THE PROPRIETORS trust that a perusal of this the First Edition of the GREENOCK ANNUAL POST-OFFICE DIRECTORY will make manifest the exertions that have been made on their part to render the work worthy of extensive support.

It is the wish of the Proprietors to supply a desideratum that has been long felt—the want of an annual publication. Their ability to accomplish this will depend chiefly on the amount of public patronage, and, to secure that, they have resolved to publish the work at a very low price. Should it meet with the encouragement that is anticipated, it shall be the endeavour of the Proprietors in their future editions to employ the opportunities afforded by their situations to collect every species of information calculated to prove useful to the public. The Letter-Carriers possess advantages and facilities peculiar to themselves for the accurate preparation of a work of this kind, and no exertions shall be spared by them to render the GREENOCK ANNUAL POST-OFFICE DIRECTORY well worthy of public support, and in fact to make it an indispensable article in every place of business.

ALMANACK AND TIDE TABLE.

JULY 1847 TILL JULY 1848.

ON the subject of the Tides, we may remark that they are effected by the unequal attraction of the sun and moon, but chiefly that of the latter object. The times of high water do not always answer to the same distance of the moon from the meridian at the same places, but are variously affected by the action of the sun, which brings them on sooner when the moon is in her first and third quarters, and keeps them back later when she is in her second and fourth; because, in the former case, the tides, raised by the sun alone, would be earlier than that raised by the moon, and in the latter case, later. When the moon is in perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most; the contrary happens when she is in apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when the moon is in conjunction with the sun, the tides are raised by the joint attraction of both luminaries, and therefore will be highest; the same is the case at full moon, when the sun and moon are in opposition; for whilst the moon raises the tides under and opposite to her, the sun, acting in the same line, raises the tides under and opposite to him, whence their conjoint effect is the same as at the change, and in both cases occasions what are called Spring Tides. But at the quarters, the sun raises the tides when the moon depresses them, and depresses them when they would be raised by the moon; hence it is the difference of their actions that produces the tides at the quarters, and these are called Neap Tides. But these tides do not happen till a day or two after the above times; because in this, as in other cases, the effect is not greatest or least when the immediate influence of the cause is greatest or least, but sometime afterward.

The sun being nearer the earth at the beginning than at any other time of the year, his attraction will then be most powerful, and of course, about January, the spring-tides will be greater than at any other time, and greatest of all if the moon at the same time happen to be in perigee.

When the moon is in the equinoctial, the tides are equally high in both parts of the lunar day; but as the moon declines from the equinoctial towards either pole, the tides are alternately higher and lower at places having north or south latitudes. Whilst the moon has north declination, the greatest tides in the northern hemisphere are when she is above the horizon, and the reverse when her declination is south. The time and elevation of high water at Glasgow, are considerably affected by high winds in the Clyde. From the form and course of the Frith, it will be easily seen that a gale from the N.N.W.

or N.W., by opposing the flow of the tide, will cause the time of high water to be earlier, and height of the tide to be less, than it otherwise would be ; while a gale from the S.S.E. or S.E. would have an effect quite the contrary, so as sometimes to make the tide vary considerably from the time noted in the table.

The time of high water at any of the following places may be found by applying the correction opposite the name to the time of high water at Glasgow. Should the time to be subtracted be too great, add 12 to the time of high water at Glasgow, and then subtract ; the remainder will be the time of high water required in the preceding forenoon, if the afternoon tide at Glasgow is used ; but if the forenoon tide is used, the remainder will be the time of high water at the given place in the preceding afternoon. If, after addition, the sum exceed 12 hours, reject 12, and the remainder is the time of high water in the afternoon, if the preceding forenoon tide has been used ; but if the afternoon tide has been used, the remainder is the time of high water in the forenoon of next day.

