Form of Proceeding in the Recovery of Small Debts.

Debts may be recovered in a summary form, before the Justice of Peace Court, to the extent of £5; and before the Sheriff Courts, to the extent of £8, 6s. 8d.

The first step is to set forth, in a complaint or libel, agreeably to a prescribed form, [the Clerks of Court will provide the necessary forms,] the origin of the debt, or ground of action, and to cause the same, with a copy of the account, if any, to be served on the defender.

A warrant will, at same time, be obtained to cite witnesses, and to use arrestments.

The parties may appear either by themselves or by members of their families, or others whom the Court may authorise; but in no case by persons practising the profession of the law, without special leave.

If the defender fail to appear, after being cited personally, he will be held as confessed, and judgment will be given against him.

In the Justice of Peace Court, if the defender has not been cited personally he will receive a second citation; after which, whether given personally or not, he will be held confessed, as above; but in the Sheriff Court only one citation is given.

But, when decree is given in absence against the defender, he may, before the expiry of the charge, apply for a re-hearing, on consigning the sums decerned for.

If decree in absence be given against the pursuer, he may, within one month, obtain a re-hearing on consigning 2s. 6d. if the case be before the Justices; and the expenses decerned for, with 5s. to meet farther expenses, if the case be before the Sheriff.

The case will be adjourned, upon the pursuer or defender offering a suitable excuse, or if any witnesses be absent.

If decree be given against the defender, in his personal presence, diligence may proceed against him by arrestment instantly; and by poiding and sale, at the end of ten days.

If decree be given against the defender, in his absence, poiding and sale, as above, can only follow after a charge of ten days.

The defender, on showing cause, may be allowed to pay the sums decerned for by instalments.

The decrees of the Sheriff may be executed in any county, on the same being indorsed by the Clerk of such county.

Any arrestments, used in cases before the Sheriff, must be used within sixty days after the warrant is obtained, and renewed every three months; and such arrestments may be loosed on offering sufficient caution, or on showing evidence of absolvitor, or payment, or on consigning the sums demanded, if before decree.

The above forms will apply to any action of forthcoming whatever, before the Sheriff, for making effectual arrestments; but in such actions, both the defender and arrestee must be cited to appear in Court on the same day.

Decrees, pronounced in this summary form, by the Sheriff, will only be reviewable by the next Circuit Court of Justiciary, or, if there be no Circuit Court, by the High Court of Justiciary, at Edinburgh, on the ground of corruption, or malice, or oppression, on the part of the Judge.

Such decrees, when pronounced by the Justices, will only be reviewable by a reduction before the Court of Session, on the ground of malice and oppression, on the part of the Justices; and such reduction will only be competent for one year, and finding caution for costs.

No person shall be exempted from the jurisdiction of Justices or Sheriffs, in such cases, by reason of privilege as a member of the College of Justice.

Regulations and Table of Fares for the City Porters.

By the Police Act, Section 103, no person is allowed to ply, or work on the streets of the City or liberties, for hire, as a porter, without first entering his name, and place of residence, in a book for the purpose, in the Town Clerk's Chambers, and without giving Bond for the faithful and honest discharge of his duty, under such penalty as to the Magistrates shall seem proper, and without having a badge or ticket containing his number.

Persons wishing to be admitted as Porters, must apply to the Magistrates, by petition, stating their place of nativity, age, residence, and former employment, and produce satisfactory certificates as to character. On being admitted, and before being allowed to ply, each Porter must implement the above enactment; and he shall thereafter strictly conform to and observe the following Regulations:—

1st, He shall renew his bond at the expiry of three years, and, on the decease of the Cautioner, or his removal from the City; which decease or removal, he shall, within eight days thereof, intimate, in writing, to the Town Clerks, and Superintendent of Police, and he shall also, in the same manner, and within the said time, intimate his own removal or change of residence.

2d, He shall wear his badge or ticket conspicuously on the left breast of his coat, which badge shall be of brass, and have inscribed the words

“City Porter,” and the number, in the order of his admission; and he shall also have a transcript of said inscription painted legibly on the right side of his barrow or hurley.

3d, He shall not, when unengaged, refuse employment when offered, whether on his station or not; and, if he allege previous employment, he shall, when required, specify the nature and time of his engagement.

4th, He shall not demand higher fares than those specified in the subjoined Table; a copy of which Table, with these Regulations, and also a small plan of the City, divided into sections of a quarter of a mile, he shall always have in his possession, and produce to persons employing him, when required.

5th, When stations or districts are allotted to Porters, which shall be done by the Superintendent of Police, the Porters, except on extraordinary occasions, such as the Term time, when they are generally employed at *flittings*, shall not offer themselves for hire beyond the district assigned to them.

6th, Not more than four Porters shall stand at any corner of a street or other station; and, as one station may be more advantageous for employment than another, they shall be so arranged as that each may have an equal opportunity of obtaining it. Thus, if the south corners of Glassford Street shall be deemed the most favourable, the four Porters who have been longest in the service shall take the west corner—the next four in order shall take the east corner—the next four shall take the west corner of Stockwell Street—and the next four the east corner of Stockwell Street; and, when a vacancy takes place, by the employment or absence for a quarter of an hour, of any on the more advantageous stations, in this order—the Porter first on the next station, for the day, shall have the right of moving to it—that is to say, the first of the four at the west corner of Stockwell Street to the west corner of Glassford Street—and the first of the four at the east corner of Stockwell Street to the east corner of Glassford Street; or, the first at the east corner of Stockwell Street may move to a vacancy at the west corner of Stockwell Street. The same rule shall be observed at the Cross, the south end of Candleriggs, and the north end of King Street; the south end of Buchanan Street; and the north end of St. Enoch Street; and at the other parts of the City where there are intersecting streets, or where there are two or more stations near each other.

