VERY great exertions have been used to increase, in every possible way, the utility of the POST-OFFICE EDINBURGH AND LEITH DIRECTORY for 1844-45. By a new method of taking up the names, which has been adopted this year, the GENERAL ALPHABETICAL arrangement has been increased by ten additional closely printed pages, embracing upwards of ONE THOUSAND names beyond what was contained in any previous publication ; while, at the same time, a much greater degree of accuracy has been attained : and although from this cause the publication has been a little delayed, yet it is hoped that the greater perfection to which the Work has been brought will more than counterbalance any inconvenience that may have arisen from the delay, and which in another year will not take place. The

### PROFESSIONS AND TRADES' DIRECTORY,

Besides the usual emendations, has been revised as to arrangement, and great care has been taken to place every person under the proper class of profession or trade to which each belongs. The

### STREET DIRECTORY

Has undergone a complete revision ; and every Street, Square, Place, Court, and Close, has been put in strict alphabetical arrangement, with directions where they are situated, and the names of all parties residing in them put under each separate head ; thus obviating the difficulty which has been so often complained of, as to the finding out any place wanted in that part of the Directory. Much pains have been taken to render the

### COUNTY DIRECTORY

more correct and complete than formerly. The

### POSTAGE DIRECTORY

Has been entirely remodelled ; and a New and Universal List of places abroad has been given, in which is shown the days of despatch from Edinburgh, the different routes by which letters can be sent, with the rate of Postage, in accordance with the treaties recently concluded with Foreign Powers. The

### CONVEYANCE DIRECTORY

has been revised ; and to the names of the CARRIERS have been ADDED the hours as well as the days of despatch from Edinburgh and Leith. In short, every thing has been done to render this year's Publication acceptable and useful to the public ; and the Editor trusts that his endeavours will meet with that encouragement which has been so liberally bestowed on his former labours.

JAMES FINDLAY,

*Inspector of Letter-Carriers.*

# A DIRECTORY

## TO NOBLEMEN AND GENTLEMEN'S SEATS, VILLAGES, AND PLACES, &c., IN SCOTLAND,

*Giving the County in which they are situated, the Post-Town to which each is attached, and the name of the Resident. To which is added, a Table showing the Despatch and Arrival of the Mails at the Head and Sub-offices throughout Scotland; also every information respecting the Transmission of Letters to all Foreign Parts.*

COLLECTED AND ARRANGED BY

JAMES FINDLAY,

Inspector of Letter-Carriers, General Post-Office, Edinburgh.

W. P. KENNEDY, South St Andrew Street, Edinburgh; W. BLACKWOOD, Glasgow; and to be had of all the Booksellers. HAMILTON, ADAMS, & Co. London; or any of the Letter-Carriers; and at the Window Office, General Post-Office.

### OPINIONS OF THE PRESS.

"The want of a compilation like the present has often been felt by a very large and important portion of the community, especially bankers, merchants, men of business, and agents of almost every class, not to mention the nobility, gentry, and other parties interested in having their places of residence generally known. Such a work, however, was necessarily one of great labour and difficulty, and at first sight would appear to be impracticable. Mr Findlay, of the Post-Office, however, undertook, and has most fully succeeded in accomplishing, this arduous task. No man has had more experience in compiling and arranging such information, and, of course, no one could possess superior facilities for the completion of a Directory to the seats and residences of the nobility and gentry of Scotland. Accordingly, we need scarcely say that the work is at once accurate and comprehensive in its details; and the whole is arranged with care. The volume contains, besides, a large amount of Post-Office information, particularly useful in correspondence. We conceive that such a work ought to be on the desk of every extensive merchant and man of business; and we think it must be an indispensable table-book in all hotels, as well as a most useful, if not essential, companion to every Postmaster in the kingdom."—*Edinburgh Evening Post*.

"This, as may be seen from the title, is a work of real practical utility, containing local information that is of especial importance to men of business, and which is not always to be found when it is wanted. It is a manual of useful information, which must insure its favourable reception by the public."—*Edinburgh Courant*.

"The manifold advantages of a Directory of this kind are self-evident, and we trust the public will show their gratitude by bestowing upon it a corresponding share of their patronage."—*Edinburgh Advertiser*.

"It combines a mass of information not otherwise accessible, which recommends it as a work of great practical utility to the merchant, the tradesman, the professional man, and the country gentleman."—*Edinburgh Weekly Journal*,

"It contains an amount of useful information, such as we are safe to affirm is nowhere else to be found. It is a book which ought to be not only in every counting-house in Scotland, but in every public office in the kingdom."—*Edinburgh Weekly Register*.

"This is a work of great utility. It not only gives the seats of the nobles and gentry, but the post-towns, and all other points of interest throughout the land. We recommend the work strongly to public notice."—*Scotsman*.

"This work brings together, in clear alphabetical arrangement, a mass of useful information daily required by all classes of the community, and which it would be difficult, and to all practical purposes impossible, to find elsewhere. The compiler had peculiar facilities for the preparation of such a work, of which he has evidently availed himself to the utmost, and spared neither labour nor research in perfecting a manual of great public utility, and which cannot fail to be generally acceptable."—*Caledonian Mercury*.

"Our attention was the other day directed to this useful publication. Its value to persons in trade must be great, since it supplies a species of indispensable information which never was previously presented in a methodized form. The work merits encouragement."—*Edinburgh Observer*.

"This is a most carefully compiled and most serviceable volume. The information is nowhere else to be got, and bears the impress of great and indefatigable research, and painstaking accuracy. It gives the counties in which the seats are situated, arranged by two alphabetical tables.—First, of place; and second, of occupants, and the post-towns to which each is attached; to which is added a table showing the despatch and arrival of the mails, at the head and sub-offices throughout Scotland, with every information respecting the transmission of letters to all foreign parts. Every professional man, merchant, and agent, as well as every nobleman and gentleman, will find the work well worthy of his patronage. There is a handsome new map of Scotland, engraved by Lizars, expressly for the publication."—*Kelso Chronicle*.

**EXPLANATION:—**In the Left-Hand Table are the Years of the Century, and above each of which is the Dominical Letter corresponding with that Year. Then, opposite to the Month and Week, at the Foot of the Right-Hand Table, will be found a corresponding Letter, over which are placed the Days of the Month and Week for that Month, (distinguishing the Sundays by a different Type.) Each Blank Space in the Left Hand Table shows the year following to be Leap Year; and as every Leap Year has two Dominical Letters, the Letter above the Blank Space must be used for January and February in every Leap Year, and for the other Months, use the Letters belonging to the respective Years.

By transposing the Dominical Letters, this Calendar would answer for any Century.

### Money Order Office.

Is open for Granting and paying Money Orders, from 10 m. till 4 a., (Sundays and Holidays excepted.)

### Registration of Letters and Money Orders.

A system of Registration has been adopted, and all Letters, whether containing coin or not, can be

#### Registered

on payment of a registration fee of One Shilling, in addition to the ordinary rates of Postage on inland and Colonial, as well as on Ship or Foreign Letters, or Letters passing through France. On those for delivery within France, the charges, besides the registration fee of one shilling, will be the English rate to France, in addition to double the French rate to the place to which the Letter is addressed. A printed acknowledgment torn out of the receipt book, and stamped with the office stamp, will be given to any person registering a Letter. Registered Letters will be taken at the General Post Office, at the Receiving Houses, and by all Postmasters throughout the United Kingdom, until within half an hour of the closing of the Box for the particular Mail or Bag by which they are to be dispatched. Registered Letters bearing a sufficient number of Stamps will be considered Paid Letters, but the registration fee of one shilling must always be paid in money.

In the case of Foreign, Colonial, or Ship Letters it must be clearly understood, that Registration cannot extend beyond the Port of despatch in the United Kingdom, though parties, if they wish it, may register such Letters as far as the Port of despatch. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post Office undertaking to provide for their security till they shall have been delivered, if addressed to France, and so long as they remain in the French territory, if passing through France.

The arrangements for carrying out the system of Registration have been made with the view of ensuring the punctual delivery of Registered Letters; on their delivery the parties to whom they may have been addressed will be required to acknowledge in writing their receipt.

The system of Registration provides a secure mode of transmitting

#### Bank Notes, Bank Post Bills, Drafts, &c. &c.,

and persons having occasion to send by Post small sums will avoid risk by sending the money through the medium of

**The Money Order Office,** now carried on, on the Public account, at the General Post Office. The commission chargeable for Money Orders is

**THREEPENCE ON SUMS NOT EXCEEDING TWO POUNDS, and on sums above two, and**

**NOT EXCEEDING FIVE POUNDS, SIXPENCE.** No Order will be given for sums beyond this amount.

These modes having been devised expressly with a view to the security of property, it may reasonably be expected that all persons having occasion to transmit money will avail themselves of the opportunity of securing it, and in no case, by committing property UNREGISTERED to the Letter boxes, RISK ITS LOSS.

If, however, persons are willing to incur such risk, should the articles forwarded be Notes, or Cheques payable at sight, they should be cut in halves, and the second halves should not be dispatched until the receipt of the first has been acknowledged. The numbers, dates, and amounts should also be carefully taken.

Money Orders may be obtained at the General Post Office, and of all Postmasters, and of the Chief Deputy Postmasters, throughout the United Kingdom.

(For List of Post Towns and Principal Places, see page 320.)

\* \* \* In cases where personal attendance is inconvenient, if the Order is received by the person to whom it is made payable, and the party presenting it for payment can afford full information as to the Christian name, Surname, Address, and Occupation of the person who originally obtained the Order, payment will be made, but unless these conditions are strictly complied with, it will be refused.

No packet above sixteen ounces can be received, and if any such are put into the letter boxes, it will be immediately forwarded to the Dead Letter Office.

The following are the only exceptions to this regulation :—

1. Parliamentary Petitions and Addresses to Her Majesty.

Parliamentary Proceedings.

3. Letters and Packets addressed to or received from Places beyond Sea.

4. Letters and Packets to and from Public Departments.

5. Deeds, if sent open, or in covers open at the sides. They may be tied with string and sealed, in order to prevent inspection of the contents, but they must be open at the sides that it may be seen that they are entitled to the privilege.

6. Bankers' Parcels dispatched from London, and specially delivered at the General Post Office, under certain regulations.

Inland Letters or Packets sent unpaid, are charged double the amount of Postage to which they would have been liable had they been prepaid. The Scale of Weight in force for General Post Letters is equally applicable to Letters passing through the local penny-posts throughout the Kingdom, and to those passing through the local Posts of Edinburgh, London, and Dublin; the Regulations which restricted the weight of these latter to Four Ounces having been abolished, they are subject to the same Rules and the same Charges as General Post Letters, and must be paid in advance, or they will be liable to double the rate to which they would otherwise be subject.

In those cases where the value of Stamps on the Letter is less than the amount of the Postage to which it would be liable, if prepaid the letter will be charged double the amount of such deficiency on delivery. An Inland Letter, for example, weighing more than Half an Ounce and not exceeding an Ounce, if bearing only a Penny Stamp, will be charged Twopence on delivery.

The same Regulation applies to Letters prepaid by Money, where the full and proper rate of Postage has not been paid in advance.

REDIRECTED LETTERS are subject to additional rates of Postage, but whether the Letter

has been originally prepaid or not, they are only liable to be charged at the prepaid rate for the additional Postage, which is to be paid on delivery.

PEERS and MEMBERS of PARLIAMENT no longer dispatch or receive correspondence FREE, but MEMBERS of either House are entitled to receive, free of charge, PETITIONS to PARLIAMENT, provided that each Petition is sent without a cover, or in a cover open at the sides, and does not exceed the weight of Thirty-two Ounces.

ADDRESSES to her MAJESTY pass free.

PRINTED VOTES and PROCEEDINGS in PARLIAMENT, or of the COLONIAL LEGISLATURES, are charged—

Under four ounces.....ld.

Above four and under eight ounces.....2d.

Above eight and under twelve ounces.....3d.

and so on.

Such Votes and proceedings, whether paid or unpaid, pass at these rates between places in the United Kingdom as well as the Colonies, by PACKET. To those places to which there are no packets—New South Wales for instance—they may be forwarded "by Private Ships," at DOUBLE the above rates. They are not, however, forwarded to the East Indies, via Falmouth and Alexandria, nor to places through France, under the full rates of Letter Postage. The Postmaster-General is authorized (if he shall see fit) to delay the transmission of Printed Votes and Proceedings in Parliament for any space not exceeding Twenty-four hours from the time at which the same would otherwise have been forwarded.

