## NOTE BY THE PUBLISHER.

---

It is due to the Public to state that, in order to procure information for the "CITY" portion of this Directory, from Five to Six Thousand Schedules were issued, for the purpose of being filled up by the Inhabitants. In transcribing these Schedules, the utmost care was taken to preserve the exact address and orthography of Name which had been given; and, still farther to preserve the accuracy of the Work, the whole of the Names, after they had been put into type, were again, at a large sacrifice of time, carefully compared, one by one, with the original Schedules.

The "COUNTY" Directory, which forms an important part of the Work, has been made up from returns furnished, in almost every instance, by the Schoolmasters of the respective Parishes. To the Gentlemen who have thus so kindly assisted him, the Publisher gladly embraces the present opportunity of returning his most grateful thanks.

The short delay which has occurred in getting the Work issued, has been as much a disappointment to the Publisher as it can have been to his Subscribers. To those of them, however, who may have been incommoded by the delay, he begs to offer a respectful apology, and to assure them that, from the complicated and laborious nature of the Work, (this Directory being an entirely new compilation), the delay was found to be quite unavoidable.

# ABERDEEN :

## ITS EXTENT, POPULATION, TRADE, COMMERCE, INSTITUTIONS, AND GENERAL STATISTICS.

*(Specially prepared for the present Work, and brought up to the latest date.)*

ABERDEEN is a town of considerable antiquity, and was in early times honoured with numerous distinctions, chiefly in acknowledgment of the valour or industry of its citizens, conferred by the Scottish monarchs. The city has long been remarkable for the extent and importance of its trade and commerce—a fact sufficiently proved by well-attested records of the very considerable sums levied on the town in remote times for various national purposes, as well as by authenticated figures applicable to more modern days. Nor have the means of instruction in useful knowledge and sound learning ever been otherwise than abundant. A quaint historian, writing towards the close of the sixteenth century, informs us that “there wants no opportunities in this city for the whole, both male and female, to learn any manner of good and commendable knowledge in such things as may best qualifie them.”

The town is situate—computing from the locality of Marischal College—in latitude 57 deg. 8 min. 20 sec. N., and longitude 2 deg. 2 min. 48 sec. W. from the meridian of Greenwich; reckoning from the Girdleness, the latitude is 57 deg. 8 min. 58 sec., and the longitude 2 deg. 5 min. 42 sec. Aberdeen is about 117 miles NE. from Edinburgh; 102 SE. by E. from Inverness; and 505 from London.

The following condensed statistical account—the facts derived from reliable sources—is designed both to exhibit the progress of the city, and to afford a means of reference as to its present condition—Commercial, Social, and Moral.

### I.—Extent, Population, &c.

1. **EXTENT OF CITY.**—Kennedy, in his *Annals*, states that the circuit of the town, exclusive of suburbs, in 1685, was 2141 double paces; and it appears from another account, that about the same period, the market place alone bore a large proportion to the limits of the city, being 124 double paces in length. Aberdeen, at present, reckoning only the extent fully built on and inhabited, is about 40,000 feet, or  $7\frac{1}{2}$  miles, in circumference. The city has, especially of late years, rapidly extended towards the west, a very salubrious locality, where a style of houses, excellent both in external architecture and internal accommodation, generally prevails.

2. **POPULATION.**—The population of Aberdeen, from being 4000 in 1572—a number little more than

doubled a century afterwards—was, in 1755, by Webster's enumeration, 15,730. According to the Census Returns for the United Kingdom, just published by authority—and which, though in reference to this locality, differing somewhat from the figures heretofore usually accredited, will no doubt be now generally adopted—the population of the Parliamentary city of Aberdeen was—in 1801, 26,992; 1811, 34,740; 1821, 43,821; 1831, 56,681; 1841, 63,288; and in 1851, 71,973. This last number is made up of the following items, viz.:—East Parish, 5,403 (inclusive of 221 military in barracks); West, 11,227; North, 6,167; South, 4,548; Greyfriars, 6,654; St. Clement's, 7,466—total of six city parishes, 41,465: Old Machar parish (part of), 30,503; Banchory-Devenick (part of), 5—gross total, as before, 71,973, of which number, 31,746 are males, and 40,227 females. The returns state the number of inhabited houses at 5,839, with 17,356 separate occupiers. The population of the city royalty, which consists of the six town parishes, and a part of Old Machar parish containing 12,343 inhabitants, was, in 1851, 53,808. The population of Old Aberdeen, included in the Parliamentary boundary, but of course not in the royalty, being itself a burgh of barony, was, in 1851, 1911.

3. **CITY RENTAL.**—The estimated rental of heritages, within the burgh and freedom of the City, taxed for certain purposes by the Board of Taxers, was, in 1821, £74,869; in 1852, it was £134,480; thus showing an increase of nearly double.

4. **TREASURY FUNDS.**—The revenue of the City Treasury for the year 1833 was £10,808, 13s. 6d. The accounts of the Corporation for the year ending 15th Oct., 1852, show a total revenue of £19,780 6s 7d.; and the expenditure, £18,100 6s. 6d., leaving a surplus of £1680 0s. 1d. The amount of Treasury stock, as at the last-noted date, was—Cr., £236,373 4s 5d.; Dr., £177,171 17s. 4d.; balance, £59,201 17s. 1d.—this balance being, however, subject to the surplus expenditure, on the Kirk charge, which amounts to between £1200 and £1300 yearly.