7th, Not more than six Porters shall resort to or take up a station at any Coach Office, Inn, or other place at which Stage Coaches arrive. On the arrival of Coaches, the Porters shall stand in a line on the kirb-stones of the pavement; and they shall not leave the kirb-stone or interfere with passengers' luggage, till singled out and engaged. They shall not importune, call out, or make any signal to passengers for employment; and, unless specially selected by passengers, they shall take hire in rotation, each in regular succession.

8th, The object of these arrangements being to insure good order on the one hand, and a fair opportunity of regular employment on the other, the Porters must strictly attend to their operation. For this purpose, they may establish rules among themselves, provided these are sanctioned by the Superintendent of Police, who may alter or rescind them, and provided they are not inconsistent with the Regulations hereby enacted. In the event of dispute or misunderstanding among them, the same shall be determined by the Superintendent. And, as a corrective of improper

conduct, the Superintendent may remove such as do not comport themselves with propriety, to an inferior station, and promote the next in order.

9th, No Porter shall appear on his station intoxicated; if he does, he shall be removed, and the next in order shall take his place. All Porters are prohibited from standing on the pavement or crossings, to the obstruction or annoyance of the lieges; as also from smoking, when upon their stations, or in any manner giving offence. In general they are enjoined to conduct themselves orderly among themselves, and discreetly towards the public; to obey the instructions of the Magistrates; and to assist the Police in cases of emergency, and on all occasions when required by the Superintendent, or the officers acting under his authority.

10th, Porters contravening, or not conforming to these Regulations will subject themselves to a penalty not exceeding forty shillings; which penalty shall be awarded, and the Regulations enforced in a summary manner, by the Sitting Magistrate in the Council Chambers or Police Court, who may also dismiss from said employment, and deprive of their badge such as shall offend.

ALMANAC AND TIDE TABLE.

JULY, 1843, TILL JULY, 1844.

THE following Tables, having been constructed on strictly scientific principles, will, it is presumed, be found as accurate as any Tables of the same kind yet produced.

On the subject of the Tides, we may remark that they are effected by the unequal attraction of the sun and moon, but chiefly that of the latter object. The times of high water do not always answer to the same distance of the moon from the meridian at the same places, but are variously affected by the action of the sun, which brings them on sooner when the moon is in her first and third quarters, and keeps them back later when she is in her second and fourth; because, in the former case, the Tide, raised by the sun alone, would be earlier than that raised by the moon, and, in the latter case, later. When the moon is in perigee, or at her nearest distance from the earth, she attracts strongest, and, therefore, raises the Tides most; the contrary happens when she is in apogee, or at her greatest distance from the earth, because of her weaker attraction. At new moon, when the moon is in conjunction with the sun, the Tides are raised by the joint attraction of both luminaries, and, therefore, will be highest; the same is the case at full moon, when the sun and moon are in opposition; for whilst the moon raises the Tides under and opposite her, the sun, acting in the same line, raises the Tides under and opposite to him, whence their conjoint effect is the same as at the change, and, in both cases, occasions what are called *Spring Tides*. But, at the quarters, the sun raises the Tides when the moon depresses them, and depresses them when they would be raised by the moon, hence it is the difference of their actions that produces the Tides at the quarters, and these are called *Neap Tides*. But these Tides do not happen till a day or two after the above times; because in this, as in other cases, the effect is not greatest or least when the immediate influence of the cause is greatest or least, but sometime afterward.

The sun being nearer the earth at the beginning than at any other time of the year, its attraction will then be most powerful, and, of course, about January, the Spring Tides will be greater than at any other time, and greatest of all if the moon at the same time happen to be in perigee.

When the moon is in the equinoctial, the Tides are equally high in both parts of the lunar day; but, as the moon declines from the equinoctial towards either pole, the Tides are alternately higher and lower at places having north or south latitude. Whilst the moon has north declination, the greatest Tides in the northern hemisphere are when she is above the horizon, and the reverse when her declination is south.

The time and elevation of high water, at Glasgow, are considerably affected by high winds in the Clyde. From the form and course of the Frith it will be easily seen that a gale from N. N. W. or N. W. by opposing the flow of the Tide, will cause the time of high water to be earlier, and height of the Tide to be less, than it otherwise would be, while a gale from the S. S. E. or S. E. would have an effect quite the contrary, so as sometimes to make the Tide vary considerably from the time noted in the Table.

The time of high water at any of the following places may be found by applying the correction opposite the name to the time of high water at Glasgow.

Receiving-House letters are collected on Sundays and Fast Days, at 8 p.m. only, except those from Queen Street.

No letters are taken at the Receiving-Houses after the time above specified. When parties wish to send Letters by the Mails after the closing of the boxes, they must apply at the Window of the General Office, Glassford Street.

Paid Letters to go by the Mails dispatched before 9 a.m. must be posted the previous evening before 10-30 at the General Office, and before the latest collection at the different Receiving-Houses.

Letters having Stamps affixed, and intended to be sent by the Edinburgh or London Evening Mails, may be dropped into the Receiving Box, at the General Office, without a fee up to 10 p.m.

Postage Stamps.

Stamps may be procured at the General Office, Glassford Street, the Stamp Office, and the several Receiving-Houses. Labels 1d. and 2d. each, and Covers $1\frac{1}{4}$ d. and $2\frac{1}{4}$ d. each.

When the Value of Stamps on the Letter is less than the amount of the Postage to which it is liable, the Letter will be charged double the Amount of such difference on delivery.

Stamps may be used for *Printed Votes* and *Proceedings in Parliament*, and on Foreign, Colonial and Ship Letters, &c. *outwards*. If any letter, however, addressed to places beyond sea, bear an insufficient number of Stamps, it will be sent to the Dead Letter Office, to be returned, in all practicable cases, to the writer. Stamps are *not* permitted to be used on Letters arriving in the United Kingdom from the Colonies or Foreign Countries.

These Regulations are applicable to Newspapers in those cases where they are liable to Postage.

