newspaper can be sent through the post a second time for the original postage. For each transmission a fresh postage is required.

Every newspaper must be posted either without a cover, or in a cover entirely open at both ends, so as to admit of easy removal for examination. A newspaper must not be fastened in its cover by means of gum, sealing wax, postage stamp, or otherwise. If this rule be infringed, the newspaper is treated as a letter.

Every newspaper must be so folded as to admit of the title being readily seen.

A newspaper or packet of newspapers which contains any enclosure (except supplements) is charged as a letter, unless the enclosure be such as might be sent at the book rate of postage, and the entire packet be sufficiently prepaid as a book packet, in which case it is allowed to pass.

A newspaper which has any letter, or any communication of the nature of a letter, written in it or upon its cover, is charged as an unpaid or insufficiently paid letter.

No packet of newspapers may be above 14 lbs. in weight, two feet in length, one foot in width, or one in depth.

INLAND BOOK POST.

The postage is one halfpenny for every 2 oz. or part of that weight.

A packet posted wholly unpaid is charged with double the book postage; and if posted partially prepaid, with double the deficiency.

A book-packet may contain any number of separate books or other publications, photographs (when not on glass or in cases containing glass or any like substance), drawings, prints, or maps, and any quantity of paper, or any other substance in ordinary use for writing or printing upon; and the books or other publications, prints, maps, &c., may be either printed, written, engraved, lithographed, or plain, or any mixture of these. Further, all legitimate binding, mounting, or covering of a book, &c., or of a portion thereof is allowed, whether such binding, &c. be loose or attached; as also rollers in the case of prints or maps, markers (whether of paper or otherwise) in the case of books, pens or pencils in the case of pocket-books, &c., and, in short, whatever is necessary for the safe transmission of such articles, or usually appertains thereto; but the binding, rollers, &c. must not be sent as a separate packet.

But a book-packet may not contain any letter, or communication of the nature of a letter* (whether separate or otherwise), unless it be a circular letter; nor any enclosure sealed or in any way closed against inspection; nor any other enclosure not allowed by the preceding paragraph. If this rule be infringed, the entire packet is charged as a letter.

A book-packet may be posted either without a cover (in which case must not be fastened, whether by means of gum, wafer, sealing wax, postage stamp, or otherwise), or in a cover entirely open at both ends, so as to admit

*Entries merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter.

the contents being easily withdrawn for examination, otherwise it is treated as a letter. For the greater security of the contents, however, it may be tied at the ends with string; Postmasters being authorised to cut the string in such cases, although if they do so they must again tie up the packet. No book-packet may be above 5 lbs. in weight, nor above one foot six inches in length, nine inches in width, or six inches in depth, unless it be sent by or from one of the Government offices.

When, owing to a great and unusual influx of letters, books, &c., the transmission or delivery of the letters would be delayed if the whole mail were sent without distinction, book-packets may be kept back till the next dispatch or delivery.

Circulars,—i.e., letters which, from internal evidence, appear to be intended for transmission in identical terms to several persons, and the whole or the greater part of which is produced by means of ordinary type, engraving, lithography, or any other mechanical process—may also be sent by book post.

Large numbers of letters, not being circular letters, are from time to time found in halfpenny wrappers, contrary to the express provisions of the book post; and, as the officers of the department are instructed to surcharge all such letters with additional postage, it will save not only trouble to the Post Office, but annoyance to the public, if care be taken always to pay letter postage for letters other than circular letters, unless they be written or printed on Post Cards.

INLAND POST CARDS.

Official Post Cards impressed, or private Post Cards embossed, with a halfpenny stamp (adhesive stamps not being accepted in payment of the postage) may be transmitted between places in the United Kingdom with letters printed or written upon the back.

The front (or stamped) side is for the address only, in addition to the printed words "Post Card" and "The address only to be written on this side." There must be nothing else written, printed, or otherwise impressed on it, nor must there be any writing or printing across the stamp. On the reverse side any communication, whether of the nature of a letter or otherwise, may be written or printed. Nothing whatever may be attached; nor may the card be folded, cut, or otherwise altered. If any one of these rules be infringed, the card will be charged 1d. on delivery.