5. **MISCELLANEOUS.**—A somewhat peculiar criterion, perhaps, of the increase of the City—but one not wanting in value—is that found in the consumption of gas, which, in 1841, was 26,000,000 cubic feet; whilst, during the year from May, 1852, to May, 1853, it was 68,500,000 cubic feet. In 1845, the average daily supply of water to the town was 650,000 gallons; it is now, in 1853, 1,125,000 gallons.

## II.--Trade, Commerce, &c.

THE following facts and figures come appropriately under this head.

1. **IMPORTS.**—The Imports into the Harbour of Aberdeen for the year ending 30th Sept. 1852, were as follows:—Coals (English and Scotch), 457,993 bolls; Lime, 56,543 do.; Cotton, 250 tons; Flax and Tow, 1662 do.; Hemp, 308 do.; Wool, 331 do.; Wood: American, 5825 loads—European, 5036; Wheat, 18,757 qrs.; Flour, 11,764 sacks; Salt 967 tons; Iron, 3861 tons; Bones, 5508 do.; Guano, 5034 do. Besides a large amount of miscellaneous goods, which yielded of shoredues, £2645 8s. 9d.; the total amount of import dues being £7022 0s. 5d.

2. **EXPORTS.**—The chief exports for the same period were—Flax Manufactures, barrel bulk, 18,839; Cotton, bb. 4356; Woollen, bb. 2333; Oats, Barley, and Bear, 56,132 qrs.; Meal, 46,051 bolls; Cattle, 8048; Sheep and Lambs, 5240; Pigs, 1111; Butter, 2568 cwt.; Eggs, 7273, barrel bulk; Pork, 6950 cwt.; Porter, 162 hlds.; Stones (granite), 38,595 tons; Salmon, 1014, barrel bulk; Scotch Fir Timber, 11,210 loads. And a large amount of miscellaneous goods, paying one-third of the whole shoredues on exports. The whole amount of shoredues in the above year was—for Shipping and Goods inwards, £11,061 0s. 9d.; for Goods outwards, £4175 13s. 10½d.

3. **HARBOUR REVENUE.**—The revenue of the Harbour of Aberdeen amounted, in 1818, to £8350; in 1830, to £12,347; in 1840, it was £17,874 3s. 5d.; and, in 1852, the amount was £19,953. The total amount of Harbour expenditure, from 1810 up to 30th Sept., 1852, was £880,000.; a large proportion of which was spent on the extensive Harbour works.

4. **CUSTOMS.**—The following is a statement of the number of vessels cleared coastwise, exclusive of vessels laden with stones, railway sleepers, and lime, for the year ending 5th January, 1853:—

INWARDS.		OUTWARDS.	
1481 vessels—	211,600 tons—	946 vessels—	177,872 tons.

The vessels reported inwards with cargoes from foreign ports were—

BRITISH.		FOREIGN.		TOTAL.	
Vessels.	Tons.	Vessels.	Tons.	Vessels.	Tons.
84	14,014	88	6,707	172	720,21

Vessels cleared outwards: *with cargoes*, 12 British, 3172 tonnage; *in ballast*, 64 British vessels, 12,514 tons; foreign, 14 vessels, 1459 tons. The registered vessels belonging to the port were, at the above date, 253 of 50,684 tons; in 1830, 217 of 32,492 tons; in 1760, 98 of 5020 tons. The Customs Duties (exclusive of casual and miscellaneous receipts) were—in 1817 (including, it is believed, those of Peterhead, &c.), £17,913; in 1851-2 (for the port of Aberdeen alone), £83,820 12s. 4d.; in 1852-3, £87,667 11s. 8d.

5. **SHIP-BUILDING.**—The port of Aberdeen has, particularly of late years, achieved for itself a high place for the point of excellence to which it has carried the art of Ship-building. The name of the city has, indeed, become associated with a model of build very remarkable for a combination of symmetrical beauty with extraordinary sailing qualities and carrying capacity. A large number of artisans are employed in this branch of trade at the port. In the year 1852, 10 splendid vessels were built of the aggregate of 5678 tons new, and about 6800 tons old measurement. During the first six months of 1853, 6 vessels were launched of 3216 tons, N.M., about 4000 O.M. One firm alone has during

these six months, built as large an amount of tonnage as there was launched at the port in the year 1818, the style of building requiring greatly more work, and being every way vastly superior.

