SECTION II.—LEGAL DEPARTMENT.

COURTS OF LAW.

CIRCUIT COURT OF JUSTICIARY.

The Circuit Court of Justiciary, for the Counties of Aberdeen, Banff, and Kincardine, meets at Aberdeen twice a-year, in the months of April and September, for the trial of criminal cases, by one or two of the Lords. Appeals in certain civil cases, from the inferior courts, are also heard by this Court.

SHERIFF SMALL-DEBT AND CIRCUIT COURT.

The Small-debt Court was formerly stationary like the Ordinary Court, but by the Act of Parliament 1, Victoria, cap. 41, Circuit Courts, for the trial of Small-debt cases (actions for sums under £8 6s. 8d.), are established in addition to the Ordinary Small-debt Court; and the Sheriff is ordained to divide the county into districts, and hold a certain number of Courts in each annually.

Appeals against the Sheriff's judgments in these Courts are not competent, unless on the ground of corruption, malice, or oppression, on the part of the Judge; and the decrees may be immediately put in execution by arrestment or poinding; imprisonment for small debts being abolished. Written proceedings, or the assistance of professional men, are not allowed, unless with leave of the Court.

The Ordinary Small-debt Court at Aberdeen is held on Thursday, at Ten o'clock, A.M., *weekly*, during sessions of the Court, and once or twice during vacation.

BURGH OR BAILLIE COURT.

The jurisdiction of the Magistrates (Provost and Baillies, though it is a Baillie that usually sits in Court) is equal to that of the Sheriff within their territory—the royalty of the Burgh—but it is not *exclusive* of the Sheriff's authority, except, perhaps, in questions strictly belonging to the police of the burgh, which more properly pertain to the Magistrates.

The Court day is Saturday, at Eleven o'clock, A.M., during the same sessions as the Sheriff Court.

JUSTICE OF PEACE COURT.

The office of Justice of the Peace was introduced into Scotland in 1609. As signified by their name, the Justices judge in riots and breaches of the peace—they enforce the laws against beggars and vagrants—the game laws—and, with the Commissioners of Supply, they regulate the highways, bridges, and ferries. The execution of various penal statutes, revenues, laws, and others, is also committed to them. The quarter-sessions are held on the first Tuesday of the months of March, May, August, and last Tuesday of October. Special sessions are occasionally held.

For the trial of small-debt causes, under £5, by 6, Geo. IV, c. 48.

Any two Justices of Peace, *Judges*.

POLICE COURT.

This is a Criminal Court, constituted under the Aberdeen Police Act (14th May, 1829), for the trial of offences against the Act, breaches of the peace, theft under the value of £10, reset, fraud, &c. &c. It sits daily in the Old or Baillie Court-house, at Eleven o'clock, A.M.

The Sitting Magistrate, *Judge*.

* * All the Courts, except the Baillie and Police Courts, meet in the New Court-house, Castle Street. The Sheriff, Commissary, Justice of Peace, and Small-debt Clerks' Offices are in the Record Hall, 27, King Street. Hours of attendance, from Ten o'clock, A.M., to Three, P.M., and from Six to Eight, P.M.

PUBLIC OFFICERS.

Thomas and Newell Burnett, Advocates, *Joint Clerks to the Commissioners of Supply, Clerks of General Meetings of Trustees under the Turnpike and Commutation Acts, and General Clerks of Lieutenancy.*

H. and C. Lumsden, Advocates, *Collectors of County Assessments.*

James Simpson, Advocate, *Collector of Town Assessments.*

John Blaikie, Advocate, *Collector of Bishop Rents.*

Newell Burnett, Advocate, *Keeper of Register of Sasines for Aberdeen and Kincardine shires.*

John Angus, *Town-Clerk and Keeper of the Register of Sasines for the Burgh of Aberdeen.*

Printed votes and proceedings in Parliament passing between places in the United Kingdom, and between the United Kingdom and the Colonies, when conveyed by packet, but not through France nor to the East Indies, are charged—

Not exceeding 4 oz., 1d.
 Exceeding 2 oz. and not exceeding 8 oz., 2d.
 Exceeding 4 oz. and not exceeding 12 oz., 3d.
 and so on in proportion. Prepayment optional.