No card other than one of those issued by the Government, or a private card embossed with a halfpenny stamp at the Office of Inland Revenue, will pass under a halfpenny stamp, if it bear on it a communication of the nature of a letter (unless it be a circular letter as defined above.)

Post Cards are sold at 7d per dozen; superior quality, 8d.

REGISTRATION.

The fee for registering a letter, newspaper, book-packet, or other article, is 2d. No article addressed to initials or to a fictitious name can be registered. The prohibition, however, does not extend to articles addressed to the care of a person or firm.

Every article presented for registration must be enclosed in a strong envelope, securely fastened. If the article contains money, it must, in order to gain the benefit of the guarantee described in the last paragraph under this heading, be enclosed in a Registered Letter Envelope sold by the Post Office; and if coins are sent, they must on no account be put in loose, but must be packed and enclosed in such a way as to move about as little as possible.

Every article to be registered must be given to an agent of the Post Office, and a receipt obtained for it; and it should on no account be dropped into a letter-box. If, contrary to this rule, an article marked "Registered" be

dropped into a letter-box, it will, *if directed to any place in the United Kingdom* be liable to a registration fee of 8d., instead of the ordinary fee of 2d.

The registration of articles makes their transmission much more secure inasmuch as they can be traced through their whole course. Thus the loss of a registered article is a rare occurrence. Nevertheless large sums of money and other articles of great value should not be sent through the post, even if registered; as the machinery of the Department is not arranged with a view to such transmissions.

Inland letters or packets which contain coin, watches, or jewellery, if posted without registration, are nevertheless treated as registered, and charged on delivery with a registration fee of eightpence in addition to the ordinary postage, and any such letters or packets which cannot be registered in time to be forwarded by the Mail for which they are posted, are detained for the next despatch.

By law the Postmaster General is not responsible for the safe delivery of registered articles; but henceforth he will be prepared to make good the contents of a registered article lost while passing through the Post *to the extent of* £2, in certain cases, provided that the sender duly observed all the conditions of registration required; that the article was securely enclosed in a reasonable strong cover; and, if it contained money, that it was enclosed in one of the Registered Letter Envelopes sold by the Post Office for the purpose; that application was made to the Secretary of the Post Office immediately the loss was discovered; and that the Postmaster-General, whose decision shall be final, is satisfied that the loss occurred while the article was in the custody of the British Post Office, and was not caused by any fault on the part of the sender.

FOREIGN AND COLONIAL LETTERS.

The rates of postage on letters for Foreign Countries and the Colonies will be found in the Table of Foreign and Colonial Postage at page 85.

A letter posted unpaid, or insufficiently paid, to any country where payment is compulsory, is sent to the Returned Letter Office to go back to the writer.

Letters posted unpaid, or insufficiently paid, for Australia, New Zealand, the Cape of Good Hope, or Natal, are charged 6d. each in addition to the deficiency of postage.

Unpaid letters addressed to countries in the Postal Union are charged double the prepaid rate, and those partially prepaid are charged with double the deficiency.

No letter for a colony or foreign country may exceed 2 feet in length or 1 foot in width or depth.

No letters containing gold or silver money, jewels, or precious articles, anything liable to customs duties, can be sent, *even if registered*, to any country out of the Postal Union.

FOREIGN AND COLONIAL NEWSPAPERS.

The rates of postage to Foreign countries and the Colonies on newspapers registered for transmission abroad will be found in the Table of Foreign and Colonial Postage, page 85. Each newspaper is liable to a separate rate of postage, whether sent singly or in a packet, and if above 4 oz. in weight, it is liable to two rates of postage; and so on.

All publications registered for transmission abroad *must be posted within eight days from the date of publication*, including that day; and any newspaper posted more than eight days after the date of publication, as well as any unregistered publication, must be prepaid at the book rates of postage.

The collected numbers issued during the month of a weekly or fortnightly publication are not allowed to pass as a monthly publication.

BOOK POST.