NON-COMMISSIONED OFFICERS, CAPTAINS' STEWARDS, SEAMEN, AND SOLDIERS, can send and receive Letters to and from the East Indies by the Overland Mails, "via Falmouth," under the weight of half an ounce, on their own private concerns only, while they are employed in her Majesty's Service, or in the service of the East India Company, for one penny.

The Penny must be paid at the time it is put into the Post Office, and the direction must specify the class of person, and the Ship, Regiment, or Corps to which it belongs.

The postage upon Soldiers' and Seamen's Letters received from parts beyond sea, without the penny having been prepaid, is twopence in addition to the Ship Letter gratuity, if received by Private Ship.

Threepence Postage is charged on Letters addressed to Soldiers and Seamen to either of the following places :—River Gambia, Sierra Leone, Goree, Senegal, Cape Coast Castle, Fernando Po, Coast of Africa, Ascension, (Isle,) and China. To St Helena, the East Indies, and New South Wales, one Penny.

Adhesive Stamps and Envelopes.

Every Postmaster, Sub-Postmaster, or Letter Receiver, without exception, will sell the Postage Label Stamps and Stamped Envelopes to the Public at the following Prices :—

The Penny Label Stamps, at 1d. each.

The Twopenny ditto, . . . . 2d.

The Penny Envelopes, 2d for 2s. 3d. or 2 for 2½d.

The Twopenny ditto, 12 , 2s. 2d. , 3 , 6d.

Penny stamped half-sheets 2d for 2s 3d, or 2 for 2½d.

Adhesive Stamps should be placed on the right hand corner above the address of the Letter, and the stamped half sheets should be so folded that the stamps should also be in the same position; if this precaution is neglected, from the rapidity with which the duty must be performed,

such Letters will probably be taxed, and, the Parties receiving them will be put to much trouble in obtaining a return of the Postage charged.

Stamps may be used for Printed Votes and Proceedings in Parliament; if the Stamps, however, should be less in value than the proper rate of Postage to which these documents are subject, only the difference, and not double the difference, is charged.

Stamps (*provided they cover the whole Postage*) may also be used on Foreign, Colonial, and Ship Letters, &c. outwards. If any Letter, however, addressed to places beyond sea, to which prepayment is compulsory, shall bear an insufficient number of Stamps, it will be sent to the Dead Letter Office, to be returned to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries. In such cases, therefore, Letters will be chargeable with the same rates as they would be if not bearing Stamps.

All these Regulations are applicable to Newspapers in those cases where they are liable to Postage.

**BOTTLES CONTAINING LIQUID AND OTHER ARTICLES OF A BRITTLE NATURE**, should not be forwarded through the Post, as they are almost invariably broken, either by the operation of stamping or by the friction of the Mail Coaches. It is, besides, improper so to transmit such articles, as by accidents to them the seals of Letters in the bags may be damaged, the Letters mutilated, or their Addresses entirely effaced. For similar reasons, articles having SHARP OR HARD EDGES should not be transmitted through the post: and the Act 3 and 4 Victoria, cap. 96, expressly directs that no letter shall be sent by Post containing any EXPLOSIVE OR OTHER DANGEROUS MATERIAL OR SUBSTANCE.

#### Stamps.

The date shows when the letters were received at the Post Office.

The circular stamp, at the back of the letter, is used when the postage is to be paid on delivery, or has been prepaid by stamps.

### Newspapers and Supplements to Newspapers.

It is not compulsory to send Newspapers or Supplements to Newspapers by the Post, but those that are intended to be so transmitted, are entitled to pass free. All Newspapers must be sent in covers, open at the sides, and no words or communication may be printed on such papers after the same shall have been published; nor must there be any writing or marks upon any Newspaper, or the cover, other than the name and address of the person to whom it is sent; nor any paper or thing enclosed or concealed in, or with such Newspaper or the cover, nor any printed words or communication on the cover, except that News-venders ONLY may PRINT their names and addresses thereon. Newspapers may be examined by the Officers of the Post Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage which a letter of the same weight would have been liable to. And any person who shall write or enclose any thing in any Newspaper or the cover thereof, or shall print any words or communication on a Newspaper, after it shall have been published, to be sent by the Post; or any person who shall knowingly send, or cause to be sent, by the Post, a Newspaper, in respect of which any one of those offences has been committed, may, at the option of the Postmaster-General, be prosecuted as for a Misdemeanour.

Ditto, on the face of the letter, with the word "paid," when the postage has been paid at the time of posting the letter.

In all cases of complaint, whether of overcharge or of any other irregularity, the Covers of the Letters must invariably be kept and sent to the Post-Office, as affording the only means of investigating the complaint.

**LETTERS NOT TO BE DELIVERED BACK.**—To prevent the possibility of Letters being surreptitiously obtained from the Offices where put in, office-keepers are strictly forbid returning, to any persons whomsoever, Letters that may be applied for, under whatever circumstances the recovery may be urged. This is, moreover, forbid by the established principle, that the instant a letter is committed to the Post, it is no longer the property of the Sender.

**PENALTIES.**—By the 1st Victoria, cap. 36, sec. 2, any person illegally conveying Letters incurs a penalty of L.5 for every offence, and L.100 for every week the practice is continued. The Sender also incurs a penalty of L.5 for every offence, with full Costs of Suit.

### LETTERS NOT TO BE SEALED WITH WAX WHEN SENT TO WARM CLIMATES.

The practice of Sealing Letters passing to and from the East and West Indies, and other warm climates, is attended with much inconvenience, and frequently with serious injury to the Letters, in consequence of the Melting of the Wax, and adhesion of the Letters to each other.

In the case of Mails received from India, considerable delay is occasioned; and notwithstanding the greatest care is taken in separating the Letters, which, owing to the cause already mentioned, adhere closely together, many are much damaged and torn; the public are therefore recommended in all cases to use Wafers in preference to Wax, in securing their Letters sent to India or other Warm climates, and also to advise their correspondents in those countries to pursue the same course.

Newspapers pass free by the Edinburgh Local Posts, except in those cases where they shall be posted and delivered within the limits, for the time being, of the General Post Delivery, when the postage is one penny on each Newspaper.

**PRICES CURRENT and COMMERCIAL Lists** published in the United Kingdom, if duly stamped, and under the weight of two ounces, will be treated as Newspapers, and enjoy the Newspaper privileges—the sanction of the Postmaster-General having been previously obtained.

\* \* As the mere affixing a Newspaper Stamp on any new periodical publication "will not entitle it, as a matter of course, to pass free by the Post, those who may be about to publish, for the first time, any such paper, should submit a copy to the Postmaster-General, in order that it may be determined whether the publication is of a nature that will entitle it to pass free of postage."

*Clause of the Act of 1st Victoria, cap. 34, sec. 32.—*

"And be it further enacted, that in all cases in which a question shall arise, whether a printed Paper is entitled to the privileges of a Newspaper or other Publication hereby privileged, so far as respects the transmission thereof by the Post under the Post Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final."

## SHIP LETTERS.

Letters for Foreign Parts to which there are no regular Packets, are forwarded through the Ship Letter Office, London, by every outward-bound vessel; and letters can be forwarded to the Colonies and Foreign Parts, through the Post-Office, by any Ship sailing from any particular Port. But, in such cases, the letters must be specially addressed, "By Private Ship;" and, if wanted to go by any particular Ship, or from any particular Port, they must also be specified as, "Hamburg Steamer, via Hull."

The single uniform rate on Letters between the United Kingdom and places beyond Sea, when conveyed by PRIVATE SHIPS, is 8d., in whatever part of the United Kingdom the Letters may be posted or delivered. This is the rate now taken on Letters between the United Kingdom and the East Indies, &c. &c., when conveyed by Private Ships, the former distinction between these and other descriptions of Ship Letters having been abolished.

The rates of Postage on "Ship" as on other Letters are taken by weight:—

Under half an ounce,	.	.	.	1 Rate, or 0s. 8d.
Under an ounce,	:	:	.	2 Rates, or 1s. 4d.
Under two ounces,	.	.	.	4 ..... 2s. 8d.
Under three ounces,	.	.	.	6 ..... 4s. 0d.

And so on, adding two Rates for every additional ounce.

### PERSONS EXEMPT FROM SHIP LETTER POSTAGE.

The Owners, Charterers, or Consignees, (resident in the United Kingdom,) and the Owners, Consignees, and Shippers of Goods on board vessels inward-bound, are entitled to receive their Letters free from Sea Postage, to the extent collectively of Six ounces in weight, by any One Vessel to any One such Person. In the case of Vessels coming from Ceylon, the Mauritius, the East Indies, or the Cape of Good Hope, for an Owner, Charterer, or Consignee of such Vessel, the letters may be collectively Twenty ounces in weight. The Owner, Charterer, or Consignee must be described as such on the address and superscription; and in the case of Owners, Shippers, or Consignees of goods it must also appear by the Ship's Manifest, that they have Goods on board the Vessel. Such persons are entitled to have their Letters which come within the above Conditions before the Master of the Vessel delivers the other Letters in his charge to the Post-Office.

\* \* Every Person who shall, with intent to evade any Duty of Postage, falsely superscribe a Letter as being the Owner, or the Charterer, or the Consignee of a Vessel conveying the same, or as the Owner, or the Shipper, or the Consignee of Goods shipped in such Vessel, shall for every such offence forfeit Ten Pounds.

## RATES OF POSTAGE TO THE COLONIES AND ALL FOREIGN PARTS, WITH ROUTES OF MAIRS, AND DAYS OF DESPATCH FROM EDINBURGH.

All Letters for abroad, except those addressed to France, or to countries through France, are charged by weight, in the same ratio as Inland Letters, viz.:—

Under half an ounce,	.	.	.	.	.	.	1 Rate.
Above half an ounce, and not exceeding one ounce,	:	:	:	:	:	.	2 Rates.
... one ounce, .....	two ounces,	.	.	.	.	.	4 ...
... three ounces, .....	four ounces,	.	.	.	.	.	6 ...

And so on; increasing two Rates for every additional ounce.

Letters, however, addressed to France, or to countries through France, are liable to British and Foreign Rates, according to the following scale:—

		British Rates.	Foreign Rates.
Under a quarter of an ounce,	.	1	and
... half an ounce,	.	1	2
... three quarters of an ounce,	.	2	3
... one ounce,	.	2	4
... one ounce and a quarter	.	4	5

The British charge increasing *two rates of Postage* for every additional ounce, according to the scale of weight, for charging Inland Letters, and the Foreign charge increasing *one rate of Postage* for every additional *quarter of an ounce*. It must be observed, however, that the English and French modes of charging by weight are dissimilar; a Letter not being liable to an increased British rate, unless it exceed the half ounce or ounce, while an additional Foreign rate is chargeable if it actually attain the quarter, half, three quarters of an ounce, or ounce, respectively.

As an example. A letter for Sardinia, passing through France—

	Weighing under a $\frac{1}{2}$ oz.	Weighing $\frac{1}{2}$ oz. and not exceeding $\frac{1}{2}$ oz.	Exceeding $\frac{1}{2}$ oz. and under $\frac{3}{4}$ oz.	Weighing $\frac{3}{4}$ oz. and not exceeding 1 oz.	Exceeding 1 oz. and under $1\frac{1}{2}$ oz.
If paid only through France,.....	British 0 5	0s. 5d. 0 10	0s. 10d. 1 3	0s. 10d. 1 8	1s. 8d. 2 1
	Total	0 10	1 3	2 1	2 6
Or if paid to Destination.....	British 0 5	0 5	0 10	0 10	1 8
	Foreign 0 8	1 4	2 0	8	3 4
	Total	1 1	1 9	2 10	3 6
					5 0

\*\* In all cases it is advisable that letters going abroad should be specially directed by which route they are intended to be sent; in the following List the route by which they are sent, if not specially addressed, is put first after the name of the place; but, in cases where the letters are posted unpaid, which require to be paid by that route, or if they are addressed by a route which requires to be paid, they will not be returned to the writers for Postage, but will be despatched, if possible, by other routes unpaid.

The letter *P.*, denotes when the Postage must be paid in advance.—*O.*, when the payment of the Postage is Optional. *C.*, when the British Rate must be paid to Calais; and *D.*, when the Postage may be paid to Destination.

