IN issuing the DUNDEE DIRECTORY for 1856-57, the Publisher regrets the length of time which has taken place in its preparation; but, as this has been altogether owing to his desire to make the Work as complete and accurate as possible, he trusts that his friends and the Public will excuse the delay.

He takes this opportunity of returning his thanks to those gentlemen who so kindly, not only afforded him so much necessary information, but, at considerable trouble and research on their own parts, made out and completed many of the Lists.

A *gratis* Supplement will be published at the ensuing term of Martinmas, containing such alterations as may take place by that time; and the Publisher would feel obliged by receiving Notices of Removal, or other information which the Public might deem desirable.

**RIVER TAY LIFE-BOAT AND HUMANE SOCIETY.**

Funds derived from a small tax on the Shipping. Two excellent Life-Boats, fully equipped, are maintained: one stationed off the Lights of Tay, and the other on the south shore below the Screw-pile Lighthouse, always kept afloat. A third Life-Boat is established at Magdalen Yard Point, working on a railway, with suitable apparatus, for rescuing bathers and parties in boats.

A regular code of night and day signals is established, to be used in the event of a Vessel going on the Banks; and by which communication is made from the Lights of Tay to Broughty Ferry and Dundee Harbour.

**MONEY ORDERS.**—At the Head Office, High Street, and Newport, Fife. Hours from 9 A.M. to 1 P.M., and from 2 to 6 P.M. Sums not exceeding £2 charged 3d; up to £5, 6d. They must be presented before the end of the second month, or a new order will be necessary, for which a second commission must be paid. If beyond twelve months, the amount will not be paid.

**REGISTERED LETTERS.**—By the prepayment of a fee of 6d in postage stamps, any letter, book, or other packet, on which the postage has been prepaid in stamps, may be registered. This will make its transmission more secure, by rendering it practicable to trace it, when inland, from its receipt to its delivery; and when foreign or colonial, if not to its delivery, at least to the port of despatch. The Post Office does not guarantee the safe delivery of the letter, &c., though the officers are, of course, responsible to the Postmaster General, who will call to strict account any one neglecting his duty on this point, and, if His Grace think proper, will require him to make good any loss that may be sustained thereby.

The Postage of registered letters must be prepaid; and if the letter be inland, it must be prepaid in stamps.

Every letter to be registered should not be dropped into the letter box, but be presented at the window, and a receipt obtained for it.

The latest time for posting a registered letter is half-an-hour before the closing of the box for the mail by which it is intended to be despatched.

To France and Prussia an additional fee is required.

**CAUTIONS.**—No explosive nor perishable articles can be transmitted, nor glass, sharp instruments, nor anything dangerous or calculated to injure the mail bags and contents. Letters to hot climates should be wafered, as wax is liable to melt.

**POSTAGE STAMPS** may be used for printed votes and proceedings in parliament, and on foreign, colonial, and ship letters, &c., *outwards*. If any letter, however, addressed to places beyond sea, bear an insufficient number of stamps, it will be sent to the Dead Letter Office, to be returned in all practical cases to the writer. Stamps are not permitted to be used on letters arriving in the United Kingdom from the Colonies or foreign countries. These regulations are applicable to newspapers in those cases where they are liable to postage. If the stamps affixed to letters have been mutilated or defaced, the letter will be liable to the unpaid rate.

**SHIP LETTERS.**—Letters for foreign parts to which there are no regular packets are forwarded through the Ship Letter Office, London, by every outward-bound vessel; and letters can be forwarded to the Colonies and foreign parts through the Post Office, by any ship or from any port, if specially addressed. In cases where wanted to go by a particular ship, the name must also be specified, as, “Hamburg Steamer *via* Hull.” All ship letters must be prepaid 8d under one-half ounce, and so on in the ratio as inland letters.

**NEWSPAPERS.**—There are specific regulations for the reception of Foreign and Colonial newspapers into this country; and for the despatch of British newspapers, periodical works, Parliamentary papers, &c.

**NEWSPAPERS AND OTHER PERIODICAL PUBLICATIONS BEARING THE NEWSPAPER STAMP.**

Although provision is made for forwarding newspapers, books, and money through the post, it is not compulsory on any one to employ this mode of transmission: everything except letters may be sent in any other way.

All periodical publications, including newspapers published in the United Kingdom, at intervals not exceeding thirty-one days, and which bear an impressed stamp or stamps denoting the stamp duty, (of the kind formerly confined chiefly to newspapers,) may be transmitted and retransmitted through the post within the United Kingdom free from postage under the following regulations,—viz.:

They are subject to the same restrictions with regard to the number of sheets and superficial extent as were lately applicable only to newspapers properly so called. These restrictions are shown in the following table.