The following Instructions have been addressed to all Postmasters, and are strictly acted upon :—

“ GENERAL POST-OFFICE.—On and after the 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, *or which you have every reason to believe*, contains any of the following Articles, viz. :—Any Glass or Glass Bottle ; any Razor, Scissors, Knife, Fork, or other Sharp or Pointed Instrument ; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance ; any Bladder or other Vessel containing Liquid ; or any article, matter, or thing whatsoever, which might, by pressure or otherwise, be rendered injurious either to the Officers of the Post-Office, or to the contents of the Mail Bags,—*you will refuse to receive such Letter or Packet.*

“ In the event of any Letter or Packet being taken in by you, and you do not, until *afterwards*, discover that it contains any Article as above described, or should any such Letter or Packet be deposited in the Letter Box, *you will not forward it on to its destination, but you will detain it in your Office, and*

inform me, by the *first Post*, of the circumstances, stating the precise Address of the Letter or Packet, and its contents, or what you suppose them to be, when proper steps will be taken in this Department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

“ Should any Letter or Packet, containing any Article as before mentioned, not be discovered *by the Postmaster at whose Office it may be Posted*, but be forwarded on to its destination, the *Receiving Postmaster*, to whose Town it may be addressed, upon discovering, *or having every reason to believe*, that its contents are such as those alluded to, *will not send it out for delivery, but will detain it in his Office*, reporting the circumstance *by the first Post*, and stating the nature of its contents, when he will be duly instructed in what manner to dispose of it.”

NEWSPAPERS, AND SUPPLEMENTS TO NEWSPAPERS.

ALL Newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers or covers after the same shall have been published, other than the name and address of the persons to whom they are sent ; nor anything enclosed or concealed in either newspaper or cover. News-venders *only* may *print* their names and addresses thereon. Newspapers may be examined by the Officers of the Post-Office ; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage to which a letter of the same weight would have been liable. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanour.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.

“ And be it further enacted, that in all cases in which a question shall arise whether a printed paper is entitled to the privileges of a Newspaper or other publication hereby privileged, so far as respects the transmission thereof by the Post under the Post-Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final.”

NEWSPAPERS FROM THE BRITISH COLONIES

Newspapers may also be forwarded to the Colonies by Private Ships for a Postage of One Penny each, and to Foreign Countries for a Postage of Twopence each, to be paid when posted, *under the same regulation as to date, etc.*

For days of despatch and Rates of postage, see the Alphabetical List of Foreign Countries, in a subsequent page.

From places abroad, to which they are *not* despatched free, they are charged, on delivery, *Twopence* each; excepting those brought by the Closed Mail through France, which are charged *Threepence* or *fivepence* each. *All Newspapers must be printed in the language of the country from which they are sent.*

PRINTED PRICES CURRENT, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the Colonies and Foreign Parts at one penny each, provided they contain simply the names and prices of articles; the names and addresses of the parties dealing in such articles must be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written or printed immediately above the address; and any other writing than such address, name, initial, or mark for reference of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of postage.

Every Price Current to be posted within *seven days* after each publication; and no one can be forwarded a *second* time without being charged with full letter postage.

All other PRICES CURRENT, AND COMMERCIAL LISTS, published in the United Kingdom, *if duly stamped*, and *under the weight of two ounces*, will be treated as Newspapers, and enjoy the Newspaper privileges; *the sanction of the Postmaster-General having been previously obtained.*

PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, passing through France, Belgium, or Holland, to the United Kingdom, are liable to a Postage of Twopence each.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, to China, *via* Southampton, 2d. each ; *via* Marseilles, 3d. each. From China, *via* Southampton, 3d. each ; *via* Marseilles, 5d. each.

REGISTRATION.

Letters, whether containing Coin or not, can be registered, on payment of a fee of ONE SHILLING, in addition to the Rates of Postage, Inland, Colonial, or Foreign. On those for delivery in France, the charges besides the Registration fee of One Shilling, will be the English rate to France, in addition to double the French rate. A printed Acknowledgment will be given to any person registering a letter. Registered Letters will be taken at the Bar Window and the Receiving-Houses within half an hour of the closing of the Box for the particular Mail by which they are to be despatched. Letters for Registration, bearing a sufficient number of Stamps, will be considered Paid Letters ; but the fee of one shilling must always be paid in money.

