THE PROPRIETORS of the GLASGOW POST-OFFICE DIRECTORY beg to return their grateful acknowledgments for the encouragement with which their labours have hitherto been received by the Public, and at same time to express a hope that the efforts which they have this year made to render their Publication extensively useful, will meet with similar approbation. Neither labour nor expense has been spared to promote its utility; the utmost care and attention have been exerted to procure authentic information; and whilst they trust that their zeal and assiduity have not been fruitless, it will be their endeavour, in the future editions of the book, to employ the opportunities afforded by their situation, to collect every species of information calculated to prove useful to men of business, and to the public in general.

POST-OFFICE, GLASGOW,  
1st June, 1850.

## ALMANAC AND TIDE TABLE.

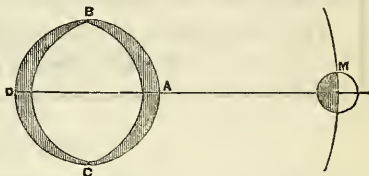

FROM JULY, 1850, TILL JULY, 1851.

The daily rising and falling of the waters of the ocean are, in general, denominated Tides. The rising is called the Flood, or Flux; and when it ceases to rise, High Water. The falling is called the Ebb, or Reflux; and when it ceases to fall, it is said to be Low Water. The interval between the times of High and Low Water is called a Tide.

The Tides are produced by the attraction of the sun and moon, principally that of the latter object. The cohesion of fluids being much less than that of solid bodies, they more easily yield to the power of gravity; in consequence of which the waters immediately below the moon are drawn up in a protuberance, producing a full tide, or what is commonly called High Water, at the spot where it happens. According to this theory, you would imagine that we should have full tide only once in twenty-four hours, that is, every time that we were below the moon; while we find that we have two tides in the course of twenty-four hours, and that it is High Water with us and with our antipodes at the same time.

This opposite tide is rather more difficult to explain than that which is drawn up beneath the moon. In order to render the question more simple, let us suppose the earth to be every where covered by the ocean, as in the following figure.

M is the moon, A B C D the earth. Now, the waters on the surface of the earth about A being more attracted than in any other part, will be elevated, the attraction of the moon at B and C being less; but still it will be greater there than at D, which is the part most distant from the moon.

The body of the earth will therefore be drawn away from the waters at D, leaving a protuberance similar to that at A; so that the tide A is produced by the waters receding from the earth, and the tide D by the earth receding from the waters.

The influence of the sun on the tides is less than that of the moon; for, observe, that the tides rise in consequence of the moon attracting one part of the waters more forcibly than another part. It is this inequality of attraction which produces full and ebb tides. Now, the distance of the sun is so great, that the whole globe of the earth is comparatively but as a point; and the difference of its attraction for that part of the waters most under its influence, and that part least subject to it, is but trifling. No part of the waters will be much elevated above, or much depressed below, their general surface by its action. The sun has, however, a considerable effect on the tides; and increases or diminishes them as it acts in conjunction with, or in opposition to, the moon.

According to the calculations of the celebrated La Place, in his *Mécanique Céleste*, the mean force of the sun in raising the tides is to the mean force of the moon as 1 to  $1\frac{1}{2}$ ; and Emerson, in page 423, second edition of his *Treatise on Fluxions*, calculates the height of the solar tide to be 1.63 feet, and the height by the moon's influence to be 7.28 feet; consequently, the height of their joint force to be 8.91 feet. The height here calculated is supposed to be at such places where the sun and moon are vertical, and also in the equinoctial. In places at a distance from the equator, the height will be less as the latitude is greater. Further, their height will also be less according to the sun or moon's declination from the equator.

From what has already been remarked regarding the tides, it is obvious that, when the moon is in Perigee, or at her nearest distance from the earth, she attracts strongest, and therefore raises the tides most. The contrary happens when she is in Apogee, or at her greatest distance from the earth, because of her weaker attraction. At New Moon, when she is in conjunction with the sun, and at Full Moon, when they are in opposition, the tides are raised by the joint attraction of both luminaries, and therefore will produce the highest, or what are called Spring Tides. And Neap

Tides are produced by the difference of their forces when in quadrature. The Spring Tides take place about two days after Full Moon, and the Neap Tides about two days after the first and last quarter.

In consequence of the sun being nearer the earth at the beginning of the year than at any other time, his attraction will then be most powerful on the tides, and, should the moon happen to be in Perigee, their joint effects will produce the greatest Spring Tides.

The mean duration of the ebb and flow is about 12 H. 25 M., that is, half the lunar day of 24 H. 50 M., the period elapsing between successive returns of the moon to the same point of the meridian. Thus the sea in every place undergoes a flux and reflux as often as the moon passes the meridian, whether superior or inferior of the place; that is to say, twice in 24 H. 50 M.

The following Tide Table is constructed on strict scientific principles, from the very accurate Tide Tables of J. W. Lublock, Esq., London (the Tide Table in the *Nautical Almanac* for 1850 is also calculated from the same Tables), and will be found to be as correct as the position of our river, with regard to its locality, the influence of the winds, and other diversified circumstances, either hasten or retard its natural current. Hence the time of the Tide by observation may not at all times correspond precisely with the time found in the Table.

These Tables are calculated for mean time, or the time shown by a well-regulated clock, reckoning from noon of each day. The Moon's Phases are calculated to civil time. The civil day begins at midnight.

#### TIDE TABLE OF SOME OF THE PRINCIPAL PORTS IN ENGLAND, SCOTLAND, AND IRELAND.

The times of High Water at full and change of the moon, as given in this Table, are reckoned from apparent noon. They represent the actual times of High Water when the moon passes the meridian at the same time as the sun, or the intervals between the times of transit of the moon and the times of High Water on full and change days. With which, and the equation of time, the times of High Water at all the Ports here given will be obtained, by addition, or subtraction, as here annexed.

# EXEMPLIFICATION AND CONSTRUCTION OF THE PRECEDING TABLES.

TO FIND THE TIME OF HIGH WATER AT ANY PLACE IN THE GENERAL TIDE TABLE.

RULE.—To the time of high water at Glasgow on the given day, add or subtract the correction for the required place as stated in the table, and the time of high water will be obtained. When the sum of the correction and of the time of high water in the table exceeds 12 hours, subtract 12 hours, and the remainder will be the time of high water in the morning or evening of the given day, as the column denotes; when the sum of the former quantities is less than 12 hours, this sum will be the time of high water required in the evening of the preceding day, or the morning of the given day, according as the column is marked morning or evening. Or the morning and the evening tides may be found thus:—If the morning tide be sought, and the sum be above 12 hours, take the time from Glasgow for the preceding evening, to which add the correction for the required place, from the sum subtract 12 hours, and the remainder is the morning tide at the place required. If the evening tide is wanted, and the sum exceed 12 hours, take the Glasgow morning tide for the given day, to which apply the correction for the required place, from the sum subtract 12 hours, and the remainder is the evening tide at the place required.

# ELUCIDATION OF THE PRECEDING TABLES.

4. On 18th April, 1850, the sun's longitude was  $28^{\circ} 19'$ , and the obliquity of the ecliptic  $23^{\circ} 28'$ . Required the sun's declination at noon.

To log. sine of sun's longitude at noon,.....	$28^{\circ} 19'$	9.676094
Add log. sine of obliquity of ecliptic,.....	$23^{\circ} 28'$	9.600118

The sum (rejecting 10 from sum of indices)

is the sine of sun's declination,..... $10^{\circ} 53'$ , 9.276212

North from 21st March till 22nd Sept., and south the rest of the year.

5. Required the time of the sun's rising and setting at Glasgow, in latitude  $55^{\circ} 52' N.$ , longitude  $4^{\circ} 16' W.$ , on 16th May, 1851.

By a table of Semidiurnalares, the approximate time of the sun's rising and setting is..... 3 h. 56 m. Setting 8 h. 4 m.

Longitude in time of Glasgow,....	$+ 16$	$+ 16$
Reduced time,.....	4 12	8 20

The sun's declination reduced to these times is  $19^{\circ} 0'$  and  $19^{\circ} 10'$ , and the polar distances are  $71^{\circ} 0'$  and  $70^{\circ} 50'$ . The horizontal refraction, less sun's parallax, is  $34' 17'' - 9'' = 34' 8'' + 90^{\circ} = 90^{\circ} 34' 8''$ , or  $90^{\circ} 34'$ , and hence the following computation:—

NOTE.—The latitude of Glasgow is  $55^{\circ} 52'$  north, the longitude  $4^{\circ} 15'$  west of Greenwich; consequently there are 17 minutes of difference of time between the clocks of Greenwich and the clocks at Glasgow, the Greenwich time being earlier. The clocks of the United Kingdom are now generally adjusted to Greenwich time.

WITH A REFERENCE TO THEIR SITUATION.

To avoid jostling in meeting, observe the general rule, "Right hand to the Wall;" that is, allow those you meet to pass on your left. If this is generally acted on, much inconvenience will be avoided in our crowded thoroughfares.

### POSTAGE STAMPS, &c.

Stamps may be procured at the General Office, Glassford Street, the Stamp Office, and the several Receiving-Houses.

The Penny Labels,.....	at 1d. each.
The Twopenny Labels,.....	at 2d. "
The Tenpenny Labels,.....	at 10d. "
The Shilling Labels,.....	at 1s. "
The Penny Envelopes,.....	24 for 2s. 3d., or 2 for 2½d.
The Twopenny Envelopes,.....	12 for 2s. 2d., or 3 for 6½d.
Stamped Half-sheets of Paper,.....	1½d. each, or 24 for 2s. 3d.

When the value of Stamps on a Letter is less than the amount of the postage to which it is liable, the Letter will be charged double the amount of such difference on delivery.