ABYSSINIA.—No regular Mails. Letters should be addressed to the care of an agent at "Malta," as direct opportunities seldom occur.

AFRICA.—To places in Africa not mentioned in this list, there are no regular Packets. See SHIP LETTERS, page 331.

ALABAMA.—One of the United States.

ALGERIA or ALGIERS. See FRANCE.

ALEXANDRIA.—By monthly closed Mails via Marseilles, by which all letters are forwarded unless otherwise directed, 5th of each month. O. or D. British, 1s 3d; foreign, 5d. ## MAIL-COACH ROUTES FROM EDINBURGH,

SHOWING THE ARRIVAL AND RETURN OF THE MAIL AT EACH OF THE  
UNDER-MENTIONED PLACES.

THE following LISTS will, it is hoped, be found of much importance to the Public, as showing the course of Post, and enabling persons to avail themselves of Mail Conveyances. A very trifling calculation will also enable them to ascertain the time of the Mail passing any of the intermediate places. The Third Column shows the time of the Mail passing, and the last that of its return to Edinburgh. The return of the London Mails is calculated by London time.

## EDINBURGH AND GLASGOW RAILWAY.

## THOMAS HOWEY &amp; CO.

HAVE much pleasure in intimating to the Merchants, Traders, and Public, that they continue to forward GOODS as formerly by the EDINBURGH AND GLASGOW RAILWAY, at the same rates of carriage as charged by the Railway Company.

From the superiority of this mode of transit for Goods, their long experience as Carriers, and known punctuality of delivery, they hope to merit a continuance of public patronage.

Goods forwarded to meet the steamers for Liverpool, Dublin, Belfast, &c., and to all parts of the West of Scotland.

As formerly, their waggons continue to run thrice weekly with Goods between Edinburgh, Kelso, Coldstream, Berwick, Wooler, Alnwick, Morpeth, and Newcastle.

Apply in Kelso, to John Purves, Roxburgh Street; in Newcastle, to Carver & Co., Bird-in-Bush Yard, Manor Chase; in Wooler, to Robert Strothers. Orders received in Edinburgh, by Dr M'Farlane, 17, North Bridge; James Kerr, grocer, 87 Nicolson Street; George Murray, grocer, 15 Howe Street; at Steele's Coach Office, 2 Prince's Street; Old George Inn, Bristol Street; and at Timber Bush, Leith.

P. S.—Spring Vans or Waggons with careful men sent to any part of the city to lift furniture, &c.

### FIRE DEPARTMENT.

THE allowance of Ten per Cent, which has been made on the Premiums paid on Policies of Seven Years' standing, is the surest proof of the unprecedented success of this Institution.

---

### LIFE DEPARTMENT.

Tables have been calculated expressly for this Institution, and independent of a reduced rate of Premiums, as compared with other offices having a Subscribed Capital, persons assured for the term of life will be entitled, at the end of every seven years, to one moiety of the Profits of the Company, after a deduction of such sum per annum for the guarantee of the Capital, as the Directors may think reasonable, the extent of which is, however, limited by the deed of settlement.

The share of the Profits to be so allowed to the Assured may be applied, either by adding to the amount of their respective Policies such reversionary sums as are equivalent to such profit, or in reduction of the Premiums thereafter to be payable on such Policies, provided such option be declared in writing within three calendar months after the division shall have been declared; but if such option be not so declared, such share of Profits will be added to the amount of the Policies.

A Bonus was declared in June 1829, exceeding one per cent per annum on the sums insured, on an average of the different ages; and two subsequent Divisions of nearly equal amounts were made up to Christmas 1835 and Christmas 1842. On an average of the three Divisions, the Reversionary Bonuses added to the several Policies at the end of every seven years, amounted to about 27 per cent on the total Premiums paid thereon during those seven years, and the whole amount of Bonuses allotted at the three Septennial Divisions exceeded £530,000.

If any person assured with this Company for seven years, or for life, should die within thirty days after the Premium should become due, such Assurance is to be valid in case the Premium be paid within such period of thirty days.

No additional Premium will be required from Military Men, unless when called into actual service. No charge will be made for Entrance-Money, Admission Fees, or for Policies beyond the cost of the Stamp.

# ASYLUM FOREIGN & DOMESTIC LIFE OFFICE,

70, CORNHILL, & 5, WATERLOO PLACE, LONDON.  
ESTABLISHED IN 1824.

"THE Asylum (says the Historical Sketch of the various Life Offices) was instituted for the express purpose of assuring deteriorated lives—lives rejected by other offices, and lives avowedly diseased. To this unprecedented but most useful business it was at first restricted; and the Philanthropist will say it ought to succeed."

"Soon after its establishment, this Office added to its original business the assurance of selecting lives on lower terms and under a greater variety of modes than any other Office; and by thus ringing changes on *equivalents*, holds out attractions well suited to the taste and circumstance of the public at the present day."

## DIRECTORS.

J. Clarmont Whiteman, Esq.	George Palmer, junior, Esq.	Thomas Fenn, Esq.

*Medical Referee*—Allen Thomson, Esq., M.D. F.R.C.S., Professor of the Theory of Physic in the University of Edinburgh.

THE following are among the advantages which this Company offers to the Public:—

1st, Very low even rates of Premium, payable annually, half-yearly, or quarterly.

2dly, The facilities afforded to all classes of insurers, by having it in their power to adopt either an *even rate* for life, a choice of *ascending scales*, or a *descending scale*, as may suit the convenience of parties; or, further, an *alternative plan*, by which one-third of the premium (on policies effected for the whole of life at the *even rate*) may remain unpaid, and be deducted from the sum insured at the end of life, with interest at the rate of four per cent per annum.

3dly, The adaptation of the Tables to any service, or to any country in the world; and it will be found that in foreign Insurances also, the extra rates charged are considerably lower than those of other offices.

4thly, The Insurance of persons of advanced age, infirm health, or suffering from Chronic disease; and the undertaking of risks that might be rejected by other offices, at moderate rates, deduced from very extensive and accurate observations.

5thly, The great facility afforded for the transfer of policies; the Directors, instead of requiring assignments of these to be executed, in every case issuing a new policy in name of the intended assignee, on surrendering the former, and merely paying the price of the new stamp.

The following are selected from the Even rates:—

## FIRE AND LIFE INSURANCE AND ANNUITIES.

*Capital, ONE MILLION Sterling.*

THE whole paid up and invested, and entirely independent of the amount of premiums received; thereby affording to the Assured an *immediate available fund* for the payment of the most extensive losses, and without liability of Partnership, which the Directors consider to be highly important to those who effect Insurances in the capacity of Trustees, or otherwise in the performance of a specific trust or duty.

Insurance may be effected with this Company to the extent of £10,000 on a single life, if approved.

(By order of the Board,) *JOHN CHARLES DENHAM, Secretary.*

## LIFE DEPARTMENT.

**A** THIRD Valuation of the Company's Life Risks was completed in June 1838, and the Directors have great satisfaction in stating its results; the Tables annexed show the additions made to the Company's Life Policies. If parties will take the trouble of *comparing the Bonus* to which a Policy in this Office is entitled, with what would attach to a Policy of similar standing at other Offices, (a comparison that may very readily be made, as the printed Proposals of Assurance Companies generally show the amount of periodical additions,) it will be seen that such comparison is very favourable to this Company. The next septennial addition will be made at Christmas 1844.

The Directors having recently had under their consideration the rates of Premium for Life Assurances, have determined to reduce them considerably for the younger ages, so far as they refer to Assurances made for shorter periods than the whole term of life. It is confidently trusted that this reduction in the short term premiums, will be found highly useful to such parties as are obliged to insure their lives to perfect securities for temporary loans of money; inasmuch as the saving in the premium of Assurance will, in some cases, be nearly 15 per cent.

**T**HE IMPORTANCE of FIRE INSURANCE is now so generally understood, that it is unnecessary to demonstrate its value by illustration or example; but it, nevertheless, is of great importance to Individuals possessed of Insurable Property to inform themselves, by enquiry and comparison, in what office it is most advantageous for them to effect their Assurances, looking at once to the stability, character, and rates of the various institutions carrying on the business of Fire Insurance.

Since last Return of Profits to the Assured, Policies covering property to the extent of upwards of **FOUR MILLIONS STERLING** have been **ADDED** to the business of this Company; and, as the assured participate in the profits to the extent of 3-4ths, this increase becomes of interest to them, from the circumstance that, with the trifling exception of £53,452, it consists entirely of Insurances of the three first or ordinary classes, which are known to form the profitable part of the business of Fire Insurances. **THE ADVANTAGES WHICH HAVE LED TO THIS INCREASE ARE—**

**First,—THE LARGE INVESTED CAPITAL** of the Company.

**Second,—The high character** which the Incorporation has maintained during its long existence (124 years) **for a PROMPT AND LIBERAL SETTLEMENT OF CLAIMS.**

**Third,—THREE-FOURTHS OF THE FREE PROFITS** of the business being Septen-nially returned to the Assured, who are guaranteed from responsibility by the whole Body of Proprietors, and by an invested capital greatly larger (with one exception) than that of any other Scotch Company, even those established for carrying on both Fire and Life Insurance; and thus, although a Proprietary Company, the FRIENDLY affords the advantages of a Mutual Insurance Company, without the concomitant responsibilities to which Members of such Institutions may be liable, if not under judicious management.

*Fourth.—A RETURN OF TWENTY PER CENT* was made to the Assured from 1832-39 and that Return was not confined to Policies current during the whole of that period, but extended to the total amount of Premiums received during these years, whatever the duration of the Insurances.

*No expense attends the Transfer of Policies from other Offices.*

THIS Company presents to the assured the advantages of a subcribed Capital, moderate Rates of Premium, and a large proportion of Profits. A general statement of the affairs of the Company is submitted every five years; and of the Profits ascertained to have accrued, four-fifths are apportioned among the Assured, for the whole term of life, of one or more years standing, in proportion to the amount of Premiums paid by each, and appropriated (at the option of the Assured) either as a Reversionary Bonus, payable when the Policy becomes a Claim, or its value applied to the reduction of subsequent Premiums. The Reversionary Bonus for the five years ending 31st December 1841, averages 31 per cent on the Premiums paid during the preceding five years, and the equivalent reduction of Premiums for the next five years averages nearly 17 per cent. Insurances may be effected payable at the age of 60, or at any other fixed period.

**LIFE ASSURANCE.**

THIS CORPORATION RANKS AMONGST THE FIRST AND MOST FLOURISHING COMPANIES IN SCOTLAND; supported by a large and influential body of Proprietors; giving to the Assured every advantage hitherto offered to the Public.

The PREMIUMS are moderately rated at all ages; and are so modified, by ascending and descending scales and otherwise, as to suit the object of every Insurer, at the least immediate outlay, whether to secure a debt, provide for his family, or to convert income into capital for his own use.

When an Insurance is for the WHOLE PERIOD OF LIFE, ONE-HALF OF THE PREMIUMS ONLY REQUIRE TO BE PAID FOR THE FIRST FIVE YEARS AFTER THE DATE OF THE POLICY, the other half may remain unpaid, subject to the payment of interest at five per cent annually, to be deducted at death, or may be previously paid off at convenience.

PARTICIPATING POLICIES share in the Profits without payment of Entrance Money, or incurring the risk attending Mutual Assurance.

BONUSES may be either added to the sum Insured, or applied in reduction of future Premiums. The last Bonus (declared December 1837) averaged thirty-seven per cent on the Premiums paid.

## [Scottish Widows' Fund and Life Assurance—Continued.]

THE large accumulated Capital and Annual Revenue of this Institution, (which, as a Life Assurance Association, is the oldest and most extensive in point of business in Scotland,) enables the Directors to offer to the Public the full advantages arising from the principle of its constitution, combined with the utmost measure of security.

The accumulated Fund now amounts to upwards of ONE MILLION FOUR HUNDRED AND EIGHT THOUSAND POUNDS STERLING, and the Annual Revenue to more than TWO HUNDRED and ELEVEN THOUSAND POUNDS STERLING *per annum*, and both are in a state of steady and rapid increase.