In the case of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the Port of Shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post Office undertaking to provide for their security till they shall have been delivered, *if addressed to France, and so long as they remain in the French territory, if passing through France.*

The arrangements for carrying out the system of Registration have been made with the view of ensuring the safe delivery of Registered Letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge in writing their receipt. *Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, etc., should invariably secure their transmission by Registration ; and persons having occasion to send by Post small sums, are recommended to make use of*

THE MONEY ORDER OFFICE,

Which is open *every week-day, fast days excepted, from 9-30 a.m. till 5-30 p.m.* The charge for such Orders is threepence on sums not exceeding *two pounds*, and sixpence on sums between *two and five pounds*. No order will be given for sums beyond this amount ; but if the sum to be transmitted exceed *five pounds*, as many orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an order is payable is inconvenient, if the order is receipted (his or her name written in full), and the person presenting the order be able to give full information as to the Christian name,

surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person unless the Christian name of such person can be given by the party obtaining the money. Orders cannot be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. ; in cases of *Firms* the initials only are required.

The towns upon which money orders can be drawn, are marked in the lists.

COLONIAL AND FOREIGN MAILS.

A single rate of Postage is given for each country.—See also alphabetical List, page 28.

To those Countries marked “o,” the payment is obligatory by the respective routes.

There being no bags despatched for London on Friday nights, and at mid-day Saturday, when any of the dates for the London, Southampton, or Dover Packets, fall upon that day, reference must be made to the alphabetical list for information whether the letters should be posted on the Friday at mid-day, or on the ensuing Sunday.

Letters for Foreign Countries, the pre-payment of which is required, when put into the unpaid box, or left at the office with less than the full postage, are sent to the Dead Letter Office, and returned to the writer, when his address can be ascertained.

FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary form, before the Justice of Peace Court, to the extent of £5 ; and, before the Sheriff Courts, to the extent of £8 6s. 8d.

The first step is to set forth, in a complaint or libel, agreeably to a prescribed form, [the Clerks of Court will provide the necessary forms,] the origin of the debt, or ground of action ; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses, and to use arrestments.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise ; but in no case by persons practising the profession of the law, without special leave.

If the defender fail to appear, after being cited personally, he will be held as confessed, and judgment will be given against him.

In the Justice of Peace Court, if the defender has not been cited personally, he will receive a second citation ; after which, whether given personally or not, he will be held confessed, as above ; but in the Sheriff Court only one citation is given.

But, when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a re-hearing, on consigning the sums decerned for.

If decree in absence be given against the pursuer, he may, within one month, obtain a re-hearing, on consigning 2s. 6d., if the case be before the Justices ; and the expense decerned for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned, upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender in his personal presence, diligence may proceed against him by arrestment instantly ; and by poinding and sale, at the end of ten days.

If decree be given against the defender in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decreed for by instalments.

The decrees of the Sheriff may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestments used in cases before the Sheriff, must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitor, or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrestments; but in such actions, both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form, by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary, or, if there be no Circuit Court, by the High Court of Justiciary, at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable by a reduction before the Court of Session, on the ground of malice and oppression, on the part of the Justices; and such reduction will only be competent for one year, and finding caution for costs.

No person shall be exempted from the jurisdiction of Justices or Sheriffs, in such cases, by reason of privilege as a member of the College of Justice.

PROPERTY AND INCOME TAX.

The intent of this Act is to charge an annual duty of 7d. in the pound on all profits arising from property, professions, trades, offices, annuities, pensions, and other sources of income in Great Britain, excepting where the income is less than £150; but it can hardly be said that any person who realises income from *property* is exempt, however small the amount may be; for, notwithstanding the Act ultimately exempts all those whose total income is less than £150, yet it in the first instance imposes the duty, irrespective of the amount of such income, if derived in rents, or profits from land; these, be they ever so small, are to be paid by the occupier for the owner; but if the total income of such owner from this and other sources does not amount to £150, he will be able to claim the repayment of the tax paid, on following the directions given in Section 164. So also will the tax in the first instance have to be deducted from all *annuities, dividends*, and other sources of income payable through other parties, unless the half-yearly payment be less than £2 10s. (§ 164, 165.) Incomes, however, derived from *trade, professions*, or other sources entirely in their own hands, will avoid payment in the first instance, and if the total amount be less than £150 per annum, will obtain exemption on following the rules in Section 163-5.