Postage Stamps are sold at the Post-office and the Stamp-office.

Price—Labels, 1d. and 2d. each.

„ Covers, 1½d. and 2½d. each.

Letters bearing stamps in value equal to the amount of postage chargeable according to the first or “prepaid” column of the above scale, will be delivered free in any part of the United Kingdom. In cases, however, where stamps of a less value than the rate exigible have been used, the letter is chargeable, on delivery, with double the amount of such difference. For instance, a letter posted exceeding half an ounce and under one ounce, upon which a penny label has been put, will, on delivery, be charged twopence, being double the difference betwixt the label used and the proper one for the weight of the letter, which ought to have been adopted—the public being, in this case, mulcted one penny extra.

Stamps may be used for printed votes, Parliamentary proceedings, and on Foreign, Colonial, and ship letters proceeding *outwards*; but their use is prohibited *from* the Colonies or Foreign ports.

Letters for Foreign countries, and places beyond seas, having an insufficient number of stamps, will not be forwarded, but sent to the Dead-letter Office to be returned to the writer. And the same principle is applied to letters for Foreign countries, *prepayment* of which is required, when left at any Post-office with less than the full amount of such postage.

Members of each House of Parliament are allowed to receive, by the post, petitions and addresses to her Majesty, and petitions addressed to either House of Parliament, *not exceeding thirty-two ounces in weight, exempt from postage, provided such petitions and addresses be sent without covers, or in covers open at the sides.* Should they exceed that weight, they will not require to be prepaid, but are charged according to their weight as unpaid letters with double the rates of postage to which, if prepaid, they would be subject.

SHIP LETTERS.

Letters conveyed by *private* ship to places beyond seas (East Indies included) are liable to a rate of,

Under ½ oz., 0s. 8d.
 Above ½ oz. and under 1 oz., 1s. 4d.
 Above 1 oz. and under 2 oz., 2s. 8d.
 and so on in proportion.

REGISTRATION OF LETTERS.

Since January, 1841, a system of registration has been in operation applicable to all descriptions of letters.

Letters intended for registration must either be stamped or pre-paid, and presented at the Post-office at least 30 minutes before the closing of the letter-box for the particular mail by which it is to be despatched.

The British registration fee is 1s., and must always be paid in money, and at the time of registration.

In the case of Foreign, Colonial, or Ship letters, registration extends to the port of despatch in the United Kingdom only.

Registration fee on such letters, 1s., and, in addition, the rate of postage to which they may be liable.

Letters *addressed to France* may be registered to their destination; and those *passing through France*, so long as they may remain in the French territory—the former on payment of double the French rate to place of destination, in addition to the British rate and British registration fee, and the latter on payment of the usual postage rate, and 1s. registration fee. It must be observed, however, that such registration does not render the Postmaster-General, or the Post Office revenue, in any manner liable for the loss of any such letter or contents thereof.

NOTES FROM THE CORN-LAW ACT.

By the 5th Victoria, sess. 2, cap. 14, sec. 2, it is enacted that the same duties shall be levied on corn, grain, meal, or flour imported into the Isle of Man, as is levied on corn, grain, meal, or flour, imported into the United Kingdom.

By the same Act, sec. 5, all shippers of corn, grain meal, or flour, from any British possession out of Europe, must make a declaration, in writing, before the collector or chief officer of Customs, at the port of shipment, of the quantities of each sort he is about to ship, and that the same is the produce of a British possession out of Europe therein named, and must obtain a certificate under his signature of such quantities declared to be shipped ; and the master of the ship importing the same shall deliver to the collector or chief officer of Customs at the place of importation, a copy of such declaration, certified as such by the collector or chief officer at the port of shipment ; and the said master shall also make declaration

before the collector or chief officer of Customs at the place of importation, that the quantities of corn, grain, meal, or flour, proposed to be entered under the authority of such declaration, are the same that were mentioned and referred to in the declaration and certificate produced by him, without any admixture or addition, under penalty of forfeiture of the cargo.