If the Stamps affixed to letters have been mutilated or defaced, the letters will be liable to the unpaid rate.

A letter with a Stamp affixed which has been cut from an envelope does not entitle it to pass free of charge.

Members of either House of Parliament are entitled to receive free of charge petitions addressed to either House of Parliament, provided they are sent in covers open at the sides, and do not exceed the weight of thirty-two ounces. Addresses to Her Majesty go free of postage.

Printed Votes and proceedings in Parliament are charged at the following rate between places in the United Kingdom, and between the United Kingdom and the Colonies, when conveyed by packet.

Not exceeding 4 ounces, 1d.

Exceeding 2 ounces and not exceeding 8 ounces, 2d.

Exceeding 4 ounces and not exceeding 12 ounces, 3d.

and so on in proportion. Pre-payment optional.

Letters of Soldiers and Sailors remain unaltered, their privilege being restricted to half an ounce in weight.

Letters and packets exceeding sixteen ounces in weight, with the exception of those classes mentioned below, are sent to the Dead Letter Office to be returned to the sender.

EXCEPTIONS.

Parliamentary Petitions and Addresses to Her Majesty.

Parliamentary Proceedings.

Letters and packets addressed to, or received from, places beyond sea.

EXCEPTIONS CONTINUED.

Letters and packets to and from public departments, and to and from officers who formerly franked by virtue of their office.

Deeds, if transmitted in covers open at the sides. These may, however, be tied with string and sealed to prevent inspection of the contents, though they must be left open at the sides that it may be seen that they are entitled to the privilege.

RE-DIRECTED LETTERS are charged an additional postage for each re-direction according to the pre-paid scale.

BOTTLES,

Containing liquid, and articles of a brittle nature, should not be forwarded through the Post, as they are almost invariably broken, either by the operation of Stamping or by the friction of the Coaches. It is besides improper so to transmit such articles, as by accidents to them, the seals of Letters in the bags may be damaged, the Letters mutilated, or their addresses effaced. For similar reasons, articles having SHARP EDGES should not be transmitted through the Post.

REGISTRATION.

Letters, whether containing Coin or not, can be registered on payment of a fee of ONE SHILLING, in addition to the Rates of Postage, Inland, Colonial or Foreign. A printed acknowledgment will be given to any person registering a Letter. Registered Letters will be taken until within half an hour of the closing of the Box for the particular Mail by which they are to be dispatched. Letters for Registration, bearing a sufficient number of Stamps, will be considered Paid Letters, but the fee of one shilling must always be paid in money.

In the case of Foreign, Colonial, or Ship Letters, it must be clearly understood, that Registration can only extend to the Port of shipment. Letters, however, addressed to France, and Letters passing through France, are exceptions to this rule, the French Post Office undertaking to provide for their security till they shall have been delivered, *if addressed to France*, and so long as they remain in the French territory, *if passing through France*.

The arrangements for carrying out the system of Registration have been made with the view of ensuring the safe delivery of Registered Letters; on their delivery the parties to whom they may have been addressed will be required to acknowledge in writing their receipt. *Parties transmitting Bank Notes, Bank Post Bills, Drafts, Jewellery, &c. should invariably secure their transmission by Registration; and persons having occasion to send by Post small sums are recommended to make use of*

No order will be given for sums beyond this amount.

Letters for Dublin and the Post Towns south of that city are forwarded, *via* Liverpool, by the English morning mail, when posted after the dispatch of the direct mail, *via* Portpatrick.

FOREIGN MAILS.

Ship Letters.—The single rate to places beyond sea, when conveyed by private ship, is 8d. half an ounce, 1s. 4d. under an ounce, 2s. 8d. under 2 ounces, and so on.

Owners, Consignees, or Charterers, (resident in the United Kingdom,) and the Owners, Consignees, and Shippers of Goods on board vessels inward bound, are entitled to receive their letters free from sea postage, to the extent of six ounces. In case of vessels from *Ceylon, Mauritius, the East Indies and the Cape of Good Hope*, the privilege extends to twenty ounces in weight. The Owner, Charterer, or Consignee, must be described as such in the address; and in case of Owners, Shippers or Consignees of Goods, it must appear, by the ship's manifest, that they have goods on board.

A penalty of ten pounds is incurred by parties *falsely* superscribing a letter as Owner, Shipper, Charterer, or Consignee.

Letters for Foreign Countries, the pre-payment of which is required, when put into the unpaid box, or left at the office with *less* than the full postage, are sent to the Dead Letter Office, and returned to the writer, when his address can be ascertained.

LETTERS TO AND FROM AND PASSING THROUGH FRANCE.

A new Convention having been made with France, the following alterations in the rates of Postage, and also in the manner of charging the rates of Postage, have taken place:—

The *British* rate on all Letters addressed to *France* and *Algeria*, or to countries *through France*, is reduced to 5d. on a Letter *not exceeding Half an Ounce* in weight, and the *French* rate on such Letters is reduced

to 5d. on a Letter under the weight of a quarter of an ounce, to whatever place in *France* or *Algeria* the Letter may be addressed, excepting however all Letters conveyed by *British Packets* in the Mediterranean, which are liable to the *British Mediterranean rates* in addition to the above mentioned British rate of 5d. from England.

The French *transit* rate on Letters passing through *France* is also reduced to 5d. on a Letter under the weight of a quarter of an ounce, but the other *Foreign Rates* vary according to the limit to which the Letter may be paid.

