LAURISTON CASTLE
LIBRARY ACCESSION

A D D R E S S.

IN offering this New Edition of the POST OFFICE GREENOCK DIRECTORY, the Publishers avail themselves of the opportunity of expressing their grateful acknowledgments to their numerous Subscribers, and the public generally, for the obliging assistance which they have received in procuring the various details.

The New Directory now offered, it is hoped, will be found on perusal as free from errors as any work of a similar kind ; although they do not calculate on its being altogether faultless, the information it contains being derived from many hundreds of individuals. The unavoidable slips, however, they believe are not such as to mar the usefulness and general accuracy of the publication.

The Publishers have availed themselves of every species of information of local and general interest, and as neither labour nor expense has been spared on their part they hope this year's issue will secure for the work the continued support of the community.

ALMANAC AND TIDE TABLE. .

FROM JUNE, 1853, till JUNE, 1854.

The daily rising and falling of the water of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us, and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be everywhere covered by the ocean.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now, the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mecanique Celeste*, the mean force of the sun in raising the tides is to the mean force of the moon as 1 to $1\frac{1}{2}$; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently, the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun and moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest dis-

tance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when she is in conjunction with the sun, and at full moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap Tides are produced by the difference of their force when in quadrature. The Spring Tides take place about two days after full moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and, should the moon happen to be in Perigee, their joint effects will produce the greatest spring tides.

The mean duration of the ebb and flow is about 12 h 25 m, that is, half the lunar day of 24 h 50 m, the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 h 50 m.

The following tide table is constructed on strict scientific principles, from the very accurate tide tables of J. W. Lublock, Esq., London (the tide table in the *Nautical Almanac* for 1853 is also calculated from the same tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the tide by observation may not at all times correspond precisely with the time found in the table.

These tables are calculated for mean time, or the time shown by a well regulated clock, reckoning from noon of each day. The Moon's phases are calculated to civil time. The civil day begins at midnight.

ECLIPSES IN 1854.

Greenwich Time.

In the year 1854 there will be two Eclipses of the Sun and two of the Moon.

1.—A partial eclipse of the moon, May 12th, 1854, invisible at Greenwich.

2.—An annular eclipse of the sun, May 26th, invisible at Greenwich. Begins on the earth generally, May 26th, 5 hours 45 minutes; meantime at Greenwich, in long. $176^{\circ} 35'$ W. of Greenwich; lat. $1^{\circ} 22'$ S. Central eclipse generally, May 26th, 6h 55m, in long. $162^{\circ} 51'$ E., and $6^{\circ} 43'$ N. Central eclipse at noon, May 26th, 8h 56m; long. $134^{\circ} 45'$ W.; lat. $45^{\circ} 33'$ N.; ends generally, May 26th, 10h 30m. Ends on the earth generally, 26th, 11h 40m; long. $73^{\circ} 41'$ W.; lat. $28^{\circ} 29'$ N.

3.—A partial eclipse of the moon, Nov. 4th, visible at Greenwich. First contact with the penumbra, 6h 53m; first contact with the shadow, 8h 45m p m; last contact with the penumbra, 11h 32m p m.

4.—A total eclipse of the sun, Nov. 19-20, invisible at Greenwich. Begins on the earth generally, Nov. 20th, 7h 21m, in long. $24^{\circ} 2'$ W.; lat. $0^{\circ} 49'$ S. Ends on the earth generally, Nov. 20th, 32 minutes past 12 noon, in long. $93^{\circ} 24'$ E.; lat. $35^{\circ} 48'$ S.

RULES AND REGULATIONS.

1st. Each purchaser of a Site or Lair in the Cemetery will be furnished with a Registry Certificate, describing the Burying-place so purchased; which certificate must be recorded in the Corporation Books, and the name of the person so recorded shall be considered the Proprietor.

2d. One person only shall be recorded as the Proprietor of a Site or Lair, and joint Proprietorship is specially prohibited. To prevent confusion, the following shall be held as the order of succession:—(1.) If a Proprietor die, leaving lawful Children and a Widow, such Children as long as they remain unforisfamiliated, and such Widow, shall have right of sepulture in the Lair for themselves only; and the right of property in said Lair shall descend to the eldest son. Failing sons, the eldest daughter shall succeed; Heirs portioners being specially excluded. (2.) Failing Children, the eldest representative in the next degree, according to the rules of succession of the law of Scotland, shall succeed. (3.) The Proprietor shall, notwithstanding, have it in his power to bequeath the Site or Lair to any one member of his family, or to any stranger; but declaring that if he shall bequeath the Site or Lair to a plurality of individuals, the assignation in that case shall be disregarded, and the above rules as to the succession shall be applied and take effect. (4.) No person claiming right to succeed to a deceased Proprietor shall be entitled to have his claim recognised, or his name inserted in the record as Proprietor, without adding to the Town Council of Greenock, or the Cemetery Committee, evidence to their satisfaction that he or she is entitled to succeed. Declaring that the decision of the Town Council shall be final, and shall not be subject to review. When application is

made by a party claiming to succeed, the Town Council or the Cemetery Committee may order such public or other notice of the application to be made as they may judge proper, and the expense, if any, in that event shall be paid by the applicant. (5.) No transfer by an *inter vivos* Deed shall have any strength or effect unless sanctioned by the Committee on the Cemetery or by the Town Council, who shall have a right of pre-emption and power to accept of the Site or Lair in case a transfer by way of sale is intended. (6.) No party claiming a Lair, either by succession or transfer, shall be recognised or have his name inserted without the production of the certificate or document granted to the original Proprietor. (7.) Assignations by a Proprietor, deceased, of any Site or Lair, must be recorded in the Corporation Books within twelve months after the death of the last recorded Proprietor, otherwise the deed, in so far as regards such Site or Lair, shall be nugatory.