Articles which may be sent to places abroad under the Book Post Regulations consist of two classes, as follows:—

- (a.) "Commercial Papers," under which are comprised all papers or documents written or drawn wholly or partly by hand (except letters or communications in the nature of letters, or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, Deeds drawn up by public functionaries, copies of or extracts from Deeds under private seal (and whether written or printed on stamped or unstamped paper), Way Bills, Bills of Lading, Invoices, and other documents of a mercantile character, documents of Insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, and other papers of a similar description.
- (b.) "Printed Papers," including periodical works, books (stitched or bound), pamphlets, sheets of music (printed), visiting cards, address cards, proofs of printing (with or without the manuscript relating thereto), engravings, photographs (when not on glass or in frames containing glass), drawings, plans, maps, catalogues, prospectuses, announcements, and notices of various kinds, whether printed, engraved, or lithographed, and in general all impressions or copies obtained upon paper, parchment, or card-board by means of printing, lithographing, or any other mechanical process easy to recognise, except the copying press, and anything usually attached or appurtenant to any of the before-mentioned articles in the way of binding, mounting, or otherwise, and anything convenient for their safe transmission by post which shall be contained in the same packet; also printed, engraved, or lithographed circulars, notwithstanding that such circulars may be letters or communications in the nature of a letter.

The two classes are subject to different rates of postage when addressed to countries in the Postal Union, the rate for printed papers being lower than for commercial papers. If there be any mixture of the two in the same packet the whole packet is subject to the higher rate.

The rates of postage for Commercial Papers are the same as for Printed Papers, except that the lowest charge for each packet is 2½d., even if the packet weigh less than 2 oz.

The rates of postage, which must be prepaid, on packets to places abroad are given, under the heading of Books, in the Table of Foreign and Colonial Postage, page 85.

PATTERNS AND SAMPLES.

There is a Pattern and Sample Post to Foreign Countries and the Colonies generally; but it is restricted to *bonâ fide trade patterns or samples of merchandise*. Goods sent for sale, or in execution of an order (however small the quantity may be), or any articles sent by one private individual to another which are not actually patterns or samples, are not admissible.

No article liable to Custom Duties can be sent as a sample or pattern.

The rates for Patterns are the same as for Books, except that the lowest charge is 1d. for a packet addressed to any of the countries to which the postage is ½d. per 2 oz. for Books.

FOREIGN AND COLONIAL POST CARDS.

Post Cards for abroad may be sent to all the countries comprised in the Postal Union.

Post Cards for abroad with impressed stamps of 1d. and 1½d. each are sold at those rates, and are transmissible to the majority of the countries of the Union without extra charge.

The regulations relating to Inland Post Cards apply also to Cards posted for places abroad, except that the latter, when these regulations are infringed, are not sent on at all.

MISCELLANEOUS REGULATIONS AND SUGGESTIONS.

The Post Office is not, by law, responsible for any loss or inconvenience which may arise from the non-delivery, mis-sending, or mis-delivery of any letter,

book, or other postal packet (even if the packet be registered), nor is the P Office responsible for any injury which a packet may sustain during transmission.

To guard against such injury all postal packets which are likely to suffer from stamping or from great pressure should be placed in strong covers; even with this precaution no fragile article should be sent through the P. It should be remembered that every packet has to be handled several times that it is exposed to considerable pressure and friction in the mail bag; that, whenever the bag has in the course of its transmission to be transferred by means of the railway apparatus, the risk of injury is much increased.

Postmasters are not allowed to return any letter or other packet to the writer or sender, or to any one else, or to delay forwarding it to its destination according to the address, even though a request to such effect be written thereon.

Neither money nor any other article of considerable value ought ever to be sent through the post, except by means of a money order or in a registered letter. Any person who sends money or jewellery in an unregistered letter, only runs a risk of losing his property, but exposes to temptation every through whose hands his letter passes. Every letter which contains money postage stamps, or other valuable article, even when registered, ought to be enclosed in one of the special registered letter envelopes supplied by the P Office in order to obtain the benefit of the guarantee described at page 76.

To facilitate the delivery of letters, a Letter-box should be affixed to every house-door.

MONEY ORDERS.

When applying for Money Orders, the public should use the prepared printed "Application Forms," which are supplied gratuitously at all Money Order Offices, viz.—

1. Application for Inland Orders;
2. Application for Foreign and Colonial Orders.

The commission on inland Money Orders is:—

For sums under 10s	-	-	2d	For sums of £6, and under £7,	8
" of 10s and under £2			3d	" " £7, " " £8,	9
" " £2 " " £3			4d	" " £8, " " £9,	10
" " £3 " " £4			5d	" " £9, " " £10,	11
" " £4 " " £5			6d	" " £10, - - -	1s
" " £5 " " £6			7d		

No order is allowed to contain a fractional part of a penny.