By the same Act, sec. 6, it is enacted that no malt or ground corn shall be imported into the United Kingdom, except wheat-meal, wheat-flour, and oatmeal.

And by the same Act, sec. 8, her Majesty may prohibit the importation of corn, grain, meal, or flour from any country where heavier duties are imposed on British produce, or on British vessels, than on the produce or vessels of other nations.

NOTES FROM THE CUSTOMS-DUTIES ACT.

Clause II.—The Act 3 and 4, William IV., c. 51, for the management of the customs, to be registered in the Royal Court of Jersey, and its provisions to be in force there, so far as the laws of the island will allow.

Clause III.—Repeals so much of the Acts for the management of the customs as prohibits the importation into the United Kingdom of beef or pork, fresh or corned or slightly salted, great cattle, mutton, lamb, sheep, swine, and fish of foreign taking or curing, or in foreign vessels.

Clause IV.—Prohibits the importation of fish of foreign taking in vessels which have not regularly cleared out from some foreign port, except anchovies, eels, turbot, and lobsters, and all train oil, blubber, spermaceti oil, head matter, skins, bones, and fins, the produce of fish or creatures living in the sea.

Clause V.—Turbot of foreign taking, heretofore permitted, are now prohibited to be imported in foreign vessels, without report, entry, or warrant.

Clause VI.—Tobacco, the produce of Mexico, may be imported from British possessions in packages of eighty pounds weight; and negrohead tobacco from the United States of America in packages of one hundred and fifty pounds.

Clause VII.—The weight need not be marked on the hogsheads containing tobacco.

Clause VIII.—Tobacco may be imported into the United Kingdom by bill of store.

Clause IX.—A separate manifest for tobacco no longer requisite.

Clause X.—No drawback allowed on tobacco improperly manufactured.

Clause XI.—Foreign goods, bearing British marks, prohibited to be imported into the United Kingdom or British possessions abroad, after the 5th January, 1843.

Clause XII.—Spirits may in future be imported in stone bottles, not exceeding the size of quart bottles.

Clause XIII.—The silk manufactures of Europe may be imported into Southampton.

Clause XIV.—No allowance of duty on sugar to be made because of damage sustained during voyage.

Clause XV.—And whereas by the said last-mentioned Act the officers of customs are authorised to detain and secure goods entered at value, if, upon examination, it shall appear to them that such goods are not valued according to the true value thereof, and within certain periods therein mentioned, to take such goods for the use of the Crown, and it is expedient to make further provision for the security of the revenue, and the accommodation of the mer-

chant importing such goods; be it, therefore, enacted, that if, upon the examination of any goods entered to pay duty according to the value thereof, it shall appear to the officers of customs that such goods are not valued according to the true value thereof, it shall be lawful for such officers to detain and secure such goods, and within seven days from the day on which the goods shall be finally examined by the proper officers by virtue of a duty-paid entry, if it be in England, or within ten days from such last-mentioned day, if it be in any part of Scotland, Ireland, or the Isle of Man, to take such goods for the use of the Crown; and the Commissioners of her Majesty's customs shall thereupon cause the amount of such valuation, together with an addition of £10 per centum thereon, and also the duties paid upon such entry, to be paid to the importer or proprietor of such goods in full satisfaction of the same, and shall deal with such goods in such and the like manner as goods so circumstanced are directed to be dealt with by the said last-mentioned Act.

Clause XVII.—No abatement of duties payable on goods found derelict, jetsam, flotsam, or wreck.

Clause XL.—Imposes the new customs duties, as per the schedules annexed.

Clause XLI.—Imposes an additional duty of 4d. per gallon on spirits, and five per cent. on all other articles.

Clause XLVI.—No allowance in future of duty on barilla used in bleaching linen.