3d. A Proprietor or Representative, as above, requiring to use the ground, must give a written request to the Chamberlain, who shall thereupon issue an order to the Superintendent, as without such order the Superintendent may refuse to permit interments. If, however, three or more interments have taken place in any one Lair within ten years, no order shall be given for an additional interment within that period without a Certificate from the Superintendent that such interment may be permitted.

4th. Notice of interments must be given to the Superintendent by the parties, or by the Undertaker of the Funeral, as early as possible, and not later than Twelve o'Clock of the lawful day immediately preceding the day fixed for the interment. Such notice shall be made by filling up and subscribing the form which will be obtained at the office of the Chamberlain, stating the name, designation, age, residence, trade or profession, if any, of the deceased, the disease or the cause and date of death, and the particular day and hour fixed for the interment. The necessary orders for digging the grave will then be issued upon payment of the charges. When the bottom of the ground is formed of rock earlier notice must be given so as to ensure the work being properly and timeously done. Undertakers are not to give directions to, or in any way to interfere with, the Cemetery servants after the coffin is laid in the grave.

5th. Proprietors are prohibited interring in their grounds any other than members of their own family, without having previously obtained the consent of the Committee on the Cemetery; which consent they are authorised to grant, on paying to the Chamberlain double fees of interment.

6th. No Coffin shall be permitted to be laid nearer to the surface than three feet, measuring from the upper part of the coffin; and no grave, in which a coffin has been laid so near as three feet from the surface, shall be allowed to be opened within ten years thereafter, without the special consent had and obtained of the Committee. And no more than three full-sized coffins shall be allowed to be interred in one grave, unless at the first opening the grave shall have been made of an extra depth; and no coffin shall be permitted to be removed from any grave with the view of making room for a new interment.

7th. No Tomb, Monument, Inscription, Rail, Fence, Chain, or Erection of any kind whatever, nor Planting of any description, shall be permitted to be erected on the Sites or Lairs until approved of by the Convener of the Committee, to whom or to the Town Clerk a special written Statement and Drawing of what is pro-

posed shall be submitted. Tombs, Monuments, &c., must be founded at such depth, and in such manner as may be approved of by the Superintendent of the Grounds. No monument, or other erection, shall be built or fitted in the wall, nor when, if erected near the wall, shall such erection exceed the height of the wall itself.

8th. The Proprietors must keep the Tombs, Monuments, &c., in good order and repair, to the satisfaction of the Superintendent of the Cemetery; and should they fail to do so, the Superintendent may either get the repair done, or cause the Tomb or other erection to be removed, at the Proprietor's expense, and recover the cost of doing so at common law; and no interment in such grounds shall be permitted until the expense be first paid. The Committee may prune all planting, and even remove the same, if it shall be the opinion of the Superintendent of the Grounds that, by the spreading of the roots, branches or otherways, injury may be done to the adjoining Grounds. Proprietors are prohibited removing or disposing of the plants or shrubs, without the special consent of the Superintendent.

9th. The hewing or dressing of Stones, or operations of any other description, except in the dressing of the Sites or Lairs, will on no account be permitted within the Cemetery or in the Approaches thereto; and all rubbish or refuse remaining after the erection of Monuments or other operations duly sanctioned must be immediately removed, at the sight and under the direction of the Superintendent of the Cemetery, at the expense of the owners of the ground, or of the person executing the work. The dressing and decorating of the Burial Places shall be done only by the servants of the Committee, and at the expense of the Proprietor of the Sites or Lairs.

10th. Visitors to the Cemetery shall on no account walk or trespass upon the Shrubby or Grass, or pull the Flowers, or in any way injure the Shrubs or Trees. No person to enter upon or depart from the Grounds by any other way than the entrance Gate. No person having a basket or parcel admitted to visit the Grounds; and children under twelve years of age visiting the Grounds must be accompanied by their parents or guardians. Visitors are particularly requested to confine themselves to the Walks. Any person trespassing shall be liable to be prosecuted. No Dogs to be admitted within the Grounds on any pretext whatever; and Horses with funerals only shall be permitted within the Gate.

11th. The Committee shall have the exclusive right, subject to the approval of the Town Council, of fixing the times of admission of Visitors to the Cemetery; and the Superintendent, or other person in charge for the time being, shall be entitled to remove any person or persons who may conduct themselves improperly, and prevent persons entering at prohibited times.

12th. None of the Servants of the Cemetery shall be entitled to accept of any gratuity whatever on pain of dismissal.