No Money Order can be issued, unless the applicant furnish, in full, surname and at least the initial of one Christian name, both of the remitter and the payee, together with the remitter's address. In the case of Foreign Orders the full address of the payee must be given; and if the Order be payable to a native in British India, the Tribe or Caste, and the Father's name, must also be furnished.

Exceptions.—1st. The remitter is at liberty to desire, at the time of issue, that the Order be crossed like a cheque thus, & Co., and be made payable only through a Bank, in which case it is left to his option to give or withhold the name of the payee. The designation of the bank need not be furnished. Foreign and Colonial Money Orders do not come under this exception.

2nd. If the remitter or payee be a peer or a bishop, his ordinary title is sufficient.

3rd. The usual designation of a firm is sufficient, except in the case of a company trading under a title which does not consist of the names of the persons composing it, as the "Carron Company," but even a designation of this nature may be accepted provided the Order at the time of issue be crossed for presentation through a Bank.

The holder of a Money Order is always at liberty to direct, by crossing, that the order be paid through a bank, even though its payment was not or

ally so restricted; and when the order is thus presented the question put on the presentation of an ordinary Money Order is dispensed with.

Money Orders are issued in the United Kingdom on the following Foreign countries, British possessions, Agencies, and Colonies, at the rates of commission shown below:—

FOREIGN COUNTRIES.—Belgium, Denmark, France, German Empire, Holland, Italy, Norway, Switzerland, Dutch East Indian Possessions, Egypt, United States. BRITISH AGENCIES.—Gibraltar, Malta, Constantinople, Cyprus, Smyrna, Coquimbo, Valparaiso, Panama. POST OFFICE SAVINGS BANK.

The Post Office Savings Bank is open for bank business during the same hours as for Money Orders.

Deposits of one shilling, or of any number of shillings, or of pounds and shillings, may be made by any person at the Post Office Savings Banks, provided that such depositor shall not make deposits amounting to more than £30 in any one year ending 31st December, or make any further deposit when the total amount standing to his credit has reached £150 exclusive of interest.

GOVERNMENT INSURANCES AND ANNUITIES.

The Postmaster-General is empowered, under the Act 27 and 28 Victoria, cap. 43, to ensure the lives of persons of either sex, between the ages of 16 and 60, for not less than £20 or more than £100. He is also empowered under the same Act to grant Immediate or Deferred Annuities of not more than £50 on the lives of persons of either sex, and of the age of ten years and upwards.

The persons whose lives are insured, or to whom Annuities are granted by the Postmaster-General, have direct Government security for the payment of the money, at the proper time.

Forms of proposals for the Insurance of Lives and the purchase of Annuities, and all necessary information on these subjects, may be obtained at the Post Office.

POST OFFICE TELEGRAPHS.

INLAND TELEGRAMS.

The charge for telegrams throughout the United Kingdom is 1s. for the first 10 words, and 3d. for every additional five words or part of five words. The names and addresses of the sender and receiver are not counted. The public are required to affix the stamps to the message forms just as they are required to affix stamps to letters.

When the terminal office, *i.e.*, the office situated nearest to the address, is a Head Post Office, the amount paid for transmission covers the cost of delivery within one mile or within the town postal delivery of that office when the delivery extends for more than a mile. But when it is not a Head Post Office, the message is delivered free within the limit of one mile only.

When the addressee resides beyond the free delivery, portorage is charged at the rate of 6d. per mile or part of a mile, provided the whole distance does not exceed three miles; but the charge is calculated from the boundary of the district within which no portorage is levied. For instance, if the addressee's residence is a mile and a quarter from the terminal office, and also beyond the town postal delivery, the charge for portorage would be 6d.; if the distance is above two miles and under three, 1s.

If the addressee resides at a greater distance than three miles from the terminal office, portorage is charged, for delivery by mounted messenger, at the rate of 1s. per mile (except in Ireland, where the charge usually is only 8d. per mile), the distance being reckoned from the office door.