6. **RAILWAY TRAFFIC.**—It might have been stated above that the exports and imports at the Harbour have of late years showed a slight decline, which, however, is more than accounted for by the traffic on the Aberdeen Railway. The extent of this traffic is shown by the following table made up from the Railway reports:—

PASSENGER TRAFFIC.			
	Half-year ending July 31, 1852.	Half-year ending Jan. 31, 1853.	Total for year.
First class	14,428½	17,288	31,716½
Second do.	52,996½	50,161	103,157½
Third do.	100,324½	111,635½	211,960
Parliamentary	59,929½	70,868	130,797½
	227,679	249,952½	477,631½

REVENUE.						
	£	s.	d.	£	s.	d.
Passenger ~~~~	17,148	16	3½	19,368	19	8½
Goods, Minerals, & Parcels ~~~~	18,516	10	10½	19,551	8	5½
Live Stock ~~~~	1,502	11	8½	1,097	15	0½
	37,166			40,016		

This is exclusive of revenue from mails, and miscellaneous, which for the year amounted to £6057 19s. 1½d. The total revenue for the year ending as above was £83,244 1s. 1½d. The traffic on the Aberdeen Railway, large and increasing as it is, promises soon to be greatly augmented by the completion of the Deeside Railway from Aberdeen to Banchory-Ternan, and of the Great North of Scotland line from Aberdeen to Huntly, and subsequently to Keith and Inverness. The former line will be opened in about two months, and the latter as far as Huntly some twelve months hence.

7. **CATTLE TRADE.**—The county and district of which Aberdeen is the centre has become celebrated for the number and excellence of the cattle raised and fattened for the southern markets. In 1840, the number of cattle (exclusive of sheep, &c.) exported from the Harbour was 6422. For the year ending 30th September, 1852, the number of cattle carried by rail and sea was 21,575, whilst during the six months succeeding it was 16,409—exclusive of large quantities of dead meat, amounting, in the above periods respectively, to—for the year, 1530 tons; half-year, 990 tons.

8. **TRADE, &c. TAXED IN CITY.**—The following table is an extension of the figures quoted above as to the city rental. It shows the amount of heritage, trade, and casual profits within the burgh and freedom of Aberdeen taxed and stented by the Board of Taxers for the years undernoted:—

Year.	Estimated Rental.	Trade.	Casual Profits.
1821	£74,869	£1,061,500	£69,715
1830	92,207	1,375,500	82,020
1840	105,720	2,093,600	159,020
1850	127,715	2,445,400	230,625
1852	134,480	2,712,500	233,217

Thus, during the last thirty years, whilst the estimated rental has nearly doubled, the valuation under the head "Trade" has greatly more than doubled, and "Casual Profits" have increased considerably more than three-fold. It will be understood that these sums do not represent anything like the actual amount of rental, trade, and profits, respectively, in the city; but the principle of taxation and the mode of imposition having been uniform, they are of value as exhibiting the progress of the town and its trade.

9. MANUFACTURING ESTABLISHMENTS.—There are, within the Parliamentary boundary, five large and as many smaller establishments for the manufacture of cotton, linen, and wool; three for the manufacture of combs—one of them the largest of the kind in Britain; besides extensive iron foundries, rope and twine works, &c. An idea of the amount of the manufactures of the city may be gained from the list of imports and exports, superadding a large proportion of the Railway goods' traffic.

10. COMMERCIAL ESTABLISHMENTS.—The following is a mere enumeration of this class of establishments in the city:—BANKS—Aberdeen Banking Company, established in 1767, incorporated with Union Bank of Scotland, 1849—capital, one million; Aberdeen Town and County Bank, 1825—capital, one million; North of Scotland Banking Company, 1831—capital, one million. BRANCHES—Bank of Scotland; Commercial Bank of Scotland; National Bank of Scotland; British Linen Company; City of Glasgow Bank. INSURANCE COMPANIES—Scottish Provincial (formerly Aberdeen), 1825—capital, one million; Northern, 1836. Annual revenue from all sources exceeds £53,000—numerous agencies of other Companies. SHIPPING COMPANIES.—Aberdeen Steam, with 3 steamers, of about 3000 tons; Aberdeen, Leith, and Clyde—steamships, 3, of 1480 tons—besides a tug, 60 tons, and one sailing vessel; Aberdeen and Newcastle, 1 steamer, 280 tons; Aberdeen and Hull, 1 steamer. Whaling vessels belonging to Aberdeen, 2, about 700 tons; sealing, 1, about 150 tons. RAILWAY COMPANIES.—Aberdeen—capital, £1,256,666 (for traffic *ut supra*); Deeside—capital, £106,250; Great North of Scotland—capital, £1,104,440. INVESTMENT COMPANIES.—Michigan; North British Australasian Loan and Investment; Galena; Scottish Australian. LOCAL JOINT STOCK.—Markets; Commercial; Gas Light; Lime; Canal Companies, &c.

11. POST OFFICE.—It is to be regretted that the statistics of this important department are not so available as to admit of an accurate return being given in figures, showing the extent of its business, affording, as it would do, an important index to the progress of trade and commerce, as well as to that of the social condition of the community. It is understood, however, that at present the number of letters delivered in the city, weekly, is somewhere about 30,000.