The last periodical investigation of the Society's affairs took place at 31st December 1838, when large additions were declared to the Assurances entitled thereto. By way of illustration of these, the following particulars are given of the claim arising under a Policy opened in the year 1820, if emerging by the death of the party Assured, after payment of his Premium for the current year:—

Sum originally Assured,	.	.	.	.	£3000 0 0
Vested Additions up to 31st December 1831,	.	.	.	£540 0 0

Contingent Prospective Additions applicable to the years 1839 and 1844 inclusive, being nearly 3 per cent, per annum, on the original Assurance,	.	.	484 5 6		
				1519 17 6	
Total sum payable,	.	.	.	£4519 17 6	

The Ordinary Court of Directors meet weekly for the purpose of receiving and deciding on applications for Assurance, which are now granted to the extent of £5000 on approved single or joint Lives.

**T**HIS Company was established in 1825, and consists of nearly 700 partners. The business has been carried on with prudence and success; and, as an index of this, the Shares have for many years been sold at One Hundred and Fifty per cent above the original cost.

**FIRE INSURANCE.**

The usual moderate premiums of 1s. 6d., 2s. 6d., and 4s. 6d. are taken for Common, Hazardous, and Doubly Hazardous Risks.

**LIFE INSURANCE.**

The Company grant Assurances under a variety of forms; that is, they have Tables calculated which may be used by persons Insuring according to their different circumstances. Thus—

Assurances may be effected for any limited time, or for the whole duration of life. The Premiums may be paid yearly, half-yearly, or quarterly. As it is often an object for many persons to pay off their Premiums within a certain time, instead of having them spread over every year during which they may live, tables are computed to show the amount to be paid in one payment, in 5, 10, 15, or 20 years. (See Table A.)

To those desirous of **PARTICIPATING IN THE PROFITS** of the Company, while they are secured from all risk by its Capital, the moderate Premiums required, (See Table B,) and the **GREAT prospective advantages** which are certain to accrue, present inducements of the most substantial nature. The *whole Profits* resulting from this department will be divided among the Policy Holders, except a small proportion which the Directors will apply to the expense of management.

**THE SUM ASSURED MAY BE MADE PAYABLE IN THE LIFETIME OF THE PARTY.** (See Table C.) The advantages which attend this last form of the contract of Insurance are too evident to require much illustration. It enables a Creditor ensuring his Debtor's life to calculate with certainty on recovering his debt at a *fixed period*; and while, in so far as the Assured himself is concerned, this system has all the advantages of the ordinary forms of Assurance, it possesses this peculiar feature, of enabling every one to provide for the support of *himself*, as well as those who may be dependent on him, during his declining years.

Assurance is most particularly advantageous in **FAMILY SETTLEMENTS**, and may be made of great consequence to the Husband, where it is his desire to receive payment of his Wife's portion at Marriage, instead of having it vested in Trustees, to be applied at his decease for behoof of the family.

**ANNUITIES.**—This Company offer Annuities as high as the nature of their Investments will justify, while their subscribed Capital and large Sinking Fund afford a sufficient guarantee for the settlement of every claim.

**ENDOWMENTS TO CHILDREN.**—By setting aside the trifling Annual Premiums which are required, Parents may secure for their sons sums sufficient to enable them to begin life—to their Daughters, Marriage Portions.

**LOANS** are granted upon the security of Life Policies, immediately upon their being effected; and to Heirs of Entail, upon the Security of the Rents of their Estates.

**T**HIS is the ONLY OFFICE in which the benefit of MUTUAL ASSURANCE and PARTICIPATION IN THE WHOLE PROFITS is combined with MODERATE PREMIUMS.

Until its establishment, an Assurer was compelled either to see the profits of his Assurance go to raise the shares of a Proprietary Company; or, in joining a Mutual Assurance Society, to pay a rate of Premium confessedly exorbitant and disproportioned to the risk.

The PREMIUMS have been deduced chiefly from the Government Observations for Males, with such addition as to provide for perfect security. At early and middle ages, the premium charged by most Offices for £400, will secure about £500 in this.

The PROFITS are wholly divisible among the Members, and that on a new and equitable principle, peculiarly favourable to good lives.

By THE PRACTICE OF OTHER OFFICES, the representatives of a person assured for £1000, and dying in six or eight years after entry, will carry off not only the sum contracted for in his Policy, but a further sum in name of profit on his Assurance, although the premiums which he has lived to pay will not amount to one-fourth of his original Assurance, and therefore the common fund has already been loser by him to the extent of more than £750. For the original sum assured—or for this first loss of £750—the Office is no doubt justly liable, as it forms the very ground of the contract; but it is not, or ought not to be, liable for more—for a calculated profit of £150 or £200, which can only be realized, if ever realized at all, out of the excess on the contributions of others, to their manifest detriment in the mean time, and possibly to their ultimate loss.

IN THIS OFFICE the Surplus is reserved entire for those Members who survive the period at which their Premiums, with accumulated interest, amount to the sums in their Policies. Being thus divided among a comparatively small number, the share, or bonus falling to each, will necessarily be much greater than by the usual mode.

The Society has, throughout, been very successful, both in extent of business, and in the rate of mortality among its members, as evinced by the statements in the Annual Reports.

*The Premiums may be made to cease after a limited number of payments. Those payable for 21 years only, will be found nearly the same as most Offices require for the whole of life.*

THE Importance of LIFE ASSURANCE is now so well understood, that it is considered unnecessary to detail the many Benefits which it secures to all who take advantage of it.

The System adopted by this Company embraces every description of Insurance to meet the wants of parties. The rates have been calculated from the most approved Table of Mortality, and will be found *exceedingly moderate*. The investigations of the Company's business take place every seven years, when *four-sixths of the profit* will be apportioned to each policy of five years' standing and upwards entitled to participate, and that according to the capital sum assured, and the number of years such policy has existed. One-sixth will be set aside as a guarantee fund for the Life Policy-holders, and eventually apportioned amongst those entitled to participate, the other sixth being added to the funds of the Company, in consideration of the Proprietors having pledged their subscribed and accumulated capital, in addition to the profits of the Life department, as a further guarantee to the Life Policy-holders. This Company does not profess to hold out Inducements to the Assured which cannot be realized; but acting on the principle of charging no more than a remunerating rate of premium for the risk run, it accommodates the Insured by accepting the premium in a variety of ways to meet their Convenience, and is not behind any respectable Establishment in making its policies as Serviceable to the holders as it is possible to do.

The following are a few of the advantages to be derived by persons insuring with this Company.

1. Perfect Security to the Assured.
2. Rates of Premium as low as is consistent with safety.
3. Premiums payable yearly, half-yearly, or quarterly.
4. Twenty-one days allowed for payment of the Premiums.
5. Liberty to the Assured to pass in time of peace from one part of Europe to another by sea or land, without payment of additional premium.
6. Loans granted on Security of Policies.
7. The Strictest Secrecy observed in all cases transacted with the Company.
8. Liberal allowances for the surrender of Policies.
9. Claims payable three months after death.
10. No Entrance-money charged.

## MUTUAL LIFE ASSURANCE.

**SCOTTISH AMICABLE  
LIFE ASSURANCE SOCIETY.**

HEAD OFFICE, 141, BUCHANAN STREET, GLASGOW.

THE Constitution and Regulations of this Society insure to its Members the full benefits which can be derived from such sums as they are willing to devote to the important duty of LIFE INSURANCE. The whole Profits are secured to the Policy-holders by the Mutual System on which the Society is established: and their allocation to the Members is made on fair, simple, and popular principles.

It is provided by the Rules, that the whole Directors, Ordinary and Extraordinary, shall be Members of the Society, by holding Policies of Insurance for Life with it, of more than three years' standing. This rule secures to the Public that those Noblemen and Gentlemen who appear as Directors of the Society, have practically approved of its principles.

## LIFE ASSURANCE.

THIS Institution, which combines every advantage of a Scotch and an English Office, while it hopes to receive the *especial patronage of Episcopalians*, rests its claim to the support of the *Public generally*, on the sound and equitable principles of its scheme.

Assurers may adopt either the participating or non-participating Table of Rates, they being, in the former case, *guaranteed* by a responsible and wealthy Proprietary in *four-fifths* of the profits.

The Institution transacts business of every description connected with Life Assurance, including the granting of Annuities and Endowments for existing and future Children; and by the Deed of Settlement it is declared to be amenable, in the *Scotch Courts of Law*, as to all Insurances effected in Scotland,—which are likewise subject to the *Scotch Laws of Succession*.

THIS Society was founded for the purpose of securing provisions payable DURING LIFE, and not, as is ordinarily the case with Assurance Companies, AFTER DEATH. This object is effected by the Mutual Contributions of members to schemes opened in each year, to be divided respectively at the end of certain fixed periods amongst the survivors of each scheme. By thus combining the advantages of *Survivorship Life Assurance* with the improvement of money by judicious investments, it presents the most advantageous method of providing for any contingent event.

The leading objects of the Society are—

To provide Endowments for Children.

To secure a provision for after life.

To accumulate a Fund for any event contingent upon Survivance.

The Certificates of Membership form very valuable sources of credit.

Among the advantages offered by this Society, it is worthy of notice, that members failing to continue their annual contributions, do not incur a forfeiture of what they have previously paid, but are allowed to participate in the Fund to the extent of the value of the premiums paid by them, under a small deduction, provided they survive the period of division.

Detailed Prospectuses, containing Specimen Tables of the Rates of Contribution, and all information, may be obtained on applying at the Head Office, or any of the agencies.

**F**OUR-FIFTHS of the PROFITS made by this Company will be appropriated to Policies every FIVE YEARS, without the Insured incurring the personal responsibility attached to Mutual Societies.

THE NEXT APPROPRIATION of Profits will be made in the year 1846, and persons who now Insure will participate therein, according to the number of Annual Premiums paid in the interval.

THE ADDITIONS made to Policies of 20 years' standing on the 31st of January 1841, were £35 per cent on the Sums Insured; and these additions, when surrendered to the Company, yield a *Reduction in Premium for the Remainder of Life*, varying from £77 to £38 per cent, according to the Age of the Life Insured.

LOANS are granted by the Company on Policies effected here, which have acquired a present value exceeding £50.

THE system of Life Insurance in this Country has assumed such importance, that to enlarge on its advantages would be altogether superfluous. The British public have, happily, been long familiar with a scheme, which, by a small annual sacrifice, secures from poverty the children and relatives of persons whose incomes are wholly or chiefly dependent on their lives;—which is capable of a very useful application to marriage settlements;—and which is eminently calculated to give stability to a vast variety of important transactions. It is not wonderful that a plan, which embraces so many beneficial objects, should have powerfully engaged the public attention, and mixed itself, widely and intimately, with the whole business of life.

The PELICAN LIFE INSURANCE COMPANY has, for upwards of forty years, held a distinguished rank among the numerous establishments connected with these great purposes. The confidence the Directors have so long enjoyed, they are naturally ambitious to retain. They have accordingly instituted a careful enquiry into the business of the office since the establishment of the Company in 1797, and principally upon this experience, they have constructed an entirely new table of rates, which they now submit to the Public.

In addition to the table already alluded to, which offers as low a rate of premium as the Directors believe to be consistent with the security of the Assured, they have, in consequence of the strong bias manifested by the public to the system of a return of premium or addition to the policy, constructed another table at a somewhat higher rate of premium; the Assurers under which will form a distinct branch of the Company's business, to commence from the 3d day of July 1840;—and the Directors propose *thenceforth* at the end of every seven years, after a valuation of the outstanding risk in this class, and after a reasonable deduction for charges and management, to return to the then holders of policies, *on this scale* of premium, not less than a moiety of any surplus that may then appear, to be ascertained and apportioned by the Directors; and, thereupon, the holders of policies for whole life which have been in force for that period, shall, at the option of the Assured, (to be declared at the time of effecting the insurance,) be entitled to have the sum that at each septennial valuation be appropriated to their respective policies, applied according to either of the rules following, viz:—

1st, BY AN IMMEDIATE PAYMENT OF THE SUM SO APPROPRIATED; OR,  
 2dly, BY AN EQUIVALENT REDUCTION IN THE FUTURE ANNUAL PREMIUMS; OR,  
 3dly, BY AN EQUIVALENT ADDITION TO THE AMOUNT OF THE POLICY (AND PAYABLE THEREWITH.)