Amount of stamps impressed on the publication.	Maximum number of sheets.	Maximum superficial extent of letterpress on one side.
One penny	Two	2,295 in.
Three half-pence	Three	3,443 „
Twopence	Four	4,591 „

No publication, or portion thereof, can pass through the post unless the impressed stamp which it bears be at least a stamp of the value of one penny.

The title and date of publication must be printed at the top of every page.

The publication must be folded in such a manner that the whole of the stamp or stamps, denoting the full duty, shall be exposed to view, and be distinctly visible on the outside, except when there are more than two publications in the same cover it will be considered sufficient if the stamps are so arranged that they can readily be examined.

It must not be printed on pasteboard or cardboard, or on two or more thicknesses of paper pasted together, nor must any pasteboard or cardboard, or such pasted paper, be sent with it as a back or cover thereto, or otherwise.

It must be posted within fifteen days from the date of publication.

It must either have no cover or a cover open at the ends. (As a newspaper sometimes slips from the cover, it is recommended that when a cover is used the address be written also on the newspaper itself, except when the newspaper is intended for retransmission, in which case, if the first address remain, the newspaper would become subject to letter postage.)

It must contain no enclosure.

It must have no writing or other mark thereon but the name and address of the person to whom it is sent, nor anything on the cover but such name and address, the printed title of the publication, and the printed name of the publisher or vendor who sends it.

If the publication be addressed to any person within the free delivery of the place where it is posted, it becomes liable to a postage of one penny, which must be prepaid by affixing a postage stamp.

When a newspaper is so folded as not to expose the stamp or stamps, a postage of one penny is charged in addition to any other postage to which the publication, if properly folded, would have been liable; and if the newspaper, &c., be addressed to any person within the free delivery of the place where it is posted, and do not bear a penny postage stamp, it will be charged 2d. In case of any other irregularity, the publication is dealt with in accordance with the regulations of the book post.

Unstamped or stamped publications which have been issued more than fifteen days can be forwarded within the United Kingdom, and to most of the colonies, under the regulations of the book post.

Newspapers sent abroad are liable to the same regulations as newspapers passing (under the newspaper privilege) between different parts of the United Kingdom, except that, before going abroad, the name of the newspaper must have been registered at the General Post Office, and that, instead of requiring to have an impressed stamp, each newspaper, if sent to a British Colony, is liable to a postage of 1d, (which must be prepaid by a postage label or in money,) together with an additional postage when the newspaper has to pass through a foreign country. In all cases of newspapers going abroad, the impressed stamp stands for nothing.

#### BOOK POST.

At the following charges, and on the subjoined conditions, book packets may be sent by the Post to any place within the United Kingdom :—

Weighing not more than 4 oz.....1d.

„ more than 4 oz., and not exceeding 8 oz., 2d.

„ „ 8 „ „ 16 „ 4d.

„ „ 1 lb. „ 1½ lb. 6d.

and so on—2d being charged for every additional half-pound, or any less weight.

1. The postage must be prepaid in full, by means of postage stamps affixed outside the packet or its cover.

2. Every packet must be sent either without a cover, or in a cover open at the ends or sides.

3. If the postage paid on the packet amount to as much as 4d, it may contain any number of separate books or other publications, prints, or maps, and any quantity of paper, parchment, or vellum, (to the exclusion, however, of letters whether sealed or open.) And the books or other publications, prints, maps, &c., may be either printed, written, or plain, or any mixture of the three. Further, all legitimate binding, mounting, or covering of a book, publication, &c., or of a portion thereof, will be allowed, whether such binding, &c., be loose or attached, as also rollers, in the case of prints or maps, markers, (whether of paper or otherwise,) in the case of books, and, in short, whatever is necessary for the safe transmission of literary or artistic matter, or usually appertains thereto.

4. But if the postage paid be less than 4d, the packet must consist exclusively of printed matter; without restriction, however, either as to the number of publications or separate sheets, or as to whether they are bound or unbound. If any other matter be included, the packet will be subject to the penalty mentioned in the 9th condition.

5. A book packet, whatever may be the postage paid thereon, must not contain any letter, closed or open, or any inclosure sealed or otherwise closed against inspection; nor must there be any letter, nor any communication of the nature of a letter, written or printed, in any such packet or on its cover. Entries, however, merely stating who sends the book, &c., or to whom it is given, are not regarded as a letter, and may therefore be made when any writing is permitted, that is, when the postage of 4d at least is paid.

6. No book packet can be received if it exceeds two feet in length, width, or depth.

7. Any packet which shall not be open at the ends or sides, or shall have any letter, or any communication of the nature of a letter, written or printed, in it, or upon its cover, is charged with the "unpaid" or double letter postage.