### III.—Institutions.

#### 1.—RELIGIOUS.

CHURCHES, &c.—There are within the City Royalty the following number of Churches and Congregations:—Established Churches, 9 (and one unoccupied); Free do., 15; Ecclesiastical, 3; United Presbyterian, 5; Congregational (in Union), 3; not in Union, 1; Associate Synod 1; Baptist (various), 3; Roman Catholic, 1; Unitarian, 1; United Christian Church, 1; Friends, 1; various, 4. Of other Churches and Chapels within the Parliamentary Boundary—Established Churches, 2; Free do., 2; Congregational, 1; Roman Catholic, 1; total, 54. Besides various Mission Stations. The attendance at March, 1851, when the census was taken up, was about 25,000. It is believed to be at present considerably more. Attached to these Churches, or conducted by their members, are about 70 Sabbath Schools, with, it is estimated, about 800 teachers, and 8000 pupils. There are

various Missionary, Sabbath School, and other Associations, for the promotion of religious objects at home and abroad.

#### 2.—EDUCATIONAL.

1. THE UNIVERSITIES.—Aberdeen enjoys the pre-eminence of being the seat of two Universities. At King's College, Old Aberdeen, founded in 1494, with at present 9 Professorships, and 11 Lectureships, most of the latter connected with the Medical School, there were in attendance last Session (1852-3), 270 Students in Arts, 94 in Divinity (attending both Universities), with 52 Students at the sessions of the Medical School. Attached to the College there is, besides a Museum, a Library of great extent, numbering 50,000 volumes. There are about 130 endowed Bursaries—a considerable number of them open to competition—the yearly value of which is about £1950, exclusive of several Divinity and Medical Bursaries, of the value of about £120 yearly. The number of Graduates in 1852, was—in Arts, 35; in Divinity, 2; in Medicine, 24. The latest returns of attendance at Marischal College—founded 1593, and with at present 13 Chairs, and 9 Lectureships—corresponding to the above are—at classes in Arts, 191; Divinity, 94 (attending also King's College); Law, 12; Medicine, 87. Bursaries, 126; present yearly value, £1250; many of them being at low interest. Volumes in Library, about 14,000. The number of Graduates in 1852: A.M., 21; LL.D., 1; M.B., 7; M.D., 12.

2. SCHOOLS.—At the period of the last census (March, 1851), there were in Aberdeen and vicinity 140 Day and Evening Schools. About 20 of these are of the superior class of Academies. One is of the intermediate kind between the ordinary School and College—the Gymnasium, Old Aberdeen, started a few years ago—the attendance at which has been steadily increasing, till it is now about 90. At the Grammar School in Aberdeen, the number of pupils now averages 260, and, in the quarter preceding the College Session, 300. The West End and other Academies are also numerous—attended. Six of the City Schools, including the Grammar School, are under the patronage of the Magistrates and Council. The exact number of pupils at the Schools in Aberdeen cannot be given. It probably exceeds 6000.

#### 3.—LITERARY AND SCIENTIFIC.

1. MECHANICS' INSTITUTION. — The number of members of this Institution, established in 1824, was, at 30th April last, as follows:—Life, 235; honorary, 15; ordinary, 249—total, 499. The number of pupils attending the classes, last session, was 244. A School of Practical Art has recently been established in connection with the Institution, and under Government patronage, and was attended, at the above date, by 11 day and 27 evening scholars—total, 38. The number of volumes in the General Library is 3087; Reading Society, 536—3623. The number of readers is 350; that of issues, during the above twelve months—General Library, 7303; Reading Society, 1700—9003. The annual revenue of the Institution is upwards of £500, but there is a large amount of debt.

2. NEWSPAPERS, &c.—There are three Newspapers in Aberdeen—the *Journal* (established 1748), *Herald* (1832), and *Free Press* (1853), with a large average circulation of about 6500 weekly. The following are Public News Rooms:—Athenaeum, Union Club, County Rooms, and Mechanics' Institu-

tion. There are four Public Libraries, of considerable extent, with numerous others of a more private kind.

3. MISCELLANEOUS. — The SPALDING CLUB, for Printing the Historical and other Literary Remains of the North-Eastern Counties of Scotland, has a large membership, the majority being of the upper classes; the PHILOSOPHICAL INSTITUTION, whose object is the reading, at its stated meetings, of original papers by the members, on subjects of scientific, philosophical, or general interest; the NATURAL HISTORY ASSOCIATION; the PHRENOLOGICAL SOCIETY; with numerous Mutual Instruction or Debating Societies, having a large membership.

#### 4.—PROVIDENT, &c.

1. GUILDRY.—This body traces its origin to a very remote period, and had, at one time, exclusive trade privileges. These are now mostly abolished, but freemen still possess advantages in respect of abatements from petty customs. Their children and grandchildren have exclusive or prior claims for admission to Gordon's Hospital, and to certain bursaries at the College and Grammar School. Widows and children are entitled to the benefit of the charitable funds. The following is the substance of a statement of the Guildry funds, submitted at the last annual meeting. Total funds in money and invested — amount 15th October, 1852, £37,962 10s.; amount in 1814, £21,237 10s.; increase since 1814, £16,725.

Year.	Comparative Revenue.	Sums paid to Annuitants.
1700	£177 5 1	£139 1 4
1732	228 6 2	262 8 10
1814	926 3 6	897 19 0
1852	1450 9 1	1470 0 0

The number of annuitants, in 1814, was 134; in 1852, the number was 297—that of the different classes, and the amount paid, being as follows:—To 67 decayed burgesses, £384; to 140 widows of burgesses, £714 10s.; to 90 children of do., £371 10s.—the totals as before:—Annuitants, 297; sums paid, £1470. Besides these sums, there were paid, during the year ending as above, to numerous individuals (the greater number of them widows or relatives of burgesses), £647 5s. from mortified funds under the administration of the Town Council— which funds, applicable to educational and charitable purposes, amount to a large figure.