THE ACT IS DIVIDED INTO SCHEDULES.

Under Schedule (A.), is charged yearly, “in respect of the property thereof,” (as distinguished from “occupation,”) 7d. for every pound of annual value of heritable property, (§ 60). Lands to be valued at the rack rent, or full annual value.

Quarries, iron works, docks, canals, tolls, railways, &c. to be valued on the profits of the *preceding year*; mines on the average of five previous years. Lands, &c. to be charged on the tenant, and deducted by him from his rent, excepting houses under £10 annual value, and lands, &c., let for less than one year, which are to be assessed upon the landlord. Where lands are subject to *annuities, rent charges*, or other yearly payment, the owner or landlord may deduct the duty out of such payment. Mortgagees or creditors in possession to be charged as occupiers; but when not in actual occupation, are liable to such deduction as any other landlord.

Schedule (B.) (§ 63,) gives an annual charge *in respect of occupation* of lands as farms, in *Scotland*, of 2½d. for every pound yearly value; but income from occupation of lands is to be deemed only equal to nearly one-third of the full yearly rent, so the occupier will claim exemption under £150, if his rent does not exceed £420, and he be not otherwise brought under the operation of the Tax.

Schedule (C.) (§ 88,) imposes a duty of 7d. in the pound upon annuities and dividends payable out of any public revenue, if the sum exceed £2 10s. as previously explained. These duties are to be paid by persons and corporations intrusted with payment of annuities, dividends, &c., and apply to every annuity payable in *Great Britain* out of any public revenue in Great Britain, or any foreign public revenue. All annuities payable *in Ireland*, out of the public revenues, to or for behoof of any individual, *not resident* in Ireland, will also be charged. (§ 91.)

Schedule (D.) (§ 100,) charges a tax of 7d. in the pound upon the annual profits of professions, trades, manufactures, and adventures exercised in Great Britain, and not included in the foregoing and subsequent Schedules; and also upon persons resident in Great Britain deriving incomes from other places. The annual profits or gains are to be computed on the full amount of the balance of the profits and gains on a just average of three years, ending on the usual day of making up accounts, or on the 5th April; or if the trade, &c., commenced within the period of three years, or within the year of assessment, then the computation is to be made on *one year or less*. No deductions to be made for repairs of premises, or repairs or alterations of implements, &c., beyond the average expenditure of three years; nor on account of any capital withdrawn; nor for any capital added or employed in improvement of premises; nor on account of any interest which might have been realised if laid out at interest; nor for any debts, except such as are proved to be bad; nor for any average loss beyond the actual amount; nor for any sum recoverable under an insurance or contract of indemnity. No deduction is allowed to be made on account of any annual interest, annuity, or other annual payment out of profits or gains, but the duty paid on such interest, &c., is to be allowed by the individual to whom it is payable, on a

certificate granted by the Commissioners. Neither is any deduction to be made for any disbursements except for the purposes of such trade, &c. The duty on the profits of each trade, &c., is to be calculated exclusive of the profits from lands or tenements occupied for such purpose. Individuals being engaged in two or more trades, &c., may set the loss sustained in either against the profits acquired in any other. The charge on *Professions* and *Employments* is to apply to every employment, whether annual or for a longer or shorter period, and to all profits or earnings of whatever value; the duty to be charged is to be calculated at the full amount of the balance of the profits, gains, and emoluments of such professions, employments, or vocations within the present year, ending on the usual day of making up accounts, or on the 5th of April; or if commenced within such preceding year, the computation to be made on a shorter period. The rules relative to trades, are also, where applicable, to apply to professions, &c.; and if the actual income fall short of the amount assessed, the Commissioners of Stamps and Taxes are empowered to order the repayment of duties on the sum allowed.