13th. All the Workmen and others employed in the Cemetery shall be subject to, and under the immediate control of, the Superintendent of the Cemetery, who may summarily remove them from the Grounds when he sees cause; and he shall also regulate the hours of admission and departure of the parties employed in the Cemetery.

14th. The Committee, with consent of the Town Council, shall be at liberty to alter all or any of the Rules, Rates, and Fees of Interment when they see cause, and to enact others in their room and place.

JOHN KERR GRAY, Town Clerk.

HARBOUR REGULATIONS.

STEAM VESSELS.

I. All steam vessels resorting to the Port of Greenock shall have on board a captain or sailing master, who is an experienced seaman; and shall also have a sufficient number of able-bodied and experienced seamen, for the safe navigation of the vessel, under a penalty

not exceeding Five Pounds for each offence, to be paid by the person in command or charge of the vessel. And no steamboat whatever shall be manned with less than a master, two deck men and a pilot, exclusive of the engineer and fireman, under the like penalty of Five Pounds.

II. The Steamboat Harbour master shall have the sole and exclusive power of assigning berths to steam boats of all denominations at the portion of the Customhouse Quay allotted for the use of that description of vessels ; and no steam vessel shall be entitled to a quay berth that has not proper gangways in her bulwarks cut down to the deck, either fore or aft the paddle boxes, which gangways shall be of sufficient width to admit passengers, luggage, coals, ashes, &c., to pass in safety to and from steam vessels lying outside thereof. Masters or others in charge refusing or delaying to attend to this regulation shall be liable to a penalty not exceeding Five Pounds. In stormy weather steamers may be allowed to occupy such berths inside the harbours as the Harbour master may point out ; but while the fires are burning steam vessels must be kept as much separate from other vessels as possible.

III. The master or other person in charge of every steam vessel shall, within 200 yards of any of the quays or of any works of the Harbour Trustees, slow the engines, and keep at a slow rate, until such steam vessels shall have passed the quays or other works at least 200 yards, under a penalty not exceeding Five Pounds for each neglect. And all steam vessels shall, when a red flag is hoisted on board of any vessel in the river opposite the harbours, also slow their engines within 200 yards of the vessel where such flag is hoisted, under the like penalty not exceeding Five Pounds, to be paid by the master or other person in command or charge of such steam vessel, besides being liable in all damages incurred by neglect.

IV. No ballast, earth, dross, ashes, or other kind of rubbish, shall be thrown or put overboard from any sailing or steam vessel into the river opposite the harbours, under a penalty not exceeding Five Pounds for each offence.

V. All steam vessels, whether entering or leaving the port or harbours, shall pass outside of the warping buoys, when ships or rafts are warping either into or out of the harbours, and in every case must avoid coming in contact with the warps of ships so situated, under a penalty not exceeding Five Pounds for each offence, besides being liable in damages.

VI. No forge bellows, lighted candles, lamps, or fires shall be allowed on board of any steam vessel, or other vessels whatever, in the harbour, after eight o'clock in the evening or before six o'clock in the morning, except the vessel has just arrived, under a penalty not exceeding Five Pounds sterling for each transgression ; and the forge bellows, lights, or fires on board of any such vessels throughout the day, shall be carefully attended and watched by some person on board, under the like penalty. But upon applying to the Harbour master, and sufficient cause being shown that the use of forge bellows on board during the night is absolutely necessary to enable the vessel to proceed on her next voyage at the time originally announced, it shall be allowed under the special care of an extra police watchman ; the parties claiming the privilege paying for the watchman ; and that several buckets of water shall be kept in readiness to quench any fire when danger is apprehended.

VII. All masters or other persons in charge of steam vessels plying to the port shall, immediately on fixing the hours of sailing of the said vessels from Greenock, intimate the same in writing to the Steamboat Harbour master, at his office ; and they shall upon no

account, either upon the pretence of not arriving in due time or otherwise, alter the period fixed, but shall depart punctually at the times of sailing originally announced, under a penalty not exceeding Five Pounds sterling for each offence, excepting always cases of accidents happening to the vessels or machinery ; in which events the time for sailing announced on the boards shall be immediately altered or suspended. The sailings shall be regulated by the public clock placed on the Steamboat Quay. Vessels engaged in the foreign or coasting trade may remain at the quay until they take on board all goods that may have been laid down from such vessels, which those in charge must do as speedily as possible ; but so soon as the goods are on board the vessel must be backed outside another vessel. Masters or others in command refusing or delaying to comply with any part of this regulation, will be liable in a penalty not exceeding Five Pounds.

VIII. All passenger steam vessels shall, when it is dark, on their arrival at, or departure from, the quays, have and use sufficient lights, consisting in no case of less than two hand lanterns, so as to enable passengers to get on board or to land with safety ; and all steam vessels, when passing up or down, shall, at least within 200 yards of the quays, reduce their speed, so as the loading or unloading of the vessels at the piers or quays may not be interrupted, or in any manner of way sustain damage. All steam vessels shall, when leaving the quay, observe the like precaution of steaming slowly, until they have passed all the vessels lying at the outer piers, under a penalty not exceeding Five Pounds.