FOREIGN TELEGRAMS.*

(Regulations founded upon the International Telegraph Convention.)

1. Foreign telegrams are divided into three classes,—ordinary, code, and cypher. Ordinary telegrams are those composed of a series of words, or words, figures, and letters conveying an intelligible meaning.

2. Code telegrams are those composed of words, the context of which has no intelligible meaning. Proper names are not allowed in the text of code telegrams, except in their natural sense.†

In European code telegrams any of the languages in use in Europe, or Latin may be employed; but no telegram may contain words of more than one language.

In extra-European code telegrams, only English, French, German, Italian, Spanish, Portuguese, Dutch, and Latin, may be employed; but words of any or all of these languages will be allowed in one and the same telegram.

The Direct United States Cable Company accept any language provided roman characters be used.

3. Cypher telegrams are those containing series or groups of figures or letters having a secret meaning; or words not to be found in a standard dictionary of the language. The portion in cypher must be composed exclusively of figures or exclusively of letters.

Cypher telegrams written in letters are not accepted for extra-European places; except for North America; and such as are sent by the Direct United States Cable Company are charged a rate and a half.

4. The address of the receiver must be paid for, and must not consist of less than two words, a name and a town. Example: Hercules, Bombay.

5. The address of the sender is charged for, if transmitted; if not to be transmitted, it must be written at the foot of the form.

6. In European telegrams the maximum length allowed for a single word is 15 letters; in extra-European telegrams 10 letters; any additional letters being counted and charged for as extra words at the rate of 15 or 10 letters respectively to the word.

In North American telegrams, sent by the Direct United States Cable Company, the maximum length allowed is 7 syllables.

7. Subject to the limit imposed by rule 6, ordinary compound words and names of persons and places, &c., written without break or interruption, are counted as single words. If joined by a hyphen, or separated by an apostrophe or other sign of punctuation, they are counted as so many separate words.

Words incorrectly spelled, so as to reduce the number of letters below the maximum, or words incorrectly joined together, contrary to the usage of the language, cannot be accepted as single words.

8. Every separate letter or figure is charged for as one word, and in European telegrams every group of five figures or letters is counted as one word, large groups being counted at the rate of five figures or letters to a word, plus one word for any excess. In extra-European telegrams groups of figures or letters are counted at the rate of three to a word, plus one word for any excess.‡ Ba of division, decimal points, and stops used in the formation of numbers are counted as figures. Letters added to figures to form ordinal numbers are counted as figures.

* For rates, see next page.

† The Direct United States Cable Company accept proper names used not in their natural sense.

‡ The Direct United States Cable Company charge for groups of figures and letters at the rate of five to a word; but they charge an additional half rate on all telegrams containing cypher.

DUNDEE AND DISTRICT MUTUAL Glass Insurance Association, Limited.

THE DUNDEE MUTUAL GLASS INSURANCE ASSOCIATION has been established for upwards of twenty years, and being a local concern, and managed by Directors annually appointed by the Members, secures the prompt replacing of all broken glass. The rates have always been kept very low, the principle being to raise only what is necessary to replace the glass at cost price. The Association deserves the support of local traders. It already numbers 800 Members.

Premiums in 1878 were Reduced $7\frac{1}{2}$ per Cent.; in 1879, 5 per cent.; and this Year a Bonus of 20 per cent. on Premiums is given to all Members.

J. VEITCH WILSON & COY.,

OIL REFINERS & MANUFACTURERS

GLASGOW,

DESIRE to direct the attention of Consumers to the following Special Oils, of which they are the Sole Manufacturers.

Polar Lubricating Oils. Prepared in various grades to suit different classes of machinery.

Polar Batching Oils. Prepared as a substitute for Whale and Seal Oil in Jute Batching, and warranted free from any tendency to spontaneous ignition or to gum or clog.

Spermoline. A perfect substitute for Sperm Oil for all manner of light machinery.