8. If a packet be found to contain any letter, whether closed or open, or any enclosure sealed or otherwise closed against inspection, or any other unauthorized enclosure, the letter or enclosure is taken out and forwarded to the address on the packet, charged with full postage as an unpaid letter, together with an additional book rate, that is, with the postage chargeable on a book weighing not more than half a pound. The remainder of the packet, if duly prepaid with stamps, is then forwarded to its address.

9. If a packet be not sufficiently prepaid with stamps, but nevertheless bear stamps equal to a single book rate, it will be forwarded charged with the deficient book postage, together with an additional book rate; but any packet which shall not bear postage stamps equal to a single book rate is charged with the letter postage.

10. No book packet weighing more than three pounds can be sent to the East Indies or to New South Wales.

11. In no case can a book packet be sent to the Colonies (except at the letter rate of postage) through a foreign country.

## FOREIGN AND COLONIAL POSTAGES.

As the mode of transit of Foreign and Colonial letters is so varied, and constantly changing, it has been deemed superfluous to afford even a condensed statement respecting them in these lists. It is also the less necessary, as by the courtesy and attention of Mr Bell and the other officials at the Post Office, all requisite information can be accurately obtained.

## LIFE ASSURANCE.

ADVANTAGES OFFERED BY THIS COMPANY.

1. A protecting Capital of £1,000,000, fully subscribed.
2. Nine-tenths (or 90 per cent.) of the Profits divided every seven years, thereby affording the benefits of a Mutual Assurance Office, with the advantage of a guarantee against all responsibility.
3. Bonuses may be added to the sum Assured, or surrendered for a cash payment, or applied to the reduction of the future Premiums.
4. At each Septennial Division of Profits an Annual Prospective Bonus is declared in favour of such Policies as may become claims within the next seven years. By this arrangement the advantage of an Annual Division is obtained, without its disadvantages.
5. The sum insured may be made payable at any given age, or at death, if it occur previously.
6. An Ascending Scale of Premiums, whereby Policies may be effected at the lowest possible expense.
7. On Insurances for the whole period of Life, half the Premium may remain on Credit for the first Five Years, or one-third during the convenience of the party assured.
8. No Extra Charge for residence in British North America, the Cape, Australia, New Zealand, and parts of the United States.

[Continued.]

No Entry-Money or other charge. Policy Stamp paid by the office.

### SURRENDER OF POLICIES.

When a party is desirous to discontinue an Assurance upon which three Annual Premiums have been paid, a liberal allowance will be made for the surrender of the Policy, either by a payment in cash, or by granting a new Policy for a corresponding sum, free of Premium.

## LIFE DEPARTMENT.

THE rules and practice of this Company are characterised by the utmost degree of liberality consistent with sound principle.

The Participation Scheme presents a combination of the advantages of Proprietary and Mutual Assurance Institutions. Bonuses are declared quinquennially, and further additions are made to Policies becoming Claims between two investigations; the result of the arrangement, in regard to such cases, being similar to what would follow from an annual Division of Profits. The next investigation is appointed to take place at 31st January, 1857. Policies for which Proposals may be lodged on or before that date, will entitle to share in the Bonus to be declared.

Assurances without Participation in Profits may be effected at very moderate rates of premium.

Annuities are sold, and Reversions purchased, by the Company; and, generally, any transaction proper for an Assurance Office may be carried through on the most advantageous terms.

Prospectuses, with every information, may be had on application.

---

## FIRE DEPARTMENT.

Common, Hazardous, and Doubly-Hazardous Risks are undertaken at the usual rates of 1s 6d, 2s 6d, and 4s 6d per cent. respectively. Special Insurances at increased rates.

**THE STANDARD LIFE ASSURANCE COMPANY** was established at Edinburgh in 1825. The Acts of Parliament, 2° & 3° Gul. IV. cap. 81, and 8° & 9° Vict. cap. 75, have been granted for the purpose of its constitution and for the regulation of its affairs. It has been conducted with much success, and that result may be attributed not only to the extensive and influential connexions of the Company, but more particularly to the liberality of its dealings, and to the constant attention paid by the Directors to the adoption of improvements and facilities in connexion with the contract of Life Assurance.

### NON-FORFEITURE OF POLICIES.

Important Resolutions have been adopted as to non-forfeiture of Policies within thirteen months from the date of payment of the premium, under certain conditions.

### SELECT ASSURANCE,

COVERING FOREIGN RESIDENCE, WITHOUT EXTRA PREMIUM.

MUTUAL LIFE ASSURANCE  
COMBINED WITH MODERATE PREMIUMS.