INTEREST derived from *Securities in Ireland, or the Colonies, or Foreign Securities*, not assessed in Schedule (C.), are to be charged on the full amount of the sum (as near as they can be computed), which are received in Great Britain in the current year, without any deduction.

INCOME arising from *Possessions in Ireland, or the Colonies, or Foreign Securities*, are to be charged on the full amount of the actual sums yearly received in Great Britain, either for remittances or from property imported, or from money or value received in Great Britain on an average of the three previous years.

INTEREST on money borrowed is, according to the rules under Schedule (D.), Section 100, to be charged and paid by parties "receiving or entitled to the same," but by the *proviso* in the 102d Section, all annuities, annual interest, and other yearly payments payable out of profits "brought into charge by virtue of this Act," are excepted from the general rule, and the duties are made chargeable in the first instance upon the persons entitled to the profits out of which such interest or other annual sums are payable; but the persons so charged are authorised to deduct from the interest or other annual sums payable by them, the amount of the duties so paid; and the general application of Section 102 will probably be found to be in cases of interest on money borrowed for the purposes of trade. By the 4th rule, 1st case, Schedule (D.), it is expressly stated that no reduction shall be made for such interest: it is therefore necessary for the profits to be calculated and assessed as if wholly derived from the capital of the trader, and then he will, under the 102d Section, be able to protect himself from the overcharge to which he would otherwise be subjected; and it will equally apply to an annuity of a

retired partner, or the widow or family of a deceased partner. To ascertain whether any particular payments are included in this enactment, the question can be decided under the 104th Section.

The duties may be *compounded for three years*, the period for the operation of this Act, which relieves the necessity of annual declaration or return ; for which *see Sections 143, 144.*

Schedule (E.) imposes a duty of 7d. in the pound upon every public office or employment of profit, and upon all pensions and stipends paid by her Majesty, or out of the public revenue, except annuities named in Schedule (C.), (*see Section 146.*) The duties on perquisites, fees, &c. are to be assessed on an average of *three years* or of *one year*, as in previous Schedules, and in case of non-payment the amount may be stopped at the office at which the salary, &c., may be payable.

Exemptions of persons whose income is less than £150. Any person charged either by assessment or by deduction from any payment to which he may be entitled, can, on proving to the Commissioners for General Purposes that the total annual amount of his income is less than £150, be repaid the amount of all deductions or payments made on account thereof. *See Sections 164-5.*

Private Assessment by Special Commissioners is remitted by Section 131, and to effect this they are to deliver such requests with a statement of profits, which may be *under seal* (*see Section 110*), to the assessor, who must transmit it to the inspector or surveyor for inspection, and if approved, the Commissioners will direct the party so assessed to make payment to an appointed officer. These provisions, as well as those contained in Section 137, seem to be intended to obviate a grievance to which persons engaged in trade or professions would otherwise be liable, and were so much objected to under the former Income Tax—the exposure to collectors of the amount of profits returned, and its possible disclosure to neighbours or rivals.

THE SCOTTISH PROVIDENT INSTITUTION.

FOR ASSURANCE AND ANNUITIES ON LIVES.

Archibald Thomson, Esq.
Charles Black, Esq.

THE Report by the Directors to last General Meeting contained the following gratifying statement of the progress of the Institution :—

During the year, 416 New Policies, assuring a sum of £191,102, were opened; the Annual Premiums amounting to £5483. Since the commencement, 2520 Policies have been issued, covering Assurances to the extent of upwards of £1,150,000. The existing Assurances were £984,463, and the Annual Income considerably exceeded £30,000.

The experience of the Institution in regard to mortality, has been throughout most favourable. Reckoning from the commencement, only 68 deaths have actually occurred for every 100 that might have been expected according to the Government Table, while the actual number has been less than a half of what would have occurred, according to the Northampton Table.

On the motion of Mr DUNCAN, Manager of the National Bank, seconded by Mr HECTOR, Advocate, the Report was unanimously approved of.

