## INTRODUCTION.

---

**A**S indicated in our last issue, we have, with the present edition, made another extension,—viz., added a Householders' List for the important Parish of Dunoon.

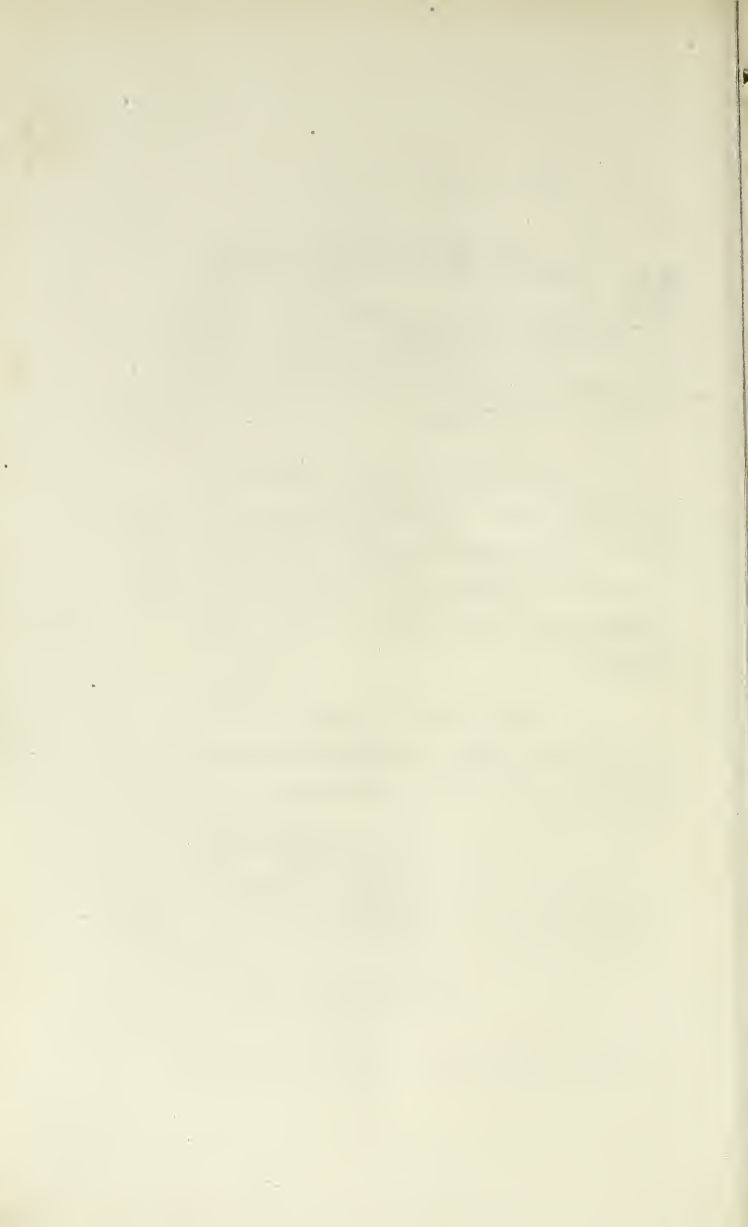

The WEST COAST DIRECTORY is steadily and rapidly increasing in favour and usefulness, and we are still prepared to deepen our interest in any enterprising community in this wide District.

In our next issue we intend to give a complete Householders' List for the Burgh of Campbeltown.

Our best thanks are due to an increasingly appreciative public and faithful staff of assistants.

HIGGIE & COY.

MEASUREMENT AND WEIGHT OF CATTLE.

Take the Girth close behind the shoulders, and multiply it by itself: take the Length from the top of the shoulder to the extremity of the buttocks, which, multiplied by the above, and divided by 7344, will give the weight of a Fat Animal in Imperial Stones. Should the Animal be extra fat, add a twentieth; and if inferior deduct about the same quantity.

To find the Weight from the Table—Look in the column marked Girth for 35, and in the column marked Length for 34, and then in the next column, in the same line with the length, 8 5 stones 9 lbs., being the Imperial Weight.

Note.—The Smithfield Weight may be found by multiplying the Imperial Weight by 14 and dividing by 8.

Spectacles and Eye-Glasses

Of the many advantages optical science has conferred on mankind we are certainly most indebted to spectacles. The pleasures and advantages derived from their use are appreciated by all classes of society. By their help the sight of the aged is greatly assisted, and (*when properly adopted*) *the weak sight is strengthened.*

We beg to introduce Mr Henry Laurance's improved Crystal Spectacles, a trial of which we feel confident must ensure unqualified approbation for the protection they afford to the eye from the injurious effects of the gas, fire, the sun, or variations of the atmosphere. Mr Laurance's Improved Spectacles are used in many of the leading Eye Infirmaries, and by the most eminent oculists and gentlemen of the medical profession. Upwards of twelve hundred testimonials have been received, all speaking in the most favourable terms of the efficacy of the improved Crystal Lenses. It would be both superfluous and impossible to publish one-fourth of these testimonials, but a few have been selected, which can be found in "Spectacles : their Use and Abuse," post free from

THE WEST COAST DIRECTORY

A *vade mecum* for the West Coast. Being the only publication of its kind, and being comprehensive in its character, it enjoys a large circulation in all quarters along the West Coast.—*Vide* Opinions of the Press.

CONTENTS—

- I.—OFFICIAL DIRECTORY. — Official Lists for the Counties of Argyll, Ayr and Bute, with extended Lists for the Districts of Rothesay, North Bute, Kingarth, Kilbride, Kilmory, Millport, Largs, Dunoon, Tighnabruaich, Campbeltown, Tarbert, Ardrishaig, Lochgilphead, Inveraray, Oban, Islay and Mull.
- II.—HOUSEHOLDERS.—Alphabetical Lists of the Householders in all the Parishes in Bute and Cumbræ, the Parish of Dunoon, and the Burgh of Oban.
- III.—MISCELLANEOUS.—Useful Tables.

HIGGIE'S WEST COAST DIRECTORY is likely to advance in public favour and usefulness as long as Rothesay advances in population. Besides the official lists for Rothesay and Bute, it contains information, of a kind often wanted by visitors and residents, with regard to the neighbouring islands of Arran, the Cumbræ, and Great Britain—that is to say, so much of Great Britain as adjoins the Firth of Clyde. Higgle's pocket GUIDE to Bute and Rothesay, and MAP of the West Coast, also appear in a new issue.—*Scotsman*.