Stamps may be used for *Printed Votes* and *Proceedings in Parliament*, and on Foreign, Colonial, and Ship Letters, *outwards*. Letters for *parts abroad* posted with *Stamps of less value than the full amount of Postage*, if addressed to places to which prepayment is not compulsory, will be forwarded, charged with only such amount of Postage as shall be equal to the difference between the value of the Stamps and the proper rate of Postage; but letters addressed to *places abroad*, to which prepayment is compulsory, if posted with Stamps of less value than the full amount of Postage, will be sent to the Dead-Letter Office, to be returned, in all practicable cases, to the writer. Stamps are not permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries.

These Regulations are applicable to Newspapers, in those cases where they are liable to Postage.

If the Stamps affixed to letters are mutilated or defaced, the letters will be liable to the unpaid rate.

A Stamp which has been cut from an envelope and affixed to a letter, entitles it to pass free of charge.

*Redirected* Letters are charged an additional postage for each redirection, according to the *Prepaid Scale*.

Letters to Warm Climates should be sealed with wafers, as wax destroys the letters by melting, causing them to adhere to one another.

No Letter, when once posted, can be given up to any but the person to whom it is addressed, neither is any person allowed to alter the address of a letter after being posted.

*Adhesive Stamps* should be placed on the right-hand corner of the upper side of the letters, above the superscription. The most effectual plan is to dip the label wholly in water, to shake off the water immediately, and to press the label upon the letter with a piece of clean blotting paper. *When the gum is dull in appearance, it will require rather more time and moisture to make it stick firmly, than when it is glossy.* The purpose of wetting the label *wholly* is to counteract the tendency it has to curl up from the letter, when one side only is wetted, a tendency caused by the expansion of that side as it imbibes the moisture.

### PREPAID RATES OF POSTAGE.

Letters *not exceeding Half an Ounce* in weight, 1d.; *One Ounce*, 2d.; *Two Ounces*, 4d.; *Three Ounces*, 6d., and so on, *two rates* being added for *every ounce*. Inland Letters or Packets put *unpaid* into the letter boxes, are charged double the prepaid rates of postage. Letters *insufficiently* paid, either in money or by stamps, are charged with *double* the amount of the *difference between the money paid or the stamps affixed and the prepaid rates*.

### LIMITATION OF WEIGHT.

A letter to pass *unpaid* by the post may not exceed *Four Ounces*. All above that weight must be prepaid, either in money or by stamps. In the event of any *unpaid* letter above the weight of four ounces being posted, it will be charged with *double* the *prepaid rates* of postage; if *insufficiently paid*, either in money or by affixed stamps, it will be charged with *double* the amount of the *difference between the money paid or the stamps affixed, and the prepaid rates, and thus charged*, "shall and may be *detained and opened*, and, at the *option of the Postmaster-General*, shall be either returned or given up to the *sender* thereof, or be given up to the person to whom it shall be addressed, or be forwarded to the place of its destination."—*Treasury Warrant*, 22d October, 1847.

### LIMITATION OF SIZE.

A letter to pass by the post, either *paid* or *unpaid*, must not exceed the dimensions of *twenty-four inches* in length, or breadth, or width, or depth. Any letter above these dimensions, may, if *fully paid*, be *detained and opened*, or forwarded at the *option of the Postmaster-General*. Any letter *unpaid*, or *insufficiently*, will be taxed precisely after the scale of charge mentioned in the preceding paragraph, as applicable to unpaid letters exceeding four ounces weight, and *thus charged*, be either *detained and opened*, and returned to the *sender*, or forwarded at the *option of the Postmaster-General*. The only *exceptions* to the foregoing regulations as to size and weight are in the case of—1. Parliamentary proceedings or Addresses to Her Majesty. 2. Petitions to either Houses of Parliament, forwarded to any Member of such House. 3. Printed votes or proceedings of Parliament. 4. Letters or packets to or from public departments or public officers in Her Majesty's service. 5. Letters, &c., to or from places abroad.

All persons sending letters by the post *unpaid*, which, from any cause whatever, cannot be delivered to the parties to whom they are addressed, are liable to pay the postage charged thereon, which may be recovered, with costs, by summary proceedings before a Magistrate.

Printed votes and proceedings in Parliament are charged at the following rate, between places in the United Kingdom, and between the United Kingdom and the Colonies, when conveyed by packet:—

Not exceeding 4 ounces,.....	1d.
Exceeding 4 ounces, and not exceeding 8 ounces,.....	2d.
Exceeding 8 ounces, and not exceeding 12 ounces,.....	3d.
And so on in proportion. Prepayment optional.	

**SERVICE OF PARLIAMENTARY NOTICES.**—These Notices may be sent through the Post, provided they are posted on or before the 12th of December, at the chief offices

of London, Dublin, and Edinburgh, or any of the following offices:—Birmingham, Bristol, Exeter, Lincoln, Liverpool, Leeds, Manchester, Newcastle-upon-Tyne, Norwich, Shrewsbury, Glasgow, Aberdeen, Inverness, Belfast, Cork, and Athlone. The words, "Parliamentary Notice," must be legibly printed on the face of the letter, the postage must be prepaid by means of Stamps, and a Registration Fee of 6d. (which must be paid in money) at the time of posting, which may be known by applying to the above offices. Duplicate Lists of the Addresses must be sent with the Notices, which must be arranged in the same order as entered on the lists.

Letters of Soldiers and Sailors (except on letters addressed to the United States, which are charged  $3\frac{1}{2}$ d.) remain unaltered, their privilege being restricted to half an ounce in weight.

Printed Books, Magazines, Reviews, and Pamphlets, (whether British, Colonial, or Foreign,) may be transmitted by Post, within the United Kingdom, at the following rates:—

For each Packet not exceeding 1 lb., 6d. Exceeding 1 lb. and not exceeding 2 lbs., 1s. Exceeding 2 lbs. and not exceeding 3 lbs., 1s. 6d., and so on. Provided, however, the following conditions be carefully observed:—1st. Every such Packet must be sent without a cover, or in a cover open at the ends or sides. 2d. It must contain a single volume, (whether Printed Book, Magazine, Review, or Pamphlet,) the several sheets or parts thereof, when there are more than one, being sewed, or bound together. 3d. It must not exceed two feet in length. 4th. The Postage must be prepaid in full, by affixing outside the Packet or its cover the proper Stamps. The name and address of the *sender* may be written or printed upon it, and any other writing may be on any leaf of it, or on the binding; but all such last-mentioned writing must be on one and the self-same page or corresponding portion of the binding. If any of the above conditions be violated, the Packet will be charged as a Letter.

*The following Instructions have been addressed to all Postmasters, and are strictly acted upon:—*

"GENERAL POST-OFFICE.—On and after the 1st January, 1845, should any Letter or Packet be tendered at your Office, which you may ascertain to contain, or *which you have every reason to believe*, contains any of the following articles, viz.:—Any Glass or Glass Bottle; any Razor, Scissors, Knife, Fork, or other Sharp or Pointed Instrument; any Leeches, Game, Fish, Flesh, Fruit, Vegetables, or other perishable substance; any Bladder or other Vessel containing Liquid; or any article, matter, or thing *whatsoever*, which might, by pressure or otherwise, be rendered injurious either to the Officers of the Post-Office, or to the contents of the Mail Bags; you will refuse to receive such Letter or Packet.

"In the event of any Letter or Packet being taken in by you, and you do not, until *afterwards*, discover that it contains any Article as above described, or should any such Letter or Packet be deposited in the Letter Box, you will not forward it on its destination, but you will detain it in your Office, and inform me, by the first Post, of the circumstances, stating the precise Address of the Letter or Packet, and its contents, or what you suppose them to be, when proper steps will be taken in this Department in the case, and you will be instructed in what manner to dispose of the Letter or Packet.

"Should any Letter or Packet, containing any article as before-mentioned, not be discovered by the Postmaster at whose office it may be posted, but be forwarded on to its destination, the Receiving Postmaster, to whose town it may be addressed, upon discovering, or *having every reason to believe*, that its contents are such as those alluded to, will not send it out for delivery, but will detain it in his office, reporting the circumstance by the first Post, and stating the nature of its contents, when he will be duly instructed in what manner to dispose of it."

#### NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

All Newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers, or covers, after the same shall have been published, other than the name and address of the person to whom they are sent; nor anything enclosed or concealed in either newspaper or cover. Newsvenders *only* may print their names and addresses thereon. Newspapers may be examined by the

Officers of the Post-Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage to which a letter of the same weight would have been liable. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanour.

*Clause of the Act of 1st Victoria, cap. 34, sec. 32.*

"And be it further enacted, that in all cases in which a question shall arise, whether a printed paper is entitled to the privileges of a Newspaper, or other publication, hereby privileged, so far as respects the transmission thereof by the Post, under the Post-Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final."

#### MARKS OR WRITING ON NEWSPAPERS.

Writing or Marks are allowed on a *Newspaper* passing by Post between *any one part of the United Kingdom, and any other part*, provided that a postage of one penny be paid, by means of a stamp conspicuously fixed outside the cover or folded Newspaper. But the privilege is confined to writing or marks on the *Newspaper itself*, and is not to extend to the cover. Any writing or marks other than the address, on which, or (if the Postage be not prepaid as above) on the Newspaper itself, will subject the Newspaper to the same rate of Postage as that to which an unpaid letter of the same weight is liable.

Newspapers posted in Town, addressed to any part within the town delivery, charged, paid or unpaid, 1d.

Newspapers printed or published in any of the Channel Islands, or in the Isle of Man, and sent by the Post between any of such Islands and Great Britain or Ireland, or sent by the post in Great Britain or Ireland, will be liable to the full letter rates of Postage, according to the scale for charging Inland Letters, with the exception of such as are printed in the *French language*.