All Letters addressed to *France*, or to countries through *France* (except to those countries hereafter mentioned to which the *British Rate* need only be paid), are liable to both the British and Foreign Rates combined; for instance, a Letter not exceeding half an ounce is liable to one British Rate, while a Letter under a quarter of an ounce is liable to one Foreign Rate, and so on in proportion, as shown in the following scale :—

					British Rate.	Foreign Rate.
A Letter under a	$\frac{1}{4}$	of an ounce	is liable to	1	and	1
— weighing a	$\frac{1}{4}$	and not exceeding	$\frac{1}{2}$	1	—	2
— exceeding	$\frac{1}{2}$	and under	$\frac{3}{4}$	2	—	3
— weighing	$\frac{3}{4}$	and not exceeding	1	2	—	4
— exceeding	1	and under	$1\frac{1}{4}$	4	—	5

The British charge increasing *two Rates of Postage* for every additional ounce, according to the scale of weight, for charging Inland Letters, and the Foreign charge increasing *one Rate of Postage* for every additional quarter of an ounce. It must be observed, however, that this Table is not strictly correct, as the English and French modes of charging by weight are dissimilar; a Letter not being liable to an increased *British Rate*, unless it exceed the half ounce or ounce, while an additional *Foreign Rate* is chargeable if it actually attain the quarter, half, three quarters of an ounce or ounce, respectively.

Letters to *France* and *Algeria* must be either unpaid or have the whole of the Postage to destination, British and Foreign, paid in advance, as it is no longer optional to pay the British rate only.

The *Postage through France* must be paid on Letters for *Spain* and *Portugal*, (when addressed *via France*,) and on Letters for *Sardinia* and the *Southern States of Italy*.

The Postage on Letters for Southern Italy may be paid through *Sardinia*, (*viz.* to the frontier towns of *Sardinia*, *Broni* or *Sarzane*,) as well as through *France*, and the Postage on Letters to *Sardinia* itself may be paid to destination in *Sardinia* as well as through *France*.

The following are the countries to which Letters may be sent by paying only the British rate of 5d. on Letters when not exceeding half an ounce, *viz.* :—

Turkey,	The Ionian Islands,	Germany,	} If specially addressed <i>via France</i> .
The Levant,	Austria,	Belgium,	
The Archipelago,	Venetian Lombardy,	Holland,	
Greece,	Switzerland,		

The Public are recommended to pay this rate of 5d. on Letters addressed to these countries, though Letters to such countries may also be sent paid through *France*.

Letters for *Baden, Bavaria*, and certain parts of Germany served by or forwarded through the office of the Prince of Tour and Taxis, may be sent *unpaid*, or *paid through France*, or *paid to destination*.

Letters for the following places may be forwarded by the *French Mediterranean Packets* which leave Marseilles on the 1st, 11th, and 21st of each month, either *unpaid or paid to destination*, viz. :—

Alexandria.	Greece.	The two Sicilies.
Constantinople.	Malta.	Smyrna.
The Dardanelles.	Papal States, or States of the Church.	Tuscany.

Letters intended to go by these Packets should be addressed “by French Mediterranean Packet.”

Letters for Malta and Alexandria may be also sent by the closed Mail on the 4th of each month, either *unpaid or paid to destination*, but on Letters for the Ionian Islands and the East Indies, sent by such closed Mail, the *Postage must be pre-paid*.

LETTERS FOR BRITISH COLONIES OR FOREIGN COUNTRIES BEYOND SEA, VIA FRANCE.

In addition to those countries and places on the Continent and in the Mediterranean which have been already alluded to, Letters may be sent to any British Colony or Foreign Country beyond sea from any Port in France, if specially so addressed. The charge on such Letters will be the British rate of 5d. on a Letter not exceeding half an ounce in weight, and a Foreign rate of 10d. under a quarter of an ounce, both which rates must always be paid in advance. It is advisable that the name of the Port in France from which it is wished that the Letter should be dispatched, and also, if possible, the name of the Vessel by which it is to be conveyed, should be stated on the address of the Letter.

PAID LETTERS.

On Letters tendered to be paid to France, or on Letters addressed to places in the *Mediterranean* or beyond, through France, the *whole Postage, both British and Foreign*, will be demanded. The whole postage must also be paid on Letters addressed to *India, China, Ceylon, Australia, New Zealand, &c.* when forwarded through France.

On Letters to *Spain, Portugal, Sardinia*, and to the States of *Southern Italy*, the *British and Foreign Postage* through France will also be demanded, but on all other Letters the British rate of 5d. will be taken, unless it should be the wish of the sender to pay the whole Postage to destination, or as far as may be practicable.

REGISTERED LETTERS.

Registered Letters to France will continue to be sent under the same regulations as at present, and Registered Letters addressed to countries through France will be treated in like manner, that is, a Registration Fee of 1s. over and above all rates of Postage must be paid in advance, the *British rate* being the same as on other Letters similarly addressed, but not registered, but *double the Foreign rates* to destination, or to the utmost limit to which the Postage can be paid, to which an ordinary Letter would be liable, will be taken, and the whole of the Postage must be paid in advance.

FOREIGN RATES.

The *Foreign rates* on Letters paid to destination are fixed at an uniform rate for each country ; thus the uniform rate to France will be 5d. to Sardinia, 8d. to Switzerland, 9d. instead of varying according to the places to which they might be addressed.

NEWSPAPERS.

English Newspapers may be forwarded to France by Packet *free of* Postage, or by Private Ship for one penny each, and French Newspapers will be delivered in England for one halfpenny each, as at present.

On Newspapers to and from Spain, *via France*, the rate will be one halfpenny each.

On Newspapers to and from Greece one penny each, if forwarded by the *French Mediterranean Packets*.

On Newspapers forwarded by the *monthly closed Mail*, and not *via Falmouth*, to or from the *East Indies*, *Malta*, or any other place in the *Mediterranean*, the rate will be 3d. each.

On Newspapers to and from all other countries, either on the Continent of Europe or beyond sea, passing through France, the rate will be 2d. each. *Prices Current and Commercial Lists*, duly stamped, enjoy the same privilege as Newspapers.

PERIODICAL WORKS AND PARLIAMENTARY PROCEEDINGS.