IX. The masters and crews of all steam vessels lying nearest the quay shall give free access over the decks of their vessels to all parties going to or from the steamers lying at the outside berth, and also free access for the conveyance of luggage, goods, coals, &c., to and from the said steamers ; and all steam vessels shall, when not loading or unloading, have their hatchways and scuttles covered over. The master or other persons in charge of the vessel, neglecting any of these orders shall be liable in a penalty not exceeding Forty Shillings for each offence.

X. All steamers shall have a bowline hitch upon their hawsers or fastening lines, that the lines may be easily thrown over the palls, and which shall be so fastened so as not to trip or interfere with the passengers. Masters or others in charge of steam vessels neglecting to comply with this regulation, shall forfeit and pay a penalty not exceeding Five Pounds.

XI. All masters, crews, and other persons are prohibited interfering with or interrupting passengers going to the steam boat, by endeavouring to induce them to take the passage by their respective boats ; but the masters and crews are required to remain either on board their respective boats, or at their gangways previous to the hour of sailing ; and masters and others shall not allow horns or bugles to be sounded until within five minutes of the hour of sailing of the respective boats. Any persons neglecting any part of this regulation, shall be liable in a penalty not exceeding Five Pounds.

BOATMEN.

I. No person to ply for hire as boatman at the port or harbours of Greenock, without being licensed by the authority of the Provost and Bailies of Greenock, under a penalty not exceeding Five Pounds.

II. Boatmen licensed as such, and plying for hire within the port and harbours, shall have their respective names, and numbers corresponding with the number of the license, painted in legible characters upon a conspicuous part of their respective boats, under a penalty not exceeding Five Pounds.

III. The Provost and Bailies shall, and they are hereby authorised, from time to time to fix the rates to be exigible by boatmen and others licensed as aforesaid, and the boatmen and others licensed as aforesaid shall not be entitled to charge higher rates than those specified in the table of rates, under a penalty not exceeding Forty Shillings for each offence.

IV. Boatmen licensed as such, shall be held responsible for the faithful discharge of the duty of the men employed by them, and shall, if required by the Provost and Bailies, be obliged to give bond for their good behaviour, under a penalty not exceeding Five Pounds.

CARTERS.

I. No carter, carman, barrowman, or porter, shall be permitted to ply for hire, on or around the quays or piers, without being licensed, by and under authority of the Provost and Bailies, under a penalty not exceeding Five Pounds for each offence.

II. Carters and carmen shall have their name and number marked in legible characters on their respective carts or cars, under a penalty not exceeding Five Pounds for neglect thereof.

III. Carters and carmen must have at all times a sufficient number or quantity of waterproof covers for the protection of goods on their carts or cars, and every carter or carman neglecting to have the necessary quantity of covers, shall forfeit and pay a penalty not exceeding Five Pounds.

IV. All fines, forfeitures, penalties, damages and expenses, mentioned in the preceding regulations, shall (when not otherwise directed) be sued for and recovered at the instance of the Procurator-Fiscal of the Police-Court of Greenock, before the Provost or any one of the Bailies of the said Town; and upon conviction of any offender it shall be lawful for the said Provost or any one of the Bailies to pronounce sentence, subjecting such offender to imprisonment in the Prison or Bridewell of Greenock, or to fine, or to such lesser punishment as may be deemed adequate to the offence committed.

POSTAGE STAMPS, &c.

As the system of paying Inland Letters has been done away with, the public must use Postage Stamps.

Stamps may be procured at the General Office, 3, Church Place, the Stamp-Office, and the Two Receiving-Houses.

The Penny Labels, ~	~	~	~	at 1d each.
The Twopenny Labels, ~	~	~	~	at 2d „
The Tenpenny Labels, ~	~	~	~	at 10d „
The Shilling Labels, ~	~	~	~	1s „
The Penny Envelopes, .	~	24	for 2s 3d, or 2 for 2½d.	

When the value of Stamps on a Letter is less than the amount of the postage to which it is liable, the Letter will be charged double the amount of such difference on delivery.

Stamps may be used for Printed Votes and Proceedings in Parliament, and on Foreign, Colonial, and Ship Letters, outwards. Letters for parts abroad posted with Stamps of less value than the full amount of Postage, if addressed to places to which prepayment is not compulsory, will be forwarded, charged with only such amount of Postage as shall be equal to the difference between the value of Stamps and the proper rate of Postage; but letters addressed to places abroad, to which prepayment is compulsory, if posted with Stamps of less value than the full amount of Postage, will be sent to the Dead-Letter Office, to be returned, in all practicable cases,

to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries.

These Regulations are applicable to Newspapers, in those cases where they are liable to Postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

Redirected Letters are charged an additional postage for each redirection, according to the Prepaid Scale.

Letters to Warm Climates should be sealed with wafers, as wax destroys the letters by melting, causing them to adhere to one another.

No Letter, when once posted, can be given up to any but the person to whom it is addressed, neither is any person allowed to alter the address of a letter after being posted.