#### NEWSPAPERS FROM THE BRITISH COLONIES

are delivered free of Postage at any place within the British dominions. Those for persons who have removed, may be forwarded by post, free of charge, provided they have not been opened at the place to which they were originally addressed.

#### THE BRITISH COLONIES AND FOREIGN PARTS.

Newspapers liable to the Stamp Duty may be forwarded to the British Colonies and Possessions, by her Majesty's packet-boats, free of the duty of postage, provided the same be duly stamped, made up open at the ends, and put into any Post-Office *within seven days* after the day of publication.

Newspapers may also be forwarded to the Colonies, by private ships, for a postage of One Penny each, and to Foreign Countries for a postage of Twopence each, to be paid when posted, *under the same regulations as to date, &c.*

For days of despatch and Rates of Postage, see the Alphabetical List of Foreign Countries, commencing at page 31.

#### NEWSPAPERS FROM ABROAD.

Newspapers arriving from British Colonies or "Foreign Parts," to which they are despatched free, are delivered free of postage. From places abroad, to which they are *not* despatched free, they are charged, on delivery, *Twopence* each; excepting those brought by the closed mail through France, which are charged *Threepence*, or *Fivepence* each. *All Newspapers must be printed in the language of the country from which they are sent.*

PRINTED PRICES CURRENT, having obtained the sanction of the Lords of the Treasury, pass through the Post-Office to the *Colonies and Foreign Parts* at one penny each, provided they contain simply the names and prices of articles; the names and addresses of the parties dealing in such articles must be excluded. Each copy to be made up in the same form as a Newspaper, with covers open at the end.

The title of the publication must be written, or printed, immediately above the address; and any other writing than such address, name, initial, or mark for reference of any kind, calculated to convey information as to the party by whom such publication is forwarded, will subject the same to full letter rates of postage.

Every Price Current to be posted *within seven days* after each publication; and no one can be forwarded a *second* time without being charged with full letter postage.

All other PRICES CURRENT, AND COMMERCIAL LISTS, published in the United Kingdom, *if duly stamped, and under the weight of two ounces*, will be treated as Newspapers, and enjoy the Newspaper privileges; *the sanction of the Postmaster-General having been previously obtained.*

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, France, Belgium, and Holland, are now admitted into the United Kingdom at the reduced rate of 1d. each, whether conveyed by Packet or by Private Ship.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, from any foreign country, except France, Belgium, Holland, Prussia, and China, are admitted into the United Kingdom at the reduced rate of 2d. each.

PRICES CURRENT, AND COMMERCIAL LISTS, *from the British Colonies, passing through the United Kingdom*, are liable to a Postage of Twopence each, to be paid at the time of being Posted.

PRICES CURRENT, AND COMMERCIAL LISTS, from the British Colonies, passing through France, Belgium, or Holland, to the United Kingdom, are liable to a Postage of 2d. each.

PRINTED PRICES CURRENT, AND COMMERCIAL LISTS, to China, *via Southampton*, 2d. each; *via Marseilles*, 3d. each. From China, *via Southampton*, 3d. each; *via Marseilles*, 5d. each.

### REGISTRATION.

*Letters, whether containing Coin, or not*, can be registered, on payment of a fee of 6d., *in addition to the Rates of Postage*, Inland, Colonial, or Foreign. On those for delivery in France, the charges, besides the Registration fee, will be the English rate to France, in addition to double the French rate. A printed acknowledgment will be given to any person registering a letter. Registered Letters will be taken at the Bar Window and the Receiving-Houses within half an hour of the closing of the Box for the particular Mail by which they are to be despatched. Letters for Registration, addressed to places within the United Kingdom, must be paid by affixing a sufficient number of Stamps; when addressed to *parts abroad* they may be paid either in money or by means of Postage Stamps, but the *fee of 6d. must always be paid in money.*

In case of Foreign, Colonial, or Ship Letters, it must be clearly understood that Registration can only extend to the port of shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post-Office undertaking to provide for their security till they shall have been delivered, *if addressed to France*, and as long as they remain in the French territory, *if passing through France.*

The arrangements for carrying out the system of registration have been made with the view of ensuring the safe delivery of Registered Letters. On their delivery, the parties to whom they may have been addressed will be required to acknowledge, in writing, their receipt. *Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, &c., should invariably secure their transmission by Registration;* and persons having occasion to send by Post small sums, are recommended to make use of

### THE MONEY ORDER OFFICE,

which is open *every week-day*, fast days excepted, from 9 a.m. till 5 p.m. The charge for such Orders is 3d. on sums not exceeding *two pounds*, and 6d. on sums between *two and five pounds*. No order will be given for sums beyond this amount; but if the sum to be transmitted exceeds *five pounds*, as many orders may be taken out as will make up the sum to be sent.

In cases where the personal attendance of the party to whom an order is payable is inconvenient, if the order is receipted (his or her name written in full), and the person presenting the order be able to give full information as to the Christian name, surname, address, and occupation of the person who transmitted the money, payment will be made, but not unless these conditions are complied with. Orders will not be granted in favour of any person, unless the Christian name of such person can be given by the party obtaining the order. Orders cannot now be granted in favour of the "Secretary" of any Society, the "Publisher" of a paper, &c. In cases of *Firms* the initials only are required.

A Money Order must be presented for payment before the end of the Second Calendar Month after that in which it was issued, (for instance, if issued in January, it

must be presented before the end of March,) otherwise a new order will be necessary, for which a second commission must be paid; and if it be not presented for payment before the end of the Twelfth Calendar Month after which it was issued, the money will not be paid at all.

After an Order has been once paid, by whomsoever presented, the office will not be liable to any further claim.

The towns upon which Money Orders can be drawn are marked in the lists.

## COLONIAL AND FOREIGN MAILS.

A single rate of Postage is given for each country.—See also Alphabetical List, page 31.

To those countries marked “o” the payment is obligatory by the respective routes.

There being no bags despatched for London on Saturday, when any of the dates for the London, Southampton, or Dover Packets fall upon that day, reference must be made to the Alphabetical List for information whether the Letters should be Posted on the previous Friday, or on the ensuing Sunday.

*Letters for Foreign Countries, the prepayment of which is required, when put into the unpaid box, or left at the office with less than the full postage, are sent to the Dead Letter Office, and returned to the writer, when his address can be ascertained.*

## MAILS BY PRIVATE SHIPS.

SHIP LETTERS.—The single rate to places beyond sea, when conveyed by private ship, is 8d. under half an ounce, 1s. 4d. under an ounce, 2s. 7d. under two ounces, and so on.

Letters for *any Foreign Port or Country*, to which there are Regular Packets, will not be forwarded by Merchant Vessels, unless so directed. The Name of the Vessel, and the Port from which she is expected to sail, must be included in the direction of the letter.

Letters to the following places are sent by Private Ships only, unless addressed by some other route:—Cape of Good Hope, Cape Coast Castle, Fernando Po, Madagascar, New South Wales, New Zealand, River Gambia, St. Helena, and Van Diemen's Land.

Owners, Consignees, or Charterers (resident in the United Kingdom), and the Owners, Consignees, and Shippers of Goods on board vessels inward bound, are entitled to receive their letters free from sea postage, to the extent of six ounces. In case of vessels from *Ceylon, Mauritius, the East Indies, and the Cape of Good Hope*, the privilege extends to twenty ounces in weight. The Owner, Charterer, or Consignee, must be described as such in the address; and in case of Owners, Shippers, or Consignees of Goods, it must appear by the ship's manifest, that they have goods on board.

A penalty of Ten Pounds is incurred by parties *falsely* superscribing a letter as Owner, Shipper, Charterer, or Consignee.

## ALPHABETICAL LIST OF FOREIGN COUNTRIES,

## FOREIGN CITIES AND PRINCIPAL PLACES

TO WHICH MAILS ARE DESPATCHED.

On reference to the kingdom or country in the preceding list, commencing at page 31, full information with reference to the despatch of *Letters* will be found. For instance, "Aalborg, Denmark;" under the head "DENMARK," are the various modes of despatch, the postage by each route, and instructions as to the manner in which letters should be addressed. As all places in France have a uniform rate of postage, when paid in this country, it has not been thought necessary to include many of the French Post Towns.

## SHERIFF SMALL DEBT COURT,

For the recovery of Debts not exceeding £8 6s. 8d., sits every Thursday, at 11 o'clock forenoon, and has jurisdiction over the whole of Lanarkshire. The Defenders are cited before this Court on an induciæ of six days; warrants to arrest on the dependence are issued; the decree may be extracted, and arrestments used upon it instantly; and it may be enforced, in all cases, by poinding and sale of the debtor's effects, ten free days after its date. In case of the debtor removing to a different county, the decree may be enforced against him there, on being endorsed by the Sheriff-Clerk of the County to which he removes. Judges—Sheriff and Sheriff-Substitutes of the County.

NOTE.—The Act authorising Imprisonment for Small Debts expired in 1840.

## RIVER BAILIE COURT.

The Bailie of the River Clyde holds a Court, in matters of River and Harbour Police, in the Court-Hall, 16 Robertson Street, on Tuesdays and Fridays.

## JUSTICE OF THE PEACE SMALL DEBT COURT FOR LANARKSHIRE.

This Court, on six days induciæ, decides claims of £5 and under, meeting every Monday morning in the Court-Hall, at eleven o'clock.—Clerk, John Douglas; Depute-Clerk, R. R. Holmes.

## FORM OF PROCEEDING IN THE RECOVERY OF SMALL DEBTS.

Debts may be recovered in a summary form, before the Justice of Peace Court, to the extent of £5; and, before the Sheriff Courts, to the extent of £8 6s. 8d.

The first step is set forth in a complaint or libel, agreeably to a prescribed form, (the Clerks of Court will provide the necessary forms,) the origin of the debt, or ground of action; and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at the same time, be obtained to cite witnesses, and to use arrestments.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law, without special leave.