Periodical Works, not strictly Newspapers, which are published as Pamphlets, and Parliamentary Proceedings, may be forwarded to France, *but to France only*, under the following regulations :—

Firstly—The Postage must be paid in advance.

Secondly—They must be sent in Covers open at the sides.

Thirdly—They must be printed in the English language.

The rates of Postage on such Works and Parliamentary Proceedings will be as follows :—

Not exceeding two ounces in weight, ~~~~~ 1d.

Above two ounces, and not exceeding three ounces, ~~~~~ 6d.

Above three ounces, and not exceeding four ounces, ~~~~~ 8d.

And 2d. for every additional ounce up to the weight of 16 ounces, beyond which weight no publication can be forwarded.

The regular Mails will be dispatched as at present from Dover to Calais, but Ship Letter Bags will be made up between the following places, viz :—

London and Boulogne. Dover and Boulogne. Brighton and Havre.
London and Havre. Brighton and Dieppe. Southampton and Havre.
Dover and Calais.

The above-mentioned Rates and Regulations apply equally to all Letters passing between England and France, whether forwarded by the regular Mail Packet or by Private Ship.

It must, however, be distinctly understood, that all Letters will be forwarded by the regular Mail from London, *via* Dover and Calais, unless specially addressed by private ship, and unless the route is specified.

Letters not to be Sealed with Wax.

The practice of sealing letters, passing to and from the East and West Indies, and other warm climates, with wax, is attended with inconvenience, and serious injury to the letters, in consequence of the melting of the wax, and adhesion of the letters to each other. The public are therefore recommended in all cases to use wafers in preference to wax, in securing their letters sent to India or other warm climates, and also to advise their correspondents in those countries to pursue the same course.

NEWSPAPERS AND SUPPLEMENTS TO NEWSPAPERS.

ALL Newspapers must be sent in covers, open at the sides, and no words or communication may be printed or written on such papers or covers after the same shall have been published, other than the name and address of the persons to whom they are sent; nor any thing enclosed or concealed in either newspaper or cover. Newsvenders *only* may print their names and addresses thereon. Newspapers may be examined by the Officers of the Post Office; and if there be any breach of the above regulations, the packet is chargeable with treble the amount of postage which a letter of the same weight would have been liable to. Any person contravening the law, may, at the option of the Postmaster-General, be prosecuted as for a misdemeanor.

*** As the mere affixing a Newspaper Stamp on any new periodical publication will not entitle it, *as a matter of course, to pass free by the Post*, those who may be about to publish for the *first* time, any such paper, should submit a copy to the Postmaster-General, in order that it may be determined whether the publication is of a nature that will entitle it to pass free of postage.

Clause of the Act of 1st Victoria, cap. 34, sec. 32.

“And be it further enacted, that in all cases in which a question shall arise whether a printed Paper is entitled to the privileges of a Newspaper or other publication hereby privileged, so far as respects the transmission thereof by the Post under the Post Office Acts, the question shall be referred to the determination of the Postmaster-General, whose decision, with the concurrence of the Lords of the Treasury, shall be final.”

Those joining the PARTICIPATION FUND have the WHOLE PROFITS of that Department divided among themselves, after deduction of a small per centage to assist in defraying the expense of management.

THE VERY GREAT SUCCESS of this Company, since its establishment, may be attributed, among other causes—1st, To the acknowledged ADVANTAGES afforded by its DIFFERENT PLANS OF ASSURANCE; 2d, To the COMPLETE SECURITY afforded by the Subscribed Capital of a large and influential Proprietary; 3d, To the AMOUNT OF BUSINESS secured from that Proprietary, INDEPENDENT OF EVERY OTHER SOURCE; 4th, To the ADOPTION OF PREMIUMS calculated at MODERATE and yet PERFECTLY SAFE Rates; and, 5th, To the principle of an ANNUAL DIVISION of the Company's profits.

PARTIES MAY ASSURE ON THE PLAN OF PARTICIPATION IN THE PROFITS of the Company, and secure every advantage to be had in a Mutual Assurance Society, WITHOUT THE SMALLEST RISK OR RESPONSIBILITY. Or,

THEY HAVE THE OPTION OF ASSURING AT THE LOWEST SAFE RATE OF PREMIUM, if they wish merely to secure a certain fixed sum at the most favourable per centage, whether IN CONNECTION WITH LOANS or otherwise.

ASSURERS ARE ALLOWED TO ADOPT ANY PLAN IN THE PAYMENT OF THE PREMIUM most convenient for themselves.

In the DISTRIBUTION OF PROFITS, they have the great and well-known advantage of EARLY CONNECTING THEMSELVES with a Company established within the last few years, which has not yet made a Division of Profits, and which has already secured a very large and increasing business.

EVERY ADVANTAGE will be given to Assurers in THE NEGOCIATION OF LOANS, by Redeemable Annuity or otherwise.

TO PARTIES PROCEEDING ABROAD, beyond the limits of Europe, EVERY FACILITY IN THE OBTAINING OF LICENCE will be afforded at RATES PROPERLY GRADUATED TO THE RISK.

NO ADMISSION FEE IS CHARGED AT ENTRY; and there is no additional expense whatever to Assurers, except the Policy Stamp.

IN ALL RESPECTS, the Company's Business is conducted in such a way AS TO AFFORD EVERY FACILITY AND ENCOURAGEMENT which can be offered for the extension of Life Assurance.

Specimens of the Tables of Premiums are subjoined, and all additional Information will be given at the HEAD OFFICE, at the OFFICE IN EDINBURGH, and at the Company's AGENCIES.

No Entry-money or other Charge beyond the Policy Stamp.

Liberty to pass to any part of Europe, without extra Premium.

Annuities, Reversions, &c. present and contingent.