Adhesive Stamps should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly in water, to shake off the water immediately, and to press the label upon the letter with a piece of clean blotting paper. When the gum is dull in appearance, it will require rather more time and moisture to make it stick firmly, than when it is glossy. The purpose of wetting the label wholly, is to counteract the tendency it has to curl up from the letter, when one side only is wetted, a tendency caused by the expansion of that side as it imbibes the moisture.

PRE-PAID RATES OF POSTAGE.

Letters not exceeding Half an Ounce in weight, 1d ; One Ounce, 2d ; Two Ounces, 4d ; Three Ounces, 6d ; and so on, two rates being added for every ounce. Inland Letters or Packets put unpaid into the letter boxes, are charged double the prepaid rates of postage. Letters having an insufficient amount of stamps affixed, are charged with double the amount of the difference between the stamps affixed and the prepaid rates.

LIMITATION OF WEIGHT.

A letter to pass unpaid by the post must not exceed Four Ounces. In the event of any unpaid letter above the weight of four ounces being posted, it will be charged with double the prepaid rates of postage ; if insufficiently paid, it will be charged with double the amount of the difference between the stamps affixed and the prepaid rates, and thus charged, "shall and may be detained and opened, and, at the option of the Postmaster-General, shall be either returned or given up to the sender thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination."—*Treasury Warrant*, 22d October, 1847.

LIMITATION OF SIZE.

A letter to pass by the post, either paid or unpaid, must not exceed the dimensions of twenty-four inches in length, or breadth, or

width, or depth. Any letter above these dimensions may, if fully paid, be detained and opened, or forwarded at the option of the Postmaster-General. Any letter unpaid, or insufficiently, will be taxed precisely after the scale of charge mentioned in the preceding paragraph, as applicable to unpaid letters exceeding four ounces weight, and thus charged, be either detained and opened, and returned to the sender, or forwarded at the option of the Postmaster-General. The only exceptions to the foregoing regulations as to size and weight are in the case of—1. Parliamentary proceedings or Addresses to her Majesty. 2. Petitions to either Houses of Parliament, forwarded to any Member of such House. 3. Printed votes or proceedings of Parliament. 4. Letters or packets to or from public departments or public offices in her Majesty's service. 5. Letters, &c., to or from places abroad.

All persons sending letters by the post unpaid, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a Magistrate.

Printed votes and proceedings in Parliament are charged at the following rate, between places in the United Kingdom, and between the United Kingdom and the Colonies, when conveyed by packet :—

Not exceeding 4 ounces,	~ ~ ~ ~	1d
Exceeding 4 ounces, and not exceeding 8 ounces,	~ ~ ~	2d
Exceeding 8 ounces, and not exceeding 12 ounces,		3d
And so on in proportion. Prepayment optional.

Letters for seamen and soldiers, whether in her Majesty's or the East India Company's military or naval service (while on actual service), may be forwarded, under the foregoing regulations, to India, China, &c., *via* Southampton. They can now be sent to India, *via* Marseilles, on payment of the British rate of 1d, besides the French rate of 5d, if under a quarter of an ounce, or 10d ex-

ceeding that weight, or to any foreign country, on payment of the foreign rate of postage in addition to the British rate of 1d as above.

Letters for seamen and soldiers forwarded by private ships (with the following exceptions :—St. Helena, East Indies, New South Wales, Cape of Good Hope, and Mauritius) are charged 3d each.

Letters of soldiers and seamen, addressed to the United States of America, will in future be chargeable with the American rate of five cents, or twopence-halfpenny sterling each, in addition to the ordinary British rate of one penny ; the postage of all such letters must be prepaid.

Warrant officers, either in the army or navy, or masters' mates, or engineers of the navy, are not entitled to transmit letters at less than the usual rates of postage.

Seamen's or soldiers' letters received from any part beyond sea, upon which the said penny has not been prepaid, shall be charged the receiver with double the rate—viz., 2d each.

RE-DIRECTED LETTERS FOR OFFICERS, SOLDIERS, AND SEAMEN.

Letters re-directed to commissioned officers in the army or navy, subject to foreign or colonial postage, may be forwarded to such officers when removed upon service (whether at home or abroad), and be delivered to them for the same amount of postage that would have been chargeable had they been delivered at their original address. In all other cases they are subject to the same regulation as ordinary re-directed letters. Soldiers' and seamen's letters are not liable to any additional rate upon re-direction.

The following Instructions have been addressed to all Postmasters, and are strictly acted upon:—

“General Post-Office.—On and after 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, or which you have any reason to believe contains, any of the following articles, viz.:—Any Glass, or Glass Bottle; any Razor, Scissors, Knife, Fork, or other Sharp or Pointed Instrument; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance; any Bladder, or other Vessel containing Liquid; or any article, matter, or thing whatsoever, which might, by pressure or otherwise, be rendered injurious either to the Officers of the Post-Office, or to the contents of the Mail Bags, you will refuse to receive such Letter or Packet.