The PELICAN LIFE INSURANCE COMPANY insure, on equitable terms, the lives of persons resident abroad, or about to proceed to foreign climates; and, in this department, the PELICAN OFFICE presents great advantages to officers of the Army and Navy, as no extra charge is made for home service. The moderate addition required from such individuals, for change of climate, may be covered by an average rate, or the rate for any particular destination may be made the matter of special agreement, on taking out the policy; the Insurer paying only the home premium until the contingency contemplated shall happen. In this respect, therefore, the PELICAN OFFICE offers an advantage that recommends itself equally to persons assuring their own lives, and to solicitors, agents, and others, whose object is indemnity. The Directors are, at all times, willing to purchase policies on the most liberal terms—an arrangement obviously desirable, when the object of an Insurance has been effected.

THIS Company was instituted exclusively for the purchase, by a present advance, of Reversionary Rights—absolute or contingent—Annuities or Liferent Interests—Policies of Assurance on Lives—Shares in Government and Private Tontines—and in general of all rights extending over Property, Funded or Real, or otherwise well secured—the emergence, or term of payment of which is future, or depends upon some contingency of life or survivorship.

Every man of business must have found, in the course of his experience, much difficulty in securing or realizing those rights belonging to his Clients, which, among the manifold relations of society and individuals, now so frequently arise, under Contracts of Marriage—Entails—and other Destinations, Family Settlements, and similar Deeds, where limited rights of Liferent and Fee, depending in many cases on complicated contingencies, are secured to Parties having separate and frequently conflicting interests.

Sometimes it is of great importance to parties who have the undoubted right of succession to valuable property, to be able to obtain its fair present value. To such parties this Company would give a present advance, or an Annuity till such time as their right of succession opens, in lieu of a sum to be paid out of the property when succeeded to.

To others, again, who are engaged in Trade, going abroad, &c., it may be very beneficial to be able to realize the value of Provisions, Legacies, or other Reversions, of which they cannot receive payment at present, owing to their being liferented, or from other causes:—or they may wish to receive a Capital sum in place of an Annuity payable to them. All such Reversionary Property is purchased by this Company.

The great advantage attending such Companies as the NORTHERN REVERSION COMPANY is, that having numerous transactions in Reversionary Properties, it is able to apply to all the accurate observations which have now been made on the duration of human life, and thus to give the true value of any reversionary or liferent right; while parties having such rights to dispose of, and wishing to realize their fair marketable value, have the means of doing so afforded to them through the medium of this Company, without undergoing the publicity, expense, and delay, and very frequently the disappointment, attending a Public Sale.

Forms adapted to various Cases have been prepared for enabling Parties, or their Agents, to tender proposals of sale; and the Manager will give every information to parties wishing to transact with the Company.

## THE LIFE ASSOCIATION OF SCOTLAND.

FOR REDUCING THE PREMIUMS OF LIFE ASSURANCE TO THE LOWEST POSSIBLE RATE CONSISTENT WITH SECURITY; AND EXEMPTING THE ASSURED FROM THE RESPONSIBILITIES OF PARTNERSHIP.

INCORPORATED BY ROYAL CHARTER.

HEAD OFFICE,—No. 2, HANOVER STREET, EDINBURGH.

FOUNDED ON THE ORIGINAL MODEL OF THE LONDON LIFE ASSOCIATION.

**"Distributes the Profits with more regularity and justice than any other."**—**BABBAGE.**

**"Eminently calculated to reduce Life Assurance among its Members to the lowest possible scale."**—**BLAYNEY.**

*The distinctive characteristic of this Association is, that new Members are enabled to enter, in all stages of its progress, without being placed under any disadvantage by the older classes of Policy-holders.*

**T**HIS is a most important consideration with intending Assurers. In all the old Societies, which have proceeded on the principle of giving great and preponderating advantages to the older classes of Policy-holders, all equality betwixt them and new Entrants has now been destroyed. This is a consequence which must take place in the progress of the Institutions, and Assurers are now daily becoming more aware of the fact. The striking *effects* of the inequalities in this respect, as exemplified in the present position of two of the most respectable offices of this class, are fully pointed out in the "Exposition of the Principles and Practice of the Life Association of Scotland," recently published and circulated among the Members. After giving a Tabular view of the Bonus additions of the Equitable and Rock Offices, the exposition proceeds thus:—

**"The results of this system of unequal distribution will appear very remarkable to those who have not devoted considerable attention to the subject. Thus, on a Policy for £1000 opened with the EQUITABLE in 1806, the present Bonus addition is £200; on a similar Policy opened in 1823, the present Bonus is only £25; and, on a Policy opened in 1824, no addition whatever has been declared. It will be seen how severely the older press on the younger classes of Policy-holders, and that, if the former receive great advantages, it is entirely at the expense of new Entrants."**

**F**THE principle of the "LIFE ASSOCIATION OF SCOTLAND" is to avoid these and similar inequalities in the distribution of the Surplus Fund. Every member is, in the first instance, called on to pay a just contribution, proportioned to his age at entry, and is entitled, after paying five annual Premiums, to participate with all the other members ANNUALLY thereafter, on the footing of perfect equality, without any distinction as to the duration of the Policy or otherwise. Each Policy-holder thus receives back every year just that proportion of his Premium which, in the progress of the society, shall appear to be more than requisite for meeting the claims; and it is thus that this principle of allocation, in the words of Mr Babbage, "distributes the profits with more regularity and justice than any other;" and, according to Mr Blaney, "is eminently calculated to reduce the expense of Life Assurance to the lowest possible scale;" while at the same time it secures the permanent stability and integrity of the Institution.

The other improvements which the Association, by having taken advantage of the past experience of offices, has introduced into the practice of Life Assurance, are fully detailed in the "Exposition" already referred to, copies of which may be obtained *gratis* by the Public, on application, by letter or otherwise, at the Head Office, or any of the Agencies.

**Bankers—BRITISH LINEN COMPANY, AND UNION BANK OF SCOTLAND.**

**THE SYSTEM** which has been adopted by this Company for their **LIFE ASSURANCE BUSINESS**, will be found to embrace *various Improvements* suggested by the **EXPERIENCE** of the *Older Offices*; more particularly with reference to the important subjects of the **PERIOD** and **MODE** of DIVIDING PROFITS, and the adoption of a **MODERATE** and **EQUITABLE SCALE** of PREMIUMS.

## ITS DISTINGUISHING FEATURES ARE :—

**ANNUAL ASCERTAINMENTS AND DIVISION OF PROFITS.**—The amount of Profits to be *annually divided* is ascertained on the average of those realized during the *preceding Eight Years*; thus obviating the risk of the inequalities and fluctuations otherwise incident to short period investigations, and placing all Assurers on a *more equal footing* than is compatible with the *Septennial, Triennial, and other Periodical Divisions* commonly in use.

**RIGHT TO PARTICIPATE.**—The *usual restriction* of the Right of Participation to Policies of a certain number of years' standing, *has not been adopted* by this Company. **ALL ASSURERS** on the *Participation principle* will therefore be entitled, at each annual division, to a proportional share of the Profits arising in that Department.

**EXTENT OF PARTICIPATION.**—*Four-fifths* of the Profits arising on Assurances effected on the *Participation principle*, are *divided annually* among the Policy-holders of that class—free of any deduction for Expenses of Management or Guarantee Fund—the latter object being sufficiently provided for by the Capital of the Company.

**SUBSTITUTION OF ONE LIFE FOR ANOTHER.**—Policy-holders are permitted to *substitute* another life for the one named in the original Policy. This is a privilege which will be found of great value to parties desirous of discontinuing their Assurances, from the increased facilities which it affords for realizing, *by sale or otherwise*, the benefits arising from their previous payments.

**MODERATE RATES OF PREMIUM.**—Adapted to Assurances either on the **PARTICIPATION** or **NON-PARTICIPATION PRINCIPLE**, and which may be paid either *yearly, half-yearly, or quarterly, at an Equal Rate*, or according to *Ascending or Descending scales, &c. &c.*

The subjoined Specimen of the Premiums required for the Assurance of £100, payable at death, *with or without participation in profits*, will show the peculiarly liberal terms offered by this Company.

A MONG the advantages offered by this Company are:—

An ample subscribed Capital, invested in such a manner as always to be immediately available when the claims by death arise.

A most economical set of Tables—computed expressly for the use of this Institution, from authentic and complete data; and presenting the lowest Rates of Assurance that can be offered without compromising the safety of the Institution.

Increasing Rates of Premium, on a new and remarkable plan, for securing loans or debts; a less immediate payment being required on a Policy for the whole term of life than in any other Office.

Policies effected by persons on their own lives, not rendered void in case of death by duelling or by the hands of justice. In the event of suicide, if the Policy be assigned to a bona fide creditor, the sum assured paid without deduction; if not so assigned, the full amount of Premiums returned to the family of the Assured.

Policies revived without the exaction of a fine within twelve months, on the production of satisfactory evidence as to health, and payment of interest on the Premiums due.

Premiums may be paid either Annually, Half-Yearly, or Quarterly, in one sum, or in a limited number of payments.

Age of the Assured in every case admitted in the Policy.

All claims payable within one month after proof of death.

All claims on Policies effected on the lives of persons resident in Scotland, are payable at the office of the Edinburgh Agents, where all notices and citations regarding such Policies may be duly served—the Company for these purposes fixing the office of their Agents in Edinburgh as a legal domicile in Scotland.

## FOR FIRE, LIVES, AND ANNUITIES.

### LIFE DEPARTMENT.

THIS Company effect Life Insurances on equitable principles, with entire exemption from the liability of Partnership.

A large Capital, subscribed by the Proprietors, forms the security of the Assured.

The Premiums may all be paid at once, or in any given number of years, *in the option of the party making the Insurance*—a plan, the advantages of which are strikingly obvious, as it affords an opportunity of securing a certain provision, independent of all after risks from failure in paying the Premium, or of paying a larger Premium while the means of doing so may be more at command; or the Premiums may be paid quarterly, half-yearly, or yearly, as may suit the convenience of those holding the Policies.

Each Policy for Life is entitled to share the surplus profits, which are declared every Seven Years.

All transactions in the Life Department are considered strictly confidential.

Prompt payment of Claims is made three months after proof of death.

The following rates of Insurance for single Lives are given as specimens from the Tables. The rates for *One* and *Seven* Years, and for the whole period of Life, without profits, will, it is believed, be found, on comparison, very advantageous to the Public; while insurances for the whole period of Life, are equally so, if the benefit to be ultimately derived from a participation of the Profits be taken into account:—

Age.	Premium per cent for an Assurance for One Year.	Premium per cent for an Assurance for Seven Years.	Premium per cent for an Assurance for Life.

### FIRE DEPARTMENT.

INSURANCES of every description of Property effected at the usual rates, corresponding to the risk. The practice of this Company has been, for upwards of a century, to return the profits on Policies effected for Seven Years. Only *Six* Years' Premium and duty are charged, and the Government duty may be paid annually, or in one payment.

The stability and character of the LONDON UNION SOCIETY have been satisfactorily proved by the test of upwards of a Century, during which long period claims have been invariably discharged with promptness and liberality.

**T**HIS OFFICE offers to the Public the security of a **LARGE SUBSCRIBED CAPITAL** as a **GUARANTEED FUND** against any contingencies, in combination with all the advantages resulting from *participating in the Profits of the Company* on the **MUTUAL INSURANCE PRINCIPLE**; **FIVE SIXTHS** of the ascertained **PROFITS** in the participating scheme are added every fifth year to the amount in each policy of this class, in proportion to the sum insured, and the number of yearly premiums that have been paid thereon. By the plan thus adopted in allocating the surplus funds, no Office, whether Proprietary or Mutual, can with safety hold out greater prospects of future benefits to the Assured.

For the accommodation of those who prefer a certain future benefit to a prospective bonus, the Company grant Policies at **DIMINISHED RATES**, without any participation in the profits.

In the case of Insurances for life on the Non-Participation scale, *one-half* of the premiums may remain on credit, interest at five per cent being payable in advance.

Among the other branches of business transacted by the Company are:—

Insurances payable on the party arriving at sixty years of age, or at death if it occur before then.

[*Scottish Union Fire and Life Insurance Company—Continued.*]

### FIRE DEPARTMENT.

THIS extensive Company, with a Subscribed Capital of FIVE MILLIONS STERLING, divided among 5000 Proprietors, was established in 1824—the great conflagrations of that year having led the Public to found a National Institution upon a wide and substantial basis. It appears from the last Government Returns, that property has been assured with this Company against Fire, last year, to the extent of upwards of SIXTEEN MILLIONS OF POUNDS STERLING, which large amount, exceeding that of Seven other Scottish Companies *taken together*, sufficiently proves the high estimation in which this Establishment is held by the public.