Clause XLVII.—And whereas, by the said Act for granting duties of customs, it is enacted that, upon the exportation from the United Kingdom of any foreign rice or paddy which shall have paid the duties under that Act, there shall be allowed and paid for every hundredweight thereof a drawback equal in amount to the duty paid upon every four bushels of the rough rice or paddy, from which the same shall have been cleaned, which drawback will only continue payable in respect to rice and paddy upon which the duties have been paid upon the said last-mentioned Act: And whereas it is expedient that a like proportionate drawback should be allowed upon cleaned rice, cleaned from foreign rough rice and paddy, which shall have paid duties under this Act; be it, therefore, enacted, that upon the exportation from the United Kingdom of any foreign rice or paddy which shall have been cleaned therein, and which shall have paid the duties payable on the importation thereof under this Act, there shall be allowed and paid for every hundredweight thereof a drawback equal in amount to the duty which shall have been paid under this Act on every four bushels of the rough rice or paddy, from which the same shall have been cleaned; and such drawback shall be paid and allowed subject to the like condition as the depositing and securing the cleaned rice, and as to the same having been cleaned from the rough rice or paddy upon which the duties shall have been paid, subject to which the drawback on cleaned rice and paddy is now paid and allowed under the said last-mentioned Act.

Clause L.—The duties remitted on goods lost or destroyed in warehouse by accident.

Clause LIII.—And whereas, wheat, barley, rye, and oats are liable to decrease while in the warehouse by natural causes, and it is expedient that the duties should not be charged upon certain deficiency arising from such causes; be it, therefore, enacted, that in respect of any wheat or barley, or any rye, or any oats, lodged in warehouses without payment of duty on the first importation thereof, the following allowances for natural waste shall be made on the exportation thereof, or upon the entry thereof for home consumption; that is to say—

In respect of wheat, barley, and rye, except as hereinafter provided, which has been in warehouse one month, and less than three months, there shall be allowed one and a half per centum.

In respect of all wheat, barley, and rye, except as hereinafter provided, which has been in warehouse three months, and less than six months, there shall be allowed two per centum.

In respect of all wheat, barley, and rye, except as hereinafter provided, which has been in warehouse six months, and less than twelve months, there shall be allowed two and a half per centum.

And in respect of all wheat, barley, and rye, except as hereinafter provided, which has been in warehouse twelve months and upwards, there shall be allowed three per centum.

In respect of oats, except as hereinafter provided, which have been in warehouse one month, and less than three months, there shall be allowed two and a half per centum.

In respect of oats, except as hereinafter provided, which have been in warehouse three months, and less than six months, there shall be allowed three and a half per centum.

In respect of oats, except as hereinafter provided, which have been in warehouse six months, and less than twelve months, there shall be allowed four and a half per centum.

And in respect of oats, except as hereinafter provided, which have been in warehouse twelve months and upwards, there shall be allowed five per centum.

Provided, nevertheless, that only half the above allowances hereby directed to be made on wheat, and barley, and oats respectively, shall be made upon Spanish wheat, and barley, and oats respectively, and upon wheat and barley, kiln-dried abroad, respectively, and that no such allowance shall be made in respect of rye being kiln-dried: Provided also, that no such allowance shall be made unless there shall be an actual deficiency in the quantity of such wheat, rye, barley, and oats originally warehoused.

Clause LVI.—No drawback on exportation of silks, and on deals and timber used in mines.

THE INCOME TAX.

RULES AND REGULATIONS FOR COLLECTION.

The following is a copy of the official regulations which will be issued to every person for the purpose of assessments of profits in professions, &c. :—

County of _____

Parish of _____

In pursuance of an Act passed in the sixth year of the reign of her present Majesty, for granting to her Majesty duties on profits arising from property, professions, trades, and occupations, you are hereby required to fill up such statements as are applicable to your particular case, and deliver the same, under cover and seal, at my dwelling house, situate at _____, or at the office of the commissioners, at _____, within twenty-one days from the date hereof, under a penalty of £20 and treble duty.

RULES AND REGULATIONS FOR INCOME.