The Scottish Provident Institution,  
No. 14 ST. ANDREW SQUARE, EDINBURGH.

THE SCOTTISH PROVIDENT INSTITUTION is the only Office in which the advantages of MUTUAL ASSURANCE can be obtained at moderate Premiums.

In many Offices Assurers are offered the choice of a moderate Scale of Premiums, without any claim to share in the Profits—or of a right to participate in these, at an excessive rate of Premium. Assurers with the SCOTTISH PROVIDENT INSTITUTION are the sole recipients of the Profits, and at rates of Premium equally moderate with those of the *Non-Participating Scale* of other Offices.

The principle on which the Profits are divided is at once safe, equitable, and favourable to good lives—the Surplus being reserved for those members who alone can have made surplus payments; in other words, for those whose Premiums, with Accumulated Interest, amount to the sums in their Policies.

*Examples of Annual Premiums for Assurance of £100 at Death.*

(By both scales the Assured are entitled to share in the whole Profits.)

It will be seen on comparison that the same premium which, at age 30, for example, is charged in the other Scottish Mutual Offices for Assurance of £1000, will secure, in this Society, a Policy for £1230.

## ROYAL INSURANCE COMPANY—Continued.

“This Company added about £90,000 to its permanent capital, for the increased protection of its Insurers. This step distinctly shows that the Company has always acted on the principle enunciated by one of the directors at the last annual meeting of the proprietors—‘that the interests of the assured have a paramount claim on the directors,—a claim superior even to that of the shareholders themselves.’

“From that moment, as might be expected, the Company attained the highest consideration throughout the country, and has retained it ever since. The result is shown in the unexampled fact that its Fire Revenue alone rose in about five years from little more than £30,000 to about £130,000.

“A further cause of this rapid growth lies somewhat more below the surface, but is yet of importance. From inquiry we learn that no fire office possessing half of the above revenue annually deposits its accounts with the Registrar-General.

“The resources and balance-sheets of this great Company are, on the contrary, annually registered, and unmistakeable evidence is thus given periodically of its capacity to meet its engagement.”—*Morning Herald*, Dec. 26, 1855.

“Indeed, the Bonus of the ‘Royal’ may be pronounced to be larger than any yet declared by the mass of the English offices. Here is an office, which yields a fairly earned and wholesome reversionary bonus of 80 per cent. in its Life branch, and, in regard to Fire operations can make this very enviable boast, that it has exceeded the Fire business of all but two of the London Fire offices—viz., the receipt of nearly £130,000 per year in Fire premiums alone—some of which ancient offices have been in existence for a century! Equally successful and singular in both departments. Indeed, the Life department may be said to present results equally as worthy of mention.”—*Morning Chronicle*, Nov. 28, 1855.

## AGENTS REQUIRED.

*The magnitude of the Company's business since the declaration of the above large Bonus, which has exceeded expectation, enables it to offer to its representatives unusual opportunities of success. It is, therefore, prepared to appoint applicants of influence and respectability as Agents at places where it is at present unrepresented.*

**T**HIS Company is established for the general Insurance of Houses and Goods against loss or damage by Fire; and for the Insurance of Lives and Survivorships.

It originated as a measure of self defence, in consequence of the increased charges for Annual Premiums made by a general combination of the existing Fire Insurance Companies upon several classes of Tradesmen and others; and offers to the public the security of a large paid-up Capital, with the guarantee of undoubted responsibility.

The attention of Mill-owners is called to the fact, that this is the only office which has reduced the Premiums for Insurances over Mill Property in proportion to the reduced hours of working, in terms of the Factory Act.

L I F E .

With a view to a strictly equitable arrangement in the Life Department, the Directors have had a new set of Tables calculated expressly for the use of this Office, which have received the sanction and approval of one of the most eminent authorities; and being settled in accordance with the experience of the Government Annuities, are now, for the first time, adapted to the purposes of Life Assurance.

Desirous to afford every facility in this branch of their business, the Directors will give credit, where required, for the whole or a portion of the Annual Premiums, during the first Five Years,—the unpaid portion remaining as a charge upon the Policy for such period as may be agreed upon, with interest at 5 per cent.; and further, will receive premiums half-yearly, quarterly, or monthly, as may be convenient.

Special Insurances taken at special rates. Policies will be purchased at proportionate rates.

The Insured on the participation scale, will be entitled to two-thirds of the profits, and may receive the amount in cash, by an addition to the sum insured, or by a reduction of the annual premium.

LOANS granted on personal or other approved security, repayable at such times and in such proportions as may be agreed upon.

Contingent or Reversionary Interests and Annuities purchased.

Endowments for widows or children effected.