Losses by Fire, when satisfactorily ascertained, are IMMEDIATELY PAID; and the Directors can with confidence appeal to *Several Thousand* individuals who have from time to time obtained from this Company the most satisfactory remuneration for their accidental losses.

The rates of Premium are very moderate, being only *One Shilling and Sixpence* per cent on ordinary risks. For Manufactories, and all other Property of more than usual hazard, the rates are regulated on as moderate a scale as the special circumstances of each case will admit.

### LIFE DEPARTMENT.

**PROFIT FUND.**—Two-Thirds of the Profits are allotted at regular periods to the insured, *without being subject to any deduction for charges of Management*; additions are made to Policies, or corresponding reductions of Premium, at the option of the Insured.

THE BONUS declared at the first division of Life Profits averaged no less than *Fourteen* per cent, or *Two* per cent per annum, and was allotted to the assured on the most EQUITABLE PRINCIPLES. The additions made to a Policy for £.1000 of seven years' standing are as follows:—

Age when Assured under	Additions.			Total Sum now payable.		
	£	s.	d.	£	s.	d.
30	133	7	6	1133	7	6
35	135	19	0	1135	19	0

45	142	9	0	1142	9	0
50	148	17	6	1148	17	6

Parties now effecting Policies will derive the important advantage of participating in the Profits of the next Four Years.

**REDUCED RATES—NO PROFITS.**—To facilitate Loan Transactions, a reduced scale of rates has been adopted, which will be found particularly favourable to the Insured, more especially for young and middle-aged persons.

**LOANS.**—The Directors are ready to make advances by way of Loan, on the following securities:—1st, On Policies of Insurance on Lives to the extent of their estimated value; 2d, On such Policies, with the addition of satisfactory personal security for payment of the future premiums and interest.

Proposals, with Tables of Rates, explanatory of the various modes of Assurance, may be had at the above Offices, and from the Agents of the Company throughout the United Kingdom.

**T**HE EXPERIENCE LIFE ASSURANCE COMPANY is based upon the valuable results derived from the combined experience of the following Life Offices, viz.—

THE ALLIANCE, AMICABLE, BRITISH COMMERCIAL, CROWN, ECONOMIC, EQUITABLE, GUARDIAN, IMPERIAL, LAW, LONDON LIFE ASSOCIATION, NORWICH UNION, PROMOTER, ROYAL EXCHANGE, SCOTTISH WIDOWS' FUND, SUN, UNIVERSAL, and UNIVERSITY.

The Directors have endeavoured, by thus adopting improvements, authorized by additional information as to the true principles of Life Assurance, recently obtained, to offer the most favourable terms to Assurers, and thereby to give a new impulse to the extension of the benefits of Life Assurance among all classes. With this view, the premiums charged have been calculated upon the *New Rate of Mortality* lately published, deduced from the results of the combined experience of the above-named Offices, under the superintendence of a committee of eminent Actuaries. Specimen Tables are annexed below.

**T**HE COMPANY IS PARTICULARLY DISTINGUISHED BY THE BENEFITS TO BE DERIVED BY ASSURERS FROM PARTICIPATION IN THE PROFITS BEING CERTAIN.

An Annual Bonus of £1 per cent on the sum assured is GUARANTEED, and a FURTHER Bonus will be added at the end of each interval of five years, to all policies effected in the participation class.

THUS:—

AN ASSURANCE OF £1000, EFFECTED IN 1843, amounts in

1844	1845	1846	1847	1848	1849
to £1010	£1020	£1030	£1040	£1050	£1060

and in 1850 (date of first investigation) to £1070, and will then receive a further addition from the ascertained Profits, and thereafter will go on increasing as before, annually and quinquennially, until the expiry of the Policy.

INDEPENDENTLY OF THE QUINQUENNIAL BONUS,

An Assurance of £1000 will amount, with the guaranteed additions of £10 for each year the Policy continues in existence at the end of

10 years	20 years	30 years	40 years,	50 years,
to £1100	£1200	£1300	£1400	£1500

**A**SSURANCES are effected by this Society, to the extent of L.5000, upon the same sole or joint or surviving Life or Lives, and are not confined to the profession of the Law, but are open to persons in every station of Life.

FOUR-FIFTHS of the Profits made by this Society will be appropriated to the persons assured for the whole term of Life.

On the 31st day of December 1847, and at the end of every Seven Years from that period, the profits divisible amongst the Assured, will be apportioned amongst such of the Assured for the whole term of life, as shall have been so assured for the space of three years or upwards, previously to those periods respectively, subject only to the reservation of such a sum of money as the Directors shall deem necessary to be carried forward to the period of the next septennial division, for the benefit of the Assured. For the amounts which shall be so apportioned, equivalent reversionary sums will be added to the Policies respectively of those entitled.

The subjoined is a SPECIMEN TABLE OF BONUSES, in even pounds, added to Policies of L.1000 each, which have been in force seventeen years, ending 31st December 1840, including the Bonuses added on the former division.

[*Law Life Assurance Society—Continued.*]

If any person should wish to discontinue the payment of his annual Premium, the Directors have power either to purchase his Policy for a sum of money payable immediately, or, in consideration of its surrender, to grant a new policy, without any further annual Premium, for a sum to be agreed upon, payable at the decease of the Life assured. And the person to whom such new Policy is granted will be entitled, in respect thereof, to participate in the periodical divisions of the profits.

Persons who shall have been insured for the space of two years, in £1,000, or upwards, for the whole continuance of Life, have the power of electing, either from among the Proprietors or from among themselves, two of the four Auditors of the Society.

Parties may arrange to pay their premiums either in a single payment, by annual payments during the whole continuance of the Assurance, or by annual payments during a limited number of years only.

No entrance money is required; nor any extra Premium on persons in the Army or Navy, unless in actual service.

Assurances may be effected upon the lives of Persons residing at a distance from London, by their appearing before a Solicitor in the Country; and the payment of a fine for non-appearance at this Office is then dispensed with.

The Assured are allowed to pass by sea from one part of the United Kingdom to another, and to and from the islands of Guernsey, Jersey, Alderney, Sark, and Man; and also, in time of peace, in queen's ships, and packet or passage vessels, to and from British and Foreign ports in the English Channel, between the Texel and Brest, both inclusive, without any special leave or license from the Directors.

The sums due on the Policies will be paid at the expiration of three months after proof of the requisite facts.

*Assurances may be effected through any respectable Attorney or Solicitor in England, of whom Prospectuses may be had. A party may himself effect an Assurance by writing to the Actuary, or attending personally at the Society's Office in FLEET STREET.*

The Assured are requested to take notice, that no renewal Premiums are ever received from themselves or their Agents, without printed receipts, signed by two Directors and the Actuary, being issued from this Office.

Attendance is given daily, from Nine o'clock in the morning till Four in the afternoon, at the Office, where the Terms of Assurance may be had, Proposals for effecting Assurances received, and every information respecting the Society obtained.

## DEFERRED ANNUUITIES' DEPARTMENT.

By the plan of this Society, a Deferred Annuity combines the benefits of separate investments in Savings Banks, Benefit Societies, and Loan Banks. A small yearly or weekly contribution will secure the most ample return for after life. Thus, £2, 12s. per annum (1s. per week) at 20 will, at 65, give the Policy-holder the choice of an Annuity for life of £47, 16s. 6d.; £394, 11s. in cash, or Policy, without further contribution, of £466 at death. Other periods of life (of 50, 55, and 60) may be also taken, with similar advantages. Two-thirds payments lent at any time on deposit of Policy, and two-thirds returned in case of premature death.

The Central Board for Scotland establishes Agencies in communication with itself, to whom Proposals are transmitted, by whom Policies issued, and Claims settled. Applications for Agencies to be made to, and Prospectuses, Reports, and information obtained from

At the Society's Fifth Annual meeting, on 8th May 1844, the Directors' Report exhibited the continued success and increase of the Association, which has more than doubled its business since 1840, and enabled the Directors to declare the present Bonus to be, on the average, equal to 60 per cent on the annual premiums, as a reversionary addition to the Policy, 16 2-3 per cent in present cash, or on the average, 2 per cent in permanent annual reduction on future premiums.

To more clearly point out the accumulating advantages to Policy-holders, a few examples are given, taken from the tables prepared by the Actuary :—

CAPITAL, L.500,000.*

**T**HIS Company has been established nineteen years, and has met with great support and encouragement; and it is confidently anticipated that the liberality of its terms, and the ample security which it affords to the public for the fulfilment of its engagements, will continue to secure to it the preference it has hitherto enjoyed.

The Directors have had an entirely new and extensive set of Tables drawn up for the Insurance of FEMALE LIVES, it having been found by experience that a considerable reduction may be made in the Premiums for such Insurances.

The following specimen is exhibited of the rates for both MALES and FEMALES, which are the lowest upon the average taken by any office.

*The Second Septennial Division of Profits was declared up to the 31st December 1838, when the average additions made to the Policies entitled to participate in them amounted to about 43 per cent, or nearly ONE-HALF of the whole Premiums paid. Parties who insure, participate in the Profits from the date of EFFECTING the Insurance.*

THE Directors, in order to render the advantages of Life Assurance more general, and to afford greater accommodation to persons desirous of effecting Policies, now offer to the Public two distinct plans for that purpose, viz.—

Persons may either participate in four-fifths or 80 per cent of the estimated profits, or they may effect assurances for a specific object, at Reduced Rates of Premium, without participating in the profits of the Society.

The Directors have also had rates calculated for effecting Assurances determinable at fixed periods, the sum assured being payable on death, if the party assured die before the specified period; or to THE PARTY HIMSELF on his attaining the age of 45, 50, 55, or 60.

The advantages which attend this last form of the contract of insurance are too evident to require much illustration; but it may not be out of place to point out a few of them. It enables a creditor insuring his debtor's life, in order to secure past-due debt, or a present advance of money, to calculate with certainty on recovering his debt, or receiving repayment of his advance, at a fixed period; and while, in so far as the assured himself is concerned, this system has all the advantages of the ordinary forms of assurance, it possesses this peculiar feature, of enabling every one, however limited his income may be, by the appropriation of a portion of it yearly, during his years of health, strength, and active exertion, to provide for the support of himself, as well as those who may be dependent on him, during his declining years.

Assurances to the extent of £5000 may be made on any healthy life, upon any of the above plans.

The Directors also entertain proposals for Special Risks, the terms of which may be learned on application at the office.

This Society advances money on the security of Entailed Estates in Scotland.

The following is a Selection from the Society's Table (No. VI.) of  
"PREMIUMS TO ASSURE ONE HUNDRED POUNDS, payable when the Person assured attains a specific age;

THE VERY GREAT SUCCESS of this Company since its establishment may be attributed, among other causes,—1st, To the acknowledged *advantages* afforded by its *different plans of Assurance*; 2d, To the *complete Security* afforded by the Subscribed Capital of a large and influential Proprietary; 3d, To the *amount of Business* secured from that Proprietary, *independent of every other source*; 4th, To the *adoption of Premiums* calculated at *moderate* and yet *perfectly safe Rates*; and, 5th, To the principle of an *annual Division* of the Company's profits.

*Parties may assure on the plan of PARTICIPATION IN THE PROFITS* of the Company, and secure every advantage to be had in a Mutual Assurance Society, *without the smallest risk or responsibility*. Or,

*They have the option of assuring at the LOWEST SAFE rate of Premium*, if they wish merely to secure a certain fixed sum at the most favourable per centage, whether *in connexion with Loans* or otherwise.

*Assurers are allowed to adopt ANY PLAN IN THE PAYMENT OF THE PREMIUM* most convenient for themselves.

In the *distribution of Profits* they have the great and well-known advantage of **EARLY CONNECTING THEMSELVES** with a Company established within the last few years, which has not yet made a Division of Profits, and which has already secured a very large and increasing business.

*Every advantage will be given to Assurers in the negotiation of Loans*, by Redeemable Annuity, or otherwise.

*To Parties proceeding abroad*, beyond the limits of Europe, **EVERY FACILITY IN THE OBTAINING OF LICENSE** will be afforded, at *rates properly graduated to the risk*.

*No Admission Fee is charged at Entry*; and there is no additional expense whatever to Assurers, except the Policy Stamp.