OWING to the very great amount of Business done by this Society—to the Economy with which all its affairs are conducted—to the careful selection of Lives—and to other circumstances peculiar to itself—its Members are entitled to look for the greatest benefits which an Insti-

tution of this kind can bestow ; and it is confidently believed that hitherto their expectations have not been disappointed ; but as much depends not only on the extent of profits to be realized, but also on the mode in which these profits are distributed, it has been deemed proper to explain :—

1st, That once in each period of Seven Years, the whole affairs of the Society are investigated. A valuation is made on the one hand, of the funds present and prospective, *i. e.* of the fund realized and accumulated, which, as stated above, amounts now to upwards of One Million Three Hundred Thousand Pounds, and of the funds in prospect, consisting of the present value of all annuities, premiums, &c. receivable at a future period ; and on the other, of the engagements of the Society, consisting of the present value of all annuities and capital sums payable under Policies, &c. &c. The surplus of the former valuation over the latter is then divided into three parts : two-thirds are immediately allocated, and the other third is set aside and accumulated until the next period of investigation, when a new valuation of the whole funds, including that third with its accumulations, again takes place, and the same process is gone through.

2d, That the two-thirds to be divided are allocated amongst the Policy-holders according to the amount of their Assurances, and the length of time that the insurance has subsisted,—thus : At 31st December, 1838, when the last investigation took place, it was ascertained that they were such as would have admitted of a *retrospective* bonus being declared equal to $2\frac{1}{2}$ per cent. per annum for the preceding seven years, or $17\frac{1}{2}$ per cent. not only on the original sums assured, but likewise on the amount of the previously declared bonus additions (which, it will be seen, are thus *accumulated* progressively at each period of investigation) ; but as, in terms of the Laws of the Society, it is necessary to set aside, out of the two-thirds, a sum to meet what is called the *contingent prospective bonus*, or a sum equal in value to an addition of like amount to the retrospective bonus declared for the preceding seven years, to be paid on all Policies which may lapse or emerge before the next septennial period arrives, *i. e.* during the seven years then commencing, corresponding to the number of premiums ; the $2\frac{1}{2}$ per cent. was reduced to 2 per cent.

The attention of the public is particularly requested to the peculiarity of this system, because in many offices professing to give large annual additions, no provision is made for this contingent prospective bonus, without which the system of division cannot be strictly equitable, since the heirs of the member who dies the day before a period of investigation, receives no more than the heirs of him who died the day after the preceding period of investigation, although the former has contributed for many years longer to the funds. In other offices, when contingent prospective additions are declared, they are not provided for out of the two-thirds, but are made payable *out of the third set aside for guarantee*. These are points that may not, perhaps, occur to casual observers, but they are of the highest importance in the actual, as contrasted with the *apparent*, prosperity of an Assurance Society. Having explained this general principle, it is now only necessary to show its practical application in the following tabular view, from which it will be seen that the bonus additions vary according to the date at which the Policy was opened, from TEN PER CENT. to nearly SEVENTY PER CENT. ON THE SUM ASSURED.

MILLEN'S
ENGLISH ACADEMY,
GEORGE SQUARE, GLASGOW,

ENTRY BY

29, NORTH FREDERICK STREET.

1st Class taught between 9 and $\frac{1}{2}$ past 11.

2d and 3d Classes, between 10 and 1.

Junior Classes, between 12 and 3.

Young Ladies' Class, between 3 and 4.

THE Scholars forming the Junior Classes are carefully instructed in the Elementary Principles of English Reading; while Lessons on objects enliven their minds, quicken their perceptions and increase their fund of useful knowledge.

The 2d and 3d Classes read the Holy Scriptures, and various instructive Lessons in Natural History, in the first principles of Science, and on Moral and Religious Subjects. They are also taught to spell and explain words, and are initiated in the knowledge of those Latin roots from which English words are derived. No lesson is read in these, nor in the other Classes, which is not more or less explained, according to the age of the pupils and their capacity for acquiring information.

The First Class, besides the Scriptures, read interesting lessons in Science, Literature and General Knowledge. The most difficult words in their lessons they require to spell and explain. Being familiar with the principal Latin Roots and with the English Grammar, they are in the habit of classifying words, not only according to their parts of speech, but according to their derivation. The study of Geography, English Grammar, Composition, and the Use of the Globes, affords frequent opportunities for calling into exercise, and consequently improving, the mental faculties of all the members of this Class. In the Geographical Course the principal Animals, Curiosities and Productions of the different Countries of the World are described, and those events are brought under review which form the chief features in the histories of the different nations of the earth.

To illustrate these various Lessons, Large Maps and numerous Plates are employed.

In the Young Ladies' Class the exercises are similar to those of the First.

These Classes are all taught in Spacious Apartments, and due attention is paid to the comfort and health of every Scholar.

REPORT OF PROCEEDINGS

AT

ANNUAL MEETING OF THE SOCIETY,

HELD AT THEIR

OFFICE, 141, BUCHANAN STREET, GLASGOW,

ON 17TH MARCH, 1842.

W. F. CAMPBELL OF ISLAY, ESQ. PRESIDENT OF THE SOCIETY,
IN THE CHAIR.

THERE was read to the meeting, by the Manager, the annual statement of the Society's affairs, from which it appeared that a greater number of Policies had been issued during the year 1841 than in any former year of the Society's existence, and that the amount of Policies which had become claims was about two-fifths of the calculated amount, according to the tables from which the premiums are deduced. The statement having been read,

The CHAIRMAN congratulated the meeting on the satisfactory state of the Society's affairs which had just been read. He was glad to observe the steady progress which it was making, and, above all, we had reason to be thankful for the unusually small proportion of the Policies which had become claims during the past year. He had a high opinion of the importance of life assurance. They all knew how

desirable it was that their death-bed should not be harassed with earthly cares; and if, when about to be called "to that bourne from whence no traveller returns," the duty of providing for those dearer to us than life should then be found to be neglected, no greater earthly anxiety could disturb our dying moments. It was a long time before a man could, by accumulation, provide the sum he wished for his family; and it was well known with what little difficulty many would find an excuse for encroaching upon their savings; besides, who can tell but that before the desired provision should be made, the hand of death might suddenly arrest him, and his family be thus deprived of those comforts which he had been the means of contributing to them during his life. In these circumstances, feeling what a benefit was conferred on the community by life assurance, he was glad to lend any assistance in his power to the advancement of such societies as their own. It was founded on an excellent basis, and did not hold forth any illusory advantages, but its members might depend on the realization of the benefits they were led to expect.