The tax under this schedule extends to all trades, professions, employments, or vocations, carried on or exercised in Great Britain, or elsewhere, by persons residing in Great Britain, or carried on or exercised in Great Britain by any person, whether subjects of her Majesty or not, although not resident in Great Britain, and to every art, mystery, &c., carried on by them respectively, other than quarries of stone, limestone, slate, or chalk, coal mines, and other mines, iron works, gas works, salt works, water works, canals, docks, &c., right of markets, fairs, tolls, railways, and other concerns of a like nature.

The balance of profits of trade or manufacture is to be returned at the place where it is carried on, on an average of three years preceding; or, if set up within three years, on an average from the period of commencing the same, either ending on the day of the year when the annual accounts of the trade have been usually made up, or on the 5th of April, 184 ; or, if commenced within the year of assessment, according to such fair computation, on average, as to the best of your knowledge and belief you shall state, and shall be directed by the Commissioners.

In estimating the profits and gains in trade,

DEDUCTIONS ARE ALLOWED

For repairs of premises, or supply or repairs of implements, utensils, or articles employed, not exceeding the sum usually expended for such purposes, according to an average of three years.

For bad debts only, or such part thereof as shall be proved to the satisfaction of the Commissioners to be such.

For any average loss not exceeding the actual amount of loss or adjustment.

And for the rent or value of any dwelling-house or domestic offices used for the purposes of trade—a sum not exceeding two-third parts of such rent.

NO DEDUCTIONS ARE ALLOWED

On account of loss not connected with, or arising out of trade, &c.

Nor for any sums employed or intended to be employed as capital therein.

Nor on account of capital withdrawn therefrom.

Nor for any capital employed in improvement of premises not occupied for the purposes of trade.

Nor on account or pretence of any interest which might have been made on capital if laid out at interest.

Nor on account of any annual interest, or any annuity, or other annual payment, payable out of such profits or gains.

Nor for any sum recoverable under an insurance or contract of indemnity.

Nor for any disbursements or expenses which shall not be money wholly and exclusively laid out for trade, &c.

Nor for any disbursements or expense of maintenance of the parties, their families, or establishments.

Nor for any sum expended in any other domestic or private purposes, distinct from the purposes of trade.

The profits on professions, &c., are to be returned on the amount of the preceding year, ending as before, subject to the like provision with respect to those profits as to profits in trade, or the setting up within the year of assessment.

The profits on all securities bearing interest payable out of the public revenue (except annuities, dividends, and shares payable out of any public revenue, or the interest of East India bonds otherwise charged), and all discounts and interest of money, not being annual interest, payable or paid by any person whatever, are to be returned on the full amount of profits and gains arising therefrom with the preceding year.

The profit from foreign possessions and securities, or in the British plantations, or in any other of her Majesty's dominions, may be stated to, and assessed by, the Commissioners of London, Bristol, Liverpool, and Glasgow, or nearest to such place where the property shall have been imported, or the persons receiving the remittances or value thereof reside; or if imported or received in different parts, or in two or more of the outports, as above-mentioned, the whole profits are to be returned at each port; but they are to be assessed upon the aggregate amount at each port only where the major part of the value has been imported or received.

The returns of profits arising in any other manner than as above described, comprehending every possible source of profit, of whatever nature or kind (not particularly described in the other parts of the Act), may either be formed on an average of years, if in their nature these profits are uncertain in their annual amounts, or, if certain in their annual amount, on the profits of the preceding year.

The Act imposes the obligation of making returns not only on individuals for whose benefit the profits are received, but also on trustees, &c., receiving the properties of others, and state in what capacity you make the return—whether on your own account, or as trustee of any description for another, or as officer of any incorporation or company; and, acting in that capacity, you are liable to the same penalty for not making a due return of the profits you are accountable for as for your own profits.