If the defender fail to appear, after being cited personally, he will be held as confessed, and judgment will be given against him.

In the Justice of Peace Court, if the defender has not been cited personally, he will receive a second citation; after which, whether given personally or not, he will be held confessed, as above; but in the Sheriff Court only one citation is given.

But, when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a rehearing, on consigning the sums decerned for.

If decree in absence be given against the pursuer, he may, within one month, obtain a rehearing, on consigning 2s. 6d., if the case be before the Justices; and the expense decerned for, with 5s. to meet further expenses, if the case be before the Sheriff.

The case will be adjourned, upon the pursuer or defender offering a suitable excuse, or if any witness be absent.

If decree be given against the defender in his personal presence, diligence may proceed against him by arrestment instantly; and by poinding and sale, at the end of ten days.

If decree be given against the defender in his absence, poinding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestment used in cases before the Sheriff must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed, on offering sufficient caution, or on showing evidence of absolvitur, or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrestments; but in such actions, both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary; or, if there be no Circuit Court, by the High Court of Justiciary at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable by a reduction before the Court of Session, on the ground of malice and oppression, on the part of the Justices; and such reduction will only be competent for one year, and finding caution for costs.

No person should be exempted from the jurisdiction of Justices or Sheriffs, in such cases, by reason of privilege as a member of the College of Justice.

### EXTRACT OF POLICE REGULATIONS.

COMPUTATION OF DISTANCES.—The distance shall be computed from the stand or place whence the Carriage may happen to be engaged or hired; but in case the Carriage should be taken from any place of public assembly or amusement, the distance shall be computed from such place of assembly or amusement.

DETENTION.—If the Driver of any such Carriage be detained in the course of his hire above fifteen minutes at any place or places, except when detained by the hirer for the purpose of returning, as hereinafter provided, he shall receive for every fifteen minutes' detention Sixpence.

DETENTION.—TO RETURN AT HALF FARE.—In any of the following cases, it

shall be at the option of the hirer to detain the Carriage, and return in the same, on payment of half fare, without additional charge for detention.

Where the hire of a Carriage of the First Class shall amount to Two Shillings or upwards, or, if of the Second Class, to One Shilling or upwards, and the detention shall not exceed one quarter of an hour.

Where the hire of a Carriage of the First Class shall amount to Three Shillings or upwards, or, if of the Second Class, to Two Shillings or upwards, and the detention shall not exceed half an hour.

Where the hire of a Carriage of the First Class shall amount to Four Shillings or upwards, or, if of the Second Class, to Three Shillings or upwards, and the detention shall not exceed one hour.

8. PERSONS CALLING OR SENDING FOR A CARRIAGE, AND NOT FURTHER EMPLOYING THE SAME.—Any person calling or sending for any such Carriage, and not further employing the same, shall pay as follows:—For a Carriage of the First Class, One Shilling; for a Carriage of the Second Class, Eightpence; or the fare from the stand or place from which the Carriage may be engaged. And if the person calling the Carriage shall detain the same, he shall further pay for any time that the Carriage shall be detained—not exceeding a quarter of an hour, Sixpence; and for any further time not exceeding a second quarter of an hour, if a Carriage of the First Class, Sixpence; and if a Carriage of the Second Class, Fourpence; and for any further time, in like proportion.

9. OWNER, &C., TO CHARGE BY TIME OR DISTANCE.—In all cases it shall be at the option of the Owner or Driver to charge by Time or Distance.

14. NUMBER OF LICENSE, &C., INSIDE THE CARRIAGE.—The number of the License, with the Name of the Owner, on a Card, shall be placed conspicuously inside the Carriage; and there shall also be printed on such card, under the number, the following words and figures, which card shall be fixed, and be legible during all the time the Carriage shall ply for hire:—

38. DRIVERS TAKING ANY PERSON ON THE BOX WITHOUT CONSENT OF PERSON HIRING THE CARRIAGE.—No Driver of any such Carriage shall take any person to ride upon the box, or in, or upon any part of such Carriage, without the permission of the person or persons hiring the same, first obtained.

#### FARES AND REGULATIONS FOR CARTERS PLYING FOR HIRE WITHIN THE CITY OF GLASGOW.

*At Glasgow, the 8th day of June, 1808 years.*—Which day the Magistrates and Council of the City of Glasgow, being in Council assembled, there was produced a

Table of Fares payable to, and Regulations for the government of, the Carters, plying for hire within the City, which had been drawn up by the Magistrates, after consulting with some of the Merchants of the City and a Committee of the Carters. On considering which Table of Fares and Regulations, the Magistrates and Council approve thereof, and enact and ordain the same to take place, and to be observed in all time coming, from and after this date, under the several penalties therein contained. And of which Table the tenor follows:—

I. The City shall be, and is hereby divided into the following Districts, according to which the respective Rates of Carriage after-mentioned shall be exigible.

*First District.*—To or from the Broomielaw to Stockwell street, Glassford street, and Frederick street, up to the North side of George square, including both sides of these streets, the whole of George square, and every part of the City to the west of these streets, and also the upper side of George street, west of Frederick street.

*Second District.*—From the streets last mentioned, along both sides of George street, to High street, along Troughton and Gallowgate streets, to the Spoutmouth, including both sides of High street, from George street southward; also St. Andrew's square, and all the streets and lanes between the said Spoutmouth, westward, to the first line of division.

*Third District.*—All the streets, lanes, and other places, within the City, to the east of the second line of division, and to the north of George street.

II. The following Fares and Rates of Cartage shall be exigible and payable in the said respective divisions or districts.

	<i>To any place in District</i>		
	No. 1. <i>s. d.</i>	No. 2. <i>s. d.</i>	No. 3. <i>s. d.</i>
For a Hhd. of Sugar, Pipe of Wine, or Puncheon of Rum, from the Broomielaw, - - - - -	0 11	1 0	1 2
Do. from the Weigh-house, - - - - -	1 0	0 11	1 0
For two Puncheons of Beans or Meal, two Bales of Yarn, or other large Casks or Bales, or Grain in Bags, weighing near or about a ton weight, from the Broomielaw, - - - - -	1 2	1 4	1 6
Do. from Weigh-house, - - - - -	1 4	1 2	1 4
For 6 Barrels of Ashes, or 6 large Bales of Cotton, or any number of Barrels of Bales, weighing about 18 cwt., from the Broomielaw, - - - - -	1 2	1 4	1 6
Do. from the Weigh-house, - - - - -	1 4	1 2	1 4
For a Cart-load of Cork, Staves, Dried Hides, or any other commodity that requires a considerable time to load and unload, from the Broomielaw, - - - - -	1 4	1 6	1 8
For a Cart-load of Cork, Staves, &c., from Weigh-house, - - - - -	1 6	1 4	1 8
For a Cart-load of Furniture, or similar articles that re- quire a long time to load and unload, for the first hour, and so proportionally for each Cart, - - - - -	1 0	1 0	1 0
And for every other hour, and so proportionally for each Cart, - - - - -	0 9	0 9	0 9

In carrying Grain, the Carters shall always find sufficient Bags, and carry the whole of their load up one story, or into a ground flat, without any assistance from the employer.

When the Cart-load is to be carried up more than one story, the Carter shall receive 2d. per cart additional; but in this case the Carter may carry up half of the load at his own expense, his employer being at the expense of carrying up the other half.

The Carter, in all cases, shall assist in loading and unloading, but must always remain by his Cart; and, when able to do so, he must load and unload the Cart himself.

All such quantities of Goods as are to be considered as a single Cart-load, and likewise all Rates and Fares, not before especially provided for, in case of any dispute, shall be settled by the Sitting Magistrate.

III. The following Rules and Regulations shall be observed by the Carters, and shall be strictly enforced in all time coming:—

1st. Every Carter shall enter his name and place of residence in a book to be kept for that purpose, in the City Clerks' Chambers, and must find security for the faithful

and honest discharge of his duty, under a suitable penalty; and any Carter plying in the streets, and neglecting to find such caution, shall forfeit a sum not exceeding two pounds sterling for each offence.

2nd. Every Carter shall be furnished with a badge, which will be numbered according to the order in which his name is entered. These badges must be worn constantly by the Carters when at work; and they must immediately get the number which is on the badge painted on some conspicuous part of their carts, under the penalty of ten shillings for each offence.

3rd. Every Carter who shall refuse to work when not engaged, or who shall demand higher Fares than those specified in the foregoing Table, shall be liable to a penalty of ten shillings for each offence. And every Carter who says he is engaged, shall, upon being asked, specify the person by whom, and the hour at which he is, engaged; and he shall not refuse to be employed in the interval between the time he is so asked, and the hour of his engagement, under a like penalty of ten shillings for each offence.

4th. Every Carter shall be furnished with, and shall always carry about with him, a copy of these Regulations and Fares, which he shall produce and show, when required, to his employers, under a penalty of ten shillings for each offence. And—

Lastly. Every Carter is hereby enjoined, strictly to attend and conform to the Regulations in the Act 12th, Geo. III., cap. 45, and also to the Regulations with regard to the carriage of timber, in the Act 33rd, Geo. III., cap. 104, under the several penalties therein-mentioned.

JAS. REDDIE.

## REGULATIONS AND TABLE OF FARES FOR THE CITY PORTERS.

By the Police Act, Section 103, no person is allowed to ply, or work on the streets of the city or liberties, for hire, as a Porter, without first entering his name and place of residence, in a book for the purpose, in the Town Clerks' Chambers, and without giving bond for the faithful and honest discharge of his duty, under such penalty as to the Magistrates shall seem proper, and without having a badge or ticket containing his number.