And on the motion of Mr WHITEHEAD, Master of the Merchant Company, thanks were voted to the Directors for their services during the past year.

THE SCOTTISH PROVIDENT INSTITUTION, THE ONLY OFFICE IN WHICH THE ADVANTAGES OF MUTUAL ASSURANCE CAN BE OBTAINED AT MODERATE PREMIUMS.

ILLUSTRATION OF ADVANTAGES.

1st, The Annual Premium charged, say at age, 30, for Assurance of £1000, is £20 15s (as low as in any of the *non-participating* Offices.) In the older Mutual Offices this Premium would secure no more than £812. For a Policy of £1000 there would be charged in these a Premium of £25 10s. 10d. This amount of Premium, if paid to the SCOTTISH PROVIDENT INSTITUTION, would secure from the first, a Policy for £1230.

2d. The whole Surplus belongs to the Assured, and is divisible upon a principle at once safe, equitable, and peculiarly favourable to good lives, *being reserved for those Members who survive the period at which their Premiums, with accumulated interest, amount to the sums in their Policies*, and by whose larger payment the Surplus is in fact created. It is obvious that, on this principle, a comparatively small surplus will afford a larger Bonus than according to the usual mode of division.

AT THE FIRST INVESTIGATION, A SURPLUS OF £30,485 WAS DECLARED, AFTER PROVIDING FOR ALL CLAIMS.

Copies of the Report, and every information, may be had on application.

JAMES WATSON, Manager.

No discount to be allowed unless the first payment be made on or before the 15th November, the second on or before the 15th January, and the third on or before the 15th May, OR AT THE FIRST CALL THEREAFTER; and if the accounts are not paid within a reasonable time after all of the aforementioned dates the Committee may order the supply to be turned off, until payment be made. The Committee likewise reserve power to demand security, or to exact payment in advance, whenever they think necessary.

II.—A service-pipe will be laid at the expense of the Works, from the main-pipe to inside of the house; and in cases where houses are divided into floors, the service-pipe will be continued up the stair-case, if approved of by the Committee.

III.—All interior fittings of every description, with the exception of the stair pipes aforementioned, to be done at the expense of the consumer, by gas pipe fitters alone, who have been duly authorised as such by the Committee of Management. The gas pipe fitters, on no account, to proceed to fit up meters, or to make any alteration in their situations, without a special order from the Manager. The fittings to be approved of before the gas is let on, and subject at any after period to the inspection of the Manager or any other person appointed by him for that purpose, who is to have access at all reasonable hours.

IV.—No gas meters will be allowed to be used but such as are furnished by the Works. *These are supplied gratis*, but the expense of fitting up is borne by the consumer.

V.—The Manager, or any other person appointed by him, to have free access at all reasonable hours, to ascertain the quantity of gas consumed; to supply the meter with water; to examine the same, and, if necessary, remove and cleanse it at the expense of the owner. No person will be allowed, on any account, to remove or disconnect the meter, but the servants in the employment of the Works.

VI.—If at any time it be ascertained that the meter has not registered the quantity of gas consumed, or from any other cause it may be found necessary to supply gas temporarily without meter, the Manager to have the power to charge for the gas consumed during the time it was supplied, and not cor-

rectly registered, in the same proportion as the consumption was either before or after that time.

VII.—The Committee of Management will not hold themselves responsible to consumers for loss arising from a suspension of the supply of gas, whether such suspension is occasioned by accident to the Works, or from any other unavoidable cause.

VIII.—The Committee reserve power, in case of fraud, by consumers, to discontinue the supply of gas, without any previous intimation being given.

N.B.—During the continuance of severe frost, all meters placed in exposed situations should be wrapped round with a piece of flannel or woollen cloth, to prevent the water in the meter from freezing, and in order to insure a supply of gas.

All burners should be cleaned once every month, in order to preserve an equality in the height of flame, and to prevent smoke. Argands, union, and single jets, may be cleaned with a piece of strong bristle, batwings with a piece of watch spring or cut paper. When a burner becomes enlarged through length of use or frequent cleaning, it should be removed and replaced by a new one. If these instructions are not attended to, much smoke and a useless expenditure of gas will be the consequence.