2. THE SEVEN INCORPORATED TRADES.—The Incorporations possess considerable property, and have hitherto managed their revenue with great prudence and economy. Each Trade has separate Funds of its own, whilst, at the same time, all the Members participate in two general Funds, viz.—the Hospital Funds, arising from property bequeathed by their patron, Dr. Guild; and the Widows' Fund, to which every Member contributes on his becoming freeman of craft. The dates of the erection of the Incorporation by the Council are very remote—some of them as far back as the early part of the sixteenth century. Their income arises mainly from fen duties and ground-rents, and are, for the most part, after deducting the annual expense of management, divided among the decayed brethren, their widows and orphans. The following table shows the amount divided and the number of the recipients during the past year:—

Trade.	Superannuated members.	Widows.	Orphans.	Total payments &c.	No. commencing the trade.
Hammermen,	33	32	37		
Payments, ..	£588	£239	£192	£1019	45

Widows' Fund to 161 Widows, ..				523	

Total annual payments, ..£4424

A sum which, at twenty-two and a-half years' purchase, represents a capital of £100,000. Trades' Burgesses have also a right of admission for children and grandchildren to Gordon's Hospital.

It has to be remembered, as showing the great utility of these Funds—both the Guildry and Incorporation—and their beneficial character, that they extend aid to a class, generally speaking, elevated both by position and feeling above the level of paupers—aid which, while it must be of great benefit, can be accepted without a compromise of independence or honour.

3. MASON LODGES, &c.—There are in Aberdeen and vicinity seven Mason Lodges and four Royal Arch-Chapters, having, on a whole, a numerous membership, with considerable funds. There are also, besides two or three Lodges of Odd-Fellows, and a Mutual Assurance and Friendly, and Operative Mutual Assurance Societies, the following special Societies, partaking at least of the same character:—Narrow Wynd, St. Andrew's, St. James's, Shipmaster, Wigmaker, Shore-Porter.

Of Institutions, designed chiefly to afford the means of savings being deposited by the operative classes of the city and district, and in a large measure resorted to by them, the following are the principal:—

4. NATIONAL SECURITY SAVINGS BANK.—This Institution was commenced on a new basis, in 1845, and has since continued to progress. The amount deposited during the twelve months ending 20th Nov., 1852, was £42,640 16s. 8d.; add interest, £3576 8s. 1d.; total, £46,217 4s. 9d.: the total amount withdrawn was £30,249 8s. 9d.—showing an excess of deposits, with interest over withdrawals, £15,967 16s., as compared with £11,672 15s. 9d., the previous year. For the half-year ending with 21st May, 1853, 701 new accounts were opened, and the total amount deposited was £21,520 13s. 3d.—being £4584 11s. 4d. more than that of withdrawals.

5. PROPERTY INVESTMENT COMPANY.—This body has been in existence little more than two years. The number of members is a little above 300; holding about 1400 shares, each of the value of £25 upon which £2 10s. per share has been paid. The Company has about £4000 invested.

6. FRIENDLY SOCIETIES.—The latest published statement of the General Union Weekly Deposit Friendly Societies in Aberdeen included forty-one besides two united funds, with a total membership of 4516. The funds dispensed in the year embraced in the above document were—sick benefit to mem

bers, £824; members' funerals, £143; wives' do., £73 10s.; children's do., £124; total, £1165; implying a contribution at the rate of 5s. 13d. for each member. There are numerous other Societies of the above and similar descriptions in the city and neighbourhood.

##### 5.—PHILANTHROPIC & CHARITABLE.

1. **INDUSTRIAL SCHOOLS.**—Of these Institutions, commenced in 1841 by Mr. Sheriff Watson, with the object of securing the general and industrial training of the children of the poor or dissolute, by affording them maintenance, there are in the city four, viz.,—the Boys' and Juvenile Schools, under the management of the Industrial School Association, and the Aberdeen Female and Sheriff Watson's Female Schools. At present there are upon the rolls in all 316 children of both sexes. It is a remarkable and gratifying proof of the efficiency of these Institutions that, during the past twelve months, there have left them directly for work no fewer than about 60 young persons, who, but for the Schools, would, it is more than probable, have most of them become paupers or criminals.

2. **HOSPITALS, &c.**—The following are the chief Institutions of this class, in which maintenance and education are provided for youth—with the number of inmates:—Robert Gordon's Hospital (for sons and grandsons of burgesses, 150 boys (annual revenue about £3500); Boys' and Girls' Hospital, about 90; Female Orphan Asylum, about 50; Shaw's Hospital, about 20; Girls' do. about 20.

3. **PAROCHIAL BOARDS, &c.**—During the year from May, 1852, to May, 1853, the sums expended for the support of the poor were—City Parish, £7889, including £2070 of debt on Poor House; Old Machar, £6905. Apart from bounties distributed by the Murtle and Midbeltie Funds, General Session, Pauper Lunatic Fund, &c.