Persons wishing to be admitted as Porters, must apply to the Magistrates, by petitions, stating their place of nativity, age, residence, and former employment, and produce satisfactory certificates as to character. On being admitted, and before being allowed to ply, each Porter must implement the above enactment; and he shall thereafter strictly conform to, and observe the following Regulations:—

1st. He shall renew his bond at the expiry of three years; and on the decease of the Cautioner, or his removal from the city; which decease or removal he shall, within eight days thereof, intimate, in writing, to the City Clerks and Superintendent of Police; and he shall also, in the same manner, and within the same time, intimate his own removal or change of residence.

2nd. He shall wear his badge or ticket conspicuously on the left breast of his coat, which badge shall be of brass, and have inscribed the words, "City Porter," and the number in the order of his admission; and he shall also have a transcript of said inscription painted legibly on the right side of his barrow or hurley.

3rd. He shall not, when unengaged, refuse employment when offered, whether on his station or not; and if he alleges previous employment, he shall, when required, specify the nature and time of his engagement.

4th. He shall not demand higher fares than those specified in the subjoined Table—a copy of which Table, with these Regulations, and also a small plan of the City, divided into sections of a quarter of a mile, he shall always have in his possession, and produce to persons employing him, when required.

5th. When stations or districts are allotted to Porters, which shall be done by the Superintendent of Police, the Porters, except on extraordinary occasions, such as the Term time, when they are generally employed at *flittings*, shall not offer themselves for hire beyond the district assigned them.

6th. Not more than four Porters shall stand at any corner of a street or other

station; and as one station may be more advantageous for employment than another, they shall be so arranged as that each may have an equal opportunity of obtaining it. Thus, if the south corners of Glassford street shall be deemed the most favourable, the four Porters who have been longest in the service shall take the west corner, the next four in order shall take the east corner, the next four shall take the west corner of Stockwell street, and the next four the east corner of Stockwell street; and when a vacancy takes place, by the employment or absence, for a quarter of an hour, of any on the more advantageous stations, in this order, the Porter first on the next station for the day, shall have the right of moving to it; that is to say, the first of the four at the west corner of Stockwell street to the west corner of Glassford street, and the first of the four at the east corner of Stockwell street to the east corner of Glassford street; or the first at the east corner of Stockwell street may move to a vacancy at the west corner of Stockwell street. The same rule shall be observed at the Cross, the south end of Candleriggs, and the north end of King street; the south end of Buchanan street, and the north end of St. Enoch square; and at the other parts of the city where there are intersecting streets, or where there are two more stations near each other.

7th. Not more than six Porters shall resort to, or take up a station at, any Coach-office, inn, or other place at which stage-coaches arrive. On the arrival of coaches, the Porters shall stand in a line on the curb-stones of the pavement; and they shall not leave the curb-stone, or interfere with passengers' luggage, till singled out and engaged. They shall not importune, call out, or make any signal, to passengers for employment; and, unless especially selected by passengers, they shall take hire in rotation, each in regular succession.

8th. The object of these arrangements being to insure good order on the one hand, and a fair opportunity of regular employment on the other, the Porters must strictly attend to their operation. For this purpose, they may establish rules among themselves, provided these are sanctioned by the Superintendent of Police, who may alter or rescind them, and provided they are not inconsistent with the Regulations hereby enacted. In the event of dispute or misunderstanding among them, the same shall be determined by the Superintendent. And, as a corrective of improper conduct, the Superintendent may remove such as do not comport themselves with propriety, to an inferior station, and promote the next in order.

9th. No Porter shall appear on his station intoxicated: if he does, he shall be removed, and the next in order shall take his place. All Porters are prohibited from standing on the pavement or crossings, to the obstruction or annoyance of the lieges; as also from smoking, when upon their stations, or in any manner giving offence. In general, they are enjoined to conduct themselves orderly among themselves, and discreetly towards the public; to obey the instruction of the Magistrates; and to assist the Police in cases of emergency, and on all occasions when required by the Superintendent, or the officers acting under his authority.

10th. Porters contravening, or not conforming to these regulations, will subject themselves to a penalty not exceeding forty shillings; which penalty shall be awarded, and the regulations enforced in a summary manner, by the sitting Magistrate in the Council Chambers, or Police Court, who may also dismiss from said employment, and deprive of their badge, such as shall offend.

# INSURANCE COMPANY OF SCOTLAND,

(Now United with the Alliance Assurance Company of London.)

INSTITUTED IN 1821.—INCORPORATED BY ROYAL CHARTER.

**CAPITAL—FIVE MILLIONS STERLING.**

HEAD OFFICES,

EDINBURGH, 95 GEORGE STREET.—LONDON, BARTHOLOMEW LANE.

**P**ERSONS effecting Assurances with the Company enjoy the following important advantages:—

## PERFECT SECURITY.

The large Capital, and nearly One Thousand Shareholders composing the Company, render the security presented to the public undoubted.

## MODERATE PREMIUMS OF ASSURANCE.

The Rates for Life Cases, for the younger ages, lower than those charged by many of the older and most respectable Offices.

The Premiums for Fire Risks are the same as those which are demanded by the first class of Assurance Companies.

## PARTICIPATION OF PROFITS BY THE ASSURED BOTH IN LIFE AND FIRE.

The Profits of the Life Department, appropriated every five years, are applied to the increase of the amounts assured, or to the reduction of the future premiums, according to the choice of the Assured.

The Profits of the Fire Department, appropriated to the Assured, are distributed at the close of each successive period of five years, in the form of a per centage on the premiums which have been paid.

## LIFE DEPARTMENT.

Parties may effect Assurances on a Non-Participating Scheme at reduced rates. Assurances may also be effected on the Ascending or Descending Scales, and on Joint-Lives or Survivorships.

**NO ENTRY-MONEY CHARGED.**

## FIRE DEPARTMENT.

The Company Insures nearly every description of Property, including Cotton, Wool, Flax, Silk, and Paper Mills, Distilleries, Print-Works, &c., at rates regulated by the peculiarities of each case.

*Policies with other Offices transferred free of charge.*

CAPITAL—£300,000, IN 15,000 SHARES OF £20 EACH.

**T**HIS Society has not joined the late combination to raise the rates; and as it is a principle in its management to exclude all extreme hazard, the Society is enabled to offer the advantage of lower premiums than are now generally charged upon various important risks.

*One of its distinguishing regulations is to relax the stringent terms which have recently been imposed upon Warehousemen and others holding large Premises.*

The Society is purely Proprietary.

Assurances paid in advance for Five Years, will be charged Four-and-a-half Years' Premium and Duty.

Assurances paid in advance for Seven Years, will be charged Six Years' Premium and Duty.

Losses settled liberally, and paid immediately on the amount being duly ascertained.

## LIFE BRANCH.

CAPITAL—£500,000, IN 10,000 SHARES OF £50 EACH.

The Tables of this Society have been calculated with the utmost care and consideration, and will be found to present superior though just advantages to Assurances upon Young Lives. They are based upon the combined experience and practical knowledge of the principal and most successful Offices, and the Directors have adopted them after cautious deliberation.

Prospectuses, Forms of Proposal, and any information respecting the terms on which Assurances may be effected, will be furnished on application to

## LIFE DEPARTMENT.—IMPORTANT ADVANTAGES.

A MODERATE SCALE OF PREMIUMS, COMBINING THE BENEFITS OF THE MUTUAL WITH THE SECURITY OF THE PROPRIETARY SYSTEM; FOUR-FIFTHS, OR EIGHTY PER CENT. OF THE PROFITS BEING APPROPRIATED TO THE ASSURED EVERY FIFTH YEAR.

THE Share of Profits allotted to each Policy may be applied either as a Bonus or Reversionary Sum to be added to the amount insured, and payable at the Death of the Life; or in Reduction of the future Annual Premium; or an immediate payment may be obtained in Cash, of its present value.

Insurances may also be effected upon the joint continuance of two or more Lives; upon the joint Lives and the Life of the Survivor of two or more persons; upon the contingency of one Life dying before another; upon the Life Assured attaining any specific age, or dying previously thereto.

Premiums may be paid either yearly or half-yearly; by a single payment; by a limited number of payments; by an ascending or descending scale.

THE BOARD of DIRECTORS in SCOTLAND have much gratification in reporting the continued and increasing prosperity of the Association; and they feel warranted in directing special attention to the favourable opportunity of effecting Assurances for Family Provision presented by

## THE SECOND DIVISION OF PROFITS,

which will take place at Christmas, 1853, when all Policies opened PRIOR TO CHRISTMAS, 1850, will receive Bonus Additions at the rate then to be declared. The Profits are divided at each Septennial Investigation among all Policy-holders of three years' standing on the Participation Scale, according to an approved and equitable system of division, whereby substantial justice is secured to all the Assured, no preference being given to the earlier Entrants, either by an indefinite postponement of the period of Investigation,—by drawing back at each Division to the Date of the Original Assurance,—or by any other modification of the *Tontine* principle, as opposed to that of pure *Life Assurance*, whereby the interests of New Entrants are exposed to an unequal and disadvantageous competition with those of the Older Members. At last Investigation a Bonus was declared of TWO PER CENT. PER ANNUM on the Sums Assured. The Bonus Additions vest immediately on declaration; and they may be appropriated in any of the following ways:—

- I. At a Permanent ADDITION to the Sum assured by the Policy.
- II. In Reduction of the ANNUAL PREMIUMS payable during the succeeding SEVEN YEARS; or until the next declaration of Bonus, when a similar reduction may be effected for the succeeding period.

III. *In Reduction of ALL THE FUTURE PREMIUMS payable under the Policy,—a further reduction of which may be effected at the next declaration of Bonus.*

IV. *By an Immediate CASH PAYMENT of the present value of the Bonus.*

Intending Assurers are particularly requested to observe, that they have thus placed *within their own choice* every possible mode of appropriating the Bonus Additions declared upon their Policies, in the way which they may consider most suitable to their own views and circumstances.