The special features of these Oils, as certified by Messrs Southb (London) and Tatlock (Glasgow) are

- 1st. That the heavier oils possess as much "body" or lubricating power as the best animal oils, or even solid tallow, without the liability of these to freeze in cold weather.
- 2d. That they are entirely free from acid and alkali, and will not corrode or otherwise injure machinery, as animal and vegetable oils are apt to do.
- 3d. That they will not gum or clog any machinery, but will rather keep clean and bright all journals and bearings on which they may be employed.
- 4th. That, with very high firing points, they are free from any tendency to generate spontaneous combustion, which other oils tend more or less to induce.
- 5th. That, in respect of price, they are cheaper than any oil of equal quality which can be got to do the same work.

In addition to the Special Oils, Messrs J. V. W. & Coy. offer, in such quantities as may be required, every description of Animal, Vegetable and Mineral Oil, directing at all times particular attention to

MINERAL BATCHING OIL,

which they are always in a position to offer upon the most favourable terms.

HAMPTON to Manufacture his PATENT SMOKE CONSUMING BRIDGES for STATIONARY BOILERS, and to supply them at £5 each, up to 2 ft. 9 in. in diameter. Above that size, at 3s per inch extra. These Bridges can be supplied Ready for Fixing, and sent to any part of the Kingdom on receipt of Diameter of Flue, and instructions for Fixing will accompany them. Workmen sent to fix them, if required, at a reasonable charge. Mr HAMPTON's Testimonials show a saving on Fuel of 5 to 8 per cent., and his PATENT WATER HEATERS and CLEANSERS from 15 to 20 per cent.

For further particulars apply to J. HAMPTON, the Patentee, Regent Street, Loughborough, England.

A liberal Discount allowed to Engineers and Boilermakers wishing to supply their own Customers.

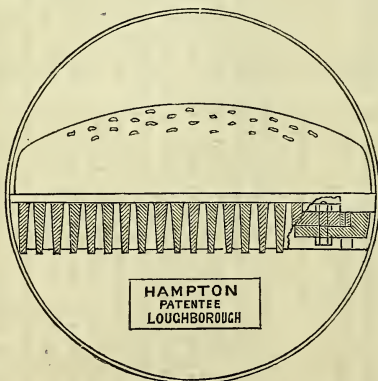

Proceedings will be taken against parties infringing these Patents.

SECTION.

J. HAMPTON'S PATENT FIRE-PROOF SMOKE CONSUMING BRIDGES

Are constructed in separate parts for easy adjustment and fixing to Boilers, as described in Specification of Patent with Cross Piece (5A), Adjustable Piece (7B).

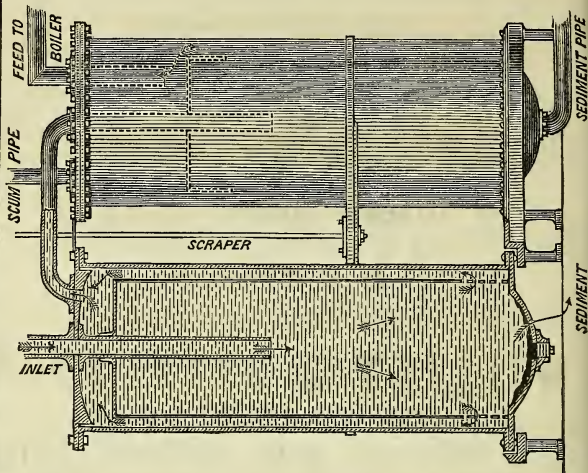

FRONT VIEW.

Parties making, vending, or using Bridges so constructed without the authority of the Patentee will be proceeded against.

HAMPTON'S PATENT FUEL ECONOMIZING WATER-HEATER & CLEANSER.

WASTE HEAT and WASTE STEAM only used in obtaining a supply of HOT WATER, and the perfect prevention of Scale or Incrustation in STEAM BOILERS.

THIS Patent consists of a simple arrangement of two or more Cylinders, one inside the other, the outward one receiving the heat of flue, the inward one keeping the water continually passing up the heated sides of the outward Cylinder, exchanging heats. There is no bottom to the inward Cylinder, so as the water becomes heated, the mineral impurities gravitate to the bottom, and are blown off in the last Cylinder, and the scum that rises is blown off at the top. Clean Hot Water at a temperature of over 212° being forced into the boiler free from all impurities, a saving of from 15 to 25 per cent. is effected, as stated in testimonials by parties having same in use; while its simplicity, durability, and superiority over all others are obvious; and a constant supply of *clean* Hot Water is ensured for Steam Boilers, or for use in Breweries, Dye Works, &c. &c., by means of utilizing the *waste heat*, instead of allowing it to pass up the Chimney, *after it has done its work.*

SPECIAL CAUTION.