*In all respects*, the Company's Business is conducted in such a way AS TO AFFORD **EVERY FACILITY AND ENCOURAGEMENT** which can be offered for the extension of Life Assurance.

MR MACDONALD has the satisfaction of stating, that for the LAST SEVEN YEARS one or more of his former Pupils have carried off, at the High School, the highest honours given to the Class to which they belonged. At the Examination of the High School in 1841 (besides a number of his Pupils who received Prizes), twelve Prizes were awarded, in equal proportions, to three of his Pupils. At the Examination of the High School last year, one of his Pupils was Dux in the First Class, and another of his Pupils was Dux of the Rector's Junior Greek Class. And at the High School Examination this year, one of his Pupils was Dux of the Second Class; another gained the Gold Medal for Greek in the Rector's Class, also the second prize for Latin, the prize for Geography, the prize for Greek Composition, and the Prize for English Verse. One of his Pupils also gained the prize for Recitation in the Class to which he belonged; and at the Edinburgh Academy two of his Pupils gained the prize in their respective classes for Recitation. This year, too, the Medal given by the Edinburgh Angus Club to the Brechin schools, was awarded to one of Mr Macdonald's pupils as Dux of the highest Latin Class.

108, George Street, December 11, 1843.

Besides having permission to refer to the Very Reverend Principal Lee, D.D., the Rev. Dr Muir, and the Rev. Dr Candlish, from numerous Certificates of professional ability and success, Mr Macdonald begs leave to annex the following:—

From John Wilson, Esq., the celebrated Vocalist.

My Dear Sir—Previous to my leaving Edinburgh, I used to attend the annual examinations of your pupils, where I received much pleasure from the beautiful manner in which their recitations were delivered, and the aptness which they all evinced in the performance of their other tasks. I received lessons in elocution from you, and benefited very much by your knowledge of that branch of education.

London, 14th June 1832.

JOHN WILSON.

From James Gall, Sen., Esq., Author of the Lesson System of Teaching.

Mr John Macdonald, as a teacher, combines mildness with firmness in an uncommon degree, regulated by a cautious prudence, which I found produced the happiest effects on my children, three of whom were taught by him at different times. There is one peculiar characteristic in his training, above any other teacher I have known, which is, a great facility in making his pupils understand and apply what they read and learn.

Myrtle Bank, Trinity, 1st February 1836.

JAMES GALL.

From John F. Macfarlan, Esq., Newington.

My Dear Sir—I am so satisfied with the progress my daughter has made at your school, and with your system of tuition, which, so far as I can judge of it, seems most excellent, that I am convinced she never could be placed with a master more competent, and more anxious to advance her education. Accept my best thanks for your attention, and believe me, dear Sir, yours very truly,

JOHN F. MACFARLAN.

From Robert Stewart, Esq. of Carfin, Lanarkshire.

Mr Stewart presents his compliments to Mr Macdonald, and in leaving town, he cannot omit bearing testimony to the kind attention and singular success with which Mr Macdonald's instructions have been accompanied. In fact, Mr Stewart had not the slightest idea that so much could be done in so very short a time, with so young a child. And it has had the effect of making a commencement of such a description as may be kept increasing, if only fair pains are bestowed.

7, Coates Crescent, 14th June 1842.

## CRITICISMS BY THE PRESS.

*Sacred Readings.*—"Mr Macdonald delivered a second selection of *Sacred Readings* in the Hopetoun Rooms on the evening of Monday last. The attempt to render such readings interesting is a bold one, and is such as few would risk; but in Mr Macdonald's hands it succeeded nobly; better, indeed, than almost any person could have predicated. This gentleman's ear, taste, and action, are all admirable; and nothing, whether grave or gay, sacred or profane, can but succeed in his hands."—*Edinburgh Chronicle*, March 2, 1839.

*Mr Macdonald's Readings and Recitations.*—"On Thursday night, Mr Macdonald delivered a series of Readings and Recitations in the Hopetoun Rooms. Mr Macdonald acquitted himself on this occasion, as on every other, with the greatest credit to himself. His reading was at once chaste, forcible, and pleasing; and the warm manner in which he was applauded, spoke the feelings of the audience. Not the least pleasing part of the evening's entertainment was the appearance of one of Mr Macdonald's pupils, a mere child, but who showed what admirable teaching can accomplish even with the youngest."—*Edinburgh Evening Post and Scottish Standard*, November 27, 1841.

*Elocution.*—On Friday, Mr Macdonald, teacher of elocution, George Street, gave a series of readings and recitations to a numerous and highly respectable company in the Hopetoun Rooms. It may be reckoned almost unnecessary for us to state, that Mr Macdonald fully sustained the high reputation which he has so long enjoyed in connexion with this useful art. The audience were delighted with the life and pathos which he infused into the words of poems, which, when ordinarily read, lose more than half their beauty, and numerous bursts of applause testified their satisfaction. Two of Mr Macdonald's pupils did great credit to his skill as a teacher, by the taste and exactness of their recitations.—*Witness*, 7th Dec. 1842.

## CHRISTIAN DOCTRINE AND DUTY,

Being a Selection of Scripture Passages illustrative of this Title. (Marked with Emphases and Inflections.)

Prefixed to which is a Summary of the Rules of Elocution.

The Appendix contains an Abstract of Scripture Geography, &c.

By JOHN MACDONALD, Teacher of English, &c., George Street, Edinburgh.

"A capital text-book for schools, students, and private families."—*Caledonian Mercury*.

"This work ought to be in the possession of every teacher of youth in Scotland."—*Glasgow Constitutional*.

"Mr M'Donald has produced a most judicious and interesting work—a work which shows a most intimate knowledge of the Bible on his own part, and which cannot but prove exceedingly useful, not merely in the hands of teachers and parents, but to private Christians."—*Edinburgh Chronicle*.

"The work is calculated to be of much service to the young; and we sincerely recommend it."—*Edinburgh Observer*.

"The Scripture passages are judiciously selected and arranged, so as to exhibit a regular system of religious doctrines and moral duties."—*Edinburgh Advertiser*.

"The design, execution, and tendency of this little volume are excellent. In many respects the plan is wholly original, and the author has been equally successful in presenting the student of scripture with a help to the formation of accurate views, sound principles, and good taste."

"The passages are grouped with remarkable precision and judgment, and the author exhibits throughout a thorough acquaintance with the Sacred Volume. The first part of the work is devoted to a summary of the rules of elocution, and of all the rhetorical treatises that have come in our way, we unhesitatingly give the palm to this."

"We have been thus minute because we really think Mr M'Donald's a valuable book, and one which it is our duty to recommend to teachers of week-day and Sabbath schools, as well as to families and private individuals. It is equally fitted to be useful to young and old, learned and illiterate, and we are not at all surprised to find that it has called forth the unqualified praises of distinguished clergymen."—*Scottish Guardian*.

"The author of this excellent volume is well known as a most respectable and highly successful teacher of the art of speaking, as well as of other essential branches of practical education. This work is intended not only to convey a clear and comprehensive view of Christian Doctrine and Duty, derived directly from the Holy Scriptures, but to impress upon the youthful student the rules of elocution, and their practical application generally. The manner in which Mr M'Donald has effected these objects is at once simple, ingenious, and impressive. His method of notation is particularly calculated to arrest the notice, and to direct the judgment of the reader. We recommend the work to general use."—*Edinburgh Evening Post* November 24, 1838.

COAL of all kinds from the Mid-Lothian Fields are sold by the Coal-masters and Merchants who occupy the Railway Depots; and the Certificate of the Railway Company's Weighers affords the surest guarantee of the weight and quality.

## SUPERVISION OF THE COAL TRADE, IN TERMS OF ACT OF PARLIAMENT.

THE EDINBURGH and DALKEITH RAILWAY COMPANY request the attention of the Public to their REGULATIONS for the PREVENTION of FRAUDS in the SUPPLY of COALS, as stated below, by which so many fraudulent Dealers have been detected and punished, or driven out of the Trade, since the opening of the Railway; and which, if attended to by the Purchasers of Coals, afford complete security against frauds in either the weight or the quality.

The Railway Company beg to remind the Public, that they have no interest in the Coal Trade of the Railway, but in its being extensive and respectable. Having provided the Coal Proprietors of Mid-Lothian with commodious Depots, opening into one of the greatest thoroughfares of the City, they were empowered, by Act of Parliament, to act as umpires between the Dealers in Coal and the Public, and to compel all Coal to undergo the scrutiny of

THEIR INSPECTORS. How well the Railway Company have discharged the duty thus intrusted to them by Parliament, is proved by their having established a new and effectual method of detecting the frauds which had with impunity disgraced the Coal Trade prior to the opening of the Railway; and by the fact, that, in almost every conviction of fraudulent Dealers in the Police Cort, the information and the proof have been furnished by the Railway Weighers and their assistants.

The result of the Company's system is, that fraudulent Dealers are now deterred from the Railway by the certainty of detection. The last instance, which occurred some time since, may be related, in order to impress upon the Public the necessity of vigilance on their part, in attending to the rules annexed below: —Two Carters purchased 17 cwts. of New Craighall Household coals in the Railway Depot, and attempted to deliver them to a lady in town as a Ton of New Craighall Jewel Coal, presenting a false certificate. The lady was deceived; but two persons employed by the Railway Inspector had followed the carters, detected the fraud in the only way such frauds can be detected; and, having obtained the false

[Continued]

*[Supervision of Coal—Continued.]*

certificate from the lady, furnished complete proof against the delinquents.

For the expense of this supervising Establishment the Railway Company make no charge; their Inspectors register the weight and quality of the Coal, and the name of the carter, and they watch the conduct of the carter as he passes along the streets—all gratis.

## RULES.

1st, Never receive Coals without the Inspector's certificate stamp of weight and quality—a fac-simile of which is given below, as stamped in red colour on each invoice accompanying coal that is correct in weight and in quality.

2dly, Attend to the hour of departure marked on the invoice, and if the carter appears to have been more time than necessary, reject his coals.

3dly, Never allow the certificate to be kept and carried away by the carter; but let it be destroyed, or inclosed back to the Manager or the Inspector if it has any appearance of being a forgery.

4thly, If Coals appear, on delivery, to be of a different quality from what were ordered, a competent person shall be sent to inspect them, on application being made to the Inspector.

## HAY AND ADDIS,

PLUMBERS, BRASSFOUNDRERS, COPPER-SMITHS, GAS-FITTERS,  
AND ZINC-WORKERS,

79, GEORGE STREET, Edinburgh, and MARKET STREET, Haddington,

RESPECTFULLY intimate that they are Sole Agents for Scotland, for EASTON'S PATENT IMPROVED SELF-ACTING HYDRAULIC or WATER-RAMS; and they can, with the utmost confidence, recommend them as the most useful Machines ever constructed for raising water, no other power being requisite than the moving force of the water which is to be raised, thereby superseding the use of Pumps, and greatly reducing the expense of conveying water from a distance.

Upwards of 300 of them have been erected in England, Scotland, and Ireland, a sufficient proof of their superiority over every other invention of the kind. Those which they have fitted up have given the greatest satisfaction, and they have been permitted to refer to the parties for whom they have been erected.

Parties desirous of seeing the Machine in operation, will have an opportunity afforded them by applying at 79, GEORGE STREET, Edinburgh, or at ADDIS & FRIER'S, Plumbers, Perth, where they will receive every information regarding them.

H. & A. also beg to intimate that they furnish and fit up Gas-Works for the supply of Mansion Houses and Small Towns, on the most approved principles.

*Orders for repairs in Plumbing and Gas-Fitting, &c. &c., promptly and carefully executed.*

A. D. having for thirty years devoted a portion of his time to genealogical research, most respectfully solicits inspection of his labours in that science, which he trusts, for correctness and elegant design, will meet with general approbation.

N.B.—Gentlemen desirous of tracing family connexions, may be assisted in the investigation, which his extensive collection of MSS. and Books on Genealogy enables him to do on moderate terms.

## IMPORTANT TO ALL. HEALTH AND LONGEVITY.

**E**XPERIENCE has proved beyond dispute, that those who are attentive to keeping the stomach and bowels in proper order, preserve health, prevent disease, and generally obtain robust, cheerful, and healthy old age. For that truly desirable purpose,

### DR F. JAMES'S STOMACH PILLS

are particularly adapted, being prepared with the most choice Stomachic and Aperient Drugs of the Materia Medica.