#### THE POLICIES

of the Association are effectually secured by a protecting CAPITAL of ONE MILLION STERLING, fully subscribed by a numerous and wealthy body of Proprietors, and thus present a most advantageous mode of investment, with entire exemption from responsibility.

#### THE PREMIUMS

are payable Yearly, Half-Yearly, Quarterly, for a limited number of years, or in a Single Payment—at the option of the Assured.

#### HALF-CREDIT PREMIUMS.

Persons who may find it inconvenient to pay the full Annual Premium at first, may effect Assurances for the Whole Term of Life on the HALF-CREDIT SCALE, whereby *one half* of the Annual Premiums may remain unpaid for Three, Five, or Seven years;—the arrears being *either* paid up at the end of the period, *or* allowed to remain as a permanent debt against the Policy, in the option of the Assured. Such Policies receive the full advantage of Bonus Additions on the *Whole Sum Assured*, the value of which, when declared, may, if desired, be applied towards extinction of the arrears of Premium. They also afford this important advantage,—that persons are thus enabled to effect Assurances at an earlier age, and consequently at a much lower rate of Premium, than if they postponed their intention until they were enabled to pay the full amount of the Annual Premium.

NON-PARTICIPATION POLICIES ON A REDUCED SCALE OF PREMIUMS.

SINGLE PAYMENT (DEPOSIT) ASSURANCES ON FAVOURABLE TERMS.

IMMEDIATE, DEFERRED, AND CONTINGENT ANNUITIES, AND ENDOWMENTS.

NO ENTRY MONEY IS CHARGED.

## LIFE DEPARTMENT.

**PARTIES** may effect ASSURANCES with this Company, either for a specific sum payable at death, on payment of a reduced rate of premium; or they may participate in the profit scheme of the Company, on payment of an increased rate.

### NO ENTRY MONEY IS CHARGED.

Assurances may also be effected on the INCREASING or DECREASING SCALES, and on JOINT LIVES and SURVIVORSHIPS.

TWO-THIRDS of the Profit arising on the Participating class of Policies, *without being subject to any charges for Management*, are divided EVERY FIVE YEARS among those entitled to participate, on the MOST EQUITABLE PRINCIPLES, viz., in the proportion each party has contributed to the fund.

The bonus declared upon Policies entitled to participate, effected prior to 1st August, 1846, averages more than One and Three-quarters per Cent. per Annum on the original sums insured, as exhibited in the following

TABLE, showing the additions made to Policies of £1000 each, which have been in existence Twelve complete years from 1st August, 1834 :—

**T**HIS Company insures against Loss or DAMAGE by FIRE, all Descriptions of Buildings, including Mills and Manufactories, and the Goods, Wares, and Merchandise in the same; Ships in Harbour or in Dock, at the lowest rates of Premium corresponding to the risk.

FARM STOCK and CROP insured, *in cumulo*, on one farm, without the Average Clause. Loss and Damage by lightning made good.

LOSSES SETTLED WITH PROMPTITUDE AND LIBERALITY.

## LIFE ASSURANCE.

The system adopted by this Corporation combines the principle of mutual Assurance with the security of a large Capital, and the support of an influential body of Proprietors.

The Premiums are moderately rated at every age, and may be paid either in one sum, or by yearly, half-yearly, or quarterly instalments, so adjusted as to suit the convenience of parties.

The **WHOLE PROFITS** are divided amongst the ASSURED, after RESERVING ONE-FIFTH against the risk of extraordinary mortality, or other contingencies, each Policy drawing in proportion to the sum insured and number of Premiums paid.

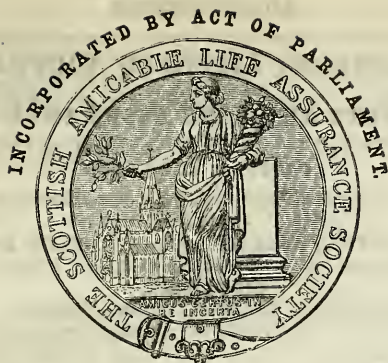

Although the business of the Company was not extended to Life Assurance until 1823, the accumulated fund from Life Premiums, at 31st December last, *without amalgamating with any other Company*, amounted to £529,357 13s. 3d., and the Annual Revenue was £104,352 13s. 11d., and continues rapidly to increase.

No Entrance Money or other charge is made, excepting the Stamp for the Policy.

**T**HE operations of the Mutual System, and the equitable arrangements of the Society in the division of the Surplus, render an Assurance with this Office, on the ordinary scale, a most profitable application of such sum as a party proposes to devote to the important purpose of Family Provision. At last investigation, two per cent. per annum was added to the Policies, and provision was made for payment of the same addition for the future to Policies becoming Claims before next Investigation.

Tables of Insurance have been calculated for sums payable at the end of a certain number of years, or on attaining a certain age, or at death: thus combining Life Assurance with Provision for advanced age.

Attention is invited to Tables for *Educational Assurance* recently calculated for this Society, whereby, at a very trifling cost, a Parent may secure an Annuity to his Child till he reach 18, in the event of the previous death of the Parent. For instance, a Parent, aged 40, will secure for a Child, aged 4, an Annuity of £40 for payment of an Annual Premium of £5 17s., of which only one-half will be payable during the latter half of the period of Insurance.

The Society pays special attention to the rates for Foreign risks, with a desire to adjust them on a fair and liberal footing. Tables have been formed for acclimatized parties in the West Indies and British Guiana.

Pamphlets containing Tables of Rates, Terms of Proposals, and every information, may be obtained on application at the Office, 141 BUCHANAN STREET.

**T**HE Company offers to the Public very important advantages, and affords, by its large paid-up Capital and accumulated Fund, with a proprietary of nearly ONE THOUSAND in number, an undoubted security for all its engagements.

The Company continues to effect FIRE and LIFE ASSURANCES, and to grant ANNUITIES and ENDOWMENTS, on the most favourable terms.

The number of Life Policies issued exceeds 3000, covering Assurances to the extent of upwards of ONE MILLION AND A HALF Sterling.

The Constitution of this Company embraces—

**I.—A MUTUAL ASSURANCE BRANCH,**

The Members of which incur no liability, while they obtain the **WHOLE BENEFIT** of their contributions,—the sums assured being *guaranteed*, and the business conducted by the Company for a charge of 10 per Cent. upon the Premiums without any deduction whatever. The next Investigation and Division will be made at 30th April, 1851, and parties opening Premiums prior to date will have an advantage over those at a later date.

The Assured have the power, under the Act of Incorporation, to elect three of their number as Directors for the *Management* and *Investment* of their own funds.

The Bonus declared in 1846 (when the Institution completed its tenth year) was equivalent to from 35 to 54 per Cent. on the Premiums paid by middle-aged lives.

HEAD OFFICE IN GLASGOW—19 ST. VINCENT PLACE.

JAS. SMITH, *Manager*.

THE  
**STANDARD LIFE ASSURANCE COMPANY.**  
 ESTABLISHED 1825.

**CONSTITUTED BY ACT OF PARLIAMENT.**

GLASGOW, 35 ST. VINCENT PLACE.

**T**HE DISTINCTIVE FEATURE in this Company, the operation of which has contributed in a marked degree to the great success of the Institution, is the mode pursued in the DIVISION OF PROFITS among the Assured, and the Directors request attention to its peculiar advantages. It confers the greatest benefits on those Members whose Policies are maintained for the longest period; in other words, those who pay most Premiums. Persons who effect Assurances as a Provision for their Families, or from other prudential motives, can thus look forward to *increasing* advantages as they advance in life, each period of Division they may survive bringing additional benefits.

**THE BONUS ADDITIONS**

Already declared by the Company, are shown in the following Table:—

*These Additions can be surrendered for a present Payment in Cash; or, they may be applied in present value towards Reduction of Annual Premiums.*

Thus, for instance, a Policy for £1000, opened in 1825, in receiving a Bonus Addition at the first Investigation in 1835, had a claim corresponding to 11 years, the period it had been in force, and an addition was made of..... £137 10 0

At the next Division in 1840, the claim was for 16 years, being the period the Policy had then been in force, securing an addition of..... 200 0 0

At the Division in 1845, the claim was for 21 years, securing 262 10 0

Total Additions at these Divisions to a Policy for £1000 £600 0 0

In 1850, the claim under this Policy will be for 26 years' additions; in 1855, 31 years, and so on.

It is the same principle of Division which was adopted by the **EQUITABLE SOCIETY OF LONDON**, established in 1762, the Policies of which office have been known to realise upwards of *six times* the original sum Assured. There is of course no prospect of this Company, or any Company in the present day, making such large additions as those referred to; for the Rates of Premium in the Equitable were at one time nearly double in amount those now charged, and the full privileges of participation in the Profits of that Society are confined to a particular class or number of Policy-holders; the *principle* of Division, however, which is the leading feature, is common to both Institutions.

The following examples are taken from the Bonus Table of the Equitable Society of London, lately published, with reference to the Division of Profits as at 31st December, 1849, among the privileged class of Policy-holders referred to:—

Policy Opened.	Sum Assured.	Bonus Addition.	Total.
1790 .....	£1000 .....	£5260 .....	£6260
1795 .....	1000 .....	4405 .....	5405

Sir WILLIAM GIBSON-CRAIG, Bart., of Riccarton, M.P.

*All of whom, as well as the Directors, Ordinary and Extraordinary, are personally connected with the Society by Insurances of more than three years' standing.*

The Representatives of an original Member dying in the present year, after payment of the Premium for the current year, would receive a Bonus equal to Ninety-nine per cent. on the original sum Insured; and the Representatives of an original Member dying in the year 1852, after payment of the Premium for that year, would receive a Bonus equal to upwards of One Hundred and Six per cent. on the sum Insured.