THE value of this well-known and universally used Family Medicine has been tested in all parts of the world, and by all grades of society, for upwards of fifty years. Its large and constantly increasing sale has induced **SPURIOUS IMITATIONS**, in some of which the **Outside Label** and the **Coloured Paper** enclosing the Packet, so closely resemble the **Original** as to have deceived many Purchasers.

Numerous complaints of this kind having been received, the Proprietor feels it due to the thousands of Families in which **Steedman's Soothing Powders** are daily used, to **Caution Purchasers** against these Imitations, and requests their careful attention to the *four following distinctive marks* of the Genuine Medicine.

1st.—That the words, "JOHN STEEDMAN, Chemist, Walworth, Surrey," are **engraved** on the Government Stamp affixed to each Packet.

2d.—Each **Single Powder** has the directions for the Dose, and the words, "JOHN STEEDMAN, Chemist, Walworth, Surrey," **printed thereon**.

3d.—The name "STEEDMAN" is always spelt with two EEs (*and in purchasing please pronounce the word "Steedman" as it is printed*).

4th.—The Manufacture is and always has been carried on "**solely at Walworth, Surrey.**"

THE EQUITABLE LIFE ASSURANCE SOCIETY OF THE UNITED STATES.

ESTABLISHED IN 1859.

ASSETS, 31st December 1879, £7,473,368 STERLING,

Have been accumulated and Invested only in *First-Class Convertible Securities*, as restricted by the Insurance Laws of the State of New York. Such Investments are beyond the reach of MONETARY DISTURBANCE, and complete protection to Policy-holders is thus assured.

The whole of the Profits are reserved for the Assured.

The greater earning power of money in the United States enables the EQUITABLE to offer to assurers UNEQUALLED ADVANTAGES.

A Popular Scheme of Life Assurance, on

THE TONTINE PLAN,

Has originated with, and is granted by, the EQUITABLE, which, upon a principle of deferred bonus adds very considerably to the proportionate profit of those holding these Policies.

Estimated Results at the end of 20 years, on a £1000 Policy.

Age.	Annual Premium.	Total Amount Paid.	Cash Value.	Paid-up Policy.	Annuity and £1000 at Death.
	£ s. d.	£ s. d.	£ s. d.	£ s. d.	£ s. d.
25	19 17 6	397 10 0	600 0 0	1600 0 0	19 4 2
30	22 14 2	454 3 4	712 0 0	1650 0 0	26 8 0
35	26 7 6	527 10 0	868 0 0	1770 0 0	38 12 5
40	31 5 10	625 16 8	1069 0 0	1920 0 0	57 14 0
45	37 19 2	759 3 4	1353 0 0	2160 0 0	94 4 7

Thus, one aged 30, after 20 payments of £22 14s 2d, may choose any of these three ways, viz., Cash, £712 and give up his Policy; a Paid-up Policy for £1650 with no more to pay; or an annuity of £26 8s increasing yearly, and the £1000 at death to his heirs. FOR CHILDREN from Ten years upwards this is a splendid way of assuring their lives. One aged 10 ceases to pay when he or she is 30, and secures an annuity which, increasing as it does yearly, becomes a most valuable one, and the sum assured at death to his or her heirs.

THE EQUITABLE LIFE ASSURANCE SOCIETY of New York has received an unqualified indorsement from leading Actuaries in London, expressing opinions of the soundness of the Institution, of its good management, and of its full title to confidence, in an **IMPORTANT DOCUMENT**, which ought to be read by every person desiring a Life Insurance.

Prospectuses, Forms of Proposals, and English Actuaries' Opinions, to be obtained on application at the Dundee Branch Office, 13 WARD ROAD, or any of the Society's Agents; or from

LIFE ASSURANCE COMPANY.

Manager—DAVID MACLAGAN, F.R.S.E.

Secretary and Actuary—GEORGE M. LOW, F.F.A.

NON-FORFEITABLE POLICIES.