“In the event of any Letter or Packet being taken in by you, and you do not, until afterwards, discover that it contains any article as above described, or should any such Letter or Packet be deposited in the Letter Box, you will not forward it to its destination, but you will detain it in your Office, and inform me by the first Post of the circumstances, stating the precise address of the Letter or Packet, and its contents, or what you suppose them to be, when proper steps will be taken in this Department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

“Should any Letter or Packet, containing any article as before-mentioned, not be discovered by the Postmaster at whose office it may be posted, but be forwarded on to its destination, the Receiving Postmaster, to whose town it may be addressed, upon discovering,

or having every reason to believe, that its contents are such as those alluded to, will not send it out for delivery, but will detain it in his office, reporting the circumstance by the first Post, and stating the nature of its contents, when he will be duly instructed in what manner to dispose of it."

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

All newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers or covers, after the same shall have been published, other than the name and address of the person to whom they are sent; nor anything enclosed or concealed in either newspapers or covers. News-venders only may print their names and addresses thereon. Newspapers may be examined by the Officers of the Post-Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage to which a letter of the same weight would have been liable. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanour.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.

"And be it further enacted, that in all cases in which a question shall arise, whether a printed paper is entitled to the privileges of a Newspaper, or other publication, hereby privileged, so far as respects the transmission thereof by the Post, under the Post-Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final."

MARKS OR WRITING ON NEWSPAPERS.

Writing or marks are allowed on a Newspaper passing by Post between any one part of the United Kingdom, and any other part, provided that a postage of one penny be paid, by means of a stamp conspicuously fixed outside the cover or folded Newspaper. But the privilege is confined to writing or marks on the Newspaper itself, and is not to extend to the cover. Any writing or marks other than the address on which, or (if the Postage be not prepaid as above) on the Newspaper itself, will subject the Newspapers to the same rate of Postage as that to which an unpaid letter of the same weight is liable.

Newspapers Posted in Town, addressed to any part within the town delivery, charged, paid or unpaid 1d.

Newspapers printed or published in any of the Channel Islands, or in the Isle of Man, and sent by the Post between any of such Islands and Great Britain or Ireland, or sent by the Post in Great Britain or Ireland, will be liable to the full letter rates of Postage, according to the scale for charging Inland letters, with the exception of such as are printed in the French language.

NEWSPAPERS FROM THE BRITISH COLONIES

are delivered free of Postage at any place within the British dominions. Those for persons who have removed, may be forwarded by Post free of charge, provided they have not been opened at the place to which they were originally addressed.

THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions by her Majesty's packet boats, free of the duty of postage, provided the same be duly stamped, made up open at the ends, and put into any Post-Office within seven days after the day of publication.

Newspapers may also be forwarded to the Colonies, by private ships, for a postage of One Penny each, and to Foreign Countries for a postage of Twopence each, to be paid when posted, under the same regulations as to date, &c.

For days of despatch and Rates of Postage, see the Alphabetical List of Foreign Countries, commencing at page 77.

NEWSPAPERS FROM ABROAD.

Newspapers arriving from British Colonies or "Foreign Parts," to which they are despatched free, are delivered free of postage, From places abroad, to which they are not despatched free, they are charged on delivery, Twopence each; excepting those brought by the closed mail through France, which are charged Threepence, or Fivepence each. All newspapers must be printed in the language of the country from which they are sent.

Printed Prices Current, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the Colonies and Foreign parts at One Penny each, provided they contain simply the names and prices of articles; the names and addresses of the parties dealing in such articles must be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written, or printed, immediately above the address; and any other writing than such address, name, initial, or mark for reference of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of postage.

Every Price Current to be posted within seven days after each publication; and no one can be forwarded a second time without being charged with full letter postage.

All other Prices Current, and Commercial Lists, published in the United Kingdom, if duly stamped, and under the weight of two ounces, will be treated as Newspapers, and enjoy the Newspaper privileges, the sanction of the Postmaster General having been previously obtained.

Printed Prices Current, and Commercial Lists, from the British Colonies, France, Belgium, and Holland, are now admitted into the United Kingdom at the reduced rate of 1d each, whether conveyed by Packet or by Private Ship.

Printed Prices Current, and Commercial Lists, from any foreign country, except France, Belgium, Holland, Prussia, and China, are admitted into the United Kingdom at the reduced rate of 2d each.

Prices Current, and Commercial Lists, from the British Colonies, passing through the United Kingdom, are liable to a Postage of 2d each, to be paid at the time of being posted.

Prices Current, and Commercial Lists, from the British Colonies, passing through France, Belgium, or Holland, to the United Kingdom, are liable to a Postage of 2d each.

Printed Prices Current, and Commercial Lists, to China, via Southampton, 2d each; via Marseilles, 3d each. From China, via Southampton, 3d each; via Marseilles, 5d each.

REGISTRATION.

Letters, whether containing Coin or not, can be registered, on payment of a fee of 6d, in addition to the rates of Postage, Inland, Colonial or Foreign. On those for delivery in France, the charges, besides the registration fee, will be the English rate to France, in addition to double the French rate. On those to Prussia, or passing through Prussia, the Prussian registration fee of 3d must be paid, in addition to the British. On those to Russia and Poland, *via* Belgium, an additional rate of 3½d under ½ oz., 7d under 1 oz., &c. Thus, for a letter not exceeding ½ oz, the charge will be ordinary postage, 11½d; additional postage 3½d; British registration fee, 6d; Prussian do. 3d; total, 2s. A printed acknowledgment will be given to any person registering a letter. Registered letters will be taken at the Bar window and the Receiving Houses within half-an-hour of the closing of the box for the particular mail by which they are to be despatched. Letters for Registration addressed to places within the United Kingdom, must be paid by affixing a sufficient number of stamps, and the registration fee must be paid in stamps; when addressed to parts abroad, they may be paid either in money, or by means of postage stamps.