IN comparing the relative advantages afforded by the different Insurance Companies, and in contrasting the various modes in which the Profits are allocated amongst the Insured, it ought to be particularly kept in view that many Offices, professing to make large additions, make no provision for the payment of Bonuses during the interval between one period of investigation and another, commonly called Contingent Prospective Bonuses. No mode of allocation of the Profits of an Assurance Company can be equitable, which does not proceed upon the principle of making provision for such Bonus additions. Thus, when a higher Premium is charged than is admittedly an equivalent for the risk undertaken, and when the accumulations arising from the surplus Premiums are divided in whole or in part among the contributors, it is clearly contrary to the principles of justice,—that if A and B, being of the same age, effect Insurances at the same time and to the same extent, and if A live for several years longer than B, and pay more Annual Premiums, his Representatives should receive no larger share of the Profits or surplus Premiums than the representatives of B. It is, at the same time, manifestly inconsistent with strict equity that the interests of the Families, or Representatives of those whose lives are Insured, should be materially affected (it may be to the extent, in some cases, of hundreds of pounds), according to whether they happen to die the day before or the day after that on which an investigation is made into the Company's affairs.

## FIRE INSURANCE.

The usual moderate Premiums of 1s. 6d., 2s. 6d., and 4s. 6d., are taken for Common, Hazardous, and Doubly Hazardous risks. Special Insurances at increased Rates.

## LIFE INSURANCE.

The Non-Participation Department embraces every description of Insurance on approved Lives, at the lowest Rates of Premium consistent with safety.

The Participation Scheme was begun in 1840. The Premiums are much more moderate than those usually charged, so that by transacting with this Company an important saving is effected, equivalent, in many cases, to the highest amount of Bonus added by any office for the first Five years. Notwithstanding this, a large profit has already been realized. By the first Declaration of Bonus, as at 10th February, 1847, vested Retrospective additions, at the rate of  $1\frac{1}{4}$  per cent. per annum, was made to all Policies then connected with the Scheme, together with Contingent Prospective additions at the same rate to such of these Policies, including vested Bonuses, as may become claims before next Investigation. This is to take place at 10th February, 1852, and, from the experience of the last two years, during which the Mortality in connection with the Participation Branch has been extremely light, the results are expected to be satisfactory in the highest degree.

*The distinguishing principle of this Society is, That the Benefits resulting from its transactions shall be enjoyed by the Members during Life, so as to render Life Assurance as easy to the Assured as a due regard to security will admit.*

The Surplus or Profit (a minute investigation of the affairs being first made) is distributed amongst the Policy-holders *annually and in money*. The first Division was made in 1845, and the Payments to the Policy-holders have been as follows:— In 1845, 1846, and 1847, *thirty per cent. of the premiums*; in 1848, 1849, and 1850, *thirty-five per cent. of the premiums*. The following are examples of the sums which have thus been paid:—

Age at Entry.	Date of Entry.	Sum Assured.	Amount received in Money by Policy-holder since 1845.
60	1840	£1000	£86   6   0
55	Do.	Do.	70   16   0
50	Do.	Do.	58   6   0
40	Do.	Do.	40   14   0
30	Do.	Do.	30   8   0
20	Do.	Do.	23   2   0

Some of the Policy-holders, instead of accepting the payments of Money, prefer effecting additional Assurances therewith. The results are as follow :—

Age at Entry.	Original Sum Assured.	Amount of New Assurance effected by means of the Return of Surplus.	Total Sum payable by Office, if the death occur in the sixth year.
20	£1000	£306 10 0	£1306 10 0
30	Do.	304 11 0	1304 11 0
40	Do.	295 4 0	1295 4 0
50	Do.	288 4 0	1288 4 0

*An important feature of the Society is, That, in the Division of the Surplus, no undue advantages are allowed the older class of Members at the expense of the Later Entrants.*

During the year ending 5th April, 1850, the Society issued 730 new Policies for Assurances, amounting to £249,000.

## TO CIVIL ENGINEERS & LAND-SURVEYORS.

ALEXANDER DICK,

Land Surveying Chain-Maker, and Plain and Fancy Wire-Worker,

10 BUCHANAN BUILDINGS, 105 STOCKWELL STREET, GLASGOW,

**R**ESPECTFULLY returns his unfeigned thanks to those Gentlemen who have, these 26 years past, favoured him with their patronage, and hopes, by prompt attention to their orders, and making every Article in the above line of the very best materials and superior workmanship, still to merit a continuance of their kind favours.

A. D. would most earnestly request those Gentlemen who have not as yet given his Chains a trial to do so, confident that they will find them a superior article, and second to none now in use; and to prevent mistakes, '*Alexander Dick, Chain-maker, Glasgow,*' is on the middle teller or counter of his Chains. The following is an abridged list of his Prices:—

### Foot Link 100 Feet Chains,

100 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 10s. 6d. each; and with a set of No. 5 link brass counters, 11s. 6d. each.

100 feet long, 100 links with long eyes and filed joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 18s. each. With a set of No. 5 link brass counters, 19s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 16s. each. With a set of No. 5 link brass counters, 17s. each.

A. D. would particularly recommend the Chains with long-eyed links, filed joints, and 300 oval rings, as being the best he makes; warrants them not to crank, twist up, nor so apt to stretch as those with round-eyed links and round rings, being made in a superior style.

Scotch Surveying Chains, with or without the Fractions, made only to Order.

### Imperial or Link Surveying Chains,

66 feet long, 100 round-eyed links, made of No. 8 wire, 200 round rings, and made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 8s. 6d. each.

66 feet long, 100 links, with long eyes and filed joints, 300 oval rings, and both made of No. 7 wire, with superior improved strong wire handles, with brass tops and copper swivels, 16s. each.

A Chain of the same kind, but links and rings made of No. 8 wire, 14s. each.

Brass Imperial, or Link Surveying Chains for Coal Mines, 8s. per Chain extra, made only to Order.

Surveying Chains, made of Steel wire to any length, size of wire, or pattern, made only to Order.

*The only Steam-power Roasting Establishment connected with the Trade in the City.*

**D.** MINTO begs leave to return thanks to the Grocers and Druggists of this Town and Vicinity for past favours.

He also begs leave to intimate, that in connection with his Coffee-Roasting, and Coffee and Spice-Grinding Works, he has fitted up an extensive Sugar-Pounding Machine, offering to the Confectioners, and Trade in general, an advantageous opportunity of having their Sugar Pounded by Steam-power, far surpassing anything ever yet offered to the Trade.

D. M. trusts that, by personal attention, along with twenty-three years' experience, he will be enabled to give entire satisfaction to those who may favour him with their Orders.

P.S.—*All orders punctually attended to, and delivered by his VAN at the proper time.*

29 M'Pherson Street, off High Street,

GLASGOW, *May*, 1850.

The COFFEE-PLANT, "*Coffea Arabica*," of Linnaeus, is an evergreen, and, as may be inferred from its scientific name, is a native of Arabia. It produces a pulpy berry about the size of a small cherry, enclosing two seeds, which, separated from their pulpy envelope, form the well-known Coffee Beans of commerce. It may be remarked, as a singular fact, in reference to Coffee, that while all of the vegetable kingdom that have been taken under the care of man have been improved, it alone asserts its independence; for though cultivation may greatly enlarge the crop, it as certainly at the same time deteriorates the flavour, and the produce of the wild plant still maintains the highest figure in the market. It is well known that Coffee would be of no real value were it not properly roasted—a process which, as it requires much skill, is only to be acquired by experience. How man became acquainted with the fact, that the tasteless seeds of a berry, when roasted, ground, and infused, would form a grateful beverage, will most probably remain a secret to the end of time. That the development of its useful properties depends wholly upon the roasting, is evident. About two hundred years ago, Coffee was first introduced into England, since which its consumption has steadily increased, and deservedly so when its medicinal properties are considered, it having been found useful in headaches arising from a particular state of the stomach, and much benefit having been derived from its exhibition in cases of Asthma.

A French scientific gentleman, who has directed his attention to this subject, says:—"I have found that Coffee is better roasted, and more of the aroma retained, when a double cylinder is used—the air between the interior and exterior cylinders acting as a non-conductor of heat. It is done more uniformly, while the essential oil on which the aroma depends is less liable to be dispersed than when exposed to the fierce heat of a fire in a single cylinder."

In the double rotatory globular method of roasting, as practised at Mr. Minto's Works, 29 M'Pherson Street, off High Street, Glasgow, the above principle is acted upon, inasmuch as the globe (which has superseded the cylinder, since the application of steam power to this branch) revolves in a medium of heated air, which experience has shown best prevents the dispersion of the essential oil or aroma.

## TO CONNOISSEURS IN COFFEE.

---

### FULTON'S ESSENCE OF COFFEE.

---

FAMILIES and Hotel-keepers will experience a great saving of time and trouble, whilst preparing Coffee for the table, by using FULTON'S ESSENCE. With it any quantity of Coffee may be prepared almost instantaneously; and in point of excellence such as connoisseurs will find unequalled.

W. FULTON & Co. have pleasure in directing attention to the testimony of the celebrated analytical chemist, Dr. Andrew Ure, regarding their Essence of Coffee, which is admitted by judges to be the best ever manufactured:—

(COPY.)

“24 Bloomsbury Square, London, 11th March, 1850.

“I have examined the cold-drawn Essence of Coffee, as prepared by Messrs. Fulton & Co., Glasgow, and find it to be a pure and wholesome extract of the principles of that berry, and which may be preserved even in warm climates, without undergoing fermentation, in well-closed vessels.

“ANDREW URE, M.D., F.R.S., &c.”