SIR ADAM HAY said, that after the excellent remarks made by the Chairman, it would be unnecessary for him to detain the meeting, and he would simply propose that, as recommended by the General Committee of Management, his Grace the Duke of Buccleuch should be elected a Vice-President of the Society, and that the Solicitor-General and Sir Thomas Joseph de Trafford, Bart., be elected Extra-

ordinary Directors, and the Rev. Dr. Norman M'Leod and Charles Forbes, Esq., banker, Ordinary Directors in room of those who retire.

MR. ALEX. CUNNINGHAM, W.S., had much pleasure in hearing the names of the gentlemen proposed by Sir Adam Hay for appointment as Directors—the business habits of those proposed for the Ordinary Direction were well known, and he had much satisfaction in seconding the motion, which having been carried,

The REV. DR. NORMAN M'LEOD, in returning thanks for his appointment as an Ordinary Director of the Society, begged to say that he felt much gratified by the honour conferred upon him by so respectable a meeting of his esteemed fellow-citizens. The confidence reposed in them inferred responsibility and diligence; he hoped that he felt that responsibility, and that he should be enabled to promote the advancement of the excellent and philanthropic objects for which the association was formed. It had frequently fallen to his lot to look out for members for various charitable and philanthropic societies, and he might with gratitude say, that he had not been an idle or inactive member of any society with which his name stood associated. In urging friends and acquaintances to become members of this Society, he felt that he was doing *them* a favour; he did not know a more philanthropic measure in which an individual could engage, or beat about from house to house over all the land, than in urging every one, whatever his rank, station, or income

might be, to become a member of an insurance association, if he had hitherto neglected so admirable a mode for making a provision for his family. And he thought no class of persons were more imperatively called upon to join such societies than clergymen who held incomes by the uncertain tenure of human life. Where was the clergyman, depending, as most of them were, on their stipend, who could in any other way make any provision for his family? He did not know how it might be with other clergymen, but he could truly say for himself, (and he was not ashamed to say it,) that in any other way he would despair of securing even one hundred pounds for his family. It had seldom or ever been his good fortune to have ten or twenty pounds by him that there was not ten or twenty demands for them. The pleasure of walking into a bank and handing over ten or twenty pounds to the teller, and asking him to add that to his accumulating cash account, was a pleasure of which he had not great experience; and should persons be enabled to accumulate a trifle, emergencies would now and then occur which might compel them to call up all they had in store; but accumulation and saving through life assurance could not so easily be encroached upon, and was secured by payment of an annual premium, requiring to be as punctually provided for as any other expense, but having this advantage over other taxes, that it was a voluntary sacrifice of income, cheerfully submitted to for the purest purposes. He knew not how a man having a family, and whose income

depended upon his own life, could excuse himself from making such a sacrifice. The Report to-day read by their Manager was truly most gratifying, and he trusted that year after year would show an increasing degree of prosperity. He again thanked the Society for the honour they had done him, and could assure them he would use his best endeavours to promote the interests of the Scottish Amicable.

MR. CHARLES FORBES thanked the meeting for the honour done him in appointing him a Director of the Society. He felt a deep interest in its welfare, and was glad to lend any assistance in his power to promote its advancement.

MR. FARQUHARSON of Allargue, moved the thanks of the meeting to the Ordinary Directors for their services during the past year.

PROFESSOR BALFOUR seconded the motion ; and the same having been unanimously adopted, and MR. CAW having returned thanks,

MR. SPROT of Garnkirk said, he was sure it must have subjected the President to much inconvenience to come there ; and when the meeting had seen the admirable manner in which he had discharged the duties of the chair, he was confident they would all cordially join him in thanking Mr. Campbell for his attendance on this day, and for his conduct in the chair. This motion having been carried by acclamation, the meeting adjourned.

REPORT OF PROCEEDINGS

AT

ANNUAL MEETING OF THE SOCIETY,

ON 23^D MARCH, 1843.

IN the absence of the President, JOHN ALSTON, Esq. of Rosemount, the senior Extraordinary Director present, having been, in accordance with the constitution of the Society, called to the chair,

MR. SPENS, the Manager, read the Report of the business of the Society for the year 1842. From this Report it appeared that the number of new Policies issued, and the amount of capital sums insured, were both greater than in any previous year of the Society's existence; and that the sum of claims arising from deaths was only about 30 per cent. of the calculated amount, according to the tables from which the premiums of the Society are deduced.

ROBERT KNOX, Esq., said, that after the satisfactory Report they had heard, and the proof they had of the progressive increase of insurers and of contributions, they must be convinced that much of this prosperity was to be attributed to the prudence and the active exertions and management of the Directors; and, it was therefore needless for him to say a word on the subject—the Report spoke for itself. He would, with much pleasure, move that the thanks

of the Meeting be given to the Ordinary Directors for their valuable services during the past year.

MR. STEWART of Carfin, seconded the motion, which was unanimously agreed to.