In case of Foreign, Colonial, or Ship Letters, it must be clearly understood that registration can only extend to the port of shipment. Letters, however, addressed to France, and letters passing through France, are exceptions to this rule, the French post-office undertaking to provide for their security till they shall have been delivered, if addressed to France, and as long as they remain in the French territory, if passing through France.

The arrangements for carrying out the system of registration have been made with the view of insuring the safe delivery of registered letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge, in writing, their receipt. Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, &c., should invariably secure their transmission by registration; and persons having occasion to send by post small sums, are recommended to make use of

THE MONEY ORDER OFFICE,

which is open every week day, fast days excepted, from 9 a.m. till 6 p.m. The charge for such orders is 3d on sums not exceeding two pounds, and 6d on sums between two and five pounds. No order will be given for sums beyond this amount; but if the sum to be transmitted exceeds five pounds, as many orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an order is payable is inconvenient, if the order is receipted (his or her name written in full) and the person presenting the order be able to give full information as to the Christian name, surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person, unless the Christian name of such person can be given by the party obtaining the order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. In cases of Firms the initials only are required.

A Money order must be presented for payment before the end of the second calendar month after that in which it was issued, (for instance, if issued in January, it must be presented before the end of March,) otherwise a new order will be necessary, for which a second commission must be paid; and if it be not presented for payment before the end of the twelfth calendar month after which it was issued, the money will not be paid at all.

After an order has been once paid, by whomsoever presented, the office will not be liable to any further claim.

The towns upon which Money Orders can be drawn are marked in the lists.

GREENOCK GAS WORKS.

REGULATIONS FOR CONSUMERS OF GAS BY METER.

I. **W**HEN Gas is supplied by measure, the charge will be 5s. per 1000 cubic feet; payable on the 15th November, 15th January, and 15th May, of each year, subject to the undernoted graduating scale of Discounts, which will be deducted from the payment in May, viz. :—

When the Gas passing through any one Meter per annum amounts to

£1, and is under £10	2½ per cent.
10, " " 30	5 " "
30, " " 60	7½ " "
60, " " 100	10 " "
100, " " 150	15 " "
150, and upwards,	20 " "

No Discount to be allowed unless the first payment be made on or before the 15th November, the second on or before the 15th January, and the third on or before the 15th May, OR AT THE FIRST CALL THEREAFTER; and if the accounts are not paid within a reasonable time after either of the aforementioned dates, the Committee may order the supply to be turned off until payment be made. The Committee likewise reserve power to demand security, or to exact payment in advance, *whenever they think necessary.*

II.—A service-pipe will be laid at the expense of the Works, from the main pipe to line of street, and if necessary to continue it farther, it will be optional to consumers, either to pay for the same, or 7½ per cent. annually on the cost.

III.—All interior fittings of every description to be done at the expense of the Proprietor, by gas pipe fitters alone, who have been duly authorised as such by the Committee of Management. The gas pipe fitters, on no account, to proceed to fit up meters, or to make any alteration in their situations, without a special order from the Manager. The fittings to be approved of before the gas is let on, and subject at any after period to the inspection of the Manager, or any other person appointed by him for that purpose, who is to have access at all reasonable hours.

IV.—No gas meters will be allowed to be used but such as are furnished by the Works; the expense of fitting them up in all cases will have to be borne by the consumer. It will be optional for consumers either to purchase or rent the meter; if purchased, it will be given at prime cost, and all repairs and cleansing will have to be borne by the Proprietor. When returned by him to the Works, a deterioration of 1s. per annum for the smallest size (other sizes in proportion) will be deducted from the selling price of the meter at the time of re-purchase. If rented, the charges will be as follows :—10 in. 1s. 6d.—No. 1, 2s.—No. 2, 4s.—No. 3, 5s.—No. 4, 6s.—No. 5, 7s.—all per annum; in this latter case the cleaning and repairs will be at the expense of the Works.

V.—No transference of meters can take place until the amount of gas used by the previous occupant be paid for, at least to the extent of the value of the meter, when it belongs to the consumer.

VI.—The Manager, or any other person appointed by him, to have free access at all reasonable hours to ascertain the quantity of gas consumed ; to supply the meter with water ; to examine the same, and, if necessary, remove and cleanse it at the expense of the owner. No person will be allowed, on any account, to remove or disconnect the meter but the servants in the employment of the Works.

VII.—If at any time it be ascertained that the meter has not registered the quantity of gas consumed, or from any other cause it may be found necessary to supply gas temporarily without meter, the Manager to have the power to charge for the gas consumed during the time it was supplied, and not correctly registered, in the same proportion as the consumption was either before or after that time.

VIII.—The Committee of Management will not hold themselves responsible to consumers for loss arising from suspension of the supply of gas, whether such suspension is occasioned by accident to the Works, or from any other unavoidable cause.