They have, in all cases, proved superior to every medicine in the cure of stomach complaints, indigestion, loss of appetite, sick headache, sensation of fulness, pain and oppression after meals, habitual costiveness, flatulence, shortness of breath, stomach coughs, spasms, cramps, giddiness, dimness of sight or drowsiness, fits in children and grown persons, and all disorders incident to the stomach and bowels.

As a proof of their efficacy, the following may be adduced out of nearly a thousand Testimonials:—

No. 4, Darling's Buildings, Stockbridge, Edinburgh, 16th August 1843.

SIR,—I had for a number of years been tortured with pains in the stomach, headache, dimness of sight, loss of appetite, and continual sickness, with general debility. I had been under the treatment of a number of medical men, but without experiencing any benefit. I was persuaded to try Dr F. James's Pills. I am happy to say, after taking two boxes, I was at length restored to perfect health. You are at liberty to make use of this communication any way you please.

I am, Sir, yours truly,

M. HAY.

Edinburgh, 32, India Place, October 1843.

SIR,—I was afflicted with an obstinate stomach complaint, never free from headache, and could scarcely look at any victuals through loathing; when so fortunate as to conquer this loathing, the little food I had taken was soon thrown out of my stomach. I tried almost every thing without the least benefit. Being advised to try Dr F. James's Pills, I sent for a box: this box afforded me almost immediate relief. I have taken two boxes since, and now I am quite well. If the publication of this can be of any advantage to the afflicted, you have my full liberty to make use of it in any way you may think proper.

Sir, your obedient servant,

MARY FORSYTH.

9, High Terrace, Feb. 19th, 1844.

To Mr Stringer, Chemist, Edinburgh.—Sir, I can with much pleasure bear testimony to the extraordinary qualities of Dr F. James's Stomach Pills. For several years back I have been tormented with pains in my stomach and bowels; no appetite, nor inclination for sleep, besides dimness of sight, and unable to attend regularly to my duties. After taking one and a half box of Dr F. James's Pills, purchased at your shop, I am perfectly restored to good health, and shall ever feel it my duty to recommend such a valuable medicine.

I am, Sir, yours truly,

W. WARBY, Mail-Guard.

## W. & P. STEELE,

PATENT KITCHEN RANGE  
MANUFACTURERS, AND GENERAL  
FURNISHING IRONMONGERS,  
61, GEORGE STREET, nearly opposite the  
ASSEMBLY ROOMS, Edinburgh.

### IMPROVED KITCHEN RANGES.

BY THE QUEEN'S ROYAL LETTERS PATENT,  
GRANTED TO

**W.** & P. STEELE, of 61, GEORGE STREET, in the City of Edinburgh, for IMPROVEMENTS in KITCHEN RANGES for CULINARY PURPOSES, and APPARATUS for RAISING the TEMPERATURE of WATER for BATHS and other Uses.

The PATENTEEs beg leave to state that many of their PATENT RANGES are now in full operation, and wherever the Apparatus has been put up, it continues to give the most unbounded satisfaction. The Patentees have had the honour to receive several very flattering letters from families of distinction, for whom Ranges have been fitted up, bearing testimony, in the most unqualified terms, as to the efficiency, usefulness, and economy, in the consumption of fuel, by the use of the Patentees' Improved Apparatus.

The Patent Range is constructed in all its parts on Scientific Principles, and contains ample Range Bars for Roasting and Boiling, with one or more Ovens, and a spacious Boiling Table or Hot Hearth,—all of which are fitted up on the Principle of perfect Ventilation; a Large Boiler in the Range affords a constant and ample supply of Hot Water, and is suited to cook by Steam; also, APPARATUS which gives the power of Heating a Reservoir of Water at the Top of the House, 100 feet or more above the Level of the Boiler, from which Reservoir Hot Water can be distributed all over the House, and by means of which a Bath may be got ready for use at a moment's notice, during any hour of the day, or even at midnight, in cases of sudden indisposition. Means are also provided for effectually and speedily cleansing out the Boilers, without further trouble to servants than merely turning one or two stop-cocks, so that Hot Water may at all times be had free of sediment and perfectly pure. The whole is effected by one Open Fire, before which Meat may be roasted in the usual manner, besides effecting a saving of at least half the quantity of fuel used in apparatus of ordinary construction.

The above Culinary Apparatus is therefore confidently recommended to public notice as the best and most economical Range at present in use, and will be found admirably adapted for the Mansions of Nobility and Gentry, Club-houses, Hotels, or other similar Establishments.

A Prospectus, containing a fuller detail of the Range, may be had, and every information

furnished, on application at the Patentees' Works, No. 61, George Street, Edinburgh.

W. & P. S. manufacture every description of Improved Culinary Apparatus, including KITCHEN RANGES with or without Boilers and Ovens, SMOKE, WATER, and WIND-UP JACKS of Improved Construction, BOILING TABLES with or without Grilling Stoves, and Hot Press; Steam Cooking Apparatus in Sets or Single. Hot Closets, Charcoal Tables, &c.

W. & P. STEELE's extensive stock includes many very beautiful Designs in Drawing-Room, Dining-Room, and Parlour Grates, fitted up as Registers, or as Kinnaird Grates, so much recommended for curing Smoky Vents and throwing out Heat, together with every requisite in General Ironmongery. House Furnishing all of first-rate quality.

Professor Syme, 9, Charlotte Square.

**T**HIS Institution is intended for the benefit of a numerous class of individuals, who, when labouring under disease, though unable to pay for professional attendance, are unwilling to be considered objects of charity, and enter a public hospital. It will be found advantageous for Servants and Lodgers, who cannot, from their peculiar situations, obtain the necessary attentions and comforts during sickness; and also for patients coming from the country in quest of Medical or Surgical aid, to whom the expense of lodging and attendance, perhaps for a protracted period, would become oppressive.

The House is situated in a quiet and healthy part of the town; the building itself is commodious, the rooms airy, and provided with every necessary convenience; and all the arrangements have been made with a view to the seclusion and comfort of the patient.

The rates of admission are 12s. 6d., £1, or £1, 10s. per week, according to the accommodation required; and these sums are calculated as barely adequate to cover the necessary outlay for nurses, diets, and medicines.

Patients wishing to be admitted to MINTO HOUSE may apply to any of the Medical Officers, and, if resident in the country, should communicate their intention before coming to town, that arrangements may be made for their immediate reception.

Attached to the Hospital is a DISPENSARY, at which advice is given gratuitously, patients paying to the apothecary for the Institution for the medicines prescribed. The Medical officers attend every day at one o'clock; and those Patients who are unable to attend at the Dispensary, are visited at their own houses by the Pupils, who also afford assistance in urgent cases at any hour of the day or night.

## STAMMERING AND OTHER VOCAL DEFECTS.

**M**R A. MELVILLE BELL, Professor of Elocution from London, continues to attend pupils in Edinburgh for the perfect adjustment of the articulation in all cases of defective or impeded utterance.

The system of cure is that of which Mr Bell, sen., (*Norton Street, Portland Place, London*), is the author, by whom it has been practised for upwards of ten years in the English metropolis. The most satisfactory testimonials can be offered from pupils in all parts of England, Scotland, and Ireland: and Mr A. M. Bell has the honour to give personal reference to several of his former pupils. The system is purely scientific, and is certain in its results. There can be no relapse:—the principles ensure progressive and permanent improvement.

Among Mr A. M. Bell's recent cures in Edinburgh, is a case which was of THIRTY YEARS' STANDING. The gentleman who was the victim of this very severe impediment had been, at different times previously, under several persons who professed to cure, but failed to benefit him. *He now enjoys fluency of utterance.*

Lispings, Burring, Nasal Intonation, and all minor defects of speech, speedily and completely corrected.

The terms depend on the nature of the case, and the circumstances of the pupil: in all cases they are moderate. Address: 15, St Andrew Street.

### ELOCUTION.

#### PRIVATE INSTRUCTIONS IN ELOCUTION, THE ART OF SPEECH, GESTICULATION, AND ALL DEPARTMENTS OF ORATORY.

To Professional Speakers and others, who experience Pulmonary Uneasiness, or Articulative Difficulty in Reading or Speaking, Mr Bell can guarantee perfect relief, and greatly increased vocal power, in a short course of Private Lessons. Distinct Articulation, the Correction of Provincialisms in Speech, Improvement and Modulation of the Voice, Systematic Respiration, and the acquirement of a neat and efficacious system of Gesture, are the certain results of Mr Bell's System.

### EVENING CLASSES.

For the convenience of Gentlemen attending College, and others who are occupied during the day, Select Evening Classes are arranged.

*Class Room, 36, George Street.*

Cards of Terms, Prospectuses, &c., may be obtained at Mr W. P. Kennedy's, 15, St Andrew Street; of Mr J. B. Bell, 36, George Street; and at most of the principal bookshops.

## ARTIFICIAL TEETH.

**D**R MEIN, SURGEON and DENTIST, may be consulted daily, on all the Diseases to which the TEETH and MOUTH are liable.

ARTIFICIAL TEETH of every description supplied, and all Operations upon the Mouth carefully performed.

Advice to the poor from 9 to 10 A.M. daily.

102, George Street, Edinburgh.

DR M. ARNOTT,

## SURGEON AND DENTIST,

25, SOUTH CASTLE STREET,

**H**AS made important improvements in the materials for, and methods of, stopping decayed Teeth, suited to the various kinds and stages of incipient or other decay; thereby restoring a hollow tooth to the same ease and functional utility as a sound one. Should pain and inflammation be present, they are soon allayed by anodynes, which prepare the tooth for its appropriate stopping.

Natural, Mineral, and all kinds of Artificial Teeth, from one to any requisite number, mounted on gold or otherwise, and fixed so as to afford utility, ease, and comfort.

Dr M. A. would call the attention of those requiring artificial teeth, to his recently improved Indestructible Silicious Teeth, which he is happy to say he can now guarantee not to break or discolour in the mouth.

By those wearing teeth set in bone, besides for cleanliness, they will be found valuable, as from their unchanging qualities they may often be re-set. The unnatural dead china look, now so often and universally complained of as characterising mineral teeth, has by Dr M. A.'s recent improvement been so completely obviated, that his mineral teeth cannot be distinguished, when placed in juxtaposition, from natural organs of the most exquisite forms and shades.

*N.B.—Dr M. A. guarantees all his work.*

## DENTAL SURGERY.

MR JAMESON,

### SURGEON-DENTIST,

(*Licentiate of Surgeons' Hall, Edinburgh, and of Apothecaries' Hall, London*)

**M**AY be consulted, without charge, on all the diseases of the Teeth and Mouth.

ARTIFICIAL TEETH of every description supplied, and all Operations connected with Dental Surgery performed with care.

99, Princes Street, Edinburgh.

## DENTAL SURGERY.

**M**R VERNON, SURGEON-DENTIST, 80, Princes Street, may be consulted upon every branch of his profession free.

Natural and Artificial Teeth, including the Incorrodible, (which is at present unsurpassed by any other in the perfect resemblance of the natural, neither is it affected by acids,) supplied from one to a complete set, without pain, on terms strictly moderate.

In cases of Toothache, Mr Vernon highly recommends his improved method of filling decayed Teeth, whereby immediate relief is given, and the teeth made useful for many years afterwards.

Advice and Medicine to the Poor gratis, from nine to ten A.M.

**27, SOUTH BACK OF CANONGATE,**  
*(Nearly opposite the Foot of St John Street.)*

**T**HE PROPRIETOR begs to announce, that, after many years' labour, he has at length discovered an entirely new method of renovating Gentlemen's Wearing Apparel ; by the new process, all kinds of Stains are easily extracted, and the original Brilliance of Colour restored. Half-worn Garments can be made to look equal to new, whilst they are warranted to retain their appearance under any exposure to the weather ; and not having the slightest appearance of being Renovated, a single trial will ensure the most incredulous of the important advantages of this discovery.

Gentlemen's Garments dyed to any Colour, and all kinds of Waterproof Garments Cleaned, and rendered impervious to the weather.

This Establishment being exclusively directed to the Renovating and Dyeing of Gentlemen's Clothes, the arrangements are such, that a Gentleman's Wardrobe, consisting of twelve suits, can be Renovated, and neatly pressed, in twenty-four hours.

### How to detect Adulterated Lozenges.

Put a few in a tumbler of cold water—if genuine they are all soluble; but if there is any adulteration there will be a sediment at the bottom of the tumbler. Grocers should use this test before purchasing.