ROBERT JAMESON, Esq., replied on the part of the Directors, and returned thanks to the Meeting for the vote of thanks just now tendered. Next to the consciousness of discharging their duty properly, their greatest gratification was the approval of their conduct by the Members. He was proud to be able to congratulate the Society on the very satisfactory state of its affairs, as exhibited by the transactions of the past year. The increase in the extent of their business in reference to the sums insured, and the number of Policies granted, which were greater than in any former year, must be taken as a proof not only of the increasing prosperity of the Society itself, but as a proof of the confidence of the public generally in its success and stability. One very remarkable feature in the Report is the small amount of claims from deaths among the members during the last year. In 1841, the sum had been only 40 per cent. of the amount as calculated from the tables of mortality, from which the premiums were deduced, and this was properly considered as an unusually small proportion; but this year the claims were only 30 per cent. of the calculated amount. No doubt they hoped that the amount of claims would never in any year be so great as the sum provided for by the premiums; but they could not flatter themselves that the same diminution from the calculated claims

as had happened last year should frequently occur. At the same time he might mention, as most remarkable, that since their annual meeting three years ago, (thus taking a period of three years, though not three proper years of the Society's business,) the claims had not been so much as 30 per cent. of the calculated amount. He might add, for explanation, that the claims last year were in the proportion of about £1 out of £150 assured.

MR. STIRLING proposed that Arthur Forbes, Esq. and John Alston, Esq. be elected Ordinary Directors, in room of those who retire; and that Sir James Ramsay, Bart., Robert Stewart, Esq. of Carfin, and John Dundas, Esq., C.S., Edinburgh, be appointed Extraordinary Directors, in room of Mr. Alston and those who retire. He would only say he hoped that the new Directors would exhibit towards the Society the same attention and prudence which had distinguished the old, and he had no doubt that, by the blessing of God, the Society would continue to prosper. He agreed with the gentleman who moved the vote of thanks to the Directors, that the Society was deeply indebted to them for the very great attention which they had paid to the Society's matters, and was delighted to find it so prosperous, and to observe the very striking fact that the claims last year amounted only to 30 per cent. of the amount provided for.

MR. THOMAS HILL having seconded the motion made by MR. STIRLING, the same was unanimously agreed to.

MR. SPENS said that the results alluded to by Mr. Jameson, in reference to the claims emerged, were very remarkable ; but he was desirous to have recorded in the statistical annals of the Society a still more extraordinary fact. If it had been their practice to state—as might have been done without much objection, if the same mode were always adhered to—the amount of claims *payable* during the year, it would have been found that the Policies payable during the year 1842, or the claims emerged between the 30th June, 1841, and the 30th June, 1842, were only in the proportion of about £1, out of £1000 assured. It was most properly observed by Mr. Jameson, that they could by no means expect in future such favourable results in reference to claims, as had occurred for some time past, but he was happy to say, that since the 25th September, up to the present time, there had been no deaths, so far as was yet known ; and he was glad to add, that since the commencement of this year, a greater number of Policies had been issued, and a larger amount of capital sums had been assured, than in any previous corresponding period.

After votes of thanks to the Manager and Chairman, the meeting separated.

A SHORT STATEMENT
OF SOME OF
THE ADVANTAGES OF THE SOCIETY.

1st, Its Establishment on the Mutual Principle, securing to its Ordinary Members the whole profits of the Society.

2d, While the rates for ordinary Members are not so high as in some offices, they are so ample as to secure the utmost confidence in the Society.

3d, The provision in the constitution of the Society, that the whole Directors shall be ordinary Members of the Society of more than three years' standing. This rule secures to the public, that those noblemen and gentlemen who appear as extraordinary and ordinary Directors of the Society, have practically approved of its principles, and are personally concerned in its advancement and success.

4th, The adaptation of its rates to the cases of Insurance, to which profits are not usually allocated; or where the party insuring desires, for particular reasons, to obtain his policy at as low a rate as possible. Reference is here particularly made to the following classes of Insurance:—Insurance of sums payable at death, or on attaining certain ages—Temporary Insurances—Survivorship Insurances—and Insurances for the whole period of life, on the assumption of a permanent annual bonus, less than what may be confidently expected. This last Table has been lately added by the Directors, and is anticipated to be one productive of very considerable profit. The Directors allow that they consider, in effecting an Insurance for the whole period of life, a party will undoubtedly gain greater advantages by paying the higher premium. They, therefore, are of course satisfied that an Insurance effected for the whole period of life, by the lower premium, is more beneficial to the Office; and as cases occur where a small annual payment is more desired or requisite than a future addition to the Policy, the advantage to the Society of such a scale is obvious.

5th, The period of seven years, which elapses betwixt the investigations of the Society, is considered to be favourable for obtaining a proper

average result of claims, by the deaths of Members ; while,

6th, The objection to a period of that length, in reference to parties dying betwixt the investigations, is obviated by providing for additions to their Policies, corresponding to the period which may elapse betwixt the previous investigation and the date of their decease.

7th, In regard to the present position of the Society, it may be stated, that at the last investigation into the affairs, as at 31st December, 1839, more than one-third of the surplus was absolutely reserved, and less than one-half was allocated in retrospective vested additions, the difference being applied in providing additions for such Policies as should become claims before next investigation, as at 31st December, 1846. At the last Annual Meeting, in March, 1843, nearly half of the septennial period had elapsed, and the interest alone of the sum set aside for the prospective additions had been more than sufficient to meet the claims upon it. During the same period, the general claims upon the Society, through deaths of Members, have, to an uncommon extent, fallen short of the sum provided for by the tables. The Directors, therefore, look forward with the utmost

confidence to the next investigation into the affairs of the Society ; and, at the same time,

8th, They are glad to think that in the caution of the rules and practice of the Society, in ascertaining and allocating the surplus funds, there are the strongest grounds for expecting that at no septennial investigation will a lower rate of addition be declared than at the previous one. This is a matter of considerable importance—at least it is desirable that the public should be aware that they ought not, without inquiry, to take for granted, that because an office has declared a certain rate of addition, the continuance of this may be depended upon. Indeed, it cannot be denied that the prospectuses and advertisements of very respectable offices are calculated to lead to an anticipation of additions which can only end in disappointment.

Farther information, and Prospectuses with Tables of Rates, may be obtained from any of the Agents, or at the Head Office from