It is particularly requested, that when a smell of gas is felt, immediate notice thereof, verbally or in writing, should be left in the Office at the Works, 12, Crawford Street, Glebe, and every precaution should in the meantime be taken, to prevent any one approaching with a light, the situation where the gas is accumulating, especially if the smell arises from a cellar or any other confined place.

Consumers are requested to shut the stopcock *before* the meter, when not using gas.

THE WESTERN INSURANCE COMPANY OF SCOTLAND having effected an Amalgamation with the NORTH OF SCOTLAND FIRE AND LIFE ASSURANCE COMPANY, the Business of the United Companies will henceforth be carried on in Glasgow, and at the Agencies in the West of Scotland, under the Firm of

THE NORTH AND WEST OF SCOTLAND FIRE AND LIFE ASSURANCE COMPANY ;

and the particular attention of the Public is now called to the great advantages which the union of interests thus makes available to Assurers.

The NORTH OF SCOTLAND COMPANY—which was formed in the year 1836—has now established a most successful business in both Fire and Life Assurance, and in the Life Department its success is justly attributable to the *sound principles* upon which it is based—the *liberality* displayed in its transactions—and the *beneficial mode* in which its Funds have been invested.

The NORTH AND WEST OF SCOTLAND ASSURANCE COMPANY accordingly holds out all the advantages afforded by Mutual Assurance Companies.

NINE-TENTHS OF THE PROFITS are divided quinquennially among the Assured, on the participation scheme, who have the security of a large paid-up Capital and accumulated Funds, and are, at the same time, freed from all responsibility in the form of guarantee.

The Bonus already declared on Policies opened prior to 30th April, 1846, varies from *One-and-a-fourth* to *Twelve-and-a-half* per Cent. upon the sum assured.

For example :—

1st,—A Policy for £1000, opened on 30th April, 1836,	
is now increased to	£1125 0 0
2d,—A Policy for £1000, opened on 30th April, 1841,	
is now increased to	£1075 0 0
3d,—A Policy for £1000, opened on 30th April, 1846,	
is now increased to	£1012 0 0

And these additions, which range from 35 to 54 per Cent. upon the premiums paid, *vest immediately upon being declared*, and are payable with the sum assured when the claim emerges, without being subject to the conditions made by some Companies, of the party surviving till any subsequent period.

It will be at same time observed, that the rates are more moderate than those charged generally by other Companies, as evinced by the following

Specimen of Tables.

No Entry-Money is charged, nor other expenses incurred beyond the Stamp of Policy.

At the same rates as those of other respectable Companies.

The SIXTEENTH ANNUAL GENERAL MEETING was held at Edinburgh,
on 4th May, 1847.

The REPORT then made stated that, during the year ended 1st March, 1847,
the number of Policies issued was FIVE HUNDRED AND EIGHTY-
EIGHT.

The SUMS thereby ASSURED amounted to
THREE HUNDRED AND EIGHTY-TWO THOUSAND, SIX HUNDRED
AND SEVENTY-THREE POUNDS.

And the PREMIUMS and ENTRY MONEY to
FOURTEEN THOUSAND, SIX HUNDRED AND NINETY-FOUR
POUNDS.

The TOTAL SUM ASSURED at 1st March last, after deducting Lapsed and
Surrendered Policies, amounted to
TWO MILLIONS, SIX HUNDRED & THIRTY-THREE THOUSAND,
THREE HUNDRED AND NINETY-SEVEN POUNDS.

The REVENUE of the Society to
NINETY-NINE THOUSAND, TWO HUNDRED AND SEVENTY
POUNDS,

and the ACCUMULATED FUND to
FOUR HUNDRED THOUSAND, FIVE HUNDRED AND THREE
POUNDS.