"After inspecting the latest portraits produced by Mr. Bernard, we find it *extremely* difficult to imagine any higher state of perfection."—*Citizen*.

"These likenesses are incomparable for truth. The style in which they are finished is classically chaste, at the same time that the most minute points are touched with a vigour which betray the hand of an artist, whose abilities are far beyond \* \* \* \* Their softness of finish and colour is such as to combine beauty with force in a way to *defy description*."—*Daily Mail*.

"We can truly affirm that the success of Bernard's new method is such as can be barely imagined. The rich texture and warm tints of the flesh are perfect in his miniatures."—*Glasgow Courier*.

# EMIGRATION TO NATAL,

UNDER THE SANCTION OF HER MAJESTY'S GOVERNMENT.

The Natal Colonization and Emigration Co. despatch

MONTHLY PACKETS FOR NATAL,

FROM

LONDON, LIVERPOOL, AND GLASGOW.

**T**WELVE Vessels have already been despatched, with 2000 Emigrants, to settle on their Lands. The Locations are near the Capital, PIETERMARITZBURG, (which is only 60 miles from the Port, and has about Two Thousand European Inhabitants, with resident Lieutenant-Governor, Legislative Council, Military, &c.), and in the vicinity of the sea, twenty-five miles north-east of D'Urban, the Port of the Colony.

## TERMS FOR PASSAGE AND LAND.

STEERAGE PASSAGE, full PROVISIONS, and 20 Acres,	£10;	with 50 Acres,	£16 10s.
2ND CLASS INTERMEDIATE, do.	do.	£16;	do. £22 10s.
1ST CLASS INTERMEDIATE, do.	do.	£19;	do. £25 10s.
CABIN PASSAGE, without LAND, £35.			

Among the ADVANTAGES possessed by NATAL may be named—

- A PASSAGE of only 9 or 10 weeks, the distance being only about half that of Australia and New Zealand.
- A SOIL producing excellent European grains a short distance from the Coast, and in all parts affording splendid Cattle Pasturage, and producing Cotton of the finest quality, with other valuable tropical products.
- A CLIMATE of uncommon salubrity, and, though warm, so tempered by the Indian Ocean on one side, and lofty mountains on the other, and by summer showers, that the heat is felt to be less oppressive than in London.
- VEGETATION continuous during the whole year, rendering Winter Provision for Stock unnecessary, and allowing at all times Two Crops in the year.
- A DEMAND for LABOUR, insuring immediate employment at high wages to Mechanics of all sorts, Agricultural Labourers, and Female Servants.

Natal is peculiarly adapted for the residence of Invalids, and for the mitigation or removal of Pulmonary complaints, the equability of temperature being remarkable. The extremes indicated by the thermometer in the shade in 1847 were 47° the coldest, and 88° the warmest, during the whole year.

The Emigrants are landed *free of expense*, and provided with temporary accommodation for a month after landing.

Facilities are afforded to a Clergyman and Teacher proceeding by each vessel to settle among the Emigrants. By the "Unicorn," a fine frigate-built ship, of 1,200 tons, to sail from Liverpool on 10th June, the Rev. William Campbell, minister of the Free Church at Alexandria, and Mr. Alexander M'Donald, of Abbotsford Place Academy, Glasgow, will proceed, as Presbyterian Clergyman and Teacher, with their respective families.

The GOVERNMENT FORMS, also CIRCULARS with a Map and Extracts, and every information desired, will be supplied, free of expense, on application to Messrs. J. C. BYRNE & Co., London; or to

ROBERT BEVERIDGE, *Accountant*,

8 Prince's Square, Buchanan Street, Glasgow.

## BUTTER IN FIVE MINUTES.

### Anthony's Patent American Churn.

SOLE MANUFACTURERS FOR SCOTLAND,

**R. GRAY & SONS,**

Agricultural Implement Makers, Uddingston, by Glasgow.

THE attention of the Public is respectfully solicited to an examination of the merits of the above invention.

One of its recommendations is its great simplicity—it operates on a beautiful principle. The mechanical action of the air, which is mingled with the Cream in such a manner that a thorough separation of the particles takes place, preventing the Cream from frothing on the surface, and doing its work with most astonishing rapidity, and in the most efficient manner.

Butter is produced from Cream within 12 minutes, and with greater facility from Milk; and so perfect is the operation, that *more Butter*, and of better quality, is obtained from the same quantity of Cream, than by any other method ever yet tried. The Butter may be washed in the Churn, by pouring off the Milk, putting in cold water, and pressing the Butter against the sides of the Churn, moving the dasher backwards and forwards, and changing the water until it remains clean.

R. G. & SONS submit the following testimonials:—

Extract from a Glasgow paper, May 17, 1850:—

“NEW CHURN.—BUTTER IN FIVE MINUTES.—Yesterday, an exhibition of considerable interest and importance took place in the Sale-room of the Royal Exchange. A churn, recently invented by a Mr. Anthony of Pittsburg, United States, was submitted to the inspection of the public by Mr. Mitchell, of Kay and Mitchell, Newgate Street, London, the agents of the patentee in this country. By this new process, the inventor professes to be able to manufacture butter in about twelve minutes, and, on trial yesterday, this result was much more than realised, for, in precisely three and a half minutes after the churn had been put in motion, the cream was found to be what, in the language of the dairy, is called “broken;” and, in one minute more, some beautiful butter was produced of the usual consistency. Several of the numerous parties present tasted it, and pronounced the quality to be excellent, and altogether much satisfaction was expressed at the successful issue of the experiment.”

“BUTE ARMS INN, ROTHESAY, May 17, 1850.

“We have just witnessed an experimental trial of Anthony's Double-Acting Patent Churn, exhibited this day at the Buteshire Agricultural Society's Cattle Show, by R. Gray & Sons, Agricultural Implement Makers, Uddingston, and have much pleasure in certifying, that butter of excellent quality was produced in four and a half minutes after the churn was set in motion; its simplicity and efficiency of action is admirable, and consider it the greatest improvement in dairy management that has yet fell under our notice.

ANDREW AITON, Farmer, Fullarton, Ayrshire,	} Judges of Cattle.
HUGH KIRKWOOD, Farmer, High Langmuir, Ayrshire,	
HUGH HUNTER, Farmer, Collium, Ayrshire.	
HUGH M'DOUGALD, Farmer, Kilcattan, Bute.	
JOHN MARTIN, Farmer, Largizean, Bute.”	

Testimonials and prices on application to R. GRAY & SONS, Uddingston, Glasgow, the sole manufacturers, and by whom the trade will be supplied.

This Churn would be a most valuable addition to an Emigrant's outfit.

**R. GRAY & SONS,  
AGRICULTURAL IMPLEMENT AND MACHINE MAKERS,**

UDDINGSTON, BY GLASGOW,

**M**OST respectfully invite the attention of the Glasgow Public to the AGRICULTURAL IMPLEMENTS and MACHINES manufactured by them, and for which they have gained such high celebrity, being awarded, within the last six years, upwards of Ninety Sovereigns and Ten Medals, by the Highland and Agricultural Society of Scotland and other Agricultural Societies, for the invention of new and improvement of existing Farming Implements.

**T**HE Company was established in 1823, and has been incorporated by Act of Parliament, for the purpose of carrying on the business of Life Assurance in all its varieties, on the most liberal and approved principles. The success which has attended the Company since its commencement, and its annually increasing prosperity, is a gratifying proof that the principles upon which it is founded are calculated to confer great benefits on Assurers.

The following are the principal advantages given by this Company:—

**MUTUAL ASSURANCE**, without liability.

The guarantee of a responsible body of Proprietors, either personally or otherwise assured with the Office, affords the most undoubted security to all classes of Assurers.

**NINE-TENTHS** of the WHOLE PROFITS Septennially divisible among the Assured.

This is a larger proportion than can ever be divided by any simple Mutual Assurance Society.

**AN INTERMEDIATE BONUS** paid on Policies becoming Claims between one Investigation and another.

All the advantage of an Annual Division is thus given, without its attendant evils.

**THE MOST EQUITABLE PRINCIPLE** of DIVISION.

The greatest benefits are thereby bestowed upon the oldest Policies, thus securing that first-class Lives shall not suffer by any undue Bonus being paid away to those who may die early.

**RATES** of PREMIUM EXTREMELY MODERATE.

The Non-Participation Scale is equivalent to a present Bonus of considerable amount, when compared with most other Offices.

It will be observed, that in some instances the above Bonuses amount together to more than the sum originally insured—a feature of success of which few Offices can boast.

In effecting a Policy, *No Entry Money* or other Charge is made beyond the Premium and Stamp.

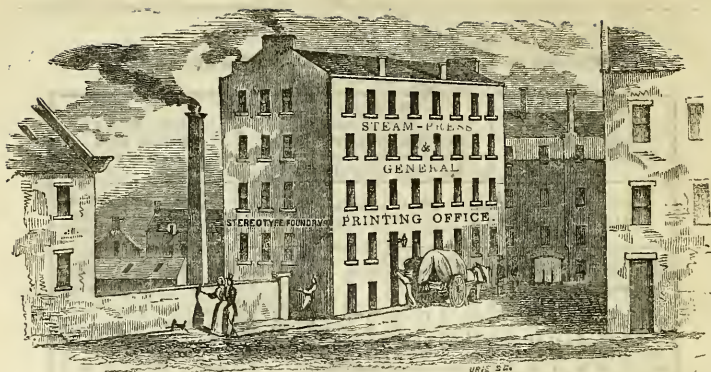

The utmost liberality as to extra licenses, consistent with a due regard to the nature of the risk incurred; and no extra within the limits of Europe.

Copies of the Report of Proceedings at last General Meeting to declare the Bonus of 1849, with Prospectus and Rates, and all information, may be obtained at Head-Office, or any of the Agencies.