You are not required to make any return of annuities, &c., payable in Great Britain out of any public revenues, or of the interest on India bonds, the duties of which are to be retained by the respective corporations or companies trusted with the payment of the same, unless the half-yearly payment of dividend does not amount to 50s. ; nor are you required to make any return of rents, annuities, or interests of money, and other annual payments, payable to you by others residing in this kingdom (unless such payments are derived from property out of Great Britain), they being chargeable on the party by whom the payment is to be made, and will ultimately fall on you by way of deduction from the amount at the time the payment is made, without a particular assessment.

GENERAL DECLARATION.

I, ———, do hereby declare that all the particulars required in this notice to be returned as appertaining to me, in relation to the duties or profits of property, trade, or profession, contained in schedule —, are in every respect fully and truly stated, according to the rules and regulations of the Act of Parliament in that behalf made. Dated this day of , 184 .

### Constitution and Objects of the Company.

THIS Company was established at Aberdeen in the year 1836, for the purpose "of making or effecting Insurances of all kinds of Property against "loss or damage by Fire; Assurances of Single Lives, Joint Lives, and "Survivorships; Loans on Life Policies; the purchase and sale of Rever- "sions, Reversionary Interests, and Annuities; Endowments for Children; "and generally for all transactions dependent on the Contingency of Life."

The Capital of the Company is ONE MILLION, divided into 50,000 Shares of £20; but the Directors have power, if they think fit to exercise it, to extend the Capital to £2,000,000, by the creation of 50,000 additional Shares. The present proprietary consists of nearly one thousand partners, of the first respectability and influence, thus affording to parties who transact business with the Company, besides the security of the ample Capital and large Accumulated Fund, an undoubted personal guarantee.

## Progress of the Company.

The progress of the Company has been eminently successful, and has surpassed the most sanguine anticipations of its projectors; the amount of Business, particularly in the Life Department, having, it is believed, exceeded that of any similar institution in Scotland, in the same period of time. The Directors are much gratified in being enabled to refer to this circumstance, affording as it does, the best evidence that the various plans of accommodation offered by the Company have met with the approval of the Public.

## Advantages.

I.—FIRE INSURANCES are effected by the Company on the usual terms of other respectable establishments, and Losses are immediately and liberally settled on being ascertained.

II.—IN THE LIFE DEPARTMENT of its business, the Company holds out very superior advantages; the Tables of Rates, which are varied and extensive, having been calculated expressly for the Office, from the most recently ascertained probabilities of human life. The Assured are formed into two classes:—1st, Those who assure a stated sum, and are not entitled to contingent additions in Profits—(see Table I). 2d, Those who not only assure a stated amount, but also become entitled to participate in the surplus fund arising from their own contributions; and, besides the prospect of larger additions being made to Policies in this class, at each period of the division of the Surplus Fund, the Assured enjoy an IMMEDIATE, CERTAIN, AND ANNUAL BONUS, by the Rates of this Company being considerably under those of other similar institutions—(see Table II). The funds of this class are kept separate and distinct from the other accounts of the Company, and the assured may name three of their own number to act along with the Ordinary Directors in the management and investment of these funds. The first investigation takes place in 1846.

III.—Premiums may be made payable in any way to suit the convenience of the assured.

IV.—The sum assured may be made payable *to the party at any age fixed upon*, or to his heirs or executors should he die previously—(see Table III).

V.—ONE HALF OF THE PREMIUMS MAY REMAIN UNPAID FOR FIVE YEARS from the date of the Policy, to be deducted, with interest, from the sum assured at death, or paid off at convenience.

VI.—No charge is made for Entrance Money.

VII.—Claims are paid within three months after satisfactory proof of death.

VIII.—Loans are made on Policies.

\* EXAMPLE—A person aged 30 next birthday may, by paying annually £2 17s. 7d., secure £100 payable to himself on attaining the age of 60, or the same amount to his representatives if he should die prior to that age.

\*\* Persons desirous of effecting Assurances, for either *One Year, Five Years, Seven Years, or Ten Years*, or by any other mode of payments than those stated in the foregoing Tables, will be accommodated on application at the Office or Agencies, where the Rates for all ages, and for Insurances on Joint-Lives and Survivorships, Endowments, and Annuities will be ascertained.