4. **MISCELLANEOUS.**—Royal Infirmary (about 2500 patients yearly); General Dispensary (about 5000 do.); Asylum for the Blind; do. for Deaf and Dumb; Ophthalmic, Ophthalmic and Auric, Vaccine, and Lying-in Institutions; House of Refuge; Victoria Lodging House (in no respect charitable); Female Penitentiary; Public Soup Kitchen; United Coal Fund; West Aberdeen Coal Fund; Sick Man's Friend Society; West Aberdeen do.; do. for Old Machar north; Shipwrecked Seamen's Fund; Clothing Society; Societies (2) for Relief of Indigent Females; and others of a more private kind.

##### 6.—MISCELLANEOUS.

1. **INSTITUTIONS.**—The following bodies could not properly be classified under any of the above heads:—Society of Advocates, about 140 enrolled members, 120 of whom are in practice in the city; Medico-chirurgical Society; Royal Northern Agricultural Society, under the patronage of the Prince Consort, established to promote agriculture and the breeding of stock in the counties of Aberdeen, Banff, Kincardine, and East Forfar—has a large and influential membership enrolled; Aberdeenshire Horticultural Society, and Hortus Club; Haydn Society, for the Study of Classical Instrumental Music; Aberdeen City Band; Harmonic Choir, Harmonium Society—for the practice of Glee, Madrigals, &c.; Golf Club; Chess Club; Coursing Club; Cricket Clubs—Bon-Accord, Union, and St. George; Temperance Society.

2. **VITAL STATISTICS.**—The number of *Births* registered in the city and Old Machar records in 1852 was 942—say for the Parliamentary city, 920; but

this affords no index to the actual number of births. The number of *Marriages* registered as above was, for each of the last three years, 1850–51–52, as follows:—623, 589, 608—average, 600, say for the Parliamentary city, 585. The *Deaths* average, for the same period, about 1340 yearly.

3. **CRIME AND PAUPERISM.**—The total number of cases tried in the Aberdeen Police Court, in the year 1849, was 959; in 1852, it was 582; decrease, about 40 per cent. And the total commitments to Aberdeen Prisons, and Prisons within the County, was, in the same years, 1011, and 734 respectively, being about 25 per cent. The total number of Paupers on the permanent roll of the City and Old-machar Parishes respectively, were, in 1849, 2500; in 1853, 2017; being a decrease of 20 per cent. Had pauperism and crime kept in the same ratio as the population, they must have increased considerably, instead of having diminished.

4. **LICENCES, &c.**—Total number of Licensed Houses within Parliamentary Boundary, about 820. Total number of Voters on roll, Parliamentary, 2947; Municipal, 2413 (for City proper only). The number of Parliamentary Electors in the County is about 3600.

#### IV.—Relative Position of Aberdeen to Scotland.

1. The *population* of Aberdeen, relative to that of Scotland in 1801, was as 1 to 59·5; in 1851, it was as 1 to 40.

2. The number of *inhabited houses* in 1851 was in the proportion of 1 to 12·3 of the population. The proportion in the case of the other large towns in Scotland was—Dundee, 1 inhabited house to 15·6; Edinburgh, 1 in 20·6; and Glasgow, 1 in 27·5 of the population. So that there is so much less overcrowding, and consequently so much greater chance of health than in the other large towns.

3. Accordingly, whilst the average number of *deaths* in Aberdeen, for the years 1850–1–2, was—exclusive of *still-born*—1340, or 1 in 53 of the population, the average for the City of Glasgow, during the same period, was 1 in 34·8 of the population; and, according to the reports of the Registrar General the average for England and Wales during several recent years was 1 in about 45 of the population.

4. The proportion of *marriages* in England and Wales is 1 in 130 of the population; on an average for the years 1850–1–2, the number of marriages in Aberdeen has been 1 in about 122.

5. By the latest report of the General Prisons Board, it appears there were, during the year ending 30th June, 1852, 23,863 criminal commitments for the whole of Scotland. Of this number, 807, or 1·29th, was the proportion of the county of Aberdeen (the city criminals cannot be given separately), being considerably under that of the population.

6. The number of open accounts in the 43 *Savings Banks* of Scotland, at 20th November, 1851, was 105,161, the number in the Aberdeen Savings Bank was 9202, being nearly one-eleventh; the amount owing to depositors in Scotland was £1,488,777, to the depositors of the Aberdeen Savings Bank, £114,309, or nearly one-tenth.

7. The amount of *guano imported* here is about one-third that for the whole of Scotland.

8. The extent of *Ship-building* at the port, in the year 1852, is believed to have been nearly one-sixth of that for the whole of Scotland.

9. The *Coasting Trade* for 1851, for Scotland, was

—tonnage inwards, 2,010,988, outwards, 2,105,224; the proportion of Aberdeen about one-tenth.

10. In 1851, the total amount of *Customs Duties* for Scotland (the latest return made) was £1,944,554; that for Aberdeen, £88,426, being 1-22d part of the whole.

These comparisons might be extended, but enough has been stated to show that Aberdeen is entitled to a high position alike in regard to its trade and commerce, and its social and moral condition generally.