This being the period at which the Third Declaration of Bonus fell to be made,
it appeared that, after reserving upwards of THIRTY-SIX THOUSAND POUNDS
for future division, the Directors were enabled to declare, to all Policies of
five years' standing, a Bonus of Two per cent. per annum, not only on the
Original Sums contained in the Policies, but also on the Vested Additions
previously made to them. By this *Bonus* the Amount Assured is increased
to £2,763,381.

The SCOTTISH EQUITABLE being a MUTUAL ASSURANCE SOCIETY,
their Profits are not, as in Proprietary Companies, divided between the
Partners of the Companies and the Assured. The WHOLE belong to the
Policy Holders. It is, therefore, impossible for any Assurance Office to give
greater advantages to Assurers than are given by this Society.

The PROFITS or BONUSES may, in the Option of the Assured, be applied
thus:—

1st, They may be ADDED TO THE SUM ASSURED, payable a
Death; or,

Advertisements.

- 2d, They may be COMMUTED INTO A PRESENT PAYMENT to the Policy Holders; or,
3d, They may be APPLIED IN REDUCTION OF THE FUTURE ANNUAL PREMIUMS.

The next ALLOCATION OF PROFITS takes place at 1st March 1850, and every THREE YEARS thereafter.

The REVENUE of the SCOTTISH EQUITABLE now exceeds
ONE HUNDRED THOUSAND POUNDS.

The following is a VIEW of the progress of the Society down to 1st March, 1847.

LIFE DEPARTMENT.

LIFE INSURANCE is an object of the first importance to every class of society, yet many persons are entirely unacquainted with its peculiar advantages, or with the extent and universality of its application to the concerns of life. The following are a few only of the most obvious cases in which it may be resorted to:—*First*, By persons, whose Incomes are dependent upon life, or upon professional or public employments, as those in the Army, the Navy, the Church, the Law, or in Government or Public Offices, who, by appropriating a small portion of their yearly income may secure an adequate and certain provision to their Wives, Families, or Dependents, *or create a fund disposable by Will*.—*Second*, A Fund for a Marriage Settlement may thus be secured by those who are not possessed of independent property.—*Third*, Capital invested in Annuities, or in Securities upon Life Interests, may be rendered permanent by insuring the lives of the parties on which their continuance or existence depends.—*Fourth*, Creditors may secure Debts by insuring the life of the Debtor : and Debtors, and Persons mortgaging their Estates, or whose Estates are charged with Legacies or other payments, may, by an annual payment, make Provision for liquidating their Debts, and releasing their property from such incumbrances, by which their Estates will descend free to their families.—*Fifth*, To Parents, educating and putting out their Children to expensive Professions or Trades, or otherwise making advancement for them ; and Persons whose Incomes depend upon the Lives of their Employers, Life Insurance secures, in the event of death, a repayment of the one, and a certain continuance of the other.—*Sixth*, To the Owners of Lands on Leases for Lives, the above mode of Insurance is peculiarly important, as it affords the means of securing the payment of the sums necessary for the perpetual renewal of such Leases, and thereby rendering the Estate nearly as valuable as Freehold ; and generally it affords the means of certain indemnity against any pecuniary Loss, Claim, or Inconvenience whatsoever, to which one individual may become subject by reason of the death of another ; and is applicable to all classes of the community, giving to each the opportunity of securing to their Families and Dependents a source of independence and enjoyment.

Advantages offered by this Company upon Life Insurances.

1. A reduced scale of Premiums, and no liability of Partnership.
2. A PARTICIPATION IN THE DISPOSABLE SURPLUS PREMIUMS ON POLICIES for £100 and upwards, to be ascertained at the end of every fifth year from Christmas, 1827, which may be applied either in reduction of the original Premium, or be added to the Sum assured as a Bonus, and payable therewith.
3. Naval and Military Officers are charged only the same Premiums as other persons, except when called into actual service, and are entitled to the same advantages.
4. Payment of Claims in Three Months after the usual proofs.
5. No Entrance Money or Admission Fees are required, and no Charge is made for Policies except the Stamp Duty thereon.
6. Permission to pass, in Steam-Boats or Decked Vessels, from British to Foreign Ports, between the Texel and Brest, both inclusive.