### Nature and Benefits of Life Assurance.

The nature and benefits of Life Assurance are now generally well understood. Any person desirous of providing against the pecuniary inconvenience which the failure of his own or another's life would occasion, may, by devoting a fraction of his present income to an Assurance Fund, secure a large amount payable either to himself or his representatives, as the case shall be, on the termination of the life named, after which event no further payment is required. Thus Husbands and Fathers may secure posthumous provision for their Wives and Families; Sons and Brothers for their dependent Relatives; and all may by the same means give or obtain security for Debts, Loans, the Terms of Marriage Settlements, Property in Reversion, Capital Sums sunk in Annuities on the lives of others, Fines on the Renewal of Leases, &c. &c.

An institution subservient to the wants of society in so many ways, requires only to be known to be universally resorted to; and no statement of instances, whether of vast advantage experienced from its adoption, or of melancholy privation suffered from its neglect, can be needed to convince the judgment of every reflecting person, as to its paramount utility. And it is within the attainment of all—not in every case to the extent of conferring independence, but certainly in all of bestowing most important relief. Nor is it the young and vigorous who may safely overlook it—but those only who have already in some sufficient way made that provision, which in most cases Life Assurance alone can supply.

### Annuities.

The Rates allowed by this Company are particularly advantageous. For instance—by an immediate payment of £100, a person aged 50 may secure an Annuity, during life, of £7 12s. 10d. if a Male, or £6 15s. 2d. if a Female. The Rates for other Ages may be learned on application at the Office.

### Fire Insurances

Are effected on Houses, Shops, and Warehouses, with their contents, on terms corresponding to the Risks incurred.

AGRICULTURAL PRODUCE, and FARMING STOCK (Live and Dead), and IMPLEMENTS of HUSBANDRY, on a Farm, may be insured in *one item*, comprehending the whole produce of CROPS, in Ricks, Stooks, Barns, Stables, and in all other Farm Buildings on the Farm named; also, all Implements of Husbandry therein, and all Live Stock in the Farm Buildings; THATCHED and Slated, at 2s. per Cent.

The Rates for all other kinds of Risks will be ascertained at the Head Office or Agencies throughout the country, and Insurances may be transferred from other Offices without any additional expense to the Parties.

✚ A Duty is Payable to Government on all Property (unless Farming Stock and Public Hospitals), at the rate of 3s. per cent. per annum.

Printed Forms of Proposal, and all other requisite information, are to be had, GRATIS, at the Head Office or Agencies.

**T**HE leading features of this Company are *Participation in the Profits, and Lower Rates of Premium than those of most Societies which do not give Profits to the assured.*

The subscribed Capital of the Company, while it affords ample security to the assured, will, by yielding a higher rate of interest than is paid to the shareholders, contribute to the general Profits; whereas, in the case of some of the English Companies, with Capitals unnecessarily large, the Premiums paid by the assured are materially drawn upon to supply the differences between the interest paid to shareholders and interest yielded by investments; thus diminishing instead of increasing the security of the policy-holder.

In addition to the low rate of Premium required by this Society, one half of the Profits will be divided among the ASSURED and ANNUITANTS; but, in the first instance, one-fifth of the whole will be retained to form an extra precautionary fund.

Two Directors and one Auditor may be chosen from the assured.

For the Profits to which the assured may become entitled at each quinquennial rest and division, a separate Policy will be issued, which, being unincumbered by the payment of Premium, will be an absolute reversion, payable at the death of the assured—and increasing, without cost, in value every year, and therefore readily available for private sale or deposit, and which the Society will always purchase on equitable terms, or receive a commutation of future Premiums on the original Policy.

To the purchasers of Annuities, this Society holds out advantages never before offered—a much higher rate than can with safety be granted from English investments, and participation to the extent of one half in the Profits as above stated, including those of Life Assurance, for which an equivalent additional Annuity will be granted at each quinquennial rest.