IX.—The Committee reserve power, in case of fraud by consumers, to discontinue the supply of gas, without any previous intimation being given.

INSTRUCTIONS TO CONSUMERS.

N.B.—During the continuance of severe frost, all meters placed in exposed situations should be wrapt round with a piece of flannel or woollen cloth, to prevent the water in the meter from freezing, and in order to insure a supply of gas.

All burners should be cleaned once every month, in order to preserve equality in the height of flame, and to prevent smoke. Argands, union, and single jets may be cleaned with a piece of strong bristle, batwings with a piece of watch spring or cut paper. When a burner becomes enlarged through length of use or frequent cleaning, it should be removed and replaced by a new one.—If these instructions are not attended to, much smoke and a useless expenditure of gas will be the consequence.

It is particularly requested, that when a smell of gas is felt, immediate notice thereof, verbally or in writing, should be left in the Office at the Gas Works, 27, Crawford Street, Glebe ; and every precaution should in the meantime be taken to prevent any one approaching with a light the situation where the gas is accumulating, especially if the smell arises from a cellar or any other confined place.

**Consumers are specially requested to shut the Stop-Cock
before the Meter when not using Gas.**

James Peddie, Esq., W.S.

The only Office in which the advantages of Mutual Assurance or Participation in the Profits, are given in combination with a moderate rate of premium. The Assured are at the same time specially exempt from personal liability.

In many Offices Assurers are offered *the choice* of a moderate Scale of Premiums, without any claim to share in the profits—or, of a right to participate in these, at an excessive rate of Premium. Assurers with the SCOTTISH PROVIDENT INSTITUTION are the *sole recipients* of the Profits, and at rates of Premium equally moderate with those of the *Non-participating Scale* of the Proprietary Companies.

The principle on which the profits are divisible, is at once safe, equitable, and favourable to good lives—the Surplus being reserved *for those Members alone* who have made surplus payments; in other words, for those whose Premiums, with Accumulated Interest, amount to the sums in their Policies.

In all points of practice—as in provision for the indefeasibility of policies, facility of license for travelling or residence abroad, and of obtaining advances on the value of the Policies—the regulations of the Society, as well as the administration, are as liberal as is consistent with right principle.

Examples for Annual Premium for Assurance of L.100 at Death.

By both Scales, the Assured are entitled to share in the Whole Profit.

SUN COURT, CORNHILL, AND NO. 5, ST. JAMES'S STREET, LONDON,

INSTITUTED 1803,

FOR Insuring Houses and other Buildings, Goods, Wares, Merchandise, Manufacturing and Farming Stock, Ships in Port, Harbour, or Dock, and the Cargoes of such Ships; also, Ships Building and Repairing; Barges and other Vessels, on Navigable Rivers and Canals, and Goods on board such Vessels, throughout Great Britain and Ireland, and in FOREIGN COUNTRIES, FROM LOSS OR DAMAGE BY FIRE. Subscribed and Invested Capital,

ONE MILLION FIVE HUNDRED THOUSAND POUNDS.

N.B.—Policies transferred from other Offices without expense to the Assured.

Imperial Life Assurance,

FOR INSURANCE OF

LIVES AND ENDOWMENTS OF CHILDREN,

AND ALSO FOR

PURCHASING ANNUITIES ON LIVES,

SUN COURT, CORNHILL, AND ST. JAMES'S STREET, LONDON.

CAPITAL, £750,000.

Persons insuring in this Office will derive two important advantages. First, the most effectual security is provided for payment of Losses. Not only will the premiums received upon Policies be carefully invested and accumulated for that purpose, but a Capital of £750,000 has been subscribed to answer any possible deficiency. Secondly, upon every Policy effected for the whole term of life, the insured will participate in the Profits of the Company, by having periodical additions made to the sums insured to the amount of *Four-fifth Parts* of such clear Gains and Profits. At the same time they will be protected by the ample Capital above mentioned from any chance of loss.

Life Assurance is admitted to be an object of great importance to every class of Society, but more especially to persons in Professions and Trades, or having Offices, Employments, Estates, or other Incomes, which may cease or terminate with their lives, since it enables them, out of their annual income, to secure a capital at their decease to their Families and Representatives, which, owing to the uncertainty of life, they might not be enabled to realise by industry or economy. A fund for a *Marriage Settlement* may thus be insured by those who are not possessed of independent property. Fines payable on Leases or Copyholds for Lives, may be provided for by insurance. Persons entitled to Reversions upon the contingency of surviving others, may secure the value of the contingency. Creditors may secure debts by insuring the life of the Debtor. And various other benefits are derived from the Insurance of Lives. Endowments for Children, on their attaining a given age, may be purchased of the Company, either by gross or annual payments.

If any Person should become desirous of discontinuing an Insurance effected at this Office for the whole term of Life, the Company will purchase the interest in such Policy at a fair price. All claims upon Policies will be paid within three months after satisfactory proof shall have been produced of the death of the Person upon whose life Insurance has been effected. No Entrance-money nor Fine of Admission is charged, except in the case of non-appearance at entry.