It is gratifying to be able to conclude this imperfect sketch with the statement that, at no former period, perhaps, was Aberdeen in a more prosperous

condition than at present. Trade and commerce flourish on a sound basis—full employment, at a rate of wages probably, in general, never surpassed in the city, is within the reach of artisans and the working-classes—pauperism and crime are undoubtedly declining, and the indications as to provident habits among the population show an increase—the city is extending its boundaries, particularly westward—educational institutions prosper—and never before was there such a demand for literary publications, nor were churches more numerously attended.

June, 1853.

13	13	2	2		
14	14	2	4		
15	15	2	6		
and so on, increasing 2d. per oz.					

There is no limit to the weight of paid letters, but unpaid letters must not exceed 4 oz., unless for the public departments, and no inland letters must exceed 21 inches in length. All inland letters must be prepaid by stamps.

Letters, when once posted, cannot be given back upon any pretence whatever, but must be forwarded to the person to whom they are addressed.

Letters containing articles of a brittle, perishable, or dangerous nature, will be detained as soon as discovered.

Letters to warm climates should be wafered, not sealed, as the wax is liable to be melted, to the injury of the other letters.

RE-DIRECTED LETTERS are liable to new rates of postage, but though the new postage should not be paid on the re-posting of the letter, it will be charged only the prepaid rate on delivery.

REGISTRATION.—Any letter can be registered on payment of a registration fee of 6d. The postage and fee must be prepaid in stamps, except the letter is going abroad, when it may be prepaid in money or stamps. Registered letters to France are charged double the French rate of postage, in addition to the 6d registration fee; and to Prussia, an additional charge of 3d. is made. To Russia and Poland, in the Prussian closed mails *via* Belgium, 3½d. is added to the half oz. postage, in addition to 3d. Prussian and 6d. British register fees. To other foreign countries and the colonies, letters cannot be registered further than the port of despatch. Registered letters must be posted half an hour before the time of the box closing for other letters.

NEWSPAPERS.—Stamped British newspapers pass free from one place to another place in Great Britain. But when addressed to a person residing within the delivery of the post-town where it is posted, 1d. is charged on each paper. British and colonial newspapers pass free to and from the colonies by the mail packets,—the privilege includes papers to and from the East Indies by the Southampton packets; and if sent by the Monthly Closed Mails, *via* France, they are charged 3d., and must be prepaid. When the conveyance is by private ship, the postage is 1d. Foreign newspapers received in Britain, and British newspapers sent to foreign countries, are liable to a postage of 2d., unless there be a reciprocity treaty with the foreign Post-office when they pass free. The exemption, however, is only total in the case of Post-office conveyances. The following are the countries to which newspapers are forwarded free, Altona, Brazil, Bremen, Bolivia, Buenos Ayres, Colombia, Cuxhaven, Denmark, Equator, Greece, Hamburg, Hayti, La Guayra, Lubeck, New Granada, Oldenburg, Peru, Spain, and Venezuela. Newspapers from and to France, Prussia, and countries through Prussia, are charged 3d. Holland and Hanover the charge is 1d., Chili, 4d. Turkey, Moldavia, Wallachia, the Levant, Egypt, Greece, Ionian Islands and Italian States, not belonging to Austria, if sent through Prussia, *via* Ostend, Hamburg, or Holland, are charged 1½d. Newspapers from the United States and Canada, through the United States, charged 1d. Foreign and colonial newspapers cannot be reposted after having been read, with a new address, under penalty of full postage charge as a letter; but if the person to whom they are originally addressed has removed or left the place,

they can, if not read, be re-directed, and forwarded without additional charge. All newspapers must be without covers, or in covers open at the sides, and any mark or writing is allowed to be put on newspapers (passing from place to place in the United Kingdom, but not to the colonies or foreign parts), if a penny label stamp is affixed either on the cover or outside of the newspaper; but no writing is permitted, other than the address, on the cover, nor any enclosure, under penalty of its being charged the full letter rate of postage. The name and address of the news-vender who may forward the paper, is however allowed to be printed upon the cover without it being charged. It is recommended that the address be written not only on the cover, but on some exposed part of the newspaper. All newspapers sent out of the kingdom must be posted within 7 days after publication.

PERIODICALS, &c.—Periodical works and Parliamentary papers may be forwarded to France, Denmark, Holland, and Prussia, but not to other countries forwarded through them, if the postage is paid in advance, and they are printed in the English language, and sent in covers open at the sides.

Not exceeding 2 oz. . . . . 1d.  
Above 2 oz. and not exceeding 3 oz. . . . 6d.  
.. 3 .. 4 oz. . . . 8d.

And 2d. additional for every oz. up to the weight of 16 oz., to which they are limited.

When this description of publications are forwarded to or from Prussia *via* Belgium, they are subject, in addition to the above rates, to a Belgian transit rate of 2d. for every ½ oz.

Periodical works and pamphlets may be also sent to and received from the United States at the same rates; the postage of those received being paid on delivery.

No reprints of copyright works from any place abroad are allowed to pass at the above reduced rates, but are subject to letter rates of postage.