Participation in Profits to Annuitants has not been offered, with one recent exception; but to it they are as much entitled, if they have paid a proper price for their Annuity, including a fair allowance for the selection of life, as their converse associates, the contributors of annual payments to secure sums payable at their decease.

Two Directors and one Auditor may be chosen from the Annuitants, thereby giving them cognizance of and control over the disposal of the funds.

The benefited members of the Company will consist of the first thousand Policy-holders for the time being, for the whole of life, for £500 or upwards, in one or more Policies—and of the first thousand Annuitants for the time being, who have paid £500 or upwards for their Annuities; every vacancy in the thousand benefited Policy-holders to be filled up by the next oldest Policy of Assurance, on the plan of the Equitable Society of London; and, in like manner, every vacancy in the thousand benefited Annuitants, by the next oldest deed of Annuity—the Assured and the Annuitants, however, will only succeed to the vacancies in their respective class.

A Descending Scale of Premium is offered to those who wish to avail themselves of present prosperity, gradually to reduce future payments, until they cease altogether, when assurers will nevertheless be entitled to Bonus.

An Ascending Scale, to those who are looking forward to increase of income.

Naval and Military Service, Voyages, and Foreign Residences, are taken at moderate rates of Premium, payable only during the time of actual exposure to the additional risk.

No extra Premium will be charged to the assured for the whole life, for voyage as cabin or intermediate passengers in approved vessels to, or for residence in, the Australasian Colonies in approved situations. Distance from medical advice, occupation in whale fishery, or distant voyaging, will be covered by equitable Premiums; but parties may proceed from port to port throughout the Australasian Colonies in decked vessels of 100 tons or upwards.

Premiums on Policies, WHEREVER EFFECTED, may be paid at any settlement in Australasia where there is a bank, but always at the same, unless permission to change shall have been given.

Policies, whether effected in England or the Australasian Colonies, may be made payable in either by indorsement, provided the party do not quit the country in which the Policy is made payable without notice to the Directors.

## TABLES.

NOTE.—The Age of the individual is always, in Assurance cases, taken at his Age NEXT birthday; and, in Annuity cases, at his Age LAST birthday.

The following Tables of Premium, all of which entitle the assured to Profits, will be revised annually with reference to the rate of interest to be securely obtained, and other circumstances; but no alteration will be made in existing contracts.

## PATENT FELT CARPETING, &c.

**T**HE LONDON PATENT FELT COMPANY beg to introduce to the notice of the public of Aberdeen their New Patent FELT CLOTH, for Bedroom Carpets, Carpet-covers, &c. of which a few pieces, of Select Patterns, have been consigned to Messrs. This Cloth is 4 feet wide, from 3s. 2d. to 3s. 6d. per yard, rich colours, and very durable.

Watt & Bolton's Patent Condensing Beam Engine, which, they are happy to state, is now in perfect order in the Premises, and worthy the inspection of a discerning public; and W. S. & Co. can confidently assure those who may favour them with their patronage, that they will receive an article in Coffee which cannot be surpassed in point of quality, while they will not be charged any extra price.

## IMPILIA BOOTS.—HUNTING SHOES.

**B**OOTs and SHOES, according to this patent, Repel the Wet and Absorb the Perspiration. They are ELASTIC and COMFORTABLE. No COLD nor DAMP can penetrate the Soles. For tender feet they are perfectly luxurious; the wearer may tread the roughest pavement without inconvenience. They do not creak, are MORE DURABLE, and in appearance precisely similar to other Boots and Shoes. HUNTING SHOES made on this principle will be found to have all the above advantages.

From ANTHONY WHYTE, Esq., Parliament Street, one of the Council, and late President of the Royal College of Surgeons, to Wm. BAKER, Esq.:—

“I can with much satisfaction recommend to the public the Boot or Shoe which is denominated “Impilia.” Its peculiar advantages over all other Boots or Shoes are, that it is impermeable to wet and damp, and always gives an agreeable and constant warmth to the feet; is also elastic, and is admirably adapted to tender and crippled feet from gout or other maladies.