The Ordinary Policies of this Company—whether effected by Premiums payable during the whole of Life or payable during a limited number of years—are issued under a Comprehensive NON-FORFEITURE SYSTEM, which protects the Assured against loss in the event of Premiums being discontinued. For explanation see Prospectus, which may be had on application.

INCREASING BONUSES.

The Bonus System of this Company gives an increasing share of Profits to the Policyholders as they advance in age. The Bonus declared in 1878 ranged from **£1, 2s 10d** per cent. per annum in the case of Policyholders who entered the Septennial Period at the age of 20, to **£10, 15s 5d** per cent. per annum in the case of the oldest Policyholder.

TERMINABLE PREMIUM PLAN.

The Directors have adopted a **New Scheme of Assurance**, under which—by an application of Bonuses—the Premiums on Policies effected at the **Ordinary Whole-Life Rate** will be extinguished during the life-time of the Assured.

This New Scheme is fully explained in the Company's Prospectus.

LIFE BUSINESS ONLY IS TRANSACTED BY THE COMPANY.

Prospectuses, Copies of the Annual Report and Accounts, and all other information may be had on application to any of the undermentioned Agents.

Accumulated Funds,	2,402,544

NON-FORFEITABLE POLICIES

are now granted by the Society on a new and improved plan, which combines the advantages of *Moderate Premiums* payable for a limited number of years (11, 22, or 33), *Ultimate Participation in the Profits, Fixed Surrender Values*, and the issue of *Fully Paid-up Policies* without special application to the Directors.

LOANS are granted in connection with Life Assurance, on Life Interests, Reversions, and other approved Security. The Directors are also prepared to entertain proposals for the sale of Reversions to the Society.

LOCAL BOARD OF DIRECTORS FOR DUNDEE:

JOHN KIRKLAND, Esq., Wood Merchant.
JAMES PATERSON, Esq. OF KINNETTLES.
CHARLES EDWARD, Esq., Architect.
WILLIAM THOMS, Esq., Seagate.

District Inspector—WILLIAM SIMPSON, 12 Euclid Street.

26 ST ANDREW SQUARE, EDINBURGH, March 1880.

MUTUAL LIFE ASSURANCE.

SCOTTISH PROVIDENT INSTITUTION,

6 ST ANDREW SQUARE, EDINBURGH.

THIS OFFICE alone combines the advantages of Mutual Assurance with Moderate Premiums.

The PREMIUMS are so moderate that at most ages an assurance of £1200 or £1250 may be secured from the first for the same yearly payment which would generally assure £1000.

The WHOLE PROFITS go to the Policyholders, on a system at once safe, equitable, and favourable to good lives—no share being given to those by whose early death there is a loss to the Common Fund.

The effect of reserving the surplus for the survivors (who will, however, comprise more than half the members) has been that Policies for £1000 have already been increased to £1400, £1600, and £1800. Some of the early Policies have already been doubled.

The New Business has for several years exceeded One Million.

The FUNDS now exceed £3,600,000. By a recent statement in the "London Review," it is shown that, with one exception, the Funds have increased in last eight years more than in any other Office in the Kingdom. Relatively, no Office has made so large an increase.

Annual Premiums for £100 at Death (with Profits).

The Scales of Premiums limited to 10, 14, or 21 payments are very favourable, and may be compared with those of other Offices.

Full Statements of Principles, with Tables of Rates, will be found in the Annual Report.

LIFE DEPARTMENT.

PREMIUMS, 1879,.....£229,043.

THE importance of Life Insurance and the variety of purposes to which it may advantageously be applied, it is scarcely possible to overstate. Indeed, it is universally admitted to be an obligation, in very many cases amounting to a duty, that observation to urge it upon the attention of the Public seems needless here.

The Directors invite attention to the following advantages afforded by this Company to persons taking out Policies on the lives of themselves and others:—

PREMIUMS on plans adapted to the various wants of the public.

No charge for Stamps on Policies.

SURRENDERS of Policies favourably dealt with.

THIRTY DAYS allowed for the *Renewal* of Yearly Policies.

CLAIMS payable in one Month after admission, but, if wished, freely discounted in ordinary cases.

ANNUITIES, present and deferred, at liberal rates.

ENDOWMENTS of Children and Adults: the rates of Premium are on a moderate scale.