Books, &c., may be transmitted by post through the United Kingdom at the following rates:—

Each packet not exceeding 1 lb. in weight . . . 6d.  
Exceeding 1 lb. and not exceeding 2 lbs. . . . 1s. 0d.  
Exceeding 2 lbs. and not exceeding 3 lbs. . . . 1s. 6d.  
and so on, 6d. being charged for every lb. or part of a lb.

A book-packet may contain any number of separate books, maps, or prints, and any quantity of paper, vellum, or parchment (to the exclusion of letters, whether sealed or open), and the books, &c. may be either printed, written, or plain, or any mixture of the three;—further, all legitimate binding, mounting, or covering of the same, whether loose or attached; also rollers in the case of prints, markers, whether paper or otherwise in books; in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto; but the following conditions must be observed: It must be prepaid in full, by affixing on it the necessary number of stamps—must be either without a cover, or in a cover open at the ends or sides—must not contain any letter open or sealed, nor any sealed enclosure whatever, and must not exceed two feet in length.

Printed books are also sent to the British West Indies, Bermuda, Newfoundland, Canada, and to the Ionian Islands, Hong Kong, Gibraltar, *via* Southampton, and Nova Scotia *via* Halifax, Heligoland, Mauritius, Cape Town (only), at the following rates:—

Under ½ pound weight, 6d.  
Exceeding ½ and under 1 lb. 1s.  
Exceeding 1 and under 2 lb 2s.

And so on. They must be prepaid in full, and must contain only a single volume in each packet, which must not exceed two feet in length, and the several sheets or parts must be sewed or bound together. There must be no writing or marks besides the address, either on the book or cover, which must be open at the ends.

MONEY ORDERS.—An order from any one Post-office on any other, for any sum not exceeding £2, may be obtained for 3d., and for a sum between that and £5, for 6d. A money order must be presented for payment before the end of the second calendar month after that in which it was issued, otherwise a new order will be necessary, for which a second commission must be paid; and if not presented before the end of the twelfth month, the money will not be paid at all.

THE BANKING COMPANY IN ABERDEEN.

THE ABERDEEN TOWN AND COUNTY BANK.

THE NORTH OF SCOTLAND BANK.

**T**HIS Institution was established in 1836, and from the marked success which has hitherto attended its operations, the liberality which has been maintained in all its transactions, and its peculiar position as a *Native Office*, having a Proprietary (nearly 1000 in number) the great majority of whom are parties of standing and influence in the locality, possesses the strongest claims on the support of the Public.

At the Annual Meeting of the Corporation, held on 10th June, it was shown that, during the year—

- 1st, In the FIRE INSURANCE BRANCH, there had been issued 2354 Policies, covering upwards of £1,500,000, and adding to the Annual Premiums above £3350.
- 2d, That in the LIFE ASSURANCE BRANCH, 384 New Policies had been issued for Capital Sums, amounting to £148,500, yielding an additional Revenue of upwards of £5500; and that 55 Proposals for £25,650 had been declined, or accepted but not carried out.
- 3d, That 18 ANNUITIES had been SOLD for £6867.
- 4th, That the ANNUAL REVENUE of the Company, from all sources, exceeded £53,000.

A further Bonus of £1 per cent. on the amount assured, for every additional premium that may be received, is also payable in respect of Policies existing at 10th February, 1852, which may become claims by death before next Investigation,—an arrangement which secures for such cases advantages practically equal to any that could be derived from an annual division of Profits.

According to the Contract of Copartnery, future Investigations must take place at intervals not exceeding Five Years; and from the position of the whole affairs of the Company, and the progress of the business since the commencement of the current period, there is every reason to hope for continued and increasing prosperity.

Parties incur no risk or responsibility by joining the Participation Scheme,—the original sums in the Policies and all Bonuses when declared being guaranteed by the Company.

Annuities sold on favourable terms.

Prospectuses containing important information regarding the last Investigation, as at 10th February, 1852, with Tables of Rates, may be obtained on application at any of the Offices or Agencies of the Company.

## LIFE DEPARTMENT.

**T**HE System of the NORTH BRITISH INSURANCE COMPANY combines the Principle of Mutual Insurance with the Safety of a large Protecting Capital.

Parties may either share in the Profits to the extent of nine-tenths, or pay a lower rate of Premium to secure a precise sum without periodical additions.

The Profits are allocated on the Life Insurance Principle, whereby each one draws exactly the share due to the Premiums he has paid, and has the fullest benefit of his longevity, at whatever age he enters, and to whatever age he may attain.

The Profits are Divided Septennially, and at each Division a Prospective Bonus is declared in favour of such Policies as become claims within the succeeding period, whereby the benefit of Annual Division is obtained without its inconveniences.

The Bonus declared for the Septennial Period ending 31st December, 1851, was at the rate of one and a quarter per cent. per annum on the sums insured, and on the previous Bonus Additions, with a prospective Annual Bonus of One per Cent.

Offices that Divide their Profits on the *Tontine Principle*, may hold out the promise of larger Bonuses, but the chance of attaining them is, of course, proportionally less.

The Premiums are moderately rated at all ages, and may be so adjusted as to suit the objects and convenience of parties.
